The following are the rates and charges which the occupiers or owners of land and tenements liable to be rated or other persons shall pay for the year 1930 in respect of water supplied by the Trust in the Casterton Urban District within the Waterworks District of the said Trust:—

1. For every house or other tenement fronting any street wherein the water pipes of the Trust have been laid, a rate of Two shillings and sixpence in the pound on the amount of the municipal valuation of such property shall be paid; the minimum amount so paid to be Two pounds ten shillings.

2. For land upon which there is no building, but which land fronts any street wherein water pipes of the Trust have been laid, the rate shall be Two shillings and sixpence in the pound on the amount of the municipal valuation thereof. In no case, however, shall a rate of less than Twelve shillings and sixpence be paid for every such allotment or part thereof.

3. For houses proved to the satisfaction of the Trust to have remained unoccupied for a period of not less than six calendar months, the rate per house shall be two-thirds of the amount which would be payable if such house had not been unoccupied; the minimum amount paid to be not less than Thirty-seven shillings.

4. The foregoing rates are hereby made payable in advance in one amount on 1st January, 1930.

5. For water supplied for domestic or other than domestic purposes by the Trust by measure the charge shall (except where otherwise agreed by the Trust, and save as hereinafter provided in the By-law) be One shilling and sixpence per 1,000 gallons up to such quantity as would be equal to the amount of the assessed rate payable in respect of the premises so supplied; and for all water consumed in excess of such quantity a charge of Two shillings per 1,000 gallons shall be made.

6. The charge for private water troughs shall be Twenty shillings per annum (to include water rate payable when the value of the property on which such trough is situated does not exceed £10). When such rate exceeds Ten pounds there shall be no charge additional to the rate assessed on the property, except where, in the opinion of the Trust, a meter is necessary or advisable, in which case the consumer shall be charged and must pay at the rate charged for water supplied by measure. The minimum charge shall be Twenty shillings.

7. Water supplied to public gardens and parks shall be charged for by measurement at Sixpence per 1,000 gallons, and water supplied to show grounds, cricket ground, or bowling green shall be charged for by measurement at One shilling and sixpence per 1,000 gallons; any quantity supplied in excess of the full measure of a unit of 1,000 gallons shall be charged for as 1,000 gallons. For a supply of water for wooden buildings where no plaster is used, the charge shall be Five shillings for each chimney in such building. All payments shall be made in advance. No person shall take or use any water for or in connexion with the erection of any new building, or alterations to or additions to existing buildings, till he has obtained the receipt of the Trust's officer for the payment of the amount payable for the use of such water, or the consent in writing of the Trust or its officer. Any persons offending against the provisions thereof shall be liable to a penalty not exceeding £5 for such offence. All charges shall be additional to all rates or other charges payable by the owner or occupier of the premises upon which the building is being erected, and shall in the first instance be payable by the builder or contractor, and if unpaid by the

builder or contractor shall be charged to and paid by the owner of the premises whereon such building is being erected; but such charge to the owner shall not prejudice the right of the Trust to proceed at its option against either the builder or the contractor or the owner or occupier for the amount payable.

10. The occupier of two or more tenements liable to be rated, one of which is supplied with water by measure, shall be entitled on the payments of the rates on such tenements respectively, to use without further charge such a quantity of water by meter as shall not exceed at the current charge for water supplied for domestic purposes by measure the amount of such rates, provided that the tenement or tenements, if not supplied by measure, shall not be connected with the pipes of the Trust. No water shall be supplied to any such engine or boiler until a meter shall have been affixed to the supply pipe of such engine or boiler to the satisfaction of the engineers of the Trust, and no water will be supplied to any engine unless such engine is fitted with mechanical appliances to circulate and re-use the water to the satisfaction of the Trust's officer.

12. The minimum quantity of water to be charged for half-yearly in each case where water is supplied by measure for other than domestic purposes shall (except where otherwise provided or implied in this By-law) be 10,000 gallons, and such water shall (where it is not otherwise provided in this By-law or otherwise specially agreed by the Trust) be charged at the rate of Two shillings per 1,000 gallons.

13. Supplies of water for purposes not specified herein are to be paid for at such charges as the Trust shall in each case determine, and the preliminary payments appointed by the Trust on account of such charge shall be made at the office of the Trust before a supply shall be taken or used.

14. When water is supplied for use on any land exceeding five acres in area, such water will be supplied by measure only, and the owner or occupier of such land must provide a meter.

15. The service pipes from the main, being the property of the owners or occupiers of the tenements supplied from such service pipes, the owner or occupier shall, in every instance in which damage is caused by reason of such service pipe being leaky or otherwise out of repair or broken, be guilty of an offence. If any person neglect to repair any such service-pipe conveying water from the pipes of the Trust into the premises of such person after having received notice from the proper officer of the Trust that such service-pipe requires repairing, the Trust may stop the water flowing into the premises either by cutting off the service-pipe or otherwise, as the Trust may see fit, until the necessary repairs have been effected. The Trust may, at any time when found necessary, repair or renew any pipes and stop-cocks laid for conveying a supply of water to any tenement, and may charge the owner thereof with the cost of providing and laying, repairing, or renewing the same, and such cost shall be a debt due by such owner to the Trust, and shall be recoverable in any court of competent jurisdiction.

16. Such person or persons as the Commissioners of the Coleraine and Casterton Waterworks Trust may from time to time appoint for the purpose shall be authorized to demand, receive, collect, and recover the rates and charges aforesaid and each of them.

17. In construction of this By-law the word "person" shall be deemed to extend to and include a corporation whether aggregate or sole, and the word "Trust" shall mean the "Coleraine and Casterton Waterworks Trust."

NOTE.—All piece-work prices shall be calculated on the basis of articles "Good from hand."

In this Determination the expression "Good from hand" shall mean free from maker's faults at the time the articles are approved by and taken possession of by the employer prior to burning.

PIECE-WORK WHICH MAY BE FIXED BY AN EMPLOYER.

(7) The Board determines, under the provisions of Section 144 of the *Factories and Shops Act 1915*, that any employer may fix and pay piece-work prices to any person employed in the *glazed pipes and salt-glazed ware, general pottery, tile, and terra-cotta sections of the trade at work for which piece-work prices have not been specified above*, provided that any such employer shall base such piece-work prices on the earnings of an average worker working under like conditions, and such piece-work prices shall be fixed so that an average worker can earn not less than the wages rates that are fixed by the Board for such work.
