\* Deliveries to be made within 2 weeks of orders.

Printed forms of tender, showing estimates of requirements and conditions of contract, may be obtained from the Secretary, Tender Board, Treasury, Melbourne, or from the officer in charge of police at any of the above-mentioned places, by whom also any information or explanation will be afforded to persons tendering.

The price, which must be expressed in words as well as in figures, and without alterations, erasures, or discrepancies, must be per ton of 40 cubic feet for firewood, including delivery at the offices and all charges. Prices should only be quoted for requirements where estimates are shown above.

Tenders, which must be upon the printed form, will be received for either one or more of the above-mentioned places, and tenders for such places may be accepted or rejected separately; but if all lengths of firewood be included in one tender it may be accepted for one length only, if advisable.

Where the kind or kinds of wood are not mentioned in the tender form, tenderers must specify the kind or kinds of firewood they offer to supply.

Telegrams, or tenders not complying with the terms of advertisement, will not be entertained.

The successful tenderer will be required to enter into a bond for £10, with two approved sureties, for the due performance of the contract, within ten days after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to again hold contracts for Government supplies.

Tenders must be enclosed in an envelope, marked "Tender for Firewood at .. ." as the case may be, and deposited in the Tender-Box, Pay Office, Treasury, Melbourne; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Treasury, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice and by letter to accepted tenderers.

CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. All the firewood supplied under these contracts must be split out of large timber, and must be perfectly sound, dry, and of the kind or kinds specified in the tender; neither burnt wood, heartwood, small branches, nor outside pieces of bark will be received. The billets must be not less than 4 inches nor more than 6 inches in diameter. The long wood to be not less than 9 inches nor more than 18 inches in diameter. Delivery to be made on the written order of the chief officer of the Department requiring the supply. The ton of firewood consists of 40 cubic feet. If the firewood is obtained from a State forest timber reserve, or ordinary Crown lands, persons cutting or removing same must be provided with a licence or permit from the State Forests Department.

3. Orders will be issued half-yearly (except in cases where the storage is small, when they will be issued quarterly); but the contractor must have 24 hours' notice before purchases are made at his risk.

4. The contractor will be bound to place the firewood in stacks for measurement on such ground as may be pointed out. The stacks are to be 2 feet wide (or 6 feet for long wood) by 5 feet high, with space between each stack for measuring; and the billets (or lengths) are all to lie the same way, viz., crossways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack and to the satisfaction of the officer receiving the supply. In the event of any inconvenience being felt, either through delay in delivery or of stacking the wood, the Department concerned will purchase the same or re-stack that delivered, at the risk of the contractor, from whose account any expense incurred thereby will be deducted.

5. The officer receiving the supply shall have full power to reject any wood which he may consider not in accordance with the contract, notice of which will be given to the contractor in writing, stating the reason. The contractor may, however, claim a survey; but in that case he must, within 48 hours after objection is made, give notice thereof in writing to the officer rejecting the wood.

6. The board of survey will be composed of persons appointed by the Honorable the Treasurer, and the decision of the board of survey is to be considered as final.

7. If the board of survey shall decide that the supply is not of proper quality, it must be immediately replaced by the contractor; failing which, it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 4.

8. Accounts for firewood to be rendered to the Department receiving the supply immediately upon completion of the order, which must be attached to the account. Payment will be made at the receipt and pay office of the district, or at the Treasury, Melbourne, as the contractor may desire.

9. In the event of any irregularity on the part of the contractor being repeated, it will be competent for the Government, in case such irregularity should be established to the satisfaction of the Tender Board, to cancel the contract forthwith.

10. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.

11. Under no circumstances will a contractor be permitted to abandon his contract.

Treasury,  
Melbourne, 11th August, 1927.

E. J. HOGAN,  
Treasurer.

1. All former By-laws so far as they relate to the matters and things provided for in this By-law are hereby repealed.

2. This By-law shall come into full force and operation on its approval by the Governor in Council and immediately after its publication in the Government Gazette.

3. This By-law shall apply to and have operation in the Central Riding of the Shire of Benalla, and, unless exempted by the Council, shall apply to every house, building, and premises therein.

4. In this By-law, unless inconsistent with the context or subject-matter—

“Inspector” means any officer authorized by the Commission or Council, and includes any acting or assistant inspector.

“Proprietor” means the proprietor of any premises, and includes the owner, the occupier, or any person having the management or control thereof.

“The Commission” means the Commission of Public Health.

5. The proprietor of any premises on which there is erected a pan-closet shall cause the space under the seat of each pan-closet on such premises to be prepared for the accommodation of a pan as prescribed herein, and shall permit the same to be used for the double-pan service hereinafter provided for, and shall cause each pan-closet to be kept in a fit state for such service.

6. The proprietor shall cause every pan-closet to be supplied by the Council or otherwise with a pan for the reception of night-soil, and shall (except when being exchanged) cause such pan to be always kept in proper position under the seat of each pan-closet, and shall also provide a lid capable of being fitted tightly to such pan when being removed from the premises to the depot, so as to prevent the spilling of the contents and the emission of offensive vapours, gases, or effluvia from the contents of such pan.

7. Such pan shall be cylindrical in shape and formed of galvanized iron of not less than 22 gauge, or other approved material or materials, presenting on the inside and outside an impervious hard, smooth, and durable surface, and those surfaces which come into contact with night-soil shall also be free from any projections. It shall be watertight, strongly constructed, re-inforced with metal bands where necessary, and provided with properly attached side-lifting handles.

Each such pan shall have a capacity of 1½ cubic feet, and shall have an internal depth of 14 inches, a diameter of not less than 13 inches, and a suitable rim or lugs to permit an airtight lid to be affixed.

The reams of the pan shall be folded, grooved, and sweated with solder.

8. The proprietor of the premises shall cause to be kept in every closet belonging thereto a supply of liquid deodorant or lime, sawdust, or some other dry material efficient for deodorizing night-soil, and shall cause all night-soil which may be deposited in the pan in such pan-closet to be immediately on the deposit thereof covered with a quantity of deodorizing material sufficient to thoroughly and effectually deodorize the contents of such pan.

9. The proprietor shall provide every urinal with an approved apparatus for the regulated automatic discharge into such urinal of sufficient approved deodorant for the purpose of keeping such urinal constantly deodorized.

10. No person shall place, or cause or permit to be placed, any slops, water, or rubbish in any pan.

11. The proprietor of any premises whereon there is a pan-closet or urinal shall—

(a) maintain such pan-closet and urinal in good repair and in a cleanly condition; and

(b) when required by an inspector, effectually disinfect such pan-closet and urinal and/or the contents thereof, and effect any repairs thereto that such inspector may deem necessary.

12. At least once a week, and in any case as often as may be necessary to prevent the level of the contents of such pan approaching within 2½ inches of the brim thereof, the pan in use shall be closed with a lid and removed by the contractor or person authorized or employed in that behalf by the Council with its contents from the premises and another pan, thoroughly cleansed and in good order, shall be left in its place.

13. Such contractor or person removing such pans shall report to the Council, at the earliest available opportunity, the discovery of any pan found to be overflowing or leaking, and shall forthwith cause the place whereon the contents have been dropped or spilled to be properly cleansed.

14. The contractor or person authorized or employed by the Council for that purpose shall cause all pans to be removed in a suitable covered vehicle in such a manner as not to cause nuisance, danger to health, or offensiveness, and forthwith cause such vehicle to be removed to the approved depot.

15. The contractor or person authorized or employed by the Council for the removal of night-soil shall cause such night-soil to be deposited at the depot and disposed of in such a manner as may be authorized by the Regulations.

16. If such night-soil be disposed of in trenches such trenches shall be not less than 9 nor more than 18 inches in depth, nor exceed 2 feet in width, and the bottom thereof shall be broken up by suitable means to facilitate percolation of liquids, and the night-soil shall be deposited therein in layers not more than 6 inches deep, and shall be left at such a depth that there shall be below ground level a covering of at least 6 inches in depth of clean, thoroughly broken-up soil upon the night-soil and pan-washings when covered in.

17. No trench shall be used for the disposal of night-soil where the bottom consists of rock or other impermeable material.

18. Immediately after the deposit of the night-soil and washings in any trench such trench shall be filled in with thoroughly disintegrated earth. The necessary filling shall be obtained by excavation of another trench in a position parallel to but not less than 12 inches from the aforesaid trench required to be filled in, and using the material so obtained as a covering over the night-soil so deposited. Trenches shall be excavated and used and filled in in regular consecutive order.

19. Seed of grass or any forage or cereal crops or other such form of vegetable life as the Council shall direct or approve shall be seasonably planted or sown on any land into which night-soil has been deposited provided that vegetables or seeds of vegetables shall not be planted therein or thereon until three months have elapsed since the last deposit of night-soil in such land.

20. Every pan used for the reception or conveyance of night-soil shall immediately on being emptied be thoroughly washed or otherwise cleansed. The resultant washings or other filth shall be disposed of in a similar manner as the night-soil.

21. Every pan after the disposal of its contents and after being cleansed in manner aforesaid, and before it again leaves the depot or disposal ground, shall on every such occasion be thoroughly cleansed and disinfected by

- (a) immediately after washing and scrubbing with water subjecting the pan to a current of steam from a boiler at 60 lb. pressure to the square inch for not less than two minutes in a steamtight box or chamber; or

- (c) thorough washing and scrubbing in water and afterwards submerging for not less than five minutes in boiling water; or
- (d) any other method approved in writing from time to time by the Commission.

22. The internal surface of every pan before it is first used shall be properly coated with well-boiled tar, crude creosote, or other approved material, and such coating shall thereafter be renewed when deemed necessary by the Council, but not less than once a month.

23. The contractor or person authorized or employed by the Council for the removal of night-soil shall cause all vehicles used for the transport of pans to the depot to be properly constructed, kept clean, and disinfected daily at the depot and maintained in a proper state of repair.

24. The proprietor or any other person shall not remove any night-soil from any premises except in accordance with this By-law.

25. The proprietor or any other person within the area defined by this By-law shall not bury nor cause to be buried any night-soil in any yard, garden, or other place not being a place set apart for such purpose by the Council.

26. The inspector shall have full power to enter into or upon any premises, yards, or lands at any time for the purpose of inspecting closets, urinals, pans, receptacles, vehicles, plant, and all other things, and places therein and thereon, and for the purpose of carrying out the provisions of this By-law.

27. If any person or the Council commit a breach of this By-law he or they shall for every breach be liable to a penalty of not more than Twenty pounds, and in the case of a continuing offence to a further daily penalty of not more than Five pounds.
