In calculating the total weight of the vehicle 140 lb. shall be allowed for the driver, and for each passenger.
- (iii) *Chassis*.—The chassis and the body shall be so constructed that when the vehicle is fully loaded with the maximum permissible number of passengers the overhang beyond the centre of the rear wheels shall not in the opinion of the Board endanger the stability of the vehicle or the safety of the passengers conveyed thereon.
- (iv) *Springs*.—Springs must be properly hung, and be of a strength and flexibility satisfactory to the Board. Except by the written consent of the Board the use of cross springs on the vehicle shall not be permitted if such vehicle is licensed to carry more than twelve persons.
- (v) *Body*.—The body of the vehicle shall be constructed in a sound and workmanlike manner so as to afford proper protection to passengers under all conditions of weather, and shall be maintained reasonably clean and fit for the purpose required.
- (vi) *Seats*.—On every seat a width of at least sixteen inches, measured in a straight line, with a depth of not less than fourteen inches shall be allowed for each passenger and all seats shall be fit and proper and convenient for use. When cross or garden seats are used in the vehicle they shall be at least twenty-six inches clear from the inside back of one seat to the back of the seat in front, so that there shall be comfortable room for the knees of the passengers, and shall be fitted so as to provide a passage way not less than fifteen inches wide down the centre of the vehicle from front to rear which shall at all times whilst the vehicle is carrying passengers be kept clear of any obstruction. When seats are placed lengthwise in the vehicle the width between seat backs shall not be less than fifty-six inches. The seats shall be firmly and securely attached to the floor and body of the vehicle by bolts or other suitable attachments to the satisfaction of the Board or an Inspector. Backs and outer end guards in the case of seats fixed lengthwise shall be fixed behind or upon each seat or upon the body of the vehicle so as to provide protection and support to persons sitting thereon for a complete distance of not less than fourteen inches above the level of the seat.
- (vii) *Ventilation*.—Openings shall be provided to the satisfaction of the Board or an Inspector in the vehicle behind the driver's seat so as to provide for the effective clearance of all dust and fumes which may be collected in the body of the vehicle during its passage along the highway.
- (viii) *Noise and Vibration*.—The mechanism and all parts of the vehicle shall be so constructed and maintained that no undue noise or vibration arises while such vehicle is in use. Exhaust silencer "cut-outs" shall not be permitted to be used on the vehicle.
- (ix) *Exhaust Pipes*.—The exhaust pipe and connexions therewith shall be fixed and maintained in such a position that oil or any vaporizable or inflammable substance is not likely to be dropped upon it, and so that as far as practicable exhaust vapours shall not enter the vehicle.
- (x) *Fire Extinguishers*.—At least one suitable and approved appliance for extinguishing fire shall be carried in such a position as to be readily available for use, and

shall always be effectively maintained to the satisfaction of the Board or an Inspector.

- (xi) *Fuel Tanks*.—Tanks for petrol or other volatile liquid fuel shall be made of suitable material, properly constructed and of a strength sufficient for the requirements of ordinary use, and shall be so placed that any overflow will not accumulate where it might be readily ignited. When a gravity feed fuel system is employed the same shall be provided with a cock and tap readily accessible from the driving seat to enable the supply of petrol to be shut off.
- (xii) *Fuel*.—No petrol or other volatile liquid fuel shall be carried on the vehicle except in the fuel tank, or the fuel supply system with which such vehicle is equipped.
- (xiii) *Wiring*.—All wires carrying electric current shall be properly insulated and protected from injury, and so placed as not to be a source of danger.
- (xiv) *Heat*.—Effective means shall be adopted for preventing the heat of the motor, generator, or exhaust pipe connexions from injuriously affecting any parts of the vehicle or causing discomfort to passengers.
- (xv) *Warning Horns*.—A horn or other means of giving warning of its approach required by the Motor Car Acts to be carried on the vehicle shall be fixed within easy reach of the driver whilst he is using his seat.
- (xvi) *Tires*.—The use of any tires other than pneumatic tires is prohibited, and all tires shall be of a type or kind satisfactory to the Board, and shall at all times be maintained in such condition as to be free from any defect which might cause danger to persons on or in the vehicle, or on or in the vicinity of the highway.
- (xvii) *Driver's Seat*.—The driver's seat shall be so constructed as to exclude all other passengers therefrom or shall be fitted with a permanent partition across the width thereof at least nine inches in height and not less than eighteen inches and not more than twenty-eight inches from the centre of the steering column and to the left thereof.
- (xviii) *Brakes*.—The vehicle shall be fitted with a braking system which shall consist of a service brake operated by a pedal, and there shall be fitted to the vehicle a second brake for the purpose of emergency and/or holding the vehicle stationary under all conditions and such second brake shall be operated by a hand lever and the braking equipment shall be so constructed that when one brake is applied independently notwithstanding that the other brake is defective the brake so applied shall, in the opinion of the Board or an Inspector, be effective for stopping the vehicle within a reasonable distance, and the emergency brake shall also be capable of holding the vehicle stationary if the driver leaves his seat. When hydraulic or air brakes are employed there shall also be a brake mechanically operated by other means.
- (xix) *Steering Gear*.—The steering wheel shall not be fitted upon the left or near side of the vehicle. The steering arms, and connexions thereof shall be of ample strength, and as far as possible protected from damage. Such steering arms shall be unpainted and kept in a clean condition so that any defects which may develop may be readily detected upon visual inspection. Where reverse ball joints are incorporated in the steering system a safety cover or guard of sufficient strength shall be provided to prevent the accidental dropping of an arm.
- (xx) *Nuts and Bolts*.—All brake and steering connexions secured with bolts or pins must have such bolts threaded and fitted with nuts, which shall be locked and pinned. All other parts of the vehicle connected by bolts or studs and nuts which may be subject to severe vibration shall be fastened by lock nuts, castellated nuts and pins, or by nuts and springs or lock nut washers approved by the Board or an Inspector to prevent their working loose.

(xxi) *Stability*.—The vehicle shall be so constructed and fitted with such a body that when carrying the maximum permitted number of passengers seated therein it shall be stable and secure at all speeds permitted by law.

(xxii) *Tail Shaft*.—The tail shaft of the vehicle shall be provided with a safety strap or housing so that the forward end of the tail shaft if detached from its normal position cannot fall to the ground.

(d) The vehicle shall not be used for the carriage of goods for hire or reward or in the course of trade whilst carrying passengers pursuant to these Regulations.

(e) The vehicle shall not travel at a rate of speed—

(i) Greater than is reasonable and proper having regard to the traffic upon and using the highway at any time.

(ii) So as to endanger the safety of any person or property; or

(iii) Greater in any event than the speed prescribed for the vehicle by the *Motor Car Act 1928* or any subsequent amendments thereto.

(f) Except with the written authority of the Board no person shall be carried on the vehicle—

(i) Seated on the right hand side of the driver thereof.

(ii) Unless seated upon a seat attached to the vehicle in accordance with the provisions of Regulation 13 (c) (vi) hereof and not elsewhere or otherwise.

(g) No person shall be carried either standing or seated on the tail board of the vehicle.

(h) The number of persons the vehicle is authorized to carry by the terms of the Goods Vehicle—Special Passenger Licence relating to such vehicle shall be the number of passengers for whom seating accommodation is provided in or on the vehicle in accordance with these Regulations or such lesser number as in the opinion of the Board the vehicle may safely and conveniently carry and shall be the maximum number of passengers which it shall be lawful to receive or convey on such vehicle at one and the same time. Provided that for the purpose of compliance with this regulation any three children under the age of fourteen years shall be deemed equivalent to two passengers over the age of fourteen years.

(i) A notice shall be carried in such place on the vehicle as may be directed by the Board or an Inspector indicating the number of passengers which the vehicle is licensed to carry. Such notice shall be distinctly and legibly painted in words at length and with letters at least one inch high and of proportionate breadth in the following form, that is to say—

(j) The owner of the vehicle shall insure himself and at all times during the currency of the Goods Vehicle—Special Passenger Licence keep himself insured with some insurers approved by the Board against all sums for which he may become liable by way of damages in respect of such vehicle in the case of injury to persons. The minimum amount of insurance against such liability in respect of any such vehicle shall be—

Provided that such minimum amount of insurance in respect of any one vehicle shall not exceed Four thousand five hundred pounds;

Provided further that where more than one vehicle in respect of which a Goods Vehicle—Special Passenger Licence has been issued is owned by the same owner it shall be deemed to be a compliance with this Regulation if such owner is insured as aforesaid in respect of such vehicles jointly for an amount not less than Twelve thousand pounds.

All non-competing boats must be kept off the course during the racing programme.

No boats (except racing boats) will be allowed to land or take up passengers at the boat stagings (south bank), or from the bank along the Henley Reserve except at the landing stage.

The direction of the officers in charge of the course must be strictly attended to.

All boats (except racing boats) must move up stream along the right hand (south) bank, and must move down stream along the opposite (north) bank.

No advertisement or objectionable device will be permitted to be shown on any boat.

No fireworks or firearms will be allowed to be discharged from any boat, except where permission of the River Officer or his Deputy has been given.

A varnisher is a person employed solely coating with a brush or dipping parts of or completed articles of furniture of any class covered by this Determination with any oil or spirit varnish, lacquer, or substitute for such oil or spirit varnish or lacquer.

Employees to become entitled to the weekly wage prescribed by this Determination must be available and ready and willing to perform such work as the employer shall from time to time require on the days and during the hours usually worked by the class of employees affected. Where the majority of the employees of any establishment or of any department of such establishment agree to work part time for any period or to close down for any period on days other than the prescribed holidays, the provisions of the weekly wage shall not apply to any employee of such establishment or department during such periods.

Employment for the first two weeks of service at any time shall be from hour to hour at the weekly rate fixed.

(9) TERMINATING EMPLOYMENT.—Employment to be terminated only by a week's notice on either side, and such notice may be given at any time during the week. The interval shall be as part of the time of duty, without deduction of time-work pay. During such rest period the employees may leave their seats, but not the premises.

(13) **MATERIALS TO BE PROVIDED.**—Any person employed in wholly or partly preparing or manufacturing any article of furniture or in preparing any new or second-hand article of furniture shall be paid 6d. per hour in addition to the lowest rate fixed by this Determination, unless the following are provided by the employer if required in the performance of the work:—Benches, wood or iron clamps over 2 ft. 6 in., hand screws (in excess of four), glue pots, and glue brushes and varnish brushes. Provided that, where an employee proceeds direct from his or her home to a job outside the factory, he or she shall be paid for all time reasonably occupied in travelling to the job in excess of the time usually taken to go from his or her home to the factory.

All fares and reasonable travelling expenses incurred by an employee in such travelling, including the cost (if any) incurred for meals—together with the reasonable cost of board and lodging if the employee has to be away from his or her home for a night—shall be paid to the employee.

The fares allowed shall be first class where the employee has to travel all night in connexion with his or her employer's business, and in other cases the fares shall be second class.

The foregoing travelling and accommodation allowances shall be paid additional to the usual rates for the time employees are working.

If any of the above holidays occur on a Sunday or Saturday and are not observed on any other day, then employees shall not be paid for such Sunday, and shall be paid for such Saturday as for a half-day, but not otherwise.

All other weekly employees shall be paid for the above holidays an amount for each holiday based on the actual weekly wage paid to them by the employer.

Any employee absenting himself or herself from work on any portion of the working day preceding a holiday provided for herein other than Boxing Day and New Year's Day without permission from the employer or without having reasonable cause for having absented himself or herself from work shall not be entitled to payment for such holiday.

(16) **SICKNESS, ACCIDENTS.**—Any employee not attending duty shall lose his or her pay for the actual time of non-attendance unless he or she produces or forwards within 24 hours of the beginning of his or her absence evidence satisfactory to the management that his or her non-attendance was due to personal accident arising out of or in the course of his or her employment or to personal ill health sufficient to incapacitate him or her for his or her usual work.

An employee shall not be entitled to payment for non-attendance on the ground of accident or ill health for more than six days in each year.

For the purpose of this clause a year shall mean a period of twelve months commencing on the 17th day of August in each year.

(17) **PAY DAY.**—All employees shall be paid weekly on any other day than Saturday.

No employer shall hold more than two days' pay in hand.

Any employee kept waiting for his or her pay on pay day for more than a quarter of an hour after the usual time for ceasing work shall be paid overtime rates after that quarter of an hour and as for a quarter of an hour at least.

(18) **RIGHT OF ENTRY OF UNION OFFICIALS.**—For the purpose of interviewing employees on legitimate Union business, a duly accredited Official of the Federated Furnishing Trade Society of Australasia, authorized in writing by the President and Secretary of the Victorian Branch of such organization, shall have the right to enter during the meal hour, not more than once a fortnight, the portion of any employer's establishment in which any person covered by this Determination is employed; provided that he shall not enter any part of the business premises whereto the employer or his representative may reasonably refuse permission.

If such official is unduly interfering with the employees, or is creating disaffection amongst them, or is offensive in his conduct, an employer or his representative may refuse the right of entry.

(19) **PIECE-WORK.**—The employer may fix his own piece-work prices or task rates, provided such prices or rates enable an employee of average capacity working under like conditions to earn at least 10 per cent. more than the minimum weekly wage prescribed for the class of work performed. The same piece-work prices shall be paid to all piece-workers doing the same operation in the factory whether they be apprentices or improvers on piece-work, or otherwise.

All piece-workers who are available and ready and willing to work during the ordinary working hours shall be paid in each week, in the case of males not less than 7s. and in the case of females not less than 4s. 6d.
