(a) For work done before the beginning of the first pay period to commence in December, 1935, the rates to be paid shall be those prescribed in clause 2 of this Determination.

(b) For work done during each future half-year beginning with the first pay period to commence in a June or a December, the amounts of such basic wage and minimum wage shall be adjusted by the following method according to the position and fluctuations (if any) of the Commonwealth Statistician's "All Items" retail price index numbers.

For the purpose of this award the expression "Commonwealth Statistician's retail price index numbers" or any like expression means the numbers stated to be such index numbers in any document purporting, and not proved to be wrongly so purporting, to be printed by the Commonwealth Government Printer or to be signed by or on behalf of the Commonwealth Statistician.

(1) Adjustment is to be based upon the equating of index number 1000 with a wage of 81s.; the amount assessed upon that number of the Court's declared ordinary basic wage per week.

(2) The index number set for Sydney, Melbourne, Adelaide, Perth and Hobart (weighted average) is to be applied.

(3) The index number for the six months ending March or September next preceding the half-year for which the adjustment is made is to be ascertained.

(4) The amounts assigned in the following table (or in any extension thereof) to the index number division comprising such number are to be ascertained.

(5) The basic wage and minimum wage for females shall be of these respective assigned amounts during such half-year.

Provided, however, that as to every adjustment to be made after the month of August, 1935, if the assigned amount of the basic wage be different by less than 2s. from the last current amount of the basic wage, then the last current amounts of all rates shall continue unchanged during such period.
