Every licence granted under section 121 of the *Land Act 1928* shall be subject to the conditions set forth in the Schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 121st section of the *Land Act 1928*, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council.
2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.
3. This licence is subject to the rights of the holders of miner's rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.
4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.
5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.
6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.
7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.
8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.
9. That where improvements are authorized under section 123 of the *Land Act 1928* the licensee shall notify, on completion, that such improvements have been made; otherwise the work will not be recognized.
10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.
11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.
12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.
13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.
14. Free access to water shall be kept open at all times for travelling or other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all noxious weeds on the land, and on the half-width of the adjoining roads, and shall be responsible for the destruction of noxious weeds under the *Vermin and Noxious Weeds Act 1928* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. The licensee shall thoroughly and effectively protect the land within the boundaries of his licensed area from fire, and shall extinguish any fire which may break out on such area or may spread to it. In the event of the area being damaged by fire, the licence may be forfeited, unless the licensee satisfy the Minister that neither he, directly, or indirectly, nor his workmen or servants, were in any way responsible for such fire.

19. The licensee shall not interfere in any way with any survey marks on the land hereby licensed.

20. The licensee shall pay shire rates and all other charges for the period of occupation.

SPECIAL CONDITIONS.

1. The period of occupation, except where otherwise stated, will be for twelve (12) months from 1st October, 1939, to 30th September, 1940, with the right of renewal annually for a further period as stated.
 2. The rent for the full period—for which the licence will be issued, and the fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.
 3. Separate tenders must be lodged for each block.
 4. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.
 5. The highest or any tender not necessarily accepted.
 6. Tenderers must give their full name, occupation, and ordinary postal address.
 7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.
 8. Where permission to fence has been granted, the outgoing tenant has the option to remove any existing fencing owned by him within one month, or he may arrange with the incoming tenant to pay for it in accordance with the provisions of section 124, *Land Act 1928*.
- This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the ingoing tenant will be held responsible for the care and maintenance of any improvements.

In addition to the foregoing conditions the following will apply to lots 58, 59, and 60 only:—

The Minister may grant permission to cultivate.

No advances will be made by the Board of Land and Works with respect to these areas.

Existing improvements, including clearing, to be maintained to the satisfaction of the Minister.

Any allotment or allotments at present occupied within the boundaries of the proposed grazing licence will be included, when vacant, and shall be accepted by the licensee at a rental equal to the average price per acre he will be paying for his original licence.

The Board of Land and Works reserves the right to sell or remove from each lot the surplus houses or other buildings not required for the reasonable working of the areas.

The Minister may grant permission to the licensee to remove any internal fencing to complete the boundary fences.

NOTE.—No provision has been made for the supply of water to these three areas, consequently each licensee will be required to make his own arrangements.

Plans can be seen and information may be obtained in this office.

Section 121, *Land Act 1928*, provides—

1. Where a licensee under section 121 of the *Land Act 1928* has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

A. By-law of the Shire of Korumburra (formerly the Shire of Poowong and Jeetho) made under the provisions of the *Health Act 1928*, and numbered 22, for instituting a weekly double-pan sanitary service for the Township of Korumburra and its environs and for prescribing conditions to be observed by householders, contractors, and others.

IN pursuance of the powers conferred by the *Health Act 1928*, and of any other power thereunto enabling them in that behalf, the Council of the Shire of Korumburra, in the name and on behalf of the President, Councillors, and Ratepayers of the said Shire, for the purpose of carrying the provisions of the said Act into execution within their jurisdiction, do make the following By-law, that is to say:—

1. All former By-laws, so far as they relate to the matters and things provided for in this By-law, are hereby repealed.

2. This By-law, after being approved by the Governor in Council, and published in the *Government Gazette*, shall come into full force and operation on the first day of October, in the year One thousand nine hundred and thirty-nine.

3. This By-law shall apply to and have operation in the Korumburra Riding of the Shire of Korumburra, and shall apply to every house, building, and premises therein not specially exempted by the Council.

4. In this By-law, unless inconsistent with the context or subject matter—

“Inspector” means any officer authorized by the Commission or Council, and includes any acting or assistant inspector.

“Proprietor” means the proprietor of any premises, and includes the owner, the occupier, or any person having the management or control thereof.

“The Commission” means the Commission of Public Health.

5. The proprietor of any premises on which there is erected a pan-closet shall cause the space under the seat of each pan-closet on such premises to be prepared for the accommodation of a pan as prescribed herein, and shall permit the same to be used for the double-pan service hereinafter provided for and shall cause each pan-closet to be kept in a fit state for such service.

6. The proprietor shall cause every pan-closet to be supplied by the Council or otherwise with a pan for the reception of night-soil, and shall (except when being exchanged) cause such pan to be always kept in proper position under the seat of each pan-closet, and shall also provide a lid capable of being fitted tightly to such pan when being removed from the premises to the depot, so as to prevent the spilling of the contents and the emission of offensive vapours, gases, or effluvia from the contents of such pan.

7. Such pan shall be cylindrical in shape and formed of galvanized iron of not less than 22 gauge or other approved material or materials, presenting on the inside and outside an impervious hard, smooth, and durable surface; and those surfaces which come into contact with night-soil shall also be free from any projections. It shall be watertight, strongly constructed, re-inforced with metal bands where necessary, and provided with properly attached side-lifting handles.

Each such pan shall have a capacity of 1½ cubic feet, and shall have an internal depth of 14 inches, a diameter of not less than 14 inches, and a suitable rim or lugs to permit an airtight lid to be affixed.

The seams of the pan shall be folded, grooved, and sweated with solder.

8. The proprietor of the premises shall cause to be kept in every closet belonging thereto a supply of liquid deodorant or lime, sawdust, or some other dry material efficient for deodorizing night-soil, and shall cause all night-soil which may be deposited in the pan in such pan-closet to be immediately on the deposit thereof covered with a quantity of deodorizing material sufficient to thoroughly and effectually deodorize the contents of such pan.

9. The proprietor shall provide every urinal with an approved apparatus for the regulated automatic discharge into such urinal of sufficient approved deodorant for the purpose of keeping such urinal constantly deodorized.

10. No person shall place, or cause or permit to be placed any slops, water, or rubbish in any pan.

11. The proprietor of any premises whereon there is a pan-closet or urinal shall—

(a) maintain such pan-closet and urinal in good repair and in a cleanly condition; and

(b) when required by an inspector effectually disinfect such pan-closet and urinal and/or the contents thereof, and effect any repairs thereto that such inspector may deem necessary.

12. At least once a week, and in any case as often as may be necessary to prevent the level of the contents of such pan approaching within 2½ inches of the brim thereof, the pan in use shall be closed with a lid and removed by the contractor or person authorized or employed in that behalf by the Council with its contents from the premises and another pan thoroughly cleansed and in good order shall be left in its place.

13. Such contractor or person removing such pans shall report to the Council at the earliest available opportunity the discovery of any pan found to be overflowing or leaking, and shall forthwith cause the place whereon the contents have been dropped or spilled to be properly cleansed.

14. The contractor or person authorized or employed by the Council for that purpose shall cause all pans to be removed in a suitable covered vehicle in such a manner as not to cause nuisance, danger to health, or offensiveness, and forthwith cause such vehicle to be removed to the approved depot.

15. The contractor or person authorized or employed by the Council for the removal of night-soil shall cause such night-soil to be deposited at the depot and disposed of in such a manner as may be authorized by the Regulations.

17. No trench shall be used for the disposal of night-soil where the bottom consists of rock or other impermeable material.

18. Immediately after the deposit of the night-soil and washings in any trench such trench shall be filled in with thoroughly disintegrated earth. The necessary filling shall be obtained by excavation of another trench in a position parallel to but not less than 12 inches from the aforesaid trench required to be filled in, and using the material so obtained as a covering over the night-soil so deposited. Trenches shall be excavated and used and filled in in regular consecutive order.

19. Seed of grass or any forage or cereal crops or other such form of vegetable life as the Council shall direct or approve shall be seasonably planted or sown on any land into which night-soil has been deposited provided that vegetables or seeds of vegetables shall not be planted therein or thereon until three months have elapsed since the last deposit of night-soil in such land.

20. Every pan used for the reception or conveyance of night-soil shall immediately on being emptied be thoroughly washed or otherwise cleansed. The resultant washings or other filth shall be disposed of in a similar manner as the night-soil.

21. Every pan after the disposal of its contents and after being cleansed in manner aforesaid and before it again leaves the depot or disposal ground shall on every such occasion be thoroughly cleansed and disinfected by—

(a) immediately after washing and scrubbing with water subjecting the pan to a current of steam from a boiler at 60-lb. pressure to the square inch for not less than two minutes in a steam-tight box or chamber; or

(c) thorough washing and scrubbing in water and afterwards submerging for not less than five minutes in boiling water; or

(d) any other method approved in writing from time to time by the Commission.

22. The internal surface of every pan before it is first used shall be properly coated with well-boiled tar, crude creosote, or other approved material, and such coating shall thereafter be renewed when deemed necessary by the Council, but not less than once a month.

23. The contractor or person authorized or employed by the Council for the removal of night-soil shall cause all vehicles used for the transport of pans to the depot to be properly constructed, kept clean, and disinfected daily at the depot and maintained in a proper state of repair.

24. The proprietor or any other person shall not remove any night-soil from any premises except in accordance with this By-law.

25. The proprietor or any other person within the area defined by this By-law shall not bury nor cause to be buried any night-soil in any yard, garden, or other place not being a place set apart for such purpose by the Council.

26. The inspector shall have full power to enter into or upon any premises, yards, or lands at any time for the purpose of inspecting closets, urinals, pans, receptacles, vehicles, plant, and all other things and places therein and thereon, and for the purpose of carrying out the provisions of this By-law.

27. If any person or the Council commit a breach of this By-law he or they shall for every breach be liable to a penalty of not more than Twenty pounds, and in the case of a continuing offence to a further daily penalty of not more than Five pounds.
