INTERPRETATION.

3. In the construction of this By-law unless inconsistent with the context or subject-matter:—

"Commission" means the State Rivers and Water Supply Commission.

"Person" includes a corporation or company.

"Proper officer" means an employee of the Commission authorized to execute any function on behalf of the Commission.

"Licensed plumber" means a plumber duly licensed by the Commission for the Urban District or Urban Division indicated in a licence issued by the Commission.

METERS (INSTALLATION).

4. No person shall use any private service save for the supply of water for domestic purposes solely unless the whole of the water supplied to such private service passes through a meter.

5. Every person using or supplied with water for other than domestic purposes solely shall, at his own expense, provide a meter and keep and maintain the same in good working condition to the satisfaction of the proper officer.

6. (a) No meter for measuring the water supplied to any tenement shall be affixed until it shall have been examined, tested, and approved by the proper officer. Every such meter shall be fitted with dials capable of registering at least 1,000,000 gallons.

(b) Meters, other than such as are hired from the Commission will be tested on delivery thereof at the office of the Commission for each respective Urban District and Urban Division, and a fee of One shilling shall be charged for each test.

(c) Every meter shall be fixed and maintained in an easily accessible position within six feet of the building line of the tenement, and the Commission may, at any time by notice in writing, order the removal of any obstruction or impediment to inspection.

(d) The Commission may, by notice in writing, order any type and size of meter to be fixed in lieu of any other type or size of meter already fixed.

(e) All work in connexion with the fixing, removal, or alteration in position of a meter shall be carried out by a licensed plumber or other person authorized by the Commission.

METERS (HIRING OF).

7. The Commission, notwithstanding anything contained in this By-law, may, if it so think fit, affix and let for hire water meters, the rent for which shall be at the rate per annum of—

Size.	Rent per annum.
	s. d.
$\frac{1}{2}$ inch	7 6
$\frac{3}{4}$ inch	7 6
1 inch	15 0
$1\frac{1}{4}$ inch	20 0
$1\frac{1}{2}$ inch	30 0

For any meter of larger size than $1\frac{1}{2}$ inch the rent per annum shall be at the rate of $12\frac{1}{2}$ per centum upon the cost of such meter, fixed complete.

Such rents shall be exclusive of and in addition to the amount chargeable for the recorded consumption of water, and shall become due and be paid yearly, in advance, on the first day of the month of July in each year. Such hired meters shall be kept in repair at the cost of the Commission, except as to external injuries, the cost of repairing which shall be borne by the hirer.

Any person hiring a meter from the Commission who shall cease to occupy the tenement on which such meter is fixed without having previously given, in writing, at least six days' notice to the Commission of his intention so to do, shall be guilty of an offence.

METERS (REGISTRATION).

8. In the event of a hirer being dissatisfied with the registration of any meter hired from the Commission, he may, by notice in writing, require the Commission to cause such meter to be removed and tested; and together with such notice shall forward a sum of Ten shillings, which, if the meter be found to register correctly, shall be applied in paying the cost of the removing, testing, and replacing; and the balance, if any, shall be returned to him; but if such meter be found to fail to register, or be found to register incorrectly, it shall be repaired and refixed, or another meter shall be placed instead thereof at the cost of the Commission, and the amount deposited by the hirer shall be returned to him.

9. If any meter in use cease registering, or be found to be out of repair or to be registering inaccurately, the Commission may estimate and charge for the water consumed during the period such meter was not in working order and until repaired and refixed, or replaced, either by taking an average of the quantity used during the previous quarter, or during the corresponding period of the previous year.

10. The Commission, by its officers, may at any time attach a check meter to the service pipes of any consumer, either inside or outside the tenement of such consumer; and may, for such purpose, enter such tenement at any time between the hours of Ten in the forenoon and Four in the afternoon, and then and there do all things necessary therefor.

TAPPING AND SERVICES.

11. All work, connexions, fittings, apparatus, and materials used in connexion with the supply of water from the mains of the Commission shall be in strict accordance with the provisions of this By-law.

12. (a) Any person giving notice of his desire to lay a pipe to connect with and tap the mains of the Commission shall provide for and bear the cost of all labour and materials necessary for such connexion, and for the restoration of the ground to the satisfaction of the local municipal authority, and shall be liable for the consequences of failure so to do.

(b) Before any existing pipes, fittings, or apparatus are connected with the Commission's mains, they shall be examined and approved by the proper officer, and all renewals, alterations, or replacements required by such officer shall be carried out by a licensed plumber.

13. (a) All connexions with the Commission's mains shall be made with main stop cocks and right-angled bends as approved by the Commission.

(b) Tapping or plugging of the Commission's mains and alterations or repairs to main stop cocks shall be carried out by an officer of the Commission and the charge for same paid in advance by the consumer.

14. (a) A high pressure screw down stop cock, properly secured, shall be fixed on each service as directed by the proper officer in one of the positions set out as follow:—

(1) Outside the tenement boundary between the main and the street alignment as approved by the Commission, the stop cock to be covered with a box which must comply with the requirements of the municipality in which the service is laid; or

(2) Where a meter is fixed—
Within the tenement boundary between the meter and the inlet bend thereto;

(3) Where a meter is not fixed—
Within the tenement boundary on the service pipe above the ground in an accessible position not more than six feet from the building line.

(b) Except where otherwise permitted by the Commission, in writing, every main cock, stop cock, and service shall be opposite the tenement supplied, and in one straight line at right angles to the building line.

(c) The service pipe between the main and the stop cock shall be $\frac{3}{4}$ -in. diameter, unless otherwise permitted, in writing, by the Commission.

(d) The fittings required for the installation of a meter shall be provided when the service is installed.

15. All joints connecting lead pipes shall be "wiped" joints, and in no case will "bolt" or "copper bit" or "blown" joints be allowed.

16. Except with the permission, in writing, of the Commission, not more than one tenement shall be supplied from a single water service.

17. In any thoroughfare every service pipe shall be laid at a depth of not less than one foot from the surface so as to ensure, as far as possible, freedom from damage. A service pipe shall not be laid longitudinally under a footpath or pitched channel or in a water channel, unless expressly allowed by the by-laws or regulations of the local municipality, which are in all cases to be strictly observed.

18. The service pipe from the main being the property of the owner or occupier of the tenement supplied by such service pipe, the occupier (if any) or (if no occupier) the owner shall, upon receiving notice that his service pipe requires repairing, immediately proceed to repair the same; and in default of so repairing the Commission may—

(a) Cut off the supply of water to such premises, or

(b) Repair or renew any pipes and stop cocks laid for conveying a supply of water to any tenement and may charge the owner thereof with the cost and expense of providing and laying, repairing, or renewing the same; and such cost and expense shall be a debt due by such owner to the Commission, and shall be recoverable in any Court of competent jurisdiction.

19. Any permission granted by the Commission to supply a tenement with water by means of an extension service from a main pipe which does not pass in front of the said tenement or from a private service shall be deemed to be temporary, and shall be liable to revocation at the pleasure of the Commission.

QUALITY OF MATERIALS.

20. No person shall use or permit to be used in connexion with a supply of water from the Commission, any main cock, stop-cock, bib-cock, ball-cock, valve, reflux valve, closet cistern, flushing apparatus or other fitting which is not in every respect of the best quality and workmanship and stamped as having been subjected to tests satisfactory to the Commission. All stop and bib-cocks shall be screw-down high-pressure cocks, except as otherwise approved by the Commission.

21. Only piping of approved quality tested to the satisfaction of the Commission, shall be permitted to be used for services whether inside or outside the building line.

22. All water troughs supplied from the pipes of the Commission, where not of concrete or cast iron, shall be lined with metal, so as to be watertight, and shall have proper and efficient fittings for supplying them automatically and for preventing overflow. All such troughs and fittings shall be kept in proper order and repair. No water trough shall be of greater capacity than twenty-five gallons. Should any trough or fitting thereof be out of repair or leaking, the supply thereto may be cut off until such trough or fitting be satisfactorily repaired.

CROSS CONNEXIONS.

23. On any tenement, pipes in communication with the Commission's water mains shall not be connected to any other source of supply.

LICENSED PLUMBERS.

24. No person, other than the holder of a plumber's licence from the Commission, shall affix any service pipe to any pipe of the Commission, or alter, repair, or in any manner interfere with any pipe of the Commission, or any service pipe, tap, meter, or fitting connected with the pipes of the Commission, and any person who is not the holder of a plumber's licence from the Commission, and who affixes, alters, repairs, or in any manner interferes with any such pipe, service pipe, tap, meter, or fitting as aforesaid, shall be guilty of an offence.

NOTICES.

25. (a) Any person, whether a licensed plumber or not, who opens any ground so as to uncover any main or pipe, the property of the Commission, without giving two days' notice, in writing, to the Commission of his intention so to do or who in any way tampers with or alters any main or pipe the property of the Commission, without the permission, in writing, of the Commission being first obtained, or who wilfully or carelessly breaks, injures, or opens any lock, tap, valve, pipe, works, or apparatus, the property of the Commission, shall be guilty of an offence.

(b) Every notice must contain all information and particulars required by the Commission, and shall be signed by the licensed plumber actually engaged to carry out the works referred to in the notice, or by a licensed plumber employing another licensed plumber to carry out the work under his supervision.

(c) Any licensed plumber signing a notice for work which is not actually done either by himself or by a licensed plumber employed under his supervision, or carrying out work under a notice not signed by himself or by a licensed plumber supervising the work shall be guilty of an offence, and shall be liable to have his licence suspended or cancelled.

(d) Any person, whether licensed as aforesaid or not, who shall lay any pipe to communicate with the pipes of the Commission, or with any service pipe connected therewith without giving two days' notice, in writing, of the day and hour when such pipe is intended to be made to communicate with such pipes, or who shall make such communication except under the proper superintendence and according to the directions of the proper officer, or who shall lay any pipe to communicate with the pipes of the Commission of a size, strength, or material not sanctioned by the Commission, shall be guilty of an offence.

(e) The giving of two days' notice as aforesaid will only be dispensed with in the event of urgent repairs being required to stop the waste or escape of water, in which case the licensed plumber shall, if possible, notify the proper officer that urgent repairs are to be undertaken, and he shall, in addition, lodge the prescribed notice within twenty-four hours of commencing such repairs. Failure to give notice as herein required will constitute an offence.

WASTE OF WATER.

26. Any person, supplied with water by the Commission, who shall wilfully or negligently allow such water to run to waste shall be guilty of an offence; and in the event of continuing the same, after notice from the Commission, shall be guilty of a further offence for each day on which such waste is continued.

TAKING OR SUPPLYING WATER WITHOUT AUTHORITY.

27. (a) Any person, supplied with water by the Commission, or otherwise receiving water from the Commission, who, without the written authority of the Commission, takes or carries away such water from his tenement or allows any person to take away such water, or sells the same to any other person, shall be guilty of an offence.

(b) Any person, who, except with the consent of the Commission, takes or carries away water from tenements supplied by the Commission, or from any drinking tap, trough, or service pipe, shall be guilty of an offence.

GENERAL.

28. Any person, whether licensed or not, who connects any service pipe or branch service pipe with any steam boiler for the purpose of feeding or supplying the same with water, without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter, shall be guilty of an offence.

29. Any person, other than an employee of a municipality, or a person authorized by any fire brigade, who, without the written permission of the Commission, uses water for any purposes whatsoever by means of a hydrant attached to the Commission's main, shall be guilty of an offence.

30. If any person supplied with water by the Commission does, or causes to be done, anything in contravention to this By-law, or fails to pay any rates or charges lawfully due by him, or fails to do anything which under this By-law ought to be done, or wilfully or negligently allows water to run to waste, the Commission may, in addition to any other remedy, cut off the supply of water from the tenement of such person, either by cutting the pipes by or through which water is supplied or otherwise, and may cease to supply him with water so long as the cause of complaint remains or is not remedied.

PENALTY.

31. Any person guilty of an offence against this By-law shall be liable to a penalty not exceeding Five pounds, recoverable summarily before any Court of competent jurisdiction.

The foregoing By-law was made by the State Rivers and Water Supply Commission on the 18th day of July, 1938, and the common seal of the said Commission was hereunto affixed the 12th day of August, 1938, in the presence of—
