Water Act 1928.

PORTLAND WATERWORKS TRUST.

BY-LAW No. 1.

THE Chairman and Commissioners of the Portland Waterworks Trust (hereinafter called "the Trust"), in pursuance and exercise of the powers and authorities conferred by the Water Act 1928, do hereby make the By-law following for its Waterworks District:—

Service Pipes.

1. Excepting where otherwise provided, each house or tenement shall be supplied from the Trust's mains, and, if so required by the Trust, the whole service shall be subjected to a test pressure of 75 lb. to the square inch after it has been laid. The portions of the service pipe laid along or across any public street, lane, or right-of-way, or where it may be exposed to wheel traffic, shall be laid not less than fifteen inches below the surface. From the outside of the street channel to the inside of the building line, the service pipe, when so required by the Trust, must be laid inside a larger similar water pipe to enable it to be withdrawn for repair without disturbing the surface of the footpath, the said service pipe being fitted with a long thread joint not more than two feet from the outer edge of the footpath. All persons cutting trenches for the purpose of laying service pipes in any street, lane, or right-of-way shall properly protect the same whilst carrying out the work, and shall properly fill in the same and make good the said street, lane, or right-of-way to the satisfaction of the Trust and Municipal Council and their officers. Where so required by the Trust, pipes laid under footpaths or roads shall be placed in bore holes run under such footpaths or roads, and not in trenches as above.

The Trust may in special cases consent to two or more tenements being supplied from one water service, but in each case the sub-service shall be so arranged that the supply to each tenement shall be independent of the supply to the remaining tenement or tenements, and be controlled by a stop-cock on each sub-service. Any person offending against any of the provisions of this clause shall be liable to a penalty not exceeding Five pounds.

2. Upon any person giving notice of his desire to lay a service pipe to connect with and tap pipes of the Trust, he shall be informed, on behalf of the Trust, whether it is or is not desired that such tapping shall be made by an officer of the Trust, and, if it is so desired, such person shall not tap any such pipe, but shall provide for and bear the cost of all labour and material necessary for such connexion, and for the restoration of the ground to the satisfaction of the local authority, and be liable for the consequences of failure. He shall also pay in advance to the Trust the expense of such tapping, including the stop-cock and ferrule and ferrule protecting box.

3. The service pipes for conveying water from the main pipes of the Trust into premises of consumers shall each have a ferrule stop-cock to which is attached an approved brass union, to which shall be screwed a quarter bend to take service pipe, and also another stop-cock at the footpath just inside the street line if practicable, or at such other place as required by the Trust, and covered by an approved cast-iron cover box, and in all cases where the supply is otherwise than by measure, unless with the sanction of the Trust, the said service pipe shall not exceed three-quarters of an inch in diameter.

4. The maximum tapping allowed (except by special permission of the Trust) for each size of main shall be:—

- For a 3-in. pipe— $\frac{3}{4}$ -in. tapping.
- For 4-in. and 6-in. pipes—1-in. tapping.
- For 9-in. pipes—1 $\frac{1}{4}$ -in. tapping.
- For 12-in. pipes—2-in. tapping.

5. In all cases where practicable, the connexion to the main shall be at right angles to a point on the building line where entry to the consumer's premises is made. On completion of the fixing of all service pipes to the mains, a sketch showing the exact position of the reticulation shall be supplied (upon a form obtainable from the Trust) to the Secretary of the Trust.

Fittings.

6. No person shall use or continue to use any tap, stop-cock, ball-cock, valve, cistern, service box, "waste not", regulator, bath tap or valve or other fitting in connexion with a supply of water of the Trust which is not of the best quality and approved by the Trust.

Stop-cocks.

7. No person shall use on any service connected with the pipes of the Trust any stop-cock which is not a screw-down high-pressure cock made of hard brass or gun-metal, and in every respect of the best quality and workmanship, and approved by the Trust.

No. 124.—6294.—3

Joints.

All connexions between lead and iron pipes must be made with brass union couplings or detachable joint.

All joints connecting lead pipes must be "wiped" and in no case will "bolt" or "copper bit" joints be allowed on water service pipes, either in the interior or exterior of any building or tenement, on pain of cancellation of the licence of the plumber who, by himself or his workmen, shall commit a breach of this By-law. This shall be in addition to any other penalty to which the plumber or workman may be liable.

Service Pipes to Steam Boilers.

8. Any person, whether licensed as hereinafter set out or not, who shall connect any service pipe or branch service pipe with any steam boiler for the purpose of feeding or supplying the same with water, without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter, shall be liable to a penalty not exceeding Five pounds for each offence, and, in the event of continuing the offence, to a further penalty of Two pounds for each day after notice from the engineer or inspector of the offence has been given.

Cistern and Tanks.

9. No person shall use any cistern or tank that is not provided with an equilibrium ball valve and an overflow pipe fixed in a suitable manner, open to inspection and in a position approved by the engineer or inspector of the Trust.

Urinal and Water Closet Fittings.

10. No person shall construct or use any urinal or water closet fitting not approved by the Trust, nor unless the same be supplied from the service pertaining to a tenement through a proper flush cistern fitted with approved waste-preventing apparatus. No person shall fix or use any service pipe which communicates directly or indirectly with the basin or trap of any closet or urinal or otherwise than with the cistern of a urinal or water closet. Each urinal shall be provided with a one-gallon and each closet with a two-gallon cistern.

Baths, Sinks, Lavatories, &c.

11. All baths, sinks, lavatory and other basins, closets, and urinals supplied with water from the Trust's mains must be of proper sanitary construction, to be approved by the Engineer or inspector of the Trust.

Water Supplied to Cistern by Measure.

12. No person, without the consent of the Trust, shall connect any pipe to communicate with any cistern, tank, or vessel intended for the reception of rain water, whether below or above the surface of the ground, except where water is supplied by measure.

Pipes Through Sewer Drains, &c.

13. No pipe or other apparatus shall be laid through any sewer drain, ash pit, manure tank, or other place where, in the event of the pipe becoming unsound, the water conveyed through such pipe would be liable to be fouled or to escape without observation, unless such pipe or apparatus be enclosed in an exterior pipe or box of sufficient length and strength to afford due protection to the same, and to bring any leakage and waste within easy detection. In all cases before being used, the exterior pipe or box must be submitted to and approved by the engineer or inspector of the Trust.

Connexions to Engines.

14. No service pipe shall be fixed to or connected with any engine without the written consent of the Trust, or the inspector of the Trust, first had and obtained, and then only provided and on condition that a tank or apparatus for the receipt and re-utilization of the water and prevention of waste thereof, to be approved of by the Trust or its inspector, be at all times provided.

Private Fire Service.

15. Subject to the previous written consent of the Trust, but not otherwise, private fire services will be allowed at the expense of the owner of premises, but every such service must be sealed, except in cases where the Trust's inspector shall have certified in writing that such sealing is unnecessary. No water shall be taken from any portion of such service excepting for fire-extinction purposes. Except in case of fire, no person shall, without the authority of the Trust, wilfully break the seal affixed to any private fire service, and in the event of any such seal having been broken accidentally or otherwise, the occupier of the premises shall within twenty-four hours thereafter give notice in writing of the fact at the office of the Trust, failing which he shall be liable to a penalty not exceeding Twenty pounds.

Any application for private fire service must be made in writing to the Trust by the owner of the premises where such is required. If consent be granted, such consent may at any time be withdrawn and the service discontinued after reasonable notice from the Trust to such owner.

Notice of Proposed Laying of Pipes.

16. Any person, whether licensed as hereinafter set out or not, who shall lay any pipe to communicate with the pipes of the Trust without giving two days' notice of the day and hour when such pipe is intended to be attached thereto, or who shall make such attachment except under the superintendence and according to the directions of some officer of the Trust, or who shall lay any leaden or other pipes to communicate with any pipe of the Trust of a strength or material not sanctioned by the Trust, shall be liable for each such offence to a penalty not exceeding Five pounds, and in the event of continuing such offence to a further penalty of Two pounds for each day after notice of the offence from the Trust or its engineer or inspector.

Materials for Services.

17. (a) The quality of the pipes, tees, thimbles, bends, reducing couplings, plugs, &c., shall be of the best galvanized iron.

(b) All pipes and pieces shall be true in sectional form, straight longitudinally, and of equal strength and thickness throughout the entire body of the same.

(c) All ends of pipes, bends, &c., shall be properly and truly threaded, and be capable of being screwed into thimbles, tees, and other fittings.

(d) The whole of the pipes, tees, bends, and other fittings shall be sound and free from all defects, and capable of standing a hydrostatic pressure equal to a column of water 400 feet in height.

(e) All delivery cocks and thimbles for connecting service pipes and mains shall be high-pressure, and made of brass of the best quality and workmanship, and of approved pattern to screw into elbow bends, &c. All cocks and thimbles shall stand the same pressure as the pipes.

Opening Ground, Uncovering Pipes, &c.

18. Any person, whether licensed as hereinafter set out or not, who opens any ground so as to uncover any pipe or pipes of the Trust, or who shall extend or alter any private service pipe without giving two days' notice to the Trust of his intention so to do, or who shall in any way tamper with or alter any pipe the property of the Trust, without the permission in writing of the Trust being first obtained, or who shall wilfully or carelessly break, injure, or open any lock, cock, valve, pipe, work or engine, the property of the Trust, shall be liable for each such offence to a penalty of Five pounds.

Alteration of Pipes.

19. No extension or alteration of any water pipe which communicates with the pipes of the Trust will be permitted, except with the consent of the Trust's engineer or inspector.

Taps in Gardens.

20. Except with the consent in writing of the Trust, no tap or taps will be allowed in gardens or on lawns, unless a meter is provided to effectively register all water consumed, and in cases where such taps exist, either a meter must be provided or the taps removed by the occupier of the premises within three weeks of the coming into force of this By-law.

No person shall use or permit to be used in a garden or on a lawn any tap except where a meter is provided to the satisfaction of the Trust to effectually register all water consumed.

Hose Forbidden Without Meter.

21. Except with the consent of the Trust, in writing, no person shall use a hose, down pipe, spouting, or any other apparatus attached to any tap or pipe used for the purpose of supplying the water of the Trust to any house or premises or for watering any garden or laying dust or for any other purpose whatsoever, unless a meter is fixed and the water supplied by measure; and any person offending against this section shall be liable to a penalty not exceeding Five pounds.

Testing Meters.

22. No meter shall be affixed until it shall have been examined, tested, and approved by the inspector of the Trust, and each meter must be capable of registering at least one million gallons, and each $\frac{1}{2}$ -in., 1-in., and $1\frac{1}{4}$ -in. meter must be capable of registering any flow not less than 15, 30, and 60 gallons per hour respectively, and each meter must be fixed with approved connexions above ground in a conveniently accessible position and properly protected.

Inaccurate Meter.

23. If any meter in use ceases registering or be reported by the inspector of the Trust as out of repair or registering inaccurately, the Trust may, at its option, estimate and charge for the water consumed during the period such meter was not working satisfactorily, and until it is repaired and re-fixed, either by taking an average of the quantity used during the previous quarter or during the corresponding period of the previous year, or the Trust may insert a check meter on the service pipe and charge upon estimates from the registering thereof.

Responsibilities re Meters.

24. The occupier of any premises supplied with water by the Trust who is by the *Water Act 1928*, or by this By-law, or by the Trust required to fix a meter to his service or on his premises, shall at his own expense cause such meter to be fixed or repaired and kept in proper repair, and shall, whensoever required so to do by the Trust or its officer, cause such meter to be removed at his expense to the office of the Trust to be tested, and when so tested shall, if it is found registering inaccurately, pay to the Trust a fee of Two shillings and sixpence for such testing, and when it shall have been so tested shall cause it or some other meter, as shall be approved by the Trust or its officer, to be replaced or fixed at his own expense. Or should the occupier require a meter to be tested, such occupier may, subject to the provisions of the *Water Act 1928* and the By-laws of the Trust, have it removed and brought to the office of the Trust, where it shall be tested upon payment of a fee of Two shillings and sixpence.

Adjustment of Inaccurate Meter.

25. Should any meter, on being tested as aforesaid, be found to be registering above the normal rate of water which it should register, the Trust may, irrespective of any other liability of the said occupier to the said Trust (but without any liability so to do), allow the occupier of the premises upon which such meter has been used, the difference between the amount which the said meter should have been registering for a period of three months prior to the date of testing and what it actually did register for such period.

Should any water meter on testing be found to register below what the same should normally register, then the Trust may charge and the occupier on whose premises the said meter was fixed shall pay to the Trust for such deficiency of water as for the period of three months prior to the date of the testing of the meter the difference between the amount the said meter registered and the amount it should have registered.

Registration of Plumbers.

26. Before any person shall affix any service pipe to any pipe of the Trust, or alter, repair, or in any manner interfere with any pipe of the Trust, or any service pipe, cock, or fitting connected with the pipes of the Trust, he shall obtain from the Trust a licence in that behalf to execute such work, and any unlicensed person affixing, altering, repairing, or in any way interfering with any such pipe, service pipe, cock, or fitting as aforesaid shall be liable to a penalty not exceeding Five pounds for each offence.

Conditions to Granting Licence.

27. Before any such licence shall be granted by the Trust, the person applying for the same shall satisfy the Trust that he is a competent plumber, and that he is thoroughly conversant with the provisions of the By-laws of the Trust relating to water supply and with the *Water Act* so far as they apply to town supplies. The Trust may, if it so sees fit, grant or refuse to grant such licence.

Each licence shall be for the period ending 31st December next ensuing after the issue thereof, and may be renewed by the Trust at its discretion from time to time in each case to the following 31st December.

For each original licence the licensee shall pay to the Trust a fee of One pound (£1), and for each renewal the sum of Five shillings (5s.).

Cancellation of Licence.

28. The Trust shall have power at any time to cancel a licence in the event of the holder thereof performing his work in an unsatisfactory manner, or committing any breach of the *Water Act* or of this By-law, and in such matters the Trust shall be the sole judge.

Interference with Fire Plugs.

29. No person other than an employee of the Trust or of the local council or a member of a fire brigade on duty shall, without the written permission of the Trust, be permitted to take water from any fire plug or fire plugs for watering the streets or any other purpose (except in case of fire). Any person so offending shall be liable to a penalty not exceeding Five pounds for each such offence.

Parks and Gardens.

30. The water supply to all public gardens and parks shall be exclusively under the control and direction of the officers of the Trust, and any person not duly authorized who shall, except with the written permission of the Trust or its officers, turn on the water or otherwise interfere with such water supply, shall be liable to a penalty not exceeding Five pounds for each offence.

Consent of Trust.

31. In every case in which it is necessary to obtain the consent of the Trust before doing any act or commencing any work, the consent must be applied for by notice in writing addressed to the secretary of the Trust, and delivered at the office of the Trust, such number of days previously mentioned

in the Water Act or in this By-law, but in no case less than two days prior to the time proposed for doing of such act or the commencement of such act or work. And such act shall not be done or work commenced save upon the consent in writing of the inspector or other authorized officer of the Trust.

Waste of Water.

32. Any person supplied with water by the Trust who shall wilfully or negligently allow the same to run to waste shall be liable for each offence to a penalty not exceeding Five pounds, and in the event of continuing the offence to a further penalty of Two pounds a day for each day after notice of the offence by the inspector or other officer of the Trust.

Improper Use of Water.

33. No person shall use water for a purpose other than that for which he is supplied.

Water Not to be Taken from Premises.

34. Any person receiving water from the Trust who, without the written permission of the Trust, shall take or carry away such water from the premises or allow any person to take or carry away such water, or who shall sell the same to any person, shall be liable to a penalty not exceeding Five pounds for each offence.

Water Not to be Taken from Tap, Trough, or Service Pipe.

35. No person, without the consent of the Trust in writing or of its engineer or inspector first had and obtained, shall take or carry away water from the premises of any other person supplied with water by the Trust, or from any trough or private or public water service pipe. Any person committing a breach of this clause shall be liable to a penalty not exceeding Five pounds for each such offence.

Waste of Water.

36. No person shall waste water of the Trust by allowing the same to run or flow from any tap or otherwise.

Leaks, &c., to be Notified.

37. Any owner or occupier of any premises supplied from the Trust's mains shall forthwith as soon as he knows of any leak or leaks, defect or defects, in any of his pipes connected with or supplied with water from the Trust's mains, give notice in writing to the secretary of the Trust, at its registered office, of such leak or leaks, defect or defects. Any one wilfully offending against the provisions of this clause shall be liable to a penalty not exceeding Five pounds for each offence.

Occupier to Repair Leaks, &c.

38. The service pipes from the main being the property of the owner or occupier of the tenements supplied by such service pipes, the occupier (if any, and, if none, the owner) shall, upon receiving notice that his service pipe requires repairing, immediately proceed to repair the same, and he shall be responsible for any loss of water or other damage which shall be caused by reason of any service pipe being leaky or otherwise out of repair or broken, and in default of repairing such pipe shall also be liable to a penalty not exceeding Five pounds, and in the event of continuing the offence to a further penalty of Two pounds for each day after receipt of such notice, and the Trust may stop the water from flowing into such premises either by cutting off the service pipe or otherwise as to the Trust may seem fit until the necessary repairs shall have been effected. In the event of the necessary repairs (as to which the decision of the engineer or the inspector of the Trust shall be final and binding) not being effected forthwith in accordance with the notice aforesaid, the Trust may without any liability so to do and without further notice proceed to make and effect the necessary repairs, and the cost and expenses of effecting such repair and of the material therefor (to be assessed by the engineer or inspector of the Trust, whose assessment shall be final and binding on both parties) shall be paid to the Trust by the occupier or owner by whom such work ought to have been done; and the Trust may recover the same from either the occupier or owner before a court of petty sessions as and for work and labour done and materials provided (or as the case may be) in an action of debt before such court.

Water may be Cut Off.

39. If any person supplied with water by the Trust does, or causes or permits to be done, anything in contravention of any provisions of this By-law, or fails to pay his rates or any lawful charge imposed by the Trust or the Water Act when due, or fails to do anything which under the provisions of this By-law ought to be done, or wilfully or negligently allows water to run to waste, the Trust may cut off the supply of water from the premises of such person either by cutting the pipes by or through which water is supplied or otherwise, and may cease to supply him with water so long as the cause of complaint remains or is not remedied, and notwithstanding that the water is cut off the occupier's and owner's liability for rates accruing shall not cease.

Water to be Consumed Only in Accordance with By-law.

40. The water supplied within any portion of the Waterworks District of the Trust shall be received and consumed under and in accordance with this By-law and not otherwise, through pipes and meters laid and placed under and in accordance with the said By-law and not otherwise.

Interpretation.

41. In the construction of this By-law, the word "person" shall be deemed to extend to and include a corporation, whether aggregate or sole; "the Trust" shall mean "The Portland Waterworks Trust"; and the words "the Act" shall mean the "Water Act or Water Acts" for the time being in force and every amendment thereof, and the meaning which in the Water Act or Water Acts or any amendment thereof is assigned to any word shall be the meaning of the same word where occurring in this By-law unless inconsistent with the subject-matter or context. Words importing the masculine gender shall be deemed and taken to include females, and the singular to include the plural and the plural the singular, unless the contrary as to gender or number is expressly provided.

Penalties when Not Provided Herein.

42. For every breach of or offence against any provision of this By-law not herein expressly provided for the offender shall, upon conviction, be liable to and shall pay any sum not exceeding Five pounds, and in cases of continuing offence a further penalty not exceeding Five pounds for every day after notice of the offence from the Trust.

The foregoing By-law was made on the twenty-first day of April, One thousand nine hundred and thirty-one, and the seal of the Trust hereto affixed in the presence of—

(SEAL) J. L. WYATT, Chairman.

IN pursuance of the powers conferred by the foregoing Acts, and every Act and power enabling it in that behalf, the Council of the Borough of Stawell doth hereby make the By-law following, that is to say:—

1. No person shall sell, or offer for sale, or assist in offering for sale, any foodstuffs or flowers on any road, street, footway, or public place within the area prescribed and defined in clause 19 of this By-law unless licensed so to do as hereinafter provided.
