FOR THE PERIOD 1ST MAY, 1931, TO 30TH SEPTEMBER, 1931,
EXCEPT WHERE OTHERWISE STATED.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices, in the country.

Tenders should be placed in the Crown Lands Office, Tender-box, State Treasury Buildings, Melbourne, on or before Noon on Monday, 27th April, 1931.

NOTE.—No tender will be accepted unless the fee for the full period and fee of Seven shillings and sixpence for licence are forwarded.

TENDERS will be received before Noon on Monday, 27th April, 1931, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 121 of the *Land Act* 1928 shall be subject to the conditions set forth in the Schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the Land Acts, except under the 121st section of the *Land Act* 1928, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the Land Acts may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 123 of the *Land Act* 1928 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognized.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling or other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all noxious weeds on the land, and on the half-width of the adjoining roads, and shall be responsible for the destruction of noxious weeds under the *Vermin and Noxious Weeds Act* 1928 in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. The licensee shall thoroughly and effectively protect the land within the boundaries of his licensed area from fire, and shall extinguish any fire which may break out on such area or may spread to it. In the event of the area being damaged by fire, the licence may be forfeited, unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants, were in any way responsible for such fire.

19. The licensee shall not interfere in any way with any survey marks on the land hereby licensed.

SPECIAL CONDITIONS.

1. The period of occupation, except where otherwise specified, will be for five (5) months from 1st May, 1931, to 30th September, 1931.

2. The fee for the full period—for which the licence will be issued, and the fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name, occupation, and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing owned by him within one month, or to require the incoming tenant to pay for it in accordance with the provisions of section 124, *Land Act* 1928.

This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the ingoing tenant will be held responsible for the care and maintenance of any improvements.

Plans can be seen and information may be obtained in this office.

Section 121, *Land Act* 1928, provides—

1. Where a licensee under section 121 of the *Land Act* 1928 has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

- “Motor car” means any conveyance propelled by mechanical power, and includes a motor cycle.

- “Rider” means any person in charge of a horse.

2. The driver of a vehicle or motor car or traction engine upon any of the streets within the said boundaries, and the rider of a horse or other animal upon any of the streets within the said boundaries, shall, except as shall be necessary for the purposes of avoiding a collision or for other justifiable cause—

- (a) Before stopping or turning round in any street, or turning from one street into another, or turning into or from any passage through any Reserve, give notice of his intention so to do by holding up his whip or his hand so that the same may be seen by any person following him, and (in the case of the driver of the vehicle or motor car) upon stopping so place his vehicle or motor car as to cause as little obstruction as possible to the traffic; and, if his stopping prevents the passing of any other vehicle or motor car, he shall, upon being requested so to do by the driver of such other vehicle or motor car, or by any member of the Police Force or officer of the Council, remove his vehicle or motor car so as to permit such other vehicle or motor car to pass, and if his stopping interrupts or delays traffic, remove his vehicle or motor car so as to discontinue such interruption or delay.
- (b) Before turning, to the right or off side from one street to another, drive or ride parallel to the footway upon the left or near side of the street which he is leaving until he is as near as practicable to the left-hand side of the street which he is entering, and shall, while so turning from one street to another, so drive his vehicle, motor car, or traction engine, and so ride his horse or other animal, as to pass throughout such turning and entering as aforesaid to the left of the spherical structure, coloured white, embedded in the road at the diagonal intersection of such streets, and known as “silent cops,” as shown in the subjoined plan:—

(c) Where there are no spherical structures embedded in the roadway or “silent cops,” as aforesaid, before turning to the right or off side from one street to another, or from or into any passage

3. The driver of every motor car shall at all times pass to the left of the spherical structures or “silent cops” aforesaid, and shall further, when approaching any intersection where such spherical structures aforesaid are embedded in the roadway, if he intend to continue his journey in a straight line, give warning of his approach by sounding the bell, horn, or other instrument of his motor car capable of giving audible and sufficient warning as aforesaid.

6. Notwithstanding the provisions of clauses 4 and 5 hereof, where there is a formed gutter between any of the said Reserves and the road, the portion of the street between such gutter and the Reserve shall be deemed a parking area, and the cars may be left there unattended, providing that such cars shall be left facing the direction of the traffic correctly proceeding on the part of the road nearest such gutter. For the purpose of this clause, such parking areas shall be shown and determined by a plan deposited in the office of the secretary of the said shire, which plan is open for inspection.

7. No horse, vehicle, or motor car shall be drawn up or stopped in the passage between any Reserves.

8. Any constable or council officer may remove such unattended or unlawfully placed horse, vehicle, or motor car from the place where the same has been left by the person in charge, and may deposit same at some neighbouring place of safe custody, and the costs incurred in so removing the said horse, vehicle, or motor car, and of plating and storing the same, may be recovered from the person in charge, in addition to any fine.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data. The second part of the document provides a detailed breakdown of the financial data, including a summary of the total revenue and expenses for each quarter. It also includes a comparison of the current year's performance against the previous year's, highlighting areas of growth and potential challenges. The final part of the document concludes with a series of recommendations for future actions, such as improving the efficiency of the reporting process and strengthening internal controls to prevent fraud and errors.

In addition, the document outlines the specific steps that should be taken to ensure the accuracy and reliability of the financial data. This includes a thorough review of all entries and a regular audit of the accounting system. It also stresses the importance of maintaining a clear and concise record of all transactions, which is essential for the preparation of financial statements and for the identification of trends and patterns in the data. The document also provides a list of key performance indicators (KPIs) that should be used to monitor the company's financial health and to identify areas for improvement.

The document also includes a section on the importance of communication and collaboration between different departments. It emphasizes that the finance department should work closely with other departments, such as sales and operations, to ensure that all transactions are properly recorded and that the financial data is up-to-date and accurate. This is particularly important in a fast-paced business environment where changes can occur frequently. The document also provides a list of best practices for financial reporting, including the use of clear and concise language and the inclusion of relevant details and context.

Overall, the document provides a comprehensive overview of the financial reporting process and the importance of maintaining accurate records. It also provides a series of practical recommendations and best practices that can be used to improve the efficiency and reliability of the reporting process. The document is intended to serve as a guide for all employees involved in the financial reporting process and to ensure that the company's financial data is accurate and reliable.

The document also includes a section on the importance of data security and the protection of sensitive financial information. It emphasizes that all financial data should be stored securely and that access should be restricted to authorized personnel only. This is particularly important in a digital age where data breaches are a common occurrence. The document also provides a list of security measures that should be taken to protect the company's financial data, including the use of strong passwords and the implementation of firewalls and antivirus software.
