Local Government Act 1915.

PROPOSED SEVERANCE OF AREA FROM THE SHIRE OF HEIDELBERG AND CONSTITUTION OF A NEW MUNICIPALITY.

IN pursuance of the provisions of the *Local Government Act* 1915 (No. 2686), section 46, the substance and prayer of a petition in accordance with the said Act, which has been presented to His Excellency the Governor in Council, are published, viz.:—

The petitioners purport to constitute a majority of ratepayers in the portion of the Shire of Heidelberg described in their petition, and they desire that the area so described, being the Fairfield and Ivanhoe Ridings, may be severed from the Shire of Heidelberg and constituted a new municipality under the name and title of the Borough of Ivanhoe.

The petitioners state that their reasons for desiring severance are—

(1) That the area of the present shire is too large for efficient management.

(2) That the ratepayers in the proposed new borough will obtain better supervision by the officials concerned on account of smaller area and greater efficiency, with consequent economy of administration.

(3) That the area of the proposed borough produces about 60 per cent. of the total revenue of the shire, and has not sufficient representation for the revenue produced.

(4) That the area contained in the proposed borough has advanced to such a stage that, in the opinion of the petitioners, they are justified in praying for the authority to have the independent management of their own municipal affairs.

(5) That there is no community of interest between the upper and lower ridings, the former being mainly rural, while the latter are prosperous residential districts.

(6) That by the creation of the new borough a greater local interest will be stimulated, which will tend to develop the borough more rapidly than heretofore.

(7) That the smaller area of the proposed borough will tend to greater harmony in the local governing body on account of closer co-operation and community of interest.

The petitioners therefore pray that His Excellency the Governor in Council may be pleased to sever the area above described, and constitute it a separate municipality, under the name and title of the Borough of Ivanhoe: such municipality to be subdivided into four wards, to be called the South, Central, West, and East Wards.

Notices for the petitioners may be served on Mrs. N. G. Ibbott, Belmont-road, Ivanhoe.

A. E. CHANDLER,
Commissioner of Public Works.Department of Public Works (Local Government Branch),
Melbourne, 26th November, 1928.

2. Subject to the provisions of the contract the service will commence on the 1st February, 1929, and shall be maintained for a period of three years thereafter. Tenders submitted should be for the maintenance of the service on any route or routes for this period.

3. The lowest or any tender will not necessarily be accepted.

4. Children between the ages of four and a half and eighteen years of age are to be picked up at points along the various prescribed routes and conveyed to the Ouyen State Elementary and Higher Elementary Schools by motor vehicles, to be provided and run by the contractor to reach the said schools in time for the full morning sessions, and at the close of the afternoon sessions to be at once conveyed back to their respective districts on such days as the said schools shall be open for instruction. Picking-up places to be approved from time to time by a committee appointed by the Minister.

5. The contractor will from time to time be furnished with lists of the names of the pupils to be carried along each route as aforesaid during the currency of the contract.

6. The vehicles to be used by the contractor in the service shall be provided with full and comfortable seating accommodation for the number of pupils to be carried along the route, and no vehicle shall be employed in the service unless and until the same has been first approved by the Minister or his representative duly appointed for the purpose.

7. The contractor will not permit or suffer any person other than a competent, trustworthy, civil, and respectable driver or chauffeur to drive any vehicle in the service. Such driver or chauffeur will be required to see that no offensive or improper conduct on the part of the pupils takes place on any journey, and to report any misconduct on their part to the head teacher of the schools concerned.

8. The contractor will dismiss or cease to employ in the service any driver or chauffeur should such a course be deemed necessary by the Minister or by his representative.

He will also maintain the bus and tires in such a state of repair as is necessary for the safety and comfort of the pupils being conveyed.

16. Contractors may tender for one or more of the routes, or for all six routes, and may either make Ouyen the central starting point, or commence the journey from one of the outlying places on the route as may be mutually arranged between the contractor and the committee and approved by the Minister.

17. The contractor shall not during the time the bus is employed in this service convey any person other than a pupil attending either of the schools, a teacher on the staff, or a member of the committee, nor shall any goods, apart from pupil's personal effects, be transported in the bus without the sanction of the Minister or the aforesaid committee.

8. Every driver of a motor car or cycle upon any street shall, within reasonable distance and before passing any other vehicle, horse, or pedestrian, or when approaching any intersection, give audible and sufficient warning of his approach by sounding a horn, bell, or other instrument.

9. No person shall, between sunset and sunrise, drive any vehicle upon such street, or permit any vehicle to be upon such street, unless a good and serviceable lamp is securely fixed at the right or off side of the front of such vehicle, and is lighted so that the light therefrom is distinctly visible to persons in front of such vehicle as a white light, and to persons at the rear of such vehicle as a red light.

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The *Agrobacterium* strains were grown in the YEA medium for 24 h at 28°C. The cell concentration of the strains was adjusted to 1.0 × 10⁸ cells/ml. The cell suspension was mixed with the plant tissue and the transformation efficiency was determined. The results were expressed as the mean ± SD of three independent experiments. The asterisk indicates a significant difference ($P < 0.05$) between the strains.
