APPRENTICESHIP.

2. (1) Minors shall not be engaged in the following occupations except under contracts of apprenticeship :—

(a) Mechanical engineering, i.e., one or more of the following :—

- (i) Pattern-making.
- (ii) Fitting and turning.
- (iii) First and second-class machinist.
- (iv) First-class welding.

(b) Locksmithing—the making and/or repairing of locks, including those of safes and strongroom doors, but not including the making of parts by specialized processes and the assembling thereof.

(c) Motor mechanic.

(d) Safe and strongroom making.

(e) Scale-making (except the making of parts by specialized processes and the assembling thereof).

(f) Brassfinishing (except the making of parts by specialized processes and the assembling thereof).

(g) Window-frame fitting.

(h) Smithing—

- (i) Blacksmithing.
- (ii) Copper and/or brass smithing.

(i) Moulding—one or more of the following :—

- (i) Jobbing, moulding and core making.
- (ii) Jobbing, brass moulding and core making.

(2) The proportion of apprentices who may be taken by any employer shall be as follows :—

Mechanical engineering—one apprentice for every three, or fraction of three, tradesmen.

Locksmithing—one apprentice for every three, or fraction of three, tradesmen.

Motor mechanic—one apprentice for every two, or fraction of two, tradesmen.

Safe and strongroom making—one apprentice for every three, or fraction of three, tradesmen.

Scalemaking—one apprentice for every three, or fraction of three, tradesmen.

Smithing—one apprentice for every three, or fraction of three, tradesmen.

Moulding—one apprentice for every two, or fraction of two, tradesmen.

For the purpose of ascertaining the number of apprentices, the number of tradesmen shall be deemed to be the average number working during the immediately preceding six months, and in ascertaining such proportion, an employer actually working in any workshop shall be deemed to be a tradesman.

- (3) The periods of apprenticeship shall be as follow :—
 For the trades included in sub-clauses (a), (b), (c), (h) and (i) of this clause : If the apprentice when articulated is under the age of 17, 5 years ; if over the age of 17, 4 or 5 years, at the option of the contracting parties.
 For the trades included in sub-clauses (d), (e), (f) and (g) of this clause, 4 or 5 years, at the option of the contracting parties.
- (4) An employer especially qualified to teach apprentices may, with the consent of the Secretary for Labour, on the recommendation of the Wages Board, employ a greater proportion of apprentices to tradesmen than hereinbefore specified.
- (5) Minors may be taken on probation for three months, and if apprenticed, such three months shall count as part of their period of apprenticeship.
- (6) Until further order any contract of apprenticeship hereafter made may contain the following provision :—
 If through lack of orders, or through financial difficulties, the employer is unable at any time to find employment for an apprentice, and if a transfer to another employer cannot be arranged, the obligations and duties imposed by the indenture may with the concurrence of the apprentice and his guardian be suspended for a period agreed upon, or if no such agreement is arrived at may be cancelled by the employer. The onus of proof of circumstances justifying such cancellation shall be on the employer.
 This provision shall also be deemed to be included in contracts of apprenticeship entered into after the 25th day of March, 1930.

Notwithstanding anything elsewhere in this Determination contained, where an apprentice is under the age of 21 years on the expiry of his apprenticeship, he shall be paid four-fifths of the tradesman's time wage until reaching the age of 21 years.

- (8) All wages shall be paid without deduction for specified holidays or for unavoidable absences through sickness certified as in clause 13 (a) to the number of 4 days per annum.
- (9) The ordinary hours of employment of apprentices shall be the same in each workshop as those of journeymen.
- (10) An apprentice under the age of 18 years shall not be liable to work overtime unless he so desires.
- (11) An apprentice shall not work under any system of payment by results.
- (12) Any apprentice who cannot complete his full term of apprenticeship before reaching his twenty-second birthday may, by agreement with his master, serve as an apprentice until he reaches the age of 23 years.
- (13) The apprentice at the end of the calendar period of any year in which he has actually given service to the master upon less than the ordinary working days prescribed in the Determination for the trade, or in which he has unlawfully absented himself without the master's consent, shall, for every day short of the said number of working days, and for every day of such absence, serve one day, and the calendar period of the succeeding year of his service shall not be deemed to begin until the said additional day or days shall have been served.
- (14) An employer shall not, either directly or indirectly, or by any pretence or device receive from any person or require or permit any person to pay or give any consideration in the nature of a premium or bonus for the taking or binding of any probationer or apprentice.
- (15) Apprentices attending technical colleges or schools and presenting reports of satisfactory conduct shall be reimbursed all fees paid by them.
- (16) Where an Apprenticeship Commission or other body under Statutory authority has issued or may hereafter issue any regulations relating to apprentices such regulations so far as they are not inconsistent with this Determination shall operate.
- (17) A person who is for a term not exceeding two years taking practical training in a workshop in continuance of a course of training for professional work shall not be taken into account in calculating the proportion of apprentices to journeymen.

FEMALE AND UNAPPRENTICED JUNIOR LABOUR.

3. (a) Adult female labour may be employed in the manufacturing and assembling of small parts of electrical and other machinery and appliances, and in core-making, in which females were employed on the 15th May, 1935.

The wages of adult females shall be at the following weekly rates of wage—

Juniors under the age of 16 shall not be employed on oil or gas burners or fires used for heating of small articles.

Juniors under the age of 18 shall not be employed as furnacemen or assistants to furnacemen—juniors over the age of 18, so employed shall be paid 3s. per week in addition to the junior rates of wage herein prescribed.

HOURS OF EMPLOYMENT.

4. With the exceptions herein set out the ordinary hours of employment shall be 44 per week, to be worked in five days of 8 hours and one day (Saturday) of 4 hours, or five days of 8 hours 48 minutes each, continuously except for meal hour breaks at the discretion of the employer between 7 a.m. and 5.30 p.m. on Monday to Friday inclusive, and 7 a.m. to noon on Saturday: Provided that the spread of hours herein prescribed may be altered by mutual agreement between an employer and his employees.

By agreement between any employer and his employees ordinary hours may be worked on the basis of 88 per fortnight with one week of 40 and one of 48 hours.

EXCEPTIONS.

(i) The ordinary hours of employment of forgers and forge furnacemen shall be five shifts per week of 9½ hours each, including crib time, for which no deduction of pay shall be made.

(ii) Shift workers working 8 hours per shift without any break for meals on six days in each week shall be deemed to work 44 hours per week provided that they are given one fortnight's holiday in each year on full pay as compensation for working Saturday afternoon, holiday, and/or Sunday shifts:

Further provided that such shift workers ceasing to be employed on shift before the completion of any year shall be paid one day's pay for each month or part of a month's service in lieu of the fortnight's holiday herein mentioned.

(iii) Employees working in country towns where Wednesday afternoon is recognized as the usual half working day of the week shall work the Saturday afternoon at ordinary rates: Provided that for work done after noon on a Wednesday overtime rates be paid.

SHIFT WORK.

Continuous Processes.

5. (a) Employees working in establishments carrying on continuous process shall work such shifts, up to six per week, as may be required.

(b) A shift shall consist of 8 hours inclusive of such time as by mutual arrangement may be taken for meal breaks.

(c) For all time of duty outside ordinary hours or in excess of 8 consecutive hours in 24 or of 44 in one week an employee on shift work in a continuous process shall be paid at double rates. But this shall not apply to arrangements between employees themselves or in cases due to rotation of shift or when the relief does not come on duty at the proper time: Provided that where not less than 8 hours' notice has been given to the employer by the employee that he will be absent from work and the employee whom he should relieve is not relieved, such unrelieved employee shall be paid time and a half for all time of duty after he has finished his ordinary shift:

(d) Employees working afternoon and night shifts shall be paid 5 per cent. more than ordinary rates for such shifts.

(e) Employees working any Sunday or holiday shift shall be paid at the rate of time and a half for such shift.

Shift Work in other than Continuous Processes.

(f) In establishments not coming within the definition of continuous processes, any afternoon or night shift which does not continue for five successive working nights or more in a five day workshop, or six successive working nights or more in a six day workshop, shall be paid for at the rate of time and a half.

(g) For any afternoon or night shift which has been in operation for five nights or more and less than one month 10 per cent. more than ordinary rates shall be paid and after such shifts have continued for more than one month 5 per cent. more than ordinary rates shall be paid.

(h) On ship repair work shifts may be worked for not less than three successive nights at the rate of time and a quarter, but when five or more successive night shifts have been worked the rate shall be 10 per cent. more than ordinary rates, and after such shifts have continued for more than one month 5 per cent. more than ordinary rates.

(i) Shift workers shall be paid overtime at the rate of time and a half for the first 4 hours and double time thereafter for all time worked in excess of shift hours.

MIXED FUNCTIONS.

6. An employee engaged for more than half of one day or shift on duties carrying a higher rate than his ordinary classification shall be paid the higher rate for such day or shift. If for less than half of one day or shift he shall be paid the higher rate for the time so worked.

OVERTIME.

7. (a) For all work done outside ordinary hours the rates of wage shall be time and a half for the first 4 hours and double time thereafter, such double time to continue to be paid until an employee has been relieved from work for at least 8 hours. Provided that an employee shall not be entitled to payment for such rest period.

(b) Except as provided above in computing overtime each day's work shall stand alone.

(c) An employee recalled after leaving his workshop to work overtime shall be paid for a minimum of three hours' work at the appropriate rate.

(d) An employee occasionally required to hold himself in readiness to work after ordinary hours shall until released be paid standing by time at ordinary rates from the time from which he is so to hold himself in readiness. But any custom now prevailing under which an employee is required regularly to hold himself in readiness for a call back shall continue.

(e) An employee (other than on shift) who has worked up to or beyond midnight shall not be bound to continue work on the following day.

(f) As far as practicable employees shall not work overtime while competent labour is available.

(g) For work done during meal hours and thereafter until a meal hour break is allowed time and a half rates shall be paid. An employee shall not be compelled to work for more than six hours without a break for a meal.

(h) An employee working overtime shall be allowed a crib time of twenty minutes without deduction of pay after each 4 hours of work, but this provision shall not prevent any arrangement being made for the taking of a longer meal period without pay.

(i) Before starting overtime after working ordinary hours a meal break of at least 45 minutes shall be allowed, unless the period of overtime is less than one and a half hours.

An employer and his employee may mutually agree to any variation of this sub-clause to meet the circumstances of the work in hand.

(j) An employee required to work overtime for more than two hours without being notified the day before that he will be so required to work, shall either be supplied with a meal by the employer or paid 1s. 6d., or if work extends into a second meal hour 2s. 6d. for the two meals, but such payment need not be made to employees living in the same locality as their work-shop who can reasonably return home for meals.

If an employee pursuant to notice has provided a meal or meals and is not required to work overtime he shall be paid for each meal so provided.

(k) Subject to the provisions of the second part of sub-clause (g) of this clause an employee shall work during meal breaks at the ordinary rates herein prescribed whenever instructed so to do for the purpose of making good break-downs of plant or upon routine maintenance of plant which can only be done while such plant is idle.

(l) When an employee working overtime finishes work at a time when reasonable means of transport is not available, the employer shall provide him with a conveyance or pay him his current wage for the time occupied in reaching his home.

SPECIAL CONDITIONS APPLICABLE TO EMPLOYMENT IN UNDERTAKINGS RESPONSIBLE FOR THE INSTALLATION, MAINTENANCE, AND SUPPLY OF ELECTRIC LIGHT AND POWER.

8. The following special conditions shall apply to all employees employed in undertakings concerned in the installation, maintenance, and supply of electric light and power:—

(a) (in lieu of clause 4 "Hours of Employment" of this Determination)—

The hours of employment, except of employees who were working 44 hours on this date shall be 48 per week to be worked (with the exception of shift workers and patrolmen) in five and a half days consecutively between 6 a.m. and 6 p.m., but this spread of hours may be altered by mutual agreement between an employer and his employees. Patrolmen, subject to continuance of existing conditions, shall work at such hours as the employer may direct.

(in lieu of clause 5 "Shift Work" of this Determination)—

(i) Employees working in continuous processes shall work such shifts as may be required.

(ii) A shift shall consist of 8 hours inclusive of such time as by mutual arrangement may be taken for meal breaks. By agreement with his employees an employer may allow a fixed meal hour for each shift without payment for such break. Employees engaged on continuous process on afternoon and night shifts shall be paid 5 per cent. extra for such shifts and all employees working on any Sunday or holiday shift shall be paid time and a half for such shifts.

(iii) Employees not engaged in a continuous process working on afternoon or night shift which does not continue for more than three successive nights shall be paid for such shifts at the overtime rates prescribed in this clause.

(iv) Shift workers shall be paid at the rate of time and a half for all time worked in excess of shift hours, except when such overtime is due to arrangement between the employees themselves, or is necessary in effecting periodical rotation of shifts, or is owing to the failure of a shiftman, who should relieve, to present himself for duty at the appointed time, in which cases ordinary time only shall be paid.

(v) All prevailing customs for holidays and annual leave of absence for shift workers, shall continue.

(c) The following sub-clause is added to clause 7:—

Employees effecting repairs to and engaged in the maintenance necessary for continuity of supply of electric light and of power plant and equipment shall be paid for all such overtime at the rate of time and a half.

(d) In lieu of clause 7—

An employee recalled after leaving work to work overtime shall be paid for a minimum of one hour's work at the appropriate rate.

(e) Clause 7 (f) and 7 (i) shall not be applicable to employees mentioned in this clause.

(f) If an employee works 8 hours on a Sunday he shall be given a day off duty during the following week, but payment shall not be made for such day off duty. If, in case of emergency, the employee cannot be granted such day off he shall be paid for any such day (which would have been his rest day) at the rate of time and a half for the hours worked on that day.

HOLIDAYS AND SUNDAY WORK.

9. (a) Employees shall be entitled to the following public holidays (without pay except as hereinafter provided):—New Year's Day, Foundation or Anniversary Day, Good Friday, Easter Saturday, Easter Monday, King's Birthday, Eight Hours Day (or Labour Day), Anzac Day, Christmas Day and Boxing Day, or such other day as is generally observed in the locality as a substitute for any of the said days respectively.

Exceptions.

By agreement between any employer and his employees, other holidays may be substituted for the said days or any of them as to such employer's undertaking.

(b) Employees not engaged in continuous processes shall be paid at the rate of double ordinary time for work done on Sundays and public holidays, such double time to continue until the employee has been relieved from duty for at least 8 hours. Provided that the employee shall not be paid for the time he is resting.

Provided that employees engaged in repairs to or renewals of their employer's plant and machinery necessary for resumption of work the next following working day or for maintaining the continuity of electric light and power (not including the installation of new machinery) shall on holidays or Sundays be paid at the rate of time and a half.

(c) Employees, other than on shift or engaged in maintaining the continuity of electric light and power, required to work on Sundays or public holidays shall be paid for a minimum of three hours work.

PIECE-WORK RATES.

10. Subject to the minimum wages herein prescribed an employer may remunerate any of his employees under any system of payment by results.

EXTRA RATES NOT CUMULATIVE.

11. Extra rates in this Determination, including rates prescribed in clause 16, are not cumulative so as to exceed the maximum of double the ordinary rates.

PAYMENT OF WAGES.

12. (a) Wages shall be paid weekly or fortnightly. Where the services of an employee are dispensed with, wages shall be paid to him on the day of dismissal or forwarded to him by post on the day following.
- (b) An employee kept waiting for his wages on pay day for more than a quarter of an hour after the usual time for ceasing work shall be paid at overtime rates after that quarter-hour, with a minimum of a quarter of an hour.

CONTRACT OF EMPLOYMENT.

13. (a) With the exceptions hereinafter stated, employment may be by the week or by the hour. If by the week it shall be terminable on either side by one week's notice given on any day or (if the employer terminate it without such notice), by payment of one week's wages.

A contract for weekly employment may be terminated by any employer, without liability to pay for more than time actually worked, for misconduct or for absence from work without reasonable excuse.

If an employee engaged by the week absents himself from duty, except on public holidays or for days for which he produces a certificate from a medical practitioner or other proof satisfactory to his employer of sickness (aggregating 4 days' sickness in each year), a sum proportionate to his time of absence may be deducted from his pay, i.e., one-sixth of the weekly wage for each day of absence, including Saturday in shops working six days and one-fifth in shops working five days per week: Provided that only time actually lost shall be deducted when an employee is absent with leave on a Saturday.

(b) If the contract of employment is for hourly hiring, the total amount of the rates prescribed in clause 1 hereof shall be increased by 5s. per week (with a proportionate amount added to the wages of females and juniors), but such amount shall not be taken into account in computing overtime, Sunday and holiday rates.

(c) An employee starting work on hourly hiring shall be entitled to a minimum of four consecutive hours' work or to four hours' pay for the job—such hours may be deemed to be consecutive if worked in ordinary hours at the end of a day and the beginning of the next succeeding day.

MISCELLANEOUS PROVISIONS.

14. (a) Tools.—The employer shall provide for each employee all necessary tools, including micrometer, where used, but excluding other measuring or precision tools less than 13". The employee shall replace or pay for any tools so provided if lost through his negligence.

(b) Employers shall provide proper washing and sanitary conveniences. In any workshop in which employees through a shop steward or committee ask for the provision of lockers and shower baths and an undertaking is given that the baths provided will be used by the majority of the workmen and that the baths and lockers will be properly cared for, a locker shall be installed by the employer for each workman, and hot and cold shower baths (away from lavatories) for all workmen employed in foundries.

(c) Suitable asbestos sheet and coloured glasses shall be provided by employers for the protection of electric arc and oxy-acetylene operators and their assistants, and suitable mica or other goggles for emery-wheel operators.

(d) Patternmakers at the conclusion of their employment shall be allowed one hour for grinding tools.

(e) Suitable canvas or leather gloves shall be provided by employers for the operators of pneumatic tools and/or punch and shearing machines.

(f) All ladles of a holding capacity of 15 cwt. or more shall be fitted with safety-work gear or an equivalent safety fitting.

(g) Not more than $\frac{1}{2}$ cwt. of molten metal per man shall be placed in ladles carried by hand.

(h) Where molten metal is carried by hand a clear passageway not less than 2 feet wide shall be made.

TIME AND WAGES BOOK.

15. Each employer shall keep a time and wages book showing the name of each employee and his occupation, the hours worked each day, and the wages and allowances paid each week.

The time occupied by an employee in filling in any time books or cards or in the making of records shall be treated as time of duty, but this does not apply to checking in or out at the beginning or end of duty.

SPECIAL RATES.

16. In addition to the wages prescribed in clause 1 hereof the following special rates and allowances shall be paid:—

(a) Leading hands in charge of not less than 3 and not more than 10 employees, including apprentices, 6s. per week extra; more than 10 and not more than 20, including apprentices, 12s. per week extra; more than 20, including apprentices, 18s. per week extra.

(b) Working in wet places—1½d. per hour extra.

Working in confined spaces—3d. per hour extra.

Working in ship's bilges or in boiling-down works, lead works, sanitary works or slaughter-yards—1d. per hour extra.

(c) Working for more than one hour in the shade in places where the temperature is raised by artificial means to between 115 and 130 degrees Fahr., 1½d. per hour extra; in places where the temperature exceeds 130 degrees Fahr., 3d. per hour extra. Where work continues for more than 2 hours in temperatures exceeding 130 degrees Fahr., employees shall also be entitled to 20 minutes rest after every 2 hours work' without deduction of pay. The temperature shall be decided by the foreman of the work after consultation with the employees who claim the extra rate.

(d) Working for more than one hour in places where the temperature is reduced by artificial means below zero, 1½d. per hour extra. Where the work continues for more than two hours employees shall be entitled to a rest period of twenty minutes every two hours without loss of pay.

(e) Working on repairs to smoke-boxes or fire-boxes of locomotives or on repairs to the smoke-box, up-take, funnel, flue furnace or combustion chamber of marine type boilers or on repairs to smoke boxes, fire-boxes, furnace or flues of other types of boilers, 1d. per hour extra.

(f) Working on repairs in oil tanks or meat digestors, 1½d. per hour extra.

(g) Dirty work, i.e., work which a foreman and workman shall agree is of an unusually dirty or offensive nature, 1½d. per hour extra.

(h) Patternmaker in lignum vitae outside the workshop and fitting to stern bushes, 3d. per hour extra.

(i) Tradesmen and/or welders employed in large operating power-houses, i.e., power-houses developing more than 8,000 kilowatts, other than those not on the regular staff, engaged on new construction shall be paid 6s. per week extra; such amount shall be deemed to include all special rates provided in this clause except in sub-clause (a).

(j) Compensation to the extent of damage sustained shall be made for work in which clothing or tools are damaged or destroyed by the use of acids.

(k) Except when dismissed for misconduct or when leaving of his own accord, a patternmaker employed for less than 3 weeks at a workshop or job shall, to the extent of 6s. be reimbursed by his employer any expense incurred in the carting of tools.

(l) Where more than one of the disabilities entitling a workman to extra rates exist on the same job the employer shall be bound to pay only one rate, namely, the highest for the disabilities so prevailing.

(m) The rate for forger and/or faggoter set out herein and the rate for forge furnacemen shall be for a 44-hour week. The hourly rate shall be ascertained by dividing the respective weekly rate as adjusted by 44.

TRAVELLING TIME, ALLOWANCE AND BOARD.

17. (a) When an employee is required to work away from his workshop or depot, all time reasonably spent in excess of time usually spent in travelling to or from his home to the workshop, depot or district centre shall be paid for at ordinary rates up to a maximum of twelve hours out of every twenty-four (except on Sunday when payment shall be at the rate of time and a half, or a maximum of eight hours out of each twenty-four). An employee required to work at a job away from his workshop, depot or district centre shall, at the direction of his employer, present himself for work at such job at the usual time for starting work.

(b) An employee engaged in a capital city to work in the country or sent from one country centre to work in another, shall be entitled to travelling time, and, for a period not exceeding three months, to expenses.

All excess fares and reasonable travelling expenses including board and lodging and 2s. for each meal (if any) incurred in such travelling time shall be paid by the employer.

The fares allowed shall be first class on coastal boats or on interstate boats where there is no second class as distinct from steerage and on trains second class, except where all night travelling is involved when they shall be first class.

(c) On jobs of less than three months' duration a camping allowance of 3s. per day for every day, including Sunday, shall be paid to employees engaged on country jobs at places where ordinary board and residence is not obtainable and camping in tents or other temporary shelters is necessary.

(d) An employer shall be free to engage labour on the site of a job carried on away from the workshop, without payment of any travelling time or fares, unless such employee is sent from the workshop.

Provided that if any employee engaged for the erection of a job had previously been engaged by the same employer in the fabrication of the job in a workshop he shall be paid fares in excess of those incurred in travelling to and from the workshop.

DEFINITIONS.

18. For the purposes of this Determination the following definitions shall apply:—

"Manufacture and/or manufacturing" means the making and assembling in quantities of interchangeable or standardized parts used in or in connexion with machinery and mechanical apparatus and of electrical machinery and apparatus and of locks, scales, window frames, and other metallic articles.

"Process worker" means an employee engaged on—

- (1) Repetition work on any automatic, semi-automatic, or single-purpose machine or any machine fitted with jigs, gauges, or other tools rendering operations mechanical (and in connexion with which he is not responsible for the setting up of the machine nor for the dimensions of the products other than by checking with gauges which gauges shall be either unadjustable or, if adjustable, shall not be set by the operator), or
- (2) in the assembling of parts of mechanical appliances or other metallic articles so made, in which no fitting or adjustment requiring skill is required, or
- (3) in specialized processes—not requiring the use of hand tools (except hammers, screw drivers, or spanners) in or in connexion with manufacturing.

"Tradesman" means an adult workman who, in the course of his employment, works from drawings or prints required to be scaled, and/or measured from drawings or prints, or makes precision measurements, or applies general trade experience, and includes locksmith and first-class machinist.

"Precision measurements" means measurements of a finer accuracy than is possible with the naked eye from caliper, measuring scale, or rule.

"Tradesman in gun armament, instrument, and torpedo work" means a tradesman who is required to lay out and repair or make naval gun optical instrument or torpedo mechanisms, and includes a tradesman engaged dismantling, assembling, and rating torpedoes, also tradesmen engaged dismantling, assembling, and fitting in turrets of actual parts of gun mountings and guns.

"Patternmaker" means a tradesman engaged in the making of patterns in wood.

"Toolmaker" means a tradesman making and/or repairing any precision tool, gauge, die, or mould to be affixed to any machine, who designs or lays out his work and is responsible for its proper completion.

"First-class machinist" means a tradesman who is partly or wholly engaged in setting up and operating the following machines:—Lathe, boring machine, milling machine, planing machine, shaping machine, slotting machine and grinding machine.

"Second-class machinist" means an adult not engaged as a tradesman and who is not required to work from drawings or prints required to be scaled and/or measured from drawings or prints or to make precision measurements, but who is engaged in operating or in the setting up and operating of machines enumerated in the definition of "First-class machinist"; or who is engaged operating a key-seating machine, or a second-class brass finisher or as a pipe fitter on low pressure work.

"Third-class machinist" means a machinist, not being a process worker, who operates any machine set up by a tradesman or any machine the setting up of which does not require the knowledge or skill of a second-class machinist.

"Window-frame making" means the making in quantities of metal window frames, metal doors, and grilles, and metal ornamentations used in buildings.

"Motor mechanic" means an adult employee engaged in making, repairing, altering, assembling (except for the first time in Australia) or testing the metal parts (including electric) of the engines of motor cars, motor cycles, or other motor vehicles.

"Locksmith" means a tradesman engaged in the making (except in quantities by manufacturing methods) and/or repairing of locks and the mechanism of safe and strong-room doors.

"First-class welder" means an adult employee using electric arc or acetylene blowpipe or coal gas cutting plant on work other than filling castings, cutting scrap metal, using jigs or doing work covered by definitions of second and third-class welder, and includes re-welding by hand processes.

"Second-class welder" means an adult employee not required to do first-class welding, but engaged in filling castings or in manufacturing of sheet metal goods or welding with the aid of jigs, or re-welding except by hand processes, or operating automatic welding machines for the setting up of which he is not responsible.

"Third-class welder" means an adult employee using electric spot or butt welding machine, or cutting scrap with oxy-acetylene blowpipe.

"Other smiths" includes ajax forger, blacksmith bulldozer, Bradley hammer smith, drop-hammer smith, chain smith, engine smith, general smith, motor smith, oliver smith, ship smith, spring smith, rolling-stock smith, and wheelwright smith.

"Jobbing moulder" means a metal moulder engaged in floor moulding, loam moulding, strickle moulding, or moulding from loose patterns, and/or finishing off bath moulds made by a machine process.

"Jobbing coremaker" means a moulder engaged in making cores for metal moulds by the use of loam or strickle boards, or by loose boxes, other than loose boxes used for repetition production of cores requiring little or no skill to produce.

"Plate and machine moulder" means an adult employee engaged in moulding on the plate system or by machines where the pattern is either a fixture to the plate or the spray system is used.

"Machine coremaker" means an adult employee making cores by machines where the core box is a fixture to or part of such machine, or making repetition cores requiring little or no skill to produce.

"Furnaceman" means an employee in charge of a furnace used for smelting metals or ores, case hardening and/or annealing furnaces, and such heating furnaces where the weight of individual pieces of material is 5 cwt. or more or the area of the material exceeds 4 square feet.

"Continuous process" means a process in which work is carried on, except for breakdowns, with successive shifts of men throughout the days and nights for at least six days in each week.

"Year" means 365 consecutive days, starting from the day of commencement of operation of this determination.

"Shift work"—afternoon shift means any shift finishing after 6 p.m. and at or before midnight. Night shift means any shift finishing subsequent to midnight and at or before 8 a.m.

"Sunday" means all time between midnight Saturday and midnight Sunday.

"Wet place" means a place in which water is continually dripping from overhead to such an extent as to saturate the clothing of a workman, or a place where water accumulates underfoot to a depth exceeding two inches.

"Confined space" means a working place, the dimensions of which necessitate an employee working in a stooped or otherwise cramped position, or without proper ventilation, or where confinement within a limited space is productive of unusual discomfort.

SPECIAL EXEMPTIONS.

19. (a) *Motor Body Building*.—Employers engaged in motor body building and the assembling of motor chasses shall be exempt from this determination as to the making of motor bodies and the assembling of chasses.

(b) *Agricultural Implement Making*.—Except as to the Wages prescribed for Tradesmen.—Employers engaged in the making of agricultural and dairying implements shall, as to employees engaged in the making of such agricultural and dairying implements (including engines used for agricultural purposes), be exempt from this Determination.

ADJUSTMENT OF BASIC WAGE.

(4) (a) For work done before the beginning of the first pay period to commence in December, 1936, the amounts of the basic wage prescribed in clause 3 (a) shall be paid.

(b) For work done during each future successive period beginning with the first pay period to commence in a March, a June, a September, or a December, the amounts of the basic wage shall be adjusted by the following method according to the position and fluctuations (if any) of the Commonwealth Statistician's "All Items" retail price index numbers.

For the purposes of this Determination the expression "Commonwealth Statistician's retail price index numbers" or any like expression means the numbers stated to be such index numbers in any document purporting and not proved to be wrongly so purporting, to be printed by the Commonwealth Government Printer or to be signed by or on behalf of the Commonwealth Statistician :—

- (1) Adjustment is to be based upon the equating of index number 1000 with a wage of 81s., the amount assessed upon that number of the Court's declared ordinary basic wage per week.
- (2) The index number set to be applied to a place is that assigned thereto in clause 3 (a).
- (3) The index number for the calendar quarter next preceding the period of thirteen weeks for which the adjustment is made is to be ascertained.
- (4) The amount assigned in the following table (or in any extension thereof) to the index number division comprising that number is to be ascertained.
- (5) The basic wage shall be of that assigned amount during such successive period.

Provided however, that if that assigned amount of the basic wage be different by less than 2s. from the last current amount of the basic wage, then that last current amount of such basic wage shall continue unchanged during such period.

Juniors under the age of 16 shall not be employed on oil or gas burners or fires used for heating of small articles.

Juniors under the age of 18 shall not be employed as furnacemen or assistants to furnacemen—juniors over the age of 18 so employed shall be paid 3s. per week in addition to the junior rates of wage herein proscribed

HOURS OF EMPLOYMENT.

(7) With the exceptions herein set out the ordinary hours of employment shall be 44 per week, to be worked in five days of 8 hours and one day (Saturday) of 4 hours, or five days of 8 hours 48 minutes each, continuously except for meal hour breaks at the discretion of the employer between 7 a.m. and 5.30 p.m. on Monday to Friday inclusive, and 7 a.m. to noon on Saturday: Provided that the spread of hours herein proscribed may be altered by mutual agreement between an employer and his employees.

By agreement between any employer and his employees ordinary hours may be worked on the basis of 88 per fortnight with one week of 40 and one of 48 hours.

Exceptions.

(i) The ordinary hours of employment of forger's assistant shall be five shifts per week of nine and a half hours each, including orib time, for which no deduction of pay shall be made.

(ii) Shift workers working 8 hours per shift without any break for meals on six days in each week shall be deemed to work 44 hours per week provided that they are given one fortnight's holiday in each year on full pay as compensation for working Saturday afternoon, holiday, and/or Sunday shifts:

Further provided that such shift workers ceasing to be employed on shift before the completion of any year shall be paid one day's pay for each month or part of a month's service in lieu of the fortnight's holiday herein mentioned.

(iii) Employees working in country towns where Wednesday afternoon is recognized as the usual half working day of the week shall work the Saturday afternoon at ordinary rates: Provided that for work done after noon on a Wednesday overtime rates be paid.

SHIFT WORK.

Continuous Processes.

(8) (a) Employees working in establishments carrying on continuous processes shall work such shifts, up to six per week, as may be required.

(b) A shift shall consist of 8 hours inclusive of such time as by mutual arrangement may be taken for meal breaks.

(c) For all time of duty outside ordinary hours or in excess of 8 consecutive hours in 24 or of 44 in one week an employee on shift work in a continuous process shall be paid at double rates. But this shall not apply to arrangements between employees themselves or in cases due to rotation of shift or when the relief does not come on duty at the proper time: Provided that where not less than 8 hours' notice has been given to the employer by the employee that he will be absent from work and the employee whom he should relieve is not relieved, such unrelieved employee shall be paid time and a half for all time of duty after he has finished his ordinary shift.

(d) Employees working afternoon and night shifts shall be paid 5 per cent. more than ordinary rates for such shifts.

(e) Employees working any Sunday or holiday shift shall be paid at the rate of time and a half for such shift.

Shift Work in other than Continuous Processes.

(f) In establishments not coming within the definition of continuous processes, any afternoon or night shift which does not continue for five successive working nights or more in a five day workshop, or six successive working nights or more in a six day workshop, shall be paid for at the rate of time and a half.

(g) For any afternoon or night shift which has been in operation for five nights or more and less than one month 10 per cent. more than ordinary rates shall be paid and after such shifts have continued for more than one month 5 per cent. more than ordinary rates shall be paid.

(h) On ship repair work shifts may be worked for not less than three successive nights at the rate of time and a quarter, but when five or more successive night shifts have been worked the rate shall be 10 per cent. more than ordinary rates, and after such shifts have continued for more than one month 5 per cent. more than ordinary rates.

(i) Shift workers shall be paid overtime at the rate of time and a half for the first 4 hours and double time thereafter for all time worked in excess of shift hours.

MIXED FUNCTIONS.

(9) An employee engaged for more than half of one day or shift on duties carrying a higher rate than his ordinary classification shall be paid the higher rate for such day or shift. If for less than half of one day or shift he shall be paid the higher rate for the time so worked.

OVERTIME.

(10) (a) For all work done outside ordinary hours the rates of wage shall be time and a half for the first 4 hours and double time thereafter, such double time to continue to be paid until an employee has been relieved from work for at least 8 hours: Provided that an employee shall not be entitled to payment for such rest period.

(b) Except as provided above in computing overtime each day's work shall stand alone.

(c) An employee recalled after leaving his workshop to work overtime shall be paid for a minimum of three hours' work at the appropriate rate.

(d) An employee occasionally required to hold himself in readiness to work after ordinary hours shall until released be paid standing by time at ordinary rates from the time from which he is so to hold himself in readiness. But any custom now prevailing under which an employee is required regularly to hold himself in readiness for a call back shall continue.

(e) An employee (other than on shift) who has worked up to or beyond midnight shall not be bound to continue work on the following day.

(f) Employees shall not work overtime while competent labour is available.

(g) For work done during meal hours and thereafter until a meal hour break is allowed time and a half rates shall be paid. An employee shall not be compelled to work for more than six hours without a break for a meal.

(h) An employee working overtime shall be allowed a crib time of twenty minutes without deduction of pay after each 4 hours of work, but this provision shall not prevent any arrangement being made for the taking of a longer meal period without pay.

(i) Before starting overtime after working ordinary hours a meal break of at least 45 minutes shall be allowed, unless the period of overtime is less than one and a half hours.

An employer and his employee may mutually agree to any variation of this sub-clause to meet the circumstances of the work in hand.

(j) An employee required to work overtime for more than two hours without being notified the day before that he will be so required to work, shall either be supplied with a meal by the employer or paid 1s. 6d., or if work extends into a second meal hour 2s. 6d. for the two meals, but such payment need not be made to employees living in the same locality as their work-shop who can reasonably return home for meals.

If an employee pursuant to notice has provided a meal or meals and is not required to work overtime he shall be paid for each meal so provided.

(k) Subject to the provisions of the second part of sub-clause (g) of this clause an employee shall work during meal breaks at the ordinary rate herein prescribed whenever instructed so to do for the purpose of making good break-downs of plant or upon routine maintenance of plant which can only be done while such plant is idle.

(l) When an employee working overtime finishes work at a time when reasonable means of transport is not available, the employer shall provide him with a conveyance or pay him his current wage for the time occupied in reaching his home.

HOLIDAYS AND SUNDAY WORK.

(11) (a) Employees shall be entitled to the following public holidays (without pay as hereinafter provided):—New Year's Day, Foundation or Anniversary Day, Good Friday, Easter Saturday, Easter Monday, King's Birthday, Eight Hours Day (or Labour Day), Anzac Day, Christmas Day, and Boxing Day, or such other day as is generally observed in the locality as a substitute for any of the said days respectively.

Exceptions.

By agreement between any employer and his employees, other holidays may be substituted for the said days or any of them as to such employer's undertaking.

(b) Employees not engaged in continuous processes shall be paid at the rate of double ordinary time for work done on Sundays and public holidays, such double time to continue until the employee has been relieved from duty for at least 8 hours. Provided that the employee shall not be paid for the time he is resting.

Provided that employees engaged in repairs to or renewals of their employer's plant and machinery necessary for resumption of work the next following working day or for maintaining the continuity of electric light and power (not including the installation of new machinery) shall on holidays or Sundays be paid at the rate of time and a half.

(c) Employees, other than on shift or engaged in maintaining the continuity of electric light and power, required to work on Sunday or public holidays shall be paid for a minimum of three hours work.

PIECE-WORK RATES.

(12) (a) Subject to the minimum wages herein prescribed an employer may remunerate any of his employees under any system of payment by results.

EXTRA RATES NOT CUMULATIVE.

(13) Extra rates in this Determination, including rates prescribed in clause 14, are not cumulative so as to exceed the maximum of double the ordinary rates.

PAYMENT OF WAGES.

(14) (a) Wages shall be paid weekly or fortnightly. Where the services of an employee are dispensed with, wages shall be paid to him on the day of dismissal or forwarded to him by post on the day following.

(b) An employee kept waiting for his wages on pay day for more than a quarter of an hour after the usual time for ceasing work shall be paid at overtime rates after that quarter-hour, with a minimum of a quarter of an hour.

CONTRACT OF EMPLOYMENT.

(15) (a) With the exceptions hereinafter stated, employment may be by the week or by the hour. If by the week it shall be terminable on either side by one week's notice given on any day or (if the employer terminate it without such notice), by payment of one week's wages.

A contract for weekly employment may be terminated by any employer, without liability to pay for more than time actually worked, for misconduct or for absence from work without reasonable excuse.

If an employee engaged by the week absents himself from duty, except on public holidays or for days for which he produces a certificate from a medical practitioner or other proof satisfactory to his employer of sickness (aggregating 4 days' sickness in each year), a sum proportionate to his time of absence may be deducted from his pay, i.e., one-sixth of the weekly wage for each day of absence, including Saturday in shops working six days and one-fifth in shops working five days per week: Provided that only time actually lost shall be deducted when an employee is absent with leave on a Saturday.

(b) If the contract of employment is for hourly hiring, the total amount of the rates prescribed in clause 1 hereof shall be increased by 5s. per week (with a proportionate amount added to the wages of females and juniors), but such amount shall not be taken into account in computing overtime, Sunday, and holiday rates.

(c) An employee starting work on hourly hiring shall be entitled to a minimum of four consecutive hours work or to four hours' pay for the job—such hours may be deemed to be consecutive if worked in ordinary hours at the end of a day and the beginning of the next succeeding day.

MISCELLANEOUS PROVISIONS.

(16) (a) Tools.—The employee shall provide for each employee such tools as were customarily provided at the time of the making of this Determination.

(b) Employers shall provide proper washing and sanitary conveniences. In any workshop in which employees through a shop steward or committee ask for the provision of lockers and shower baths and an undertaking is given that the baths provided will be used by the majority of the workmen and that the baths and lockers will be properly cared for, a locker shall be installed by the employer for each workman, and hot and cold shower baths (away from lavatories) for all workmen employed in foundries.

TIME AND WAGES BOOK.

(17) Each employer shall keep a time and wages book showing the name of each employee and his occupation, the hours worked each day, and the wages and allowances paid each week.

The time occupied by an employee in filling in any time books or cards or in the making of records shall be treated as time of duty, but this does not apply to checking in or out at the beginning or end of duty.

SPECIAL RATES.

(18) In addition to the wages prescribed in clause 1 hereof the following special rates and allowances shall be paid :—

- (a) Leading hands in charge of not less than 3 and not more than 10 employees, including apprentices, 6s. per week extra ; more than 10 and not more than 20, including apprentices, 12s. per week extra ; more than 20, including apprentices, 18s. per week extra.
- (b) Working in wet places—1½d. per hour extra.
Working in confined spaces—3d. per hour extra.
Working in ship's bilges or in boiling-down works, lead works, sanitary works or slaughter-yards—1d. per hour extra.
- (c) Working for more than one hour in the shade in places where the temperature is raised by artificial means to between 115 and 130 degrees Fahr., 1½d. per hour extra ; in places where the temperature exceeds 130 degrees Fahr., 3d. per hour extra. Where work continues for more than 2 hours in temperatures exceeding 130 degrees Fahr., employees shall also be entitled to 20 minutes rest after every 2 hours work without deduction of pay. The temperature shall be decided by the foreman of the work after consultation with the employees who claim the extra rate.
- (d) Working for more than one hour in places where the temperature is reduced by artificial means below zero, 1½d. per hour extra. Where the work continues for more than two hours employees shall be entitled to a rest period of twenty minutes every two hours without loss of pay.
- (e) Working on repairs to smoke-boxes or fire-boxes of locomotives or on repairs to the smoke-box, up-take, funnel, flue, furnace, or combustion chamber of marine type boilers or on repairs to smoke boxes, fire-boxes, furnace or flues of other types of boilers, 1d. per hour extra.
- (f) Working on repairs in oil tanks or meat digestors, 1½d. per hour extra.
- (g) Dirty work, i.e., work which a foreman and workman shall agree is of an unusually dirty or offensive nature, 1½d. per hour extra.
- (h) Compensation to the extent of damage sustained shall be made for work in which clothing or tools are damaged or destroyed by the use of acids.
- (i) Where more than one of the disabilities entitling a workman to extra rates exist on the same job the employer shall be bound to pay only one rate, namely, the highest for the disabilities so prevailing.

TRAVELLING TIME, ALLOWANCE AND BOARD.

(19) (a) When an employee is required to work away from his workshop or depot, all time reasonably spent in excess of time usually spent in travelling to or from his home to the workshop, depot or district centre shall be paid for at ordinary rates up to a maximum of twelve hours out of every twenty-four (except on Sunday when payment shall be at the rate of time and a half, a maximum of eight hours out of each twenty-four). An employee required to work at a job away from his workshop, depot or district centre shall, at the direction of his employer, present himself for work at such job at the usual time for starting work.

(b) An employee engaged in a capital city to work in the country or sent from one country centre to work in another, shall be entitled to travelling time, and, for a period not exceeding three months, to expenses.

All excess fares and reasonable travelling expenses, including board and lodging and 2s. for each meal (if any) incurred in such travelling time, shall be paid by the employer.

The fares allowed shall be first class on coastal boats or on interstate boats where there is no second class as distinct from steerage, and on trains second class, except where all night travelling is involved, when they shall be first class.

(c) On jobs of less than three months duration a camping allowance of 3s. per day for every day, including Sunday, shall be paid to employees engaged on country jobs at places where ordinary board and residence is not obtainable and camping in tents or other temporary shelters is necessary.

(d) An employer shall be free to engage labour on the site of a job carried on away from the workshop, without payment of any travelling time or fares, unless such employee is sent from the workshop.

Provided that if any employee engaged for the erection of a job had previously been engaged by the same employer in the fabrication of the job in a workshop he shall be paid fares in excess of those incurred in travelling to and from the workshop.

GENERAL DEFINITIONS.

(20) For the purposes of this Determination the following definitions shall apply :—

- "Manufacture and/or manufacturing" means the making and assembling in quantities of interchangeable or standardized parts used in or in connexion with machinery and mechanical apparatus and of locks, scales, and other metallic articles.
- "Continuous process" means a process in which work is carried on, except for breakdowns, with successive shifts of men throughout the days and nights for at least six days in each week.
- "Year" means 365 consecutive days, starting from the day of commencement of operation of this determination.
- "Shift work"—afternoon shift means any shift finishing after 6 p.m. and at or before midnight. Night shift means any shift finishing subsequent to midnight and at or before 8 a.m.
- "Sunday" means all time between midnight Saturday and midnight Sunday.
- "Wet place" means a place in which water is continually dripping from overhead to such an extent as to saturate the clothing of a workman, or a place where water accumulates underfoot to a depth exceeding two inches.
- "Confined space" means a working place, the dimensions of which necessitate an employee working in a stooped or otherwise cramped position, or without proper ventilation, or where confinement within a limited space is productive of unusual discomfort.

SPECIAL EXEMPTION.

(21) *Agricultural Implement and Bedstead Making*.—Employers engaged in the making of agricultural and dairying implements and bedsteads shall, as to employees engaged in the making of such agricultural and dairying implements (including engines used for agricultural purposes) and bedsteads, be exempt from this Determination.

The Fisheries Acts.

ALTERATION OF CONDITIONS RELATING TO THE REGISTRATION OF FISHING BOATS.

PROCLAMATION

By His Excellency the Governor of the State of Victoria, and its Dependencies in the Commonwealth of Australia, &c., &c., &c.

THE Governor of the State of Victoria, in the Commonwealth of Australia, by and with the advice of the Executive Council of the said State, and in pursuance of the provisions of the Fisheries Acts and all other powers me enabling in that behalf, do by this Proclamation repeal the Proclamations made the eighth day of April, 1913, and the twelfth day of December, 1932, and published in the *Government Gazette* of the sixteenth day of April, 1913, and the fourteenth day of December, 1932, respectively, regarding registration of fishing boats, and provide, as follows:—

1. No boat shall be engaged or employed by any person in fishing in Victorian waters unless such boat shall have first been duly registered at the office of the Inspector of Fisheries, Melbourne, and a certificate of such registration issued in accordance with the form marked "A" hereunder. Such certificate shall be signed by the Inspector of Fisheries; provided however, that it shall be within the discretion of the Minister to refuse to register any boat or to cancel the registration of any boat.

2. Applications for certificates of registration shall be according to the form marked "B" hereunder.

3. The fee to be charged for the registration under the Fisheries Acts of any boat to be engaged or employed in fishing shall be Ten shillings (10s.), and such registration shall remain in force from the day on which the certificate of the same shall be issued until the thirty-first day of December, then next ensuing and no longer; provided that a registration of which a certificate is issued in the month of December in any year shall remain in force until the thirty-first day of December of the year then next ensuing.

4. Every such boat registered under the Fisheries Acts shall, so as to indicate the fact that it is registered, have the letters "R.F.B." followed by the registration number in numerals, painted legibly on both bows of the boat, outside, clear above the water line. Such letters shall be understood to mean, "Registered Fishing Boat." Such letters and numerals shall be not less than three inches in height, and shall be well clear of any other letters or numerals which may be on the boat, and shall be kept legibly painted, in white paint on a dark ground, or in black paint on a light ground.

5. When two boats are engaged or employed by a licensed fisherman at the same time in the one fishing operation, the smaller boat shall be deemed to be a "tender" to the larger boat. One fee of Ten shillings (10s.) shall cover the registration of both boats when used in such circumstances. The "tender" shall have the letters T followed by the registration number of the larger boat painted on both bows in the manner prescribed by paragraph 4 of this Proclamation.

6. No person shall permit the letters "R.F.B." with or without numerals, to be or remain on any boat if such boat is not registered at the office of the Inspector of Fisheries, Melbourne, as a boat licensed to be engaged or employed in fishing in Victorian waters.

CASTLEMAINE SEWERAGE AUTHORITY.

BY-LAW NO. 1, RELATING TO CONSENTS, LICENCES, ETC., ALSO LEVELS, DIMENSIONS, CONSTRUCTION, MAINTENANCE, VENTILATION, AND CLEANSING OF SEWERS AND OTHER MATTERS RELATING TO HOUSE CONNEXION WORK.

THE Castlemaine Sewerage Authority, pursuant to and in exercise and execution of the powers and authorities conferred on it by the Sewerage Districts Acts and of any and every other power or authority in any wise enabling it in that behalf, doth hereby make and prescribe the following By-law, that is to say:—

In the construction of this By-law, unless inconsistent with the context or subject-matter—

- “Acts” means the Sewerage Districts Act and any amendment thereof, and any Act incorporated therein, or amendment of such Acts.
- “Anti-syphonage vent” (or “back vent”) means any vent pipe from an individual trap to the open air, or a main or branch vent pipe having for its purpose the prevention of loss of water seal in the trap.
- “Authority” means the Castlemaine Sewerage Authority.
- “Bore,” “diameter,” or “size,” in reference to any pipe, means the nominal diameter thereof, in accordance with accepted trade practice.
- “Building” means any building used as a work place, residence, place of business, place of amusement, or place of human habitation, or for the storage of food intended for human consumption, but does not include outbuildings unless such are used for any of the above purposes.
- “Disconnecter trap” means a trap for isolating or disconnecting waste pipes from the house drain and soil pipes and providing inlet ventilation to the waste pipe or pipes discharging into it.
- “Drain” means any drain used for the drainage of one building only or of premises within the same curtilage and includes any drain for draining any group or block of houses by a combined operation under the order of the Authority.
- “Educt vent” means an opening or pipe for the exit of air from and the induction of draught in a soil pipe, waste pipe, or house drain.
- “Fittings” mean all apparatus or appliances, together with their necessary appurtenances and connexions, for use in connexion with the plumbing or drainage system of any property, with the exception of fixtures and straight piping.
- “Fixtures” means all apparatus or appliances, together with their necessary appurtenances and connexions, which may be attached to the plumbing or drainage system of any property, and which are intended for the collection or retention of any wastes or waste waters for ultimate discharge into the sewerage system.
- “Housemaids’ slop sink” means any fixture other than a closet pan or urinal used for the discharge of soil waters and provided with a flushing apparatus in accordance with Division 33 of this By-law.
- “Induct vent” means an opening or pipe for the admission of air to a soil pipe, waste pipe, or house drain.
- “Interceptor trap” (or “boundary trap”) means a trap for preventing the passage of air or gases from the sewer to the house drain, and situated on the house drain at some point between the sewer and the lowest inlet to the house drain.
- “Occupier” means the person for the time being in actual or constructive occupation of the premises.
- “Owner” includes the person for the time being who receives or is entitled to receive the rent of the lands or premises in connexion with which the word is used, whether on his own account or as agent of or as trustee for any other person, or who if such lands or premises were let to a tenant at a rack rent would be entitled to receive the rack rent from the occupier thereof.
- “Premises” includes any house and any building whatsoever and any part of any house or building and any garden stable yard or other offices used together or in connexion with any house or building and every part thereof.
- “Responsible officer” means any officer authorized by the Authority to act as its representative in the particular matter to which the reference is made.
- “Sewer” means any sewer or underground gutter or channel which is not a drain within the meaning of the Acts and any drain or portion of a drain laid between a sewer and the boundary line of any allotment or curtilage.
- “Sewerage district” means any portion of the Borough of Castlemaine to which the Acts apply and which under the Acts is proclaimed a sewerage district and includes any area which is added to and forms part of the sewerage district.

“Sewered property” means as well as any sewered land or premises any land or premises which have been declared by a general notice given by the Authority under the Acts to be deemed and taken to be a sewered property within the meaning of the Acts.

“Sewerage system” includes all sewers, fittings, fixtures, appliances, plant, machinery, and any other sewerage works vested in the Authority.

“Soil pipe” means any pipe which conveys the discharge from water closets, housemaids’ slop sinks, or urinals to the house drain.

“Stack” means any vertical line of soil, waste or vent piping with its offsets, if any.

“Trap” means any fitting designed to retain a quantity of water to arrest the passage of air or gases through such fitting.

“Waste pipe” means any pipe which conveys the discharge from any fixture (except water closets, housemaids’ slop sinks, or urinals) to a disconnecter trap.

“Water seal” or “trap seal” means the vertical distance between the dip and the crown weir of a trap.

PART 1.

GENERAL REGULATIONS.

Division 1.—Applications for Consents, &c.

Section 1. Application for the Authority’s consent to connect with the sewerage system, or to do plumbing and drainage work connected therewith, must be made in writing by the owner of the property to be so connected, or by his authorized agent.

Section 2. Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be in the form prescribed by the Authority. For any wilful misrepresentation in such application the owner or authorized agent as aforesaid shall be guilty of an offence against this By-law. No consent given by the Authority shall be deemed to authorize anything not stated in the application, nor to confer or grant the right to lay a drain through any land intervening between the sewer of the Authority and the land proposed to be connected, and every owner or agent applying for the Authority’s consent shall satisfy himself as to his legal right to drain through such intervening land, as he shall be solely responsible for any trespass or damage thereon or thereto.

Section 3. Consents to make connexions with the sewerage system will be issued only when the plumbing and draining in the property to be connected is planned to be made in accordance with the rules for plumbing and draining hereinafter prescribed, and after such plan has been inspected and approved of by the responsible officer appointed by the Authority for the purpose, or, in the case of new buildings, when a proper plan of the plumbing and of the drainage of the building into the branch, of which the Authority shall have fixed the position, has been approved of in writing by the Authority. All connexions with drains or sewers, and all plumbing and drainage connexions therewith, shall be made under the direction of the responsible officer of the Authority. Consent will not be given for the performance of any such work except upon condition that no person shall be engaged or employed as a workman in the actual performance of any plumbing or drainage work unless he be the holder of a licence issued by the Authority to do such work. Any person who shall at any time or at any place make up, form, affix, alter, or repair any fitting, pipe, bend, trap, or other thing connected or intended to be connected with the Authority’s sewerage system, unless he be the holder of a licence from the Authority authorizing him to do such work, shall be liable to a penalty not exceeding Ten pounds. Any person, whether licensed as aforesaid or not, who shall alter, remove, or in any way interfere with any drain, fitting, pipe, bend, trap, or other thing connected with the Authority’s sewerage system, unless the Authority’s written consent has been previously issued to do such work at the premises concerned, shall be liable to a penalty not exceeding Ten pounds.

Section 4. Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of or from the Authority is necessary, whether specified in writing or otherwise, with regard to any act, matter, or thing mentioned in the By-law, the same may be given by and under the hand of the chairman of the Authority, or of the responsible officer, personally or through an inspecting officer appointed under him, who severally shall be competent to give the same and authorized on behalf of the Authority, to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given.

Section 5. In any case in which the Authority shall be of the opinion that a compliance with any of the provisions of this By-law would in any particular case be vexatious or be needless in the interest of public health, it shall be lawful for the Authority, by resolution, to dispense with or forbid such compliance in whole or in part as it shall think fit, or to authorize or direct such a modification or alteration of such provisions as shall, in its opinion, most nearly adapt the principle of those provisions to the particular case. It

shall be unlawful to comply with any provision, or part of any provision, of which compliance shall have been forbidden, or to act contrary to or otherwise than as directed by such modification or alteration.

Division 2.—Penalties, Recovery of Cost of Work, &c.

Section 6. Where anything is by this By-law directed to be done, or forbidden to be done, or where any authority is given to the Authority or any of its officers to direct or to forbid anything to be done, and such act so directed to be done remains undone, or such act so forbidden to be done is done, then, and in every such case, the person making default as to the said direction or prohibition respectively shall be guilty of an offence against this By-law.

Section 7. Every person guilty of an offence against this By-law, not otherwise specially provided for by or under the authority hereof, shall be liable for every such offence, besides any costs or expenses which may be incurred in the taking of proceedings against such person guilty of such offence, as well as any costs or expenses which may be incurred in remedying such default, as particularly provided for in this By-law or the Acts, to a penalty not exceeding Ten pounds, and to a further penalty of One pound for each day during which such offence is continued by such person after notice of the offence shall have been given by the Authority to him; and such penalty shall be recoverable, notwithstanding that the Authority may not have chosen to exercise any power given to it by the Acts or by this By-law to remedy such default.

Division 3.—House Drainage Plans—Alterations.

Section 8. Copies of the Authority's plans of individual house drainage will be furnished by the Authority upon application and payment for the same, as follows:—

- (a) Plan of drainage, including surveys, &c., for every house, shop, factory, or other building—a minimum charge of 10s., plus 2s. 6d. for each fitting as specified.
- (b) For the supply of a block plan, where the owner desires to design his own house drainage—a fee of Two shillings and sixpence shall be charged.
- (c) For making or examining any alterations or additions to a plan previously issued or approved of by the Authority—a minimum charge of Five shillings shall be made by the Authority.
- (d) For the examination of owner's plan of drainage—a minimum charge of Seven shillings and sixpence shall be made.
- (e) For the inspection and testing of house connexions—a minimum fee of Twenty shillings, plus a further fee of Two shillings and sixpence for each fixture.
- (f) For all other work, a fee equal to the amount incurred in respect to such work.

Consent for additions and/or amendments to approved plans or to works previously approved will be made only on the application of the owner or his authorized agent.

Division 4.—Maintenance and Defective Work.

Section 9. Any drain pipe, soil pipe, trap, water closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with this By-law, or which shall in the opinion of the Authority be or become bad or of defective quality, shall, upon notice in writing from the Authority to the owner or occupier of the property, be by such owner or occupier removed or repaired in the manner determined and within the time fixed by the Authority; and in case such owner or occupier fails to comply with the requirements of the notice, he shall be liable to prosecution and penalty for an offence against the Acts, or the Authority will, if it thinks fit, remove or repair the said defective fitting and charge such owner or occupier of the premises with the cost so incurred, and will proceed for recovery of the same in a manner provided by the said Acts.

Division 5.—Licences.

Section 10. No person shall tender for or enter into any contract for or undertake any plumbing work relating to sewerage within the Castlemaine Sewerage District or connected or to be connected with the sewers of the Authority who does not hold either a master plumber's or a working plumber's licence issued by the Authority.

Section 11. No person shall tender for or enter into any contract for or undertake any draining work relating to sewerage within the Castlemaine Sewerage District, or connected or to be connected to the sewers of the Authority who does not hold either a master plumber's or working plumber's licence or a drainer's licence issued by the Authority.

Section 12. No person other than a holder of a working plumber's licence issued by the Authority shall actually do or perform any such plumbing work.

Section 13. No person other than the holder of a working plumber's or a drainer's licence issued by the Authority shall actually do or perform any such draining work.

Section 14. At the discretion of the Authority, a master plumber's licence may be granted to any master plumber or master builder, building contractor, or other person, firm, or corporation who is approved by the Authority, but such licence will only entitle the holder to tender for or enter into contracts for or otherwise undertake plumbing and drainage work under these By-laws, but shall not entitle the holder to personally do any actual plumbing or drainage work under these By-laws.

Section 15. Holders of master plumber's licences not themselves licensed plumbers or licensed drainers must continuously employ on all and every plumbing work carried out by them under these By-laws licensed plumbers, and on all and every drainage work, licensed drainers.

Section 16. Working plumber's licences will be issued at the discretion of the Authority to persons who hold and produce to the Authority a certificate of competency issued by the Sanitary Plumbers' Examination Board of Victoria. Such licence will permit the holder to do practical work as a working plumber upon all fittings, appliances, and apparatus connected or to be connected with the sewers of the Authority, subject to and in accordance with the Authority's By-laws and Regulations.

Section 17. Drainer's licences will be issued to any person who shall satisfy the Authority by passing an examination by examiners appointed by them or in such other manner as the Authority from time to time or in any particular case may direct that he has a thorough knowledge of the following subjects:—

Plans.—The reading of plans and the meaning of scales and of elevation, plan, and section drawing.

Levelling.—The use of the straight-edge, spirit-level, and boning rods.

Excavation, Timbering, and Refilling.—The use of tools for excavation, the protection of trenches by timbering, the treatment of different soils, tunnelling, and tunnel timbering, precautions near buildings, and manners of refilling of trenches and tunnels.

Drain-laying.—The preparation of the bottom of trenches, the laying and jointing of stone-ware, cement, concrete, and cast-iron pipes, cement, bitumen, lead, and self-fitting joints, laying of drains under houses and in soft ground, and the depth of drains below surface.

Drainage Details.—Junctions to sewers, diminishing of sizes of pipes, yard gullies, grease and other traps, inspection openings, and cast-iron drainage details.

Drainage Work.—Knowledge of the provisions of this By-law and of the Acts, insofar as same relate to the work and duties of drainers in regard to the construction, maintenance, and protection of the sewerage system and the construction and use of drains and drainage traps.

Candidates for drainer's licences shall give notice in writing to the Authority of their intention to submit themselves to examination, and this examination shall be at such a time and at such place as shall be appointed by the Authority. Candidates must provide themselves with their own tools and materials, and pay a fee of 10s. for each examination.

Section 18. The conditions upon which all master plumber's licences, working plumber's licences, and drainer's licences will be issued are:—

(1) That every licence will be subject to suspension or cancellation at the will of the Authority, and that all such licences or renewals thereof will expire on the 30th day of September next following.

(2) That every holder of a licence from the Authority who shall have received the consent of the Authority to execute any works in connexion with sewerage or drainage, or who shall (where such consent of the Authority is not required before the execution of any such works) have notified the Authority of his intention to carry out such works—

(a) shall obtain permission when necessary for the execution of such works on, over, or through any private property, or any streets, roads, parks, reserves, or other public places or properties; and

(b) shall pay any fees demanded by the Council or Authority for opening any street, road, or thoroughfare or otherwise in connexion with the work; and

(c) shall execute such works in accordance with the provisions of the Acts and of the By-laws made thereunder, and of any special directions or orders given or issued by the Authority or proper officer; and

(d) shall use materials of good quality only and free from defects; and

(e) shall employ only competent operatives or assistants; and

(f) shall execute such works in a thorough and tradesmanlike manner to the satisfaction of the Authority as expeditiously as practicable, and leave site clean and undefaced; and

- (g) shall in the execution of such works take such proper and necessary precautions that no accident or damage or unnecessary inconvenience may be directly or indirectly occasioned thereby; and
- (h) shall restore any part of any street, road, or thoroughfare interfered with by the work to the satisfaction of the municipal authority having control thereof upon the completion of the work; and
- (i) shall restore any other property interfered with by the work to the satisfaction of the responsible officer of the Authority; and
- (j) shall in all cases notify the proper officer immediately upon completion of any work in hand, promptly amend any defects therein, and again at once notify the said officer, and subsequently take steps forthwith to secure the certificate of satisfactory completion and give same to owner; and
- (k) shall, when so directed by the Authority, make good at his own expense any defect found within three months of the date of completion of any such work which, in the opinion of the Authority, is due to bad workmanship or defective material.

Section 19. Prior to the issue of any licence the person to whom the same is to be issued must sign a register containing a declaration that he accepts such licence subject to and in conformity with the conditions of such licence and of this By-law and that he will conform to and comply therewith, and shall pay to the Authority the fee named hereunder:—

	<i>s. d.</i>
For every master plumber's licence	10 0
For every working plumber's licence	7 6
For every drainer's licence	5 0
For the renewal of any licence	2 6

Division 6.—New Buildings, Additions, &c.

Section 20. Every person who shall intend to erect a building on any property within the Sewerage District, or to rebuild or to make any alterations or additions to any such buildings, shall, before commencing such work, give to the Authority seven days' notice in writing of such intention; and such notice shall be accompanied by plans and sections of such intended buildings, alterations, or additions, showing their positions, dimensions, depths, and levels of foundations, cellars, or basements, all appurtenant walls and fences, the intended lines of drainage, and the boundary of the land, which plans, &c., shall become the property of the Authority.

Division 7.—General.

Section 21. Any work or thing in respect of or in connexion with sewerage under the Act that is not specifically mentioned in this By-law shall be performed in accordance with the directions of the Authority.

PART 2.

GENERAL REGULATIONS.

Division 8.—Use of Sewers and Drains—Prohibition of Certain Discharges.

Section 22. *Use of Sewers and Drains.*—The owner and the occupier of any severed property shall discharge into the sewerage system all faecal matter, urine, household slops and household liquid refuse from such property, and such other polluted water from stables, washing areas, manure bins, basements, cellars, and roofed yards, and such trade or manufacturing liquid refuse as the Authority may authorize or require, subject in each and every case to such conditions as it may impose.

Section 23. *Prohibited Discharges.*—The deposition or discharge of any of the following substances into any house drain is prohibited:—

- (a) Any animal matter other than is specified in section 22, fleshings, wool, hair, dead animal, grease, dust, ashes, rubbish, garbage, offal, vegetable and fruit or their parings, rags, oil, silt, mud, sand, gravel, or like substances, or any other substance which is, in the opinion of the Authority or its responsible officers, liable to be injurious to any part of the sewerage system or to the employees of the Authority engaged in the operation or maintenance of same.
- (b) Any petrol or other inflammable or explosive substance, whether solid, liquid, or gaseous.
- (c) Any rain, roof, surface, or flood waters, except by special permission of the Authority.
- (d) The contents of any night-soil cart, cesspool, or privy.
- (e) Any waste water, liquid, trade waste, or other substance which has not been neutralized to the approval of the responsible officer of the Authority, or which is above the temperature of 100 deg. Fahrenheit, or such lower temperature as may be prescribed by the Authority, having regard to the special circumstances of the case.

- (f) Any liquid which contains such percentage of common salt or any other mineral salt, acid, or gas, as is, in the opinion of the responsible officer of the Authority, injurious to, or liable to form compounds injurious to, any part of the sewerage system or to employees of the Authority engaged in the operation or maintenance of same.

Division 9.—Trade Wastes.

Section 24. *Conditions of Discharge.*—No person shall discharge any trade or manufacturing liquid, refuse, or waste into any sewer, unless and until the following conditions are complied with:—

- (a) Application for permission to discharge any such trade wastes shall be made in writing and accompanied by plans and specifications of the work to be done and of the apparatus to be used, and shall include such details concerning the nature of the waste and the quantity and rates of discharge of the proposed effluent as considered necessary by the responsible officer of the Authority.
- (b) The permission of the Authority in writing shall be obtained and an agreement containing a covenant to comply with the By-law and with any further stipulations required by the Authority shall be executed.
- (c) The volume of liquid refuse or waste discharged shall, if ordered, be measured and determined by meter or by some other approved means of measurement. The maximum aggregate daily quantity of effluent which may pass from any trade premises into a sewer, the maximum permissible rate of such discharge, the size and capacity of the drain for conveying such effluent from the trade premises to the sewer, and the hours during which such flow will be permitted, shall be determined by the Authority.
- (d) All such liquid refuse or waste shall be passed through such settling, screening, and/or neutralizing chambers and/or such other appliances and/or otherwise treated as ordered or approved by the Authority to ensure that the resulting effluents shall comply with the conditions of the agreement.
- (e) Every settling, screening, neutralizing, or other chamber, appliance, or apparatus for the treatment of trade wastes in accordance with this By-law shall be cleansed and maintained by the occupier at his own expense and at such intervals as may be considered necessary by the Authority or its responsible officer to ensure the efficient operation of such chamber, appliance, or apparatus, and in no case shall such chamber, appliance, or apparatus be altered without the approval in writing of the Authority first obtained.

Division 10.—Sub-soil Water.

Section 25. The discharge of sub-soil water into sewers shall be prohibited, except by permission of, and under conditions approved by the Authority.

Division 11.—Inspection Tests.

Section 26. *Notice.*—The owner or his authorized agent, or the plumber, drainer, or contractor shall give at least forty-eight hours' notice to the Authority, in writing, of his intention to commence work and of work ready for inspection. All work shall be left uncovered and accessible for examination until inspected and approved. Inspection shall be made within twenty-four hours of the receipt of such notification except when the notification is received on a Saturday, when seventy-two hours shall be allowed.

The contractor carrying out any work shall, within seven days of the completion of such work, file in the office of the Authority, on forms furnished for this purpose, a correct statement of the work done and the cost thereof. Such statement shall be countersigned by the responsible officer of the Authority, and a certificate embodying such statement shall be forwarded to the contractor.

Section 27. *Inspection.*—All drains, wastes, fittings, joints, fixtures, &c., will be inspected by the responsible officer of the Authority to ensure compliance with the By-law and approved plan.

Section 28. *Tests.*—Drains, whether laid by the Authority's workmen or others, must be thoroughly tested in every case before being passed by the Authority's officers. The responsible officer of the Authority may require the application of the water or smoke test, or such other tests as he may order or approve.

Section 29. *Water Test.*—The water test may be applied to the drainage and/or plumbing systems and their fittings in their entirety or in sections. It shall be applied by hermetically sealing all openings below the top of the section to be tested. The system shall then be filled with water to a height of 6 feet above the highest point of the section, or, if considered necessary, to such additional height as the responsible officer may order, and every joint carefully examined for leaks.

Section 30. *Smoke Test*.—The smoke test shall be applied by hermetically sealing all openings into the section to be tested, and forcing into the system thick smoke to a pressure equivalent to 1 inch of water, by means of a smoke test apparatus. Every joint shall then be carefully examined for leaks.

Section 31. *Equipment, &c.*—The equipment, material, power, and labour necessary for the inspection and tests shall be furnished by the contractor, plumber, or drainer.

Section 32. *Defective Work*.—Any drain, pipe, fixture, fitting, &c., which is laid, used, or constructed otherwise than in accordance with this By-law or with the approved plans, or which, in the opinion of the responsible officer of the Authority, is or has become bad or of defective quality or condition, shall, upon notice, in writing, to the owner or occupier of the property, or his authorized agent, be removed and/or repaired by such owner or occupier in the manner determined, and within the time fixed by the Authority. In case the owner or occupier fails to comply with the requirements of that notice he shall be guilty of an offence against this By-law, and the Authority may, if it so think fit, remove and/or repair the defective drain, pipe, fixture, fitting, &c., and charge the said owner or occupier with the cost so incurred, and may proceed for the recovery of the said cost in the manner provided.

Section 33. *Maintenance*.—Every person holding a licence from the Authority who shall execute any work in connexion with sewerage drainage and/or sanitary plumbing shall, when so directed by the Authority, make good at his own expense any defect found within three months of date of completion of any such work due, in the opinion of the Authority; to bad workmanship or defective material.

Division 12.—Materials and Workmanship.

Section 34. *Materials*.—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be of the best of their respective kinds, sound and free from defects, and shall comply with such Australian standard specifications as apply and are accepted by the Authority; otherwise to be approved by the Authority.

Section 35. *Testing*.—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be submitted for examination and/or test, and shall not be placed in position until passed and stamped by the Authority. Such testing of materials shall be paid for by the person submitting same, whether passed or rejected, and shall be done at such time and place, and at such rates, as may from time to time be fixed by the Authority.

Section 36. *Workmanship*.—All work shall be executed in a thorough and workmanlike manner, and to the satisfaction of the Authority.

Section 37. *Precautions*.—Adequate precautions shall be adopted by the person carrying out the work to prevent injury to workmen, property, or public, and the Authority will accept no responsibility for claims for injury arising from the inadequacy of such precautions.

Section 38. *Concrete*.—Concrete, unless otherwise ordered, shall consist of one part Portland cement, two parts clean sharp sand, and four parts hard metal, shingle, or gravel not exceeding 2-in. gauge, and shall be thoroughly mixed with clean water to such consistency as ordered or approved by the responsible officer of the Authority.

Section 39. *Cement Mortar*.—Cement mortar, unless otherwise ordered, shall consist of one part Portland cement and two parts clean sharp sand, properly mixed with an approved proportion of clean water.

PART 3.

DRAINAGE.

Division 13.—Drainage, General.

Section 40. (1) Every premises shall be separately drained unless a combined drain shall have been ordered or approved by the Authority. Owners desiring to have the drainage of their properties combined must sign a request for a combined drain, and obtain the approval of the Authority. In any case in which it appears to the Authority that any properties may be drained more advantageously in combination than separately the Authority may order that those properties be drained by a combined operation.

(2) In any case where a combined drain serves two or more properties the Authority, with the consent of the owners of the properties served by such combined drain, may take over such combined drain, and thereafter such combined drain shall be and remain a sewer of the Authority.

(3) In every case of a combined drain the Authority will determine, as between the respective owners and occupiers of the properties drained thereby, the proportions in which the cost of such combined drain shall be paid. In every case of the occurrence of an obstruction in a combined drain the Authority will also determine by whom and in what proportion the cost of removing such obstruction shall be paid.

(4) Owners and occupiers of premises are responsible for clearing stoppages in drains within their premises, or between their premises and the sewers into which the branches lead, but must employ only licensed plumbers or drainers to clear same.

(5) Before a licensed plumber or drainer commences to clear a stoppage in a drain he must notify the Authority in writing of the time when he intends to clear the stoppage, so that the Authority's proper officer may attend and pass the work in accordance with the provisions of the Act.

Section 41. *Size of Drains*.—Every drain shall be of adequate size for the drainage of the property to be served, in accordance with the requirements of section 34, with a minimum diameter of 4 inches.

Section 42. *Materials*.—All drain pipes, bends, junctions, and fittings used shall be of glazed stoneware, concrete, cast-iron, or other approved material, provided that the responsible officer of the Authority may prohibit the use of any of the above-mentioned where the circumstances or conditions are considered unfavorable.

Section 43. *Cast-iron Pipes*.—Cast-iron drainage pipes and their fittings shall comply with the Australian standard specification, or, in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameters.

Section 44. *Interceptor Traps*.—Where directed by the Authority, an interceptor trap shall be fixed in the drain laid from any property to the sewer. Such trap shall be fixed as near as practicable to the boundary, and wherever practicable shall be within the boundaries of the property. The interceptor trap shall be provided with an inspection cap on the sewer side of the trap. If ordered, an approved manhole shall be provided for the trap.

Section 45. *Inspection Chambers*.—All drains shall, wherever considered necessary by the Authority, join in an inspection chamber at least 3 feet long by 2 feet wide, fitted with a closed cover. The portions of the drains crossing the floor of the inspection chamber shall be connected either in a straight line or by curved junctions in the floor of the chamber.

Section 46. *Inspection Openings*.—Every line of drain shall be provided with an inspection opening—at each junction not provided with an inspection chamber, at each change of direction, at each fixture, and in no case at greater than 30-ft. intervals, and in paved areas these shall, if considered necessary by the responsible officer of the Authority, be brought to the surface and furnished with approved airtight covers. The area of an inspection opening shall be not less than the area of the drain.

Section 47. *Drain Openings Not in Use*.—The ends of all house drains not immediately connected with the plumbing fixtures and all inspection openings shall be securely closed with watertight imperishable materials.

Section 48. *Replacing or Inserting Pipes*.—Where it becomes necessary to remove a pipe to clear a stoppage or to insert a pipe or branch in an existing drain, such pipe so removed shall be replaced by an inspection pipe or inspection junction of the same length by one of the following methods:—

- The top half of the socket of the new pipe and of the existing downstream pipe may be removed, but the bottom half shall in each case be left intact and the joints surrounded with concrete.
- An approved split pipe with double collar surrounded with concrete may be used.
- A length of not less than three pipes may be removed, the centre pipe replaced by an inspection pipe, and the pipes dropped back into place without springing or cutting.

Junctions in existing metal pipes shall not be made unless an approved closure pipe is used in each case. Springing pipes into position shall not be resorted to or allowed.

Division 14.—Basement and Cellar Drainage.

Section 49. *Fixtures*.—No water-closet, urinal, and/or other fixture shall be placed in any cellar or basement, or on any floor below ground level, unless by consent of the Authority, and then only when, in the opinion of the Authority, other provision cannot be made. The owner shall submit such plans and/or other information as the Authority may require, and shall undertake in writing to accept all risk of damage that may occur. If satisfied that the ventilation and lighting provided are in accordance with section 151 or 152 of these By-laws, and all other conditions have been complied with, the Authority may give its consent: provided always that such consent may be revoked by the Authority at any time, and that upon fourteen days' notice of revocation such fixture shall be abolished by the owner.

Section 50. *Risk of Back Flow*.—Where such cellar, basement, or floor below ground level is at such a level as may, in the opinion of the Authority, involve risk of back flow in the event of the sewer becoming overcharged, the sewage from all fixtures therein shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered and discharged into the sewer as and where directed.

Section 51. *Seepage Drains*.—In no case shall seepage drains from cellars, basements, or any floor below ground level be discharged into a sewer without the consent of the Authority.

Where such discharge is permitted by the Authority, the seepage shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered, and discharged into the sewer as and where directed.

Division 15.—Polluted Areas.

Section 52. *Connexion.*—The Authority may, if it thinks fit, authorize or require that any of the following places:—namely, stables, cow-sheds, dairies, market places, areas for washing vehicles, and any other polluted place, be connected with the sewers, subject to such conditions as the Authority may impose.

Section 53. *Conditions Governing Connexion.*—No such connexion shall be made unless the following conditions have been complied with:—

- (a) The place to be connected shall, if required, be so roofed as to prevent the entry of rain water from it to the sewers, and in no case shall rain water be permitted to discharge on to such place from adjoining surfaces.
- (b) The place to be connected shall be paved with approved materials and graded to the satisfaction of the responsible officer of the Authority.
- (c) The drain from any such place shall be provided with an approved silt trap with a removable grating and connected with the drain above the interceptor trap where such is used.

Division 16.—Pipe Trenches.

Section 54. The trench for the house drain from any property shall be so dug as to meet the Authority's sewer at the position provided or to be provided for the connexion.

The material from the trench shall be so placed as to cause the least possible obstruction and inconvenience to the public. Proper barriers and lights must be maintained where necessary to guard against accident during the progress of the work.

In refilling the trench selected refilling shall first be deposited around and over the pipe to a depth of 12 inches and carefully consolidated after which the remainder of the trench shall be filled in layers and rammed or flooded, as ordered or approved.

No stone shall be used in refilling until earth or gravel has been placed over the pipe to a depth of 1 foot, or more if directed.

On no account shall any water, sand, earth, &c., be allowed to enter the sewer during the progress of the work.

On completion of refilling the surface shall be restored as nearly as possible to the same condition as it was in before operations were commenced, unless the owner in writing otherwise requires.

Division 17.—Laying Drains, &c.

Section 55. *Position and Line.*—Every drain and every fitting, &c., connected therewith shall be laid and fixed where directed by the responsible officer of the Authority. As far as possible, all drains shall be laid in straight lines; where changes of direction occur they shall be made in manholes, or by a suitably curved pipe with an inspection opening on each straight pipe next adjoining the curve.

Section 56. *Oblique Junctions.*—Where any drain joins another drain the junction shall be made obliquely at an approved angle with the direction of flow of such drain. Right-angled junctions shall not be made.

Section 57. *Connexion to Sewer.*—The position of the Authority's connexion to any premises shall be located prior to the commencement of any drain excavation. The disk stopper at the point of connexion to the sewer shall be carefully removed so as not to injure the socket or allow any debris to enter the sewer.

The first length of the drain at the branch shall be an inspection opening.

Section 58. *Gradients.*—All drains shall be laid on an even grade, and, except by special permission in writing, from the Authority, such gradients shall in no case be less than the following minimum permissible gradients:—

4-in. diameter	1 in 40
6-in. diameter	1 in 60

In cases where the grades of 4-in. and 6-in. drains are steeper than 1 in 10 and 1 in 15, respectively, concrete stops shall be placed as and where directed by the responsible officer of the Authority.

Section 59. *Depth of Drains.*—Drains of stoneware or concrete pipe, unless bedded in and encased in concrete of not less than 3 inches thickness over any part of the drain, shall be laid at a depth to the socket of the pipe of not less than the following:—

- (a) In public thoroughfares, rights-of-way, or other open spaces subject to vehicular traffic—2 feet.
- (b) In private property not subject to vehicular traffic—1 foot.

No person shall alter the surface over any drain so as to deprive it of the minimum depth of cover specified by the preceding paragraph, unless approved measures are adopted to protect the drain.

Section 60. *Laying Drains.*—All pipes shall be laid to such lines and grades as may be shown on the plans or directed. and, except where otherwise ordered, holes shall be cut in the bottom of the pipe trench to receive the sockets of the pipes, and all the pipes shall be carefully bedded with the barrel on the solid ground.

In the case of rock-bottomed trench, or where directed, the pipes shall be bedded up to the horizontal diameter upon not less than 2 inches thickness of approved sand or other approved material measured from the barrel of the pipe.

In water-charged ground, or where the foundation is bad, or where directed, the drain shall be formed of cast-iron pipes; or, if of stoneware or concrete pipes, they shall be bedded on and encased in concrete as ordered, and, if ordered, supported upon approved timber foundations as directed.

Drops or bends in vertically-inclined drains shall have a concrete support placed under and around as directed.

Division 18.—Drains Under Buildings.

Section 61. Every drain shall, as far as practicable, be so constructed as not to pass under any building. Where a drain does pass under a building it shall, if practicable, be laid in a direct line for the whole distance beneath such building, and shall have approved means of access for rodding outside the walls of the building, and also, if directed, beneath the building. The pipes used shall be of stoneware or concrete, surrounded by not less than 4 inches of concrete or 3 inches of cement mortar, or of cast-iron.

In any case in which pipes pass through or under walls, approved provision shall be made to prevent injury to the pipes by settlement, and, in outer walls, to prevent the ingress of vermin.

Division 19.—Joints, Drainage.

Section 62. *Stoneware and Cement Pipes.*—Joints of stoneware and cement pipes shall be filled in solidly with cement mortar neatly splayed off, or with other approved material. After each joint is made the interior of the joint shall be wiped clear of surplus mortar before the next pipe is laid.

Section 63. *Cast-iron Pipes.*—All joints in cast-iron pipes must be stemmed with approved gaskets and so filled and caulked with lead or other approved material as to make them gas and water tight.

All connexions between stoneware or concrete pipes and cast-iron pipes shall be made as for joints in stoneware or concrete pipes.

Division 20.—Drainage Ventilation.

Section 64. *Vents on Main House Drain.*—The main drain shall be ventilated at its upper end by a pipe ventilator erected vertically, and such ventilator may be a soil pipe.

If the drain is provided with an interceptor trap there shall be in addition a ventilator connected to the interceptor trap shaft.

In such cases there shall, wherever practicable, be a difference in height of not less than 6 feet between the tops of the vents at the upper and lower ends of the drains respectively.

Section 65. *Vents on Branch Drains.*—Branch drains need not be vented if the drainage traps are within 20 feet from the main house drain, measured along the line of pipes, including the drop, if any, from the centre line of the main drain to the centre of the outlet side of the water seal of the drainage trap, unless otherwise ordered by the Authority, in which case they must be vented as directed.

Section 66. *Height of Vents.*—Every vent pipe extending upwards from a soil or drain pipe shall be carried not less than 6 feet higher than any window or door within a distance of 30 feet thereof, and in any case at least 18 feet above ground level and 6 feet above the level of the eaves or coping, or to such additional height as may be necessary to prevent effectually the escape of foul air into any building within the vicinity.

Where the vent pipe extends into a gable of the building it shall further be carried at least 2 feet above the point of intersection with the roof.

Such pipes shall, where necessary, be provided with sufficient clips or stays to support them effectively.

Section 67. *Chimneys.*—No chimney shall be used as a ventilator to any drain, soil, or waste pipe.

Section 68. *Vents Near Chimneys.*—Vents must, as far as possible, be kept away from chimneys and ventilating air shafts. Where a ventilator pipe terminates 6 feet or more from a chimney opening or ventilating air shaft, the requirements of section 66 shall apply, but where the distance is less than 6 feet the vent pipe shall, unless otherwise ordered, terminate not less than 2 feet below the top of such chimney or air shaft.

Section 69. *Vents Adjoining High Buildings.*—In any case in which a building is erected next to a previously existing building of less elevation, and any windows of the new building are located within 30 feet of any existing vent stack on the lower building, the owner of such new building shall defray the cost of or shall himself make such alterations to the vents of the previously existing building as necessary to conform with section 66.

The owner of the lower or existing building shall make such alterations upon the receipt of money, or security therefor sufficient for the purpose, from the owner of the new or higher building, or shall permit at the election of the owner of the new or higher building, the making of such alteration by the owner of such new or higher building.

Section 70. *Size of Drainage Vents.*—Drainage vent pipes shall, unless otherwise ordered, be of not less than 4 inches diameter in the case of educt vents and not less than 3 inches diameter in the case of induct vents, with the provision that where more than one educt vent is provided the vent on the longest line of drain shall be of not less than 4 inches diameter and all others of not less than 3 inches diameter; but in no case shall a drainage vent be of smaller diameter than necessary to comply with the requirements of section 85.

Unless otherwise ordered or approved every such vent pipe shall be without return bend and provided with basket end or educt or induct cowls as directed.

Section 71. *Materials, &c.*—Drainage vent pipes situated wholly outside of buildings shall be of cast-iron, galvanized wrought iron, double galvanized sheet iron, or other approved material above ground, and of stoneware or concrete beneath the surface of the ground. Galvanized sheet-iron vent pipes shall not be less gauge than 20 for 3-in. and 4-in. diameter pipes and 18 for 6-in. pipes, and where ordered the first 6 feet above ground shall be of cast-iron or other approved material. Drainage vent pipes inside a building shall, unless otherwise approved, be of cast-iron or of galvanized wrought iron. The circumferential joints of galvanized sheet iron vent pipes shall be riveted and soldered.

Section 72. *Gratings.*—Openings for ventilation shall be effectively protected by approved gratings of ample area. The aggregate area of apertures in any such grating shall not be less than the sectional area of the pipe or drain to which such grating is fixed. Every opening for ventilation shall at all times be kept perfectly free from obstruction.

Section 73. *Pipe Clips, &c.*—There shall be at least one pipe clip to each 6-ft. length of vent pipe.

For cast-iron or wrought-iron pipe approved coated wrought-iron clips and for galvanized sheet iron pipe 1½-in. x 14-gauge galvanized band iron clips shall be provided. Wherever it is necessary to fix pipes clear of the wall approved extension clips shall be used.

Clips in the case of cast-iron pipes must be placed tight up against the head or underside of collar.

Section 74. *Attachment to Walls.*—Where a galvanized sheet iron pipe, with or without offset, is carried up above the brick wall of a building, a galvanized wrought-iron clip must be used, leaded into the wall near the top wherever possible and bolted against the vent pipe.

All band iron clips of vent pipes to brick walls shall be fastened with nuts and bolts, leaded in, or by means of T-headed bolts passed through the brick joints and turned at right angles to the joints.

Section 75. *Supporting Vents.*—Wherever a vent pipe with offset is not more than 12 feet long above such offset it need not be stayed; if longer, it shall be stayed as directed with ½-in. galvanized wrought-iron piping.

An unsupported length of 15 feet above highest clip of straight vent pipe without offset will be permitted.

Section 76. *Induct Vents.*—Every induct vent shall be securely supported in an approved manner.

Division 21.—Drainage Traps.

Section 77. *Trapping of Inlets.*—Every inlet to any drain other than inlets provided for ventilation in accordance with the By-law shall be provided with an approved trap. No inlets to any drain connecting directly with a sewer shall be constructed within a building other than such inlets necessary for the apparatus of any water-closet, urinal, or housemaid's slop sink.

Section 78. *Classes of Traps.*—Four classes of traps shall be used—

- (a) "Traps" for intercepting gases only, to be of round section and self-cleansing form, but not such as to empty by momentum or suction.
- (b) "Silt traps" for intercepting both gases and solids, to have slightly tapered sides, flat bottom, and rounded angles, and provided with approved means for catching and removing solids.
- (c) "Grease traps" for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, to be of such form as approved.
- (d) "Oil traps" for collecting all kinds of oil and to be of such form as approved.

The term "yard gully" is applied to traps (a) in cases where they are used externally and fitted with dished tops and gratings.

Section 79. *Water Seal.*—Every drainage trap must have a water seal not less than 2 inches in depth.

Section 80. *Provision of Yard Gullies.*—A yard gully must, wherever practicable, be provided in the yard of every property as near as practicable to the kitchen or back door, with a tap

placed over it at a height of not less than 2 feet. No yard gully shall be situated within a building. Where it is not practicable to provide a yard gully, a slop sink must be provided within the building.

Section 81. *Details of Yard Gullies.*—Yard gullies shall be fitted with dished tops and gratings, the dished top being in one piece with the trap or jointed thereto spigot and faucet, or as otherwise approved.

The depth of the dished top to the grating must be not less than 6 inches, and the grating must be so fixed as to be removable with reasonable facility.

Section 82. *Kerbing, &c., to Yard Gullies.*—Yard gully basins and the dished tops of silt traps must be so surrounded with an approved impervious kerbing as to prevent the access of surface water to the drains, and, if directed, the wall at the rear of the gully or silt trap, if of brick or stone, must be cement rendered to the height of the tap over same, and if of wood the wall must be provided with an approved galvanized sheet iron apron.

PART 4.

PIPE CAPACITIES.

Division 22.—Capacities of Soil, Waste, Drain, and Vent Pipes.

Section 83. *Fixture Units.*—For the purpose of determining the size of any drain, waste soil, or vent pipe, the following equivalent fixture units shall be adopted, unless otherwise directed.

Fixture.	Nominal Outlet Diameter.	Fixture Units.
One lavatory basin	1½ inch	1
One lavatory basin	1½ inch	1½
One kitchen sink (up to 6-in. depth to overflow)	2 inches	3½
One bath	1½ inch	3½
One bath	2 inches	5½
One wash trough set with common trap	1½ inch	3½
One wash trough set with common trap	2 inches	5½
One urinal	1½ inch	3
One slop sink	2½ inches	3
One slop sink	3 inches	4½
One shower bath	2 inches	3
One water closet	4 inches	6
One bathroom group, consisting of one lavatory basin, one bath, and one shower	—	7

The equivalent fixture units to be adopted for fixtures other than those shown shall be determined by the Authority. One fixture unit denotes a rate of discharge equal to 1 cubic foot per minute.

Section 84. *Sizes of Soil, Waste, and Drain Pipes.*—Except by special permission the required sizes of soil, waste, and drain pipes shall be determined on the basis of the total number of fixture units drained or likely to be drained in accordance with the following table:—

Diameter of Pipe (Inches).	Minimum Permissible Grade.	Permissible Maximum Number of Fixture Units.										Vertical.	Maximum Number of Fixture Units Permitted in any Connection in any 100-ft. Length of Vertical Stack.		
		Grade not less than—													
		1 in 60	1 in 50	1 in 40	1 in 30	1 in 25	1 in 20	1 in 15	1 in 12½	1 in 10	1 in 5				
1½	1 in 12½	1½	1½	1½	1½	1½
1½	1 in 15	4½
2	1 in 20	8	12	16	23	12

Provided that—

- (a) Waste and soil pipes shall not be diminished in diameter in the direction of flow.
- (b) The diameter of trap, waste, or soil pipe receiving the discharge from any fixture shall in no case be less than the nominal outlet diameter of such fixture.
- (c) No water-closet shall discharge into a drain or soil pipe of less than 4 inches in diameter.
- (d) All connexions between inclined pipes and vertical stacks shall be through 45 degrees junctions.
- (e) Soil and waste stacks shall be as direct as possible and free from sharp bends. Where such are unavoidable approved provision shall, if necessary, be made to safeguard fixtures immediately above and below the bend.

Section 85. *Sizes of Vents.*—(1) *Main Vents.*—Except by special permission, the required sizes of main vents shall be determined from the size of the soil, or waste pipe, or stack to be vented, the total number of fixture units drained into it, and the developed length of the vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table.

Provided that—

- (a) No vent shall be less than 1½ inches in diameter, and in no case shall a vent have a diameter less than one half that of the soil or waste pipe which it serves.
- (b) For 2-in. and 2½-in. waste pipes the vent shall have a diameter of not less than 1½ inches.

(2) *Sizes of Branch Vents.*—The required sizes of branch vents shall be determined from the number of fixture units served by the branch vent and the developed length of the vent from the point of connexion of the anti-syphonage vent from the last fixture served by the branch vent to the outlet to the open air at the upper end of the main vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table:—

Provided that—

- (a) Branch vents shall conform to provisions (a), (b), for main vents.
- (b) No branch vent need be larger in diameter than the soil or waste pipe which it serves.

(3) *Individual Anti-syphonage Vents.*—The required sizes of individual anti-syphonage vents shall be determined from the diameter of the fixture trap served in accordance with the following table:—

PART 5.

PLUMBING.

Division 23.—General.

Section 86. *Waste Pipes.*—Separate waste pipes shall be provided for each of the following classes of polluted water, viz:—

- (a) Dirty water from baths, sinks, lavatory basins, and wash troughs, and other waters containing a small proportion of soap and/or dirt.
- (b) Greasy water from kitchen and scullery sinks or other fixtures, in such cases where grease traps are ordered or required.

Section 87. *Soil Pipes.*—Soil pipes shall be provided for soil water from closets and other waters containing faecal matter, and for urinal waters from slop sinks and urinals, and, where directed, for discharges from operating theatres and morgues, and in no case shall such waters be discharged into any waste pipe as defined by this By-law.

Section 88. *Connexions to Drain.*—All waste pipes shall discharge under the grating of a yard gully or into a disconnector trap. All soil pipes, including those for urinals and housemaids' slop sinks, must be connected direct to the drain. No waste pipe shall be laid in the ground outside any building unless by special permission.

Section 89. *Flashing, &c.*—All troughs, sinks, and other fixtures which are placed less than 3 inches, and all baths fixed less than 6 inches clear from any wall shall be flashed with 5-lb. lead, 2-gauge copper, bronze, brass, nickel, silver, or monel metal, or other approved material. Galvanized sheet iron may be used for fixtures other than sinks.

All such flashings shall be turned up the walls at least 4 inches, except where the walls are tiled, when the flashings shall be carried up at least 1 inch behind the tiles. Baths and other fixtures having turned-up flanges for use against tiled walls in lieu of sheet metal flashing shall be properly supported to prevent settlement, and the flange shall lap at least 1 inch behind the tiles, which shall be brought hard down on to the surface of the fixture. All flashing shall be properly secured and made watertight, and shall be bedded for a width of not less than 1 inch along the edge nearer the fixture in red or white lead.

Section 90. *Fixtures Not to Abut Against Walls.*—Unless otherwise directed or permitted, sinks, tubs, and similar fixtures situated in premises other than private houses where food for human consumption is prepared, manufactured, or stored for sale, and draining boards, slabs, and plates used in connexion with such fixtures, shall not abut against any wall but shall have a clear space of not less than 3 inches between such fixtures and any wall surfaces or obstructions.

Section 91. *Bib-cocks.*—Internal bib-cocks shall not be permitted unless a sink, lavatory basin, or other approved fixtures, or a properly drained impervious floor, is provided underneath.

Division 24.—Soil, Waste, and Vent Pipes.

Section 92. *Materials.*—No material shall be used for soil pipes other than cast-iron, lead, or brass, and for waste pipes other than wrought-iron, cast-iron, lead, brass, or copper.

Section 93. *Lead Pipes.*—The minimum permissible weight of lead for soil, waste, or vent pipes for water closets, urinals, and slop sinks shall be 7 lb. per square foot, and for all other fixtures 6 lb. per square foot.

Section 94. *Wrought-iron Pipes.*—All wrought-iron pipes and their fittings shall be approved standard weight and quality and galvanized or lined to the approval of the Authority.

Section 95. *Cast-iron Pipes.*—All cast-iron pipes shall be sound, free from holes and cracks, and coated with approved bituminous composition, or lined with glass enamel to the approval of the Authority.

Cast-iron pipes and their fittings, where laid in the ground, shall comply with the Australian standard specifications, or, in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameter. Cast-iron pipes for use in other situations shall have a minimum thickness of 3-16 inch measured in the case of glass-enamelled pipes without the enamel, and their fittings shall correspond with them in weight and quality. All junctions shall be curved, right-angled junctions shall not be made.

Section 96. *Galvanized Sheet Iron Pipes.*—External vent pipes of galvanized sheet iron shall be of a gauge not less than the following:—

- 1½ inch, 2 inch, 2½ inch diameter—22-gauge.
- 3 inch and 4 inch diameter—20 gauge.
- 6 inch diameter—18-gauge.

Section 97. Where lead, copper, brass, or cast-iron soil or waste pipes are fixed outside a wall for upstairs fixtures, the lead, copper, brass, or cast-iron pipes shall be carried at least 2 feet above the level of the highest fixtures attached to the pipe.

Section 98. *Vent Pipes.*—Vent pipes, if inside a building, shall in all cases be of cast-iron, wrought-iron, lead, copper, or brass. Grooved, welded, or riveted double galvanized sheet iron vent pipes may be used where they are entirely outside a building, and shall be connected with the traps or waste or soil pipes with brass ferrules or other joints approved by the responsible officer of Authority.

Section 99. *Vents in Shed, &c.*—Galvanized sheet iron vent pipes may be used inside stables or open sheds, except where liable to damage.

Section 100. *Use of Lead Pipes.*—Lead pipes shall not be used, except where exposed to view and/or not liable to damage.

Section 101. *Supporting Lead Pipes.*—Lead pipes shall be supported by cast lead tacks of approved dimensions, wiped on to the pipe or by other approved fastenings, and such fastenings shall be arranged as nearly as possible thus—

- 4-in. vertical lead pipes—2-ft. 6-in. centres.
- 4-in. horizontal lead pipes—2-ft. centres.
- Less than 4-in. vertical pipe—3-ft. centres.
- Less than 4-in. horizontal pipe—2-ft. 3-in. centres.

Two pairs of tacks, fixed opposite, is sufficient for fixing lead flush pipes from cisterns.

Section 102. *Minimum Permissible Gradients.*—The following are the minimum gradients to be adopted for soil and waste pipes:—

Diameter of Pipe.	Minimum Gradient.
1½ inch	1 in 12½
1½ inch	1 in 15
1½ inch	1 in 17½
2 inches	1 in 20
2½ inches	1 in 25
3 inches	1 in 30
4 inches	1 in 40
5 inches	1 in 50
6 inches	1 in 60

Section 103. *Length of Unvented Waste Pipes.*—Waste pipes need not be ventilated unless they exceed 10 feet in inclined length or 12 feet in vertical length, provided that there is only one fixture attached to the waste pipe, and provided that the water seal of the trap is not reduced by syphonage or other cause. Where there is more than one fixture, or the water seal is reduced, a vent pipe shall be supplied to the fixture trap or traps.

Section 104. *Junctions.*—Where a waste or soil stack is branched into a graded waste, soil, or drain pipe, the branch fitting shall have an angle of not less than 45 degrees to the horizontal, and the length of the branch of the fitting shall be such that the vertical projection of the attached stack will be wholly outside of the area of the junction with the graded pipe.

Section 105. *Sealing of Pipes.*—Wherever a fixture is abolished, the soil, waste, vent, and water supply pipes to such fixture shall be removed, or, if allowed by the Authority to remain, the ends of the pipes shall be sealed with watertight imperishable materials.

Section 106. *Soil Vent Pipes.*—In all cases the upward extension from the soil pipe for ventilation shall pass in as direct a manner as possible above, and, if necessary, through the roof.

Section 107. *Vent Pipe Grades.*—All vertical lines of vent pipe shall connect, full size, at their bases with a soil, waste, or drain pipe at an angle of not less than 45 degrees to the horizontal, and shall extend in undiminished size above the roof or be connected to the soil, waste, or vent stack, in compliance with the requirements of section 109, on a grade sufficient to avoid the collection of water.

All intermediate bends or offsets shall be at a grade of not less than 45 degrees to the horizontal.

Vent pipes shall not be used as waste or soil pipes.

Section 108. *Anti-syphonage Vents.*—Traps must be prevented from syphoning by proper ventilation, in accordance with the requirements of section 85. Such anti-syphonage vents from fixtures shall be carried above the eaves of the building or joined to the branch or main vent above the level of the fixture, unless special permission to the contrary is granted.

These vent pipes shall be connected to the waste or soil pipe at a point not less than 3 inches nor more than 12 inches from the crown of the trap and on the opposite side of the water seal to the fixture.

Section 109. *Combining of Vents.*—The various vents may be combined by branching together those which serve traps of the same class. The vent pipes may be branched into a soil or waste pipe of the same class above the level of the highest fixture.

Section 110. Where a branch is required to a galvanized sheet iron vent pipe, a brass saddle piece bolted and soldered to the vent must be used.

Section 111. *Sheet Metal Bends and Offsets.*—All sheet metal bends and offsets for flush and vent pipes shall be bent or pressed. Mitred elbows will not be permitted.

Section 112. *Pipes to be Accessible.*—All soil, waste, and vent pipes and traps shall, where practicable, be accessible at all times for ready inspection and convenience of repairing. When placed within partitions or recesses of walls they shall be covered with woodwork or other approved material, so fastened as to be readily removable. No junctions shall be built in except with special permission from the Authority in writing.

Section 113. Concealed standing wastes will not be permitted.

Section 114. *Painting.*—All external plumbers' work and all cast-iron cisterns and brackets, woodwork in connexion with plumbing installations, sheet iron flush pipes, and sheet iron storage tanks and trays, shall be painted, after inspection, to the approval of the Authority.

No. 262.—15588.—2

Division 25.—Joints.

Section 115. *Stoneware, Cement, or Cast-iron Pipes.*—Joints of stoneware, cement, or cast-iron pipes shall conform with the requirements of sections 62 or 63.

Section 116. *Lead Pipe.*—All joints in lead pipe shall be plumber's wiped joints.

Section 117. *Wrought-iron Pipe.*—The screwed ends and sockets of each particular size of wrought-iron or wrought steel pipe shall be so formed and the threads so cut that the ends of the pipe will butt against each other when screwed home in the sockets; bends, junctions, and similar fittings shall be similarly formed and screwed so that when the pipe ends are screwed home the bore will be continuously uniform and without breaks or pockets. The burr shall be neatly filed off on the inner edge of all pipe ends. All screwed joints shall be made with the approved jointing material.

Section 118. *Wrought-iron Pipe to Lead Pipe.*—All joints between wrought-iron and lead pipes shall be made by means of brass unions screwed to iron and wiped to lead.

Section 119. *Brass or Copper Pipes.*—Joints of brass or copper pipes shall be made in accordance with the Australian Standard Specification B36—"Compression joints and copper alloy screwed fittings for standard copper tubes."

Section 120. *Lead Pipe to Cast-iron Pipe.*—The connexion of lead pipes or traps to cast-iron pipes shall be made by means of brass ferrules. The brass ferrules shall be lined with and connected to the lead pipe or trap by means of a wiped joint and connected to the cast-iron by inserting ferrule in socket thereof and making the joint in the same way as in cast-iron pipe.

Section 121. *Sheet-iron Pipe to Cast-iron Pipe.*—All connexions of galvanized sheet iron to cast-iron pipes shall be made with molten lead, lightly but tightly caulked in to cast-iron sockets.

Section 122. *Sheet-iron Pipe to Wrought-iron Pipe.*—Galvanized sheet iron pipes shall be connected to wrought-iron pipes by means of brass unions or sleeves soldered to the sheet iron and screwed to the wrought-iron, or by means of a wrought-iron socket screwed to the wrought-iron pipe, into which the sheet-iron pipe shall be lightly but tightly caulked with molten lead.

Section 123. *Sheet-iron Pipe to Lead Pipe.*—Connexions of sheet-iron pipes to lead pipes shall be made by means of brass sleeves wiped to the lead pipe and soldered to the sheet-iron pipe, or by means of a cast lead collar wiped to the lead pipe, into which the galvanized sheet-iron pipes shall be caulked to approval.

Section 124. *Concrete or Stoneware Pipe and Traps to Lead Pipe.*—Connexions of lead pipe to stoneware or concrete pipe shall be made by means of a brass ferrule connected to the lead pipe by means of a wiped joint and connected to the stoneware or concrete pipe by inserting it in the socket thereof and making a cement mortar joint.

The connexion of a stoneware or concrete trap to a lead pipe shall be by means of a cast lead or brass socket, and the joint made with bitumen or other approved material. The lead pipe shall be connected to the tail end of the brass or lead socket by means of a plumber's wiped joint.

Section 125. *Connexion of Closet Pan Traps to Soil Pipe or Drain.*—Connexion of a closet pan to a soil or drain pipe shall be made by means of a bituminous jointing material, consisting of a mixture of approved bitumen and finely graded inert mineral filler in equal proportions, filled in solidly into faucet of soil or drain pipe, and neatly splayed off, or by other approved method. In the case of lead soil pipes, a cast lead or brass faucet shall be used and connected to the lead pipe by means of a wiped joint.

Section 126. *Cistern Flush Pipe to Closet Pan.*—The flushing pipe from cistern shall be connected to the water-closet pan by a lead cap piece of not less than 4-lb. lead packed with red lead or other approved material. The cap piece shall be jointed to galvanized sheet iron, copper, brass, or drawn steel pipe by means of a soldered joint and to lead flush pipe by wiped or soldered joint. The connexion of the flushing pipe to cistern shall be by means of a brass union, wiped to lead pipe or soldered to sheet-iron pipe. Copper or brass pipe shall be connected, to cistern by means of a brass ring, with nut-brazed to pipe, or by other approved means.

Section 127. *Vent Pipe to Closet Pan.*—Vent pipe shall be connected to the vent horn of water-closet trap by a lead cap piece with red lead packing or by other approved methods. The cap piece shall be jointed to copper or brass pipe by means of a soldered joint and to lead flush pipe by a soldered or wiped joint.

Section 128. *Outlet Fittings to Fixtures.*—Connexions between outlet fittings and such fixtures as baths, sinks, basins, &c., when the latter are constructed of cast-iron, plate-iron, ceramicware, or concrete, shall be made with lock nuts. The outlet fitting shall in all cases be connected to the waste pipe by means of a union.

When these fixtures are made of sheet metal lighter than 20-gauge soldered connexions may be used in lieu of lock nuts.

Section 129. *Waste Pipes to Troughs.*—Connexions of waste pipes to wash troughs shall be made as under:—

- (a) Cement troughs, unless otherwise approved, shall have cast-in outlets.
- (b) Sheet-metal troughs shall be connected to the waste pipes in compliance with section 128.

(c) For wooden troughs, lead, copper, or brass, waste pipes shall have flanges connected to the waste in accordance with the provisions of this By-law, and fastened to the underside of the trough with copper tacks. The waste pipe shall then be turned over inside the trough and the plug casting bedded over it with red lead putty and screwed to trough with brass wood screws.

Where wrought-iron or other screwed pipes are used the plug must be connected to the trough by means of a lock nut in lieu of flange.

Division 26.—Fixture Traps.

Section 130. *Fixtures to be Trapped.*—Every water-closet, urinal, slop, or other sink, lavatory or wash basin, bath, wash trough or set of wash troughs, and any other fixture, shall be separately and effectively trapped, unless otherwise specially permitted by the Authority.

Section 131. *Omission of Traps.*—Baths, lavatory basins, wash troughs, and sinks may remain untrapped where fixed in the open air or detached outbuildings not used as a living room, workroom, or room for the preparation, cooking, or storage of food, and not connected directly by openings with the main building or residence. Provided that the length of the waste pipe, measured in the case of wash troughs from the centre of furthestmost inlet to end of waste pipe outlet, does not exceed 6 feet.

Section 132. *Position of Traps.*—Traps shall be placed as near the fixtures as possible, and in no case shall a trap be more than 2 feet from its fixture, except as provided in section 179, unless otherwise specially permitted by the Authority.

Section 133. *Depth of Water Seal.*—Every trap shall have a water seal of not less than 2 inches.

Section 134. *Closet Pan Traps.*—Outlets from closet-pan traps shall be of not less than 3½ inches nor more than 4 inches diameter, except in the case of syphonic pans.

Section 135. *Sealed Disconnecter Traps.*—Where approved by the Authority, sealed disconnecter traps may be fixed outside or inside the building, but in such cases breather pipes or fresh air inlets of the same diameter as disconnecter traps shall be taken above the level of the lowest fixture, or to such other height as directed; and when trap is inside shall be led to the outside of the building. The material for such breather pipes shall be the same as for waste pipes; sheet-iron will not be allowed. Inspection openings to such traps shall be sealed with screwed plugs, or as otherwise approved by the Authority.

Section 136. *Form of Trap.*—The "P" form of trap, with joints visible and accessible all round, must, unless otherwise permitted, be used in preference to the "S" form of trap for all internal fixtures wherever practicable. Where the "S" form of trap is used facilities for periodical inspection must be provided.

Section 137. *Lead Traps.*—All lead traps must be of the weights specified in section 93 for lead pipes of the same diameter.

Division 27.—Gratings.

Section 138. Fixtures discharging into waste pipes and all urinals shall have non-corrodable outlet gratings of approved design and material, in accordance with the Australian Standard Specification B.38, "Metal alloy sanitary fittings."

Division 28.—Cleaning Eyes and Inspection Openings.

Section 139. *Provision for Inspection and Cleaning.*—Sufficient inspection and cleaning eyes shall be provided in such positions on all soil and waste pipes as to be easy of access for proper inspection and cleaning.

Traps for fixtures, other than water closets, urinals, and housemaids' slop sinks, shall be provided with approved screwed brass plugs for cleaning purposes fixed under the water line of the trap.

Section 140. *Inspection Openings on Soil Pipes.*—In all cases where the vertical stack of soil pipe provides for closets 4 feet or more above the ground level, measured from floor level of water-closet to ground level at foot of stack, an inspection opening having a cover fixed to a flange with bolts or studs shall be provided in such a position as directed by the responsible officer of the Authority.

Division 29.—Grease Traps.

Section 141. *Provision of Grease Traps.*—Every fixture or area from which grease or any other objectionable matter is likely to be discharged or conveyed into waste or soil pipes, or house drains, and every sink in all such places as food-packing houses, butchers' shops, lard rendering establishments, hotels, restaurants, and boarding-houses, and such fixtures, areas, apparatus, or appliances as the Authority may direct, shall first discharge into an approved apparatus for preventing the objectionable matter from reaching the soil pipe or drain. Such apparatus shall be of such dimensions, design, and construction and in such position as the Authority, or its responsible officer, may in each case approve.

Section 142. *External Grease Traps.*—Every grease trap shall be fixed outside the premises whenever practicable, and (if not portable) shall be of glazed stoneware, concrete, slate, or brick in cement, and the outlet shall be connected to the drain through a disconnecter trap.

Section 143. *Internal Grease Traps.*—Whenever a grease trap is used inside a building it shall be so fitted as to be easily removable, and, if directed, fixed upon a tray. All internal grease traps shall be of copper or other approved material, provided with a close fitting cover, and shall be independently ventilated as required by the Authority, or its responsible officer.

Section 144. *Grease Trap Ventilation.*—Every grease trap shall have provision made for inlet and outlet ventilation if and as directed by the Authority or its responsible officers.

Section 145. *Size of Grease Trap.*—The dimensions of grease trap, to be provided shall be such as to ensure the congealing and retention of all grease entering such trap.

Section 146. *Outlet Pipes.*—The outlet pipe from any grease trap must be at least one size larger than that size of pipe which has a cross sectional area equivalent to the total area of incoming waste pipes. In no case, except by special permission, shall the outlet pipe be less than 3 inches diameter for grease traps of copper or other approved metal and 4 inches for stoneware.

Section 147. *Maintenance.*—Every grease trap shall be maintained by the occupier at his own expense, and shall be cleaned at such intervals as may be necessary to ensure that such trap operates in an efficient and hygienic manner.

Division 30.—Water Closets and Flushing Apparatus.

Section 148. *Water-closets, General.*—At least one water-closet shall be provided for each house or building within a sewerage area, and also in such other cases as may be directed by the Authority.

In every shop, factory, office, flat, or building containing more than one tenement, at least one water-closet shall be provided for the use of the occupier of each tenement, or as otherwise directed by the Authority, and shall be so placed, either within or without such building, as to ensure the due observance of decency and to be easily accessible to the occupiers.

Section 149. *Water-closets at Hotels, Shops, &c.*—In hotels, offices, lodging-houses, shops, and, if so directed, in any other premises, closets for different sexes shall not adjoin each other unless separated by a soundproof wall of such material and of such thickness as shall be approved by the Authority.

Section 150. *Water Closets for Factories.*—The owner of any building which is used for the purpose of a factory shall provide water-closets for the use of employees at such building in accordance with the Factories Act.

Section 151. *Light, Ventilation, &c., for Water-closets.*—Except as herein provided in section 152, every water-closet in a building shall comply with the following conditions:—

- (a) One of its sides at least shall be an external wall of such building, abutting on to a street or lane, or an open space of not less than 100 square feet in area, such space being portion of the premises.
- (b) It shall not be entered directly from any room used for human habitation or for the manufacture, preparation, or storage of food for human consumption, or used as a factory, workshop, or work place. In cases where otherwise such closet would be directly entered from any such room, an ante-chamber, or airlock having a floor area of not less than 20 square feet shall be provided and effectively lighted, and shall be ventilated by an air shaft or some approved method to the open air. The doors of such closet and ante-chamber or airlock shall be close fitting and self-closing, and all internal walls constructed of brick or other approved airtight material, extending the entire height from floor to ceiling. For closets in private residences opening on to a well-lit and well-ventilated hall passage, lobby, or staircase, no airlock is required; but where these conditions do not exist the airlock as above shall be provided.
- (c) Each water-closet apartment, ante-chamber, or airlock shall be provided with adequate means of constant fresh air ventilation, and shall be lighted by a window or glazed louvres of not less than 2 square feet of clear light area per water-closet opening directly into external air. The effective area provided for outlet ventilation of each water-closet apartment, ante-chamber, or airlock shall be not less than 27 square inches, and where the level of the floor of the water-closet apartment is lower than the outside surface of the ground exhaust ventilation shall be provided by means of a tube of at least 6 inches diameter, carried up through the roof and furnished with a cowl. Approved provision for inlet ventilation shall be made as near the floor level as possible.
- (d) The floors of all water-closet apartments shall be constructed of concrete of not less than 4 inches thickness, or of other approved impervious material, and graded as directed, or they shall be provided with lead safes in accordance with the requirements of sections 184, 185, and 187. The frame of every wooden closet shall be securely fastened to the floor and made rigid, without attachment to fences.
- (e) Each closet apartment shall be not less than 3 feet wide and 5 feet long, inside measurements, and the walls shall be at least 7 feet high at the lowest part.

Section 152. *Mechanical Ventilation and Artificial Light.*—Subject to the approval of the Authority in writing the requirements of section 151 may be waived, provided that the following conditions be complied with, viz.:—

- (a) In every such case a mechanical system of exhaust ventilation in duplicate, approved by the Authority, and capable of changing the air contents of such water closet eight times per hour shall be installed in connexion therewith.
- (b) Upon completion the owner or his representative shall carry out such tests of the mechanical system referred to as the Authority may deem necessary.
- (c) Such mechanical system shall at all times be underneath the continuous supervision of one or more properly qualified persons, and shall be continuous in operation.
- (d) Any such mechanical system shall be open to inspection by the Authority at all reasonable times, and shall be subject to such tests as the Authority shall from time to time direct. The air and pipe shafts shall be readily accessible, and shall have a minimum width of 2 ft. 6 in., and a minimum area of 12 square feet.
- (e) The failure of any such mechanical system at any time to pass such tests shall be an offence by the owner of such a building against this By-law, and the owner thereof shall also, in respect of such failure, be guilty of an offence against this By-law.
- (f) Every such water-closet shall be provided with an efficient system of electric lighting to the approval of the Authority, and same shall be maintained at all times in good working order.

Section 153. *Wooden Water-closets.*—In wooden water-closets buildings the bottom plates and plinths must be of approved timber. In repairs to studs they shall be cut to sound timber with a new plate, supported on a concrete dwarf wall extended up from the floor level.

Section 154. *Fixing Closet Pan.*—On concrete floors, or floors of tiles set in concrete, the closet pan shall be securely bedded upon concrete or cement mortar and fixed with brass screws to approved lead dowels set in the floor. Where the floor is of timber covered with an approved impervious material the closet pan shall be secured to the timber by means of brass screws as directed or by other approved means.

Section 155. *Closet Pans.*—Every water-closet shall be furnished with a pan of non-absorbent material of such shape, capacity, and construction as approved by the Authority. Water-closet pans and fittings thereto shall be entirely open to inspection and without any enclosure. Vent horns shall be provided on all pans even if no anti-syphonage vent is required. If not used for a vent such vent horn shall be sealed with a lead disc, bituminous filler, and a lead cap piece, or by other approved method.

Section 156. *Closet Pan Seats.*—Except as approved by the Authority, all hinged closet pan seats shall be not less than 1 inch in thickness and constructed of approved material. When constructed of wood, four-piece seats shall be glued and either dowelled or bolted, and one-piece seats shall be reinforced with two wood or brass slips let in flush on the underside.

Section 157. *Flushing Apparatus.*—Approved apparatus shall be provided for the effective application of water to the pan of the water-closet and for the efficient flushing and cleansing of the pan, and effective removal therefrom of any solid or liquid matter which may from time to time be deposited therein. Such apparatus shall have a flushing capacity of 2½ gallons, and shall be so constructed, fitted, and placed as to supply water for use in the pan without any direct communication with any service water pipe upon the premises.

Section 158. *Flushing Cisterns.*—Flushing cisterns shall be fixed at such height as will effectively flush the pan; but except by special permission, no cistern shall be fixed at a less height, measured from top of seat to bottom of cistern, than 5 feet where 1½-in. flush pipe is used, or 4 feet where 1¼-in. flush pipe is used. There shall be a distance of at least 9 inches between top of cistern and ceiling of closet.

Every cistern shall have a separate stop-tap and an overflow of ¼-in. internal diameter, and shall be fixed to cistern boards not less than 12 inches deep and 1½ inches thick, or fixed in other approved manner.

Water supply pipes to cisterns shall be adequate to fill any cistern at the rate of not less than 1 gallon per minute.

Section 159. *Flush Pipes.*—Flush pipes to closet pans shall be of brass, copper, 6-lb. lead, galvanized-iron of not less than 22-gauge, or other approved material, and shall have a minimum diameter of 1¼ inches.

Section 160. *Flushing Apparatus Other Than Cisterns.*—Notwithstanding anything contained in this By-law, closet pans in any building may be flushed by means of any apparatus which—

- (a) automatically controls the amount of water used, and/or
- (b) is approved by the Authority.

Section 161. *Storage Tanks.*—Except where otherwise allowed by the Authority, on request, in writing, by the owner accepting all responsibility in the matter, internal water-closets shall be provided with storage tanks capable of holding 6 gallons of water for each occupant of the building, with a minimum of 60 gallons per closet for all buildings

except private residences, which shall have a minimum capacity of 30 gallons.

Unless otherwise directed by the Authority, the storage tanks may be placed in the water-closet apartment itself, on the roof over a flat or gutter, or in an accessible place between the ceiling and the roof, in which latter case a safe of galvanized iron, lead, or other approved impervious material, with overflow, shall be fixed under the storage tank.

Section 162. *Venting Closet Pans.*—Unless otherwise directed or permitted, every closet pan on an upstairs floor shall discharge into a soil-ventilator pipe, except that any closet pan on a floor which is not more than 8 feet in height from the ground surface level may be ventilated by an anti-syphonage vent only, in accordance with the requirements of sections 85 and 108, and discharge into a soil pipe without extension as a ventilator pipe; provided that no fixtures at a lower level are connected to such soil pipe.

Any closet pan where ordered, and, also, unless otherwise directed, every internal closet pan which is more than 4 feet from a fully vented soil pipe drain as measured horizontally between the centre of soil pipe and centre of pan, shall be ventilated by an anti-syphonage vent in accordance with the requirements of section 85 sufficiently close to prevent syphonage, and in no case more than 18 inches from the trap. Notwithstanding the above, all "S" trap pans must be provided with anti-syphonage vents.

Section 163. *Grouped External Closets.*—Where there are more than three external water-closet pans grouped on the ground floor or in the yard of any premises special provision must be made to prevent syphonage.

Division 31.—Urinals and Flushing Apparatus.

Section 164. *Urinals, General.*—Every urinal on premises licensed for the sale of fermented or spirituous liquors, and on premises used as a factory, workshop, work place, manufactory, shop, office, or school where persons of the male sex are employed or in attendance, shall be of such size as the Authority requires. Provided that when the number of persons of the male sex does not exceed ten, a urinal need not be fixed if the closet has a pedestal pan with a hinged tip-up weighted seat.

Section 165. *Internal Urinals.*—The positions, approaches, arrangement of lighting, ventilation, &c., for internal urinals shall comply as nearly as possible with the provisions as to internal water-closets.

Section 166. *Details of Construction, &c.*—Except by special permission, only round-backed stall type urinals of approved impervious material shall be used. The soil pipes shall be of lead, stoneware, or glass, enamelled or coated cast-iron, or other approved material, shall be kept as short and free from bends as possible, and shall be trapped. Inspection openings shall be provided on soil pipes as directed, with clamped covers. The urinals shall be provided with approved flushing apparatus, and a hose tap shall be provided in a suitable position for hosing down.

Section 167. *Treatment of Floors.*—The floor in front of a urinal shall be covered with approved impervious material for a width of not less than 2 feet, or, if raised above floor level of urinal apartment, not less than 1 ft. 6 in., and graded to drain to urinal.

Impervious Materials.—The following materials will be considered impervious:—

- (a) For urinals: glazed fire clay or salt glazed stoneware.
- (b) For floors in front of urinals: Glazed tiles set in cement mortar (composed of equal parts of cement and sand), concrete 6 inches thick rendered with ¼-in. thick cement mortar, slate, marble or asphaltum.

Section 168. *Flushing Apparatus.*—Pull and chain flushing cisterns or other approved apparatus operated by hand shall be fixed on all urinals except where automatic flushing cisterns are permitted or directed by the Authority.

Section 169. *Flushing Cisterns.*—The discharge from a cistern shall be equal to 1 gallon for each urinal stall, except where otherwise allowed by the Authority, but in no case shall larger than a 3-gallon cistern be used.

The height of a cistern shall, unless otherwise allowed by special permission, be at least 8 feet from the floor to the top of the cistern. The cistern shall be so fixed that the ball tap is accessible.

A separate stop tap shall be provided for each urinal cistern.

Section 170. *Flush Pipes.*—Flush pipes for urinals shall be of brass or copper with gunmetal fittings; and shall have a minimum diameter of 1¼ inches, except that flush pipes for automatic flushing cisterns generally shall not exceed—

- for 1-gallon cistern, ¾-in. internal diameter,
- for 2-gallon cistern, 1-in. internal diameter,
- for 3-gallon cistern, 1¼-in. internal diameter.

with branches as directed by the responsible officer of the Authority.

Division 32.—Housemaids' Slop Sinks.

Section 171. *General.*—Housemaids' slop sinks shall be made in one piece of approved impervious material and provided with approved flushing apparatus of 2-gallon capacity.

Section 172. *Ventilation, Light, &c.*—Housemaids' slop sinks shall be so placed and ventilated as to comply with the requirements for water-closets as set out in sections 151 (a), (b), and (c), and 162.

Section 173. *Bibcock over Slop Sink*.—A bibcock shall be fixed directly over a housemaids' slop sink, and at least 18 inches above such sink.

Division 33.—Wash Troughs.

Section 174. *General*.—Wash troughs shall be of approved pattern and material, securely fixed and graded to outlet pipe, fitted with brass strainer sunk to level of bottom of trough.

Section 175. *Support for Lead Waste Pipe*.—Where the distance between outlets on troughs exceeds 21 inches and lead waste pipe is used, the pipe shall be supported either by a lead tack wiped on the top of the pipe or by a wooden block screwed to the bottom of the trough and clamped to the pipe.

Section 176. *Troughs Abutting Against Brick Wash Copers*.—Wherever the end of a wash trough abuts against the brickwork of a wash copper the space between the end of trough and the brickwork shall be filled with approved waterproof material.

Division 34.—Sinks, Baths, Showers, and Lavatory Basins.

Section 177. *Sinks*.—All new sinks shall be fixed on brackets and traps and wastes left readily accessible.

Section 178. *Galvanized Sheet-iron Baths*.—The bottoms of galvanized sheet iron baths shall be effectively supported. Such baths shall not be enclosed. Longitudinal joints in the bottoms of baths shall not be permitted.

Section 179. *Bath Traps*.—Where a bath trap is fixed on the outside of a wall it shall in no case be more than 3 feet from the outlet of the bath, unless by special permission of the Authority.

Section 180. *Showers*.—All showers on the ground floor shall be provided with a 4-in. stoneware or concrete trap, fitted with brass grating. All showers above the ground floor shall be provided with drainage in accordance with the requirements for baths.

The floors of shower compartments shall be well graded to the trapped outlet and shall be constructed of not less than 4 inches of concrete, trowelled smooth or covered with tiles set in cement mortar, or of other approved impervious materials, or if constructed of timber shall be covered with enamelled cast-iron, approved non-corrosive sheet metal or other approved material turned up at the edges and flashed in accordance with the requirements of section 89.

The walls of shower compartments shall be constructed of brickwork or concrete, cement rendered to a smooth finish or covered with tiles set in cement mortar or of other approved impervious materials, or if constructed of timber shall be lined with approved non-corrosive sheet metal or other approved impervious material and with impervious joints.

Section 181. *Venting of Lavatory Basins*.—All lavatory basins, placed singly, shall be provided with anti-syphonage vents, except where the length of waste pipe does not exceed 4 feet, measured from crown of trap to outlet and of waste pipe and syphonage does not occur.

In ranges of lavatory basins ventilation by means of a single vent pipe at the upper end of the range will be permitted, provided that the vent and main waste pipe are sufficiently large to prevent syphonage.

Section 182. *Tip-up Basins*.—Tip-up lavatory basins shall not be permitted.

Division 35.—Safes and Overflows.

Section 183. *Safes, Where Directed*.—Safes of lead or other approved impervious material shall be fitted under housemaids' slop sinks and internal water-closets, and in such other positions as directed.

Section 184. *Lead Safes in Water-closets*.—All lead safes shall be laid with sheet lead weighing not less than 5 lb. per square foot, and where the whole floor is not covered with lead the safe shall extend 12 inches beyond the sides and 15 inches beyond the front of the pan, measured from the outside of the basin, and shall extend back to and 3 inches up the wall and over flashed, if directed. The roll of such safe shall be 2 inches wide and $\frac{1}{4}$ inch high.

Section 185. *Safe Overflows*.—Unless otherwise permitted, every safe shall be drained by a separate 2-in. diameter pipe, provided at the inlet with a brass grating and at the outlet into the open air with a flap valve of brass or other approved metal, and shall not connect with any waste pipe, soil pipe, drain, or sewer.

Section 186. *Cistern Overflows*.—Every cistern supplied with water shall, unless otherwise approved, have an overflow pipe of adequate size, discharging in a position where it will not cause damage, but where it will act as a warning pipe. On ground floors where cisterns are fixed over impervious floors graded to drain outside of the room the overflow may discharge on to such floors, provided no damage is likely to arise therefrom.

Section 187. *Discharges From Overflows*.—Overflows may discharge into the open air above ground floor level only when the discharge will not cause any inconvenience or nuisance. In all other cases the pipes must be brought to the ground surface or be arranged to discharge where they will not prove a source of annoyance or inconvenience.

Section 188. *Existing Floors*.—Where necessary, in the opinion of the responsible officer of the Authority, every existing floor under a fixture shall be regraded and a proper waste pipe and, if directed, a flap valve fixed.

Division 36.—Existing Fixtures.

Section 189. All existing fixtures, fittings, and appliances not in accordance with this By-law which the owner may desire to retain unaltered, and which, in the opinion of the Authority, will be inoffensive, may at the distinct request in writing of the owner only remain unaltered until such time as the Authority shall otherwise order. Existing fixtures, fittings, and appliances which, in the opinion of the Authority, are offensive shall be removed at once.

PART 6.

WATER SUPPLY.

Section 190. *Supply of Water to Fixtures*.—All water-closets and other plumbing fixtures shall be provided with a sufficient supply of water for flushing purposes to keep them at all times in proper and cleanly conditions.

Every owner of property who desires, or has been ordered by the Authority, to provide sanitary appliances for his own property, and to connect his property with the sewers of the Authority, shall before or at the commencement of the work of making such connexion, provide piping approved of by the Authority for the conveyance of water, and shall cause the piping to be joined at the most convenient water supply main, or, with the permission of the Authority, to some pipe already joined to the main. Such piping shall be of capacity sufficient to supply all sanitary fittings on the property freely and continuously, and convey to the flushing cistern, flushing tank, or other flushing apparatus of each water-closet on the property enough water to fill the same at a rate of not less than 1 gallon per minute, and the owner shall cause such piping to be connected with the cistern before the completion of the work.

The water supply to any fixture shall be so arranged that there shall be an actual physical discontinuity between the water stored or used in any such fixture and that in the water service pipe.

Section 191. *Material, Condition, Capacity, &c., of Water Supply Piping*.—The entire length of the water supply piping from its connexion with the water supply main to the water-closet flushing cistern or other fixture shall be such as is, in the opinion of the Authority, suitable in regard to material, condition, and capacity to convey a sufficiency of water for the sanitary requirements of the particular tenement.

The owner shall keep the piping from becoming, whether by reason of corrosion or other cause, of insufficient capacity to fill the flushing cistern, storage tank, or other flushing apparatus at the rate of not less than 1 gallon per minute.

Section 192. *Fixtures Not Connected With Sewers*.—No water service pipe shall be laid to supply any fixture in any property in any sewerage area unless such fixture is connected with the sewers of the Authority, or unless special permission in writing has been previously given to lay such service pipe.

Section 193. *Storage Tanks*.—Water supply pipes to storage tanks for internal closets shall be of not less than $\frac{1}{2}$ -in. diameter and be provided with stop taps and high-pressure ball valves, except where the elevation of the storage tank is not sufficient to allow of high-pressure ball valves being used. In such cases the permission of the Authority shall be obtained to fix low-pressure ball valves where the head of the water supply of the storage tank to the flushing cistern is less than 20 feet, a low-pressure ball valve shall be provided to the cistern.

Outlets from storage tanks shall not be less than $\frac{1}{2}$ inch for one or two cisterns, and 1 inch for three to six cisterns.

Wherever a larger number than six cisterns is fixed, the size of the outlet shall be proportionally increased. The overflow from a storage tank shall be $\frac{1}{4}$ inches in diameter, and a stop tap shall be fixed on the rising supply pipe to the tank.

Full way gate valves shall be provided between storage tank and flushing apparatus.

Section 194. *Supply Pipe Connexion With Flushing Cistern*.—In all water-closets, where directed, a piece of lead or copper pipe not less than 12 inches in length shall be used between the flushing cistern and the supply pipe.

The foregoing By-law was made and passed by the Castle-maine Sewerage Authority at a meeting held on the 1st day of October, 1936, and confirmed at a subsequent meeting of the Authority held on the 29th day of October, 1936.

In witness whereof the common seal of the said Authority was affixed hereto in the presence of—

HEATHCOTE WATERWORKS TRUST.

RATING BY-LAW FOR THE YEAR 1937.

THE Heathcote Waterworks Trust, in pursuance and exercise of the powers conferred by the *Water Act 1928*, do hereby make a rate for the supply of water for domestic purposes, otherwise than by measure, of Two shillings in the pound on the annual municipal valuation of the lands and tenements liable to be rated within the Heathcote Urban District.

Provided that in no case shall the amount of rate payable per annum in respect of any tenement (other than land upon which there is no building) be less than Forty shillings, and in respect of any land on which there is no building, less than Ten shillings.

Such rates are made and shall be levied upon the occupiers or owners of the said lands and tenements for the year commencing the 1st day of January, 1937, and ending the 31st day

of December, 1937, and shall be payable on the 1st day of January, 1937, at the office of the said Trust, High-street, Heathcote.

For water supplied by the Trust for domestic purposes as well as for other than domestic purposes by measure (except in cases of special agreement with the Trust), the minimum quantity of water to be charged for in respect of all lands and tenements shall be the quantity for which the charge of Two shillings per 1,000 gallons would equal the amount of the rate which would be payable for the lands and tenements so supplied if supplied otherwise than by measure.

All water supplied by measure by the Trust in excess of such aforesaid quantity shall be charged for at the rate of Two shillings per 1,000 gallons.

The charge for water supplied by measure shall be payable on demand.

Passed this 4th day of November, 1936.

LAWLOIT WATERWORKS TRUST.

RATING BY-LAW FOR 1937 IN THE URBAN DISTRICT OF KANIVA.

THE Chairman and Commissioners of the Lawloit Waterworks Trust, in pursuance of the powers conferred by the *Water Acts*, do hereby make the following By-law:—

The following rate and charges are those which the occupiers and owners of lands and tenements liable to be rated shall pay for the year 1937 in respect of water supplied by the Trust within the Urban District of Kaniva, as such district has been proclaimed and defined.

1. For the supply of water for domestic purposes otherwise than by measure, a rate is hereby made of Two shillings and ninepence in the pound on the annual municipal valuation of such lands and tenements. Provided that in no case shall the amount of rate payable in respect of any tenement (other than land on which there is no building) be less than Sixty shillings, and in respect of land on which there is no building less than Fifteen shillings.

2. *Special Rates.*—For all tenements in the said district situate otherwise than on streets in which the pipes for the supply of water have been laid down and which tenements are not supplied with water by reticulation from such pipes and being within a quarter of a mile of a standpipe for the supply of water, one-half of the above-mentioned rate, and where such tenements are over a quarter of a mile from such standpipe and within half a mile thereof, one-fourth of the above-mentioned rate.

3. *Minimum Meter Charge—Excess Meter Charge.*—Such owners as are supplied with water by meter shall pay at the rate of Two shillings per One thousand gallons up to the quantity they would be entitled to receive according to their assessment, and at the rate of Two shillings per One thousand gallons for anything over that quantity.

4. *Public Institutions and Others.*—Water supplied to all Government Departments, charitable and other institutions and religious denominations, shall be by measure at Two shillings and sixpence per One thousand gallons, or by special agreement. For water supplied to cricket, bowling, or tennis clubs the charge shall be subject to arrangement with Trust.

5. *Water Rate Outside Trust's Area.*—Such occupiers and owners of tenements not within the Trust's area and who have agreed with the Trust to be supplied with water by meter shall pay at the rate of Two shillings and sixpence per One thousand gallons.

6. *Water Troughs.*—Private water troughs will be charged for at the rate of Ten shillings per annum each, except where, in the opinion of the Trust, a meter shall be necessary; in which case the minimum charge shall be for 4,000 gallons per annum at Two shillings and sixpence per One thousand gallons.

7. *Excess Payments.*—Where water meters are affixed the excess payments shall be made at the end of each year, or at such time or times as may be demanded by the Trust.

Period of Rate.—That the above-mentioned rate is made for one year, commencing on the 1st day of January, 1937, and ending on the 31st day of December, 1937, and shall be due and payable in one moiety on the 1st day of January, 1937. Such persons as the Commissioners of the Trust may from time to time appoint for that purpose shall be authorized to demand, and receive and collect and recover the said rates and charges.

By-law passed and adopted this 8th day of December, 1936.

(SEAL) GEORGE COUTTS, Chairman.
THEO. P. KELLY, Secretary.

SEYMOUR WATERWORKS TRUST.

RATING BY-LAW FOR THE YEAR 1937.

THE Seymour Waterworks Trust, in pursuance and exercise of the powers conferred by the *Water Act 1928*, doth hereby make a rate for the supply of water for domestic purposes otherwise than by measure of One shilling in the pound of the annual municipal valuation of lands and tenements liable to be rated within the Seymour Urban District.

Provided that in no case shall the amount of rate payable per annum in respect of any tenement (other than land on which there is no building) be less than Twenty-five shillings, and in respect of any land on which there is no building, less than Seven shillings and sixpence.

Such rates are made and shall be levied upon the occupiers or owners of the said lands and tenements for the year commencing the 1st day of January, 1937, and shall be payable on the 1st day of January, 1937, at the office of the said Trust.

For water supplied by the Trust for domestic as well as for other than domestic purposes by measure (except in cases of special arrangement with the Trust) the minimum quantity of water to be charged for in respect of all lands and tenements shall be the quantity for which the charge of 1s. per 1,000 gallons would be equal to the amount of the rate which would be payable for the lands and tenements so supplied if supplied otherwise than by measure. All water supplied by measure by the Trust in excess of such aforesaid quantity shall be charged for at the rate of 1s. per 1,000 gallons.

The charge for water supplied by measure shall be payable on demand.

Dated this 23rd day of November, 1936.

(SEAL) J. W. GREENSHIELDS, Chairman.
J. CHITTICK, Commissioner.
R. J. CLYDESDALE, Secretary.

SHEPPARTON URBAN WATERWORKS TRUST.

RATING BY-LAW FOR YEAR 1937.

THE Shepparton Urban Waterworks Trust, in pursuance and exercise of the powers conferred by the *Water Act 1928*, doth hereby make a rate for the supply of water for domestic purposes otherwise than by measure of One shilling and threepence in the pound of the annual municipal valuation of lands and tenements liable to be rated within the Shepparton Urban District.

Provided that in no case shall the amount of rate payable per annum in respect of any tenement (other than land on which there is no building) be less than Twenty shillings, and in respect of any land on which there is no building less than Ten shillings.

Such rates are made and shall be levied upon the occupiers or owners of the said lands and tenements for the year commencing on the first day of January, 1937, and shall be payable on the first day of January, 1937, at the office of the said Trust.

For the water supplied by the said Trust for domestic as well as for other than domestic purposes by measure (except in cases of special agreement with the Trust), the minimum quantity of water to be charged for in respect of all lands and tenements shall be the quantity for which the charge of Ninepence per 1,000 gallons would be equal to the amount of the rate which would be payable for the land and tenements so supplied if supplied otherwise than by measure. All water supplied by measure by the Trust in excess of such aforesaid quantity shall be charged for at the rate of Ninepence per 1,000 gallons.

The charge for water supplied by measure shall be payable on demand.

Passed this eighth day of December, 1936.

(SEAL) G. W. E. ROSS, Chairman.
GEOFFREY E. HYDE, Secretary.

UPPER MACEDON WATERWORKS TRUST.

RATING BY-LAW FOR THE YEAR 1937.

THE Upper Macedon Waterworks Trust, in pursuance and exercise of the powers conferred by the *Water Act 1928*, doth hereby make a rate for the supply of water for domestic purposes otherwise than by measure of One shilling and ninepence in the pound of the annual municipal valuation of lands and tenements liable to be rated within the Upper Macedon District.

Provided that in no case shall the amount of rate payable per annum in respect of any tenement be less than Twenty shillings.

Such rates are made and shall be levied upon the occupiers or owners of the said lands and tenements for the year commencing the 1st day of January, 1937, and shall be payable on the 1st day of March, 1937, at the office of the said Trust.

For water supplied by the Trust for domestic as well as for other than domestic purposes by measure (except in cases of special agreement with the Trust), the charge shall be Two shillings per 1,000 gallons up to 300,000 gallons, and One shilling and sixpence per 1,000 gallons for water supplied in excess of this amount, and the minimum quantity of water to be charged for in respect of all lands and tenements shall be the quantity for which the charge at the above rates would be equal to the amount of the rate which would be payable for the lands and tenements so supplied if supplied otherwise than by measure. The charges for water supplied by measure shall be payable on demand.

Dated this 8th day of December, 1936.

(SEAL) JOSEPH TAMPLING, Chairman.
A. G. BOWIE, Commissioner.
R. E. RUTHERFORD, Secretary.

TARNAGULLA WATER SUPPLY DISTRICT.

THE Council of the Shire of Bet Bet, in pursuance and exercise of the powers conferred by the *Water Act 1928*, doth hereby make a rate for the supply of water for domestic purposes otherwise than by measure, of One shilling in the pound of the annual municipal valuation of lands and tenements liable to be rated within the Tarnagulla Water Supply District.

Provided that in no case shall the amount of rate payable per annum in respect of any tenement (other than land on which there is no building) be less than Thirty-two shillings and sixpence, and in respect of any land on which there is no building, less than Five shillings.

For water supplied by the Tarnagulla Water Supply for domestic as well as for other than domestic purposes by measure (except in cases of special agreement with the Supply), the minimum quantity of water to be charged for in respect of all lands and tenements shall be the quantity for which the charge at One shilling and threepence per 1,000 gallons would be equal to the amount of the rate which would be payable for the lands and tenements so supplied if supplied otherwise than by measure. All water supplied by measure by the Tarnagulla Water Supply in excess of such aforesaid quantity shall be charged for at the rate of One shilling and threepence per 1,000 gallons. The charges for water supplied by measure shall be payable on demand.

Such rates are made and shall be levied upon the occupiers or owners of the said lands and tenements for the year commencing the 1st day of January, 1937, and shall be payable on the 1st day of January, 1937, at the office of the said Supply District.

Passed this 25th day of November, 1936.

NOTICE TO MARINERS.—VICTORIA.

[No. 15 of 1936.]

THE following Notice to Mariners, which has been received from the Harbor Master, Geelong, is published for general information.

A. D. MACKENZIE,
 Port Officer.

Ports and Harbors Branch, Department of Public Works, Melbourne, 16th December, 1936.

THE GEELONG HARBOR TRUST COMMISSIONERS.

NOTICE TO MARINERS.

Port of Geelong.

Masters, pilots, and others are hereby notified that on or about the 16th of December, 1936 (in connexion with dredging operations to be commenced shortly), two spar buoys, painted red, and surmounted by a staff and flag, will be placed in the following positions:—

- (a) 450 feet 239° from No. 3 Buoy, Point Richards Channel, Geelong Outer Harbor.
- (b) 2,450 feet 239° from No. 3 Buoy, Point Richards Channel, Geelong Outer Harbor.

These spar buoys will be unlighted, and will be in line with Nos. 1 and 3 light buoys, Point Richards Channel.

 Harbor Master.

Geelong, 15th December, 1936.

NOTICE TO MARINERS.—VICTORIA.

[No. 16 of 1936.]

THE following Notice to Mariners, which has been received from the Harbor Master, Geelong, is published for general information.

A. D. MACKENZIE,
 Port Officer.

Ports and Harbors Branch, Department of Public Works, Melbourne, 18th December, 1936.

THE GEELONG HARBOR TRUST COMMISSIONERS.

NOTICE TO MARINERS.

Port of Geelong.

Masters and Pilots are notified that on or about the 19th of December, 1936, No. 3 Buoy, Point Richards Channel, Geelong Outer Harbor, will be moved to a position, 1,250 feet 131° from its present position.

The lights on Nos. 1 and 3 (Point Richard) Buoys will be changed as follows:—

- No. 1 Buoy from Red to White.
- No. 3 Buoy from Red to Green.

All other characteristics of these lights will remain unchanged.

Also—two Spar Buoys, surmounted by a staff and flag and unlighted, will be placed in the following positions:—

- 660 feet 286°, and 2,500 feet 250°, from present position of No. 3 Buoy.

These two Spar Buoys will be 300 feet 329° respectively from the two Spar Buoys already established.

In order to avoid these unlighted Buoys, and also the dredge now working in Point Richards Channel, persons in charge of vessels entering Geelong should, when approaching No. 1 Buoy, alter course to pass S.E. of same and then steer 229° to pass S.E. of No. 3 Buoy. A course may then be shaped for Wilson's Spit Light Beacon. There is not less than 26 feet of water L.W.O.S.T. for a width of 600 feet south eastward of the new line of buoys.

ORDER APPROVING OF A DEVIATION FROM A MAIN ROAD IN THE SHIRE OF MILDURA.

WHEREAS the Country Roads Board constituted under the *Country Roads Act 1928* (No. 3662) has represented to His Excellency the Governor in Council that it appears to it desirable that the deviation hereinafter referred to from the existing Wentworth-road in the Shire of Mildura (declared to be a main road under the said Act which declaration was confirmed by the Order in Council published in the *Government Gazette* of the 24th March, 1915, on page 1100) should be made by the said Board: And whereas the said Board in accordance with the requirements of section 19 of the said cited Act has caused to be prepared a map plan and estimate showing the points between which and on and through what land the said deviation is proposed to be made and the cost of acquiring the land and constructing the said deviation: And whereas on an inspection of the said map and plan and a consideration of the said estimate His Excellency the Governor in Council is satisfied that there are funds legally available for acquiring the land and constructing the said deviation: Now therefore be it known by this present Order that His Excellency the Governor of the State of Victoria with the advice of the Executive Council thereof doth hereby approve of the said road being made, that is to say:—

All that piece of land in the Parish of Mildura, the boundaries of which are as follow:—Commencing at the northern angle of allotment 48, section A, of the said parish; thence by lines bearing respectively 59 deg. 58 min. 64 links, 70 deg. 25 min. 39.5 links, 78 deg. 31 min. 152.5 links, 249 deg. 58 min. 320.5 links, and 59 deg. 58 min. 68 links to the point of commencement—which said piece of land is particularly delineated and shown coloured red on survey plan numbered 3556 lodged in the office of the Country Roads Board.

DECLARATION OF A MAIN ROAD IN THE SHIRE OF MOUNT ROUSE.

WHEREAS by the Resolution set out below and dated the fifteenth day of December, One thousand nine hundred and thirty-six, the Country Roads Board incorporated under the *Country Roads Act 1928* (No. 3662) being of opinion that the highway in the State of Victoria set out or described in the Schedule to the same is of sufficient importance to be a main road and acting under the powers in that behalf conferred upon it by the said Act declared such highway to be a main road within the meaning and for the purposes of the Act aforesaid: And whereas the said Act amongst other things provides that the Governor in Council may by Order published in the *Government Gazette* confirm such Resolution whereupon any road mentioned in such Resolution shall be a main road: And whereas it is deemed desirable to confirm the Resolution so made and passed by the said Country Roads Board: Now therefore His Excellency the Governor of the State of Victoria by and with the advice of the Executive Council thereof doth hereby confirm such Resolution and declare upon the publication of this Order in the *Government Gazette* the road mentioned in the Schedule to such Resolution of the Country Roads Board a main road within the meaning and for the purposes of the *Country Roads Act 1928*.

Resolution for Declaration of a Main Road under the Country Roads Act.

The Country Roads Board incorporated under the *Country Roads Act 1928* (No. 3662) at a meeting now holden being of opinion that the highway within the State of Victoria set out or described in the Schedule hereunder written is of sufficient importance to be a main road, acting under the powers in that behalf conferred upon it by the said Act doth by this Resolution hereby declare such highway to be a main road within the meaning and for the purposes of the said *Country Roads Act 1928*.

SCHEDULE.

REGULATIONS.

UNDER the powers conferred by the *Seeds Act 1935* (No. 4294) to make Regulations for or with respect to the carrying out of Victorian seed certification schemes, including the conditions under which certificates in accordance with such schemes may be granted, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council of the said State, doth order as follows:—

1. In these Regulations—

“Officer” means officer of the Department of Agriculture authorized in writing by the Minister, whether generally or in any particular case, and includes a botanist of such Department so authorized.

2. Every applicant for certification under the Victorian seed certification scheme in respect of the strain of seeds grown by him shall—

(a) Make an application to the Director of Agriculture on or before a date fixed by him in each year; such application to be in or to the effect of Form A contained in the first schedule to these Regulations, and to be accompanied by a fee of £1 1s.

(b) Permit an officer to enter at any time the area on which are growing the plants from which the applicant proposes to harvest the seed which is the subject of the application for certification, inspect such plants, and collect samples of seed from them.

3. (1) If, as a result of such inspection and of such field or other tests of the seed so collected, as he in his discretion considers necessary, a botanist of the Department of Agriculture is of the opinion—

(a) that the plants from which it is proposed to harvest the seed which is the subject of the application for certification conform to a specific type, and possess desirable distinctive physiological characters which are manifest in field trials;

(b) that the seed transmits such characters;

(c) that the area and the plants growing therein are in all other respect suitable for the production of such seed, the area may be approved by the Director of Agriculture as suitable for the production of certified seed.

The approval of the Director of Agriculture shall, unless cancelled in the meantime, pursuant to clause 8 hereof, remain in force for a period of twelve months from the date of registration of such approval.

3. (2) For the purposes of these Regulations, the Director of Agriculture shall cause a register to be kept of areas approved of pursuant to sub-clause (1) hereof.

4. Seed produced from an approved area may be certified as to strain under Victorian seed certification schemes provided—

(a) that the applicant makes a declaration in or to the effect of Form B contained in the first schedule to these Regulations;

(b) that harvesting, threshing, cleaning, and other operations which may take place in the preparation of the seed for sale have been supervised by an officer at a place approved by him, and that the said operations have been completed to his satisfaction;

(c) that the said officer is satisfied that the seed is solely the product of the approved area;

(d) that the appropriate fee prescribed in the second schedule to these Regulations in respect of such seed has been paid to the Director of Agriculture.

5. If the foregoing conditions have been complied with an officer may certify the strain of the seed by inserting in each parcel a certificate in or to the effect of Form C contained in the first schedule to these Regulations, and by affixing to each parcel thereof a tin seal coloured red, and bearing thereon the words “Department of Agriculture, Victoria,” which shall securely fasten to the said parcel a certificate in or to the effect of Form C contained in the first schedule to these Regulations.

If the conditions set out in clause 4 of these Regulations have been complied with, and a botanist of the Department of Agriculture is satisfied that the seed is the produce of a sward

which is at least five years old, and which possesses superior qualities in respect of stability of type, he may certify it by inserting in each parcel a certificate in or to the effect of Form D contained in the schedule to these Regulations, and by affixing to each parcel thereof a tin seal coloured blue, and bearing thereon the words “Department of Agriculture,” which shall securely fasten to the said parcel a certificate in or to the effect of Form D contained in the first schedule to these Regulations.

Any person, other than an officer, who affixes such seal or a seal of a like nature to any parcel of seed shall be guilty of an offence against these Regulations, and shall be liable on conviction to a penalty of not more than £10.

6. If an officer is of opinion that any seed should be re-cleaned or tested in such a manner as a botanist of the Department of Agriculture may, in his discretion, determine before it is certified in accordance with these Regulations, he may on payment by the applicant to the Director of Agriculture of the appropriate fee prescribed in the third schedule to these Regulations, insert in each parcel a label in or to the effect of Form E contained in the first schedule to the Regulations, and seal each parcel by affixing thereto a suitable lead seal which shall securely fasten to the said parcel a label in or to the effect of Form E contained in the first schedule to these Regulations.

If, when the seed is re-cleaned or tested, as aforesaid, an officer is of opinion that the seed is suitable for certification, he may, on payment by the applicant to the Director of Agriculture of the appropriate fee prescribed in the fourth schedule to these Regulations, certify to it in the manner set forth in clause 5 of these Regulations.

7. For the purposes of section 6. (3) of the *Seeds Act 1935*, a parcel of seed shall be sealed in accordance with clause 5 of these Regulations, and such a parcel shall be deemed sealed only while it is unopened and the seal and certificate remain unbroken and intact.

8. If, upon due and reasonable inquiry, the Director of Agriculture is satisfied that the approval of any area or any certificate relating to the seed produced therefrom should be withheld, withdrawn, or cancelled, he may withhold, withdraw, or cancel such approval or certificate.

9. Nothing in any certificate issued or made in accordance with these Regulations shall relieve the vendor of any seed from compliance with the provisions of the *Seeds Acts* or of any Regulations made thereunder.

10. The standard sizes for parcel of seeds for sale or offered for sale as certified or certificated as to strain shall be as follows:—

Seed.	Capacity of Parcel.	Size of Parcel.
	Net Weight.	
(I) Victorian perennial rye grass ..	60 lb.	
(II) Victorian phalaris tuberosa ..	10 lb.	
(III) Tallarook subterranean clover ..	14 lb.

SEVERANCE OF AREA FROM THE SHIRE OF SWAN HILL AND ANNEXATION TO THE SHIRE OF WYCHEPROOF.

At the Executive Council Chamber, Melbourne, the twenty-first day of December, 1936.

PRESENT:

His Excellency the Governor of Victoria.

Mr. Hogan
Mr. Lind

Mr. Bailey

WHEREAS by the *Local Government Act 1928* (No. 3720), and the *Local Government Act 1934* (No. 4279), it is enacted that the Governor in Council may, from time to time, make Orders exercising certain powers therein set forth, amongst others to sever any portion of Victoria forming part of a municipal district from such municipal district and annex the same to any other municipal district with which the portion so severed forms one continuous area, and that every such Order shall be published in the *Government Gazette* and shall take effect as from the day of such publication: And whereas the powers conferred upon the Governor by the said Acts are now exercised upon a petition signed by a majority of ratepayers of a portion of the Shire of Swan Hill with regard to a certain area therein described, notices of such petition having been duly published and consideration pursuant to section 11 of the *Local Government Act 1934* (No. 4279): Now, therefore, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, and in compliance with the prayer of the said petition, doth by this present Order sever from the said Shire of Swan Hill a certain area therein described, being part of the North, South and West Ridings, and doth annex the portion so severed to the Tyrrell Riding of the Shire of Wycheproof, and doth redefine the boundaries of the said Shire of Swan Hill and its North, South and West Ridings as reduced, and of the said Shire of Wycheproof with its Tyrrell Riding as enlarged in the manner hereafter set forth and described:—

REGULATIONS FOR THE CARE, PROTECTION AND MANAGEMENT OF THE BUNGAREE RECREATION RESERVE.

WHEREAS by the 181st section of the *Land Act 1925*, power is given to the Board of Land and Works to make Rules and Regulations and to rescind any Rules and Regulations for the care, protection and management of all public parks and reserves not conveyed to and vested in trustees and for the preservation of good order and decency therein and also for the collection and receipt of tolls, entrance fees and other charges for entering therein or thereupon: Now therefore the Board of Land and Works in pursuance of the powers conferred as aforesaid doth hereby make the following Regulations in respect of the land temporarily reserved by Order in Council of the 22nd June, 1885, as a site for public recreation in the Parish of Bungaree, and known as Bungaree Recreation Reserve, in lieu of all previous Regulations, which are hereby rescinded.

REGULATIONS.

1. The Reserve shall be open to the public from sunrise to sunset free of charge excepting on such days as the Reserve may be set apart for horse-racing, fêtes, cricket or football

matches, sports or holiday amusements, on any of which occasions a sum not exceeding Two shillings and sixpence may be charged and taken for the admission of every adult to the Reserve and a further sum not exceeding Eight shillings and sixpence may be charged and taken for the admission of every adult on those days on which the Reserve is set apart for horse-racing.

2. No person shall enter or remain in the Reserve who may offend against decency as regards dress, language or conduct.

3. No person shall damage in any way the trees, shrubs, or flowers in the Reserve, nor shall fires be lighted therein.

4. No person shall climb or jump over the gates or fences in or around the Reserve, stick bills thereon, or cut names on, or in any way damage or injure any of the buildings, gates, fences, seats or trees in the Reserve; nor leave or deposit any glass, paper or rubbish; nor roll or throw stones or any missiles of any kind therein.

5. No person shall put in the Reserve any cattle, horses, sheep, goats, pigs or other animals without the permission, in writing, of the Committee of Management first obtained. Provided always that the moneys received for agistment shall be expended in the maintenance and improvement of the Reserve, and that an account thereof shall be furnished annually to the Board of Land and Works.

6. The Committee of Management shall have full power and authority to impound any cattle found trespassing on the Reserve and shall be taken to be the occupier of the Reserve (with all power incidental to that status) within the meaning of any law for the time being in force relating to the impounding of cattle. Further, for the purposes of this clause, "cattle" shall mean cattle as interpreted by section 3 of the *Pounds Act 1928*.

7. No person shall bring into the Reserve any dog, unless controlled by a chain or cord, without the permission, in writing, of the Committee of Management first obtained.

8. No person shall camp in the Reserve nor erect therein any structure or any booth for the purpose of offering for sale any article without the permission, in writing, of the Committee of Management first obtained.

9. No person shall take part in any public entertainment of any sort in the Reserve without permission, in writing, of the Committee of Management first obtained.

10. No person shall spit or expectorate on the paths or on any structure or erection in the Reserve.

11. No person shall play, practise, or engage in any organized game or sport within the Reserve without the permission of the Committee of Management, in writing, being given.

12. The Committee of Management may set apart any portion of the Reserve for the purpose of any lawful game or sports and from time to time grant to any club or association of clubs, upon such terms and conditions as it may deem to be consistent with these Regulations, the use of the grounds so set apart.

13. Persons renting or hiring any stand, building, erection or enclosure on the occasion of any fêtes, sports or holiday amusements may be required to deposit any sum which the Committee of Management may at any time determine, not exceeding Ten pounds, by way of guarantee that due care shall be taken of such stand, building, erection or enclosure or anything contained therein, during such occupancy or hiring, and deduct the cost of making good such loss or damage from the sum of money deposited by way of guarantee, and all persons so renting or hiring shall abide by these Regulations, and by any order given by the Committee of Management.

14. No persons except labourers and workmen employed in the Reserve shall enter any plots therein which may be enclosed for plantations of young trees or shrubs.

The Reserve has been placed under the control of a Committee of Management with power and authority to enforce the foregoing Regulations.

Every person offending against these Regulations shall, in accordance with the provisions of section 181 of the *Land Act 1925*, for each offence be liable to a penalty of not more than Five pounds (£5), and every person who knowingly and wilfully offends against any such Regulations, and who, after he has been warned by any bailiff of Crown lands or by any member of the Police Force, does not desist from so offending, may be forthwith apprehended by such bailiff or member of the Police Force and taken before some justice to be dealt with according to law, and shall be liable to a penalty of not more than Ten pounds (£10).

The common seal of the Board of Land and Works was hereunto affixed this 18th day of December, 1936, in the presence of—

Tenders to be addressed to the Honorable the Commissioner of Public Works, and envelope containing tender marked "Tender for _____, due _____"

GEO. L. GOUDIE,
Commissioner of Public Works.

Melbourne, 23rd December, 1936.

TENDERS FOR THE SERVICE 1936-37-38, ETC.

TENDERS will be received until Eleven o'clock a.m. on Friday, 15th January, 1937, from persons willing to supply the undermentioned goods, in such quantities as may be ordered by the Victorian Government for the twelve months commencing on 1st February, 1937:—

Schedule No.	Preliminary Deposit.
56. Motor Spirit and Kerosene	3

The prices tendered must not include sales tax.

Security.—Five per cent. of total amount of tender accepted, except when otherwise specified in the tender form, but in no case will security of less than £3 be received.

Schedule as above, with full particulars, may be obtained from the Secretary to the Tender Board, by whom any information will be afforded tenderers.

In all cases the total cost of each item must be extended in the columns provided.

Tenders must be accompanied by the preliminary deposit, as shown above, by bank draft or marked cheque, in favour of the Secretary to the Tender Board. Cheques, Savings Bank deposit books, fixed deposit receipts, Commonwealth Treasury bonds, or reference to securities on existing contracts will in no case be received or entertained as preliminary deposits. Preliminary deposits will be returned within ten days to unsuccessful tenderers on their application.

The amount of the preliminary deposit required with each tender must be enclosed and the amount must be clearly written in and the designation stated, whether marked cheque or bank draft, as the case may be.

Security will be required, either in Bank Guarantee (Bank to be approved by the Tender Board), Commonwealth Treasury bonds, Savings Bank deposit book or fixed deposit receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

In the event of tenderers withdrawing or attempting to withdraw their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender. It is also stipulated that if a tenderer be a member of a firm and such firm be interested in the contract, then the tender is to be in the name of the firm and not in that of the individual; and that for a breach of this condition the preliminary deposit will be forfeited and the tender declared informal.

Tenders, enclosed in a separate envelope, and having the words "Tender for ———" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne, C.2, or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Pay Office, Treasury, Melbourne, C.2, which office they must reach not later than by first post on the date of closing of tenders.

The conditions of contract are those published in the *Victoria Government Gazette* of 11th March, 1936, pages 707 and 708.

A. A. DUNSTAN,
Treasurer.

CITY OF CAMBERWELL.

TAKE NOTICE.—1. The Council of the City of Camberwell, being of opinion that it is desirable to open two new streets off Graham-street, Surrey Hills, within the municipal district of the City of Camberwell, to be known as "North Court" and "South Court," and that in addition to purchasing or compulsorily taking the land required for the purposes of opening such roads it is also desirable that other land situated in the neighbourhood though not actually required for those purposes should also be purchased or compulsorily taken, has passed a Resolution to that effect, and has caused to be prepared a scheme and plans as required by section 592 of the *Local Government Act 1928*. It is proposed to close Caroline-street and William-street and a road (unnamed), twenty feet wide, running between Caroline-street and Graham-street, and to purchase or compulsorily take the lands described and defined in the said scheme and bounded by Riversdale-road, Caroline-street, Allie-street, and Graham-street, and to re-subdivide the lands so purchased or compulsorily taken, also the roads closed as aforesaid, in the manner set out in the plan annexed to the said scheme, and to sell the same in manner prescribed by the said Act.

2. A copy of the scheme is deposited at the Office of the Town Hall, Camberwell, for inspection during office hours by any person, free of charge.

3. All persons affected by the scheme are requested to set forth, in writing, addressed to the Town Clerk, within forty days from the publication of this notice in the *Government Gazette*, all objections which they may have to the scheme.

4. At the meeting of the Council, to be held at the Town Hall, Camberwell, at 7.30 p.m. on the fifteenth day of February, 1937, the Council will consider any objections to the scheme.

Dated the twenty-second day of December, 1936.

R. M. C. AITCHISON, Town Clerk.

Percy J. Russell and Kennedy, of 430 Chancery-lane, Melbourne, solicitors for the said Council. 8063
