## Marine Act 1928.

## PORTS OF VICTORIA.—ADDITION TO PORT RULES.

## PROCLAMATION

By His Excellency Captain the Right Honorable William Charles Arcedeckne, Baron Huntingfield, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Governor of the State of Victoria and its Dependencies in the Commonwealth of Australia, &c., &c., &c.

**WHEREAS** by Part II. of the *Marine Act 1928* (19 Geo. V. No. 3723) it is amongst other things enacted that the Governor in Council, by Proclamation issued in the *Government Gazette*, may from time to time define the limits and boundaries of ports in Victoria, and frame rules and regulations for the government and preservation of the said ports respectively, and for the regulation of shipping in the same, and also for the due protection and preservation and the good government and management of all public wharfs, and that any such regulation may from time to time be in like manner altered, amended, or repealed and others substituted in their stead: Now, therefore I, the Governor of the State of Victoria in the Commonwealth of Australia, with the advice of the Executive Council of the said State, do hereby make the following addition to the Port Rules, that is to say:—

## NAVIGATION OF OIL TANKERS THROUGH PORT PHILLIP HEADS AND THE SOUTH CHANNEL DREDGED CUT.

After Rule 117A of the Rules and Regulations for the Ports in Victoria, insert—

117u. To avoid the risk of collision and danger due to the necessity for passing close to oil tankers in confined waters, masters of vessels shall not attempt the navigation of Port Phillip Heads nor the South Channel Dredged Cut, where the navigable width is only 650 feet for a length of 4,800 feet between Buoys Nos. 10 and 11, whilst an oil tanker is passing through.

To aid in the observance of this regulation, and as an indication to an oncoming vessel that an oil tanker is about to enter either of the channels mentioned, the precautions represented by the following signals must be strictly adhered to, that is to say:—

*Inwards over the ingoing stream by day or by night.*—An oil tanker, inward bound, by day or by night, provided the signals representing an ingoing stream are showing at Point Lonsdale, shall, before shaping course for the fairway, signal Point Lonsdale to the effect that she is ready to proceed, whereupon the officer on duty at that station shall, when all traffic likely to be met with has cleared the Heads, immediately hoist the General Commonwealth "Port Closed" or "Channel Blocked" signal, viz., by day, a black cone between two black balls; by night, a green light between two red lights hung in a vertical line; whereupon the entrance fairway will become temporarily closed to all traffic.

On these signals being observed, the tanker will hoist similar signals where they can be best seen and may not be confused with the ordinary regulation signals carried by oil tankers, and proceed inwards. On passing through and shaping course for the South Channel, the "Port Closed" signals from the oil tanker and Point Lonsdale will be hauled down and the entrance fairway will be opened again to all traffic.

*Inwards over the outgoing stream by day or by night.*—No tanker inward bound whilst the outgoing stream signals are being shown, shall shape a course for the fairway until all traffic in sight from the Signal Station and likely to be met with, has cleared the Heads, which clearance will be indicated by the immediate hoist of the "Port Closed" signal at Point Lonsdale, whereupon the entrance fairway will become closed to all traffic, and the tanker, after hoisting a similar signal, may proceed inwards whilst, at the same time, observing the directions already given herein covering a passage during the course of the ingoing stream.

On arrival off the South Channel Fort by day or by night, regardless of any phase of the tide, the oil tanker shall again show the "Port Closed" signal, when the channel will become closed to traffic. On clearing the Dredged Cut to the eastward at No. 13 Buoy, the closed channel signal shall be hauled down, whereupon the channel will be open again to all traffic.

*Navigation of Oil Tankers Outward Bound.*—The owner, agent, or master of any oil tanker drawing less than 29 feet, which it is intended to send to sea by day or by night, shall notify the Port Officer, Ports and Harbors Branch, Department of Public Works, Melbourne, as early as possible of the anticipated time of arrival of the tanker at the Heads.

To ensure a clear passage through the Dredged Cut, the tanker shall show the "Port Closed" signal from when abreast of the Howell Pile Light until clear of No. 9 Buoy at the western end of the Dredged Cut, when the signal is to be hauled down and the channel opened again to all traffic.

*Passage of the Heads outwards over the ingoing stream by day or by night.*—Whilst the signals for the ingoing stream are being shown, an oil tanker shall not proceed beyond Observatory Point nor hoist the "Port Closed" signal until such signal is first hoisted at Point Lonsdale, as an indication also that shipping traffic sighted is unlikely to be met with during the passage through of the tanker.

During the display of outgoing stream signals, the tanker shall first communicate by signal to Point Lonsdale Signal Station, and the officer in charge thereof shall hoist the "Port Closed" signal as early as safety demands for the outgoing passage of the tanker; which, in turn, will lower her signals immediately on clearing the Heads.

Given under my Hand and the Seal of the State of Victoria aforesaid, at Melbourne, this nineteenth day of May, in the year of our Lord One thousand nine hundred and thirty-six, and in the first year of the reign of His Majesty King Edward VIII.
