BY-LAW No. 13/30.

IN pursuance of the powers contained in the *Health Act* 1928, and of any other power thereunto enabling them in that behalf, the Council of the Shire of Avoca, in the name and on behalf of the President, Councillors, and Ratepayers of the said shire, for the purpose of carrying the said Act into execution within their jurisdiction, make the following By-law No. 13/30, that is to say:—

1. All former By-laws so far as they relate to matters and things provided for in this By-law are hereby repealed.

2. This By-law shall come into full force and operation on its approval by the Governor in Council and immediately after its publication in the *Government Gazette*.

3. This By-law shall apply to and have operation in the Townships of Avoca, Moonambel, and Landsborough, and such other areas as the Council may from time to time by resolution declare.

4. In this By-law, unless inconsistent with the context or subject-matter—

"Inspector" means any officer authorized by the Commission or Council, and includes any acting or assistant inspector.

"Proprietor" means the proprietor of any premises, and includes the owner, the occupier, or any person having the management or control thereof.

"The Commission" means the Commission of Public Health.

5. The proprietor of any premises on which there is erected a pan-closet shall cause the space under the seat of each pan-closet on such premises to be prepared for the accommodation of a pan as prescribed herein, and shall permit the same to be used for the double-pan service hereinafter provided for, and shall cause each pan-closet to be kept in a fit state for such service.

Where two or more tenants occupy one building or allotment a minimum of one closet for each such tenant shall be provided.

6. The proprietor shall cause every pan-closet to be supplied by the Council or otherwise with a pan for the reception of nightsoil, and shall (except when being changed) cause such pan to be always kept in proper position under the seat of each pan-closet, and shall also provide a lid capable of being fitted tightly to such pan when being removed from the premises to the depot, so as to prevent the spilling of the contents and the emission of offensive vapours, gases, or effluvia from the contents of such pan.

7. Such pan shall be cylindrical in shape and formed of galvanized iron of not less than 22 gauge, or other approved material or materials presenting on the inside and outside an impervious, hard, smooth, and durable surface, and those surfaces which come into contact with nightsoil shall also be free from any projections. It shall be watertight, strongly constructed, reinforced with metal bands where necessary, and provided with properly attached side lifting handles. Each such pan shall have a capacity of 1½ cubic feet, and shall have an internal depth of 14 inches, a diameter of not less than 14 inches, and a suitable rim or lugs to permit an airtight lid to be affixed. The seams of the pan shall be folded, grooved, and sweated with solder.

8. The proprietor of the premises shall cause to be kept in every closet belonging thereto a supply of liquid deodorant, or lime, sawdust, or some other dry material efficient for deodorizing nightsoil, and shall cause all nightsoil which may be deposited in the pan in such pan-closet to be immediately on the deposit thereof covered with a quantity of deodorizing material-sufficient to thoroughly and effectively deodorize the contents of such pan.

9. The proprietor shall provide every urinal with an approved apparatus for the regulated automatic discharge into such urinal of sufficient approved deodorant for the purpose of keeping such urinal constantly deodorized.

10. No person shall place, or cause or permit to be placed, any slops, water, ashes, or rubbish in any pan.

11. The proprietor of any premises whereon there is a pan-closet or urinal shall—

maintain such pan-closet and urinal in good repair and in cleanly condition; and

when required by an inspector, effectually disinfect such pan-closet and urinal and/or the contents thereof, and effect any repairs thereto that such inspector may deem necessary.

12. At least once a week, and in any case as often as may be necessary to prevent the level of the contents of such pan approaching within 2½ inches of the brim thereof, the pan in use shall be closed with a lid and removed by the contractor or person authorized or employed in that behalf by the Council with its contents from the premises, and another pan thoroughly cleansed and in good order shall be left in its place.

13. Such contractor or person removing such pans shall report to the Council at the earliest available opportunity the discovery of any pan found to be overflowing or leaking, and shall forthwith cause the place whereon the contents have been dropped or spilled to be properly cleansed.

14. The contractor or person authorized or employed by the Council for that purpose shall cause all pans to be removed in a suitable covered vehicle in such manner as not to cause nuisance, danger to health, or offensiveness, and forthwith cause such vehicle to be removed to the approved depot.

15. The contractor or person authorized or employed by the Council for the removal of nightsoil shall cause such nightsoil to be deposited at the depot, and disposed of in such a manner as may be authorized by the Regulations.

16. If the nightsoil be disposed of in trenches such trenches shall be not less than 9 nor more than 18 inches deep, nor exceed 2 feet in width, and the bottom thereof shall be broken up by suitable means to facilitate the percolation of liquids, and the nightsoil shall be deposited therein in layers not more than 6 inches deep, and shall be left at such a depth that there shall be below ground level a covering of at least 6 inches in depth of clean, thoroughly broken-up soil upon the nightsoil and pan washings when covered in.

17. No trench shall be used for the disposal of nightsoil where the bottom consists of rock or other impermeable material.

18. Immediately after the deposit of the nightsoil and washings in any trench such trench shall be filled in with thoroughly disintegrated earth. The necessary filling shall be obtained by excavation of another trench in a position parallel to, but not less than 12 inches from, the aforesaid trench required to be filled in, and using the material so obtained as a covering over the nightsoil so deposited. Trenches shall be excavated and used and filled in in regular consecutive order.

19. Seed of grass or any forage or cereal crops or other such form of vegetable life as the Council shall direct or approve shall be seasonably planted or sown on any land into which nightsoil has been deposited, provided that vegetables or seeds of vegetables shall not be planted therein or thereon until three months have elapsed since the last deposit of nightsoil in such land.

20. Every pan used for the reception or conveyance of nightsoil shall immediately on being emptied be thoroughly washed or otherwise cleansed. The resultant washings or other filth shall be disposed of in a similar manner as the nightsoil.

21. Every pan after the disposal of the contents and after being cleansed in the manner aforesaid and before it again leaves the depot or disposal ground, shall on every such occasion be thoroughly cleansed and disinfected by—

- (a) immediately after washing and scrubbing with water subjecting the pan to a current of steam from a boiler at 60-lb. pressure to the square inch for not less than two minutes in a steamtight box or chamber; or

- (c) thorough washing and scrubbing in water and afterwards submerging for not less than five minutes in boiling water; or
- (d) any other method approved in writing from time to time by the Commission.

22. The internal surface of every pan before it is first used shall be properly coated with well-boiled tar, crude creosote, or other approved material, and such coating shall thereafter be renewed when deemed necessary by the Council, but not less than once a month.

23. The contractor or person authorized or employed by the Council for the removal of nightsoil shall cause all vehicles used for the transport of pans to the depot to be properly constructed, kept clean, and disinfected daily at the depot, and maintained in a proper state of repair.

24. The proprietor or any other person shall not remove any nightsoil from any premises except in accordance with this By-law.

25. The proprietor, or any other person within the area defined by this By-law, shall not bury, or cause to be buried, any nightsoil in any yard, garden, or other place not being a place set apart for this purpose by the Council.

26. The inspector shall have full power to enter into or upon any premises, yards, or lands at any time for the purpose of inspecting closets, urinals, pans, receptacles, vehicles, plant, and all other things, and places therein and thereon, and for the purpose of carrying out the provisions of this By-law.

27. If any person or the Council commit a breach of this By-law he or they shall for every breach be liable to a penalty of not more than Twenty pounds, and in case of a continuing offence to a further daily penalty of not more than Five pounds.
