THE STATE TREASURY.

NOTICE TO CLERKS OF COURTS AND OTHER ISSUERS OF MINER'S RIGHTS.

UNDER the provisions of the *Land (Residence Areas) Act 1935*, which came into operation on 20th January, 1936, the control of all residence areas now held under the Mines Act is transferred to the Lands Department.

As all registrations of existing residence areas will, under the Act, expire on the next anniversary, after 20th January, 1936, of the date of registration, Clerks of Courts and Issuers of Miner's Rights are requested to note that no further Miner's Rights should be issued to persons applying for a Miner's Right for the purpose of continuing to hold an existing residence area or to register a new residence area. Persons making such applications should be referred to the District Land Officer, who will supply all necessary information as to the steps required to be taken by them to obtain a right to occupy under the new legislation.

The Mines Act, as amended by the Land (Residence Areas) Act, now enables a Miner's Right to be obtained for mining purposes only, and not also for the purposes of residence.

In regard to Miner's Right forms at present held by issuers, the endorsements provided thereon to enable mining registrars to enter particulars of residence areas should be struck out before rights are issued.

No. (2) of the privileges conferred by a Miner's Right, as at present endorsed on the rights, should also be deleted.

H. A. PITT,
Director of Finance.

DEPARTMENT OF LAW.

Melbourne and Metropolitan Board of Works.

By-Law No. 34.

WATER SUPPLY

The Melbourne and Metropolitan Board of Works (hereinafter called "the Board") pursuant to, and in exercise and execution of, the powers and authorities conferred on such Board by the Melbourne and Metropolitan Board of Works Acts, hereinafter shortly referred to as the Board's Acts, and in exercise and execution of any powers and authorities in anywise enabling the said Board in that behalf, doth hereby make the By-law following:—

1. By-laws No. 20, No. 27, and No. 33, are hereby revoked as from the date of the coming into operation of this By-law, but nothing herein contained shall affect the validity or enforcement of any rate or charge made before the coming into operation of this By-law, and every such rate or charge shall be levied and the payment thereof enforced as if this By-law had not been made; and nothing herein contained shall relieve, discharge, or absolve any person from liability to pay any rate or charge made in accordance with the provisions of the said By-laws, or abrogate or alter the power of the Board to recover and enforce payment of any such rate or charge; or withdraw any permission given, or cancel any licence granted by or on behalf of the Board; or annul or stay any proceedings taken, prosecution commenced, or business initiated as in conformity with the provisions of the said By-laws prior to the date of this By-law coming into operation; but the same respectively may be continued and carried to completion, and all offences against any provision of the said By-laws committed before the date of this By-law coming into operation may be prosecuted for and punished as if this By-law had not been made and passed.

HEADINGS AND MARGINAL NOTES.

2. The headings of this By-law shall be deemed to be part thereof but the marginal notes shall not be deemed to be part of this By-law.

INTERPRETATION.

3. In the construction of this By-law, the meaning which in the Board's Acts is assigned to any word shall be the meaning of the same word where occurring in this By-law, unless inconsistent with the subject matter or context.

"Secretary of the Board" means the Board's Secretary for the time being or the Acting Secretary of the Board for the time being and shall also mean and include any other Officer or person appointed by the Board for the purpose of discharging the duties and exercising the powers of the Secretary under this By-law.

"Engineer of Water Supply" means the Board's Engineer of Water Supply for the time being or the Acting Engineer of Water Supply of the Board for the time being and shall also mean and include any other officer or person appointed by the Board for the purpose of discharging the duties and exercising the powers of the Engineer of Water Supply under this By-law.

"Licensed plumber" means a plumber duly licensed by the Board.

WATER RATE.

4. The rate per annum to be paid for the several lands and tenements within the Metropolis or any extension thereof in terms of the Board's Acts to be supplied otherwise than by measure with water for domestic purposes on and after the first day of July, 1935, is hereby made and determined as follows, that is to say:—

For all such lands and tenements a rate of Sevenpence in the Pound of the valuation of such lands and tenements.

Provided that where a rate of Sevenpence in the Pound of such valuation would amount to less than Ten shillings per annum the sum of Ten shillings per annum is fixed as the amount of rate to be paid in respect of any such land and tenements.

5. The valuation of the said lands and tenements for the purpose of such water rate shall in every year be the valuation of such lands and tenements during such year or the previous year by the Corporation of the City of Melbourne or the Council of the Municipality in whose Municipal District such lands or tenements are situated; or (if there be no such valuation) the valuation of such lands and tenements by some Police Magistrate.

SUPPLY BY MEASURE.

6. Every owner or occupier of lands and tenements or other persons supplied with or using water for private water troughs, steam boilers, engines, building purposes, brickwork, concrete, masonry, siphons, hydraulic power machines, watering of horses, cattle, or other stock, glass-washing machines, cooling windows, washing or cleaning motor or other vehicles, watering gardens, yards, pathways, or drives, or for any trade, industry, boarding house, or business, shall be supplied by measure.

7. The amounts to be charged for the supply of water by measure shall be as follows:—

(a) To shipping at wharves and piers through fixed meters, at the rate of One shilling and sixpence per 1,000 gallons; but wherever it is necessary for the Board to provide hose or labour for the supply of water the charge shall be at the rate of Three shillings per 1,000 gallons, subject in all cases to the control of the Board as to quantity and time of supply.

(b) For parks and gardens under Municipal control, Ninepence per 1,000 gallons.

(c) In all cases other than the foregoing, water supplied by the Board by measure in the Metropolis shall be charged for at the rate of One shilling per 1,000 gallons.

8. The Board may by notice in writing direct any person—

(a) being a consumer supplied with water whether for domestic purposes solely or not;

(b) supplied with or desiring to be supplied with water;

(c) whose premises are directly or indirectly connected with the mains or pipes of the Board, or are about to be so connected—

to be supplied by measure, and to fix a meter in a position or place to be approved of by the Engineer of Water Supply or a supervising officer of the Board to register the quantity of water so supplied.

9. Any person so directed who shall not within fourteen days after service of such notice duly and properly fix a meter shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds, and in case of a continuing offence to a further penalty not exceeding One pound for each day after notice of the offence from the Board.

MINIMUM METER CHARGE.

10. (a) The minimum quantity of water to be charged for by measure where water is supplied to any lands and tenements by measure shall be the quantity

which at One shilling per thousand gallons would produce an amount equal to the amount of the water rate which under the Board's Acts and By-laws would be payable for the said lands and tenements if so supplied otherwise than by measure.

(b) Save as aforesaid, in every case where the supply is by measure the minimum charge shall be One pound per annum.

SPECIAL RATES AND CHARGES.

11. Notwithstanding anything contained in Clause 6 hereof, the Board may grant special supplies of water according to the following terms and charges, which said charges shall be payable in advance, viz:—

- (i) To private water troughs, at the rate of Forty shillings per annum each. Troughs of such materials, form, and construction as are approved by the Board, and erected in any public highway with the consent of the Council of the Municipal District, shall not be deemed to be private troughs.
- (ii) For the making and mixing of concrete, and for masonry and brickwork, and for water bound macadam, at the rate of One penny per cubic yard of such materials as measured in the work.
- (iii) For general building purposes, at the following charges, viz., at the rate of Ninepence in the pound upon the estimated assessable value of the completed building, during (from date of commencement) three months in cases where such value does not exceed Fifty pounds; four months where such value exceeds Fifty pounds and does not exceed One hundred pounds; and six months where such value exceeds One hundred pounds; but for wooden buildings the charge shall be one-half of the foregoing rate. After the termination of each such period to date of completion in each case the charge shall be at the rate of Sevenpence in the pound upon such value.
- (iv) For steam boilers, at the rate of Ten shillings per annum for each horse-power of each such boiler.
- (v) For gas engines, at the rate of Ten shillings per annum for each horse-power of each such engine; or, if the supply is from an approved cistern, Five shillings per annum per horse-power.
- (vi) For plumbers' blasts, at the rate of Twenty shillings each per annum.
- (vii) For horses, at the rate of Ten shillings per annum for each horse, and for cows wholly or partially kept upon the premises, at the rate of Five shillings for each cow.
- (viii) Taps will be allowed to be fixed in a garden not exceeding 100 square yards in area, and hoses allowed to be used therein, on payment of a special rate (in addition to the water rate) of Ten shillings per annum; any garden exceeding 100 square yards in area will be supplied only through meter. The measurement of such area shall include all paths and portions of paved areas within three feet of any cultivated area, and shall include all areas which in the opinion of the Engineer of Water Supply are capable of cultivation.
- (ix) For glass-washing machines, the waste discharge from which is into a portable receptacle, and not connected with the sewers, at the rate of Ten shillings per annum for each machine. Where the waste from the machine is connected with the sewers, the supply must be by measure.

(x) For motor cars or motor vehicles, other than motor cycles, at the rate of One pound per annum for each such motor car or motor vehicle.

(xi) For automatic flushing cisterns—

- (a) A meter shall be fixed and maintained by the owner to record the water used by the cistern, and all water so used and recorded, including waste water, shall be paid for by the owner at One shilling per thousand gallons in addition to the water rate on the property.
- (b) The automatic cistern shall be kept under constant inspection and maintained in proper working order at all times.
- (c) The supply to the automatic cistern shall be shut off at all times except when the urinals or other fittings supplied are actually in use.
- (d) In the event of the Engineer of Water Supply at any time ordering the removal of the automatic cistern and its replacement by a hand operated appliance, such order shall be carried out forthwith.
- (e) An agreement in writing shall first be executed by the owner of the premises containing the said conditions (a), (b), (c), and (d), and such further or other conditions as may be deemed necessary in the circumstances by the Engineer of Water Supply.

12. Supplies of water for purposes not otherwise specified in this By-law must be paid for at such rate as the Board shall in each case determine, and a preliminary payment at such rate must be made at the office of the Board before a supply can be taken or used.

GOVERNMENT BUILDINGS AND CHARITABLE INSTITUTIONS.

13. In all the mains to which any fireplug is fixed the Board will provide and keep constantly laid on, unless prevented by unusual drought or other unavoidable accident or during necessary repairs, a sufficient supply of water without charge for use in houses lands or premises the property of His Majesty, whether unoccupied or used for public purposes, or houses lands or premises in the occupation of the Crown, or of the Government of Victoria, or of the Board of Land and Works, or the Victorian Railways Commissioners, or of the Minister of Public Instruction, and also for supplying any public hospitals or charitable institutions and such public baths and washhouses as are mentioned in Section 94 of the Board's Principal Act, viz., the Melbourne and Metropolitan Board of Works Act 1928, and subject to the terms, conditions, and provisos mentioned in the said Section, provided that such houses, lands, or premises, public hospitals or charitable institutions, or baths or washhouses, are situated within the limits of the Metropolis. But as by the provisions of Section 72 of the Board's Principal Act it is not compulsory upon the Board to supply any water to any person whomsoever, and as the Board is by Section 114 of the said Act authorised and empowered to make by-laws for inter alia preventing the waste or misuse of water supplied by the Board, and it is necessary to guard against and prevent such waste or misuse, and for that purpose to provide that the quantity of water used should in each case be known and recorded, the Board will require in every case that a meter or meters of capacity sufficient to record the quantity of water used be provided and maintained by and at the expense of the owner or managing body of every such house, land, or premises, hospital or charitable institution, or the Municipal Council which establishes such bath or washhouse; otherwise the Board will decline to supply any water thereto.

METERS.

14. (a) No meter shall be affixed until it has been examined, tested, and approved by a duly authorised officer of the Board. Meters must be fitted with dials capable of recording the following:—

- (1) $\frac{3}{4}$ -inch meters at least 1,000,000 gallons;
- (2) Meters greater than $\frac{3}{4}$ -inch at least 10,000,000 gallons.

(b) Every meter must be capable of correctly registering such flow as may be fixed by the Engineer of Water Supply.

(c) Every meter must be fixed and maintained truly level, with connections above ground in an easily accessible position, and properly protected, on a proper foundation of timber, stone, brick, or concrete, within six feet of the building line of the property. Where it is impracticable to place the meter above the surface of the ground, it may be fixed in a pit, properly constructed and drained.

All meters fixed to service of two (2) inches internal diameter and under shall be provided with connections of brass or copper or other material approved of by the Engineer of Water Supply. The method of fixing meters shall be as approved of by the Engineer of Water Supply. All bends used in the fixing of meters shall be left exposed until passed by a supervising officer of the Board.

Washers for meter connection couplings must be of leather or other approved materials.

All matters referred to in this Clause shall be subject to the approval of the Engineer of Water Supply.

(d) Meters must be so fixed as to register the whole of the water supplied to any tenement or premises, except where otherwise allowed by the Engineer of Water Supply.

(e) Every person other than an authorised officer of the Board desiring to remove or alter the position of a meter must make written application for consent of the Board to such removal or alteration, and no such removal or alteration shall be effected until the Board's permission in writing shall have been first given.

Any person who interferes with any water meter or any seal thereon, except with the written consent of the Board, shall be guilty of an offence and shall be liable to a penalty not exceeding Ten pounds.

(f) Work in connection with the fixing, removal, or alteration in position of a meter shall not be done except by a licensed plumber or other person authorised by the Engineer of Water Supply.

15. No person shall place, construct, stack, store, or permit to be placed, constructed, stacked, or stored, any hedge, building, erection, materials, or goods over or upon any meter, or do or permit to be done anything which shall prevent or interfere with the inspection and/or removal of any meter at any time by any officer of the Board. Any person who neglects or refuses, on notice from the Board, to remove any obstruction or impediment to inspection and/or removal of the meter shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds, and in case of a continuing offence to a further penalty not exceeding Two pounds for each day after notice of the offence from the Board.

16. The Board may, by notice in writing,

- (a) order the removal of any meter to an approved position which shall be free from obstruction or impediment to inspection at any time by any officer of the Board;
- (b) order the return, to the Board's Storeyard, Northcote, of any meter hired from the Board;
- (c) specify the size and type of meter or meters to be fixed to measure the quantity of water supplied to any premises;

(d) order any type and size of meter to be fixed in lieu of any other type or size of meter already fixed.

Any alteration, removal, or work to be done under this Clause shall be at the cost of the owner or occupier of the tenement supplied with water, each of whom shall be liable.

Any person who neglects or refuses to comply with such notice or any requirement therein contained shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds, and in case of a continuing offence to a further penalty not exceeding Two pounds for each day after notice of the offence from the Board.

17. The Board may, if it so thinks fit but not otherwise, let for hire water meters, the rent for which shall be at the rate per annum of—

- For $\frac{1}{2}$ -inch meter, five shillings.
- For $\frac{3}{4}$ -inch meter, six shillings.
- For 1 -inch meter, eight shillings.
- For 1 $\frac{1}{4}$ -inch meter, ten shillings and sixpence.
- For 1 $\frac{1}{2}$ -inch meter, fourteen shillings.
- For 2 -inch meter, thirty shillings.

Such rent shall be exclusive of, and in addition to, the amount of rate chargeable for the recorded consumption of water, and shall be due, and must be paid, half-yearly in advance on the First day of the months of January and July in every year, the first payment to date and to be made as from the commencement of the month in the half-year during which the meter is hired.

18. Every meter must be fixed by a licensed plumber on the premises of and at the cost of the owner or hirer at and in the position directed by a supervising officer of the Board.

19. (a) Every hired meter will be kept in repair by and at the cost of the Board, except that the hirer must bear the cost of repair of any external damage to the meter.

(b) Every private meter shall be kept and maintained in proper working condition to the satisfaction of a supervising officer of the Board by and at the cost of the owner.

(c) If any meter in use ceases to register, or is reported as out of repair or registering inaccurately, the Board will estimate and charge for the water consumed during the period such meter is not in working order and until it is repaired and refixed or replaced by another meter (1) by taking an average of the quantity of water used during any period of similar conditions; (2) on the basis of subsequent consumption; or (3) by inserting a check meter on the service pipe and charging upon estimate from the registering thereof.

(d) In the event of a meter having been tested by the Board and having been found to be reliable but to register with a percentage of error, this percentage of error shall be ascertained and fixed by the Engineer of Water Supply, and the Registrar of Meters shall apply the same in the adjustment of the registrations.

(e) In the event of the hirer being dissatisfied with the registering of a hired meter, he may, by notice in writing, require the Board to cause the meter to be removed and tested, and, together with such notice, shall forward a sum of One Pound, which, if the meter is found to register correctly, shall be applied in paying the cost of removing and testing the meter, and the balance, if any, shall be returned to him; but if the meter is found to fail in registration, or is found to register incorrectly, it shall be repaired and replaced, or another meter shall be placed instead of it, at the cost of the Board, and the amount deposited by the hirer shall be returned to him.

In the case of a private meter, the owner must employ at his expense a licensed plumber to remove and submit the meter for test by the Board.

(f) Every private meter removed through being out of order must be repaired, adjusted by a person approved by the Board, and submitted for test and refixed with the least possible delay by a licensed plumber employed for the purpose. For any unnecessary delay in refixing the meter, such licensed plumber shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds or to suspension or cancellation of his licence.

(g) Except where otherwise permitted by the Engineer of Water Supply, provision must be made for testing in position meters of 2-inch size or larger sizes by affixing a stop-cock or valve on the outlet side of the meter, with a stop-cock ferrule between the stop-cock or valve and the meter. No branches are to be taken off between the stop-cock or valve and the meter. The sizes of the stop-cock ferrules must be as follows:—

- For 2-inch and 3-inch meters ¾-inch.
- For 4-inch meters 1-inch.
- For meters larger than 4-inch 1½-inch.

(h) Where with the approval of a supervising officer of the Board a meter is fixed inside a building of two or more floors and the service pipe extends to the floor or floors above the lowest floor, a stop-cock must be fixed in an approved position on the outlet side of the meter.

20. Any person hiring a meter from the Board, who shall leave the premises on which that meter is fixed without having previously given, in writing, at least six days' notice to the Board of his intention to leave the premises, shall be guilty of an offence and shall be liable to a penalty not exceeding Five pounds.

21. Any meter fixed prior to this By-law coming into operation, if to be removed for any purpose whatever, shall be refixed in a manner and position in strict accordance with the provisions of this By-law as relating to meters unless otherwise permitted by the Engineer of Water Supply.

ALLOWANCE FOR SANITARY FLUSHING.

22. Any consumer of water who is supplied with water through a meter or meters and pays for such supply by measure an amount exceeding the sum which would be payable upon the rating of the premises supplied shall, out of any excess, be allowed, so far as such excess will admit thereof, a deduction equal to Ten shillings per annum on account of each closet pan on such premises the supply of water for the flushing whereof passes through, and is recorded by, such meter or meters; provided that the deduction hereby allowed to any such consumer shall not exceed One pound per annum in respect of such premises; provided further that such allowance or deduction shall only be made in respect of those premises which are separately supplied from a water main.

CONNECTIONS WITH NEW MAINS.

23. When a main for the supply of water has been laid by the Board in any street or part thereof and any tenement abutting on such street or part thereof is being supplied directly or indirectly with water from some other main of the Board laid in a street or part of a street on which the said tenement does not abut, if in the opinion of the Engineer of Water Supply (certified in writing) it is necessary in order to maintain the purity of the water supply that the owners of tenements which abut on the streets or parts of the streets shall connect the service pipes to their respective tenements with a new main laid in the street or part of a street on which they abut, the Board may require and order any owner of any such tenement within two months after the date of the service on him of a Notice from the Board signed by the Secretary of the Board to lay down or cause to be laid down a proper pipe and stop-cocks so as to convey a supply of water

within such tenement from the new main laid by the Board in the street or part thereof upon which the said tenement abuts and to disconnect and plug such other pipe supplying the tenement as aforesaid and the Board may also in such Notice require and order any such owner to plug the main to which such other pipe is attached.

Every person who fails to comply with such Notice or is otherwise guilty of any breach of this Clause (No. 23) shall be guilty of an offence and shall be liable for each such offence to a penalty not exceeding £5 and in the case of a continuing offence to a further penalty not exceeding £1 for each day after Notice of the offence from the Board.

TAPINGS AND SERVICES.

24. (a) All work, connections, fittings, apparatus, and material in connection with the supply of water from the mains of the Board must be in strict accordance with the provisions of this By-law; and where any service existing at the time of the coming into operation of this By-law and supplying water from the mains of the Board or any fitting or apparatus connected therewith is not in accordance with the provisions of this By-law, all renewals, alterations, or replacements thereof or thereto must be effected in strict accordance with the provisions of this By-law.

(b) All services inside the building line shall be of copper, brass, lead, or galvanised iron piping, or other materials approved of by the Engineer of Water Supply. Between the main and the building line, or, where a meter is fixed, between the main and the meter, new services with a diameter of two (2) inches and under must be laid in either copper or brass piping or other materials approved by the Engineer of Water Supply.

All services must be provided with insulating couplings approved of by the Engineer of Water Supply. One of such couplings must be fixed at the main ferrule stop-cock (this requirement not being necessary when the main is of non-metallic type), and one other insulating coupling must be fixed on every pipe where it crosses the building line, but where a meter is to be installed the coupling must be fixed at the outlet end of the meter connections instead of at the building line. No variation of this Clause (b) will be permitted without the written consent of the Engineer of Water Supply.

(c) Ordinary connections with sub-mains must be made with main ferrule stop-cocks and right-angled bends of copper alloy as approved of by the Engineer of Water Supply.

One service pipe only for domestic supply to each tenement will be permitted. For tenements rated on a valuation of Twenty pounds per annum or under the bore of such service pipe must not exceed ¾-inch; and for tenements on a valuation of over Twenty pounds per annum the bore of such service pipe must not exceed 1-inch, unless permission for a larger service has been granted in writing by the Board, and unless the supply is taken through a meter; and no such larger service shall exceed 1-inch in diameter unless the average number of persons residing in the tenement is more than twenty-five, or the tenement is rated on a valuation of not less than One hundred and fifty pounds per annum, nor shall it exceed 1½-inch in diameter unless the average number of persons residing in the tenement is more than one hundred or the tenement is rated on a valuation of not less than Two hundred and fifty pounds per annum.

(d) The maximum tapping that will be allowed without clip for each size of cast iron mains is as follows:—

- For 3 in. and 4 in. pipes ¾ inch tapping.
- For 5 in., 6 in., and 7 in. pipes 1 inch tapping.
- For 8 in. pipes 1½ inch tapping.
- For 9 in. pipes 1½ inch tapping.
- Over 9 in. pipes 2 inch tapping.

For tappings on all cast iron pipes where it is necessary to use clips and on all mild steel pipes, whether tappings are made under pressure or not, owners shall supply the requisite clips, at their own cost, in the form and to the dimensions approved of by the Engineer of Water Supply. For all tappings on non-metallic pipes, where clips are required, clips will be supplied and fixed by and at the cost of the Board.

(e) A branch must be inserted for all connections of 2-inch diameter or over to mains of 5-inch diameter or under and for all connections of 3-inch diameter or over to mains of 6-inch diameter or over.

Except where otherwise approved of by the Engineer of Water Supply, the insertion of branches and valves for private service pipes will be made by the Board provided the charges fixed for the same are paid in advance, and subject to conditions required by the Board.

(f) Tapping or plugging of mains of the Board and alterations or repairs to main ferrule stop-cocks in respect of services of 1-inch diameter and under must be made under pressure by an officer of the Board in every case unless otherwise ordered or permitted by the Engineer of Water Supply.

(g) Any person giving notice of his desire to lay a pipe to connect with and tap the mains of the Board shall provide for and be at the cost of all labour and material necessary for such connection, and for the restoration of the ground to the satisfaction of the local municipal authority, and be liable for the consequences of failure in so doing, and shall pay in advance to the Board the expense of such tapping at such rate as shall from time to time be prescribed by the Board.

25. All rates and charges must be paid in advance at the Board's Rate Office and receipts presented at the office of the Engineer for Maintenance before any arrangements are made for the tapping to be carried out.

If it becomes necessary to shut off a main 9-inch diameter or over to repair, remove, or replace any tapping, such special fee as shall from time to time be fixed by the Board shall be paid to cover the expense of such shutting off.

26. A high-pressure screw-down stop-cock properly secured must be fixed on each water service in one of the following positions:—

(a) between the main and the street alignment as approved of by the Engineer of Water Supply; the stop-cock must be covered with a box which must comply with the requirements of the Municipality in which the service is laid;

(b) where a meter is fixed, between the meter and the inlet bend thereto as approved of by the Engineer of Water Supply;

(c) where a meter is not fixed, on the service pipe above the ground in an accessible position not more than six feet from the building line.

If the said stop-cock be fixed either between the inlet bends of the meter or on the service pipe inside the street alignment, the owner shall, if required by the Board, and upon receiving notice, immediately fix an additional stop-tap and cover on the water service between the main and the street alignment.

27. Where mains are under wood blocks, concrete, or other special pavements, an approved iron box must be fixed over the stop-cock ferrule in the main.

28. Except where otherwise permitted by the Board, every stop-cock and stop-cock ferrule must be opposite the tenement supplied, and in one line at right angles to the main in which such stop-cock ferrule is fixed.

29. Every service which does not enter the building line of the tenement supplied opposite to the point on the main to which such service is connected must be provided with two high-pressure screw-down stop-cocks with approved cast iron covers, one of which must be

fixed opposite the stop-cock ferrule on the main, and the other in accordance with the provisions of Clause 26 of this By-law.

30. All services not provided with stop-cocks or valves having approved reflux action must have fitted to every such service separate approved reflux valves to prevent the return of water to the Board's mains. Such reflux valves must be fixed in accessible positions inside the building line where directed by the Engineer of Water Supply, and be maintained in proper working condition to his satisfaction.

Where two or more services supplying any premises are connected together, provision must be made for testing the working of the reflux or check valves in position by affixing $\frac{1}{2}$ -inch stop-cock ferrules or bib-cocks on the connected service pipes in one of the following positions:—

(a) Where meters are fixed, between the reflux valves and outlet side of meters;

(b) Where meters are not fixed, between the stop-cock or valve in the thoroughfare and the street alignment, or otherwise in a position to be approved of by the Engineer of Water Supply. The $\frac{1}{2}$ -inch stop-cock for testing must, where in the thoroughfare, be covered with an approved cast iron box.

31. All joints connecting lead pipes must be "wiped" joints, and in no case will "bolt" or "copper bit" or "blown" joints be allowed.

All connections between lead and other pipes must be effected with brass union couplings connected to lead pipes by wiped joints. Copper pipes must be connected either with screwed joints and approved copper alloy fittings or with approved compression joints.

Any licensed plumber who by himself or his employee commits a breach of this clause shall be guilty of an offence, and shall be liable to have his licence suspended or cancelled.

32. (a) Except with the permission in writing of the Board, not more than one tenement shall be supplied from a single water service.

(b) The Board may, if it thinks fit, give permission to arrange in special cases that the water supply to more than one tenement may pass from the water main into a single pipe (herein called a "trunk service") which must be laid in a street and have branch piping to each tenement, and on each branch there must be a stop-cock fixed in a public thoroughfare, but in no case shall branches be fixed in excess of the number or of the diameter set forth in the subjoined table, namely:—

| Diameter of Trunk Service | No. of 1-in. Branches only | No. of 2-in. Branches only | No. of $\frac{1}{2}$ -in. Branches only |
|---------------------------|----------------------------|----------------------------|---|
| $\frac{3}{4}$ -in. | — | — | 2 |
| 1-in. | — | 2 | or 5 |
| $1\frac{1}{4}$ -in. | 2 | or 4 | or 10 |
| $1\frac{1}{2}$ -in. | 3 | or 6 | or 15 |
| 2-in. | 6 | or 12 | or 30 |

(c) Materials for trunk services must be either of copper or brass or other materials approved of by the Engineer of Water Supply. Special written application must be made and consent of the Engineer of Water Supply given for any deviation from the foregoing provision desired for temporary trunk services.

(d) No extension of a private service pipe will be allowed except by consent in writing of the Engineer of Water Supply.

(e) Where, at the time of this By-law coming into operation, more tenements than one are supplied from one and the same service, the Board may assent to the extension of piping from the water closet of one tenement to the water closet of another tenement, provided that the water supply to each water closet is controlled by a separate stop-cock. But when and so soon as any tenement so supplied with water by an extension of piping has for itself a separate supply of

water for general purposes the extended piping for supply of water to the water closet at that tenement must be disconnected and the water closet must be connected with the pipe affording the separate supply of water.

(f) In any thoroughfare every service pipe must be laid at a depth of not less than one foot from the surface so as to ensure freedom from damage as far as possible. A service pipe must not be laid longitudinally under a footpath or pitched channel, or in a water channel, unless expressly allowed by the By-laws or Regulations of the local Municipal Council, which are in all cases to be strictly observed.

(g) Any service pipe of two inches diameter and under between the main and the building line existing at the time of the coming into operation of this By-law and which is not laid in accordance with the provisions thereof must, whenever repairs or renewals become necessary, be renewed strictly in accordance with the provisions of this By-law, unless otherwise permitted by the Engineer of Water Supply. All replacements of bends, elbows, or other fittings in the thoroughfare and at meter connection must be of copper, brass, or other materials approved of by the Engineer of Water Supply.

(h) Any person offending against the provisions of this Clause 32 shall be guilty of an offence, and shall be liable to a penalty not exceeding Two pounds for each such offence.

33. In connection with every application to lay a water service of 2-inches and over in diameter, or to alter the position of any such water service, the plumber's notice must be accompanied by a properly dimensioned plan, showing the locality of the premises at which the work is to be done and the position in which it is intended to lay the pipes and fix meters, plugs, stop-cocks, etc., thereto.

In every such case the Board will, if desired, supply a block tracing (as far as the same may be available) on payment of a fee of One shilling for each tracing.

34. Any permission granted by the Board to supply a property with water by means of an extension service from a main pipe which does not pass in front of the said property, or from a private service, shall be deemed to be temporary, and shall be liable to revocation at the pleasure of the Board.

35. The service pipe from the main being the property of the owner or occupier of the tenement supplied by such service pipe, the occupier (if any) or (if no occupier) the owner shall, upon receiving notice that his service pipe requires repairing, immediately proceed to repair the same; and he shall be responsible for any loss of water or other damage which is caused by reason of such service pipe being leaky or otherwise out of repair or broken, and in default of so repairing he shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds, and to a further penalty not exceeding Two pounds for each day the offence continues after receipt of such notice; and the Board may stop the water from flowing into such tenement either by cutting off the service pipe, or otherwise as the Board may see fit, until the necessary repairs have been effected.

CROSS CONNECTIONS.

36. On any premises pipes in communication with the Board's water mains shall not be connected to pipes containing or which may contain water derived elsewhere or to pipes containing or which may contain water which, in the opinion of the Engineer of Water Supply, has in any way been used or become polluted. Any person who makes or allows or permits to exist on his premises such a connection shall be guilty of an offence and shall be liable to a penalty not exceeding Five

pounds for each offence so committed and in case of a continuing offence to a further penalty not exceeding Five pounds for each day after notice of the offence from the Board.

WASTE OF WATER.

37. Any person supplied with water by the Board who shall wilfully or negligently allow the same to run to waste shall be guilty of an offence, and shall be liable for each offence to a penalty not exceeding Five pounds, and to a further penalty not exceeding Two pounds for each day the offence continues after notice from the Board.

TAKING OR SUPPLYING WATER WITHOUT AUTHORITY.

38. Any person who is supplied by the Board with water or is otherwise receiving water from the Board, and who, without the written permission of the Board, takes or carries away such water from his tenement, or allows any person to take or carry away such water, or sells the same to any other person, shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds.

39. Any person, not having agreed to be supplied by the Board, who takes or carries away water from the premises of any person so supplied, or from any drinking tap, trough, or private or public service pipe, shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds for each offence.

LICENSED PLUMBERS.

40. (a) No person other than the holder of a plumber's licence from the Board shall affix any service pipe to any pipe of the Board, or alter, repair, or in any manner interfere with any pipe of the Board, or any service pipe, tap, meter, or fitting connected with the pipes of the Board; and any person who is not the holder of a plumber's licence from the Board and who affixes, alters, repairs, or in any manner interferes with any such pipe, service pipe, tap, meter, or fitting as aforesaid shall be guilty of an offence, and shall be liable to a penalty not exceeding Ten pounds.

(b) Plumbers' licences shall be at and during the pleasure of the Board, and be subject to review from time to time, and the Board may at any time, in its discretion and without assigning any reason and without in any way qualifying or limiting the discretion aforesaid, suspend or cancel any such licence in the event of the holder thereof being adjudged by the Board to be incompetent, or by himself or his employees committing any breach of the Board's Acts, By-laws, or Regulations.

(c) A licence issued in conformity with the provisions of the Water Act 1928, or any Act repealed thereby, shall not authorise the holder thereof to do any kind of work connected with the sanitary fittings of houses or the sewerage system of the Board within the Metropolis.

NOTICES.

41. (a) Any person, whether licensed as aforesaid or not, who opens any ground so as to uncover any main, pipe, or pipes the property of the Board without giving two days' notice to the Board of his intention so to do, or who in any way tampers with or alters any main or pipe the property of the Board without the permission in writing of the Board being first obtained, or who wilfully or carelessly breaks, injures, or opens any lock, tap, valve, pipe, work, or engine the property of the Board, shall be guilty of an offence, and shall be liable for each such offence to a penalty not exceeding Ten pounds.

(b) Every notice must contain all information and particulars required by the Board or any supervising officer thereof and must be signed by the licensed plumber actually engaged in carrying out the works

referred to in the notice, or by a licensed plumber employing another licensed plumber to carry out the work under his supervision.

(c) Any licensed plumber signing a notice for work which is not actually done either by himself or by a licensed plumber employed under his supervision, or which is not actually done either by himself or by a carrying out work under a notice not signed by himself or by a licensed plumber supervising the work, shall be guilty of an offence, and shall be liable to have his licence suspended or cancelled.

(d) Any person, whether licensed as aforesaid or not, who lays any pipe to communicate with a main of the Board or who alters, repairs, or replaces pipes or fittings in communication with a main of the Board without giving two days' notice of the day and hour when such work is to be carried out, or who makes the communication, alteration, repair, or replacement, except under the superintendence and according to the directions of some officer of the Board, or who lays any pipe to communicate with a main of the Board of a strength and material not sanctioned by the Board, shall be guilty of an offence, and shall be liable for each such offence to a penalty not exceeding Five pounds, and, in case of a continuing offence, to a further penalty not exceeding Two pounds for each day the offence continues after notice of the offence from the Board.

(e) In the case of service communication with a main of the Board being made through the intervening medium of a storage tank, the provisions of this Clause shall have as full application as if the communication were by direct service.

(f) The giving of two days' notice as aforesaid will only be dispensed with in the event of urgent repairs being required to stop the waste or escape of water, in which case the prescribed printed notice must be lodged with the Board by the licensed plumber prior to the execution of such urgent repairs, or, if this is not practicable, the licensed plumber shall notify the Engineer of Water Supply by telephone that urgent repairs are to be undertaken and he must in addition lodge the prescribed printed notice within twenty-four hours of commencing such repairs. The penalty for not giving notice, as herein required, will be as mentioned in Sub-clause (d) of this Clause.

QUALITY OF MATERIALS.

42. No person shall use in connection with a supply of water from the Board any main ferrule-cock, stop-cock, bib-cock, ball-cock, valve, reflux valve, closet cistern, flushing apparatus, or other fitting which is not in every respect of the best quality and workmanship, tested, stamped, and approved by a duly authorised officer of the Board. All stop and bib-cocks shall be screw-down high-pressure cocks except as otherwise approved of by the Engineer of Water Supply.

43. Except with the written consent of the Board, only piping of approved quality, tested and stamped by the Board, will be allowed to be used for services whether outside or inside the building line.

44. All copper, brass, or lead, wherever used under this By-law, shall comply with the specifications of the Standards Association of Australia in connection therewith.

Copper pipes shall be of the following diameters and dimensions:—

CISTERN AND TANKS.

46. No person shall use any cistern or tank that is not provided with an equilibrium ball-valve, and with the overflow pipe laid and fixed in a suitable manner, open to inspection, and in a position approved by the Engineer of Water Supply. Every cistern or tank must be constructed, made accessible, and provided with inlet and outlet pipes, so as to reduce the risk of pollution and waste of water to a minimum, and the said cistern or tank shall be equipped in all things as directed by the Engineer of Water Supply and to his satisfaction.

BATHS.

47. Except with the special permission of the Board, no bath shall be allowed which has a holding capacity of more than 100 gallons.

AUTOMATIC SIPHONS, ETC.

48. No person shall fix any water ejector, hand siphon, automatic siphon, or other water power pumping appliance without the permission in writing of the Board being first obtained. If approved, any such fitting shall be fixed only under such conditions as the Board shall notify in writing.

FIRE SERVICES.

49. (a) All provisions relating to services are to apply equally to fire services.

Subject to previous written consent of the Board, private fire services without meters will be allowed, but every such service must be sealed except in cases where the Engineer of Water Supply shall have certified in writing that sealing is unnecessary. For each such private fire service there shall be paid a sum of Ten shillings upon the fixing thereof, and a sum of Ten shillings per annum thereafter. Except in case of fire, no person shall, without the authority of the Board, wilfully break the seal affixed to any private fire service, and in the event of any such seal being broken, accidentally or otherwise, the occupier of the tenement shall, within twenty-four hours thereafter, give notice in writing of the fact at the office of the Board. Should he fail to do so he shall be guilty of an offence, and shall be liable to a penalty not exceeding Two pounds, and to a further penalty of Ten shillings for each day during which he shall neglect to give such notice. He shall, except in case of fire, pay a re-sealing fee of Ten shillings.

(b) Every private fire service pipe must be laid and fixed in a conspicuous position to the approval of the Engineer of Water Supply, and must be painted and maintained at all times with a distinguishing coating of approved bright red paint.

(c) No extension shall be taken from any private fire service pipe beyond the governing stop-cock or valve outside the premises except with sealed taps and under the foregoing provisions.

(d) Any persons using water from any portion of a private fire service pipe, or extending or causing to be extended any branch pipe from any private fire service pipe, except for fire extinction purposes and with the authority of the Board, shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds, and, in the case of a continuing offence, to a further penalty not exceeding Two pounds for each day after notice of the offence from the Board.

GENERAL.

50. Any person whether licensed or not who connects any service pipe or branch service pipe with any steam boiler for the purpose of feeding or supplying the same with water without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter shall be guilty of an offence, and shall be liable to a penalty not exceeding

Five pounds, and, in the event of continuing the offence, to a further penalty not exceeding Two pounds for each day the offence continues after notice from the Board.

51. Any person, other than an employee of a municipality, who, without the written permission of the Board, uses water for any purpose whatsoever by means of a hydrant attached to the Board's main, shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds.

52. The water supply of every public park and garden shall be exclusively under the control and direction of the Board; and any person not duly authorised who turns on the water or otherwise interferes with such water supply shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds.

53. Any person who uses a hose attached to any tap or pipe for any purpose whatsoever, except where authorised by this By-law, unless a meter is fixed and the water is supplied by measure, shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds.

54. The consent of the Board or of the Engineer of Water Supply, wherever required by this By-law, must be obtained by application in writing, addressed to the Secretary of the Board, and delivered at his office, at such length of time before doing any act or commencing any work as is required by the Board's Acts or any amendment thereof or by this By-law, and in no case less than two days prior to such act or work; and such notice must state clearly the act proposed to be done or work to be commenced, and such act shall not be done or work be commenced save upon the consent in writing of the Board or of the Engineer of Water Supply, and then only subject to and in accordance with such directions or conditions as shall be therein specified.

55. When any costs expenses or charges are payable to the Board for work done by it or for material supplied or used or which are otherwise made payable to the Board by this By-law the same shall be payable forthwith on demand to the Board unless otherwise provided and if not paid such payment may be enforced by legal proceedings immediately after such demand.

56. Any person who lights or kindles any fire in any part of the watershed areas of the Melbourne and Metropolitan Board of Works or on any land used by the Board for reservoirs, aqueducts, pipe-lines, or other works, except in fireplaces specially provided by the Board, shall be guilty of an offence and shall be liable to a penalty not exceeding Twenty pounds.

PENALTY.

57. Every person guilty of any breach of this By-law shall be guilty of an offence, and, except in those cases where a penalty is prescribed for any breach or offence, be liable to a penalty not exceeding Twenty pounds for such offence, and, in case of a continuing offence, shall be liable to a further penalty not exceeding Five pounds for each day the offence continues after notice of the offence from the Board.

The foregoing By-law was made and passed by the Melbourne and Metropolitan Board of Works, and the Common Seal of the said Board was hereunto affixed the Fourth day of February, One thousand nine hundred and thirty-six, in the presence of—

D. BELL, Chairman.

| Mr. Dunstan | Dr. Harris |
| Mr. Old | Mr. Goudie. |

REVOCATION OF THE COUNCIL OF THE TOWN OF COBURG ELECTRIC LIGHTING ORDER No. 155, 1920, IN RESPECT OF PORTION OF THE MUNICIPAL DISTRICT OF THE SHIRE OF BROADMEADOWS, CAMPBELLFIELD RIDING.

WHEREAS it has been agreed by and between the Mayor, Councillors, and Citizens of the City of Coburg, acting by and through the municipal council of that city (herein called "the said Council") and the State Electricity Commission of Victoria (herein called "the Commission") that the said Council shall sell to the Commission, and the Commission shall purchase from the said Council, certain reticulation assets pertaining to the undertaking, under an Order in Council issued under the *Electric Light and Power Act 1915*, cited as "The Council of the Town of Coburg Electric Lighting Order No. 155, 1920," and granted to the Council of the Municipality of the Mayor, Councillors, and Burgesses of the Town of Coburg to authorize such Council to supply electricity within portion of the municipal district of the Shire of Broadmeadows; And whereas the said Council has requested the Commission to recommend that the said Order be revoked; And whereas the Council of the Shire of Broadmeadows has concurred in the revocation of the said Order; Now therefore His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby revoke the said Order, such revocation to date from the seventh day of March, 1936.

CONSENT TO THE STATE ELECTRICITY COMMISSION ENTERING INTO AN AGREEMENT WITH THE CITY OF COBURG FOR THE PURCHASE OF CERTAIN RETICULATION ASSETS.

HIS Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby approve of the State Electricity Commission of Victoria entering into an agreement with the Council of the municipality of the City of Coburg for the purchase for a sum of One thousand one hundred and sixty-seven pounds (£1,167) of certain reticulation assets—

(a) pertaining to the undertaking under an Order in Council issued under the *Electric Light and Power Act 1915*, cited as "The Council of the Town of Coburg Electric Lighting Order No. 155, 1920," and granted to the Council of the municipality of the Mayor, Councillors, and Burgesses of the Town of Coburg authorizing the said Council to supply electricity within portion of the municipal district of the Shire of Broadmeadows, Campbellfield Riding, and

(b) in such portion of the said Campbellfield Riding within the municipal district of the Shire of Broadmeadows as is adjacent to the area of supply under the above-mentioned Order in Council No. 155, 1920, and bounded as follows:—Starting at a point at the intersection of Lynch-road and Sydney-road, thence north along Sydney-road to Major-road; thence east along Major-road to McBryde-street; thence south along McBryde-street to the southerly boundary of lot 30b in plan of subdivision No. 4236, lodged in the Office of Titles; thence east to the west bank of the Merri Creek by a road situate between lots 30b and 29b on the said plan of subdivision; thence in a southerly direction along the west bank of the said Merri Creek to the southern boundary of lot 29b aforesaid; thence west by that boundary to McBryde-street; thence across McBryde-street further westerly along Lynch-road to the point of commencement.

REVOCAION OF THE ELECTRIC LIGHTING ORDER
No. 185 OF THE SHIRE OF VIOLET TOWN.

WHEREAS the Shire of Violet Town (hereinafter referred to as the "Council") was granted by an Order in Council under section 10 of the *Electric Light and Power Act 1915* (hereinafter referred to as the "Order"), and cited as the Shire of Violet Town Electric Lighting Order No. 185, 1925, to authorize the said Council to supply electricity in the Township of Violet Town; And whereas the Council has requested the State Electricity Commission of Victoria to supply electricity in Violet Town, and has consented to the revocation of the said Order: Now, therefore, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby revoke the said Order, such revocation to date from the first day of March, 1936.

And the Honorable Francis Edward Old, His Majesty's Minister in Charge of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.

REGULATIONS FOR THE CARE, PROTECTION, AND MANAGEMENT OF THE RESERVE FOR QUARRY PURPOSES AT GOROKE.

WHEREAS by the 181st section of the *Land Act 1922*, power is given to the Board of Lands and Works to make Rules and Regulations for the care, protection, and management of all Public Parks and Reserves not conveyed to and vested in Trustees, and for the preservation of good order and decency therein, and also for the collection and receipt of tolls, entrance fees, and other charges for entering therein or thereupon. Now therefore the Board of Land and Works, in pursuance of the powers conferred as aforesaid, doth hereby make the following Regulations in respect of the land temporarily reserved by Order in Council of the 8th July, 1935, as a site for a Quarry in the Parish of Goroke.

REGULATIONS.

1. The Reserve shall be open to the public from sunrise to sunset free of charge.
2. No person shall enter or remain in the Reserve who may offend against decency as regards dress, language, or conduct.
3. No person shall damage in any way the trees, shrubs or flowers in the Reserve, nor shall fires be lighted therein except in such places as are set apart for same by the Committee of Management.
4. No person shall leave or deposit any glass, paper, or rubbish in the Reserve, nor roll or throw stones or any missiles of any kind therein.
5. No person shall put in the Reserve any cattle, horses, sheep, goats, pigs, or any other animals without the permission in writing of the Committee of Management first obtained. Provided always that the moneys received for agistment shall be expended in the maintenance and improvement of the Reserve, and that an account thereof shall be furnished annually to the Board of Land and Works.
6. The owner of any horse, cattle, or other animals found wandering on any part of the Reserve shall be guilty of an offence against these Regulations, and in addition such horse, cattle, or other animals may be impounded.

7. The Committee of Management shall have full power and authority to impound any cattle found trespassing in the Reserve, and shall be taken to be the occupier of the Reserve (with all power incidental to that status) within the meaning of any law for the time being in force relating to the impounding of cattle. For the purposes of this clause "cattle" shall mean cattle as interpreted by section 3 of the *Pounds Act 1928*.

8. No person shall camp in the Reserve, nor erect therein any building without the permission in writing of the Committee of Management first had and obtained.

9. No person shall bring into the Reserve any dog unless controlled by a chain or cord without the permission in writing of the Committee of Management first obtained.

10. No person shall remove any stone, sand, earth, marl, or gravel from the Reserve without the permission in writing of the Committee of Management first had and obtained. Such permission shall not be unreasonably or arbitrarily withheld, but shall be conditional on the payment to the said Committee of such fees as the said Committee may from time to time direct for the removal of any stone, sand, earth, marl, or gravel as aforesaid. Such fees shall not exceed the sum of One shilling per cubic yard of stone, sand, earth, marl, or gravel removed. Before granting such permission, the Committee may require from any person requesting such permission a deposit of any sum not exceeding Ten pounds by way of guarantee for due care in removal of stone, sand, earth, marl, or gravel as aforesaid, and for due payment of the fees for removal of such stone, sand, earth, marl, or gravel. All fees

collected by the Committee of Management under or by virtue of this Regulation shall be paid by the said Committee into the Consolidated Revenue of the State of Victoria, and a certified return thereof furnished to the Board of Land and Works at the end of each half year.

11. All stone to be taken from the Reserve in accordance with the permission of the Committee of Management shall be removed therefrom subject to and in accordance with the directions of the said Committee.

The Council of the Shire of Kowree has been appointed a Committee of Management with power and authority to enforce the foregoing Regulations.

Every person offending against these Regulations shall, in accordance with the provisions of section 181 of the *Land Act 1928*, for each offence be liable to a penalty of not more than Five pounds (£5), and every person who knowingly and willfully offends against these Regulations and who, after he has been warned by any Bailiff of Crown Lands or by any member of the Police Force, does not desist from so offending, may be forthwith apprehended by such Bailiff or member of the Police Force and be taken before some justice to be dealt with according to the law, and shall be liable to a penalty of not more than Ten pounds (£10).

The common seal of the Board of Land and Works was herewith affixed this 12th day of March, 1936, in the presence of—

 In this Determination the expression "Good from hand" shall mean free from maker's faults at the time the articles are approved by and taken possession of by the employer prior to burning.
 Faults proved to be due to the use of defective moulds supplied by an employer shall not be deemed to be maker's faults.

PIECE-WORK WHICH MAY BE FIXED BY AN EMPLOYEE.

(9) The Board determines, under the provisions of Section 150 of the *Factories and Shops Act 1928 (No. 3677)*, that any employer may fix and pay piece-work prices to any person employed in the glazed pipes and salt-glazed ware, general pottery, tile, and terra-cotta sections of the trade at work for which piece-work prices have not been specified above, provided that any such employer shall base such piece-work prices on the earnings of an average worker working under like conditions, and such piece-work prices shall be fixed so that an average worker can earn not less than the wages rates that are fixed by the Board for such work.

Factories and Shops Acts.

DETERMINATION OF THE CARRIAGE BOARD.

NOTE.—This Determination, from the beginning of the first pay period after the 20th March, 1936, applied to the whole of the State of Victoria.

IN accordance with the provisions of the Factories and Shops Acts the Wages Board which since the 17th October, 1932, has had power to determine the lowest prices or rates which may be paid to any person or persons or classes of persons employed either inside or outside a factory or work-room in the process, trade or business connected with or incidental to the manufacturing, making, or repairing of—(a) carriages, carts and other vehicles (other than perambulators) or any part or parts thereof, such as the ironwork or bodies, hoods, cushions, springs, axles, wheels, tires, rims, hubs, or spokes; (b) motor car bodies, or any part or parts thereof, such as the hoods or cushions; (c) tram cars or any part or parts thereof, such as the ironwork or bodies, cushions, springs, axles, wheels, tires, rims, hubs, or spokes; (d) motor cycle side-car bodies, or any part or parts thereof, such as the hoods or cushions; (e) aircraft; has made the following Determination, viz.:—

(1) That this Determination shall be operative from the beginning of the first pay period after the 20th March, 1936, and that the last previous Determination of this Board shall be revoked and replaced by this Determination.

APPRENTICES.

(3) (i) Minors may be taken as indentured apprentices to one or more of the trades of—

- (a) Body-making, seat-making, wheel-making and wheelwrighting in wood and/or metal.
- (b) Smithing, including coachsmithing, spring-making and spring fitting, wheelwright smithing and general smithing.
- (c) Painting (coach).
- (d) Trimming.
- (e) Axle-making.
- (f) Wood-turning and woodwork machining.
- (g) Panel-working, including panel beating, sheet metal working and welding.
- (h) Motor body die and tool making.
- (i) Fitting and turning. Metal machining.
- (j) Pattern making.
- (k) Motor mechanic.
- (l) Aircraft making.
- (m) Saw doctoring.

(ii) The proportion of apprentices that may be taken by any employer shall be one to three or fraction of three tradesmen in each section of the industry. (See XIV. below; also (4 (c) (7)).

The number of tradesmen shall be deemed to be the average number working during the immediately preceding six months, and in ascertaining such proportion an employer actually working in any workshop shall be deemed to be a tradesman.

(iii) The periods of apprenticeship shall be as follows :—

If the apprentice when articulated is under the age of 17, five years; if over the age of 17, four or five years at the option of the contracting parties.

(iv) Minors may be taken on probation for three months, and if apprenticed such three months shall count as part of their period of apprenticeship.

(v) Until further order any contract of apprenticeship hereafter made may contain the following provision :—

If through lack of orders or through financial difficulties the employer is unable at any time to find employment and training for an apprentice, and if a transfer to another employer cannot be arranged, the obligations and duties imposed by the indenture may with the concurrence of the apprentice and his guardian be suspended for a period agreed upon, or if no such agreement is arrived at may be cancelled by the employer. The onus of proof of circumstances justifying such cancellation shall be on the employer.

WAGES.

(vi) (a) In all contracts of apprenticeship hereafter made, the minimum rate of wages shall be as follows :—

| | s. d. |
|--|-------|
| Five-year terms— | |
| First year | 15 0 |
| Second year | 20 6 |
| Third year | 30 6 |
| Fourth year | 50 0 |
| Fifth year | 63 0 |
| Four-year terms—when the apprentice enters or has entered his apprenticeship after reaching the age of 17 years— | |
| First year | 18 0 |
| Second year | 30 0 |
| Third year | 50 0 |
| Fourth year | 63 0 |

(b) Notwithstanding anything elsewhere in this Determination contained, where an apprentice is under the age of 21 years on the expiry of his apprenticeship, he shall be paid four-fifths of the tradesman's time wage until reaching the age of 21 years.

(c) All wages shall be paid without deduction for specified holidays or for unavoidable absences through sickness certified as in clause 10 (c) to the number of four days per annum.

(vii) The ordinary hours of employment of apprentices shall be the same in each workshop as those of journeymen.

(viii) Where practicable, no apprentice under the age of 18 years shall be required to work overtime.

(ix) No apprentice shall work under any system of payment by results.

(x) Any apprentice who cannot complete his full term of apprenticeship before reaching his twenty-second birthday may, by agreement with his employer, serve as an apprentice until he reaches the age of 23 years.

(xi) The apprentice at the end of the calendar period of any year in which he has actually given service to the employer upon less than the ordinary working days prescribed in this Determination, or in which he has unlawfully absented himself without the employer's consent shall, for every day short of the said number of working days, and for every day of such absence, serve one day, and the calendar period of the succeeding year of his service shall not be deemed to begin until the said additional day or days shall have been served.

(xii) No employer shall, either directly or indirectly, or by any pretence or device, receive from any person or require or permit any person to pay or give any consideration in the nature of a premium or bonus for the taking or binding of any probationer or apprentice.

(xiii) Apprentices attending technical colleges, or schools and presenting reports of satisfactory conduct shall be reimbursed all fees paid by them.

(xiv) A person who is for a term not exceeding two years taking practical training in a workshop in continuance of a course of training for professional work shall not be taken into account in calculating the proportion of apprentices to journeymen.

MALE JUNIOR WORKERS.

(4) (a) Unapprenticed male junior workers may be employed in any occupation covered by this Determination, and shall be paid, per week of 44 hours, on the basis of age plus experience, as indicated in clauses (c) (1) and (c) (2) hereunder, as follows :—

| Commencing Age. | With No Experience. | With Full Years of Experience as under— | | | | | | Plus Weekly Allowance in Lieu of Payment for Holidays and Absence through Sickness, in Accordance with Table below. |

| | | | | | | | | 46 0 .. 2 3 |
| | | | | | | | | 54 0 .. 2 8 |

(b) Unapprenticed male juniors under 18 years of age assisting at furnaces shall be paid 3s. per week in addition to the above rates.

(c) (1) Change of wage rates shall be made once each year and shall be payable as from the beginning of the first pay period after the birthday of the employee concerned.

(2) Completed years of experience only to be taken into account when rate is changed.

(3) Employee to furnish proof of age by means of birth certificate or sworn declaration by parent or guardian.

(4) Employee to prove experience by written statement made by previous employers in the coachbuilding industry.

(5) Employee to receive a length of service record card on leaving the employment of any one employer.

(6) For the purpose of this clause experience shall mean any form of employment in any branch of the industry covered by this Determination.

(7) The proportion of male juniors that may be employed by any employer shall be one junior (whether he be an indentured apprentice, or an unapprenticed male junior) to every three male adults employed in the shop or factory. (See clause (3) (ii).)

HOURS OF EMPLOYMENT.

(5) (a) With the exceptions herein set out, the ordinary hours of employment shall be 44 per week, to be worked in five days of eight hours each and one day (Saturday) of four hours, or five days of 8 hours 48 minutes each, continuously except for meal hour breaks at the discretion of the employer between 7 a.m. and 5.30 p.m. on Monday to Friday inclusive and 7 a.m. to noon on Saturday; provided that the spread of hours herein prescribed may be altered by mutual agreement between any employer and his employees.

(b) By agreement between any employer and his employees ordinary hours may be worked on the basis of 88 per fortnight with one week of 40 and one of 48 hours.

(c) It shall be optional for the employer to work either the 5 or the 5½ days' week provided that the option once exercised shall only be altered by a week's notice.

SHIFT WORK—CONTINUOUS PROCESSES.

(6) (a) Employees working in establishments carrying on continuous processes shall work such shifts, up to six per week as may be required.

(b) A shift shall consist of eight hours inclusive of such times as by mutual arrangements may be taken for meal breaks.

(c) For all time of duty outside ordinary hours or in excess of eight consecutive hours in 24 or of 44 in one week, an employee on shift work in a continuous process shall be paid at double rates. But this shall not apply to arrangements between employees themselves or in cases due to rotation of shift, or when the relief does not come on duty at the proper time: Provided that where not less than eight hours' notice has been given to the employer by the employee that he will be absent from work and the employee whom he should relieve is not relieved, such unrelieved employee shall be paid time and a half for all time of duty after he has finished his ordinary shift.

(d) Employees working afternoon and night shifts shall be paid 5 per cent. more than ordinary rates for such shifts.

(e) Employees working any Sunday or holiday shifts shall be paid at the rate of time and a half for such shift.

(f) Shift workers working eight hours per shift without any break for meals on six days in each week shall be deemed to work 44 hours per week provided that they are given one fortnight's holiday in each year on full pay as compensation for working Saturday afternoon holiday and/or Sunday shifts: Where practicable, 20 minutes crib-time shall be allowed without deduction of pay. Further provided that such shift workers ceasing to be employed on shift before the completion of any year shall be paid one day's pay for each month or part of a month's service in lieu of the fortnight's holiday herein mentioned.

SHIFT WORK—IN OTHER THAN CONTINUOUS PROCESSES.

(g) In establishments not coming within the definition of continuous processes, any afternoon or night shift which does not continue for five successive working nights or more in a five-day workshop or six successive working nights or more in a six-day workshop, shall be paid for at the rate of time and a half.

(h) For any afternoon or night shift which has been in operation for five nights or more and less than one month, 10 per cent. more than ordinary rates shall be paid and after such shifts have continued for more than one month 5 per cent. more than ordinary rates.

(i) Shift workers shall be paid overtime at the rate of time and a half for the first four hours and double time thereafter for all time worked in excess of shift hours.

(j) Females shall not be allowed to work shift work.

MIXED FUNCTIONS.

(7) An employee engaged for more than half of one day or shift on duties carrying a higher rate than his ordinary classification shall be paid the higher rate for such day or shift. If for less than half of one day or shift he shall be paid the higher rate for the time so worked.

OVERTIME.

(8) (a) For all work done outside ordinary hours the rate of wages shall be time and a half for the first four hours and double time thereafter, such double time to continue to be paid until the employee has been relieved from work for at least eight hours: Provided that an employee shall not be entitled to payment for such rest period.

(b) Except as provided above in computing overtime each day's work shall stand alone.

(c) An employee recalled after leaving his workshop to work overtime shall be paid for a minimum of three hours' work at the appropriate rate.

(d) An employee occasionally required to hold himself in readiness to work after ordinary hours shall until released be paid standing-by time at ordinary rates from the time which he is so told to hold himself in readiness. But any custom now prevailing under which an employee is required regularly to hold himself in readiness for a call back shall continue.

(e) An employee (other than on shift) who has worked up to or beyond midnight shall not be bound to continue work on the following day.

(f) For work done during meal hours and thereafter until a meal hour break is allowed time and a half rates shall be paid. No employee shall be compelled to work for more than six hours without a break for a meal.

(g) An employee working overtime shall be allowed a crib-time of 20 minutes without deduction of pay after each four hours of work, but this provision shall not prevent any arrangement being made for the taking of a longer meal period without pay.

(h) Before starting overtime after working ordinary hours, a break of at least 15 minutes shall be allowed if the period of overtime to be worked is in excess of two hours. An employer and his employees may mutually agree to any variation of this sub-clause to meet the circumstances of the work in hand.

(i) An employee required to work overtime for more than two hours without being notified the day before that he will be so required to work, shall either be supplied with a meal by the employer or paid 1s. 6d., or if the work extends into a second meal hour 2s. 6d. for the two meals, but such payment need not be made to employees living in the same locality as their workshop, who can reasonably return home for meals.

If an employee pursuant to notice has provided a meal or meals, and is not required to work overtime, he shall be paid for each meal so provided.

(j) Subject to the provisions of the second part of (f) of this clause an employee shall work during meal breaks at the ordinary rates herein prescribed whenever instructed so to do for the purpose of making good breakdowns of plant or upon routine maintenance of plant which can only be done while such plant is idle.

(k) When an employee working overtime finishes work at a time when reasonable means of transport is not available, the employer shall provide him with a conveyance or pay him his current wage for the time occupied in reaching his home.

(l) Where overtime is worked on account of a breakdown of plant and/or machinery all overtime shall be paid for at the rate of time and a half.

SUNDAY AND HOLIDAY RATES.

(9) (a) Where an employee works on a Sunday at the request of the employer, the work done shall be paid for at the rate of double ordinary time.

(b) Where an employer works on union picnic day at the request of the employer, the work done shall be paid for at the rate of double ordinary time.

(c) Where an employee works on any of the holidays (including overtime) specified in clause 10 (b) of this Determination, at the request of the employer, the work done shall be paid for at the rate of double ordinary time, in addition to the allowance to which the employee on hourly hiring is entitled under clause 14 (d) of this Determination.

HOLIDAYS.

(10) (a) The day on which the Coachmakers' Federation trade union picnic is held shall be a local holiday (without pay if such day is a day other than one mentioned in sub-clause (b) of this clause) in any city or town.

(b) Employees shall be entitled to the following public holidays (without pay except as herein provided):—The days observed as New Year's Day, Australia Day (26th January), Good Friday, Easter Saturday, Easter Monday, King's Birthday, Labour Day (21st April), Anzac Day, Christmas Day, and Boxing Day, or such other day as is generally observed in the locality as a substitute for any of the said days respectively.

(c) If the contract of employment is for hourly hiring, an allowance (clause (2) B¹, B², B³) calculated as set out hereunder shall be paid to employees in addition to the rates set out in clause (2) A¹, A², A³ of this Determination in respect of the time lost by employees on the ten holidays mentioned in sub-clause (b) of this clause and on account of unavoidable absences from work through sickness (to the number of four days' sickness in each year). Such allowance shall be calculated in the following manner:—The weekly rate shall be divided by forty-four (44) and the resultant multiplied by 14 times 8 (14 x 8) and divided by fifty-two (52), the answer to be calculated to the nearest penny. (Clause 2—A³ is 3s. less than A¹ and A², and B³ is 2d. less than B¹ and B².)

PIECEWORK RATES.

(11) Subject to the minimum wages herein prescribed an employer may remunerate any of his employees under system of payment by results based on rates which will enable workers of average capacity to earn at least 10 per cent. in excess of their hourly or weekly rate.

PAY-DAY.

(12) Employers shall pay all moneys due at least once in each week, and not later than Friday in each week, except where it has been the practice to pay fortnightly. All wages shall be paid in employer's time.

PAYMENT FOR PART WEEK.

(13) An employee, working any portion of a week, shall be paid, on ceasing work, for all time worked during that week.

CONTRACT OF EMPLOYMENT.

(14) (a) With the exceptions hereinafter stated employment may be by the week or by the hour. Unless otherwise specifically agreed, the employment shall be deemed an hourly engagement. If by the week it shall be terminable on either side by one week's notice given on any day or (if the employer terminate it without such notice) by payment of one week's wages.

(b) A contract for weekly employment may be terminated by any employer, without liability to pay for more than time actually worked, for misconduct, or for absence from work without reasonable excuse.

(c) If an employee engaged by the week absents himself from duty, except on the holidays mentioned in clause 10 (b) of this Determination or for days for which he produces a certificate from a medical practitioner or other proof satisfactory to his employer of sickness (aggregating four days' sickness in each year) a sum proportionate to his time of absence may be deducted from his pay, i.e., two-elevenths of the weekly wage for each day of absence, excluding Saturdays in shops working six days and one-fifth in shops working five days per week: Provided that only time actually lost shall be deducted when an employee is absent on a Saturday.

(d) (i) If the contract of employment is for hourly hiring, a weekly allowance calculated as set out in clause 10 (c) of this Determination shall be paid in addition to the total amount of the rates prescribed by clause 2 of this Determination, but such allowance shall not be taken into account in computing any wage rate such as overtime, shift premium, Sunday or holiday rates.

(ii) Such allowance shall be paid irrespective of the time worked by an employee in any one week, except as provided in sub-clause (e) of this clause.

(iii) An allowance calculated as set out in clause 10 (c) of this Determination shall also be paid in addition to the rates prescribed by clause 2 of this Determination for female workers and male junior workers.

(e) An employee engaged on hourly hiring shall be entitled to a minimum of four consecutive hours' work or to four hours' pay for the job—such hours may be deemed to be consecutive if worked in ordinary hours at the end of the day and the beginning of the next succeeding day. But such employee shall not be entitled to the allowance mentioned in sub-clause (d) of this clause unless the period of employment exceeds four hours.

TIME AND WAGES BOOK.

(15) (a) Each employer shall keep a time and wages book showing the name of each employee and his occupation, the hours worked each day, and the wages and allowances paid each week.

(b) The time occupied by an employee in filling in any time books or cards or in the making of records shall be treated as time of duty, but this does not apply to checking in or out at the beginning or end of duty.

LEADING HANDS.

(16) Leading hands in charge of 5, but not exceeding 15 employees, shall be paid at the rate of 1s. per day extra. From 16 to 25 employees, 1s. 6d. per day extra; from 26 to 35 employees, 2s. per day extra; and over 35 employees, 2s. 6d. per day extra.

AIRCRAFT MAKING.

(17) Employees engaged in aircraft making (in wood, metal, or other materials) in occupations which are similar to those for which classifications are provided in this Determination, shall be paid the rates prescribed for such classifications.

TRAVELLING TIME.

(18) In the event of an employee being sent during working hours to any place other than his usual place of employment, he shall be allowed travelling time and excess expenses. Such time to be part of the ordinary day's work.

DEFINITIONS.

- (19) (a) "Tradesman" means an adult workman who, in the course of his employment, works from drawings or prints required to be scaled, and/or measured from drawings or prints, or makes precision measurements, or applies general trade experience, and includes locksmith and first-class machinist.
- (b) "Precision measurements" means measurements of a finer accuracy than is possible with the naked eye from caliper, measuring scale or rule.
- (c) "Patternmaker" means a tradesman engaged in the making of both patterns and templates in wood. "Template maker" means a tradesman engaged in the making of templates only.
- (d) "Jig-maker" means a tradesman engaged in the making of jigs in wood or metal.
- (e) "Toolmaker" means a tradesman making and/or repairing any precision tool, gauge, die or mould to be affixed to any machine, who designs or lays out his work and is responsible for its proper completion.
- (f) "First-class machinist" (in metal) means a tradesman who is partly or wholly engaged in setting up and operating the following machines:—Lathe, boring machine, milling machine, planing machine, shaping machine, slotting machine, and grinding machine.
- (g) "Second-class machinist" (in metal) means an adult not engaged as a tradesman and who is not required to work from drawings or prints required to be scaled and/or measured from drawings or prints or to make precision measurements, but who is engaged in operating or in the setting up and operating of machines enumerated in the definition of "first-class machinist"; or who is engaged operating a key-seating machine, or a second-class brass finisher or as a pipe fitter on low pressure work.
- (h) "Third-class machinist" (in metal) means a machinist, not being a process worker, who operates any machine set up by tradesman or any machine the setting up of which does not require the knowledge or skill of a second-class machinist or any machine other than electric cutters in trim shops used for cutting fabrics.
- (i) "First-class wood machinist" (in wood) means a machinist who in the course of his employment is called upon to grind and set knives only or to braze, set, and sharpen band or jig saws and to set and sharpen circular saws or to set up machines operated by other machinists or to grind knives for and to set up and operate one or more of the following machines:—Shapers, spindles, lindorm machines, routers, tenoners, sill hinge and other gainer machines and band saws.
- (j) "Second-class wood machinist" (in wood) means any machinist called on to set up and operate any other machines, or any circular saw or dimension saw.
- (k) "Process worker" means an employee engaged on—
- (i) Repetition work on any automatic, semi-automatic or single-purpose machine or any machine fitted with jigs, gauges or other tools rendering operations mechanical (and in connexion with which the worker is not responsible for the setting up of the machine nor for the dimensions of the products other than by checking with gauges which gauges shall be either unadjustable or, if adjustable, shall not be set by the operator); or
- (ii) in assembling processes not requiring the use of hand tools (except hammers and/or screwdrivers and/or spanners).
- (l) "Electrical fitter" means a tradesman fitter mainly engaged in making, fitting or repairing electrical machines, instruments or appliances, who in the course of his work applies electrical knowledge.
- (m) "Electrical mechanic" means an adult employee mainly engaged outside a workshop on any class of installation work, or in the repairing thereof, or in wiring, and who, when employed inside a workshop, is engaged on repairs to installation.
- (n) "Motor mechanic" means an adult employee engaged in making, repairing, altering, assembling (except for the first time in Australia) or testing the metal parts (including electric) of the engines of motor cars, motor cycles or other motor vehicles, but not one engaged only in making minor adjustments to engines and chassis.
- (o) "First-class welder" means an adult employee using electric arc or acetylene blowpipe or coal gas cutting plant on work other than filling castings, cutting scrap metal, using jigs or doing work covered by definitions of second and third-class welder, and includes re-welding by hand processes.
- (p) "Second-class welder" means an adult employee not required to do first-class welding, but engaged in filling castings or in welding sheet metal or welding with the aid of jigs, or re-welding except by hand processes, or operating automatic welding machines for the setting up of which he is not responsible.
- (q) "Third-class welder" means an adult employee using electric spot or butt welding machine on work other than cutting scrap with oxy-acetylene blowpipe.
- (r) "Fourth-class welder" means an adult employee cutting scrap with oxy-acetylene blowpipe.
