Schedule.—2,000 reams, Double Imperial Printing Paper (two descriptions, 1,000 reams each).

Preliminary deposit.— $2\frac{1}{2}$ per cent. of total of tender submitted.

Schedule as above, with full particulars and conditions of contract, may be obtained from the Secretary to the Tender Board, by whom also the samples will be shown and any information afforded to persons tendering.

If the tenderer is in a position to supply a suitable substitute of Commonwealth production or manufacture in place of the sample at the Tender Board Office he may tender for such substitute under column A in the schedule, but he must submit with his tender a sample of the article offered.

Preference will be given by the Tender Board, provided the quality of the articles offered is satisfactory, and the rates charged are considered reasonable—

- tenders for articles manufactured within any other part of the British Empire.

In all cases the country of origin of the articles offered must be stated, and the total cost of each item extended in the columns provided.

- (b) to tenders for articles manufactured within any other part of the British Empire.

In all cases the country of origin of the articles offered must be stated in the column set apart for this purpose.

Security will be required either in Bank Guarantee (bank to be approved by the Tender Board), Victorian or Commonwealth Government Debentures, Savings Bank Deposit Book, or Bank Deposit Receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

In the event of tenderers withdrawing their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender. It is also stipulated that if a tenderer be a member of a firm and such firm be interested in the contract, then his tender is to be in the name of the firm and not in that of the individual; and that for a breach of this condition the preliminary deposit will be forfeited and the tender declared informal.

Tenders, enclosed in a separate envelope, and having the words "Tender for _____" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne, or, if sent by post, they must be prepaid and addressed to the Chairman of the Tender Board, Treasury, Melbourne.

CONDITIONS OF CONTRACT.

1. The Government will not be bound to order from the contractor all the articles enumerated in the schedules, but only those articles, and such quantities of those articles, as it may be found necessary to order. Should the Government, however, require a larger supply of any article than the quantity stated in the schedule, the contractor will nevertheless be bound to supply the same at contract rates.

2. The supplies are to be the same as sample where so stated, and of the particular description indicated in the schedules of tenders. In the case of different makers' goods, the contractor will be required to supply the kind ordered. In the event of a tender being accepted for goods of Commonwealth or British manufacture (as the case may be), all such goods supplied shall bear evidence that they are of the particular manufacture tendered for, and, in addition, the contractor may at any time during the currency of the contract be called on to furnish a statutory declaration as to the country of origin of the goods supplied. The supplies are to be the best quality of their several kinds or manufacture.

3. The value of all packages, cases, &c., whether bulk be broken or not, must be included in the prices stated in the contractor's tender; all such packages, &c., to be considered the property of the Government, and no charges or expenses whatsoever beyond the price tendered and set out in the schedule will be allowed to the contractor for any articles or packages, cases, &c. The net quantity only will be paid for. Contractors must provide, without extra charge, whatever labour may be required in the packing of stores, and the stores shall be packed in such a manner as shall secure them from injury during transit, and until delivery such stores shall be at the risk of the contractor.

4. All orders for supplies will emanate from the Education Department. The goods shall be delivered as may be directed by the officer ordering the supply.

5. Supplies ordered for delivery in Melbourne are to be delivered free of all charges (whether cartage, freight, &c.), and, for the purposes of this contract, Melbourne will include a radius of 6 miles from the General Post Office.

6. Arrangements as to time of delivery and inspection of goods will be made by the Secretary for Education or such other officer whom he may appoint.

7. Orders must receive prompt execution; and in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order, or within such other time as the order may specify for delivery, it will be competent for the officer named in Condition 6, or the head of the department to whom the goods are to be supplied, on giving the contractor twenty-four hours' notice, to purchase the supplies, or any like supplies that are suitable for the service, at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account or from the security money.

8. All orders, duly received, shall be returned to the Education Department at the end of each month, accompanied by an account under the Audit Act and Regulations for the articles supplied during the month, and, on receipt of same, the contractor shall be entitled to payment, due time being allowed for the examination and verification of the claim.

9. The acceptance of the supplies shall be subject to the approval of the officer authorized to take delivery of the stores, or such other officer as shall be named in the conditions. Delivery of the articles will not be deemed to be made until they have been handed in good order and condition to the head teacher of the school or such other person as may be authorized to accept delivery, &c. The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four hours after objection is made, give notice thereof, in writing, to the officer rejecting the goods. If, after the delivery of the supplies has been taken, any deficiency or defect is discovered therein, such deficient or defective stores may be returned to the contractor.

10. All goods forwarded under this contract shall, where practicable, be forwarded by rail, and all consignments shall bear the number of the consignment notes under which they are forwarded, and also the name of the contractor by whom consigned.

11. When the contractor is required to make delivery of goods at a railway station for transmission by rail for any department, he shall obtain a receipt for the goods in duplicate on the Stores and Transport consignment note, at the same time handing in a triplicate of the form as an authority for the Railways to act as agent for, and charge the freight to, the Stores and Transport Department or such other Department as shall be named therein. He shall as soon as possible, and not later than twenty-four hours thereafter, deliver at the Tender Board Offices the original, the duplicate to be forwarded to consignee in accordance with Clause 12. Should the goods thus forwarded be rejected, the contractor must bear the cost of replacing such goods, for which service the departmental consignment note is not to be used. Any infringement of this condition will subject the contractor to such mulct as the Tender Board may recommend under Clause 17 of these conditions. Such mulct may be deducted as in Clause 7.

12. Immediately after the consignment of the goods, the officer to whom they are forwarded shall be notified by the contractor, on the duplicate consignment note provided for the purpose, that the goods have been sent. On receipt of this document, the officer to whom it has been forwarded shall acknowledge thereon the receipt of the goods without delay to the Stores and Transport Office. In the event of loss through failure on the part of the contractor to comply with this condition he will be held responsible, and the amount of the loss incurred for same will be deducted as in Clause 7.

13. Should the order on the contractor specially provide that goods of a fragile character, or such as are liable to suffer loss by leakage, shall be consigned at the risk of the Railways Commissioners under special freight conditions, the contractor shall in such instance provide, in writing, on the consignment note an intimation to that effect, failing which, in the event of loss, he shall bear the whole cost of replacing the goods, the amount being deducted from the contractor's account or the security money.

14. The official order issued by the Education Department shall be, by the contractor, forwarded by post to the teacher to whom each parcel is directed, for him to sign and return.

15. Delivery will not be deemed to have been made until the goods have been approved of. In case of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the supplies rejected or returned, otherwise purchases will be effected at the contractor's risk, and the extra expense deducted as in Condition 7.

16. The members of Boards of Survey will be appointed by the Treasurer of the State for the time being, and the decision of the Board is to be considered as final. If the Board shall decide that the article is not of proper quality it must be immediately replaced by the contractor, failing which it, or any like supply that is suitable for the service, will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as in Condition 7.

17. A refusal to execute orders, irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding fifty pounds, as the Treasurer may direct, and the amount may be deducted as in Condition 7. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith, and forfeit the whole or any portion of the security money.

18. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.

19. Notwithstanding anything contained to the contrary in section 152 of the Customs Act 1901-24, it is hereby expressly provided that upon any alteration of the duty collected affecting the goods included in this contract, the contract price shall not be altered, and the contract may be terminated at the option of either party by two months' notice in writing from the first day of the calendar month next ensuing, and within the period for which the contract is made. The contract for the unaffected items shall remain in full force and effect. The foregoing provision, however, shall not apply to contracts for imported goods in which fixed and definite quantities to be delivered at stated times are expressed in the Schedules. Any notice to be served under this condition shall be deemed to have been duly served if sent to the contractor in a registered letter to his last-known place of business or abode.

20. Should an increase or reduction take place in the prices at present charged for books and school requisites contained in the said schedule hereto by the publishers or manufacturers, a corresponding increase or reduction shall be made to or by the contractors in the prices of the articles supplied by them. In case of any disagreement as to the amount of increase or reduction the same shall be decided and settled by the Director of Education.

21. Under no circumstances will the contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited; and, in addition, the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

22. Should the Minister of Public Instruction for the time being decide to discontinue the use of any book, map, or any other article in the schedule, or to direct that any book, map, or any other article other than those enumerated therein be taken into use, he shall at any time give six months' notice of such intention or decision to the contractor, and after the expiration of the period of such notice the Education Department shall not be bound to take any further supply of such book, map, or any other article, nor shall the contractor be bound to supply the same, and all books or maps not in the schedule, but which it may be decided to introduce, shall be supplied by the contractor after expiration of such notice at a price to be agreed on between the Minister of Public Instruction for the time being and the contractor.

Printed forms of tender, showing estimates of requirements and conditions of contract, may be obtained from the Secretary, Tender Board, Treasury, Melbourne, or from the officer in charge of police at any of the above-mentioned places, by whom also any information or explanation will be afforded to persons tendering.

The price, which must be expressed in words as well as in figures, and without alterations, erasures, or discrepancies, must be per ton of 40 cubic feet for firewood, including delivery at the offices and all charges. Prices should only be quoted for requirements where estimates are shown above.

Tenders, which must be upon the printed form, will be received for either one or more of the above-mentioned places, and tenders for such places may be accepted or rejected separately; but if all lengths of firewood be included in one tender it may be accepted for one length only, if advisable.

Where the kind or kinds of wood are not mentioned in the tender form, tenderers must specify the kind or kinds of firewood they offer to supply.

Telegrams, or tenders not complying with the terms of advertisement, will not be entertained.

The successful tenderer will be required to enter into a bond for £10, with two approved sureties, for the due performance of the contract, within ten days after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to again hold contracts for Government supplies.

Tenders must be enclosed in an envelope, marked "Tender for Firewood at ..," as the case may be, and deposited in the Tender-Box, Pay Office, Treasury, Melbourne; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Treasury Melbourne.

The Government will not necessarily accept the lowest or any tender.

° The decision of the Government will be made known by Gazette notice and by letter to accepted tenderers.

CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. All the firewood supplied under these contracts must be split out of large timber, and must be perfectly sound, dry, and of the kind or kinds specified in the tender; neither burnt wood, heartwood, small branches, nor outside pieces of bark will be received. The billets must be not less than 4 inches nor more than 6 inches in diameter. The long wood to be not less than 9 inches nor more than 18 inches in diameter. Delivery to be made on the written order of the chief officer of the Department requiring the supply. The ton of firewood consists of 40 cubic feet. If the firewood is obtained from a State forest timber reserve, or ordinary Crown lands, persons cutting or removing same must be provided with a licence or permit from the State Forests Department.

3. Orders will be issued half-yearly (except in cases where the storage is small, when they will be issued quarterly); but the contractor must have 48 hours' notice before purchases are made at his risk.

4. The contractor will be bound to place the firewood in stacks for measurement on such ground as may be pointed out. The stacks are to be 2 feet wide (or 6 feet for long wood) by 5 feet high, with space between each stack for measuring; and the billets (or lengths) are all to lie the same way, viz., crossways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack and to the satisfaction of the officer receiving the supply. In the event of any inconvenience being felt, either through delay in delivery or of stacking the wood, the Department concerned will purchase the same or re-stack that delivered, at the risk of the contractor, from whose account any expense incurred thereby will be deducted.

5. The officer receiving the supply shall have full power to reject any wood which he may consider not in accordance with the contract, notice of which will be given to the contractor in writing, stating the reason. The contractor may, however, claim a survey; but in that case he must, within 48 hours after objection is made, give notice thereof in writing to the officer rejecting the wood.

6. The board of survey will be composed of persons appointed by the Honorable the Treasurer, and the decision of the board of survey is to be considered as final.

7. If the board of survey shall decide that the supply is not of proper quality, it must be immediately replaced by the contractor; failing which, it will be procured elsewhere, and the extra expense, if any, will be charged as in clause 4.

8. Accounts for firewood to be rendered to the Department receiving the supply immediately upon completion of the order, which must be attached to the account. Payment will be made at the receipt and pay office of the district, or at the Treasury, Melbourne, as the contractor may desire.

9. In the event of any irregularity on the part of the contractor being repeated, it will be competent for the Government, in case such irregularity should be established to the satisfaction of the Tender Board, to cancel the contract forthwith.

10. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.

11. Under no circumstances will a contractor be permitted to abandon his contract.
