5. Every person using or supplied with water shall, at his own expense, provide a meter and keep and maintain the same in good working condition to the satisfaction of the proper officer.

6. (a) No meter for measuring the water supplied to any tenement shall be affixed until it shall have been examined, tested, and approved by the proper officer. Every such meter shall be fitted with dials capable of registering at least 1,000,000 gallons.

(b) Meters, other than such as are hired from the Commission will be tested on delivery thereof at the office of the Commission for each respective District, and a fee of One shilling shall be charged for each test.

8. In the event of a hirer being dissatisfied with the registration of any meter hired from the Commission, he may, by notice in writing, require the Commission to cause such meter to be removed and tested; and together with such notice shall forward a sum of Ten shillings, which, if the meter be found to register correctly, shall be applied in paying the cost of the removing, testing, and replacing; and the balance, if any, shall be returned to him; but if such meter be found to fail to register, or be found to register incorrectly, it shall be repaired and refixed, or another meter shall be placed instead thereof at the cost of the Commission, and the amount deposited by the hirer shall be returned to him.
