DROUIN WATERWORKS TRUST.

BY-LAW No. 1.

Standing Orders.

For regulating and appointing the place and hour of meetings of the Drouin Waterworks Trust, and providing for the management and conduct of business thereat.

WHEREAS by the *Water Act* 1928 power is given to any authority (subject to the approval of the Governor in Council) from time to time to make, amend, and repeal By-laws relating (*inter alia*) to the appointment of the place and hour of meetings, whether periodical or special, and providing for the due management and conduct of business thereat: Be it therefore ordered and directed (subject as aforesaid) by the Commissioners of the Drouin Waterworks Trust, such Trust being an authority under the said Act, as follows, viz:—

1. In all cases not provided for by Acts of Parliament of Victoria relating to authorities, or by this By-law, resort shall be had to the rules, forms, and usages of the Parliament of Victoria, which shall be followed so far as the same are applicable to the proceedings of the Trust.

2. *Place, Hour, and Adjournment of Meetings.*—Meetings of the Trust shall be held periodically at the Trust Office, Drouin, on the third Thursday in the month, at the hour of half-past Seven p.m., and the Commissioners thereat may from time to time by adjournment from such meeting, or from any subsequent adjournment thereof, meet together at any convenient place and at such hour to be from time to time appointed by them for that purpose.

3. *Meetings, Special.*—A special meeting of the Commissioners may at any time be called by the chairman or by the Minister, and shall be called by the chairman if so requested, in writing, under the hands of two Commissioners. No special meeting shall be held unless four clear days' notice thereof at least be given to each Commissioner. Such notice shall be in writing, and shall specify the time of the meeting and the object thereof, and shall be delivered or sent through the post office or otherwise to the place of abode or the usual place of business (if any) within the Waterworks District of each Commissioner. No business shall be transacted at any special meeting except what is stated on the notice thereof.

4. *Powers Vested in Commissioners.*—All powers vested in a Waterworks Trust may be exercised by the Waterworks Trust at any meeting held in pursuance of the *Water Act* 1928 at which there is a quorum of the Commissioners present, but not otherwise.

5. *Quorum.*—A quorum of the Commissioners shall consist of four Commissioners. If there is not a quorum of Commissioners present within half an hour after the time appointed for any meeting, the Commissioners present, or the major part of them, or any one Commissioner if there is only one present, may adjourn the meeting until another hour or another day; if no Commissioner is present, the secretary may so adjourn the meeting. Except where a meeting is so adjourned to a subsequent hour of the same day, the secretary shall forthwith deliver or send through the post office to each Commissioner notice, in writing, of the time to which the meeting has been adjourned.

9. Any service pipe which may have been connected with the Trust's mains for the temporary supply of water to a building during its erection must not be used for the permanent supply to the premises themselves without the written consent of the Trust.

10. Any person receiving water from the Trust who shall take and carry away such water from his premises, or who shall allow any other person to take and carry away such water, or shall sell the same to any other person, shall be liable to a penalty not exceeding Five pounds.

16. No person shall use any cistern or tank that is not provided with an equilibrium ball valve and with the overflow pipe laid and fixed in a suitable manner open to inspection, and in a position approved by the Trust.

Such notice must state clearly the act proposed to be done or work to be commenced.

(b) The giving of such notice as aforesaid will only be dispensed with in the event of urgent repairs being required to stop the waste or escape of water, in which case the licensed plumber employed to effect such repairs must give notice to the Trust concurrently with or immediately after the execution of the said urgent repair.

(c) The consent of the Trust, whenever required under this By-law, may be given by and under the hand of the chairman or secretary thereof, who shall severally be competent to give the Trust's consent, and on behalf of the Trust, to prescribe any directions or conditions attaching thereto.

21. (a) Before any person shall affix any service pipe to any pipe of the Trust, or alter, repair, or in any way interfere with any pipe of the Trust or any service pipe cock or fittings connected with the pipes of the Trust, he shall obtain from the Trust a licence in that behalf to execute such works. Any unlicensed person affixing, altering, repairing, or in any manner interfering with any such pipe service, pipe cock, or fitting as aforesaid, shall be liable to a penalty not exceeding Five pounds.

(b) Each licence obtained as aforesaid shall be operative for a period ending on the 31st day of December next ensuing after the issue thereof, but may be renewed by the Trust at its discretion from time to time in each case to the following 31st day of December. The Trust shall have power at any time to cancel any licence in the event of the holder thereof performing his work in an unsatisfactory manner or committing any breach of this By-law, and in such matters, the decision of the Trust shall be conclusive. For each original licence the licensee shall pay to the Trust a fee of five shillings; and for each renewal thereof, two shillings and sixpence.

(c) Before any such licence shall be granted by the Trust, the person applying for the same shall satisfy the Trust that he is a competent plumber and that he is thoroughly conversant with the provisions of the by-laws and regulations of the Trust relating to water supply. The Trust may if it so sees fit, refuse to grant such licence.

22. Each licensed plumber must report to the Trust secretary the completion of any new work, extensions, or repair in connexion with any service within twenty-four hours of effecting same.

23. Any person giving notice of his desire to lay a pipe to connect with and tap the pipes of the Trust shall provide for and be at the cost of all labour and material necessary for such connexion and for the restoration of the ground to the satisfaction of the local authority, and be liable for the consequences of failure in so doing, and shall pay in advance to the Trust the expense of such tapping at such rate as shall from time to time be prescribed by the Trust.

24. (a) Except with the permission in writing of the Trust, not more than one tenement shall be supplied from a single water service.

(b) The Trust may, if it thinks fit, give permission to arrange in special cases that the water supply to more than one tenement may pass from a water main into a single pipe (herein called the "trunk service"), which must be laid in a street and have branch piping to each tenement, and on each such branch there must be a stop cock fixed in a public

thoroughfare, but in no case shall branches be fixed in excess of the number or of the diameter proportioned to the trunk service set forth in the sub-joined table, namely:—

Diameter of Trunk Service.	No. of 1-in. Branches Only.	No. of 1-in. Branches Only.
1"	2
1½"	2 .. or	4
1½"	3 .. or	6
2"	6 .. or	12

25. Whenever any service existing at the time of the coming into operation of this By-law supplies more than one tenement, and such service is not laid in accordance with the provisions of paragraph 24 hereof, repair of such service will not be permitted should the repair involve the replacement of more than one pipe length of the service, but the service must be renewed strictly in accordance with the provisions of paragraph 24 hereof.

26. No person shall use any hydrant, stand-pipe, or other property of the Trust for the purpose of fastening any horse or other animal thereto, or for any other purpose whereby such hydrant stand-pipe or other property may be in danger of being broken or otherwise damaged.

27. Subject to the previous written consent of the Trust, private fire services will be allowed at the expense of the owner, but every such service will be sealed by the Trust. For each such private fire service there shall be paid a sum of ten shillings upon the fixing thereof, and a sum of ten shillings per annum thereafter. No water shall be taken from such private fire service except for extinction of fire. Except in case of fire, no person shall, without the authority of the Trust, wilfully break the seal fixed to any private fire service, and in the event of any such seal having been broken accidentally or otherwise, the occupier of the tenement shall, within twenty-four hours thereafter, give notice, in writing, of the fact at the office of the Trust. Failure to give such notice shall render the offender liable to a penalty not exceeding Five pounds, and a continuing penalty of Two pounds for every day he shall neglect to give such notice. On receipt of notice, the Trust will reseal the service for a fee of five shillings.

28. If any person supplied with water by the Trust wilfully or negligently allows water to run to waste, the Trust may cut off the supply of water to the tenement or allotment of such person, either by cutting the pipes or stopping the ditch by or through which water is supplied or otherwise, and may cease to supply him with water for such period as it shall think fit.

29. On the purchase of any lot or tenement or other property which is within the district of the Trust, the vendor shall at once notify the Trust, in writing, on a prescribed form, that he has sold such lot or tenement. Any person failing to give such notice shall be liable to a penalty of not more than Five pounds.

METERS.

30. Whenever required by the Trust, the occupier or owner of any allotment shall provide or place a meter of a type approved by the Trust on his service pipe capable of registering at least one million gallons, and duly tested by the Melbourne and Metropolitan Board of Works or by the Trust.

31. Meters may be obtained on loan from the Trust or, if considered expedient, the Trust may hire meters to occupiers or owners at a rent to be fixed by the Commissioners from time to time by resolution.

32. (a) Meters affixed to services shall not be removed or interfered with except on written application to, and with the approval of the Trust.

(b) A separate meter shall be provided for each allotment or tenement when required by the Trust.

33. Every owner or occupier of lands or tenements, or other persons supplied with or using water for private water troughs, steam boilers, engines, building purposes, brick works, concrete masonry, syphons, hydraulic power blasts, watering of horses, cattle, or other stock, glass washing machines, cooling windows, washing or cleaning motor or other vehicles, watering gardens, yards, pathways or drives, or for any trade, industry, or business may, at the discretion of the Trust, be supplied by measure.

34. Every meter must be fixed and maintained truly level with connexions above ground, approved by the Trust's manager in an easily accessible position, and properly protected on a proper foundation of timber, stone, brick, or concrete approved by the Trust's manager. Such foundation must, wherever practicable, be level with the surface of the ground and within three feet of the building line of the property. Where it is impracticable to place the meter above the surface of the ground, it may be fixed in a pit approved by the Trust's manager, such pit to be properly constructed and drained.

35. Every meter must be fixed to register the whole of the water supply to any tenement or premises except where otherwise allowed by the Trust.

36. No person shall construct, place, stack, store, permit to be constructed, placed, stacked or stored, any building, erection, materials or goods, over or upon any meter through which water is supplied by the Trust, or do or permit anything to be done which shall prevent or interfere with the inspection and/or removal at any time by an officer of the Trust of any such meter. In the event of the easy reading or removal of a meter being hindered by the growth of a hedge or other obstruction, the owner or occupier shall remove such obstruction within seven days after receiving written notice from the Trust so to do.

37. Any meter fixed prior to this By-law coming into operation shall, if removed for any purpose whatever, be refixed in manner and position in strict accordance with the provisions of this By-law.

38. In every case of fixing or refixing a 2-inch meter or meter of larger size, provision must be made for testing the working of the meter in position by the affixing of a stop tap or valve on the outlet side of the meter with a stop tap ferrule between the stop tap and the meter. No branches are to be taken off between the stop tap or valve and the meter. The sizes of the stop tap ferrule must be as follows:—

For 2-inch and 3-inch meters	2-inch.
For 4-inch meters	1-inch.
For meter larger than 4-inch	1½-inch.

39. The quantity of water which any person shall be entitled to use in each year in respect of any allotment or tenement before a charge is made for excess water shall be fixed annually by resolution of the Trust.

40. The quantity of water fixed under the last preceding clause as an allowance for each allotment and tenement shall be used only on that lot or tenement. If the amount so used is less than the allowance fixed, the unused part of the allowance may not be transferred to any other lot or tenement so as to reduce or cancel a charge for excess water that would otherwise be made on such last-mentioned lot or tenement. Provided however that where a residence or other building extends over two or more allotments so as to be one property in one tenancy the Trust may, at its discretion, permit the allowances on these allotments to be pooled and considered the allowance for the property.

41. The Trust shall be at liberty, from time to time, to disconnect or remove any meter and fix and substitute any other meter for the purpose of testing the accuracy thereof or for examination or repairs or for any other purpose, and where in any case the Trust shall remove any meter and affix and substitute any other meter in its place under this clause, then, and in any such case, the provisions of any agreement relating to the hire of the meter so removed as aforesaid shall be taken to apply to any such substituted meter in like manner as if such meter had been originally described in the agreement instead of the meter therein described.

42. Subject to paragraph 44, the quantity of water which shall be registered by the meter as having been supplied shall be taken as the quantity actually supplied, and the quantity of water so registered shall be paid for by the consumer at the rate or charge for the time being fixed by resolution of the Trust for water supplied by measure, and such payment shall be made on the date or dates as fixed by resolution of the Trust or within fourteen days thereafter, provided always that the allowance fixed annually by resolution of the Trust under paragraph 39 hereof shall be deducted from the quantity shown as having passed through the meter during any year for each lot supplied by the meter.

43. In the event of an owner or occupier being dissatisfied with the registering of a meter placed on the service pipe to his property he may, by notice in writing, require the Trust to cause such meter to be removed and tested, and forward the sum of ten shillings with such notice. If the meter be found to register more than three per cent. to the disadvantage of the consumer, the ten shillings so deposited as above shall be returned to the consumer, but shall otherwise be retained by the Trust as the charge for testing such meter.

44. If any meter in use ceases registering or is reported by a duly authorized officer of the Trust as out of repair or registering inaccurately, the Trust will estimate and charge for the water consumed during the period such meter is not in working order, and until it is repaired and refixed either by taking an average of the quantity used during any period of similar conditions or on the basis of subsequent consumption after repairing, or the Trust may insert a check meter on the service pipe and charge upon estimate from the registering thereof.

45. The owner or occupier shall and will keep any meter loaned or hired to him by the Trust properly protected from all accident or damage from fire or other causes, and shall be responsible to the Trust for its safe keeping and condition and answerable to the Trust for any damage or injury (fair wear and tear excepted) which may be done to or sustained by the said meter, and shall pay to the Trust the amount of the damage occasioned thereby.

46. (a) If the owner or occupier shall be at any time desirous of discontinuing the use of a meter hired or loaned to him by the Trust, he shall give the Trust six days notice, in writing, to that effect, and at any time after the receipt of such notice, the Trust may remove the meter from his premises, but the owner or occupier shall be and remain liable to the Trust for any rent of the meter until the end of the year current at the time of the expiration of such six days' notice.

(b) In the event of the removal of a meter the service pipe shall be disconnected. The owner or occupier shall not reconnect the service pipe or use water on the lot without written authority of the Trust.

47. Upon breach or non-observance of any of the provisions of this By-law, the Trust shall be at liberty without previous notice to discontinue the supply of water and remove the meter and to immediately sue for the recovery from the owner or occupier of the amount of any loss or damage which the Trust may have sustained through such breach or non-observance, and of any money which may be then due to it for water supplied or otherwise, and for the costs or expenses incurred by the Trust in connexion with the removal of the meter.

48. An agreement for the hire of a meter from the Trust shall not be transferable or assignable to any person without the written consent of the Trust first obtained.

49. Every person guilty of any breach of this By-law shall be guilty of an offence and except in those cases where a penalty is prescribed for any breach or offence, be liable to a penalty not exceeding Five pounds for such offence, and in case of a continuing offence, shall be liable to a further penalty not exceeding Five pounds for each day the offence continues after notice of the offence from the Trust.
