*Marketing of Primary Products Act 1935.*

## NOTICE TO PRODUCERS OF ONIONS.

IN pursuance of the powers in that behalf conferred on me by section 33 of the *Marketing of Primary Products Act 1935* (No. 4337), I, Edmond John Hogan, Minister of Agriculture in the State of Victoria, do by this notice require all producers of onions who planted onions during the years 1936 or 1937, to furnish within fourteen (14) days of the publication of this notice in the *Government Gazette*, to the Director of Agriculture, Department of Agriculture, Public Offices, Melbourne, a return setting forth the following information:—

1. The name and address of the producer.
2. (a) The area planted by him in 1936 with each of the following varieties of onions:—  
Brown Spanish.  
Globe.  
White Onions.  
(b) The quantity of onions (in tons) of each such variety harvested by him from such planting.
3. (a) The area planted by him in 1937 with each of the following varieties of onions:—  
Brown Spanish.  
Globe.  
White Onions.  
(b) Where harvesting has been completed, the quantity of onions (in tons) of each such variety harvested by him from such planting.  
(c) Where harvesting has not been completed, an estimate of the quantity of onions (in tons) of each such variety that will be harvested by him from such planting.

E. J. HOGAN,  
Minister of Agriculture.

*Agricultural Colleges Act 1928 (No. 3634).*

## REGULATIONS.

WHEREAS by section 24 of the *Agricultural Colleges Act 1928*, it is enacted that the Council of Agricultural Education may specify the terms and conditions under which students may be received at any agricultural college or experimental farm established under the said Act in regulations to be made by the Council and approved by the Governor in Council. Now, therefore, the said Council of Agricultural Education, hereinafter called the Council, doth hereby, in exercise of the powers conferred by the above said recited Act, make the following Regulations (that is to say):—

1. In the year One thousand nine hundred and thirty-eight, and each succeeding year thereafter, the Council may admit to an agricultural college free of any charge for maintenance and tuition for a term of three years, one boy who during at least two years of the last four years of his attendance at school was an active member of a Young Farmers' Club in the State of Victoria, and who has been nominated by the Victorian Young Farmers' Clubs Association.
2. Admission of such boy to an agricultural college shall be in all other respects subject to Regulations of 8th November, 1937, under the *Agricultural Colleges Act 1928* (No. 3634), for regulating the terms and conditions under which students may be received at any agricultural college or experimental farm.

WM. GAMBLE, Chairman.  
H. MCK. GILMOUR, Secretary.

Approved by the Governor in Council,  
20th December, 1937.

C. W. KINSMAN,  
Clerk of the Executive Council.

## BOROUGH ECHUCA WATER TRUST.

## RATING BY-LAW FOR YEAR 1938.

THE Borough Echuca Water Trust, in pursuance and exercise of the powers conferred by the Water Acts, doth hereby make a rate for the supply of water for domestic purposes, otherwise than by measure, of Eighteen pence in the pound of the annual municipal valuation of lands and tenements liable to be rated within the Borough Echuca Water Trust Urban District.

Provided that in no case shall the amount of rate payable per annum in respect of any tenement (other than land on which there is no building) be less than Thirty shillings, and in respect of any land on which there is no building less than Ten shillings.

Such rates are made and shall be levied upon the occupiers or owners of the said lands and tenements for the year commencing the 1st day of January, 1938, and shall be payable on the 1st day of January, 1938, at the office of the said Trust.

Passed this thirteenth day of December, 1938.

(SEAL)

J. T. FREEMAN, Chairman.  
A. PONTING, Secretary.

## GISBORNE WATERWORKS TRUST.

## RATING BY-LAW FOR THE YEAR 1938.

THE Gisborne Waterworks Trust, in pursuance and exercise of the powers conferred by the Water Acts, doth hereby make a rate for the supply of water for domestic purposes otherwise than by measure, of One shilling and nine pence in the pound of the annual municipal valuation of lands and tenements within the Gisborne Urban district.

Provided that in no case shall the amount of rate payable per annum in respect of any tenement (other than land on which there is no building) be less than Thirty-five shillings, and in respect of any land on which there is no building, less than Twenty shillings.

Such rate is made for the year commencing the first day of January, 1938, and shall be payable on the first day of January, 1938, at the office of the said Trust.

For water supplied by the Trust for domestic as well as for other than domestic purposes by measure (except in cases of special agreement), the minimum quantity of water to be charged for in respect of all lands and tenements shall be the quantity for which the charge at Twelve pence per 1,000 gallons would be equal to the amount of rate which would be payable for the lands and tenements so supplied if supplied otherwise than by measure.

All water supplied by measure by the Trust in excess of such aforesaid quantity shall be charged for at the rate of Twelve pence per 1,000 gallons.

Passed this seventh day of December, 1937.

(SEAL)

W. T. GRANT, Chairman.  
H. P. DIXON, Secretary.

## LONGWOOD WATERWORKS TRUST.

## RATING BY-LAW FOR YEAR 1938.

THE Longwood Waterworks Trust, in pursuance and exercise of the powers conferred by the Water Acts, doth hereby make a rate for the supply of water for domestic purposes, otherwise than by measure, of Three shillings in the pound on the annual municipal valuation of lands and tenements liable to be rated within the Longwood Urban District.

Provided that in no case shall the amount of rate payable in respect of any tenement, other than land on which there is no building, be less than Sixty shillings, and in respect of any land on which there is no building, less than Twenty shillings.

Such rates are made and shall be levied upon the occupiers or owners of the said lands and tenements for the year commencing the 1st day of January, 1938, and shall be payable on the 1st day of January, 1938, at the office of the said Trust.

Passed this 17th day of November, 1937.

H. SEFTON, Chairman.  
L. GRANT, Secretary.

## TOWN OF ARARAT WATER SUPPLY DISTRICT.

## BY-LAW No. 32.—RATING BY-LAW FOR THE YEAR ENDING 30TH SEPTEMBER, 1938.

THE Council of the Town of Ararat, in pursuance and exercise of the powers conferred by the Water Acts, doth hereby make a rate for the supply of water for domestic purposes, otherwise than by measure, of Two shillings in the pound of the annual municipal valuation of lands and tenements liable to be rated within the Town of Ararat Water Supply District.

Provided that in no case shall the amount payable per annum in respect of any tenement, other than land on which there is no building, be less than £2, and in respect of any land on which there is no building, less than Five shillings.

No. 385.—15922.—2

Such rates are made and shall be levied upon the occupiers or owner of the said lands and tenements for the year ending the 30th day of September, 1938, and shall be payable on the second day of January, 1938, at the office of the said Council.

For water supplied by the Council for domestic as well as for other than domestic purposes by measure (except in cases of special agreement with the Council), the minimum quantity of water to be charged for in respect of all lands and tenements shall be the quantity for which the charge of One shilling per 1,000 gallons would be equal to the amount of the rate which would be payable for the lands and tenements so supplied if supplied otherwise than by measure. All water supplied by measure by the Council in excess of such aforesaid quantity shall be charged for at the rate of One shilling per 1,000 gallons.

The charge for water supplied by measure shall be payable on demand.

Passed this 22nd day of November, 1937.

## RAILWAYS CLASSIFICATION BOARD.

AWARD No. 55 OF 26TH NOVEMBER, 1937.

*Relating to Hours of Duty, Penalty Rates, &c.*

THE Railways Classification Board, in pursuance of the powers in that behalf conferred by the provisions of the *Railways Act 1928* (No. 3759), hereby determines and awards as follows (that is to say):—

(A) For the clauses indicated in the undermentioned Divisions of Award No. 8, viz.:—

Division 2—Ordinary Hours of Duty, clauses 1, 2, and 3.

Division 3—Number of Shifts.

Division 5—Interval of Hours between Shifts.

Division 7—Minimum Allowances, clauses 1 and 2.

Division 8—Overtime, clauses 1, 2, 3, 4, and 5.

Division 9—Sunday Duty, clauses 1, 2, and 9—

there shall be substituted the following clauses:—

*Division 2—Ordinary Hours of Duty.*

(1) Subject to (2), the ordinary hours of duty of officers and employees (excepting sleeping car conductors, conductors on special cars, tour guards, gatekeepers, and caretakers) shall be as set forth hereunder:—

All officers and employees, except those specifically referred to hereinafter—88 hours per fortnight.

Clerks employed in the Melbourne Goods Sheds—80 hours per fortnight.

Telegraphists, if employed at the Spencer-street Telegraph Office—73½ hours per fortnight.

Telegraphists, if employed at Ballarat, Bendigo, Geelong, Seymour, Flinders-street, or Melbourne Yard—78 hours per fortnight.

Telegraphists, if employed at any other place—84 hours per fortnight.

(2) Where the custom has been to work a less number of hours than those specified in (1) such custom shall continue subject to a minimum of 76 hours per fortnight.

(3) Time worked on a Sunday, other than in completion of a shift commenced on a Saturday, or in commencement of a shift terminating on a Monday, shall not be reckoned as part of the ordinary hours of duty.

*Division 3—Number of Shifts.*

The ordinary hours of duty shall be divided as far as practicable into not more than twelve (12) working days or shifts.

*Division 5—Interval for Rest between Shifts.*

Except in cases of unavoidable necessity, every officer or employee, after completing a full shift, shall be allowed off duty for at least 12 hours if at his home station, and, subject to Division 20, 10 hours if away from his home station, before being again required to undertake duty.

*Division 7—Minimum Allowances.*

(1) Any employee who is directed to and does actually undertake duty on any day or shift (except on a Sunday) shall be paid for a minimum of half one day ( $\frac{1}{2}$  day).

(2) If an employee is directed to attend for duty at a particular time, and is subsequently informed that he is not required until a later time, he shall be paid—

(a) for the actual time his duty is postponed, with a maximum of one-eighth ( $\frac{1}{8}$ ) of a day, provided that notice that he will not be required has been given him at his residence at least two hours before the time he was due to report for duty, and that he be given other work within 12 hours; or

(b) if he attend for duty, for continuous time from the time he reports, with a maximum of a quarter of a day ( $\frac{1}{4}$  day), provided he be given other work within 12 hours; or

(c) for three-eighths ( $\frac{3}{8}$ ) of a day if he be not given other work within 12 hours from the time he reported or was due to report (as the case may be) for duty.

Provided that this provision shall not apply in any case where notice that he will not be required until a later time has been given to an employee at his residence at least eight (8) hours before he was due to report for duty.

*Division 8—Overtime.*

(1) Overtime shall be all time worked—

(a) By employees on the running staff and by all officers and employees in the Transportation Branch (except as provided for hereunder), whose ordinary hours of duty are 88 per fortnight—

In excess of 10 hours on any day or shift.

In excess of 88 hours per fortnight.

(b) By employees in the Melbourne, Ballarat, Bendigo, or Geelong Goods Sheds, and by Shunters (including leading Shunters) and signalmen employed in first and special class boxes—

In excess of 9 hours on any day or shift.

In excess of 88 hours per fortnight.

(c) By officers or employees occupying salaried positions in the Head Offices whose ordinary hours of duty are between 9 a.m. and 4.45 p.m.—

After 6 p.m. on Mondays to Fridays, inclusive.

After 1.30 p.m. on Saturdays.

(d) By other officers or employees occupying salaried positions—

In excess of 10 hours on any day or shift.

In excess of 8 hours beyond the ordinary hours of duty per fortnight, but in any case in excess of 88 hours per fortnight.

(e) On a broken shift—

By any employee on the Running Staff, or by any officer or employee in connexion with suburban traffic—

After a spread of 11 hours. Otherwise—

After a spread of 12 hours.

(f) By all other employees—

Before the ordinary time of starting or after the ordinary time of ceasing work.

(2) Nothing herein shall be deemed to apply to sleeping car conductors, conductors on special cars, tour guards, gatekeepers, caretakers, office cleaners (female), or casual employees paid at a special rate per hour.

(3) The rate of payment for overtime shall be time and a half. Provided, however, that all time worked in excess of 12 hours on any day or shift shall be paid for at double rates.

(4) Payment for overtime shall be calculated, where such method of calculation is applicable—

(a) Upon the total time worked in excess of 9, 10, or 12 hours (as the case may be) or after a spread of 11 or 12 hours (as the case may be) on any day or shift in the fortnightly period; or

(b) Upon the total time worked in excess of the ordinary hours of duty for the fortnightly period.

Provided that such calculations shall be made upon whichever of these alternatives gives the greatest amount.

(5) Time worked on a Sunday, other than in completion of a shift commencing on a Saturday, or in commencement of a shift terminating on a Monday, shall not be taken into consideration in the computation of overtime.

*Division 9—Sunday Duty.*

(1) Time worked between midnight Saturday and midnight Sunday shall be paid for at the rate of time and one-third up to twelve hours, and double time thereafter.

(2) Any officer or employee (other than a patrolman) who works on a Sunday shall be paid for at least one-third of a day. In the case of a patrolman half of one day's pay shall be allowed.

(3) As far as practicable, provision shall be made to book off for a day during the same week any officer or employee who has worked a shift on a Sunday.

*(B) Award 8. Division 11—For Signalling Duties.*

For the words "two (2) hours" appearing in clause (3) of division (11) shall be substituted the words "one-quarter of a day."

*(C) Award 8. Division 20—Conditions Associated with the**Running of Trains.*

For the words "eight (8) hours" appearing in clauses 2, 3, and 4 of division (20) shall be substituted the words "one day."

His Excellency the Governor of Victoria.  
Mr. Dunstan | Mr. Tuckett.  
Mr. Bailey

**U**NDER and by virtue of the powers and authorities conferred by the *Justices Act 1928* and the *Acts Interpretation Act 1928*, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby amend the Rules under the Justices Acts in the manner following:—

For Item 8 of Part IV.—*Scale of Costs and Charges to be paid to Counsel and Solicitors, as between Party and Party, in Ordinary Complaints of the Schedule to the Justices Act Rules 1936* (No. 1) read—

8. Service.—For service of summonses or other documents a reasonable amount in the discretion of the Court of Petty Sessions, not being more than is prescribed for police service, or if authorized to be served by post 2s. 6d. If two or more documents in the same matter could have been served at the same time, only one service fee is to be allowed.

Provided that a Police Magistrate or Clerk of Petty Sessions upon application made to him before service of any summons or other document may fix, and endorse thereon a reasonable amount in his discretion (having regard to the foregoing provisions of this item) for the service thereof, and the Court of Petty Sessions in assessing the costs on the hearing shall have regard to the amount so fixed and endorsed.

Obtaining order for substituted service, including all professional costs, on all scales, 15s. If advertisement in lieu of service is ordered, the necessary and reasonable cost of advertisement in addition:

And the Honorable Albert Louis Bussau, His Majesty's Solicitor-General for the State of Victoria, shall give the necessary directions herein accordingly.

C. W. KINSMAN,  
Clerk of the Executive Council.

## STATE ELECTRICITY COMMISSION ACTS.

At the Executive Council Chamber, Melbourne, the twentieth day of December, 1937.

## PRESENT:

His Excellency the Governor of Victoria.

Mr. Dunstan  
Mr. Bailey

Mr. Tuckett.

## REGULATIONS RELATING TO EARTH LEAKAGE PROTECTION—AMENDING THE PROVISIONAL WIRING REGULATIONS 1934.

PURSUANT to the powers in that behalf conferred by the State Electricity Commission Acts, His Excellency the Governor of the State of Victoria, acting by and with the advice of the Executive Council thereof, doth hereby, on the recommendation of the State Electricity Commission of Victoria, make the following Regulations repealing amendments of the Provisional Wiring Regulations 1934, and substituting other Regulations therefor, and also amending the Provisional Wiring Regulations 1934, that is to say:—

*Citation.*

1. These Regulations may be cited as the Wiring (Earth Leakage Protection) Regulations 1938, and shall be read and construed as one with the Provisional Wiring Regulations 1934, which regulations and these Regulations may be cited together as The Provisional Wiring Regulations.

*Date of Operation.*

2. These Regulations shall come into force on the fourth day of April, 1938.

*Repeal of Regulations.*

3. The regulations relating to earth leakage protection amending the Provisional Wiring Regulations 1934 and made the fifth day of May, 1936, and the twenty-sixth day of October, 1936, respectively, and published in the *Government Gazette* No. 96, dated 13th May, 1936, and No. 203, dated 28th October, 1936, respectively, are hereby repealed: Provided that this repeal shall not affect any right acquired, or any liability incurred, or any act, matter, or thing done or suffered under the said repealed regulations or any of them before the commencement of these Regulations.

*Earth Leakage Protection.*

4. As from the fourth day of April, 1938, the Provisional Wiring Regulations 1934 shall be amended as follows, that is to say:—

(A) After regulation 517 there shall be inserted the following Regulations:—

## "EARTH LEAKAGE CIRCUIT-BREAKERS.

521. Save as provided in clause (b) hereof—

*Where Required.*

(a) An earth leakage circuit-breaker or circuit-breakers (as the case may require) complying with the requirements of regulation 2522 shall be installed as provided for hereinafter in regulations 522, 523, and 524 as part of and for the protection of—

- (i) every installation (other than an addition to or alteration of an existing installation) installed on or after the fourth day of April, 1938;
- (ii) every installation which, on or after the fourth day of April, 1938, is altered, divided, or extended so as to comprise a number of sections and thereby be suitable for the use of electricity by a separate consumer from each such section;
- (iii) every installation to which is added, on or after the fourth day of April, 1938, any part required under the provisions of section 5 of these Regulations to be earthed and which, prior to such addition, either included no such part or was exempted under the provisions of paragraph (iv) of sub-clause (1) of clause (b) of this regulation;
- (iv) every section or portion of any installation described under paragraph (i), (ii), or (iii) hereof which under regulation 523 is required to be or is intended to be independently or interdependently protected.

*Where Not Required.*

(b) (1) Notwithstanding the provisions of clause (a) hereof an earth leakage circuit-breaker shall not be required—

- (i) in any installation in which no part is required under the provisions of section 5 of these Regulations to be earthed; or

- (ii) in any installation in which the parts required under section 5 of these Regulations to be earthed are and continue to be connected in accordance with the provisions of the said section 5 to a metal water pipe which is electrically continuous with the piping of an underground public water supply reticulation system in which the metallic and electrical continuity of such piping is unbroken throughout the whole area supplied with water by such reticulation system.

The Commission shall from time to time, but not more frequently than at intervals of six months, publish in the *Government Gazette* lists of the areas and districts in which installations are under this sub-clause exempted from the provisions of clause (a) hereof; or

- (iii) in any installation or installations specified or described in a notice in writing forwarded by the Commission to the supply authority and stating that such installation or installations are exempted from the application of clause (a) hereof, but the Commission may by like notice at any time revoke the exemption of any or all such installations which have not then been installed; or
- (iv) for the protection of any installation or section or portion thereof which does not include any electrical outlet socket which is installed for the purpose of the connexion thereto of any portable appliance and in which all conductors are double-insulated, all lighting fittings are either of the all-insulated type or are not in an earthed situation, all accessories are of the all-insulated type, and no appliance has any metal part required under section 5 of these Regulations to be earthed.

*Where Supply Authority Undertakes to Install Earth Leakage Circuit-breaker.*

(2) The electrical contractor who has undertaken the work of installing the electric wiring and/or the electrical mechanic in charge of such work shall not be required to install or cause to be installed an earth leakage circuit-breaker or circuit-breakers in any installation or section or portion thereof in respect of which the supply authority has notified him in writing that it intends to install such circuit-breaker or circuit-breakers as may be required in the said installation to comply with the requirements of these Regulations.

522. Subject to any proviso, modification, or special requirement contained in regulation 523 or 524:—

*Purpose of Earth Leakage Circuit-breaker.*

(a) Every earth leakage circuit-breaker shall be so installed and connected that, in the event of any exposed metal part of the installation (including any part of the installation required to be earthed under regulation 501) reaching a pressure of or exceeding 26 volts from earth potential, it will cause the installation to be disconnected from all incoming active conductors.

*Position.*

(b) Every earth leakage circuit-breaker required to be installed by these Regulations shall be installed in a position determined by the supply authority either on the main switch-board or at some readily accessible point in the consumer's mains.

*Direct Earthing.*

(c) The installation of the earth leakage circuit-breaker or circuit-breakers required under regulation 521 shall be a requirement in addition to and not in lieu of any other requirements as to the earthing of the installation contained in section 5 of these Regulations.

*Connexion.*

(d) One end of the tripping coil of the earth leakage circuit-breaker shall be connected by means of a stranded bare copper conductor not smaller than 7/029 inch to the metal to be earthed, and the other end shall be connected by means of a vulcanized rubber insulated 250 volt grade cable not smaller than 7/029 inch which, where exposed to the weather, shall be weatherproof cable, to an independent earthing electrode such as an earth pipe as described in the third paragraph of clause (a) of regulation 512, which shall be installed as set forth in the said paragraph of the said regulation, and shall be used solely for the purpose of such connexion. Such electrode shall be established in a place at least 6 inches distant from any gas, water, or other metal pipe above ground and at least 6 feet distant from any cable, or gas, water, or other metal pipe on or in the ground. The resistance between any such earthing electrode and the general mass of earth shall not exceed 200 ohms. As far as practicable the insulated earthing conductor throughout its entire length shall be so placed that it is not liable to damage, but where its position is such that it is liable to damage it shall be protected by a suitable covering, and where a metallic covering is used for this purpose it shall be installed so that neither by contact nor through its supports or fixings can it be or be

connection electrical connexion with any metal other than clamps or clips used to fix it in position. Any connexion in the earthing conductor shall be a soldered joint which shall be insulated and covered with waterproofed tape in accordance with the requirements of clause (c) of regulation 326 of these Regulations.

**Testing Notice.**

(e) Every earth leakage circuit-breaker installed in any installation shall have the following words plainly and indelibly marked either on the circuit-breaker cover or on an approved durable label not smaller than  $2\frac{1}{2}$  inches x  $1\frac{1}{2}$  inches, which shall be securely fixed in a prominent position immediately adjacent to the circuit-breaker, and such marking or label shall be placed in such a position that it can be read easily when the circuit-breaker is mounted in position:—

"This switch must be tested every month by the consumer. Press the test button (or turn the test key in the direction indicated). If the switch does not open, either the switch or its connexion is defective, in which case the supply authority must be notified"

Provided that the words "Press the test button or" may be omitted in the case of an earth leakage circuit-breaker in which the test circuit is operated by a test key and the words "(or turn the test key in the direction indicated)" may be omitted in the case of an earth leakage circuit-breaker in which the test circuit is operated by a test button.

**As Main Switch.**

(f) If an earth leakage circuit-breaker or circuit-breakers as the case may require be installed to comply in all respects with the requirements of regulation 222 in so far as they apply to the control of the main supply to every independently metered portion of an installation by a switch or switches, no other switch to control such main supply shall be required under the said regulation 222.

If the distance between an earth leakage circuit-breaker and the main switchboard does not exceed 30 feet along a route which is not obstructed except by doors and which is at all times readily accessible to the consumer and is confined to the one storey of the premises—

(i) such earth leakage circuit-breaker shall be deemed to comply with the requirements of regulation 222 as to position; and

(ii) no further switch shall be required under regulation 222 for the control of the main supply to any independently metered portion of the installation provided such earth leakage circuit-breaker controls the whole of the supply to the installation.

**As Control Switch.**

(g) If an earth leakage circuit-breaker be installed to comply in all respects with a specific requirement of these Regulations for a switch for the control of a stated appliance, apparatus, or outlet, no other control switch need be installed under such requirement in respect of such appliance, apparatus, or outlet.

**SELECTIVE PROTECTION.**

523. Notwithstanding the requirements of regulation 522:—

**Installations Supplying not more than Six Consumers.**

(a) Where an installation is installed or divided so as to comprise more than one but not more than six sections so as to be suitable for the use of electricity by a separate consumer from each such section either—

**Selectivity as between Consumers.**

(1) a sufficient number of earth leakage circuit-breakers shall be installed and the installation shall be arranged to ensure that a failure of insulation in a section supplying one consumer or in any connexion thereto will not result in the disconnection of the supply of electricity to any other section supplying another consumer; or

**Selectivity as between Specified Portions of an Installation.**

(2) an earth leakage circuit-breaker shall be installed for the protection of each of the portions of the installation comprising the parts described in paragraphs (i) and (ii) hereunder, and the installation shall be arranged to ensure that a failure of insulation in any one such portion described in paragraph (i) will not cause the opening of a circuit-breaker controlling the supply of electricity to any other portion, and that a failure of insulation in any such portion described in paragraph (ii) will disconnect the supply of electricity from the whole installation, that is to say:—

(i) all appliances and outlets within any one section which include parts required under section 5 of these regulations to be earthed;

(ii) all metal conduits and metal sheathings throughout the installation which are required under these Regulations to be earthed and the conductors enclosed therein.

**Selectivity in an Installation Supplying more than Six Consumers.**

(b) Where an installation is installed or divided so as to comprise more than six sections so as to be suitable for the use of electricity by a separate consumer from each such section the number of earth leakage circuit-breakers to be installed and the arrangement of the installation shall be such as to conform to the requirements of clause (a) of this regulation:—

Provided however, the installing or alteration of the installation shall not be proceeded with unless and until the electrical contractor who has undertaken the work or the electrical mechanic in charge of such work has obtained the approval in writing of the supply authority to the steps he proposes to take to secure compliance with clause (a) of this regulation. Any such electrical contractor or electrical mechanic who has failed or neglected to obtain such approval prior to such work being proceeded with shall be guilty of an infringement of this regulation.

**Additional Selectivity may be Provided where Selectivity Required is not Interfered with.**

(c) In addition to the earth leakage circuit-breaker or (as the case may require) earth leakage circuit-breakers required to be installed under these Regulations, additional earth leakage circuit-breakers may, if desired, be installed in any installation for the protection of any portions of such installation provided that the express provisions of these Regulations are not thereby infringed.

**Purpose of Earth Leakage Circuit-breaker where Protection is Selective.**

(d) Where a section or portion of an installation is protected by an earth leakage circuit-breaker in the manner provided for in clauses (a) or (b) of this regulation—

(i) In the event of any exposed metal part of such section or portion (including any part thereof required to be earthed under regulation 501) reaching a pressure of or exceeding 26 volts from earth potential, be earthed under regulation 501) reaching a pressure the disconnection required under clause (a) of regulation 522 or under clause (a) or clause (b) of regulation 524 shall be confined and apply only to the supply of electricity to such section or portion of the installation.

**Direct Earthing of Certain Portions Prohibited.**

(ii) With the exception of the metal conduits and metallic sheathings referred to under paragraph (i) of sub-clause (2) of clause (a) of this regulation, no such section or portion shall be connected to earth except through the tripping coil of such earth leakage circuit-breaker.

**Connexion.**

(iii) The connexion required under clause (d) of regulation 522 shall be made as follows:—

One end of the tripping coil of the earth-leakage circuit-breaker shall be connected to the metal to be earthed by means of a vulcanized rubber insulated 250 volt grade cable not smaller than  $7/029$  inch and coloured green or, if enclosed within the conduit with or within the sheathings of the supply conductors of such section or portion, by means of a vulcanized rubber insulated 250 volt grade cable not smaller than  $3/029$  inch and coloured green. The other end of the tripping coil shall be connected to an independent earthing electrode in manner provided in clause (d) of regulation 522.

**Where Supply Authority Specifies Selectivity.**

(c) Provided always that where, on application being made to it, the supply authority has by notice in writing required that some number of earth leakage circuit-breakers other than that provided for in clause (a) hereof be installed and that the arrangement of the installation for securing any specified protection by or any specified independence or interdependence of operation of such earth leakage circuit-breakers be other than that provided for in the foregoing clauses (a), (b), (c), and (d) of this regulation it shall not be an infringement of this regulation if the installation is carried out strictly in accordance with such specified requirements of the supply authority.

**SPECIAL CASES.**

**Earth Leakage Circuit-breaker may open Relay Circuit.**

524. (a) Where an installation or section or portion thereof is controlled by a contactor or circuit-breaker which complies with the requirements of these Regulations, the disconnection referred to in clause (a) of regulation 522 or in sub-clause (i) of clause (d) of regulation 523 may be effected by the insertion of an earth leakage circuit-breaker in the relay circuit of the contactor or circuit-breaker.

**Disconnection of Neutral or Negative Conductor.**

(b) Where an installation is supplied from a system in which a current limiting device is inserted in the earthing conductor at the source of supply, the earth leakage circuit-

breaker shall be so installed and connected that by its operation as specified in clause (a) of regulation 522 or, as the case may be, in sub-clause (i) of clause (d) of regulation 523, the installation or, as the case may be, the section or portion thereof, shall also be disconnected from the incoming neutral conductor; and where an installation is supplied from a system in which no conductor is earthed at the source of supply, the earth leakage circuit-breaker shall be so installed and connected that by its operation as specified in the said clause (a) or sub-clause (i) of clause (d) the installation or, as the case may be, the section or portion thereof, shall be disconnected from all incoming conductors.

#### CONSUMER'S MAINS.

##### Special Provisions.

525 (a) Notwithstanding anything to the contrary contained in clause (c) of regulation 212:—

##### Where Earth Leakage Circuit-breaker is Required.

- (1) Where an earth leakage circuit-breaker is required under these Regulations to be installed, the consumer's mains between the point of entry and such earth leakage circuit-breaker; or

##### Where existing Mains are Replaced.

- (2) Where consumer's mains are replaced in any installation which has been installed before, on or after the fourth day of April, 1938, and which is not of a kind described in paragraph (i), (ii), or (iii) of sub-clause (1) of clause (b) of regulation 521 of these Regulations, the consumer's mains between the point of entry and such point as the supply authority may determine as the point suitable as the position for an earth leakage circuit-breaker for the protection of such installation

shall be one of the following types of cable and shall be installed according to the method laid down hereunder in respect of such cable, that is to say:—

- (i) *Tough rubber compound covered vulcanized rubber insulated cables* complying with the requirements of paragraph (8) of clause (d) of regulation 2304.

The cables shall be enclosed in steel conduit and shall terminate in a junction box at the point of entry.

- (ii) *Rubber compound insulated cables* complying with the requirements of paragraph (9) of clause (d) of regulation 2304: Provided that where such cables are used the thickness of the rubber compound insulation shall be not less than that required for vulcanized rubber insulated cables of the same conductor size plus the thickness of tough rubber compound covering required for tough rubber compound covered cables. The insulation and covering of such cables may be separately applied or applied in one process.

The cables shall be installed in the manner specified in paragraph (i) above.

- (iii) *Vulcanized rubber insulated and braided cables* complying with the requirements of paragraph (2) of clause (d) of regulation 2304.

The cables shall be enclosed in insulating conduit or in internally insulated steel conduit and conduit fittings, all of which shall be approved for the purpose, and shall terminate in a junction box at the point of entry.

- (iv) *Cables in which the neutral conductor is in the form of a tape or close fitting wires helically arranged external to all active conductors and covered with insulation as required for 250 volt cables of the types listed under clause (d) of regulation 2304.* Such cables shall be braided overall or tough rubber sheathed and shall not be used for this purpose unless approved therefor in writing.

The cables shall be protected by enclosure in conduit or casing where liable to mechanical damage, but otherwise may be installed without such protection. They shall terminate in a suitable junction box at the point of entry.

- (v) *Vulcanized rubber insulated weatherproof cables* complying with the requirements of regulation 2311: Provided that such cables shall not be used unless they be enclosed in a duct formed within a brick or concrete wall of a building and having a porcelain or earthenware outlet as hereinafter described.

The duct shall be approximately vertical and uniform in section and shall be partitioned off from any other cavity by barriers of durable material not less than 1 inch in thickness. It shall be of suitable form and of sufficient size to permit of easy withdrawal and replacement of the cables and shall be not smaller than 2 inches wide by 1½ inches deep.

The porcelain or earthenware outlet above-mentioned shall be arranged to prevent the entry of moisture and to prevent abrasion of the cable insulation, and shall be fixed at the exterior extremity of the duct.

Where the length of the cables within the duct exceeds 12 feet they shall be supported at intervals not exceeding 12 feet by supports which are accessible for the release and adjustment of the cables and which will not damage the cable insulation.

- (vi) *Cables* that may from time to time be approved in writing for the purpose. Such approval may be either general or may be given in respect of a specified installation or installations.

The cables shall be installed in accordance with the appropriate requirements of these Regulations in respect of such cable, with any modifications thereof or requirements additional thereto that may be set out by the Commission in the writing expressing the relevant approval.

##### Conduit not to be Earthed.

- (b) Notwithstanding the provisions of regulation 501 and paragraph (ii) of clause (h) of regulation 343 steel conduit which encloses consumer's mains installed between the point of entry and the earth leakage circuit-breaker in the manner set out in sub-clause (i), (ii), or (iii) of clause (a) hereof shall not be connected to earth either directly or through the tripping coil of an earth leakage circuit-breaker. Such conduit, unless internally insulated, shall be separated from all structural and other metal by some durable non-conducting material.

##### Junction Box.

- (c) The junction box referred to in clause (a) hereof shall be of a type approved for the purpose. The consumer's mains between such junction box at the point of entry and the consumer's terminals shall be vulcanized rubber insulated weatherproof cables installed as required by clause (d) of regulation 212.

- (B) After regulation 2517 there shall be inserted the following:—

#### "EARTH LEAKAGE CIRCUIT-BREAKERS.

##### Compliance with Regulation.

2522. (1) Except as provided for in clause (2) hereof, every earth leakage circuit-breaker shall comply with the requirements of clauses (5) to (16) inclusive, and shall be capable of satisfactorily passing the tests and of attaining the test results specified in clauses (17) to (24) of this regulation.

##### Earth Leakage Circuit-breakers for Use in Relay Circuits.

- (2) Every earth leakage circuit-breaker intended for use in accordance with the provisions of clause (a) of regulation 524 for insertion in the relay circuit of a contactor or circuit-breaker shall be rated at not less than 5 amperes and shall comply with the requirements of clauses (5), (7), (8), and (10) to (16) inclusive, of this regulation and shall be capable of satisfactorily passing the tests specified in clauses (17) to (22) inclusive, and in sub-clause (b) of clause (24) of this regulation.

##### Definitions.

- (3) For the purpose of these Regulations—

- (a) the term "earth leakage circuit-breaker" shall mean a switch suitable for opening a circuit automatically when a pre-determined difference of potential is applied between a "frame" terminal of the switch which is intended for connexion to metal casings, frames, conduits and/or like metal parts in or connected to an installation, and an "earth" terminal which is intended for connexion to the general mass of earth.
- (b) the term "minimum tripping current" shall mean the maximum current which can be carried through the leakage trip coil without causing the circuit-breaker to open.

##### References to Pressures and Currents.

- (4) Where pressures and currents are referred to in this regulation they shall be deemed to relate to 50 cycle alternating currents except where otherwise stated, and values quoted shall be deemed to be root-mean-square values.

##### Marking.

- (5) (a) Every earth leakage circuit-breaker shall be indelibly marked with the following particulars:—

- (i) Voltage  
(ii) Amperage } Indicating whether A.C. or D.C.  
(iii) Frequency }

- (iv) Manufacturer's name or distinguishing mark.

- (v) In the case of an earth leakage circuit-breaker which will not operate under the conditions specified in paragraph (i) of sub-clause (b) of clause (22) hereof within 0.1 second, the words "Time Delay" and the maximum operating time in seconds.

##### Terminal Markings.

- (b) The terminals of every earth leakage circuit-breaker shall be clearly and permanently marked for identification

purposes\*, and a diagram showing the correct method of connecting the circuit-breaker and showing the terminals indicated by corresponding markings shall be marked on, or supplied with each earth leakage circuit-breaker.

**DESIGN AND CONSTRUCTION.**

**Breaking Capacity.**

(8) Every earth leakage circuit-breaker shall be capable of interrupting twice in succession, at a two-minute interval, a circuit adjusted to produce a prospective maximum short circuit current of the value specified in Table I., Breaking Capacity Test, for its rating, when tested in the manner described in clause (23) hereof.

TABLE I.—BREAKING CAPACITY TEST.

Circuit-breaker Rating, Amps.	Maximum Short-circuit Current, Amps.
Up to and including 50 .. .. .	600
Above 50 and up to 200 .. .. .	1,500

**Leakage Trip Operation.**

(7) Every earth leakage circuit-breaker shall open consistently and without failure when the following pressures (which shall be D.C. in the case of an earth leakage circuit-breaker for use in a D.C. circuit) are applied to the earth leakage trip coil and the specified external resistance in series with it as set out in Table II., Operating Voltages of Leakage Trip Device, and shall satisfy the test requirements of clause (22) hereof.

TABLE II.—OPERATING VOLTAGES OF LEAKAGE TRIP DEVICE.

External Resistance in Series with Leakage Trip Coil.	200 Ohms.	500 Ohms.	800 Ohms.
Operating voltage across coil and resistance	Not less than 20 nor more than 26 volts	Less than 42 volts	Less than 65 volts

**Temperature Rise of Current-carrying Parts.**

(8) After the load test specified in clause 20 hereof has been made the earth leakage circuit-breaker shall be capable of carrying its full rated current continuously, while the leakage trip coil simultaneously carries continuously the minimum tripping current, without the temperature rise exceeding 20°C. at any connecting terminal or 40°C. at any other part.

The test of temperature rise shall be carried out as described in clause (21) hereof. The ambient temperature of reference shall be 40°C.

**Multi-pole Circuit-Breakers.**

(9) Every multi-pole earth leakage circuit-breaker shall be so arranged that—

- (i) all active conductors will be connected and disconnected simultaneously,
- (ii) no active conductor will be connected before the neutral,
- (iii) the neutral conductor will not be disconnected before all active conductors have been opened.

**Insulation of Current-carrying Parts.**

(10) The current-carrying parts of every earth leakage circuit-breaker shall be mounted on or insulated with—

- (i) Insulating mouldings with resin base;
- (ii) Cold mouldings,
- (iii) Composition board,
- (iv) Vitreous ceramics,

or such other materials as may be approved from time to time by the Commission.

**Containing Case.**

(11) The trip mechanism of every earth leakage circuit-breaker shall be completely enclosed in a dust-proof enclosure. All covers used for this enclosure or to enclose live parts of the earth leakage circuit-breaker shall be insulating mouldings, except that for an earth leakage circuit-breaker of a rating over 50 amperes the case may be of metal. If a metal case be used it shall be in direct electrical connexion with the frame terminal of the earth leakage circuit-breaker.

\* NOTE.—Until such time as Australian, British, or International standard markings are laid down the following markings or those used in the country of origin corresponding with those markings will be accepted:—

- F = Frame (frames, casings and/or conduits).
- E = Earth (earth plate or pipe).
- N = Neutral.

- L (L<sub>1</sub>, L<sub>2</sub>, L<sub>3</sub>) = Actives on line side.
- A, B, C = Actives on load side.

**Protection against Corrosion.**

(12) The metallic portions of the mechanism of every earth leakage circuit-breaker shall be either inherently resistant to, or so treated as to make them resistant to atmospheric corrosion.

**Method of Operation.**

(13) Every earth leakage circuit-breaker shall be arranged for manual closing and opening, and the mechanism shall be trip-free.

**Mechanical Stability.**

(14) Every earth leakage circuit-breaker shall be so constructed that it will not open when subjected to any mechanical shock or vibration to which it may normally be liable when mounted in position.

**Windings of Leakage Trip Coil.**

(15) The earth leakage trip coil of every earth leakage circuit-breaker shall be wound with copper wire not smaller than No. 36 S.W.G.

**Testing Device.**

(16) Every earth leakage circuit-breaker shall be provided with an externally operated testing device which when operated will check the operation of the earth leakage circuit-breaker by first disconnecting the trip coil from the frame terminal referred to in clause (3) hereof and subsequently connecting the trip coil to an active conductor through a resistance which will then permit a current not exceeding the minimum tripping current by more than 75 per cent. to pass through the coil. Upon its release, this testing device shall return to its normal position, and in a positive manner shall restore the connexion of the trip coil to the said frame terminal.

**TESTS.**

**Testing—General.**

(17) (a) The various tests specified herein shall be carried out in the following order, that is to say:—

**Sequence of Tests.**

- (i) Dielectric tests—
  - 1. Insulation resistance test.—See clause (18)(a).
  - 2. High voltage test.—See clause (18)(b)
- (ii) Mechanical test.—See clause (19).
- (iii) Load test.—See clause (20).
- (iv) Test of temperature rise.—See clauses (8) and (21).
- (v) Performance tests.—See clauses (7) and (22).
- (vi) Test of breaking capacity.—See clauses (6) and (23).
- (vii) Additional tests.—See clauses (16), (18)(a), and (24).

**Containing Cases and Covers to be in Position.**

(b) All tests shall be carried out with containing cases and covers in position.

**Dielectric Tests.**

(18) Dielectric tests shall be applied to the earth leakage circuit-breaker in clean new condition after exposure to the ordinary atmosphere for at least twenty-four hours prior to the tests.

**Insulation Resistance Test.**

(a) The insulation resistance shall be measured before the high voltage test is applied, and shall be not less than 10 megohms.

The insulation resistance shall be measured—

- (i) Between line terminals and any metal parts which would be exposed when the earth leakage circuit-breaker is mounted in position. This test shall be made with all exposed metal parts bonded together, and with all line terminals bonded together, with the circuit-breaker first in the closed position, and then in the open position.
- (ii) In the case of an earth leakage circuit-breaker with more than one pole, between each pair of poles, with the earth leakage circuit-breaker in the closed position.
- (iii) Between incoming line terminals and outgoing line terminals with the earth leakage circuit-breaker open, and in the case of an earth leakage circuit-breaker having more than one pole, with all incoming line terminals bonded together and all outgoing terminals bonded together.
- (iv) Between line terminals and the frame terminal with all incoming line terminals bonded together, and with the earth leakage circuit-breaker first in the closed position, and then in the open position.

The measurements shall be made with a direct current voltage of approximately 500 volts applied for a sufficient time for the reading of the testing indicator to become practically steady.

**High Voltage Test.**

(b) Every earth leakage circuit-breaker, with all coils connected, shall withstand for one minute without breakdown, a high voltage test of 2,000 volts, the test voltage being applied between the same parts and under the conditions specified for the insulation resistance test in sub-clause (a) of this clause (18).

*Mechanical Test.*

(19) A total of seven hundred mechanical operations shall be carried out on the earth leakage circuit-breaker as under:—

- (i) *Mechanical Operation.*—Two hundred cycles each consisting of closing and opening the circuit-breaker by means of the manual operating handle, the circuit-breaker not being connected to the supply during this test.
- (ii) *Earth Leakage Trip.*—Five hundred cycles each consisting of closing the circuit-breaker by means of the manual operating device and opening the circuit-breaker by the electrical operation of the earth leakage tripping device through the medium of the test circuit, the only current passing through the main contacts during this test being that necessary for the tripping of the coil.

After these operations all parts shall be in good working order, and shall be without permanent distortion.

*Load Test.*

(20) The earth leakage circuit-breaker shall be connected in a circuit in which the current has been adjusted to a value 50 per cent. in excess of the rated current. The applied pressure shall be 250 volts in the case of an earth leakage circuit-breaker intended for use at low pressure, and the rated voltage in the case of a circuit-breaker intended for use at medium pressure. The test shall be made with direct current in a non-inductive circuit in the case of a D.C. earth leakage circuit-breaker, and in the case of an A.C. earth leakage circuit-breaker the power factor of the circuit shall be between 0.9 and unity.

The earth leakage circuit-breaker shall be opened and closed under load 100 times consecutively at a rate of approximately 10 cycles per minute. The earth leakage circuit-breaker shall be rejected if it fails to interrupt the current, or fails in any other way, either electrically or mechanically, or if the contacts or any part of the earth leakage circuit-breaker are appreciably damaged.

In the case of an earth leakage circuit-breaker having more than one pole, the test shall be carried out under the most severe conditions under which the earth leakage circuit-breaker could be used at its marked rating.

*Test of Temperature Rise.*

(21) After the earth leakage circuit-breaker has continuously carried its full rated current, and the trip coil has simultaneously carried the minimum tripping current for two hours, or such shorter period as may be required to obtain a constant temperature rise, the temperature rise of the contacts shall be measured by means of thermo-couples, and that of the coil by the increase-of-resistance method. The temperature rise of any other part of the earth leakage circuit-breaker shall be measured by an appropriate method.

In the case of a D.C. earth leakage circuit-breaker, direct current shall be passed through the trip coil for the purpose of this test.

The connecting cables shall have a current carrying capacity which, in accordance with Table A (11) of the Appendix to these Regulations, is the next size immediately below the correct size for the earth leakage circuit-breaker under test, as indicated by its marked current rating, and each cable shall be not less than 2 feet long.

*Operating Test of Leakage Trip Device.*

(22) The leakage trip device of the earth leakage circuit-breaker shall conform to the following operating requirements:—

*Operation under Various Applied Pressures.*

- (a) (i) A test voltage of less than 20 volts and not less than 19.5 volts shall be instantly applied with the earth leakage circuit-breaker closed, and with a resistance of 200 ohms in series. The circuit-breaker shall not open.
- (ii) Test voltages of 26 volts, 42 volts, and 65 volts shall be instantly applied with resistances of 200 ohms, 500 ohms, and 800 ohms respectively in series, and with the earth leakage circuit-breaker completely closed. In each case the circuit-breaker shall open and, except in the case of an earth leakage circuit-breaker provided with delayed action, shall remain open when an attempt is made to close it by means of the manual operating handle while the test voltages are so applied.
- (iii) With 200 ohms in series and the earth leakage circuit-breaker completely closed, the test voltage shall be gradually raised from below 20 volts to 26 volts. The circuit-breaker shall open.
- (iv) With 200 ohms in series and the contacts of the earth leakage circuit-breaker just touching, the test voltage shall be gradually raised from below 20 volts to 26 volts. The circuit-breaker shall open.

*Operating Time.*

- (b) (i) With a pressure of 30 volts applied to the trip coil, and with a series resistance of 200 ohms, and with the main contacts of the earth leakage circuit-breaker carrying rated current, the operating time shall be no greater than 0.1 second.
- (ii) Provided that where an earth leakage circuit-breaker is installed for a purpose for which it is not required by these Regulations to be installed, and is marked "Time Delay," the operating time shall be such longer time as is shown by the marking referred to in paragraph (v) of sub-clause (a) of clause (5) hereof.

For the purpose of this clause, the "operating time" shall mean the time which elapses between the closing of the test circuit and the parting of the main contacts of the earth leakage circuit-breaker.

*Test of Breaking Capacity.*

(23) The earth leakage circuit-breaker shall be tested in the following manner in order to ascertain whether it complies with the requirements of clause (6) hereof (Breaking Capacity).

The test circuit shall be so adjusted that the current applied to the closed earth leakage circuit-breaker has the prospective maximum value specified in the said clause (6).

The power factor of the test circuit shall be approximately 0.75, and the open circuit voltage immediately prior to the test shall be 250 volts in the case of an earth leakage circuit-breaker for use at low pressure or marked voltage in the case of an earth leakage circuit-breaker for use at medium pressure.

The test circuit shall be so arranged that the contacts of the earth leakage circuit-breaker part at current zero after a time from closing on to the test current approximately equal to the greatest operating time of the earth leakage circuit-breaker when full voltage is applied to the test circuit. All poles shall be tested simultaneously, the test circuit being so arranged as to represent a normal condition of operation under balanced loading and so as to apply the foregoing conditions as to timing to any one pole.

When the earth leakage circuit-breaker is intended for use in a metal case it shall be mounted in such a case for test, and for the purpose of this test the case shall be connected to the neutral of the supply source.

*Additional Tests.*

(24) (a) At the conclusion of the test of breaking capacity—

- (i) the earth leakage circuit-breaker shall be examined visually and it shall be ascertained whether or not the main current carrying parts have been impaired;
- (ii) the performance tests specified in clause 22 shall be repeated to determine whether or not the operating characteristics have been affected;
- (iii) the operation of the testing device shall be checked to ascertain whether or not the testing device then complies with the requirements of clause (16).

(b) At the conclusion of all other tests the insulation resistance test described in sub-clause (a) of clause (18) shall be repeated.

(c) Should the examination and/or testing referred to in clauses (a) and (b) hereof reveal that a defect has developed during the tests, the earth leakage circuit-breaker shall be rejected."

*Amendment of Regulation 301.*

(C) The following shall be substituted for clause (a) of regulation 301:—

"Where braided rubber insulated cables are used—

- (i) black braided cables shall be used for all neutral cables and the negative cables of 2 wire D.C. systems;
- (ii) green braided cables shall be used for the insulated earthing conductors used for the connexion of earth leakage circuit-breakers as provided for in sub-clause (iii) of clause (d) of regulation 523;
- (iii) cables with red or other distinctive coloured braiding (not being black or green) shall be used for all other cables."

And the Honorable Francis Edward Old, His Majesty's Minister in Charge of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.

COHUNA DRAINAGE DISTRICT—DISTRICT  
CONSTITUTED.

UNDER the powers conferred by the Water Acts and all other powers enabling him in that behalf, His Excellency the Governor of the State of Victoria, with the advice of the Executive Council of the said State, doth hereby declare, order, and direct as follows:—

1. That the area included within the boundaries defined in the schedule hereunder shall be, and the same is hereby constituted, a Drainage District (and as on and from the 1st day of January, 1938, such area shall be deemed to be so constituted).
2. That the boundaries of such district shall be those set out and described in the aforesaid schedule.
3. That the name of such district shall be Cohuna Drainage District.
4. That the scheme of works for such district consists of the construction of drains with necessary structures for the drainage of the district.
5. That the estimated cost of such works is £74,300. A sum of £35,300 has been provided from Unemployment Relief Funds to date.

## SCHEDULE.

Boundaries of Drainage District constituted by this Order:—  
Commencing at the north-eastern angle of allotment 43A, Parish of Gannawarra, County of Gunbower; thence southerly by the eastern boundary of that allotment to the northern boundary of allotment 42; thence easterly by the last-mentioned boundary and the northern boundary of allotment 44 to the north-eastern angle of that allotment; thence southerly by the western boundary of a road to a point in line with the northern boundary of allotment 47A; thence easterly by a line and the last-mentioned boundary and southerly by the eastern boundary of that allotment to the northern boundary of allotment 47B; thence easterly by the last-mentioned boundary and southerly by the eastern boundary of that allotment to a point in line with the northern boundary of allotment 49; thence easterly by a line, the last-mentioned boundary, and a line in continuation thereof to the western boundary of allotment 51; thence southerly by the last-mentioned boundary and a line in continuation thereof to the northern boundary of allotment 50; thence easterly by the southern boundary of a road to the north-eastern angle of allotment 6, section C, Parish of Cohuna; thence southerly by the eastern boundary of said allotment 6 and a line in continuation thereof to the north-eastern angle of allotment 10; thence easterly by a line, the northern boundary of allotment 9, and southerly by the eastern boundaries of that allotment and allotment 11 to the south-eastern angle of the last-mentioned allotment; thence south-easterly by a production of the southern boundary of said allotment 11 to the western boundary of allotment 16; thence northerly by the last-mentioned boundary and easterly by the northern boundaries of said allotment 16 and allotment 17 to the south-western boundary of a 3-chain road; thence south-easterly by the last-mentioned boundary to the most easterly angle of allotment 19; thence north-westerly by the northern boundary of a road to a point in line with the eastern boundary of allotment 1, section 1, Parish of Gunbower West; thence southerly by a line and the last-mentioned boundary to a point in line with the south-western boundary of allotment 14, section E, Parish of Cohuna; thence generally south-easterly by the south-western boundaries of allotments 14, 4, 7, 8, 9A, 9, and 9C, to the most southerly angle of said allotment 9C; thence easterly by a line to the most westerly angle of allotment 11; thence north-easterly by the north-western boundaries of said allotment 11 and allotment 10, and south-easterly by the north-eastern boundary of the last-mentioned allotment, and a line in continuation of the last-mentioned boundary to the left bank of the Barr Creek; thence generally northerly by the said creek bank to a point in line with the north-eastern boundary of allotment 1, section A, Parish of Gunbower West; thence south-easterly by a line and the last-mentioned boundary and a line in continuation thereof to the north-western boundary of allotment 3A; thence north-easterly by the last-mentioned boundary and generally easterly by the northern boundaries of allot-

ments 3A, 5, and 6 to the most easterly angle of said allotment 6; thence south-westerly by the south-eastern boundaries of said allotment 6 and allotments 5 and 3 and a line in continuation of the last-mentioned boundary to the north-eastern boundary of allotment 1A, section 4; thence generally south-easterly by the south-western boundary of a road to the eastern boundary of the Parish of Gunbower West; thence northerly by the said parish boundary to the left bank of the Gunbower Creek; thence generally easterly and southerly by that creek to a point in line with the eastern boundary of allotment 4C, section 5, Parish of Gunbower; thence generally southerly by a line, the last-mentioned boundary, and the eastern boundary of allotment 7 to the south-eastern angle of that allotment; thence easterly, southerly, easterly, and southerly by the northern and eastern boundaries of allotment 8 and a line in continuation of the last-mentioned boundary to the left bank of the Gunbower Creek; thence generally southerly by that bank to a point in line with the southern boundary of allotment 12, section 5; thence westerly by a line and the last-mentioned boundary to a point distant 10 chains westerly from the south-eastern angle of said allotment 12; thence by a line bearing south to the southern boundary of allotment 14; thence westerly by the last-mentioned boundary and a line in continuation thereof to the eastern boundary of allotment 2, section 6; thence generally south-easterly by the south-western boundary of a road to a point in line with the southern boundary of allotment 9C; thence westerly by a line, the last-mentioned boundary, and a line in continuation thereof to the right bank of Taylor's Creek; thence generally north-westerly by the said right bank and the right banks of the Contour and Macorna channels to a point due north of the most easterly angle of allotment 6, section 6, Parish of Gunbower West; thence southerly by a line to the last-mentioned angle; thence generally westerly by the southern boundary and north-westerly by the south-western boundary of said allotment 6 to the most westerly angle of that allotment; thence generally westerly by the southern boundaries of allotments 5, 20B, 20C, and 20E, said section 6, and allotments 3C, 5E, and 5A, section 7, a line connecting those boundaries, and northerly by the western boundary of the last-mentioned allotment to a point in line with the southern boundary of allotment 7B; thence westerly by a line, the last-mentioned boundary, the southern boundary of allotment 11C, and a line in continuation thereof to the right bank of the Box Creek; thence generally northerly by that bank and the right bank of the Pyramid Creek to a point in line with the western boundary of allotment 17; thence northerly by a line, the last-mentioned boundary, the western boundary of allotment 22, and a line in continuation of the last-mentioned boundary to the southern boundary of allotment 35A; thence generally westerly by the northern boundary of a road to the south-western angle of allotment 25, Parish of Macorna; thence northerly by the western boundary of that allotment, westerly and northerly by the southern and the western boundaries of allotment 24 to a point in line with the southern boundary of allotment 17A, section F; thence westerly by a line and the last-mentioned boundary and northerly by the western boundary of that allotment to a point in line with the southern boundary of allotment 18; thence westerly by a line and the last-mentioned boundary, northerly by the western boundary of that allotment, and westerly by the southern boundary of allotment 19 and a line in continuation thereof to the right bank of the Pyramid Creek; thence generally north-westerly by that bank to a point in line with the western boundary of allotment 20; thence northerly by a line and the last-mentioned boundary to the southern boundary of allotment 31; thence westerly and northerly by the southern and western boundaries of said allotment 31 and westerly and northerly by the southern and western boundaries of allotment 26 and a line in continuation of the last-mentioned boundary to the southern boundary of allotment 28; thence westerly and northerly by the southern and western boundaries of the last-mentioned allotment to the southern boundary of allotment 27; thence westerly by that boundary and a line in continuation thereof to the north-eastern boundary of a Timber and Water Reserve; thence generally northerly by that boundary and the right bank of the Pyramid Creek to a point in line with the most westerly boundary of allotment 40, Parish of Gannawarra; thence northerly by the eastern boundary of a road and a line in continuation thereof to the left bank of the Barr Creek; thence generally easterly by that bank to a point in line with the northern boundary of allotment 64A; thence easterly by a line, the last-mentioned boundary, and the northern boundary of allotment 43A to the point of commencement.

The boundaries set out and described in the foregoing schedule are shown on a plan approved by the Governor in Council, and deposited in the office of the State Rivers and Water Supply Commission, Melbourne.

KERANG EAST DRAINAGE DISTRICT.—DISTRICT  
CONSTITUTED.

UNDER the powers conferred by the Water Acts and all other powers enabling him in that behalf, His Excellency the Governor of the State of Victoria, with the advice of the Executive Council of the said State, doth hereby declare, order, and direct as follows:—

1. That the area included within the boundaries defined in the schedule hereunder shall be, and the same is hereby constituted a Drainage District (and as on and from the 1st day of January, 1938, such area shall be deemed to be so constituted).

2. That the boundaries of such district shall be those set out and described in the aforesaid schedule.

3. That the name of such district shall be Kerang East Drainage District.

4. That the scheme of works for such district consists of the construction of drains with necessary structures for the drainage of the district.

5. That the estimated cost of such works is £102,436. A sum of £87,436 has been provided from Unemployment Relief Funds to date.

SCHEDULE.

Boundaries of Drainage District constituted by this Order: Commencing at the north-western angle of allotment 35, section F, Parish of Murrabit West, County of Gunbower; thence easterly by the northern boundaries of that allotment and allotments 29 and 28, section C, and lines connecting those boundaries to the north-eastern angle of the last-mentioned allotment; thence southerly by the eastern boundary of said allotment 28, and easterly by the northern boundary of allotment 26 to the western boundary of the Kerang to Gonn Crossing railway reserve; thence southerly by the last-mentioned boundary to a point in line with the northern boundary of allotment 32; thence easterly by a line and the last-mentioned boundary to the north-eastern angle of said allotment 32; thence southerly by the eastern boundary of that allotment to the south-eastern angle thereof; thence easterly by a line and generally southerly by the south-western boundary of a channel reserve to the northern boundary of allotment 46; thence easterly by the last-mentioned boundary and a line in continuation thereof to a point in the northern boundary of allotment 47, distant 20 chains from the north-western angle of that allotment; thence southerly by a line parallel to the western boundary of that allotment to a point in the northern boundary of allotment 48; thence easterly by the last-mentioned boundary to a point in line with the western boundary of allotment 49; thence southerly by a line to the north-western angle of said allotment 49; thence easterly and southerly by the northern and eastern boundaries of that allotment and south-easterly by the north-eastern boundaries of allotments 51 and 52, said section C, Parish of Murrabit West, and allotments 4A and 4, section A, Parish of Kerang, and lines connecting those boundaries to the most easterly angle of said allotment 4; thence by a line to the most northerly angle of allotment 3; thence north-easterly by a line and the north-western boundary of allotment 7, Parish of Gannawarra, to a point distant 21 chains 50 links north-easterly from the most westerly angle of that allotment; thence south-easterly by a line parallel to the south-western boundary of the last-mentioned allotment to a point in the north-western boundary of allotment 8; thence north-easterly by the last-mentioned boundary to a point distant 43 chains from the most westerly angle of the last-mentioned allotment; thence south-easterly by a line parallel to the south-western boundary of that allotment to a point in the north-western boundary of allotment 9; thence north-easterly, south-easterly, and south-westerly by the north-western, north-eastern, and south-eastern boundaries of the last-mentioned allotment to a point in line with the north-eastern boundary of allotment 10; thence south-easterly by a line, the last-mentioned boundary, and the north-eastern boundary of allotment 11 to a point in line with the north-western boundary of allotment 11A; thence north-easterly by a line and the last-mentioned boundary to the most northerly angle of that allotment; thence south-easterly by the north-eastern boundary of that allotment, and generally westerly by the southern boundaries of allotments 11A and 11, and by a line connecting those boundaries to a point in line with the eastern boundary of allotment 13; thence southerly by a line and the eastern boundaries of allotments 13, 16, and 16A, and a line in continuation thereof to the left bank of the Pyramid Creek; thence generally southerly by that bank and the north-western boundary of a timber and water reserve in the Parish of Macorna to the southern boundary of allotment 4, section E, of that parish; thence westerly by that boundary to a point in line with the eastern boundary of allotment 6; thence southerly by a line, the last-mentioned boundary, and a line in continuation thereof to the northern boundary of allotment 19, section D; thence generally easterly by the southern boundary of a road to the north-eastern

angle of allotment 18; thence southerly by the eastern boundaries of allotments 18, 17, and 16 to the south-eastern angle of the last-mentioned allotment; thence westerly by the southern boundary of said allotment 16 to the north-western angle of allotment 15; thence southerly by the eastern boundaries of allotments 13 and 12, lines connecting those boundaries and a line in continuation of the last-mentioned boundary to the southern boundary of the Macorna Channel reserve; thence generally easterly by the said channel reserve boundary to the eastern boundary of allotment 47, section B; thence generally southerly by the eastern boundary of said allotment 47 to the north-eastern angle of allotment 35; thence westerly by the northern boundary of that allotment and a line in continuation thereof to the eastern boundary of allotment 36; thence southerly by that boundary and westerly by the southern boundary of that allotment to the south-western angle thereof; thence generally southerly by a line and the eastern boundaries of a channel reserve and channel easement to the southern boundary of allotment 34A; thence westerly by the last-mentioned boundary and northerly by the western boundary of said allotment 34A to a point in line with the southern boundary of allotment 16A; thence westerly by a line, the last-mentioned boundary, and the southern boundary of allotment 16 to the eastern boundary of allotment 18; thence northerly and westerly by the eastern and northern boundaries of that allotment, and northerly by the western boundary of allotment 17 to a point in line with the southern boundary of allotment 1, section A; thence westerly by a line, the last-mentioned boundary, and a line in continuation thereof to the north-eastern boundary of a channel reserve in allotment 7; thence north-westerly by the last-mentioned boundary and a line in continuation thereof to the northern boundary of a road forming the northern boundary of said allotment 7; thence westerly by that road to the north-eastern boundary of the Bendigo to Swan Hill railway reserve; thence north-westerly by the said railway reserve to the southern boundary of allotment 173, Parish of Tragowel; thence westerly by the last-mentioned boundary, the southern boundary of allotment 156, and a line connecting those boundaries to the north-western angle of allotment 155; thence southerly, westerly, and northerly by the eastern, southern, and western boundaries of allotment 156A to a point in line with the most southern boundary of allotment 142; thence westerly by a line to the south-eastern angle of that allotment; thence westerly, northerly, westerly and northerly by the southern and western boundaries of said allotment 142 to the southern boundary of allotment 140; thence westerly and northerly by the southern and western boundaries of said allotment 140 and a line in continuation of the last-mentioned boundary to the northern boundary of road forming the northern boundary of that allotment; thence westerly by the said road boundary to the south-western angle of allotment 129; thence generally northerly by the eastern boundary of a 3-chain road to the north-western angle of allotment A; thence easterly by the northern boundary of that allotment to the centre line of the Bendigo to Swan Hill railway reserve; thence north-westerly by the said centre line to the northern boundary of allotment 24, section C, Parish of Kerang; thence generally easterly by the last-mentioned boundary, the northern boundaries of allotments 23, 22, and 1, a line connecting those boundaries, and a line in continuation of the last-mentioned boundary to the right bank of the Pyramid Creek; thence generally north-westerly by the said bank to a point in line with the western boundary of allotment 38, section B; thence northerly by a line and the last-mentioned boundary to the north-western angle of that allotment; thence north-westerly by a line to the most southerly angle of allotment 40; thence generally westerly by the eastern and northern boundaries of allotment 23A and the southern boundaries of allotments 23 and 24 to the most westerly angle of the last-mentioned allotment; thence generally northerly by the western boundaries of allotments 24, 25, 26, 26A, and 27, and a line connecting those boundaries to the north-western angle of the last-mentioned allotment; thence westerly by a production of the northern boundary of the last-mentioned allotment to the right bank of the Loddon River; thence generally northerly by that river to a point in line with the southern boundary of allotment 7, section F, Parish of Murrabit; thence easterly by a line to the south-western angle of said allotment 7; thence north-westerly by the south-western boundary of that allotment, and a line in continuation thereof to the right bank of the said Loddon River; thence generally northerly by that river to a point in line with the western boundary of allotment 10, said section F; thence generally northerly by a line, the last-mentioned boundary, the western boundaries of allotments 12 and 35, and a line connecting those boundaries to the point of commencement.

Excepting thereout the whole of the lands comprising allotments 17, 17A, and 20, section C, Parish of Kerang, County of Gunbower.

The boundaries set out and described in the foregoing schedule are shown on a plan approved by the Governor in Council and deposited in the Office of the State Rivers and Water Supply Commission, Melbourne.

MERBEIN DRAINAGE DISTRICT.—DISTRICT  
CONSTITUTED.

UNDER the powers conferred by the Water Acts and all other powers enabling him in that behalf, His Excellency the Governor of the State of Victoria, with the advice of the Executive Council of the said State, doth hereby declare, order, and direct as follows:—

1. That the area included within the boundaries defined in the schedule hereunder shall be, and the same is hereby constituted a Drainage District (and as on and from the 1st day of January, 1938, such area shall be deemed to be so constituted).

2. That the boundaries of such district shall be those set out and described in the aforesaid schedule.

3. That the name of such district shall be Merbein Drainage District.

4. That the scheme of works for such district consists of the construction of drains with necessary structures for the drainage of the district.

5. That the estimated cost of such works is £110,000, of which £35,028 will be provided by the land owners concerned, the balance being provided from Unemployment Relief Funds.

SCHEDULE.

Boundaries of Drainage District constituted by this Order: Commencing at the most northerly angle of allotment 1, section A, Parish of Mildura, County of Karkaroc; thence generally south-easterly by the north-eastern boundaries of allotments 1 and 2 and a line connecting those boundaries, southerly by the eastern boundary of said allotment 2, and north-westerly by the south-western boundary of that allotment to the most northerly angle of allotment 3; thence generally southerly by the western boundaries of allotments 3 and 5 and easterly by the southern boundary of said allotment 5 and by a line in continuation of the last-mentioned boundary to the western boundary of allotment 6B; thence generally southerly by the eastern boundary of McEdward-street to a point in line with the southern boundary of allotment 43; thence westerly by a line, the last-mentioned boundary, and a line in continuation thereof to the south-eastern angle of allotment 24; thence southerly and generally south-westerly by the eastern boundary of allotment 42 and the south-eastern boundaries of allotments 42 and 41 to a point in line with the western boundary of allotment 40; thence generally southerly by a line and the eastern boundary of a road to the most southerly angle of allotment 50; thence south-westerly by the north-western boundary of a road to a point in line with the eastern boundary of allotment 100; thence southerly by a line and the eastern boundaries of allotments 100 to 105 inclusive and a line connecting those boundaries, and generally westerly by the southern boundaries of allotments 105, 95, 94, 93, 92, 91, 90, 89, and 89A and lines connecting those boundaries to the most southerly angle of allotment 88; thence north-easterly by the south-eastern boundaries of allotments 88, 87A, and 87 and north-westerly by the north-eastern boundary of said allotment 87 to the most northerly angle thereof; thence south-westerly by the south-eastern boundary of a road to a point in line with the northern boundary of allotment 11, section C, Parish of Merbein; thence westerly by a line and the northern boundary of that allotment and generally southerly by the western boundaries of allotments 11, 12, and 13 to a point in line with the southern boundary of allotment 132; thence westerly by a line, the last-mentioned boundary, and a line in continuation thereof to the south-eastern angle of allotment 132A; thence generally south-westerly and north-westerly by the south-eastern and south-western boundaries of allotment 133 to the most northerly angle of allotment 133B; thence southerly by the eastern boundary of a road to the south-western angle of allotment 133F; thence north-westerly by the north-eastern boundary of a road to a point in line with the south-eastern boundary of allotment 7, section C, Parish of Mildura; thence south-westerly by a line and the last-mentioned boundary, north-westerly by the south-western boundary, and north-easterly by the north-western boundary of said allotment 7 to the most northerly angle thereof; thence north-westerly and south-westerly by the southern boundary of a road to the most northerly angle of allotment 16; thence southerly by the eastern, south-westerly by the south-eastern, and northerly by the western boundaries of said allotment 16, and by a line in continuation of the last-mentioned boundary to the south-eastern boundary of allotment 181, Parish of Merbein; thence north-easterly by the last-mentioned boundary and a line in continuation thereof to the western boundary of allotment 176; thence northerly by the eastern boundary of a road to the most southerly angle of allotment 11, section D; thence generally north-easterly by the western boundaries of the southern channel reserve and lines connecting those boundaries to a point in line with the north-eastern boundary of allotment 97;

#### MARKETING OF PRIMARY PRODUCTS ACT 1935 (No. 4337).

At the Executive Council Chamber, Melbourne, the twentieth day of December, 1937.

PRESENT:

His Excellency the Governor of Victoria.  
Mr. Dunstan | Mr. Tuckett.  
Mr. Bailey |

#### REGULATIONS.

IN pursuance of the powers conferred by the *Marketing of Primary Products Act 1935* (No. 4337), His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, and on the recommendation of the Egg and Pulp Marketing Board doth hereby make the Regulations following (that is to say):—

1. These Regulations shall be read and construed as one with the Egg and Egg Pulp Board Regulations made under the said Act on the 10th August, 1937, and any Regulations amending same, all of which Regulations and these Regulations may be cited together as the Egg and Egg Pulp Marketing Board Regulations 1937.

2. For the purposes of this Regulation—

"Chilled eggs" means eggs which have been stored in any cold storage premises.

"Cold storage premises" means any premises at or in any part of which eggs are received or stored for the purpose of being chilled.

"Egg" means the egg of the domestic hen or duck.

"Inspector" means any person authorized in writing by the Board as an Inspector for the purpose of these Regulations, and includes any member of the Board.

"Proprietor" includes the owner, the occupier, the lessee, or person in charge.

3. No person shall—

(a) sell any chilled egg if the air cell exceeds three-eighths of one inch in depth;

(b) sell any chilled egg unless the shell is marked in legible and durable characters with the word "chilled."

4. No owner of eggs shall place or cause to be placed in any cold storage premises any eggs unless the eggs are marked in legible and durable characters with the word "chilled." Provided, however, that the owner thereof may, with the written authority of an Inspector, store eggs not marked as aforesaid in cold storage premises when such eggs are not for sale.

5. No person, except with the approval, in writing, of an Inspector, shall remove eggs from any cold storage premises unless the shells are marked with the word "chilled." and neither the proprietor of any such premises nor his servants and agents shall cause, allow, permit, or suffer any eggs to be removed therefrom unless the shells are so marked.

6. Every person who contravenes or fails to comply with any of the provisions of these Regulations shall be guilty of an offence, and liable to a penalty of not more than Fifty pounds (£50).

And the Honorable Edmond John Hogan, His Majesty's Minister of Agriculture for the State of Victoria, shall give the necessary directions herein accordingly.

C. W. KINSMAN,  
Clerk of the Executive Council.

*Motor Omnibus Act 1928 (No. 3742).*

PRESCRIBING A FURTHER ROUTE WITHIN THE METROPOLITAN AREA ALONG WHICH MOTOR OMNIBUSES FOR WHICH "REGULAR SERVICE" LICENCES ARE GRANTED MAY PLY FOR HIRE AND FOR OTHER PURPOSES.

*At the Executive Council Chamber, Melbourne, the 20th day of December, 1937.*

## PRESENT:

His Excellency the Governor of Victoria.

Mr. Dunstan  
Mr. Bailey

Mr. Tuckett.

HIS Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, in pursuance of the powers conferred by section 4 of the *Motor Omnibus Act 1928 (No. 3742)*, doth by this Order prescribe a further route within the metropolitan area along which Motor Omnibuses for which "regular service" licences are granted may ply for hire, also sections and terminal points and stopping places on such route, time tables to be observed by owners of motor omnibuses plying for hire, fares to be charged, and the maximum number of motor omnibuses which may be licensed to ply for hire on such prescribed route, as set forth in detail in the schedule hereunder:—

## SCHEDULE OF PRESCRIBED ROUTES WITHIN THE METROPOLITAN AREA.

(No part of which is within three (3) miles of the Town Hall in the City of Melbourne.)

Route Number.	Description of Route, including Commencing and Terminal Points.	Sections (if any) on Route.	Time Tables to be Observed.	Fares to be Charged.	Maximum Number of Motor Omnibuses to be Licensed on Routes.

*Stopping Places on Route.*

Pending the fixing of stopping places, motor omnibuses shall only stop for the purpose of taking up and setting down passengers at such points upon the route as may be convenient, and in such manner as not to interfere with or endanger the general traffic of the streets or roads or the safety of passengers in motor omnibuses.

*Fares to be Charged.*

The fares to be charged for children under twelve years of age (other than children under three years of age carried on passenger's lap, who shall be carried free) shall be one-half of the fares charged for adult passengers calculated to the nearest higher penny.

His Excellency doth by this Order further provide, in pursuance of the powers conferred by section 15 (1) (b) of the *Motor Omnibus Act 1928, No. 3742*, that the Orders in Council approved by His Excellency the Governor in Council on the 18th of December, 1934, 17th of June, 1935, 7th January, 1936, and 30th June, 1936, prescribing routes within the metropolitan area along which Motor Omnibuses for which "regular service" licences are granted under the provisions of the said Act may ply for hire, shall be amended in the manner following:—

*Route No. 18.*—Under the heading "Description of Route including commencing and terminal points," delete the words "with deviations from Racecourse-road, Newmarket, via Racecourse-road and Epsom-road to the corner of Epsom-road and Maribyrnong-road; and from St. Kilda Junction, via Wellington-street and Dandenong-road to the corner of Dandenong-road and Wattle-tree-road."

Under the heading "Sections (if any) on Route," delete the words "between the corner of Maribyrnong-road and Epsom-road and Railway Bridge, Newmarket; between St. Kilda Junction and the corner of Dandenong-road and Wattle-tree-road."

Under the heading "Fares to be Charged," delete the words and figures "each deviation 6d."

For *Route No. 43A.*, there shall be substituted the following route:—"Commencing at Sandringham Railway Station, via Bay-road and Bluff-road to the corner of Highett-road and Bluff-road with extension from Sandringham Railway Station, via Bay-street, Trentham-street, Abbott-street, Bluff-road, Bay-road, Point Nepean-road, and Charman-road to 10 feet north of southern entrance to down platform of Cheltenham Railway Station with deviation between 9 a.m. and 5.30 p.m. week days, and 2 p.m. and 5.30 p.m. Sundays from Bay-road, via Reserve-road to Holloway-road and return via Reserve-road to Bay-road."

Under the heading "Maximum number of motor omnibuses to be licensed on route," for the figure "2" there shall be substituted the figure "3."

*Route No. 48A.*—Under the heading "Maximum number of motor omnibuses to be licensed on route" for the figure "2" there shall be substituted the figure "6."

His Excellency, in pursuance of the powers conferred by section 5 (1) of the *Motor Omnibus Act 1928 (No. 3742)*, doth by this Order prescribe *Route No. 95A* a Developmental Route.

Pursuant to the provisions of section 15 (1) (c) of the *Motor Omnibus Act 1928 (No. 3742)*, the Governor in Council by this Order confers upon the Licensing Authority full power and authority for carrying into effect by the said Licensing Authority all of the foregoing provisions of this Order.

And the Honorable George Louis Goudie, His Majesty's Commissioner of Public Works for the State of Victoria, shall give the necessary directions herein accordingly.

C. W. KINSMAN,

Tenders to be addressed to the Honorable the Commissioner of Public Works, and envelope containing tender marked "Tender for , duo "

GEO. L. GOUDIE,  
Commissioner of Public Works.

Melbourne, 22nd December, 1937.

#### TENDERS FOR THE SERVICE, 1937-38.

##### BOOTS AND SHOES.

TENDERS will be received until Eleven o'clock a.m. on Friday, 14th January, 1938, from persons willing to supply the undermentioned articles required by the Victorian Government during the three months commencing 1st February, 1938:—

Schedule No.	Preliminary deposit for each item.	£
10. Boots and shoes (Items 1 and 3)		3

The prices tendered must not include sales tax.

Security.—Five per cent. of total amount of tender accepted, but in no case will security of less than £3 be received.

Schedules as above, with full particulars, may be obtained from the Secretary to the Tender Board, by whom also the samples will be shown and any information afforded to persons tendering.

Tenders for each item must be accompanied by the preliminary deposit, as shown above, by bank draft or marked cheque, in favour of the Secretary to the Tender Board. Cheques, Savings Bank deposit books, fixed deposit receipts, Commonwealth Treasury bonds, or reference to securities on existing contracts will in no case be received or entertained as preliminary deposits. Preliminary deposits will be returned within ten days to unsuccessful tenderers on their application.

The amount of the preliminary deposit required with each tender must be enclosed, and the amount must be clearly written in and the designation stated, whether marked cheque or bank draft, as the case may be.

Security will be required, either in bank guarantee (bank to be approved by the Tender Board), Commonwealth Treasury bonds, Savings Bank deposit book or fixed deposit receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

In the event of tenderers withdrawing or attempting to withdraw their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender. It is also stipulated that, if a tenderer be a member of a firm, and such firm be interested in the contract, the

tender shall be in the name of the firm and not in that of the individual; and that for a breach of this condition the preliminary deposit will be forfeited and the tender declared informal.

Tenders enclosed in a separate envelope, and having the words "Tender for ———" (as the case may be) written thereon, must be deposited in the Tender-box at the Tender Board Offices, Gisborne-street, Melbourne, or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Tender Board Offices, Gisborne-street, Melbourne, C.2, which office they must reach not later than by first post on the date of closing of tenders.

The conditions of contract are those published in the *Victoria Government Gazette* of 3rd March, 1937, pages 714 and 715.

The prices tendered must not include Sales Tax.

Preliminary deposit, £3; security, 5 per cent. of the total amount of the tender accepted.

Schedule as above, with full particulars, may be obtained from the Secretary to the Tender Board, by whom also the samples will be shown and any information afforded to persons tendering.

In all cases the total cost of each item must be extended in the columns provided.

Tenders must be accompanied by the preliminary deposit, as shown above, by bank draft or marked cheque, in favour of the Secretary to the Tender Board. Cheques, Savings Bank deposit books, fixed deposit receipts, Commonwealth Treasury bonds, or reference to securities on existing contracts will in no case be received or entertained as preliminary deposits. Preliminary deposits will be returned within ten days to unsuccessful tenderers on their application.

The amount of the deposit required with each tender must be enclosed, and the amount must be clearly written in and the designation stated, whether marked cheque or bank draft, as the case may be.

Security will be required, either in Bank Guarantee (Bank to be approved by the Tender Board), Commonwealth Treasury Bonds, Savings Bank deposit book or fixed deposit receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

In the event of tenderers withdrawing or attempting to withdraw their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender. It is also stipulated that if a tenderer be a member of a firm and such firm be interested in the contract, the tender shall be in the name of the firm and not in that of the individual; and that for a breach of this condition the preliminary deposit will be forfeited and the tender declared informal.

Tenders, enclosed in a separate envelope, and having the words "Tender for ———" (as the case may be) written thereon, must be deposited in the Tender-box at the Tender Board Offices, Gisborne-street, Melbourne, or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Tender Board Offices, Gisborne-street, Melbourne, C.2, which office they must reach not later than by first post on the date of closing of tenders.

The conditions of contract are those published in the *Victoria Government Gazette* of 3rd March, 1937, pages 714 and 715.

**SHIRE OF SOUTH GIPPSLAND.**

**BY-LAW No. 20.**

A By-law for securing the cleanliness and general sanitary condition of camps and camping sites within the Shire of South Gippsland.

IN pursuance of the powers conferred by the *Health Act 1928*, and every other power enabling it in that behalf, the President, Councillors, and Ratepayers of the Shire of South Gippsland do hereby order as follows:—

1. This By-law shall be read and taken in conjunction with the "Camping Regulations 1928" of the Department of Public Health.

2. Every camp shall be provided with closet accommodation at the ratio of one closet for every eight persons, also separate accommodation for sexes.

3. Each closet shall consist of a flyproof receptacle for a suitable pan, except as in the next clause provided.

4. Where a camp is situated outside a pan-service area, a properly constructed trench may be substituted for a pan. Such trench shall not be more than 3 feet long, nor more than 1 foot wide, nor more than 3 feet deep.

5. All closets must have overhead protection from the weather, and shall also have a suitable screen erected to provide for privacy and decency.

6. Provided that where land within a township or in the vicinity thereof is used as a camping site, the owner or trustees of such land shall erect thereon sufficient closets built according to the General Sanitary Regulations 1931. And if such site is within an area in which a pan service is provided, it shall be the duty of the owner or trustees to arrange with the Council to provide the necessary service; and to pay the necessary fees for such service.

7. All refuse and garbage produced at a camp or camp site shall, if such site is within an area provided with a house refuse service, be temporarily stored in covered receptacles, and arrangement made with the Council for its removal. If the camp site is not within such service, the refuse must be buried or burnt daily.

8. Upon the termination of any camp, the occupier of the site shall cover all night-soil and refuse trenches with at least 9 inches of clean earth.

9. This By-law shall apply to and have operation throughout the whole of the Shire of South Gippsland.

Resolution for passing this By-law was agreed to by the Council on the 9th day of July, 1936, and confirmed on the 10th day of September, 1936.

The common seal of the President, Councillors, and Rate-payers of the Shire of South Gippsland was affixed hereto in the presence of—

THE "VICTORIA GOVERNMENT GAZETTE."

SUBSCRIPTIONS.—The Subscription, including Postage, is £1 10s. 4d. per annum, or 7s. 7d. per quarter, payable in advance.

Subscriptions are required to commence and terminate with a month.

A lesser period than three months cannot be subscribed for. Subscribers do not receive the Acts of Parliament with Gazette.

ADVERTISEMENTS are charged at the rate of EIGHTPENCE per line single column, and ONE SHILLING and FOURPENCE per line double column.

The title (£5 Reward, Dissolution of Partnership, &c.) forms one or more lines, as a heading.

On an average, eleven words make a line. Every signature must likewise be counted as a line.

The final words of a paragraph, though only portion of a line, must be counted as one line.

SIGNATURES (in particular) and proper names must be written very plainly in the text; ONE SIDE ONLY of each slip of paper should be WRITTEN UPON.

ALL COMMUNICATIONS should be addressed to "The Government Printer, Melbourne."

ALL DOCUMENTS illegibly written will be returned unpublished, and, where brands occur unprovided for by the ordinary letters of the alphabet, a worded explanatory description must be furnished.

THE VICTORIA GOVERNMENT GAZETTE is published on WEDNESDAY EVENING in each week, and Notices for insertion will be received by the Government Printer at or before Two p.m. at ordinary rates, and late advertisements between Two p.m. and FIVE p.m. at double rates, on the day preceding the day of publication.

Single copies of the VICTORIA GOVERNMENT GAZETTE are Sixpence, posted Sevenpence, each.

No GAZETTES prior to January, 1926, in stock.

\* \* ALL PAYMENTS ARE REQUIRED IN ADVANCE.—Remittances should be made by postal note, money order, or draft in favour of the Government Printer. Advertisements unaccompanied by a remittance sufficient to cover the cost of insertion will be returned unpublished.

Factories and Shops Acts.

## DETERMINATION OF THE GROCERS' SUNDRIES BOARD.

NOTE.—This Determination on the 30th December, 1937, applies to the whole of the State of Victoria.

IN accordance with the provisions of the Factories and Shops Acts, the Wages Board which, since the 23rd July, 1934, has had the power to "determine the lowest prices or rates which may be paid to any person or persons or classes of persons employed in the process, trade, or business of—

- (a) manufacturing cereal foods (except in flour mills), spices, condiments, coffee, chicory, cocoa, or any kind of goods commonly known as Grocers' Sundries;
- (b) making, tinning, putting up, bottling, wrapping, labelling, or otherwise preparing for sale moulders' blacking, moulders' plumbago preparations, blacklead, boot blacking, boot paste, boot polish, washing blue, harness dressing, harness compounds, ebonite shine, stove polish, knife polish, metal polish;
- (c) grinding, tinning, putting up, bottling, wrapping, labelling, or otherwise preparing for sale charcoal or coal dust; and
- (d) making soap, washing soda, candles, or starch"—

has made the following Determination, namely:—

(1) That on the 30th December, 1937, the last previous Determination of this Board shall be revoked and replaced by this Determination.

(3) **EMPLOYMENT.—WEEKLY WAGES.**—(a) Employees may be engaged by the week, and when so engaged must be available ready, and willing to perform such work as the employer shall from time to time require on the days and during the hours usually worked by the class of employees affected.

(b) Employment for the first two weeks of service shall be from day to day at the weekly rate fixed.

(c) Any weekly employee not attending for duty shall lose his or her pay for the actual time lost unless he or she produces or forwards within 24 hours of the commencement of such absence satisfactory evidence to the employer that his or her non-attendance was due to personal ill-health or accident necessitating such absence, but such employee shall not be entitled to payment for non-attendance on the grounds of personal ill-health or accident for more than six days in each year commencing from the 21st December.

(d) An employee is not to be entitled to more than six days' payment in any year for such non-attendance notwithstanding that he or she may be employed during the year by more than one employer.

(4) **HOURS OF WORK.**—(a) The hours of employment without payment for overtime shall not exceed 44 per week. Except as to shift workers ordinary hours shall be worked in 5 days of 8 hours, and one day (Saturday) of 4 hours, or in 5 days of 8 hours 48 minutes each, continuously, except breaks for meals, between 7 a.m. and 5.30 p.m. on Monday to Friday inclusive, and 7 a.m. to noon on Saturday, at the discretion of the employer. Provided that the spread of hours herein prescribed may be altered by mutual agreement between an employer and the Manufacturing Grocers Employees' Federation of Australia.

(b) The employer shall fix the starting and finishing times, provided that no change in such fixed times shall be made except by agreement between the employer and the Manufacturing Grocers Employees' Federation of Australia, and provided further that one week's notice of any such change shall be given to the employees.

(5) **OVERTIME.**—All work performed outside the starting and finishing times, provided for in clause 4 or fixed pursuant to an agreement under clause 11 (d) of this Determination, or in excess of 44 hours per week, shall be paid for at the rate of half time in addition to ordinary time. Overtime rates shall be paid on the basis of a quarter of an hour. A fraction of a quarter of an hour shall be paid for as a quarter of an hour. Piece-work done outside the starting and finishing times shall be paid for with the addition of a half rate to the ordinary rate.

(6) **SPECIAL RATES.**—(a) Employees shall receive payment at double time rate for work done on Sunday, and shall receive payment at ordinary rate in addition to the full weekly rate for work done on Christmas Day, Boxing Day, New Year's Day, Australia Day (26th January), Labour Day, Good Friday, Easter Saturday, Easter Monday, King's Birthday; but if any other day be by Act of Parliament or Proclamation substituted for any of the above-named holidays, the special rate shall only be payable for work done on the day so substituted.

(b) When Christmas Day, Boxing Day, or New Year's Day, or a proclaimed substitute therefor falls on a day other than Sundays and payment of wages is not included in the weekly wage in consequence of the Christmas holidays having been taken as provided for in sub-clause (f) hereunder, then employees shall receive payment for each of such days calculated as eight hours.

(c) All employees on time work off duty on any of the above-mentioned holidays, other than Sunday, shall be paid for such days at ordinary rate. Piece-workers shall be paid for such holidays and Sundays at the rate payable to employees on time work doing the same class of work.

(d) Where an employee is absent from his or her work on the day before or the day after a public holiday without reasonable excuse, or without the consent of the employer, the employee shall not be entitled to payment for such holidays.

(e) Where the majority of the employees of any establishment or of any department agree with the employer to work part time for any period, or to close down for any period on the days other than the prescribed holidays, the weekly rate shall not apply.

**CHRISTMAS HOLIDAYS.**—(f) On or before the 14th December in each year the employer shall be given or may obtain notice of the number and names of his adult employees who do not elect to work on the working days between Christmas Day and New Year's Day. If more than 33 per cent. of such of the adult employees in any particular establishment as come within the classification in this Determination indicate to the employer their election not to work on such days, then the employer may if he chooses, close down his establishment on such days, provided that on or before the 21st December he gives notice to his employees of his intention to do so. Where such number is 33 per cent. or under, then the employer shall keep his establishment open for work on such days, or, if he closes it, he shall pay the ordinary wage to those employees who have declared themselves ready and willing to work on such days and who have not been dismissed in conformity with this Determination.

(g) Where the business is kept open for work, the employer may require the employees presenting themselves for work to work in any capacity he may appoint, provided the employees shall be paid at their ordinary rates for such work as they are called on to do.

(h) If any employee has not indicated to the employer on or before the 14th December that he does not intend to work on the days in question, and absents himself from work when the business is open for work on such days, then such employee shall receive no pay therefor.

(7) **TERMINATION OF EMPLOYMENT.**—(a) Seven days' notice of termination of employment shall be given on any day of the week by either employer or employee provided that such notice given to an employee solely for the purpose of avoiding payment for prescribed holidays shall not deprive such employee of payment for holidays occurring between such notice and re-engagement, if any.

(b) Nothing contained in this Determination shall affect the right of the employer to dismiss any employee without notice for malingering, inefficiency, neglect of duty, or misconduct, or to deduct payment for any day on which the employee cannot usefully be employed because of a strike, or stoppage of work for which the employer cannot reasonably be held responsible.

(c) In the event of such dismissal, wages shall be paid up to the time of such dismissal. If an employee's services be terminated during the course of a week he shall be paid all money due to him at the termination of his services, or such money shall be forwarded to him by post, within 24 hours thereafter.

(8) **PAYMENT OF WAGES.**—Wages shall be paid weekly on a week day other than Saturday.

(9) **MEAL TIMES.**—A lunch period of at least one half-hour for each employee shall be fixed in each factory between 12 noon and 2 p.m. for other than shift workers. No employee shall be required to work more than five hours from the starting of work in the morning without a break for lunch.

(b) Work performed during the usual meal hours shall be paid for at the rate of time and a half, but where the total hours worked (including time worked during such meal time) do not exceed the prescribed daily number of hours then such time shall be deemed to mean an additional payment at half ordinary rate only for such meal time. Such employee shall be allowed time for a meal.

(10) **REST PERIOD.**—Women workers on time work shall be allowed an interval of ten minutes between 10 a.m. and 11 a.m. for rest, and such interval shall be observed at times convenient to the employer. Such intervals shall count as time worked.

(11) **SHIFT WORKERS.**—(a) Shift workers shall have a break for meals without deduction of pay.

(b) Shift workers engaged on a second or third shift daily, other than overtime, shall receive payment at ordinary time plus 5 per cent.

(c) Shift workers on a second or third shift who are unable to travel to and from work on workmen's tickets shall be paid 1s. 6d. per week in addition to their ordinary rate of pay.

(d) Shift work, including overlapping shifts, may be arranged by agreement between the employer and the Manufacturing Grocers Employees' Federation of Australia.

(12) **SUPPLY OF MATERIALS.**—The undermentioned materials shall be provided free of charge by every employer—

(a) All necessary tools of trade, which shall be kept in good repair by the employer.

(b) Uniforms and caps required by the employer to be worn by the employees.

(c) Goggles for employees engaged in work injurious to the eyes.

(13) **TEA MONEY.**—Any employee required to work overtime for any period in excess of one hour after the usual hour of ceasing duty shall either be supplied with a meal at the employer's expense, or be allowed 2s. for each meal required if the expense is incurred. Provided that this clause shall not apply where the employee was notified the previous day of the intention to work overtime. Provided further that where the employee was notified the previous day of the intention to work overtime and such overtime was not worked he shall be entitled to the meal allowance herein provided.

The provisions of this clause shall not apply in the case of boys under sixteen years of age or women or girls employed in factories whose conditions regarding overtime are governed by section 38 of the *Factories and Shops Act 1928* (No. 3677).

(14) **PIECEWORK.**—The Board determines under Section 150 of the *Factories and Shops Act 1928* (No. 3677) that the employer may fix his or her own piecework rates, provided such prices enable an employee of average capacity working under like conditions to earn at least 10 per cent. above the minimum weekly wage in their respective classes. The same piecework prices shall be paid to all pieceworkers doing the same operation in the factory, whether they be improvers or juveniles on piecework or otherwise.

(b) Pieceworkers who are requested to wait on or about the employer's premises for work on any one day for more than half an hour shall be paid for such waiting time at the rate based on the minimum weekly wage.

(c) A weekly pieceworker shall be allowed in each week sufficient piecework to enable such employee to earn at least the prescribed rate fixed in this Determination for the class of work performed. If such work is not provided, and the employee is ready and willing to perform all work provided, then such employee shall be paid the minimum wage applicable to the employee so employed.

(d) Pieceworkers working overtime for less than 15 minutes, or any fraction of 15 minutes, shall have their payment computed on the basis of an average amount of work done in 15 minutes.

(15) **DESTRUCTION OF CLOTHING.**—Where satisfactory evidence is produced by an employee that, when dissolving caustic soda, using solutions of caustic soda or mineral acids, his or her clothing has been destroyed through no fault of such employee, reparation shall be made by the employer.

(16) **WEIGHT CARRYING.**—No woman worker over the age of 18 years shall be required to carry a greater weight than 30 pounds. Section 207 of the *Factories and Shops Act 1928* (No. 3677) provides that no person employing any girl under the age of 18 years in a factory shall permit such girl while so employed to lift or carry a greater weight than 25 pounds.

(17) **TEMPORARY WORK.**—A temporary employee shall mean a person employed for 24 hours or less in any one week, but no employee shall be deemed to be a temporary worker where after employment for at least one week he is dismissed before he has worked 24 hours in the succeeding week, or where his non-employment for more than 24 hours is wholly attributable to causes over which the employer has no control.

Temporary workers unless dismissed for misconduct shall be paid at the rate of time and a third for all work performed.

(18) **DEFINITION.**—For the purpose of this Determination, year shall mean a period of twelve calendar months commencing on the 21st December in each year.
