IN pursuance of the powers conferred by the Local Government Acts, and of every power it thereunto enabling, the Mayor, Councillors, and Citizens of the City of St. Kilda, with the approval of the Governor in Council, orders as follows:—

1. This By-law shall be read and construed as one with By-law No. 115 of the City of St. Kilda (hereinafter referred to as the principal By-law).

2. This By-law shall have force and effect throughout the whole municipality.

3. This By-law shall come into operation on its approval by the Governor in Council immediately after its publication in the *Victoria Government Gazette*.

4. The definition of "Dividing Wall" in Part I. of the principal By-law is hereby repealed, and the following definition shall be substituted therefor:—

"Dividing Wall" means any internal wall in buildings of two or more storeys in height sustaining any portion of the whole dead load and the whole live load, or other load superimposed or bearing thereon and not being a party or cross wall.

5. Part II., clauses 1 to 7, of the principal By-law are hereby repealed, and the following clauses shall be substituted therefor:—

PART II.

(1) *Notice of Intention to Build and Lodgment of Plans.*

1. No builder shall commence any building, erection, or structure, or any addition or alteration to any building, erection, or structure without first delivering at the office of the surveyor a written notice of intention so to do, and producing to the surveyor properly prepared plans, sections, and specifications of such building, erection, structure, addition, or alteration, and all stress and other calculations concerning same, together with a tracing or copy of the floor plans of such building, erection, structure, addition, or alteration, and also details of dimensions, sizes, and qualities of all materials, and enumerating any old materials proposed to be used in the construction of same. Such plans and details may be inspected on payment of the fee set forth in Schedule A to this By-law.

2. The original plans, sections, and specifications when approved shall be returned to the builder or his agent, but the tracing or copy of the plans and details of materials shall be retained by the surveyor.

(2) *Duties of Surveyor.*

3. The surveyor shall upon the receipt of any such notice and production of plans, sections, and specifications as aforesaid, and also upon any work being observed by or made known to him which is affected by the provisions of this By-law, but in respect of which no notice has been given from time to time during the progress of any work affected by such provisions as often as may be necessary for securing the due observance of such provisions, survey any such building, structure, erection, or work, and cause all such provisions to be duly observed.

4. The surveyor, at all reasonable times before or after the completion of any building structure, erection, or work affected by any of the provisions of this By-law, or by any terms or conditions on which the observance of any such provisions may have been dispensed with, may enter and inspect such building, structure, or work.

5. The surveyor may, for the purpose of ascertaining whether any building, structure, or erection is in such a situation, or possesses such characteristics as are required in order to exempt it from the operation of any of the provisions of this By-law, at all reasonable times enter any premises, and may do therein all such things as are reasonably necessary for that purpose.

(3) *Payment of Fees and Permits.*

6. No builder shall commence any building, erection, structure, or any addition or alteration to any building, erection, or structure, without having first obtained from the Council a written permit for the commencement of same, and without having first paid to the treasurer the fees in respect thereof set forth in Schedule A to this By-law, having regard to the class of building, erection, or structure, or any addition or alteration proposed to be built or erected. Such permit shall only remain of force and effect for six months from date of issue of same.

7. All plans, sections, and specifications required to be produced as aforesaid shall be considered by the Council at the first available opportunity after the production thereof to the surveyor, and if—

(a) the building therein referred to (if erected in accordance with such plans, sections, and specifications) will comply with the provisions of this By-law, and of all other By-laws and Regulations (if any) applicable thereto; and

(b) such plans, sections, and specifications are otherwise in conformity with the provisions of this By-law,

the Council shall grant or cause to be granted to the builder a written permit (subject to the payment to the Treasurer of the fees as prescribed by the said Schedule A) for the commencement of the building referred to in such plans, sections, and specifications.

8. No person shall hereafter erect any building or make any alteration to any building (for which a permit for the commencement thereof has been granted as aforesaid) contrary to or not in conformity with this By-law or the plans, specifications, and other particulars in respect of which such permit was so granted.

6. Immediately after sub-clause (II) of clause 21 of Part III. of the principal By-law, the following sub-clause shall be added:—

(III) Workshops and out-buildings (except stables and living rooms) of not more than four squares in area, and not exceeding 10 feet in height, and not containing a fireplace, may be erected on the boundary,

provided the external walls thereof are constructed of brickwork of a thickness of 9 inches at least, and provided such external walls on the boundary are carried up to form a parapet 15 inches at least in height above the roof or above the highest part of any flat or gutter, as the case may be, except that such workshops and out-buildings may not be erected—
