EXCEPT WHERE OTHERWISE STATED.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Lands Department Tender-box, State Treasury Buildings, Melbourne, C.2, at or before Noon on Wednesday, 19th December, 1934.

TENDERS will be accepted at or before Noon on Wednesday, 19th December, 1934, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 121 of the *Land Act* 1928 shall be subject to the conditions set forth in the Schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 121st section of the *Land Act* 1928, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council.
2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.
3. This licence is subject to the rights of the holders of miner's rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.
4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.
5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.
6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.
7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.
8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.
9. That where improvements are authorized under section 123 of the *Land Act* 1928 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognized.
10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.
11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.
12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.
13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling or other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all noxious weeds on the land, and on the half-width of the adjoining roads, and shall be responsible for the destruction of noxious weeds under the *Vermin and Noxious Weeds Act* 1928 in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. The licensee shall thoroughly and effectively protect the land within the boundaries of his licensed area from fire, and shall extinguish any fire which may break out on such area or may spread to it. In the event of the area being damaged by fire, the licence may be forfeited, unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants, were in any way responsible for such fire.

19. The licensee shall not interfere in any way with any survey marks on the land hereby licensed.

SPECIAL CONDITIONS.

1. The period of occupation, except where otherwise stated, will be for nine (9) months from 1st January, 1935, to 30th September, 1935.
2. The fee for the full period—for which the licence will be issued, and the fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.
3. Separate tenders must be lodged for each block.
4. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.
5. The highest or any tender not necessarily accepted.
6. Tenderers must give their full name, occupation, and ordinary postal address.
7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.
8. The outgoing tenant has the option to remove any existing fencing owned by him within one month, or he may arrange with the incoming tenant to pay for it in accordance with the provisions of section 124, *Land Act* 1928.

This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the ingoing tenant will be held responsible for the care and maintenance of any improvements.

Plans can be seen and information may be obtained in this office.

Section 121, *Land Act* 1928, provides—

1. Where a licensee under section 121 of the *Land Act* 1928 has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.
2. Where the licensee holds land under the said section which is unfenced, he may, in any court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

(d) All expenses incurred by the Council in relation to any such building as aforesaid may be deducted by the Council out of the proceeds of the sale, and the surplus (if any) shall be paid by the Council on demand to the owner of the building; and if such building, or any part thereof, is not taken down and/or such materials are not sold by the Council, or if the proceeds of sale are insufficient to defray the said expenses, the Council may recover such expenses of the deficiency from the owner of the building, together with all costs in respect thereof, in a summary manner in any Court of competent jurisdiction, but without prejudice to the owner's right to recover the same from any lessee or other person liable to the expenses of repairs.

27. Every building or erection intended to or adapted to be used as a dwelling-house which shall be removed and re-erected within the municipality shall, when completed, comply with all the provisions of this By-law in the same manner as if it were a building or erection originally built, constructed, or erected in the part of the municipality to which it is removed and re-erected. Such building shall be properly framed, and all timber and material which in the opinion of the surveyor is unsound or defective shall be removed and replaced with sound material.

31. If any building, erection, or tent shall be wholly or partly built or erected, added to, or altered contrary to the provisions of this By-law, the Council, or any officer thereof or other authorized agent, may give to the owner or builder, or leave upon the site of the building, fourteen days' notice, in writing, to bring such building, erection, or tent into conformity with the said provisions, or requiring the pulling down or removal of such building, erection, or tent.

- (e) Provided that nothing herein contained shall prevent a cavity of not more than 1 inch across being filled in with materials impervious to moisture, in which case the bonding ties may be omitted provided no portion of the wall is less than 9 inches thick.

REINFORCED CONCRETE.—CONDITIONS FOR USE.

49. In all cases where reinforced concrete is employed, whether in buildings as a whole or specified portions of buildings required or not required by this part of this By-law to be fire-proof or fire-resisting, the reinforced concrete work shall be designed in accordance with the rules and carried out under the conditions hereinafter contained.

DRAWINGS TO BE FILED.

50. Before the actual carrying out of the work, or any portion thereof, complete drawings of such work or portion shall be filed with the surveyor, showing all details of the construction and the size, spacing, and arrangement of all the reinforcing members.

LOADING TESTS.

51. Every agreement with the builder for carrying out of reinforced concrete work shall contain provisions whereby the builder shall be responsible for the efficiency of the execution of such work, and also provisions empowering the architect or owner to apply actual loading tests to such work in accordance with the stipulated loads to be carried in each case. The surveyor shall have the power to require that such loading tests shall be actually applied in such cases as he may think fit.

EFFICIENT SUPERVISION.

52. No reinforced concrete work will be permitted to be carried out except under the immediate and continuous direction and supervision of an engineer or foreman who can produce to the surveyor satisfactory evidence that he has had not less than two years' previous experience in the actual execution of this form of construction, whether in buildings or engineering structures.

CEMENT CONCRETE.

53. The cement concrete employed in reinforced concrete work shall be so proportioned that there shall be used not less than one cask of Portland cement, weighing 375 lb. net, for each 18 cubic feet of net finished concrete measured in place.

STEEL TO BE CLEAN.

54. The steel employed in reinforcing concrete work shall be clean and free from paint, oil, grease, or tar of any kind, and shall also be free from scaly rust.

STRESS INTENSITIES.

55. The following stress intensities upon the several materials will be permitted as a maximum, provided that the calculation of external forces has been made in accordance with the rules hereinbefore provided, viz.:—

- (a) For all steel reinforcing members employed substantially as they come from rolls—
In tension or compression, 15,000 lb. per square inch.
In shear, 10,000 lb. per square inch.
- (b) For all steel reinforcing members where forged or welded—
In tension or compression, 15,000 lb. per square inch.
In shear, 10,000 lb. per square inch.
- (c) For the adhesion between the concrete and the steel, 70 lb. per square inch.

In compression, 500 lb. per square inch.
In shear, 70 lb. per square inch.
In tension, nil.

REQUIREMENTS IN DESIGN.

- (a) The steel shall take all the tensile stresses.
- (b) The ratio of the modulus of elasticity of steel to that of concrete shall be taken as fifteen.

- (c) Where the concrete is of insufficient section to take up the shearing stresses sufficient steel shear bars shall be provided to take up the residue of the shearing stresses.
- (d) In columns all main reinforcing bars shall be held together by horizontal steel ligatures, spaced not farther apart than twenty diameters of the main bars.
- (e) The extremities of all tension bars employed in all girders shall be coggled or swelled in all cases where such bars exceed $\frac{1}{2}$ inch in diameter.

CONDITIONS DURING CONSTRUCTION.

57. In the execution of reinforced concrete work, no concrete in any column or main girder shall be left uncompleted at the end of the day. Whenever concreting operations are resumed the surfaces of completed work against which fresh concrete is to be placed must be thoroughly washed clean and grouted with neat cement. No concrete work shall be carried out during any period when the shade temperature is higher than 100 degrees Fahrenheit nor lower than 35 degrees Fahrenheit.

MINIMUM THICKNESS OF CONCRETE OUTSIDE STEEL.

58. The steel reinforcements shall be wholly embedded in and surrounded with cement concrete. The following shall be the minimum thickness of concrete upon the exposed sides or edges of all steel reinforcements, viz.:—

- In floor, slabs or plates— $\frac{3}{4}$ inch,
- In girders and ribs—1 inch,
- In columns— $1\frac{1}{2}$ inches,

such thickness being exclusive of any plastering, veneer, or other surface treatment.

MINIMUM THICKNESS OF CONCRETE.

59. The following shall be the minimum thickness of concrete in any portions of the work required by this By-law to be fire-resisting, viz.:—

- In floor plates not exceeding 6 feet net span, 3 inches.
- In floor plates not exceeding 8 feet net span, 4 inches.
- In floor plates not exceeding 10 feet net span, 5 inches.
- In floor plates exceeding 10 feet net span, 6 inches.
- In external walls exceeding 15 feet net span, 6 inches.
- In partitions, $2\frac{1}{2}$ inches.

No internal wall shall be deemed to be fire-resisting unless $4\frac{1}{2}$ inches in thickness. Such respective thickness shall be exclusive of any plastering, veneer, or other surface treatment.
