PROPOSED SEVERANCE OF AREA FROM THE SHIRE OF MILDURA AND CONSTITUTION OF A NEW MUNICIPALITY.

IN pursuance of the provisions of the *Local Government Act* 1915 (No. 2686), section 46, the substance and prayer of a petition in accordance with the said Act, which has been presented to His Excellency the Governor in Council, are published, viz.:—

The petitioners purport to constitute a majority of ratepayers in the portion of the Shire of Mildura described in their petition, and they desire that the area so described may be severed from the Shire of Mildura and constituted a new municipality, under the name and title of the Shire of Merbein.

AREA DESCRIBED IN PETITION.

Commencing at a point on the River Murray in a line with the centre of Fourteenth-street; thence south-easterly by the said street to its intersection with Riverside-avenue; thence south-westerly along Riverside-avenue to Eighteenth-street; thence westerly by Eighteenth-street to its intersection with River-avenue; thence south-westerly by the said avenue to its intersection with the 142nd meridian line; thence westerly by the north boundaries of the Parishes of Benetook and Merri-nee and the Murray Valley-road to the South Australian border; thence northerly by the State boundary line to the River Murray; thence following the River Murray to the point of commencement.

The petitioners state that this area is too large to admit of efficient representation on the Council of the Shire of Mildura. The area proposed to be severed embraces the Town of Merbein and the land originally settled under the Murray River Settlement Act and the soldier settlements created under the Discharged Soldiers Act at Birdwoodton, Merbein South, and Merbein West. The valuation of the proposed new shire recently made by the Shire of Mildura is £58,835, and there are 405 ratepayers in the said area. It is claimed by the petitioners that the creation of a new shire would be of great service to the ratepayers in the area.

The petitioners therefore pray that His Excellency the Governor in Council may be pleased to sever the area above described and constitute it a separate municipality under the name and title of the Shire of Merbein.

Notices for the petitioners may be served on Hugh Stewart Geddes, Merbein.

No allowance in the rate will be made unless the water is cut off for a full six months, nor in any case where the water is supplied to two or more premises through one service pipe.

Clause 12.—Water supplied to nurseries and market and other gardens, and to all lucerne, sorghum, and other fodder crops whatsoever, shall be in every case by or through a meter, which shall be provided and affixed by the consumer after having been approved by the Trust. every such case the consumer shall install such meter within fourteen days of receiving a notice, in writing, from the Trust to do so. In such case the provision of clause 12 shall apply to such house or tenement.

The following are the rates and charges which the occupiers or owners of lands and tenements liable to be rated, or other persons, shall pay for the year 1929 in respect of water supplied by the Trust in the said Urban District:-

1. For every house or other tenement fronting any street wherein water-pipes of the Trust have been laid, and not being occupied land, the rate of Two shillings in the pound on the amount of the municipal valuation of such house or other tenement and the land, if any, valued therewith shall be paid, the minimum amount to be paid to be Twenty shillings. In cases where water is supplied to land upon which there is no building, the rate shall be Two shillings in the pound, according to the municipal valuation of such land. In no case, however, shall a rate of less than Ten shillings (10s.) be paid.

2. For land upon which there is no building and to which water is not laid on, but which land fronts any street wherein water-pipes of the Trust have been laid, the rate shall be Two shillings (2s.) in the pound on the amount of the municipal valuation thereof. In no case, however, shall a rate of less than Ten shillings (10s.) be paid.

3. For houses proved to the satisfaction of the Trust to have remained unoccupied for a period of not less than six calendar months the rate per house shall be two-thirds of the amount which would be payable (half-yearly in advance) if such house had not been so unoccupied, but in no case shall the rate be less than Thirteen shillings (13s.)

4. The foregoing rates are hereby made payable half-yearly, in advance, one moiety on the 1st January, 1929, and one moiety on the 1st July, 1929.

5. For water supplied for domestic or other than domestic purposes by the Trust by measure, the charge shall (except where otherwise agreed by the Trust, and save as hereinafter provided in the By-law) be One shilling and sixpence (1s. 6d.) per 1,000 gallons up to such quantity as would be equal to the amount of the assessed rate payable in respect of the premises so supplied; and for all water consumed in excess of such quantity a charge of Two shillings per 1,000 gallons shall be made.

6. The charge for private water-troughs shall be Twenty shillings per annum (to include water rate payable when the value of the property on which such trough is situated does not exceed Ten pounds). When such rate exceeds Ten pounds there shall be no charge additional to the rate assessed on the property, except where, in the opinion of the Trust, a meter is necessary or advisable, in which case the consumer shall be charged and must pay at the rate charged for water supplied by measure. The minimum charge shall be Twenty shillings (20s.).

Water supplied to public gardens and parks, Melville Oval, corporation sale-yards, and State school swimming baths shall be charged for by measure at Sixpence per 1,000 gallons, and water supplied to the croquet lawns and Hughs's nursery shall be charged for at One shilling and threepence per 1,000 gallons, and water supplied to the old cricket ground and bowling green shall be charged for by admeasurement at One shilling and sixpence per 1,000 gallons.

All payments shall be made in advance. No person shall take or use water for or in connexion with the erection of any buildings or alterations to or additions to existing building of the kind specified under this clause till he has obtained the receipt of the Trust's officer for payment of the amount payable for the use of such water, or the consent, in writing, of the Trust or its officer. Any person offending against the provisions thereof shall be liable to a penalty not exceeding Five pounds for such offence. All charges shall be additional to all rates or other charges payable by the owner or occupier of the premises upon which the building is being erected, and shall in the first instance be payable by the builder or contractor, and, if unpaid by the builder or contractor, shall be charged to and paid by the

owner of the premises whereon such building is being erected; but such charge to the owner shall not prejudice the right of the Trust to proceed at its option against either the builder or the contractor or the owner for the amount payable.

10. The occupier of two or more tenements liable to be rated, one of which is supplied by measure with water, shall be entitled, on the payments of the rates on such tenements respectively, to use, without further charge, such a quantity of water by measure as shall not exceed, at the current charge for water supplied for domestic purposes by meter, the amount of such rates, provided that the tenement or tenements, if not supplied by measure, shall not be connected with the pipes of the Trust. No water shall be supplied to any such engine or boiler until a meter shall have been affixed to the supply pipe of such engine or boiler to the satisfaction of the engineer of the Trust, and no water shall be supplied to any engine unless such engine is fitted with mechanical appliances to circulate and re-use the water to the satisfaction of the Trust's officer.

12. The minimum quantity of water to be charged for half-yearly in each case where water is supplied by measure for other than domestic purposes shall (except where otherwise provided or implied in this By-law) be 10,000 gallons, and such water shall (where it is not otherwise provided herein in this By-law, or otherwise specially agreed by the Trust) be charged at the rate of Two shillings per 1,000 gallons.

13. Supplies of water for purposes not specified herein are to be paid for at such charges as the Trust shall in each case determine, and the preliminary payments appointed by the Trust on account of such charge shall be made at the office of the Trust before a supply shall be taken or used.

and galvanized wrought-iron piping of approved quality will be allowed for external and internal services.

9. No person shall use any tap, stop-cock, bib-cock, ball-cock valve, closet cistern, service box, waste-not regulator, bath tap, or valve, or other fitting in connexion with a supply of water of the Trust which is not the best quality and approved by the Trust.

10. No person shall use any stop or bib-cocks which are not screw-down high-pressure cocks, made of hard brass or gunmetal, and in every respect of the best quality and workmanship, and approved by the Trust.

No person, whether licensed as hereinafter set out or not, shall connect any service pipe, or branch service pipe, with any steam boiler for the purpose of feeding or supplying the same with water without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of a meter.

14. No person shall use any cistern or tank that is not provided with an equilibrium ball-valve, and the overflow pipe laid and fixed in a suitable manner, open for inspection and in a position approved by the Trust.

15. No person shall construct or use any urinal or water-closet fitting not approved by the Trust, nor, unless the same be supplied with water from the service pertaining to a tenement through a proper closet cistern or service-box fitted with

an approved waste-preventing apparatus. No person shall fix or use any service pipe which communicates directly or indirectly with the basin or trap, or otherwise than with the basin of a urinal or water-closet. Urinals shall be provided with a two-gallon and closets with a three-gallon cistern.

16. All baths, sinks, lavatory and other basins, closets and urinals served from the Trust's mains, shall be of approved sanitary construction, and mounted to the satisfaction of the Trust.

17. No bath shall be allowed which has a holding capacity of more than 100 gallons, except with the permission of the Trust. Overflow pipes to baths will not be allowed except where the supply is by measure.

18. All water-troughs supplied from the pipes of the Trust shall be lined with metal or constructed of reinforced concrete, so as to be watertight, and shall have proper and efficient fittings for supplying them automatically, and for preventing overflow.

Licensing Plumbers.

19. Before any person shall affix any service pipe to any pipe of the Trust, or alter, repair, or in any way interfere with any pipe of the Trust, or any service pipe, cock, or fitting connected with the pipes of the Trust, he shall obtain from the Trust a licence in that behalf to execute such works, and any unlicensed person affixing, altering, repairing, or in any manner interfering with such pipe, service pipe-cock, or fitting as aforesaid shall be guilty of an offence.

20. Each licence shall be for the period ending 31st December next ensuing after the issue thereof, but may be renewed by the Trust, at its discretion, from time to time in each case to the following 31st December. The Trust shall have power at any time to cancel the licence in the event of the holder thereof performing his work in an unsatisfactory manner, or committing any breach of the Water Acts or of this By-law; and in such matters the Trust shall be the sole judge. For each original licence the licensee shall pay the Trust a fee of One pound, and for each renewal five shillings.

21. In a case where a qualified plumber holding a licence from another Waterworks Trust requires to do work within this Trust's area, he must notify the Trust the nature and amount of work to be executed, and pay a fee of five shillings to cover a licence to perform same.

22. Before any licence shall be granted by the Trust, the person applying for same shall satisfy the Trust that he is a competent plumber, and that he is thoroughly conversant with the provisions of the By-laws of the Trust relating to Water Supply, and with the Water Acts, so far as they apply to town supplies. The Trust may, if it sees fit, refuse to grant such licence.

23. Each licensed plumber shall report to the Trust Secretary the completion of any new work, extensions, or repairs in connexion with any service, within 24 hours of effecting same.

Meters.

24. No hose or pipe shall be attached to any pipe or tap for the purpose of watering ground, or trees or plants, or washing house, walls, or carriages, or horses or other animals, or for any similar purpose, except the water is charged by measure. Syphon pumps will not be allowed except where the water is supplied by measure.

25. No meter shall be affixed until it shall have been examined, tested, and approved of by a duly-approved authorized officer of the Trust, and each meter must be capable of registering at least 1,000,000 gallons; and each $\frac{1}{2}$ -in., $\frac{3}{4}$ -in., and 1-in. meter must be capable of registering any flow not less than 10, 15, and 30 gallons per hour respectively; and each meter must be fixed with approved lead connexions or wrought-iron quarter bends above ground in a conveniently accessible place and properly protected. Whenever washers are necessary for meter connexion couplings, leather washers shall in all cases be used.

26. The Trust may require a meter to be affixed and used where it is deemed necessary.

27. If any meter in use cease registering or be reported by a duly-authorized officer of the Trust as out of repair, or registering inaccurately, the Trust may estimate and charge for the water consumed during the period such meter was not in working order, and until it is repaired and refixed, either by taking an average of the quantity used during the previous quarter, or during the corresponding period of the previous year, or on the basis of subsequent consumption after repairing, or the Trust may insert a check meter on the service pipe, and charge upon estimates from the registering thereof, or by any other manner the Trust may decide.

28. Any meter being reported to the Trust as out of order, the owner thereof shall, at his own expense, have same repaired and tested by a competent authority to the satisfaction of the Trust, and refixed, with the least possible delay, by a licensed plumber employed for this purpose. For any unnecessary delay in refixing the meter such licensed plumber shall be guilty of an offence.

29. The Trust will, if it so think fit, but not otherwise, let for hire water meters, the rent for which shall be at the rate per annum as from time to time fixed by the Trust. Such rent shall be exclusive of and in addition to the amount or rate chargeable for the recorded consumption of water, and shall be due and must be paid yearly on notice being given, the first payment to be made as from the date of installation to the end of the then current year. Such hired meters shall be kept in repair at the cost of the Trust, except as to injuries caused otherwise than by fair wear and tear, the cost of repairing which shall be borne by the person hiring.

30. Meters, other than such as are hired from the Trust, will be tested on delivery thereof at the office of the Trust. A fee of Five shillings shall be charged for each test.

31. In the event of the hirer being dissatisfied with the registering of a meter hired from the Trust, he may, by notice in writing, require the Trust to cause such meter to be removed and tested; and, together with such notice, shall forward a sum of Ten shillings, which, if the meter be found to register correctly, shall be applied in paying the cost of the removing, testing, and replacing, and the balance, if any, shall be returned to him; but if such meter be found to fail to register, or be found to register incorrectly, it shall be repaired and replaced, or another meter shall be placed instead thereof at the cost of the Trust, and the amount deposited by the hirer shall be returned to him. Any person so hiring a meter from the Trust who shall cease to occupy the premises on which such meter is fixed without having previously given, in writing, at least six days' notice to the Trust of his intention to do so, shall be guilty of an offence.

Waste or Misuse of Water.

32. No person supplied with water from the Trust shall permit or suffer the same to run to waste, misuse, or allow undue consumption.

33. No person receiving water from the Trust shall, without the written permission of the Trust, take or carry away such water, or shall sell the same to any other person.

34. No person not having agreed to be supplied by the Trust shall take or carry away water from the premises of any person so supplied, or from any drinking tap, trough, or private or public service pipe.

35. The water supply of all public parks and gardens shall be exclusively under the control and direction of the officers of the Trust, and no person unless duly authorized shall turn on the water or otherwise interfere with such water supply.

36. No person other than an employee of the Municipal Council shall, without the written permission of the Trust, water streets or thoroughfares by means of hydrant and hose attached to fire plugs.

37. (a) Water supplied by the Trust is in all cases subject to the right of the Trust by notice to prohibit or restrict the use of same for any purpose (other than domestic purposes) during such period or at such times or from time to time as may be fixed by the Trust and stated in such notice.

(b) Such notice may be given either by printed posters placed in prominent positions within the Trust district or by advertisement in some newspaper circulating in such district.

(c) No person shall use or permit or suffer water supplied by the Trust to be used contrary to any such prohibition or restriction.

Miscellaneous.

38. In every case in which it is necessary to obtain the consent of the Trust before doing any act or commencing any work, such consent must be asked for by notice in writing addressed to the Secretary of the Trust, and delivered at his office, of such length as is mentioned in the Acts or in this By-law, and in no case less than two days prior to the time proposed for the doing of such act or the commencement of such work; and such notice must clearly state the act proposed to be done or work to be commenced, and such act shall not be done or work commenced save upon the Trust's consent in writing, and then only subject to and in accordance with such directions or conditions as shall be therein specified. Such consent may be given by and under the hand of the Chairman of the Trust, the Secretary, or the Engineer, who severally shall be competent to give the Trust's consent, and on behalf of the Trust to prescribe any directions or conditions attaching thereto, and subject to and in accordance with which only such consent shall be deemed to have been given. The giver of every such consent shall notify the same to the next following meeting of the Trust for confirmation.

39. The charges for water supplied temporarily during erections, repairs, or additions to buildings shall be by arrangement with the Trust or by meter.

40. If any person shall neglect to repair any service pipe conveying water from the pipes of the Trust into the premises of such person after having received notice from any officer of the Trust that such service pipe requires repairing, the Trust may stop the water from flowing into such premises, either by cutting the service pipe or otherwise, as the Trust may think

fit, and the supply of water shall remain cut off until the necessary repairs shall have been effected, and this shall be without prejudice to any remedy the Trust may have against such person in respect thereof.

41. The officer or officers of the Trust, or any person appointed for that purpose, may at all times enter any house, tenement, or land to, through, or into which water is supplied by the Trust, in order to inspect the meter, instruments, pipes, and apparatus for measuring, conveying, reception, or storage of water, or for the purpose of ascertaining the quantity supplied or consumed, or examining if there be any waste or misuse of such water, or breach of this By-law; and if any person hinders or prevents such entry or examination he shall be guilty of an offence. The Trust may turn off the water supplied by it from any house, tenement, or land to which such entry is refused, or on which such examination is hindered, and cease to supply the same with water until such examination shall have been permitted or effected.

42. In the construction of this By-law, the word "person" shall be deemed to extend to and include a corporation, whether aggregate or sole, and the meaning which in the Water Acts is assigned to any word shall be the meaning of the same word where occurring in this By-law, unless inconsistent with the subject-matter or context.

43. Any person who does or causes to be done anything in contravention of this By-law, or fails to do anything which, under this By-law, ought to be done, shall be guilty of an offence; and for every such offence the offender shall, upon conviction, be liable to a penalty not exceeding Five pounds, and in the case of continuing offence, to a further penalty not exceeding Five pounds for every day after notice of the offence from the Trust.
