TENDERS FOR GRAZING LANDS.

FOR THE PERIOD 1ST NOVEMBER, 1928, TO 30TH SEPTEMBER, 1929,
EXCEPT WHERE OTHERWISE STATED.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Crown Lands Office Tender-box on or before Noon on Wednesday, 31st October, 1928.

NOTE.—No tender will be accepted unless the fee for the full period and fee of Five shillings for licence are forwarded.

TENDERS will be received before Noon on Wednesday, 31st October, 1928, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 121 of the *Land Act* 1915 shall be subject to the conditions set forth in the Schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 121st section of the *Land Act* 1915, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 123 of the *Land Act* 1915 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognized.

By-Law No. 27.

A By-law of the Shire of Fern Tree Gully made under the provisions of the *Health Act 1919*, and numbered 27, to regulate the removal and disposal of night-soil in the Townships of Bayswater, Boronia, Lower Fern Tree Gully, Upper Fern Tree Gully, Upwey, and Belgrave.

IN pursuance of the powers contained in the *Health Act 1919*, and of any other power thereunto enabling them in that behalf, the Council of the Shire of Fern Tree Gully, in the name of the President, Councillors, and Ratepayers of the said Shire, for the purpose of carrying the said Act into execution within their jurisdiction, make the following By-law, and do hereby order as follows:—

1. This By-law shall come into force and operation on its approval by the Governor in Council, and immediately after its publication in the *Government Gazette*.

2. By-laws numbered 13, 15, and 21 of the Shire of Fern Tree Gully are hereby repealed.

3. This By-law shall apply to and have operation in the Townships of Bayswater, Boronia, Lower Fern Tree Gully, Upper Fern Tree Gully, Upwey, and Belgrave, in the areas set out in clause 19 (a), (b), (c) and (d) hereto, and unless exempted by the Council shall apply to every house, building, or premises therein.

4. In this By-law, unless inconsistent with the context or subject-matter, "Inspector" means any officer of or authorized by the Commission of Public Health or the Council, and includes any acting or assistant inspector. "Proprietor" means the proprietor of any premises, and includes the owner, the occupier, and/or any person having the management or control thereof.

5. The proprietor of any premises in or upon which there is a closet or privy shall cause a space under the seat of each closet or privy on such premises to be prepared for the accommodation of a pan as prescribed herein, and shall permit the same to be used for the double pan service hereinafter provided for, and shall cause each privy or closet to be kept in a fit state for such service.

6. The proprietor shall cause every pan-closet to be supplied with a pan for the reception of night-soil, and shall (except when being exchanged), cause such pan to be always kept in proper position under the seat of each pan-closet, and shall also provide a lid capable of being fitted tightly to such pan when being removed from the premises to the depot, so as to prevent the spilling of the contents and the emission of offensive vapours, gases, or effluvia from the contents of such pan.

7. Such pan shall be cylindrical in shape, and formed of galvanized iron of not less than 22 gauge, or other approved material or materials, presenting on the inside and outside an impervious hard, smooth, and durable surface, and those surfaces which come into contact with night-soil shall also be free from any projections. It shall be watertight, strongly constructed, reinforced with metal bands where necessary, and provided with properly attached side lifting handles.

Each such pan shall have a capacity of 1½ cubic feet, and shall have an internal depth of 14 inches, a diameter of not less than 14 inches, and a suitable rim or lugs to permit an air-tight lid to be affixed.

The seams of the pan shall be folded, grooved, and sweated with solder.

8. The proprietor shall cause to be kept in every closet or privy belonging thereto a supply of dry powdered earth, ashes, charcoal, lime, sawdust, or some other material efficient for deodorizing night-soil, and shall cause all night-soil deposited in the pan of such closet or privy to be immediately on the deposit thereof covered with a quantity of such deodorizing material sufficient to thoroughly and effectively deodorize the contents of such pan.

9. At least once a week, and in any case as often as may be necessary to prevent the level of the contents of such pan approaching within 2 inches of the brim thereof, the pan in use shall be closed with a lid, and removed by the contractor, with its contents, from the premises, and another pan thoroughly cleansed and in good order shall be left in its place.

10. The contractor shall cause all pans to be removed in a suitable covered vehicle in such a manner as not to cause nuisance, danger to health, or offensiveness, and forthwith cause such vehicle to be removed to the approved depot.

11. The Contractor shall cause such night-soil to be deposited at the depot, and disposed of in such manner as may be authorized by the Regulations.

12. If such night-soil be disposed of in trenches, such trenches shall be not less than 9 nor more than 18 inches in depth, nor exceed 2 feet in width, and the bottom thereof shall be broken up by suitable means to facilitate percolation of liquids, and the night-soil shall be deposited therein in layers not more than 6 inches deep, and shall be left at such a depth that there shall be below ground level a covering of at least 6 inches in depth of clean, thoroughly broken-up soil upon the night-soil and pan-washings when covered in.

13. Immediately after the deposit of the night-soil and washings in any trench, such trench shall be filled in with thoroughly disintegrated earth. The necessary filling shall be obtained by excavation of another trench in a position parallel to, but not less than 12 inches from the aforesaid trench required to be filled in, and using the material so obtained as a covering over the night-soil so deposited. Trenches shall be excavated and used, and filled in in regular consecutive order.

14. Every pan after the disposal of its contents, and after being cleansed in manner aforesaid, and before it again leaves the depot or disposal ground, shall on every such occasion be thoroughly cleansed and disinfected by—

- (a) immediately after washing and scrubbing with water, subjecting the pan to a current of steam from a boiler at 60 lb. pressure to the square inch for not less than two minutes in a steam-tight box or chamber; or
- (b) thorough washing and scrubbing in water; then rinsing in clean water, and finally submerging for not less than five minutes in an aqueous solution containing not less than 1 per cent. of accol, cyllin, kerol, izal, hycol, or other disinfectant of equal efficiency; or
- (c) thorough washing and scrubbing in water, and afterwards submerging for not less than five minutes in boiling water; or
- (d) any other method approved in writing from time to time by the Council.

15. The internal surface of every pan before it is first used shall be properly coated with well boiled tar, crude creosote, or other approved material, and such coating shall thereafter be renewed when deemed necessary by the Council, but not less than once a month.

16. The contractor shall cause all vehicles used for the transport of pans to the depot to be properly constructed, kept clean, and disinfected daily at the depot, and maintained in a proper state of repair.

17. The proprietor or any other person within the area defined by this By-law shall not bury, nor cause to be buried any night-soil in any yard, garden, or other place not being a place set apart for such purpose by the Council.
