54. (1) Every window shall be readily openable at the top and at the bottom to an extent of not less than 50 per cent. of the glazed surface of such window.

(2) The area of any pane of glass in a class-room window shall be at least one and one-half ($1\frac{1}{2}$) square feet.

(3) Every class-room window (except a window which faces south or within 30 degrees of south) shall be fitted with a blind of translucent material of a yellowish or light-green shade; and preferably blinds shall be fitted at the sill and shall unroll upwards.

55. Notwithstanding anything contained in these Regulations the windows of every class-room shall contain glass of such quality area and position and of such degree of cleanliness as shall ensure that the illumination of the interior of the class-room by means of daylight shall not be less than 5 candle-feet at any time during school hours on every desk top and not less than 3 candle-feet on every blackboard chart or map.

(See Regulations 10 and 11 hereof *re* relation of main lighting wall to adjoining buildings, &c.).

Artificial Lighting.

56. (1) In every class-room which is used at night artificial lighting shall be provided by means of approved lamps so placed and so equipped as to secure as far as possible a uniform diffusion of light upon every desk or table and on the blackboard.

(2) The intensity of illumination on every desk or table and on every blackboard shall be not less than eight (8) foot-candles in the case of every drawing class-room art studio and sewing class-room and not less than five (5) foot-candles in the case of every other class-room.

(3) No lamp (except a properly-shaded table-lamp for the use of one person only) shall be placed at a height of less than 8 ft. 6 in. above the floor in any class-room.

(4) Every lamp which is at less height above eye-level of the scholars than half its distance in front of any scholar shall either be such that the intensity of the source of light does not exceed three (3) candle-power per square inch or else it shall be so shaded that the source of light is invisible to such scholar.

(5) The distance between lamps shall not exceed—

(a) for direct lighting one and one-half ($1\frac{1}{2}$) times the height of the lamps above the tops of the desks or tables; or

(b) for indirect or semi-indirect lighting not more than twice such height.

(6) The distance between the left-hand and rear walls of every class-room and the lamps nearest thereto shall not exceed one-third ($\frac{1}{3}$) of the permissible distance between lamps; and the distance between the right-hand and front walls and the lamps nearest thereto shall not exceed one-half ($\frac{1}{2}$) of the permissible distance between lamps.

57. In every school which is used for teaching purposes at night every room which is used by the scholars together with all exits shall be properly lighted so as to render all exits passages or other ways therein and therefrom to the available public thoroughfare or thoroughfares at all times readily visible during the whole time the scholars are on the premises. Lighting of rooms exits and passages.

Wall and Ceiling Surfaces.

58. The internal surfaces of walls and partitions of every class-room shall be hard smooth impervious and washable up to a height of at least 6 feet from the floor. Internal surfaces of walls &c.

59. The whole of the internal surfaces of such walls shall be coloured a light shade of greyish-green green buff or cream so that the light-absorbing power of such surfaces shall not exceed 40 parts per centum. Colour of walls and ceilings.

Provided that a dado not exceeding 4 feet high may be of a darker colour.

The ceiling of every class-room shall be white.

Desks and Blackboards.

60. (1) Desks in class-rooms shall be single or double and if not adjustable shall in respect of the relative positions of the front edge of the seat and of the nearer edge of the desk be of the "plus" or "zero" type as depicted in the diagrams in Part XIV. of these Regulations. Type of desks.

(2) The top of each desk shall have a surface slope of about 15 degrees below the horizontal towards the user. Desk slope. 53

(3) Every seat shall be fitted with a suitable back.

(4) The front row of desks shall be at least 7 feet from the front wall of the class-room unless the room be less than 16 feet in width in which case the distance may be reduced to 6 feet. A clear space of at least 18 inches shall be left between the side walls of the class-room and the outermost rows of seats and desks; and a clear longitudinal aisle between adjoining rows of seats such aisles being at least 18 inches wide in the case of single desks and at least 2 feet wide in the case of double desks. Situation and arrangement of desks.

61. Every black-board shall present a matte surface and shall be placed in the most advantageous position for view by the class. Black-boards.

Ventilation.

62. The provisions of Part II., Division VII., of the Building Regulations 1933, shall (subject to the following alterations and substitutions) extend and apply to all class-rooms and shall for such purpose be deemed to be incorporated with these Regulations. Ventilation General provisions.

In Regulation 73 of the said Building Regulations 1933, for 1 square inch shall be substituted 10 square inches and for 2 square feet shall be substituted 15 square feet in respect of ventilation airway in relation to floor area of class-rooms.

Kindergarten Class-rooms.

63. Every class-room which is to be used solely for the teaching of children under the age of six years by bona fide kindergarten methods shall comply with the foregoing regulations respecting class-rooms with the following exceptions:— [Kindergarten] rooms to be designed as class-rooms.

- (a) The lower glass-line of windows may be less than 3 ft. 6 in. above the floor but no glass within 2 ft. of the floor will be considered as forming part of the glazed lighting area required to be provided. Exceptions allowed.
- (b) Main lighting windows may be distributed in more than one external wall of a class-room.
- (c) The limits of 18 inches from the rear cross-wall to the glass-line of the main lighting windows and of 2 ft. 6 in. between adjoining windows may be exceeded provided that no badly-lighted area is thereby created.

DIVISION 2.—LABORATORIES, EXPERIMENTAL AND APPLIED SCIENCE ROOMS AND STUDIOS.

64. In no case shall the floor space for each scholar be less than 24 square feet. Floor space.

65. (1) Working benches in every laboratory shall be not less than 4 ft. 6 in. apart in the case of double nor less than 3 ft. in the case of single benches. Working benches, &c.

(2) The width of each double bench shall be between 4 ft. and 5 ft. and of each single bench between 2 ft. and 2 ft. 6 in.; and the length of each bench shall be such as to allow not less than 3 ft. 6 in. run for each scholar at a single or for each pair of scholars at a double bench.

Provided that in a laboratory (other than a chemical laboratory) in which it is intended that scholars shall work singly or in groups of two or three at separate tables or benches the Commission may allow the above dimensions to be varied.

General provisions.	66. In the case of every laboratory the following provisions shall also apply, viz. :—
Shelves.	(1) All shelving shall stand 12 inches clear of the floor ;
Concealed pipes.	(2) All chasing or other recessed work containing gas water waste or other pipes shall be fitted so as to be readily openable for purposes of inspection.
Bench tops impervious.	(3) Bench tops shall be made impervious to water by ironing paraffin wax into them or by some other approved method.
Sinks and basins.	(4) Every sink or basin in a bench top shall be sunk with its upper edge slightly below the surface of the bench top so that spilt liquid may readily drain from such surface into the sink or basin.
Acid drainage.	(5) Every sink or basin and every drain and waste channel for conveyance of acid drainage shall be formed of such materials or lined with such protective coating as shall in the Commission's opinion render it sufficiently acid-resisting.
Treatment and disposal of offensive fumes, vapours, gases, or dust.	67. (1) Where any process producing or discharging any offensive fumes vapours gases or dust is used there shall be provided means (whether in the form of fume cupboards hoods and aprons extract flues and fans or other devices) in the opinion of the Commission adequate for collection of such fumes vapours gases or dust as closely as practicable to the origin thereof and for conducting them as directly as possible to the outer air without allowing them to mix with the general atmosphere of any compartment of the school.
Electrically driven fans.	(2) Where electric energy is available it shall be used for the purpose of actuating fans for the extraction of such offensive fumes vapours gases or dust.
General ventilation of laboratories, &c.	(3) Where fumes vapours gases or dust are produced on so small a scale as in the Commission's opinion not to be offensive and when the Commission so approves the general ventilation may be effected by the use of the "natural" system in accordance with Regulation 60 hereof. Otherwise an approved system of ventilation by mechanical means capable of supplying 50 cubic feet of fresh air per person per minute shall be provided.

Natural Lighting.

68. In every laboratory—

- (1) The main lighting windows shall be placed in one or (if both are external) in both of the longer walls of the laboratory.
- (2) The total glazed lighting area the proportion of such area which shall be openable and the levels of sills and heads of main lighting windows shall be as hereinbefore required for class rooms.
- (3) Supplementary windows having an aggregate glass area equal to not more one-fourth ($\frac{1}{4}$) of the required glass area may be provided in one or both of the shorter walls of a laboratory ; provided that no window shall be placed behind or above any demonstration table or any blackboard.
- (4) Notwithstanding anything hereinbefore contained the intensity of lighting on each working bench shall be not less than eight candle-feet.
- (5) Every working bench shall be arranged so that its longer axis is at right-angles to the main lighting wall or walls of the laboratory and the relative positions of windows and benches shall be such that there is a window opposite at least one end of each working bench ; provided that—
 - (a) the Commission may permit the use of a single bench along the main lighting wall or walls on condition that the fittings thereon are so arranged that no scholar shall be required to work at any section of bench which is more than 1 foot laterally from a window ; and
 - (b) in a laboratory (other than a chemical laboratory) in which benches or tables as described in the proviso to Regulation 63 (2) hereof are used either the longer or the shorter axis may be at right-angles to the main lighting wall.

Artificial Lighting.

69. In every laboratory which is used at night artificial lighting shall be provided in accordance with the requirements of Regulation 56 hereof.

DIVISION 3.—MISCELLANEOUS.

70. (1) The proprietor shall in every laboratory sloyd-room or work-room provide guards for—
- Proprietor to guard dangerous machinery &c.
- (a) all dangerous parts of the machinery;
 - (b) all dangerous appliances used in or in connexion with the laboratory or any such room; and
 - (c) all dangerous parts of the laboratory or any such room.
- (2) In any laboratory, sloyd-room or work-room—
- Protection of young persons and women from machinery.

- (2) Wash-basins shall be installed in positions convenient to but air-disconnected from the class-rooms and when not in a lavatory or a cloak-room shall be properly protected from the weather.
- (3) The floor of every room compartment verandah or shelter containing wash-basins shall be formed of or covered with durable impervious material and its surface shall be adequately graded to an approved outlet for drainage.
- (4) The walls of every such room compartment verandah or shelter where within 2 feet horizontally or vertically of any wash-basin shall be finished so as to be smooth impervious and washable.
- (5) Every lavatory shall be thoroughly cross-ventilated to the satisfaction of the Commission.

PART X.—BUSINESS COLLEGES IN COMMERCIAL BUILDINGS.

74. No room shall be used for school purposes if situated above the second floor in a non-fireproof building nor above the fourth floor in a fireproof building.
75. The Commission may refuse to approve of the use of any portion of a building as a business college if any other portion of the building or any adjoining building is so used as to render the proposed class-rooms in the opinion of the Commission unsafe for any reason or unhealthy or undesirable by reason of noise or otherwise.

76. The width and number of exits from any floor which contains any business college class-room shall be at least as great as required in Part V. of these Regulations due allowance being made for the number of persons other than scholars likely to make use of the said exits; provided that in no case shall there be less than two exits from any floor above the ground floor.

77. Every class-room on any floor above the ground floor shall be so situated in relation to the stairways leading from such floor that in event of one stair being unavailable by reason of fire or smoke or otherwise another stair shall be accessible without the scholars having to pass the first stair.

78. Stairs shall comply with the provisions of Division 2 of Part V. of these Regulations except that the Commission may—

- (a) accept stairs which have treads not less than 10 inches wide exclusive of nosing or overhang and rises not more than 7 inches high; and
- (b) approve of the use of class-rooms on a floor above the ground floor when one of the stairs therefrom is not constructed of fireproof material.

79. In all other respects the provisions of Part V. of these Regulations shall be complied with.

80. Where the main lighting wall of any proposed class-room faces a street lane yard or other open space measuring 66 feet or less in a direction at right angles to the said wall the provisions of Regulation 11 hereof shall apply:

Provided that the Commission may approve a class-room where the plane containing the upper glass-line of the main lighting windows and the top of the opposite building or wall makes an angle with the horizontal not exceeding 45° subject to the condition that the opposite building or wall is painted white and is repainted as often as the Commission considers necessary.

81. Where the main lighting wall of a class-room faces a street lane yard or other open space measuring over 66 feet in a direction at right angles to the said wall the provisions of Regulation 11 hereof shall not apply.

82. Where the breadth of any class-room exceeds that allowed by Regulation 46 (2) hereof no desk or table occupied by any scholar shall be placed farther from the main lighting wall than twice the height from the floor to the highest part of the glass in the main lighting wall and a line shall be painted on the floor at that distance from the main lighting wall.

83. In any class-room used solely for the teaching of typewriting the main lighting windows may be on the left or on the right of the pupils or partly on the left and partly on the right.

84. Class-rooms in which scholars are taught by individual tuition methods and in which no instruction by means of a blackboard is given may exceed 32 feet in length and desks in such rooms may be less than 7 feet from the front wall and main lighting windows less than 6 feet from such wall.

85. In all other respects business colleges shall comply with the provisions of Part VII. of these Regulations.

PART XI.—FIRE EXTINGUISHING APPLIANCES.

Fire
extinguishing
appliances.

86. (1) Fire hoses and/or chemical fire-extinguishers fire buckets or other means of preventing and extinguishing fires shall be provided in such number and position as the Commission shall direct, but not less than one bucket shall be provided for each 600 square feet or one chemical fire-extinguisher to each 1,800 square feet of floor area.

(2) Fire buckets shall be of 2 to 2½ gallons capacity with convex rimless bottoms and shall be painted red and marked FIRE and placed in holed stands or hung from strong brackets.

Chemical fire-
extinguishers.

(3) Chemical fire extinguishers shall be of at least 2 Imperial gallons capacity and be approved by the Fire Underwriters' Association of Victoria and shall be placed on brackets or suspended from strong hooks.

PART XII.—DRINKING WATER.

87. (1) Drinking taps shall be provided in the proportion of not less than one such tap to every 30 or portion of 30 scholars.

(2) Where the water supply is under pressure and does not require filtration to render it potable the drinking taps shall be bubble-taps projecting a jet of water diagonally upward and fitted with a guard to prevent application of the lips to the tap.

Air disconnection
of supply from
sanitary
conveniences.
Filters.

88. (1) There shall be complete air-disconnection between every pipe or cistern from which water is drawn for human consumption and every sanitary convenience or other source of unwholesome effluvium.

(2) Every filter shall be readily accessible and capable of being effectually cleaned and shall be so cleaned as often as may be necessary for maintaining a sufficient and wholesome output of water.

Use of lead
pipes prohibited.

(3) Use for water supply purposes of pipes made of lead or other unwholesome or poisonous material is hereby prohibited.

PART XIII.—ENFORCEMENT OF REGULATIONS.

Responsibility
of proprietor.

89. The proprietor of any school in which there is a contravention of any prohibition made under these Regulations or a failure to do any act directed by these Regulations to be done shall be deemed to be guilty of an offence against these Regulations.

Offence and
penalties.

90. Any person doing any act forbidden to be done, or failing to do any act directed to be done by these Regulations, shall be guilty of an offence against these Regulations and shall be liable to a penalty of not more than Twenty pounds; and in the case of a continuing offence a further daily penalty of not more than Five pounds but so that the total of such penalties shall not exceed One hundred pounds.

TERMS, CONDITIONS, ETC.

Applications must be made on the prescribed form and lodged with the Secretary, Closer Settlement Commission, Public Offices, Melbourne, or with the officer conducting the Inquiry Board. An applicant may apply for more than one allotment, but only one can be granted to any one person.

The capital value, including interest at 4½ per cent. per annum, is repayable by half-yearly instalments of 6 per cent. per annum over a term of 31½ years. The first ten years will be free as provided hereunder and term of lease extended accordingly.

Improvements must be effected to the value of at least two instalments of the purchase money before the end of the first year from the date of lease, and 10 per cent. of the purchase money before the end of the third year, and a further 10 per cent. before the end of the sixth year.

The lessee must reside on his allotment until the land becomes freehold. A Crown grant may issue after twelve years, provided the full amount of the purchase money is paid, if the conditions of lease have been complied with.

The lessee cannot transfer, assign, mortgage, or sublet the whole or any part of his allotment within the first three years of the lease.

MOUNTAINOUS AREAS PROVISIONS.

No instalment of purchase money shall be payable during the first ten years, provided the lessee complies with conditions and the allotment is satisfactorily worked. The lessee shall during each and every year of the free period reduce at least one-tenth part of the allotment to a state of clean grass or cultivation and maintain same.

Interest at the rate of 4½ per cent. per annum shall be added to the capital value of the allotment and shall be repaid as part of the instalments of purchase money, and notwithstanding any provisions in any Act, no transfer of the interest in the lease shall be approved by the Board unless the deferred interest to the date of transfer has been paid.

Tenders to be addressed to the Honorable the Commissioner of Public Works, and envelope containing tender marked "Tender for _____, due _____."

G. L. GOUDIE,
Commissioner of Public Works.

Melbourne, 27th November, 1935.

TENDERS FOR THE SERVICE 1935-36-37, ETC.

TENDERS will be received until Eleven o'clock a.m. on Wednesday, 11th December, 1935, from persons willing to furnish the undermentioned goods, in such quantities as may be ordered by the Victorian Government for the twelve months commencing on 1st January, 1936:—

Schedule No.	Preliminary Deposit.
	£
56. Motor Spirit and Kerosene	10

The prices tendered must not include sales tax.

Security.—Ten per cent. of total amount of tender accepted, except when otherwise specified in the tender form, but in no case will security of less than £5 be received.

Schedules as above, with full particulars, may be obtained from the Secretary to the Tender Board, by whom any information will be afforded tenderers.

In all cases the total cost of each item must be extended in the columns provided.

Tenders must be accompanied by the preliminary deposit, as shown above, by bank draft or marked cheque, in favour of the Secretary to the Tender Board. *Cheques, Savings Bank deposit books, fixed deposit receipts, State or Commonwealth Treasury bonds or Government debentures, or reference to securities on existing contracts will in no case be received or entertained as preliminary deposits.* Preliminary deposits will be returned within ten days to unsuccessful tenderers on their application.

The amount of the deposit required with each tender must be enclosed and the amount must be clearly written in and the designation stated, whether marked cheque or bank draft, as the case may be.

Security will be required, either in Bank Guarantee (Bank to be approved by the Tender Board), State or Commonwealth Treasury Bonds or Government debentures, Savings Bank deposit book, or fixed deposit receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

In the event of tenderers withdrawing or attempting to withdraw their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender. It is also stipulated that if a tenderer be a member of a firm and such firm be interested in the contract, then his tender is to be in the name of the firm and not in that of the individual; and that for a breach of this condition the preliminary deposit will be forfeited and the tender declared informal.

Tenders, enclosed in a separate envelope, and having the words "Tender for ———" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne, C.2, or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Pay Office, Treasury, Melbourne, C.2, which office they must reach by first post on the date of closing of tenders.

A. A. DUNSTAN,
Treasurer.

The Treasury,
Melbourne, 26th November, 1935.

PRIVATE ADVERTISEMENTS.

CITY OF HAWTHORN.

BY-LAW No. 120.

NOTICE is hereby given that the Council of the City of Hawthorn did make By-law No. 120, under the provisions of the *Local Government Act 1928*, the *Local Government Act 1934* (No. 4279), section 6 of the *Police Offences Act 1928*, and all other powers it thereto enabling.

The By-law contains the following provisions:—

Clause 1 (a).—Alteration of By-law No. 56 (Clause 11) in respect to the distances from streets at which fowl-houses may be erected.

(Clause 12) in respect to the erection of wire fences on land adjoining streets or roads.

(b) Alteration of By-law No. 112 by repealing clause 21, and substituting therefor a clause providing that pedestrians passing along a footpath shall keep to the left, and when meeting or overtaking any person proceeding in the same direction shall pass on the right-hand side of such person.

Clause 2.—Prohibits or regulates the use of private property situate at the junction of streets or roads for the growing of trees, shrubs, or hedges abutting on any such street or road, or within 10 feet therefrom.

Clause 3.—Requires the removal or lopping of trees, shrubs, or hedges from or on private property so situate where such trees, shrubs, or hedges abut on, or are within 10 feet of such street or road; and

Clause 4.—Authorizes the Council to remove or lop, at the expense of the owner, trees, shrubs, or hedges growing or being on private property so situate, which are not removed or lopped as required by or under any By-law.

Clause 5.—Defines the word "junction" under the By-law.

Clause 6.—Prohibits the deposit or leaving of refuse or rubbish on streets, roads, lanes, or passages.

Clause 7.—Prohibits or regulates the deposit or leaving of refuse or rubbish on any land, and requires the removal or destruction of rubbish on land.

Clause 8.—Fixes penalties for breach of, or continuing offence against By-law.

This By-law shall apply to and operate throughout the whole of the municipal district of the City of Hawthorn.

The By-law shall come into operation immediately after this publication in the *Government Gazette*.
