(d) The Council may insert or fix a check meter on the service pipe of or to the defective meter and charge upon an estimate made by the Council on the basis of or from the registration of water consumed made by such check meter.

19. When fixing or refixing 2-in. meters or meters of larger sizes, provision shall be made for testing the working of the meters in position by the affixing of a stop-cock or valve on the outlet side of the meter, with a stop-cock ferrule between the stop-tap and the meter. No branches are to be taken off between the stop-tap or valve and the meter. The sizes of the stop-cock ferrules must be as follows:—

For 2-in. and 3-in. meters $\frac{3}{4}$ inch.

For 4-in. meters 1 inch.

For meters larger than 4-in. $1\frac{1}{2}$ inch.

20. Any meter removed owing to it being out of repair or order must with the least possible delay be repaired, adjusted, and submitted for test to the Melbourne and Metropolitan Board of Works by a licensed plumber employed for the purpose.

21. If any meter which shall have been fixed prior to the coming into operation of this By-law shall, during the operation of this By-law, be removed for any purpose whatever and be refixed, such refixing of the said meter shall in manner and in position be made in strict accordance with the provisions of this By-law in every respect.

22. The Council if it so think fit, but not otherwise, may let for hire one or more $\frac{1}{2}$ -in. meters. The rent for each of such meters shall be at the rate of Eight shillings per annum. Such rate shall be exclusive of and in addition to the amount chargeable for the recorded consumption of water.

23. No meter shall be fixed upon any rateable property by any person other than a licensed plumber and at the cost of the hirer or purchaser.

24. The Council shall, at its own expense, keep in good repair every such meter as shall be hired by it to any person, but if any of such repairs shall be rendered necessary by reason of any external injury to the said meter the person hiring such meter from the Council shall, on demand, pay to the Council the costs of the repairs rendered necessary by such external injury.

25. In event of the hirer of any meter from the Council being dissatisfied with the registering of such hired meter he may, by notice in writing, require the Council to cause such meter to be removed and tested, provided he shall have with such notice forwarded to the Council a sum of One pound. If the meter be found to register correctly the Council shall apply the said sum of One pound in paying the cost of removing, testing, and replacing such meter, and shall repay to the said hirer the balance (if any) of the said sum of One pound, but if such meter be found to fail to register or be found to register incorrectly, such meter shall be repaired and replaced or another meter shall be fixed in its place and stead by and at the cost of the Council and the said sum of One pound shall be paid to such hirer.

26. If any person who shall have hired a meter from the Council shall leave the premises on which such meter is fixed without having previously given, in writing, at least six days' notice to the Council of his intention to leave the said premises, such person shall be liable to a penalty not exceeding Five pounds.

27. All works, connexions, fittings, apparatus, and materials in connexion with the supply of water from the pipes of the Council shall be in strict accordance with the provisions of this By-law, and where any service existing at the time of the coming into operation of this By-law and supplying water from the pipes of the Council or any fitting or apparatus connected therewith is not in accordance with the provisions of this By-law all renewals, alterations, or repairs or replacements thereof or thereto must be and be effected in strict accordance with the provisions of this By-law in all respects.

28. Ordinary connexions with sub-mains must be made with proper stop-cock ferrules to which, for iron services, a length of not less than 3 feet of lead pipe must be attached. One service pipe only for the supply of water for domestic purposes to each tenement will be permitted.

29. The maximum tapping allowed without clip for each size of cast-iron main is as follows:—

For 2-in pipes 1-in. tapping.
For 3-in. and 4-in. pipes 1-in. tapping.

A clip shall be used for tappings to all pipes other than cast-iron, except where otherwise permitted by the Council.

30. A branch must be inserted for all connexions of 2-in. diameter or over to mains of 5-in. diameter or less and for all connexions of 3-in. diameter or over to mains of 6-in. diameter or over. All such branches must be of pattern and material, approved by and be fixed only in accordance with the directions of the Council.

31. A high pressure screw-down stop-cock properly secured and covered with an approved cast-iron box must be fixed on each water service between the main and the building line.

32. Except where otherwise permitted by the Council stop-cocks and stop-cock ferrules must be opposite the principal part of the rateable property supplied and in one line at right angles to the main on which such stop-cock ferrule is fixed. Every service which does not enter the building line of the said rateable property supplied at a point opposite to the main to which such service is connected shall be provided with two high pressure screw-down stop-cocks and approved cast-iron covers, one of which shall be fixed opposite the main and the other in a position approved by the Council immediately outside the building line where the service enters the said rateable property.

33. All joints, connexions, lead pipes must be "wiped" joints, and in no case will "bolt" or "copper bit" joints be allowed on water service pipes either in the interior or on the exterior of any building.

34. Excepting, with the permission of the Council not more than one tenement shall be supplied with water from a single water service. The Council may, in special cases, consent to two or more tenements being supplied from one water service, but in such cases the sub-services shall be so arranged that the supply to each tenement shall be independent of the supply to the remaining tenements, be separately metered, and be controlled by a stop-cock fixed in a public thoroughfare on such sub-service.

35. Whenever any service existing at the time of the coming into operation of this By-law supplies more than one tenement and such service is not laid in accordance with this By-law such service must be made forthwith to strictly conform to this By-law.

36. Any person offending against the or any of the provisions of this By-law, except where otherwise provided, shall be liable to a penalty not exceeding Two pounds.

37. No extension of private services will be allowed, except with the consent of the Council.

38. In connexion with every application to lay a water service of 2 inches and upwards in diameter or to alter the position of any such water service, the plumber's notice must be accompanied by a properly dimensioned plan showing the locality of the premises at which the work is to be effected and the position in which it is intended to lay the pipes and fix meters, plugs, stop-taps, and other fixtures or attachments thereto.

39. The occupier (if any) or, if none, the owner of any rateable property supplied with water by or through any service pipe from the main to the said property, upon receiving notice from the Council to the effect that such service pipe is in a state of disrepair, shall forthwith repair the same and shall be responsible for any loss of water or damage which shall be caused by reason of such service pipe being leaky or otherwise out of repair or broken, and in default of so repairing the said service pipe he shall be liable to a penalty not exceeding Five pounds, and in the event of such default continuing beyond a period of two days next after the day upon which such notice shall have been received, he shall be liable to a further penalty of Two pounds for each and every day of the said period, and the Council may at any time stop the water from flowing into or to such property either by cutting off the service pipe or otherwise, as to the Council may seem fit until the necessary repairs shall have been effected.

40. If, any owner or occupier of any rateable property supplied with water by the Council shall wilfully or negligently allow the said water or any portion of the same to run to waste he shall be liable to a penalty not exceeding Five pounds, and in the event of such owner or occupier allowing such water or portion of it to run to waste on more than one day he shall be liable to a further penalty of Two pounds for and in respect of each and every day (except the first day) upon which he shall have so allowed the said water or any portion thereof to run to waste.

41. Any owner or occupier of any rateable property supplied with water by the Council who, without the written permission of the Council, shall take or carry away such water from such property or allow any person to take or carry away such water or shall sell the same to any person shall be liable to a penalty not exceeding Five pounds.

42. Any person who shall, without the previous consent of the Council, take or carry away water from the rateable property of any other person supplied with water by the Council or from any drinking tap, trough, or private or public service pipe shall be liable to a penalty not exceeding Five pounds.

43. Before any person shall affix, repair, or alter any service water pipe connexion with any of the water pipes of the Council or in any manner interfere with any of the water pipes of the Council or any of the fittings or attachments connected therewith he shall obtain from the Council permission to execute such works.

44. Such permission may be granted at and remain in force during the pleasure of the Council. The Council may at its pleasure at any time cancel such permission. The person to whom such permission shall be given shall be responsible to the Council for the conduct of the work or any breach of this By-law by any of his employees.

45. Every person applying to the Council for any such permission shall produce to the Council evidence that he is a licensed plumber and that he has made himself thoroughly conversant with the provisions of this By-law. The Council may, if it so see fit, refuse to grant any such permission in any circumstances whatever and that with or without assigning all or any of its reasons whatever for such refusal.

46. Any unlicensed person affixing, altering, or repairing or attempting to affix or repair or in any way or manner interfering with any such service pipe, fittings, or attachments shall be liable to a penalty not exceeding Five pounds.

47. Any plumber's licence issued by the Melbourne and Metropolitan Board of Works and for the time being recognized as valid by that corporation shall, upon being produced to and noted by the secretary of the Shire, be deemed a permission granted by the Council to the holder of such licence within the meaning of this By-law.

48. Any person (whether licensed as aforesaid or not) who shall open any ground so as to uncover any pipe or pipes or fixtures or attachments thereto belonging to or being the property of the Council without first having given at least two clear days' notice to the Council of his intention so to do or who shall in any way interfere with or alter any pipe, fixture, or attachment belonging to or being the property of the Council, without the previous permission, in writing, of the Council, or who shall wilfully or carelessly break, injure, or open any lock, cock, valve, pipe work, or engine the property of the Council shall be guilty of an offence and shall be liable for each such offence to a penalty not exceeding Ten pounds.

49. Notices must be signed by the licensed plumber actually engaged in carrying out the works referred to in the notice or by a licensed plumber employing another licensed plumber to carry out the work under his supervision.

50. Any person, whether licensed as aforesaid or not, who shall lay any pipe to communicate with any of the pipes of the Council or who shall alter, repair, or replace any of the pipes or fittings or attachments of to or in communication with any of the pipes of the Council without giving at least two clear days' notice of the day and hour and exact place when and where such work is to be commenced or who shall make any such communication, alteration, repair, or replacement except under the superintendence of and in accordance with the directions of the Council, or who shall lay any leaden or other pipes to communicate with any of the pipes of the Council of a strength and material not sanctioned by the Council shall be guilty of an offence, and shall be liable for each such offence to a penalty not exceeding Five pounds, and in the event of the offence continuing on any day or days subsequent to the day upon which such act or work shall have been commenced he shall be liable to a further penalty of Two pounds for each and every day after the first day upon which such offence shall be continued. In the case of service communication with any of the pipes of the Council being made through any of the intervening media or storage tanks the provisions of this clause shall have as full application as if the communication were by direct service.

51. The giving of two clear days' notice as aforesaid will only be dispensed with in the event of urgent repairs being required to stop the waste or escape of water, in which case notice must be sent to the Council by the licensed plumber concurrently with or immediately after the execution of such urgent repairs. The penalty for not giving notice as herein required shall be the same as is mentioned in clause 54 hereof.

52. No person shall use in connexion with the supply of water by or from the Council any pipe, tap, stop-cock, bib-cock, ball-cock, valve, closet cistern, service box, bath tap or valve, or other fitting which is not of the best quality, tested, stamped, and approved by the Melbourne and Metropolitan Board of Works.

53. No person shall use any stop or bib cocks which are not screw-down high pressure cocks made of hard brass or gun metal and in every respect of the best quality and workmanship, tested, stamped, and approved by the Melbourne and Metropolitan Board of Works.

54. The lead piping to be used shall be of the following weights:—

	Per yard.
$\frac{3}{8}$ -in. diameter	5 lb.

1-in. diameter	12 lb.
1½-in. diameter	22 lb.
1¾-in. diameter	30 lb.
2-in. diameter	45 lb.

55. Except with the previous written consent of the Council only galvanized-iron piping of the best quality approved by the Council will be allowed for external and internal services. The fixing of lead pipes on water supply to filters will not be permitted; tin-lined lead pipes or galvanized wrought-iron pipes of approved quality must be used.

56. No person shall use any cistern or tank that is not provided with an equilibrium ball valve and with the overflow pipe laid and fixed in a suitable manner, open to inspection and in a position approved by the Council. Every such cistern or tank must be constructed, protected, made accessible, and provided with inlet and outlet pipes as required by the Council so as to reduce the risk of pollution and waste of water to a minimum.

57. No bath shall be allowed which has a holding capacity of more than 100 gallons, except with the special permission, in writing, of the Council.

58. Any person, whether licensed as aforesaid or not, who shall connect any service pipe or branch service pipe with any steam boiler for the purpose of feeding or supplying the same with water without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter shall be guilty of an offence and shall be liable to a penalty not exceeding Five pounds, and in the event of such offence continuing on more than one day he shall be liable to a further penalty of Two pounds for and in respect of each and every day (except the first day) upon which such offence shall be continued.

59. Any person offending against this clause shall be liable to a penalty of Five pounds.

60. The water supply of all public parks and gardens shall be under the exclusive control and direction of the Council. If any person not duly authorized by the Council shall turn on or otherwise interfere with such water supply such person shall be liable to a penalty not exceeding Five pounds.

62. In every case in which it is necessary to obtain the consent of the Council before doing any act or commencing any work such consent must be asked for, by notice in writing, addressed to the Secretary and he delivered to such secretary at the office of the Council of such length of time as is required by the *Water Act 1928* or by this By-law, and in no case shall such time be less than two clear days prior to the time proposed for the doing of such act or the commencement of such work, and such notice must state clearly the act proposed to be done or work to be commenced, and such act shall not be done or work be commenced save upon the Council's consent, in writing, and then only subject to and in accordance with such directions as shall be therein specified. Such consent may be given by and under the hand of the secretary or the engineer of the Council who severally shall be competent to give the Council's consent, and on behalf of the Council to prescribe any directions or conditions attaching thereto, and subject to and in accordance with which only such consent shall be deemed to have been given.
