Factories and Shops Acts.

DETERMINATION OF THE FACTORY ENGINE DRIVERS BOARD.

NOTES.—(A) This Determination applies to the whole of the State of Victoria.

(B) On the 22nd June, 1914, and 17th August, 1920, respectively, the powers of the Factory Engine-drivers Board were extended to enable it to "fix the lowest prices or rates which may be paid to any person employed in the occupation of—

- (a) a boiler cleaner;
- (b) an engine-driver or attendant in connexion with the use of internal combustion engines or electrical engines other than internal combustion engines or electrical engines connected with mines."

(C) On the 16th April, 1935, the Board was deprived of the power to determine the lowest prices or rates which may be paid to any person employed in the occupation of—

- (a) a fireman, boiler attendant, boiler cleaner, or engine-driver in connexion with steam engines or steam boilers in or about plants for crushing metalliferous ores;
- (b) an engine-driver or attendant in connexion with the use of internal combustion engines or electrical engines in or about plant for crushing metalliferous ores—

and such power was conferred exclusively on the Mining Engine-drivers Board.

IN accordance with the provisions of the Factories and Shops Acts, the Wages Board appointed to "determine the lowest prices or rates which may be paid to any person or persons or classes of persons whosoever employed in the occupation of a fireman, boiler attendant, or engine-driver, in connexion with the use of steam-boilers or steam-engines other than steam-boilers or steam-engines connected with mines," has made the following Determination, namely:—

(1) That on the 19th September, 1940, the adjusted Determination which came into force as from the beginning of the first pay period to commence in August, 1940, shall be revoked and replaced by this Determination.

J.—ADDITIONAL RATES.

An engine-driver engaged as hereinafter specified shall be paid additional rates as follow, viz. :—

	Per week.
	s. d.
Attending to refrigerating compressor	6 0
Attending to electric generator or dynamo exceeding 10 kilowatt capacity ..	6 0
Engine-driver in charge of plant	6 0

Provided that these rates shall not be cumulative to the extent of increasing the wage of an employee more than 32s. above the rate for "All Others," and provided further that an engine-driver attending a refrigerating compressor shall not be paid a rate less than 18s. above that fixed for "All Others."

Extra rates payable under this sub-clause shall be regarded as part of an employee's ordinary wage for the purposes of this Determination.

(3) JUNIOR LABOUR.—(a) The minimum rates of wage to be paid to juniors working as greasers or as cleaners or as motor drivers or attendants where the motor does not exceed 50 horse-power in all shall be :—

	Per week.
	£ s. d.
If under 16 years of age	1 11 9
If 16 and under 18 years of age	2 2 0
If 18 and under 19 years of age	3 1 0
If 19 and under 20 years of age	3 14 0

(b) If a cleaner or greaser sometimes under the supervision of an engine-driver, stops or starts an engine, he shall be paid 6s. per week extra.

(4) CASUAL LABOUR.—A casual employee (as defined) shall be paid per hour an amount equal to 1 1/10th of the weekly rate prescribed by this Determination for the work performed by him divided by forty-four.

(5) CONTRACT OF EMPLOYMENT.—(a) Except as provided by clause (4), employment shall be by the week. An employee, to become entitled to payment on a weekly basis, shall, except as provided by clause (13), perform such work as the management shall from time to time require on the days and during the hours usually worked by the class of employees affected.

(b) Employment for the first two weeks of service shall be from day to day at the weekly rate fixed. Provided that any employee who has once served a probationary period of two weeks with any employer shall not be subject to be employed for a second probationary period with the same employer, except when his re-engagement takes place at least one month after the termination of his employment. Provided further that an employee shall be paid for any holiday or holidays which occur during any period he is employed on probation pursuant to this clause.

(c) Any employee not attending for duty shall lose his pay for the actual time of such non-attendance unless he produces or forwards within 24 hours of the commencement of such absence evidence satisfactory to the management that his non-attendance was due to personal accident arising out of and in the course of his employment or to personal ill-health, necessitating such absence. Provided that an employee shall not be entitled to payment for non-attendance on the ground of personal accident or personal ill-health or both for more than four days in each year commencing on the 1st August.

(d) Employment shall be terminated by a week's notice on either side, such notice to be given at any time during the week. This shall not affect the right of the management to dismiss any employee without notice for malingering, inefficiency, neglect of duty or misconduct, and in such case wages shall be paid up to the time of dismissal only, or to deduct payment for any day the employee cannot be usefully employed because of any strike by the Federated Engine-drivers and Firemen's Association of Australasia or any other Union or through any breakdown of machinery or any stoppage of work by any cause for which the employer cannot reasonably be held responsible. Provided that, where an employer orders employees not to work on any day because of the state of the weather, such order shall not deprive the employees of their claim for payment under their weekly engagements, but if such employees cease work on any day because of the state of the weather without being ordered to do so, they shall not be entitled to payment for time so lost.

(6) HOURS.—(a) For an employee not working on shift the ordinary working hours per week and per day respectively shall be of the same number as those worked in the particular workshop, factory, or working place at which such employee works by the majority of the employees not working on shift who are engaged therein in connexion with the operation for which is used the power or steam supplied with the aid of such employee.

Provided that if the number of hours worked by such majority exceeds 44 per week, the ordinary working hours for such employee shall not exceed 44 per week nor 8 in any one day if a six-day week be worked, nor 8 hours 48 minutes if a five-day week be worked.

(b) Time occupied in raising steam or closing down engines or banking fires shall be regarded as time worked.

(c) For employees not working on shift a regular starting and finishing time shall be fixed, which shall not be changed except after notice of at least a week to the employee concerned.

(d) For employees working on shift the ordinary working hours shall be as provided in clause (12) hereof.

(e) In country and bush sawmills, each engine-driver or fireman when so engaged shall be allowed the following time at ordinary rates for preparing or closing down engines or for raising steam or banking fires on boilers :—

- (i) If such engine-driver or fireman be resident at the mill site, one hour per day ;
- (ii) Where such engine-driver or fireman resides away from the mill site, one hour and a half per day.

(7) MEAL INTERVAL.—Except on shift work, provision shall as far as practicable be made by the employer to enable an employee to have a midday meal interval of not less than 40 minutes nor more than one hour on all working days except Saturday. Such meal interval shall not be deemed to be time worked, and the time of ceasing work shall be extended by time equal to the duration of the meal interval.

For all work done during such meal interval and thereafter until a meal break is allowed, payment shall be made at the rate of time and a half.

(8) MEAL INTERVAL DURING OVERTIME.—(a) Until further order, employees shall be allowed the same conditions as to the meals and meal intervals to be allowed while working overtime as are prescribed by award or Determination—Commonwealth or State—for the general body of employees of the industry in which they are employed.

(b) In any case to which sub-clause (a) hereof does not apply, an employee required to work overtime for more than two hours without being notified the day before that he will be so required to work shall either be supplied with a meal by the employer or paid 1s. 6d. ; or if work extends into a second meal hour, 2s. 6d. for the two meals, but such payment need not be made to employees living in the same locality as their workshop who can reasonably return home for meals.

If an employee pursuant to notice has provided a meal or meals, and is not required to work overtime, he shall be paid for each meal so provided.

(9) OVERTIME.—(a) For all time worked on week days outside the hours prescribed in clause (6) hereof, overtime shall be paid at the rate of time and a half for the first four hours and double time thereafter.

(b) An employee recalled after leaving his place of work to work overtime shall be paid for a minimum of three hours' work at the appropriate rate.

(c) An employee occasionally required to hold himself in readiness, either at his home, his place of work or elsewhere, to work after ordinary hours or on a Sunday or holiday, shall be paid standing-by time at his ordinary rate of wage for the time from which he is to hold himself in readiness until released.

(d) When an employee working overtime finishes work at a time when reasonable means of transport are not available, the employer shall provide him with a conveyance to his home or pay him at his ordinary rate of wage for the time occupied in reaching his home.

(e) When an employee is required to work overtime after his usual ceasing time so long as not to permit him having at least eight consecutive hours for rest between the time of his ceasing to work such overtime and the ordinary time of commencing his next shift, he shall be entitled to absent himself from work until he has had eight consecutive hours off duty, but shall not be paid for such period of absence.

(10) HOLIDAYS.—All employees shall be entitled to the same holidays as are observed by the general body of employees of the industry in which they are employed.

(11) SUNDAY AND HOLIDAY RATE.—(a) In the case of continuous or recurring work necessarily done in the ordinary course directly for the establishment's usual production or service upon Sundays or holidays as well as upon other days of the week, ordinary time or shift worked on a Sunday or holiday shall be paid for at the rate of time and a half, but in all other cases all time on duty on Sundays or holidays shall be paid for at the rate of double time. Provided that time worked on Sundays or holidays shall be paid for at the rate of time and a half whenever repairs to, maintenance or renewals of engines, boilers or other machinery in any undertaking have necessarily to be done on Sundays or holidays to allow work to proceed properly next day.

(b) To complete a shift an employee may be required to work up to 6 a.m. on a holiday at ordinary rates, provided that such employee is not required to work his usual shift commencing on the holiday.

(12) SHIFT WORK.—(a) The ordinary working hours of employees on shift work shall not exceed an average of 44 per week spread over a period of one, two, three or four weeks, to be worked in shifts of eight hours, including such time as by mutual arrangement may be taken for meals.

(b) There shall be a roster of shifts which shall provide—

- (i) For rotation unless all the employees concerned desire otherwise;
- (ii) For not more than eight shifts to be worked in any nine consecutive days; and
- (iii) Which shall not be changed until after four weeks' notice.

So far as employees present themselves for work in accordance therewith, shifts shall be worked according to the roster.

(c) Notwithstanding the preceding sub-clauses (a) and (b), where in any particular workshop, factory or working place at which an employee working on shift is engaged the majority of the employees working on shift therein in connexion with the operations for which is used the power or steam supplied with the aid of such employees work shifts not in accordance with sub-clauses (a) and (b), such employee shall for his ordinary hours of work work shifts similar in length, roster conditions and crib-times to those of such majority, but this sub-clause shall not apply when such shifts exceed in the aggregate 176 hours in any period of four consecutive weeks, in which case the preceding sub-clauses (a) and (b) shall apply.

(d) For work done by a shift worker outside the ordinary hours of his shift double time shall be paid. But this shall not apply to arrangements between employees themselves or in cases due to rotation of shift or when the relief does not come on duty at the proper time. Provided that where not less than eight hours notice has been given to the employer by the employee that he will be absent from work and the employee whom he should relieve is not relieved, such unrelieved employee shall be paid time and a half for all time of duty after he has finished his ordinary shift.

(e) Employees working afternoon or night shifts which continue for more than one month shall be paid 5 per cent, more than ordinary rates for such shifts. If such shifts continue for less than one month, but for more than five afternoons or nights, 10 per cent. extra shall be paid. If such shifts only continue for five afternoons or nights or less, overtime rates shall be paid. Any shift starting before 6 a.m. or after 10 a.m. shall be deemed to be an afternoon or night shift.

(f) Where in any particular workshop, factory or working place at which an employee working on shift is engaged the majority of the employees working on shift therein in connexion with operations for which is used the power or steam supplied with the aid of such employee receive compensation by way of annual leave or otherwise for working Saturday afternoon, holiday and/or Sunday shifts, such employee shall be given similar compensation for working such shifts.

(g) The hours worked from 11 p.m. to midnight on Sundays or holidays by ordinary shift employees of the Colonial Sugar Refining Co. Ltd. shall not be considered as worked on Sundays or holidays so as to entitle the employees to Sunday or holiday rates for the one hour mentioned.

(13) MIXED FUNCTIONS.—(a) Where the employment or work involves functions of a mixed character, the minimum wages to be paid to the employee for the day or part of a day he is so employed shall be calculated as if he performed such only of the said functions as involve the highest rate of wages under this Determination. If so employed for any part of a day he shall be paid at the highest rate for the whole of such day.

(b) Engine drivers, whilst in charge of their engines, shall only be required to perform such work as may be within the scope of or incidental to engine driving and the generation, use and application of engine power. Provided that engine drivers in charge of engines supplying power to any intermittent process involving regular stoppages, may during such stoppages be required to perform any work necessary or incidental to such intermittent process.

(14) EXTRA RATES NOT CUMULATIVE.—Extra rates herein prescribed are not cumulative so as to exceed the maximum of double the ordinary rates.

(15) TRAVELLING AND CAMPING ALLOWANCES.—Employees shall be allowed the same conditions as to fares, travelling time, travelling allowances, country work, camping allowances as are prescribed by award or Determination—Commonwealth or State—for the general body of employees of the industry in which they are employed.

(16) RIGHT OF ENTRY OF UNION OFFICIALS.—A duly accredited representative of the Federated Enginedrivers and Firemen's Association of Australasia not more than once a fortnight shall have the right to enter during the midday meal hour the portion of an employer's establishment in which any employees engaged upon any class of work to which this Determination applies are employed for the purpose of interviewing such employees on legitimate Union business.

If any employer alleges that a representative is unduly interfering with or is creating disaffection amongst his employees or is offensive in his methods, such employer may refuse the right of entry.

Provided, however, that no employer or person apparently acting on his behalf shall refuse to allow such representative as aforesaid to enter an establishment upon the ground only that it is not then the midday meal interval, unless he shall upon such refusal give the representative full and accurate particulars of the meal hours or crib times of each of the employees engaged upon work to which this determination applies. An employer shall be deemed to have committed a breach of this determination if he or the person apparently acting on his behalf omits, being obliged to do so, to give such particulars as aforesaid,

(17) **TIME AND WAGES BOOK.**—(a) Each employer shall keep a time and wages book at his workshop, factory or mill or other place of work or at an office convenient thereto showing the name of each employee, his classification under this Determination, his time of starting and finishing work each day and the amount of overtime worked, and all amounts paid by way of wages, special rates and allowances to him.

(b) Any time occupied by an employee in filling in any time book or card, or in the making of records, shall be treated as time of duty.

(c) An employer may provide a mechanical clock for the purpose of recording the time of each employee, in which case each employee shall at the end of the week enter such other particulars as may be necessary to comply with sub-clause (a) hereof on some card or document used in connexion with such clock, and such card or document shall be deemed to be the time and wages book.

(d) Such time and wages book shall on demand be produced at reasonable times by the employer for inspection to an official of the Federated Enginedrivers and Firemen's Association of Australasia duly authorized in writing by the president and secretary of the local branch or sub-branch of such Association at the place where the time and wages book is kept pursuant to sub-clause (a) hereof.

The official making such inspection shall be permitted to make and retain a copy of any entry in such time and wages book relating to any matter in respect of which he suspects a breach of this Determination has been committed. He shall, if required to do so, produce for inspection by the employer or his representative any such copy as aforesaid.

(18) **SHOP STEWARDS.**—A shop steward appointed by the employees in each workshop or place of work shall be allowed the necessary time during working hours to interview the employer or his representative on matters affecting employees whom he represents.

Provided that this clause shall not apply in any case in which at the one place an employer employs five or less employees to whom this Determination applies.

(19) **RADIATORS.**—Each crane cabin shall, unless otherwise heated, be equipped with a radiator, which the employer shall install and maintain in good order and condition.

(20) **APPLICATION OF DETERMINATION.**—This determination shall not apply to—

- (i) The driving of any internal combustion engine of 30 or less h.p. or any engine or electric motor or any pump, air compressor, pneumatic, or small hoist on which no engine-driver or fireman or greaser is employed as such, but the starting and stopping of and attention to which is done by an employee the greater part of whose time is taken up with other work; or
- (ii) The operation of pneumatic and small hoists and two-motion electric man-power cranes; or
- (iii) The driving of footpath rollers of 30 cwt. and under.

(21) **EXEMPTIONS.**—

Agricultural Implement Makers.

This determination shall not apply to employers who are parties to and bound by the award of the Commonwealth Court of Conciliation and Arbitration made on the 7th day of April, 1936, in the matter of industrial disputes Numbers 24 and 39 of 1935 and 8 of 1936 wherein the Federated Agricultural Implement Machinery and Ironworkers' Association of Australia and other organizations of employees and H. V. McKay Massey Harris Pty. Ltd. and other employers in the agricultural implement making industry are parties.

Melbourne and Metropolitan Board of Works.

Clause (15)—Travelling and Camping Allowance—shall not apply to employees of the Melbourne and Metropolitan Board of Works at the Melbourne Pumping Station.

Melbourne Harbour Trust Commissioners.

The Melbourne Harbour Trust Commissioners are exempted from clauses (6) to (15) inclusive of this determination, so long as present conditions of labour are observed and employees engaged driving electric three-ton travelling jib cranes are, during the time they are so engaged, paid 10 per cent. more than the ordinary rate prescribed for the first eight hours worked on Monday to Friday inclusive and four hours on Saturday.

For all time worked in excess of the times prescribed in this sub-clause overtime shall be paid at the rate of time and a half for the first four hours and double time thereafter.

Motor-Body and Coach-Building Industry.

This determination shall not apply to employers who are parties to and bound by the interim award of the Commonwealth Court of Conciliation and Arbitration made on the 15th day of December, 1939, in the matter of industrial disputes Numbers 35, 99, 110, 129, 131, 193, 202, and 204, wherein the Vehicle Builders Employees' Federation of Australia and other organizations of employees and General Motors-Holdens Ltd. and other employers in the motor body and coach-building industries are parties.

Shire of Kerang.

The Shire of Kerang, in respect of engine-drivers employed on the Kerang to Koondrook Tramway Undertaking, is exempted from clause (6) of this determination so long as it continues to allow each of such employees eighteen days' leave on full pay annually, and to observe in respect of them the following conditions:—

- (a) The ordinary number of hours worked in any day shift shall not exceed nine;
- (b) Overtime at the rate prescribed by this determination shall be paid—
 - (i) For all time worked in excess of nine hours in any day;
 - (ii) For all time worked in excess of the weekly hours prescribed by clause (6) hereof, provided that overtime payments shall not be cumulative.

Municipal Bodies.

This determination shall apply to the Mayor, Councillors, and Citizens of any City or Town; the Mayor, Councillors, and Burgesses of any Borough, and the President, Councillors, and Ratepayers of any Shire, other than the Shire of Kerang in respect of employees on the Kerang to Koondrook Tramway Undertaking, to the extent that he or they—

- (a) Shall pay not less than the rates prescribed by this determination;
- (b) Shall comply with clauses (16), (17), and (18) hereof; but
- (c) May, in lieu of observing the other conditions prescribed herein, observe the conditions of employment prescribed by the award of the Commonwealth Court of Conciliation and Arbitration made on the 22nd day of August, 1930, in settlement of dispute Number 1 of 1929 between the Federated Municipal and Shire Council Employees' Union of Australia and the Lord Mayor, Aldermen, Councillors and Citizens of the City of Melbourne and others.

Exemption as to Hours.

The ordinary hours of employees in hospitals and benevolent asylums shall be the number of ordinary hours prescribed for them by award or determination—Commonwealth or State—at the rate of the operation of this determination and this determination shall not operate to reduce such hours, which hours shall be deemed to be the ordinary hours for the purpose of this determination.

(22) DEFINITIONS.—In this determination, except where otherwise clearly intended—

"Attendant" means a person who attends to an electric motor or motors of thirty horse-power or more in the aggregate, and performs any duties of oiling or cleaning or attending to commutators, brushes, fuses, or switches.

"Casual employee" means an employee competent to do the work he is engaged to do who is dismissed or refused work without any fault of his own before the expiration of six days from the date he starts work, but does not include an employee usually engaged in another capacity by the employer concerned, and who is called upon to do work coming under the terms of this determination.

"Engine-driver" means any person who operates or drives any engine or engines, the motive power of which is either steam, gas, oil, water, compressed air, or electricity, and includes any greaser who is called upon in the ordinary course of his duty to do engine-driver's work other than simply stopping or starting an engine under the supervision of an engine-driver.

"Engine-driver in charge of plant" means—

(i) When two or more drivers are employed at the plant at one time, the engine-driver who is invested with the superintendence and responsibility or who has to accept the responsibility and superintendence; or

(ii) When he is the only person of his class employed on the plant, the engine-driver who does the general repair work of the plant in addition to the work of engine-driving, but not when he merely assists a fitter or engineer to do such work.

"Fireman—first-class" means a fireman who attends to two or more boilers or two or more suction gas generators or one or more boilers or one or more generators developing 1,000 i.h.p. in the aggregate, and includes a fireman of a steam navy or excavator.

"Greaser—first-class" means a greaser who under the supervision of an engine-driver stops or starts an engine or engines, but does not include any greaser who does so only in cases of necessity or emergency.

"Leading fireman—first-class" means—

(i) The fireman employed at a plant where three or more firemen are employed at the same time who is invested with the responsibility and superintendence or who has to accept the responsibility and superintendence; or

(ii) The fireman employed at a plant where three or more firemen are employed at the same time whose duty it is to attend to the water of boilers that are fired by two or more of the other firemen.

"Leading fireman—second-class" means—

(i) The fireman employed at a plant where two firemen are employed at the same time who is invested with the responsibility and superintendence or who has to accept the responsibility and superintendence; or

(ii) The fireman employed at a plant where two firemen are employed at the same time and whose duty it is to attend to the water of boilers that are fired by the other firemen.

"Lofty crane—first-class" means a lofty crane on a building in the course of erection or demolition where the driving platform is above 100 feet above the ground.

"Lofty crane—second-class" means a lofty crane on a building in the course of erection or demolition where the driving platform is from 20 to 100 feet above the ground.

"Lofty crane—third-class" means a lofty crane outside buildings not in the course of erection where the driving platform is more than 20 feet from the level of the ground.

"Steam-engine—first-class" means a turbine or an engine or engines having a single cylinder with a bore of 12 inches in diameter or over, or having singly or together two or more cylinders the sum of the area of whose bores equals or exceeds the area of a circle 12 inches in diameter.

"Steam-engine—second-class" means an engine or engines having a single cylinder with a bore less than 12 inches in diameter or having singly or together two or more cylinders the sum of the area of whose bores is less than the area of a circle 12 inches in diameter.

(23) PERIODICAL ADJUSTMENT OF WAGES.—The wages rates set out in clause (2) are based upon the following basic wage and, pursuant to the provisions of section 21 of the *Factories and Shops Act 1934*, shall be automatically increased or decreased by the same amount, and at the time, as such basic wage.

The basic wage shown hereunder shall be adjusted as prescribed in clause (24).

At the Executive Council Chamber, Melbourne, the thirtieth day of September, 1940.

PRESENT:

His Excellency the Governor of Victoria.	
Mr. Old	Mr. Tuckett
Mr. Mackrell	Mr. Martin.

REGULATIONS RELATING TO EMERGENCY CONTROL AND DISTRIBUTION OF COMMODITIES.

IN pursuance of the powers conferred by the National Security (Emergency Powers) Acts His Excellency the Governor of the State of Victoria by and with the advice of the Executive Council thereof doth make the following Regulations, that is to say:—

Citation. 1. These Regulations may be cited as the National Security (Commodities Emergency Supply) Regulations.

Interpretation. 2. In these Regulations unless inconsistent with the context or subject-matter—

“Authorized officer” means person appointed by the Board to be an authorized officer for the purposes of these Regulations.

“Board” means the Victorian Emergency Supplies Board.

“Commodities” means food, clothing, fuel, materials implements tools and goods necessary for industry or agriculture, and any other necessary commodities.

“Member” means member of the Board, and includes chairman of the Board.

Purpose of Regulations.

3. The purpose of these Regulations is to provide for—

(a) the formulation and putting into execution by the Board of plans for the control and distribution of commodities to meet any emergency that may arise in connexion with the present war;

(b) the co-operation of the Board with similar boards or bodies in the other States of Australia and with any Department or Authority of the Commonwealth or of the State of Victoria; and

(c) the exercise and performance of such powers and duties as are conferred or imposed on the Board by or under the National Security (Emergency Powers) Acts—

and to provide for matters arising thereout and incidental thereto, and these Regulations shall be administered accordingly.

Quorum.

4. (1) Two members shall form a quorum.

Who to preside.

(2) At any meeting of the Board the chairman of the Board if present shall preside, and in his absence the members present shall appoint one of their number to be chairman of and to preside at the meeting.

Casting vote.

(3) The chairman presiding at any meeting shall in the event of an equal division of votes at the meeting have a second or casting vote.

Proceedings.

(4) Subject to those Regulations the Board may regulate its own proceedings.

Expenses of members.

5. The members shall be entitled to be paid such travelling and out of pocket expenses as the Premier of Victoria determines.

Secrecy.

6. Any person who, except in the course of his duty under these Regulations or in answer to any question which he is legally compellable to answer in any proceedings (whether civil or criminal) in any court or before any person having by law or by consent of parties authority to hear receive and examine evidence, directly or indirectly communicates or divulges any information relating to any matter which comes to his knowledge in consequence of his official position under these Regulations shall be guilty of a contravention of these Regulations.

Examination of witnesses, &c.

7. The Board and any person thereto authorized in writing by the Board shall severally have power to—

(a) summon witnesses;

(b) take evidence on oath; and

(c) require the production of documents books and papers.

Entry and inspection.

8. (1) The Board or any member or any authorized officer may enter upon and search any premises and inspect any documents books and papers and may inspect and take samples of any commodity.

(2) The Board or any member or any authorized officer may impound or retain any documents books and papers produced to or inspected by it or him in pursuance of this clause of these Regulations and may take copies or abstracts of those documents books and papers or of any entries therein, but the person entitled to those documents books and papers shall, in lieu thereof, be entitled to a copy certified as correct by the Board, and such certified copy shall be received in all courts as evidence and as of equal validity to the original.

9. (1) The Board may require any person—

Obtaining
information.

(a) to furnish it with such information as it requires; or

(b) to answer any question put to him—

in relation to any matter arising under these Regulations.

(2) Any person who, when so required under the last preceding sub-clause—

(a) refuses or fails to furnish any information or to answer any question; or

(b) gives any information or makes any answer which is false in any particular—

shall be guilty of a contravention of these Regulations.

10. (1) Any person who having been summoned as a witness before the Board fails without lawful excuse to appear in obedience to the summons shall be guilty of a contravention of these Regulations.

Failure of
witness to
appear, &c.

(2) Any person who having appeared as a witness before the Board, whether summoned so to appear or not, refuses without lawful excuse to be sworn or to make an affirmation or to produce documents books or papers or to answer questions which he is lawfully required to answer shall be guilty of a contravention of these Regulations.

11. Any person who prevents or attempts to prevent the Board or any member or any authorized officer from entering upon any premises, or from inspecting any documents books or papers, or from inspecting or taking samples of any commodity, or from making copies or abstracts of any documents books or papers or of any entries therein shall be guilty of a contravention of these Regulations.

Hindering
inspection, &c.

12. (1) The Board may by notice require any person to furnish to it within a specified time and in a specified form a return setting forth to the best of his knowledge and ability—

Returns.

(a) the quantity of any commodity in his possession or under his control at a specified date; and

(b) such further particulars as are specified in the notice.

(2) The notice may be either a notice given to such person individually or a notice to such persons or a class of such persons generally; and such last-mentioned notice shall be published in the *Government Gazette* and in such newspapers (if any) as the Board directs.

(3) Any return furnished by any person under this clause of these Regulations shall, in any proceedings under these Regulations, be admissible in evidence against that person.

(4) Any person who—

(a) fails to comply with any of the requirements of any such notice; or

(b) wilfully furnishes any false or misleading return—

shall be guilty of a contravention of these Regulations.

13. (1) The Board may, by writing under the hand of the chairman of the Board, delegate any of its powers and functions (except this power of delegation) in relation to any matter or class of matters so that the delegated powers and functions may be exercised by the delegate with respect to the matter or class of matters specified in the instrument of delegation.

Delegation.

(2) Any such delegation shall be revocable by the Board at will and no such delegation shall prevent the exercise of any power or function by the Board.

And the Honorable Albert Arthur Dunstan, His Majesty's Premier for the State of Victoria, shall give the necessary directions herein accordingly.

C. W. KINSMAN,
Clerk of the Executive Council.

Fire Brigades Act 1928.

ENLARGEMENT OF FIRE DISTRICT.

PROCLAMATION

By His Excellency the Governor of the State of Victoria
and its Dependencies in the Commonwealth of Australia.
&c., &c., &c.

WHEREAS by the *Fire Brigades Act 1928* it is amongst other things enacted that, on the request of the council of any municipal district outside the metropolitan fire district or any country fire district, and on receiving a certificate from the Metropolitan Fire Brigades Board or the Country Fire Brigades Board (as the case may be) that it is necessary or desirable so to do, the Governor in Council may at any time by Proclamation in the *Government Gazette* declare that any such municipal district or any portion thereof shall be added to and form part of such fire district, and that thereupon such municipal district or portion shall for the purposes of the said Act be included in and become part of such fire district: And whereas the council of the municipal district hereinafter mentioned has requested that the portion of such district enclosed within the boundaries set forth hereunder, and not already part of the fire district specified in connexion therewith, be added to and form part of such fire district: And whereas a certificate has been received from the Country Fire Brigades Board that it is necessary and desirable so to do: Now therefore I, the Governor of the State of Victoria, in the Commonwealth of Australia, by and with the advice of the Executive Council of the said State, and in pursuance of the provisions of section 5 (1) of the *Fire Brigades Act 1928*, do hereby declare that the said portion of such municipal district shall be added to and form part of the fire district specified accordingly:—

EASTERN FIRE DISTRICT.

Shire of Mornington, Town of Osborne and Parish of Moorooduc, County of Mornington: Commencing at a point on the foreshore of Port Phillip Bay in line with the western boundary of allotment 6, Parish of Moorooduc; bounded thence by a line and that boundary to the southern angle of said allotment 6; thence by a road bearing south-westerly to a point in line with the northern boundary of allotment 13; thence by a line and that boundary bearing south-easterly to the north-east angle of the said allotment 13; thence by a road bearing south-westerly to the north-east angle of allotment 14 of section 24; thence by a road bearing north-westerly to the north-east angle of allotment 13; thence by a road bearing south-westerly to the south-east angle of allotment 6, and continuing by that road and the eastern boundary of allotment 26 of section A, Town of Osborne, bearing south-westerly to the south-eastern angle of the last-mentioned allotment; thence south-westerly by a direct line to the most easterly angle of allotment 2A of section B; thence by a road bearing generally southerly to the southern angle of allotment 36, Parish of Moorooduc; thence by that allotment bearing north-westerly a distance of 10,800 links, more or less; thence south-westerly by a direct line to most northerly

angle of allotment 34; thence north-westerly by a line in production of the north-eastern boundary of allotment 34 to the foreshore of Port Phillip Bay aforesaid; and thence by the said foreshore bearing generally northerly and north-easterly to the point of commencement.

Given under my Hand and the Seal of the State of Victoria aforesaid, at Melbourne, this thirtieth day of September, in the year of our Lord One thousand nine hundred and forty, and in the fourth year of the reign of His Majesty King George VI.

DIMBOOLA SEWERAGE AUTHORITY.

BY-LAW No. 1, RELATING TO CONSENTS, LICENCES, ETC., ALSO LEVELS, DIMENSIONS, CONSTRUCTION, MAINTENANCE, VENTILATION, AND CLEANSING OF SEWERS AND OTHER MATTERS RELATING TO HOUSE CONNEXION WORK.

THE Dimboola Sewerage Authority, pursuant to and in exercise and execution of the powers and authorities conferred on it by the Sewerage Districts Acts and of any and every other power or authority in any wise enabling it in that behalf, doth hereby make and prescribe the following By-law, that is to say:—

In the construction of this By-law, unless inconsistent with the context or subject-matter—

"Acts" means the Sewerage District Act and any amendment thereof, and any Act incorporated therein, or amendment of such Acts.

"Anti-syphonage vent" (or "back vent") means any vent pipe from an individual trap to the open air, or a main or branch vent pipe having for its purpose the prevention of loss of water seal in the trap.

"Authority" means the Dimboola Sewerage Authority.

"Bore," "diameter," or "size," in reference to any pipe, means the nominal diameter thereof, in accordance with accepted trade practice.

"Building" means any building used as a work place, residence, place of business, place of amusement, or place of human habitation, or for the storage of food intended for human consumption, but does not include outbuildings unless such are used for any of the above purposes.

"Disconnector trap" means a trap for isolating or disconnecting waste pipes from the house drain and soil pipes and providing inlet ventilation to the waste pipe or pipes discharging into it.

"Drain" means any drain used for the drainage of one building only or of premises within the same curtilage and includes any drain for draining any group or block of houses by a combined operation under the order of the Authority.

"Educt vent" means an opening or pipe for the exit of air from and the induction of draught in a soil pipe, waste pipe, or house drain.

"Fittings" mean all apparatus or appliances, together with their necessary appurtenances and connexions, for use in connexion with the plumbing or drainage system of any property, with the exception of fixtures and straight piping.

"Fixtures" means all apparatus or appliances, together with their necessary appurtenances and connexions, which may be attached to the plumbing or drainage system of any property, and which are intended for the collection or retention of any wastes or waste waters for ultimate discharge into the sewerage system.

"Housemaids' slop sink" means any fixture other than a closet pan or urinal used for the discharge of soil waters and provided with a flushing apparatus in accordance with Division 33 of this By-law.

"Induct vent" means an opening or pipe for the admission of air to a soil pipe, waste pipe, or house drain.

"Interceptor trap" (or "boundary trap") means a trap for preventing the passage of air or gases from the sewer to the house drain, and situated on the house drain at some point between the sewer and the lowest inlet to the house drain.

"Occupier" means the person for the time being in actual or constructive occupation of the premises.

"Owner" includes the person for the time being who receives or is entitled to receive the rent of the lands or premises in connexion with which the word is used, whether on his own account or as agent of or as trustee for any other person, or who if such lands or premises were let to a tenant at a rack rent would be entitled to receive the rack rent from the occupier thereof.

"Premises" includes any house and any building whatsoever and any part of any house or building and any garden stable yard or other offices used together or in connexion with any house or building and every part thereof.

"Responsible officer" means any officer authorized by the Authority to act as its representative in the particular matter to which the reference is made.

"Sewer" means any sewer or underground gutter or channel which is not a drain within the meaning of the Acts and any drain or portion of a drain laid between a sewer and the boundary line of any allotment or curtilage.

"Sewerage District" means any portion of the Shire of Dimboola to which the Acts apply and which

under the Acts is proclaimed the sewerage district of the Authority and includes any area which is added to and forms part of such sewerage district.

"Sewered property" means as well as any sewered land or premises any land or premises which have been declared by a general notice given by the Authority under the Acts to be deemed and taken to be a sewered property within the meaning of the Acts.

"Sewerage system" includes all sewers, fittings, fixtures, appliances, plant, machinery, and any other sewerage works vested in the Authority.

"Soil pipe" means any pipe which conveys the discharge from water closets, housemaids' slop sinks, or urinals to the house drain.

"Stack" means any vertical line of soil, waste or vent piping with its offsets, if any.

"Trap" means any fitting designed to retain a quantity of water to arrest the passage of air or gases through such fitting.

"Waste pipe" means any pipe which conveys the discharge from any fixture (except water closets, housemaids' slop sinks, or urinals), to a disconnector trap.

"Water seal" or "trap seal" means the vertical distance between the dip and the crown weir of a trap.

PART I.

GENERAL REGULATIONS.

Division 1.—Applications for Consents, &c.

Section 1. Application for the Authority's consent to connect with the sewerage system, or to do plumbing and drainage work connected therewith, must be made in writing by the owner of the property to be so connected, or by his authorized agent.

Section 2. Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be in the form prescribed by the Authority. For any wilful misrepresentation in such application the owner or authorized agent as aforesaid shall be guilty of an offence against this By-law. No consent given by the Authority shall be deemed to authorize anything not stated in the application, nor to confer or grant the right to lay a drain through any land intervening between the sewer of the Authority and the land proposed to be connected, and every owner or agent applying for the Authority's consent shall satisfy himself as to his legal right to drain through such intervening land, as he shall be solely responsible for any trespass or damage thereon or thereto.

Section 3. Consents to make connexions with the sewerage system will be issued only when the plumbing and draining in the property to be connected is planned to be made in accordance with the rules for plumbing and draining hereinafter prescribed, and after such plan has been inspected and approved of by the responsible officer appointed by the Authority for the purpose, or, in the case of new buildings, when a proper plan of the plumbing and of the drainage of the building into the branch, of which the Authority shall have fixed the position, has been approved of in writing by the Authority. All connexions with drains or sewers, and all plumbing and drainage connexions therewith, shall be made under the direction of the responsible officer of the Authority. Consent will not be given for the performance of any such work except upon condition that no person shall be engaged or employed as a workman in the actual performance of any plumbing or drainage work unless he be the holder of a licence issued by the Authority to do such work. Any person who shall at any time or at any place make up, form, affix, alter, or repair any fitting, pipe, bend, trap, or other thing connected or intended to be connected with the Authority's sewerage system, unless he be the holder of a licence from the Authority authorizing him to do such work, shall be liable to a penalty not exceeding Ten pounds. Any person, whether licensed as aforesaid or not, who shall alter, remove, or in any way interfere with any drain, fitting, pipe, bend, trap, or other thing connected with the Authority's sewerage system, unless the Authority's written consent has been previously issued to do such work at the premises concerned, shall be liable to a penalty not exceeding Ten pounds.

Section 4. Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of or from the Authority is necessary, whether specified in writing or otherwise, with regard to any act, matter, or thing mentioned in the By-law, the same may be given by and under the hand of the chairman of the Authority, or of the responsible officer, personally or through an inspecting officer appointed under him, who severally shall be competent to give the same and authorized on behalf of the Authority, to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given.

Section 5. In any case in which the Authority shall be of the opinion that a compliance with any of the provisions of this By-law would in any particular case be vexatious or be

needless in the interest of public health, it shall be lawful for the Authority, by resolution, to dispense with or forbid such compliance in whole or in part as it shall think fit, or to authorize or direct such a modification or alteration of such provisions as shall, in its opinion, most nearly adapt the principle of those provisions to the particular case. It shall be unlawful to comply with any provision, or part of any provision, of which compliance shall have been forbidden, or to act contrary to or otherwise than as directed by such modification or alteration.

Division 2.—Penalties, Recovery of Cost of Work, &c.

Section 6. Where anything is by this By-law directed to be done, or forbidden to be done, or where any authority is given to the Authority or any of its officers to direct or to forbid anything to be done, and such act so directed to be done remains undone, or such act so forbidden to be done is done, then, and in every such case, the person making default as to the said direction or prohibition respectively shall be guilty of an offence against this By-law.

Section 7. Every person guilty of an offence against this By-law, not otherwise specially provided for by or under the authority hereof, shall be liable for every such offence, besides any costs or expenses which may be incurred in the taking of proceedings against such person guilty of such offence, as well as any costs or expenses which may be incurred in remedying such default, as particularly provided for in this By-law or the Acts, to a penalty not exceeding Ten pounds, and to a further penalty of One pound for each day during which such offence is continued by such person after notice of the offence shall have been given by the Authority to him; and such penalty shall be recoverable, notwithstanding that the Authority may not have chosen to exercise any power given to it by the Acts or by this By-law to remedy such default.

Division 3.—Fees for Plans, Inspections, and Alterations.

Section 8. Copies of the Authority's plans, and for designs of individual house drainage, will be furnished by the Authority upon application on the prescribed form and payment for the same as follows:—

(a) Where the Authority prepares designs and carries out work—

- (i) In all cases in which the Authority prepares the plan of drainage, and has the work carried out for the owner, a charge equal to Ten per centum of the capital cost of the work shall be paid to the Authority for the preparation of the design and specification, the letting of the contract, and the supervising of details in connexion with the work.
- (ii) For making and/or examining any alterations or additions to a plan previously issued or approved of by the Authority a minimum charge of Five shillings shall be made for each fixture or drain altered or added.

(b) Where the Authority prepares designs and the owner carries out the work—

- (i) For a plan of drainage, including surveys, &c., for every house, shop, factory, or other building a charge of Twenty shillings plus Two shillings and six pence for each fixture shall be made.
- (ii) For making and/or examining any alterations or additions to a plan previously issued or approved by the Authority a minimum charge of Five shillings shall be made for each fixture or drain altered or added.
- (iii) For the inspection and testing of house connexions a further fee of Twenty shillings, per tenement plus Two shillings and six pence for each fixture.
- (iv) The Authority, through its duly appointed officers, may, during the construction of the work, order the owner to carry out such additions and/or amendments as may be necessary for the satisfactory completion of the work. The house connexion shall not be passed until the installation, together with any amendments and/or additions which may be ordered have been completed to the satisfaction of the Authority.

(c) Where the owner designs and carries out the work—

- (i) For the supply of a block plan a minimum charge of Two shillings and six pence shall be made.
- (ii) The owner shall submit for examination a properly-drawn design and a typewritten specification. The design and specification shall be supplied to the Authority in

triplicate. The work shall not proceed until the owner's design and specification have been approved by the Authority.

- (iii) For examining the owner's plan of design and specification a charge of Two shillings and six pence for each fitting shall be made, with a minimum charge of Ten shillings.
- (iv) For examining any alterations or additions to a plan previously issued or approved of by the Authority a minimum charge of Two shillings and six pence shall be made for each fixture or drain altered or added.
- (v) For the inspection and testing of house connexions a further fee of Twenty shillings per tenement plus Two shillings and six pence for each fixture.
- (vi) For the final inspection by the Authority's Engineer, and charting work on the Authority's plans, a charge of Ten shillings per tenement shall be made, plus Five shillings for each additional inspection necessary owing to faulty work.
- (vii) The Authority, through its duly appointed officers, may, during the construction of the work, order the owner to carry such additions and/or amendments as may be necessary for the satisfactory completion of the work. The house connexion shall not be passed until the installation, together with any amendments and/or additions, which may be ordered, have been completed to the satisfaction of the Authority.

Division 4.—Maintenance and Defective Work.

Section 9.—Any drain pipe, soil pipe, trap, water closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with this By-law, or which shall in the opinion of the Authority be or become bad or of defective quality, shall, upon notice in writing from the Authority to the owner or occupier of the property, be by such owner or occupier removed or repaired in the manner determined and within the time fixed by the Authority; and in case such owner or occupier fails to comply with the requirements of the notice, he shall be liable to prosecution and penalty for an offence against the Acts, or the Authority will, if it thinks fit, remove or repair the said defective fitting and charge such owner or occupier of the premises with the cost so incurred, and will proceed for recovery of the same in a manner provided by the said Acts.

Division 5.—Licences.

Section 10. No person shall tender for or enter into any contract for or undertake any plumbing work relating to sewerage within the Dimboola Sewerage District or connected or to be connected with the sewers of the Authority who does not hold either a master plumber's or a working plumber's licence issued by the Authority.

Section 11. No person shall tender for or enter into any contract for or undertake any draining work relating to sewerage within the Dimboola Sewerage District, or connected or to be connected to the sewers of the Authority who does not hold either a master plumber's or working plumber's licence, or a drainer's licence issued by the Authority.

Section 12. No person other than a holder of a working plumber's licence issued by the Authority shall actually do or perform any such plumbing work.

Section 13. No person other than the holder of a working plumber's or a drainer's licence issued by the Authority shall actually do or perform any such draining work.

Section 14. At the discretion of the Authority a master plumber's licence may be granted to any master plumber or master builder, building contractor, or other person, firm, or corporation who is approved by the Authority, but such licence will only entitle the holder to tender for or enter into contracts for or otherwise undertake plumbing and drainage work under these By-laws, but shall not entitle the holder to personally do any actual plumbing or drainage work under these By-laws.

Section 15. Holders of master plumber's licences not themselves licensed plumbers or licensed drainers must continuously employ on all and every plumbing work carried out by them under these By-laws licensed plumbers, and on all and every drainage work, licensed drainers.

Section 16. Working plumber's licences will be issued at the discretion of the Authority to persons who hold and produce to the Authority a certificate of competency issued by the Sanitary Plumber's Examination Board of Victoria. Such licence will permit the holder to do practical work as a working plumber upon all fittings, appliances, and apparatus connected or to be connected with the sewers of the Authority, subject to and in accordance with the Authority's By-laws and Regulations.

Section 17. Drainer's licences will be issued to any person who shall satisfy the Authority by passing an examination by examiners appointed by them or in such other manner as the Authority from time to time or in any particular case may direct that he has a thorough knowledge of the following subjects:—

Plans.—The reading of plans and the meaning of scales and of elevation, plan, and section drawing.

Levelling.—The use of the straight-edge, spirit-level, and boning rods.

Excavation, Timbering, and Refilling.—The use of tools for excavation, the protection of trenches by timbering, the treatment of different soils, tunnelling, and tunnel timbering, precautions near buildings, and manners of refilling of trenches and tunnels.

Drain-laying.—The preparation of the bottom of trenches, the laying and jointing of stone-ware, cement, concrete, and cast-iron pipes, cement, bitumen, lead, and self-fitting joints, laying of drains under houses and in soft ground, and the depth of drains below surfaces.

Drainage Details.—Junctions to sewers, diminishing of sizes of pipes, yard gullies, grease and other traps, inspection openings, and cast-iron drainage details.

Drainage Work.—Knowledge of the provisions of this By-law and of the Acts, insofar as same relate to the work and duties of drainers in regard to the construction, maintenance, and protection of the sewerage system and the construction and use of drains and drainage traps.

Candidates for drainer's licences shall give notice in writing to the Authority of their intention to submit themselves to examination, and this examination shall be at such a time and at such place as shall be appointed by the Authority. Candidates must provide themselves with their own tools and materials, and pay a fee of 10s. for each examination.

Section 18. The conditions upon which all master plumber's licences, working plumber's licences, and drainer's licences will be issued are—

(1) That every licence will be subject to suspension or cancellation at the will of the Authority, and that all such licences or renewals thereof will expire on the 30th day of September next following.

(2) That every holder of a licence from the Authority who shall have received the consent of the Authority to execute any works in connexion with sewerage or drainage, or who shall (where such consent of the Authority is not required before the execution of any such works) have notified the Authority of his intention to carry out such works—

(a) shall obtain permission when necessary for the execution of such works on, over, or through any private property, or any streets, roads, parks, reserves or other public places or properties; and

(b) shall pay any fees demanded by the Council or Authority for opening any street, road, or thoroughfare or otherwise in connexion with the work; and

(c) shall execute such works in accordance with the provisions of the Acts and of the By-laws made thereunder, and of any special directions or orders given or issued by the Authority or proper officer; and

(d) shall use materials of good quality only and free from defects; and

(e) shall employ only competent operatives or assistants; and

(f) shall execute such works in a thorough and tradesmanlike manner to the satisfaction of the Authority as expeditiously as practicable, and leave site clean and undisturbed; and

(g) shall in the execution of such works take such proper and necessary precautions that no accident or damage or unnecessary inconvenience may be directly or indirectly occasioned thereby; and

(h) shall restore any part of any street, road, or thoroughfare interfered with by the work to the satisfaction of the municipal authority having control thereof upon the completion of the work; and

(i) shall restore any other property interfered with by the work to the satisfaction of the responsible officer of the Authority; and

(j) shall in all cases notify the proper officer immediately upon completion of any work in hand, promptly amend any defects therein, and again at once notify the said officer, and subsequently take steps forthwith to secure the certificate of satisfactory completion and give same to owner; and

(k) shall, when so directed by the Authority, make good at his own expense any defect found within three months of the date of completion of any such work which, in the opinion of the Authority, is due to bad workmanship or defective material.

Section 19. Prior to the issue of any licence the person to whom the same is to be issued must sign a register containing a declaration that he accepts such licence subject to and in conformity with the conditions of such licence and of this By-law and that he will conform to and comply therewith, and shall pay to the Authority the fee named hereunder:—

	s.	d.
For every master plumber's licence ..	10	0
For every working plumber's licence ..	7	6
For every drainer's licence ..	5	0
For the renewal of any licence ..	2	6

Division 6.—New Buildings, Additions, &c.

Section 20. Every person who shall intend to erect a building on any property within the Sewerage District, or to rebuild or to make any alterations or additions to any such buildings shall, before commencing such work, give to the Authority seven days' notice in writing of such intention; and such notice shall be accompanied by plans and sections of such intended buildings, alterations, or additions, showing their positions, dimensions, depths, and levels of foundations, cellars, or basements, all appurtenant walls and fences, the intended lines of drainage, and the boundary of the land, which plans, &c., shall become the property of the Authority.

Division 7.—General.

Section 21. Any work or thing in respect of or in connexion with sewerage under the Act that is not specifically mentioned in this By-law shall be performed in accordance with the directions of the Authority.

PART 2.

GENERAL REGULATIONS.

Division 8.—Use of Sewers and Drains—Prohibition of Certain Discharges.

Section 22. *Use of Sewers and Drains.*—The owner and the occupier of any sewered property shall discharge into the sewerage system all faecal matter, urine, household skips and household liquid refuse from such property, and such other polluted water from stables, washing areas, manure bins, basements, cellars, and roofed yards, and such trade or manufacturing liquid refuse as the Authority may authorize or require, subject in each and every case to such conditions as it may impose.

Section 23. *Prohibited Discharges.*—The deposition or discharge of any of the following substances into any house drain is prohibited:—

(a) Any animal matter other than is specified in section

22, fleshings, wool, hair, dead animal, grease, dust, ashes, rubbish, garbage, offal, vegetable and fruit or their parings, rags, oil, silt, mud, sand, gravel, or like substances, or any other substance which is, in the opinion of the Authority or its responsible officers, liable to be injurious to any part of the sewerage system or to the employees of the Authority engaged in the operation or maintenance of same.

(b) Any petrol or other inflammable or explosive substance, whether solid, liquid, or gaseous.

(c) Any rain, roof, surface, or flood waters.

(d) The contents of any night-soil cart, cesspool, or privy.

(e) Any waste water, liquid, trade waste, or other substance which has not been neutralized to the approval of the responsible officer of the Authority, or which is above the temperature of 100 deg. Fahrenheit, or such lower temperature as may be prescribed by the Authority, having regard to the special circumstances of the case.

(f) Any liquid which contains such percentage of common salt or any other mineral salt, acid, or gas, as is, in the opinion of the responsible officer of the Authority, injurious to, or liable to form compounds injurious to, any part of the sewerage system or to employees of the Authority engaged in the operation or maintenance of same.

Division 9.—Trade Wastes.

Section 24. *Conditions of Discharge.*—No person shall discharge any trade or manufacturing liquid, refuse, or waste into any sewer, unless and until the following conditions are complied with:—

(a) Application for permission to discharge any such trade wastes shall be made in writing and accompanied by plans and specifications of the work to be done and of the apparatus to be used, and shall include such details concerning the nature of the waste and the quantity and rates of discharge of the proposed effluent as considered necessary by the responsible officer of the Authority.

(b) The permission of the Authority in writing shall be obtained and an agreement containing a covenant to comply with the By-law and with any further stipulations required by the Authority, shall be executed.

(c) The volume of liquid refuse or waste discharged shall, if ordered, be measured and determined by meter or by some other approved means of measurement. The

maximum aggregate daily quantity of effluent which may pass from any trade premises into a sewer, the maximum permissible rate of such discharge, the size and capacity of the drain for conveying such effluent from the trade premises to the sewer, and the hours during which such flow will be permitted shall be determined by the Authority.

- (d) All such liquid refuse or waste shall be passed through such settling, screening, and/or neutralizing chambers and/or such other appliances and/or otherwise treated as ordered or approved by the Authority to ensure that the resulting effluents shall comply with the conditions of the agreement.
- (e) Every settling, screening, neutralizing, or other chamber, appliance, or apparatus for the treatment of trade wastes in accordance with this By-law shall be cleansed and maintained by the occupier at his own expense and at such intervals as may be considered necessary by the Authority or its responsible officer to ensure the efficient operation of such chamber, appliance, or apparatus, and in no case shall such chamber, appliance, or apparatus be altered without the approval in writing of the Authority first obtained.

Division 10.—Sub-soil Water.

Section 25. The discharge of sub-soil water into sewers shall be prohibited.

Division 11.—Inspection Tests.

Section 26. *Notice.*—The owner or his authorized agent, or the plumber, drainer, or contractor, shall give at least forty-eight hours notice to the Authority, in writing, of his intention to commence work and of work ready for inspection. All work shall be left uncovered and accessible for examination until inspected and approved. Inspection shall be made within twenty-four hours of the receipt of such notification except when the notification is received on a Saturday, when seventy-two hours shall be allowed.

The contractor carrying out any work shall, within seven days of the completion of such work, file in the office of the Authority, on forms furnished for this purpose, a correct statement of the work done and the cost thereof. Such statement shall be countersigned by the responsible officer of the Authority, and a certificate embodying such statement shall be forwarded to the contractor.

Section 27. *Inspection.*—All drains, wastes, fittings, joints, fixtures, &c., will be inspected by the responsible officer of the Authority to ensure compliance with the By-law and approved plan.

Section 28. *Tests.*—Drains, whether laid by the Authority's workmen or others, must be thoroughly tested in every case before being passed by the Authority's officers. The responsible officer of the Authority may require the application of the water or smoke test, or such other tests as he may order or approve.

Section 29. *Water Test.*—The water test may be applied to the drainage and/or plumbing systems and their fittings in their entirety or in sections. It shall be applied by hermetically sealing all openings below the top of the section to be tested. The system shall then be filled with water to a height of 6 feet above the highest point of the section, or, if considered necessary, to such additional height as the responsible officer may order, and every joint carefully examined for leaks.

Section 30. *Smoke Test.*—The smoke test shall be applied by hermetically sealing all openings into the section to be tested, and forcing into the system thick smoke to a pressure equivalent to 1 inch of water, by means of a smoke test apparatus. Every joint shall then be carefully examined for leaks.

Section 31. *Equipment, &c.*—The equipment, material, power, and labour necessary for the inspection and tests shall be furnished by the contractor, plumber, or drainer.

Section 32. *Defective Work.*—Any drain, pipe, fixture, fitting, &c., which is laid, used, or constructed otherwise than in accordance with this By-law or with the approved plans, or which, in the opinion of the responsible officer of the Authority, is or has become bad or of defective quality or condition, shall, upon notice, in writing to the owner or occupier of the property, or his authorized agent, be removed and/or repaired by such owner or occupier in the manner determined, and within the time fixed by the Authority. In case the owner or occupier fails to comply with the requirements of that notice he shall be guilty of an offence against this By-law, and the Authority may, if it so think fit, remove and/or repair the defective drain, pipe, fixture, fitting, &c., and charge the said owner or occupier with the cost so incurred, and may proceed for the recovery of the said cost in the manner provided.

Section 33. *Maintenance.*—Every person holding a licence from the Authority who shall execute any work in connexion with sewerage drainage and/or sanitary plumbing shall, when so directed by the Authority, make good at his own expense any defect found within three months of date of completion of any such work due, in the opinion of the Authority, to bad workmanship or defective material.

Division 12.—Materials and Workmanship.

Section 34. *Materials.*—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be of the best of their respective kinds, sound and free from defects, and shall comply with such Australian standard specifications as apply and are accepted by the Authority, otherwise to be approved by the Authority.

Section 35. *Testing.*—All materials, pipes, bends, junctions, fittings, fixtures, and apparatus shall be submitted for examination and/or test, and shall not be placed in position until passed and stamped by the Authority. Such testing of materials shall be paid for by the person submitting same, whether passed or rejected, and shall be done at such time and place, and at such rates, as may from time to time be fixed by the Authority.

Section 36. *Workmanship.*—All work shall be executed in a thorough and workmanlike manner, and to the satisfaction of the Authority.

Section 37. *Precautions.*—Adequate precautions shall be adopted by the person carrying out the work to prevent injury to workmen, property, or public, and the Authority will accept no responsibility for claims for injury arising from the inadequacy of such precautions.

Section 38. *Concrete.*—Concrete, unless otherwise ordered, shall consist of one part Portland cement, two parts clean sharp sand, and four parts hard metal, shingle or gravel not exceeding 4-in. gauge, and shall be thoroughly mixed with clean water to such consistency as ordered or approved by the responsible officer of the Authority.

Section 39. *Cement Mortar.*—Cement mortar, unless otherwise ordered, shall consist of one part Portland cement and two parts clean sharp sand, properly mixed with an approved proportion of clean water.

PART 3.

DRAINAGE.

Division 13.—Drainage, General.

Section 40. (1) Every premises shall be separately drained unless a combined drain shall have been ordered or approved by the Authority. Owners desiring to have the drainage of their properties combined must sign a request for a combined drain, and obtain the approval of the Authority. In any case in which it appears to the Authority that any properties may be drained more advantageously in combination than separately the Authority may order that those properties be drained by a combined operation.

(2) In any case where a combined drain serves two or more properties the Authority, with the consent of the owners of the properties served by such combined drain, may take over such combined drain, and thereafter such combined drain shall be and remain a sewer of the Authority.

(3) In every case of a combined drain the Authority will determine, as between the respective owners and occupiers of the properties drained thereby, the proportions in which the cost of such combined drain shall be paid. In every case of the occurrence of an obstruction in a combined drain the Authority will also determine by whom and in what proportion the cost of removing such obstruction shall be paid.

(4) Owners and occupiers of premises are responsible for clearing stoppages in drains within their premises, or between their premises and the sewers into which the branches lead, but must employ only licensed plumbers or drainers to clear same.

(5) Before a licensed plumber or drainer commences to clear a stoppage in a drain he must notify the Authority in writing of the time when he intends to clear the stoppage, so that the Authority's proper officer may attend and pass the work in accordance with the provisions of the Act.

Section 41. *Size of Drains.*—Every drain shall be of adequate size for the drainage of the property to be served, in accordance with the requirements of section 84, with a minimum diameter of 4 inches.

Section 42. *Materials.*—All drain pipes, bends, junctions, and fittings used shall be of glazed stoneware, concrete, cast-iron, or other approved material, provided that the responsible officer of the Authority may prohibit the use of any of the above-mentioned where the circumstances or conditions are considered unfavorable.

Section 43. *Cast-iron Pipes.*—Cast-iron drainage pipes and their fittings shall comply with the Australian standard specification, or, in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameters.

Section 44. *Interceptor Traps.*—Where directed by the Authority, an interceptor trap shall be fixed in the drain laid from any property to the sewer. Such trap shall be fixed as near as practicable to the boundary, and wherever practicable shall be within the boundaries of the property. The interceptor trap shall be provided with an inspection cap on the sewer side of the trap. If ordered, an approved man-hole shall be provided for the trap.

Section 45. Inspection Chambers.—All drains shall, wherever considered necessary by the Authority, join in an inspection chamber at least 3 feet long by 2 feet wide, fitted with a closed cover. The portions of the drains crossing the floor of the inspection chamber shall be connected either in a straight line or by curved junctions in the floor of the chamber.

Section 46. Inspection Openings.—Every line of drain shall be provided with an inspection opening at each junction not provided with an inspection chamber, at each change of direction, at each fixture, and in no case at greater than 30 feet intervals, and in paved areas these shall, if considered necessary by the responsible officer of the Authority, be brought to the surface and furnished with approved airtight covers. The area of an inspection opening shall be not less than the area of the drain.

Section 47. Drain Openings Not in Use.—The ends of all house drains not immediately connected with the plumbing fixtures and all inspection openings shall be securely closed with watertight imperishable materials.

Section 48. Replacing or Inserting Pipes.—Where it becomes necessary to remove a pipe to clear a stoppage or to insert a pipe or branch in an existing drain, such pipe so removed shall be replaced by an inspection pipe or inspection junction of the same length by whichever one of the following methods is approved by the Authority or its proper officer:—

- (a) A length of not less than three pipes may be removed, the centre pipe replaced by an inspection pipe, and the pipes dropped back into place without springing or cutting. Junctions in existing metal pipes shall not be made unless an approved closure pipe is used in each case. Springing pipes into position shall not be resorted to or allowed.
- (b) An approved split pipe with double collar surrounded with concrete 3 inches thick may be used.
- (c) The top half of the socket of the new pipe and of the existing downstream pipe may be removed, but the bottom half shall always be left intact and the joints surrounded with concrete not less than 3 inches thick.

Division 14.—Basement and Cellar Drainage.

Section 49. Fixtures.—No water-closet, urinal, and/or other fixture shall be placed in any cellar or basement, or on any floor below ground level, unless by consent of the Authority, and then only when, in the opinion of the Authority, other provision cannot be made. The owner shall submit such plans and/or other information as the Authority may require, and shall undertake in writing to accept all risk of damage that may occur. If satisfied that the ventilation and lighting provided are in accordance with section 151 or 152 of these By-laws, and all other conditions have been complied with, the Authority may give its consent; provided always that such consent may be revoked by the Authority at any time, and that upon 14 days' notice of revocation such fixture shall be abolished by the owner.

Section 50.—Risk of Back Flow.—Where such cellar, basement, or floor below ground level is at such a level as may, in the opinion of the Authority, involve risk of back flow in the event of the sewer becoming overcharged, the sewage from all fixtures therein shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered and discharged into the sewer as and where directed.

Section 51. Seepage Drains.—In no case shall seepage drains from cellars, basements, or any floor below ground level be discharged into a sewer without the consent of the Authority. Where such discharge is permitted by the Authority the seepage shall be raised by ejector, syphon, or other approved mechanical appliance to such height as ordered, and discharged into the sewer as and where directed.

Division 15.—Polluted Areas.

Section 52. Connexion.—The Authority may, if it thinks fit, authorize or require that any of the following places:—namely, stables, cow-sheds, dairies, market places, areas for washing vehicles, and any other polluted place, be connected with the sewers, subject to such conditions as the Authority may impose.

Section 53. Conditions Governing Connexion.—No such connexion shall be made unless the following conditions have been complied with:—

- (a) The place to be connected shall, if required, be so roofed as to prevent the entry of rain water from it to the sewers, and in no case shall rain water be permitted to discharge on to such place from adjoining surfaces.
- (b) The place to be connected shall be paved with approved materials, and graded to the satisfaction of the responsible officer of the Authority.
- (c) The drain from any such place shall be provided with an approved silt trap with a removable grating and connected with the drain above the interceptor trap where such is used.

Division 16.—Pipe Trenches.

Section 54. The trench for the house drain from any property shall be so dug as to meet the Authority's sewer at the position provided or to be provided for the connexion.

The material from the trench shall be so placed as to cause the least possible obstruction and inconvenience to the public.

Proper barriers and lights must be maintained where necessary to guard against accident during the progress of the work.

In refilling the trench selected refilling shall first be deposited around and over the pipe to a depth of 12 inches and carefully consolidated, after which the remainder of the trench shall be filled in in layers and rammed or flooded, as ordered or approved.

No stone shall be used in refilling until earth or gravel has been placed over the pipe to a depth of 1 foot, or more if directed.

On no account shall any water, sand, earth, &c., be allowed to enter the sewer during the progress of the work.

On completion of refilling the surface shall be restored as nearly as possible to the same condition as it was in before operations were commenced, unless the owner in writing otherwise requires.

Division 17.—Laying Drains, &c.

Section 55. Position and Line.—Every drain and every fitting, &c., connected therewith shall be laid and fixed where directed by the responsible officer of the Authority. As far as possible all drains shall be laid in straight lines; where changes of direction occur they shall be made in manholes, or by a suitably curved pipe with an inspection opening on each straight pipe next adjoining the curve.

Section 56. Oblique Junctions.—Where any drain joins another drain the junction shall be made obliquely at an approved angle with the direction of flow of such drain. Right-angled junctions shall not be made.

Section 57. Connexion to Sewer.—The position of the Authority's connexion to any premises shall be located prior to the commencement of any drain excavation. The disc stopper at the point of connexion to the sewer shall be carefully removed so as not to injure the socket or allow any debris to enter the sewer.

The first length of the drain at the branch shall be an inspection opening.

Section 58. Gradients.—All drains shall be laid on an even grade, and, except by special permission in writing, from the Authority, such gradients shall in no case be less than the following minimum permissible gradients:—

4-in. diameter	1 in 40
6-in. diameter	1 in 60

In cases where the grades of 4-in. and 6-in. drains are steeper than 1 in 10 and 1 in 15, respectively, concrete stops shall be placed as and where directed by the responsible officer of the Authority.

Section 59. Depth of Drains.—Drains of stoneware or concrete pipe, unless bedded in and encased in concrete of not less than 3 inches thickness over any part of the drain, shall be laid at a depth to the socket of the pipe of not less than the following:—

- (a) In public thoroughfares, rights-of-way, or other open spaces subject to vehicular traffic—2 feet.
- (b) In private property not subject to vehicular traffic—1 foot.

No person shall alter the surface over any drain so as to deprive it of the minimum depth of cover specified by the preceding paragraph, unless approved measures are adopted to protect the drain.

Section 60. Laying Drains.—All pipes shall be laid to such lines and grades as may be shown on the plans or directed, and, except where otherwise ordered, holes shall be cut in the bottom of the pipe trench to receive the sockets of the pipes, and all the pipes shall be carefully bedded with the barrel on the solid ground.

In the case of rock-bottomed trench, or where directed, the pipes shall be bedded up to the horizontal diameter upon not less than 2 inches thickness of approved sand or other approved material measured from the barrel of the pipe.

In water-charged ground, or where the foundation is bad, or where directed, the drain shall be formed of cast-iron pipes; or, if of stoneware or concrete pipes, they shall be bedded on and encased in concrete as ordered, and, if ordered, supported upon approved timber foundations as directed.

Drops or bends in vertically-inclined drains shall have a concrete support placed under and around as directed.

Division 18.—Drains Under Buildings.

Section 61. Every drain shall, as far as practicable, be so constructed as not to pass under any building. Where a drain does pass under a building it shall, if practicable, be laid in a direct line for the whole distance beneath such building, and shall have approved means of access for rodding outside the

walls of the building, and also, if directed, beneath the building. The pipes used shall be of stoneware or concrete, surrounded by not less than 4 inches of concrete or 3 inches of cement mortar or of cast-iron.

In any case in which pipes pass through or under walls, approved provision shall be made to prevent injury to the pipes by settlement, and, in outer walls, to prevent the ingress of vermin.

Division 19.—Joints, Drainage.

Section 62. *Stoneware and Cement Pipes.*—Joints of stoneware and cement pipes shall be filled in solidly with cement mortar neatly splayed off, or with other approved material. After each joint is made the interior of the joint shall be wiped clear of surplus mortar before the next pipe is laid.

Section 63. *Cast-iron Pipes.*—All joints in cast-iron pipes must be stemmed with approved gaskets and so filled and caulked with lead or other approved material as to make them gas and water tight.

All connexions between stoneware or concrete pipes and cast-iron pipes shall be made as for joints in stoneware or concrete pipes.

Division 20.—Drainage Ventilation.

Section 64. *Vents on Main House Drain.*—The main drain shall be ventilated at its upper end by a pipe ventilator erected vertically, and such ventilator may be a soil pipe.

If the drain is provided with an interceptor trap there shall be in addition a ventilator connected to the interceptor trap shaft.

In such cases there shall, wherever practicable, be a difference in height of not less than 6 feet between the tops of the vents at the upper and lower ends of the drains respectively.

Section 65. *Vents on Branch Drains.*—Branch drains need not be vented if the drainage traps are within 20 feet from the main house drain, measured along the line of pipes, including the drop, if any, from the centre line of the main drain to the centre of the outlet side of the water seal of the drainage trap, unless otherwise ordered by the Authority, in which case they must be vented as directed.

Section 66. *Height of Vents.*—Every vent pipe extending upwards from a soil or drain pipe shall be carried not less than 6 feet higher than any window or door within a distance of 30 feet thereof, and in any case at least 18 feet above ground level and 6 feet above the level of the eaves or coping, or to such additional height as may be necessary to prevent effectually the escape of foul air into any building within the vicinity.

Where the vent pipe extends into a gable of the building it shall further be carried at least 2 feet above the point of intersection with the roof.

Such pipes shall, where necessary, be provided with sufficient clips or stays to support them effectively.

Section 67. *Chimneys.*—No chimney shall be used as a ventilator to any drain, soil, or waste pipe.

Section 68. *Vents Near Chimneys.*—Vents must, as far as possible, be kept away from chimneys and ventilating air shafts. Where a ventilator pipe terminates 6 feet or more from a chimney opening or ventilating air shaft, the requirements of section 66 shall apply, but where the distance is less than 6 feet the vent pipe shall, unless otherwise ordered, terminate not less than 2 feet below the top of such chimney or air shaft.

Section 69. *Vents Adjoining High Buildings.*—In any case in which a building is erected next to a previously existing building of less elevation, and any windows of the new building are located within 30 feet of any existing vent stack on the lower building, the owner of such new building shall defray the cost of or shall himself make such alterations to the vents of the previously existing building as necessary to conform with section 66.

The owner of the lower or existing building shall make such alterations upon the receipt of money, or security therefor sufficient for the purpose, from the owner of the new or higher building, or shall permit at the election of the owner of the new or higher building, the making of such alteration by the owner of such new or higher building.

Section 70. *Size of Drainage Vents.*—Drainage vent pipes shall, unless otherwise ordered, be of not less than 4 inches diameter in the case of educt vents and not less than 3 inches diameter in the case of induct vents, with the provision that where more than one educt vent is provided the vent on the longest line of drain shall be of not less than 4 inches diameter and all others of not less than 3 inches diameter; but in no case shall a drainage vent be of smaller diameter than necessary to comply with the requirements of section 85.

Unless otherwise ordered or approved every such vent pipe shall be without return bend and provided with basket end or educt or induct cowls as directed.

Section 71. *Materials, &c.*—Drainage vent pipes situated wholly outside of buildings shall be of cast-iron, galvanized wrought iron, double galvanized sheet iron, or other approved material above ground, and of stoneware or concrete beneath the surface of the ground. Galvanized sheet-iron vent pipes shall not be less gauge than 20 for 3-in. and 4-in. diameter pipes and 18 for 6-in. pipes, and where ordered the first 6 feet above ground shall be of cast-iron or other approved material. Drainage vent pipes inside a building shall, unless otherwise approved, be of cast-iron or of galvanized wrought iron. The circumferential joints of galvanized sheet iron vent pipes shall be riveted and soldered.

Section 72. *Gratings.*—Openings or ventilation shall be effectively protected by approved gratings of ample area. The aggregate area of apertures in any such grating shall not be less than the sectional area of the pipe or drain to which such grating is fixed. Every opening for ventilation shall at all times be kept perfectly free from obstruction.

Section 73. *Pipe Clips, &c.*—There shall be at least one pipe clip to each 6-ft. length of vent pipe.

For cast-iron or wrought-iron pipe approved coated wrought-iron clips and for galvanized sheet iron pipe 1½-in. x 14-gauge galvanized band iron clips shall be provided. Wherever it is necessary to fix pipes clear of the wall approved extension clips shall be used.

Clips in the case of cast-iron pipes must be placed tight up against the bead or underside of collar.

Section 74. *Attachment to Walls.*—Where a galvanized sheet iron pipe, with or without offset, is carried up above the brick wall of a building a galvanized wrought-iron clip must be used, leaded into the wall near the top wherever possible and bolted against the vent pipe.

All band iron clips of vent pipes to brick walls shall be fastened with nuts and bolts, leaded in, or by means of T-headed bolts passed through the brick joints and turned at right angles to the joints.

Section 75. *Supporting Vents.*—Wherever a vent pipe with offset is not more than 12 feet long above such offset it need not be stayed; if longer, it shall be stayed as directed with ½-in. galvanized wrought-iron piping.

An unsupported length of 15 feet above highest clip of straight vent pipe without offset will be permitted.

Section 76. *Induct Vents.*—Every induct vent shall be securely supported in an approved manner.

Division 21.—Drainage Traps.

Section 77. *Trapping of Inlets.*—Every inlet to any drain other than inlets provided for ventilation in accordance with the By-law shall be provided with an approved trap. No inlets to any drain connecting directly with a sewer shall be constructed within a building other than such inlets necessary for the apparatus of any water-closet, urinal, or housemaid's slop sink.

Section 78. *Classes of Traps.*—Four classes of traps shall be used—

- (a) "Traps" for intercepting gases only, to be of round section and self-cleansing form, but not such as to empty by momentum or suction.
- (b) "Silt traps" for intercepting both gases and solids, to have slightly tapered sides, flat bottom, and rounded angles, and provided with approved means for catching and removing solids.
- (c) "Grease traps" for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, to be of such form as approved.
- (d) "Oil traps" for collecting all kinds of oil and to be of such form as approved.

The term "yard gully" is applied to traps (a) in cases where they are used externally and fitted with dished tops and gratings.

Section 79. *Water Seal.*—Every drainage trap must have a water seal not less than 2 inches in depth.

Section 80. *Provision of Yard Gullies.*—A yard gully must, wherever practicable, be provided in the yard of every property, as near as practicable to the kitchen or back door, with a tap placed over it at a height of not less than 2 feet. No yard gully shall be situated within a building. Where it is not practicable to provide a yard gully, a slop sink must be provided within the building.

Section 81. *Details of Yard Gullies.*—Yard gullies shall be fitted with dished tops and gratings, the dished top being in one piece with the trap or jointed thereto by spigot and faucet, or as otherwise approved.

The depth of the dished top to the grating must be not less than 6 inches, and the grating must be so fixed as to be removable with reasonable facility.

Section 82. *Kerbing, &c., to Yard Gullies.*—Yard gully basins and the dished tops of silt traps must be so surrounded with an approved impervious kerbing as to prevent the access of

surface water to the drains, and, if directed, the wall at the rear of the gully or silt trap, if of brick or stone, must be cement rendered to the height of the tap over same, and if of wood the wall must be provided with an approved galvanized sheet iron apron.

PART 4.

PIPE CAPACITIES.

Division 22.—Capacities of Soil, Waste, Drain, and Vent Pipes.

Section 83. *Fixture Units.*—For the purpose of determining the size of any drain, waste, soil, or vent pipe, the following equivalent fixture units shall be adopted, unless otherwise directed.

Fixture.	Nominal Outlet Diameter.	Fixture Units.
One lavatory basin	1½ inch ..	1
One lavatory basin	1½ inch ..	1½
One kitchen sink (up to 6-in. depth to overflow) ..	2 inches ..	3½
One bath	1½ inch ..	3½
One bath	2 inches ..	5½
One wash trough set with common trap	1½ inch ..	3½
One wash trough set with common trap	2 inches ..	5½
One urinal	1½ inch ..	3
One slop sink	2½ inches ..	3
One slop sink	3 inches ..	4½
One shower bath	2 inches ..	3
One water closet	4 inches ..	6
One bathroom group, consisting of one lavatory basin, one bath, and one shower	— ..	7

The equivalent fixture units to be adopted for fixtures other than those shown shall be determined by the Authority. One fixture unit denotes a rate of discharge equal to 1 cubic foot per minute.

Section 84. *Sizes of Soil, Waste, and Drain Pipes.*—Except by special permission the required sizes of soil, waste, and drain pipes shall be determined on the basis of the total number of fixture units drained, or likely to be drained, in accordance with the following table:—

Diameter of Pipe (Inches).	Minimum Permissible Grade.	Permissible Maximum Number of Fixture Units.										Vertical.	Maximum Number of Fixture Units permitted to be served by 8-ft. length of vertical stack.
		Grade not less than—											
		1 in 60	1 in 50	1 in 40	1 in 30	1 in 25	1 in 20	1 in 15	1 in 12½	1 in 10	1 in 5

6	1 in 60	330	..	370	..	490	..	620	..	590	730	1,100	590

Provided that—

- Waste and soil pipes shall not be diminished in diameter in the direction of flow.
- The diameter of trap, waste, or soil pipe receiving the discharge from any fixture shall in no case be less than the nominal outlet diameter of such fixture.
- No water-closet shall discharge into a drain or soil pipe of less than 4 inches in diameter.
- All connexions between inclined pipes and vertical stacks shall be through 45 degrees junctions.
- Soil and waste stacks shall be as direct as possible and free from sharp bends. Where such are unavoidable approved provision shall, if necessary, be made to safeguard fixtures immediately above and below the bend.

Section 85. *Sizes of Vents.*—(1) Main Vents.—Except by special permission, the required sizes of main vents shall be determined from the size of the soil, or waste pipe, or stack to be vented, the total number of fixture units drained into it, and the developed length of the vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table.

MAXIMUM PERMISSIBLE LENGTH OF MAIN VENTS (IN FEET FOR SOIL AND WASTE PIPES).

26	Up to 720	8	37	137
27	Up to 1,100	7	26	112

Provided that—

- No vent shall be less than 1½ inch in diameter, and in no case shall a vent have a diameter less than one half that of the soil or waste pipe which it serves.
- For 2-in. and 2½-in. waste pipes the vent shall have a diameter of not less than 1½ inch.

(2) *Sizes of Branch Vents.*—The required sizes of branch vents shall be determined from the number of fixture units served by the branch vent and the developed length of the vent from the point of connexion of the anti-syphonage vent from the last fixture served by the branch vent to the outlet to the open air at the upper end of the main vent, in accordance with the following table, interpolating where necessary between permissible lengths of vent given in the table:—

PART 5.

PLUMBING.

Division 23.—General.

Section 86. *Waste Pipes*.—Separate waste pipes shall be provided for each of the following class of polluted water, viz. :—

- (a) Dirty water from baths, sinks, lavatory basins, and wash troughs, and other waters containing a small proportion of soap and/or dirt.
- (b) Greasy water from kitchen and scullery sinks or other fixtures, in such cases where grease-traps are ordered or required.

Section 87. *Soil Pipes*.—Soil pipes shall be provided for soil water from closets and other waters containing faecal matter, and for urinal waters from slop sinks and urinals, and, where directed, for discharges from operating theatres and morgues, and in no case shall such waters be discharged into any waste pipe as defined by this By-law.

Section 88. *Connexions to Drain*.—All waste pipes shall discharge under the grating of a yard gully or into a disconnector trap. All soil pipes, including those for urinals and housemaids' slop sinks, must be connected direct to the drain. No waste pipe shall be laid in the ground outside any building unless by special permission.

Section 89. *Flashing, &c.*—All troughs, sinks, and other fixtures which are placed less than 3 inches, and all baths fixed less than 6 inches clear from any wall shall be flashed with 5-lb. lead, 24-gauge copper, bronze, brass, nickel, silver, or monel metal, or other approved material. Galvanized sheet iron may be used for fixtures other than sinks.

All such flashings shall be turned up the walls at least 4 inches, except where the walls are tiled, when the flashings shall be carried up at least 1 inch behind the tiles. Baths and other fixtures having turned-up flanges for use against tiled walls in lieu of sheet metal flashing shall be properly supported to prevent settlement, and the flange shall lap at least 1 inch behind the tiles, which shall be brought hard down on to the surface of the fixture. All flashing shall be properly secured and made watertight, and shall be bedded for a width of not less than 1 inch along the edge nearer the fixture in red or white lead.

Section 90. *Fixtures Not to Abut Against Walls*.—Unless otherwise directed or permitted, sinks, tubs, and similar fixtures situated in premises other than private houses where food for human consumption is prepared, manufactured, or stored for sale, and draining boards, slabs, and plates used in connexion with such fixtures, shall not abut against any wall but shall have a clear space of not less than 3 inches between such fixtures and any wall surfaces or obstructions.

Section 91. *Bib-cocks*.—Internal bib-cocks shall not be permitted unless a sink, lavatory basin, or other approved fixtures, or a properly drained impervious floor, is provided underneath.

Division 24.—Soil, Waste, and Vent Pipes.

Section 92. *Materials*.—No material shall be used for soil pipes other than cast-iron, lead or brass, and for waste pipes other than wrought-iron, cast-iron, lead, brass or copper.

Section 93. *Lead Pipes*.—The minimum permissible weight of lead for soil, waste, or vent pipes for water closets, urinals, and slop sinks shall be 7 lb. per square foot, and for all other fixtures 6 lb. per square foot.

Section 94. *Wrought-iron Pipes*.—All wrought-iron pipes and their fittings shall be approved standard weight and quality and galvanized or lined to the approval of the Authority.

Section 95. *Cast-iron Pipes*.—All cast-iron pipes shall be sound, free from holes and cracks, and coated with approved bituminous composition, or lined with glass enamel to the approval of the Authority.

Cast-iron pipes and their fittings, where laid in the ground, shall comply with the Australian standard specifications, or in the event of no such standard being in existence, with the standard approved by the Authority for cast-iron water pipes and their fittings of similar diameter. Cast-iron pipes for use in other situations shall have a minimum thickness of 3-16 inch measured in the case of glass-enamelled pipes without the enamel, and their fittings shall correspond with them in weight and quality. All junctions shall be curved, right-angled junctions shall not be made.

Section 96. *Galvanized Sheet Iron Pipes*.—External vent pipes of galvanized sheet iron shall be of a gauge not less than the following :—

- 1½ inch, 2 inch, 2½ inch diameter—22-gauge.
- 3 inch and 4 inch diameter—20-gauge.
- 6 inch diameter—18-gauge.

Section 97. Where lead, copper, brass, or cast-iron soil or waste pipes are fixed outside a wall for upstairs fixtures, the lead, copper, brass, or cast-iron pipes shall be carried at least 2 feet above the level of the highest fixtures attached to the pipe.

Section 98. *Vent Pipes*.—Vent pipes, if inside a building shall in all cases be of cast-iron, wrought-iron, lead, copper, or brass. Grooved, welded, or riveted double galvanized

sheet iron vent pipes may be used where they are entirely outside a building, and shall be connected with the traps or waste or soil pipes, with brass ferrules or other joints approved by the responsible officer of Authority.

Section 99. *Vents in Shed, &c.*—Galvanized sheet iron vent pipes may be used inside stables or open sheds, except where liable to damage.

Section 100. *Use of Lead Pipes*.—Lead pipes shall not be used, except where exposed to view and/or not liable to damage.

Section 101. *Supporting Lead Pipes*.—Lead pipes shall be supported by cast lead tacks of approved dimensions, wiped on to the pipe or by other approved fastenings, and such fastenings shall be arranged as nearly as possible thus—

4-in. vertical lead pipes—2 ft. 6 in. centres.

4-in. horizontal lead pipes—2 feet centres.

Less than 4-in. vertical pipe—3 feet centres.

Less than 4-in. horizontal pipe—2 ft. 3 in. centres.

Two pairs of tacks, fixed opposite, is sufficient for fixing lead flush pipes from cisterns.

Section 102. *Minimum Permissible Gradients*.—The following are the minimum gradients to be adopted for soil and waste pipes :—

Diameter of Pipe.	Minimum Gradient.
1½ inch	1 in 12½
1½ inch	1 in 15
1½ inch	1 in 17½
2 inches	1 in 20
2½ inches	1 in 25
3 inches	1 in 30
4 inches	1 in 40
5 inches	1 in 50
6 inches	1 in 60

Section 103. *Length of Unvented Waste Pipes*.—Waste pipes need not be ventilated unless they exceed 10 feet in inclined length or 12 feet in vertical length, provided that there is only one fixture attached to the waste pipe, and provided that the water seal of the trap is not reduced by syphonage or other cause. Where there is more than one fixture, or the water seal is reduced, a vent pipe shall be supplied to the fixture trap or traps. All fixtures discharging into a sub-drain of greater length than 10 feet shall be vented.

Section 104. *Junctions*.—Where a waste or soil stack is branched into a graded waste, soil, or drain pipe, the branch fitting shall have an angle of not less than 45 degrees to the horizontal, and the length of the branch of the fitting shall be such that the vertical projection of the attached stack will be wholly outside of the area of the junction with the graded pipe.

Section 105. *Sealing of Pipes*.—Wherever a fixture is abolished, the soil, waste, vent, and water supply pipes to such fixture shall be removed, or, if allowed by the Authority to remain, the ends of the pipes shall be sealed with watertight imperishable materials.

Section 106. *Soil Vent Pipes*.—In all cases the upward extension from the soil pipe for ventilation shall pass in as direct a manner as possible above, and, if necessary, through the roof.

Section 107. *Vent Pipe Grades*.—All vertical lines of vent pipe shall connect, full size, at their bases with a soil, waste, or drain pipe at an angle of not less than 45 degrees to the horizontal, and shall extend in undiminished size above the roof or be connected to the soil, waste, or vent stack, in compliance with the requirements of section 109, on a grade sufficient to avoid the collection of water.

All intermediate bends or offsets shall be at a grade of not less than 45 degrees to the horizontal.

Vent pipes shall not be used as waste or soil pipes.

Section 108. *Anti-syphonage Vents*.—Traps must be prevented from syphoning by proper ventilation, in accordance with the requirements of section 85. Such anti-syphonage vents from fixtures shall be carried above the eaves of the building or joined to the branch or main vent above the level of the fixture, unless special permission to the contrary is granted.

These vent pipes shall be connected to the waste or soil pipe at a point not less than 3 inches nor more than 12 inches from the crown of the trap and on the opposite side of the water seal to the fixture, except in the case of closet pans where the vent pipe shall be not more than 3 feet from the crown of the trap. No other fixture shall be connected to the soil or waste pipe between the anti-syphonage vent and the fixture which it serves.

Section 109. *Combining of Vents*.—The various vents may be combined by branching together those which serve traps of the same class. The vent pipes may be branched into a soil or waste pipe of the same class above the level of the highest fixture.

Section 110. Where a branch is required to a galvanized sheet iron vent pipe, a brass saddle piece bolted and soldered to the vent must be used.

Section 111. *Sheet Metal Bends and Offsets*.—All sheet metal bends and offsets for flush and vent pipes shall be bent or pressed. Mitred elbows will not be permitted.

Section 112. *Pipes to be Accessible.*—All soil, waste, and vent pipes and traps shall, where practicable, be accessible at all times for ready inspection and convenience of repairing. When placed within partitions or recesses of walls they shall be covered with woodwork or other approved material, so fastened as to be readily removable. No junctions shall be built in except with special permission from the Authority in writing.

Section 113. *Concealed standing wastes* will not be permitted.

Section 114. *Painting.*—All external plumbers' work and all cast-iron cisterns and brackets, woodwork in connexion with plumbing installations, sheet iron flush pipes, and sheet iron storage tanks and trays, shall be painted, after inspection, to the approval of the Authority.

Division 25.—Joints.

Section 115. *Stoneware, Cement, or Cast-iron Pipes.*—Joints of stoneware, cement, or cast-iron pipes shall conform with the requirements of section 62 or 63.

Section 116. *Lead Pipe.*—All joints in lead pipe shall be plumber's wiped joints.

Section 117. *Wrought-iron Pipe.*—The screwed ends and sockets of each particular size of wrought-iron or wrought steel pipe shall be so formed and the threads so cut that the ends of the pipe will butt against each other when screwed home in the sockets; bends, junctions, and similar fittings shall be similarly formed and screwed so that when the pipe ends are screwed home the bore will be continuously uniform and without breaks or pockets. The burr shall be neatly filed off on the inner edge of all pipe ends. All screwed joints shall be made with approved jointing material.

Section 118. *Wrought-iron Pipe to Lead Pipe.*—All joints between wrought-iron and lead pipes shall be made by means of brass unions screwed to iron and wiped to lead.

Section 119. *Brass or Copper Pipes.*—Joints of brass or copper pipes shall be made in accordance with the Australian standard Specification B36—"Compression joints and copper alloy screwed fittings for standard copper tubes."

Section 120. *Lead Pipe to Cast-iron Pipe.*—The connexion of lead pipes or traps to cast-iron pipes shall be made by means of brass ferrules. The brass ferrules shall be lined with and connected to the lead pipe or trap by means of a wiped joint and connected to the cast-iron by inserting ferrule in socket thereof and making the joint in the same way as in cast-iron pipe.

Section 121. *Sheet-iron Pipe to Cast-iron Pipe.*—All connexions of galvanized sheet iron to cast-iron pipes shall be made with molten lead, lightly but tightly caulked in to cast-iron sockets.

Section 122. *Sheet-iron Pipe to Wrought-iron Pipe.*—Galvanized sheet iron pipes shall be connected to wrought-iron pipes by means of brass unions or sleeves soldered to the sheet iron and screwed to the wrought-iron, or by means of a wrought-iron socket screwed to the wrought-iron pipe, into which the sheet-iron pipe shall be lightly but tightly caulked with molten lead.

Section 123. *Sheet-iron Pipe to Lead Pipe.*—Connexions of sheet-iron pipes to lead pipes shall be made by means of brass sleeves wiped to the lead pipe and soldered to the sheet-iron pipe, or by means of a cast lead collar wiped to the lead pipe, into which the galvanized sheet-iron pipes shall be caulked to approval.

Section 124. *Concrete or Stoneware Pipe and Traps to Lead Pipe.*—Connexions of lead pipe to stoneware or concrete pipe shall be made by means of a brass ferrule connected to the lead pipe by means of a wiped joint and connected to the stoneware or concrete pipe by inserting it in the socket thereof and making a cement mortar joint.

The connexion of a stoneware or concrete trap to a lead pipe shall be by means of a cast lead or brass socket, and the joint made with bitumen or other approved material. The lead pipe shall be connected to the tail end of the brass or lead socket by means of a plumber's wiped joint.

Section 125. *Connexion of Closet Pan Traps to Soil Pipe or Drain.*—Connexion of a closet pan to a soil or drain pipe shall be made by means of a bituminous jointing material, consisting of a mixture of approved bitumen and finely graded inert mineral filler in equal proportions, filled in solidly into faucet of soil or drain pipe and neatly splayed off, or by other approved method. In the case of lead soil pipes, a cast lead or brass faucet shall be used and connected to the lead pipe by means of a wiped joint.

Section 126. *Cistern Flush Pipe to Closet Pan.*—The flushing pipe from cistern shall be connected to the water-closet pan by a lead cap piece of not less than 4-lb. lead, packed with red lead or other approved material. The cap piece shall be jointed to galvanized sheet iron, copper, brass, or drawn steel pipe by means of a soldered joint and to lead flush pipe by wiped or soldered joint. The connexion of the flushing pipe to cistern shall be by means of a brass union, wiped to lead pipe or soldered to sheet-iron pipe. Copper or brass pipe shall be connected to cistern by means of a brass ring, with nut brazed to pipe, or by other approved means.

Section 127. *Vent Pipe to Closet Pan.*—Vent pipe shall be connected to the vent horn of water-closet trap by a lead cap piece with red lead packing or by other approved methods. The cap piece shall be jointed to copper or brass pipe by means of a soldered joint and to lead flush pipe by a soldered or wiped joint.

Section 128. *Outlet Fittings to Fixtures.*—Connexions between outlet fittings and such fixtures as baths, sinks, basins, &c., when the latter are constructed of cast-iron, plate-iron, ceramicware, or concrete, shall be made with lock nuts. The outlet fitting shall in all cases be connected to the waste pipe by means of a union.

When these fixtures are made of sheet metal lighter than 20-gauge soldered connexions may be used in lieu of lock nuts.

Section 129. *Waste Pipes to Troughs.*—Connexions of waste pipes to wash troughs shall be made as under:—

(a) Cement troughs, unless otherwise approved, shall have cast-in outlets.

(b) Sheet-metal troughs shall be connected to the waste pipes in compliance with section 128.

(c) For wooden troughs, lead, copper, or brass, waste pipes shall have flanges connected to the waste in accordance with the provisions of this By-law, and fastened to the underside of the trough with copper tacks. The waste pipe shall then be turned over inside the trough and the plug casting bedded over it with red lead putty and screwed to trough with brass wood screws.

Where wrought-iron or other screwed pipes are used the plug must be connected to the trough by means of a lock nut in lieu of flange.

Division 26.—Fixture Traps.

Section 130. *Fixtures to be Trapped.*—Every water-closet, urinal, slop or other sink, lavatory or wash basin, bath, wash trough or set of wash troughs, and any other fixture, shall be separately and effectively trapped, unless otherwise specially permitted by the Authority.

Section 131. *Position of Traps.*—Traps shall be placed as near the fixtures as possible, and in no case shall a trap be more than 2 feet from its fixture, except as provided in section 179, unless otherwise specially permitted by the Authority.

Section 132. *Depth of Water Seal.*—Every trap shall have a water seal of not less than 2 inches.

Section 133. *Closet Pan Traps.*—Outlets from closet-pan traps shall be of not less than 3½ inches nor more than 4 inches diameter, except in the case of syphonic pans.

Section 134. *Sealed Disconnector Traps.*—Where approved by the Authority, sealed disconnector traps may be fixed outside or inside the building, but in such cases breather pipes or fresh air inlets of the same diameter as disconnector traps shall be taken above the level of the lowest fixture, or to such other height as directed, and when trap is inside shall be led to the outside of the building. The material for such breather pipes shall be the same as for waste pipes; sheet-iron will not be allowed. Inspection openings to such traps shall be sealed with screwed plugs, or as otherwise approved by the Authority.

Section 135. *Form of Trap.*—The "P" form of trap, with joints visible and accessible all round, must, unless otherwise permitted, be used in preference to the "S" form of trap for all internal fixtures wherever practicable. Where the "S" form of trap is used facilities for periodical inspection must be provided.

Section 136. *Lead Traps.*—All lead traps must be of the weights specified in section 93 for lead pipes of the same diameter.

Division 27.—Gratings.

Section 137. —Fixtures discharging into waste pipes and all urinals shall have non-corrodable outlet gratings of approved design and material, in accordance with the Australian standard Specification B.38, "Metal alloy sanitary fittings."

Division 28.—Cleaning Eyes and Inspection Openings.

Section 138. *Provision for Inspection and Cleaning.*—Sufficient inspection and cleaning eyes shall be provided in such positions on all soil and waste pipes as to be easy of access for proper inspection and cleansing.

Traps for fixtures, other than water closets, urinals and housemaids' slop sinks, shall be provided with approved screwed brass plugs for cleaning purposes fixed under the water line of the trap.

Section 139. *Inspection Openings on Soil Pipes.*—In all cases where the vertical stack of soil pipe provides for closets 4 feet or more above the ground level, measured from floor level of water-closet to ground level at foot of stack, an inspection opening having a cover fixed to a flange with bolts or studs shall be provided in such a position as directed by the responsible officer of the Authority.

Division 29.—Grease Traps.

Section 140. *Provision of Grease Traps.*—Every fixture or area from which grease or any other objectionable matter is likely to be discharged or conveyed into waste or soil pipes, or house drains, and every sink in all such places as food-packing houses, butchers' shops, lard rendering establishments, hotels, restaurants and boarding-houses, and such fixtures, areas, apparatus, or appliances as the Authority may direct, shall first discharge into an approved apparatus for preventing the objectionable matter from reaching the soil pipe or drain. Such apparatus shall be of such dimensions, design, and construction and in such position as the Authority, or its responsible officer, may in each case approve.

Section 141. *External Grease Traps.*—Every grease trap shall be fixed outside the premises whenever practicable, and (if not portable) shall be of glazed stoneware, concrete, slate, or brick in cement, and the outlet shall be connected to the drain through a disconnector trap.

Section 142. *Internal Grease Traps.*—Wherever a grease trap is fixed inside a building it shall be so fitted as to be easily removable, and, if directed, fixed upon a tray. All internal grease traps shall be of copper or other approved material, provided with a close fitting cover, and shall be independently ventilated as required by the Authority, or its responsible officer.

Section 143. *Grease Trap Ventilation.*—Every grease trap shall have provision made for inlet and outlet ventilation if and as directed by the Authority or its responsible officers.

Section 144. *Size of Grease Trap.*—The dimensions of grease trap to be provided shall be such as to ensure the congealing and retention of all grease entering such trap.

Section 145. *Outlet Pipes.*—The outlet pipe from any grease trap must be at least one size larger than that size of pipe which has a cross sectional area equivalent to the total area of incoming waste pipes. In no case, except by special permission, shall the outlet pipe be less than 3 inches diameter for grease traps of copper or other approved metal and 4 inches for stoneware.

Section 146. *Maintenance.*—Every grease trap shall be maintained by the occupier at his own expense, and shall be cleaned at such intervals as may be necessary to ensure that such trap operates in an efficient and hygienic manner.

Division 30.—Water Closets and Flushing Apparatus.

Section 147. *Water-closets, General.*—At least one water-closet shall be provided for each house or building within a sewered area, and also in such other cases as may be directed by the Authority.

In every shop, factory, office, flat, or building containing more than one tenement, at least one water-closet shall be provided for the use of the occupier of each tenement, or as otherwise directed by the Authority, and shall be so placed, either within or without such building, as to ensure the due observance of decency and to be easily accessible to the occupiers.

Section 148. *Water-closets at Hotels, shops, &c.*—In hotels, offices, lodging-houses, shops, and, if so directed, in any other premises, closets for different sexes shall not adjoin each other unless separated by a soundproof wall of such material and of such thickness as shall be approved by the Authority.

Section 149. *Water-closets for Factories.*—The owner of any building which is used for the purpose of a factory shall provide water-closets for the use of employees at such building in accordance with the Factories Act.

Section 150. *Light, Ventilation, &c., for Water-closets.*—Except as herein provided in section 151, every water-closet in a building shall comply with the following conditions:—

- (a) One of its sides at least shall be an external wall of such building, abutting on to a street or lane or an open space of not less than 100 square feet in area, such space being portion of the premises.
- (b) It shall not be entered directly from any room used for human habitation or for the manufacture, preparation, or storage of food for human consumption, or used as a factory, workshop, or work place. In cases where otherwise such closet would be directly entered from any such room, an ante-chamber, or airlock having a floor area of not less than 20 square feet shall be provided and effectively lighted, and shall be ventilated by an air shaft or some approved method to the open air. The doors of such closet and ante-chamber or airlock shall be close fitting and self closing, and all internal walls constructed of brick or other approved airtight material, extending the entire height from floor to ceiling. For closets in private residences opening on to a well-lit and well-ventilated hall, passage, lobby, or staircase, no airlock is required, but where these conditions do not exist the airlock as above shall be provided.
- (c) Each water-closet apartment, ante-chamber, or airlock shall be provided with adequate means of constant fresh air ventilation, and shall be lighted by a window or glazed louvres of not less than 2 square

feet of clear light area per water-closet, opening directly into external air. The effective area provided for outlet ventilation of each water-closet apartment, ante-chamber, or airlock shall be not less than 27 square inches, and where the level of the floor of the water-closet apartment is lower than the outside surface of the ground exhaust ventilation shall be provided by means of a tube of at least 6 inches diameter, carried up through the roof and furnished with a cowl. Approved provision for inlet ventilation shall be made as near the floor level as possible.

- (d) The floors of all water-closet apartments shall be constructed of concrete of not less than 4 inches thickness, or of other approved impervious material, and graded as directed, or they shall be provided with lead safes in accordance with the requirements of sections 183, 184, and 186. The frame of every wooden closet shall be securely fastened to the floor and made rigid, without attachment to fences.

- (e) Each closet apartment shall be not less than 3 feet wide and 5 feet long, inside measurements, and the walls shall be at least 7 feet high at the lowest part.

Section 151. *Mechanical Ventilation and Artificial Light.*—Subject to the approval of the Authority in writing the requirements of section 150 may be waived, provided that the following conditions be complied with, viz.:—

- (a) In every such case a mechanical system of exhaust ventilation in duplicate, approved by the Authority, and capable of changing the air contents of such water-closet eight times per hour shall be installed in connexion therewith.
- (b) Upon completion the owner or his representative shall carry out such tests of the mechanical system referred to as the Authority may deem necessary.
- (c) Such mechanical system shall at all times be under the continuous supervision of one or more properly qualified persons, and shall be continuous in operation.
- (d) Any such mechanical system shall be open to inspection by the Authority at all reasonable times, and shall be subject to such tests as the Authority shall from time to time direct. The air and pipe shafts shall be readily accessible, and shall have a minimum width of 2 ft. 6 in. and a minimum area of 12 square feet.
- (e) The failure of any such mechanical system at any time to pass such tests shall be an offence by the owner of such a building against this By-law, and the owner thereof shall also, in respect of such failure, be guilty of an offence against this By-law.
- (f) Every such water-closet shall be provided with an efficient system of electric lighting to the approval of the Authority, and same shall be maintained at all times in good working order.

Section 152. *Wooden Water-closets.*—In wooden water-closets buildings the bottom plates and plinths must be of approved timber. In repairs to studs they shall be cut to sound timber with a new plate, supported on a concrete dwarf wall extended up from the floor level.

Section 153. *Firing Closet Pan.*—On concrete floors, or floors of tiles set in concrete, the closet pan shall be securely bedded upon concrete or cement mortar and fixed with brass screws to approved lead dowels set in the floor. Where the floor is of timber covered with an approved impervious material the closet pan shall be secured to the timber by means of brass screws as directed or by other approved means.

Section 154. *Closet Pans.*—Every water-closet shall be furnished with a pan of non-absorbent material of such shape, capacity, and construction as approved by the Authority. Water-closet pans and fittings thereto shall be entirely open to inspection and without any enclosure. Vent horns shall be provided on all pans, even if no anti-syphonage vent is required. If not used for a vent such vent horn shall be sealed with a lead disc, bituminous filler, and a lead cap piece, or by other approved method.

Section 155. *Closet Pan Seats.*—Except as approved by the Authority, all hinged closet pan seats shall be not less than 1 inch in thickness and constructed of approved material. When constructed of wood, four-piece seats shall be glued and either dowelled or bolted, and one-piece seats shall be reinforced with two wood or brass slips let in flush on the underside.

Section 156. *Flushing Apparatus.*—Approved apparatus shall be provided for the effective application of water to the pan of the water-closet and for the efficient flushing and cleansing of the pan and effective removal therefrom of any solid or liquid matter which may from time to time be deposited therein. Such apparatus shall have a flushing capacity of 2½ gallons, and shall be so constructed, fitted, and placed as to supply water for use in the pan without any direct communication with any service water pipe upon the premises.

Section 157. *Flushing Cisterns*.—Flushing cisterns shall be fixed at such height as will effectively flush the pan; but, except by special permission, no cistern shall be fixed at a less height, measured from top of seat to bottom of cistern, than 5 feet where $\frac{1}{4}$ -in. flush pipe is used or 4 feet where $\frac{1}{2}$ -in. flush pipe is used. There shall be a distance of at least 9 inches between top of cistern and ceiling of closet.

Every cistern shall have a separate stop-tap and an overflow of $\frac{3}{4}$ -in. internal diameter, and shall be fixed to cistern boards not less than 12 inches deep and $\frac{1}{4}$ inch thick, or fixed in other approved manner.

Water supply pipes to cisterns shall be adequate to fill any cistern at the rate of not less than 1 gallon per minute.

Section 158. *Flush Pipes*.—Flush pipes to closet pans shall be of brass, copper, 6-lb. lead, galvanized-iron of not less than 22-gauge, or other approved material, and shall have a minimum diameter of $\frac{1}{4}$ inch.

Section 159. *Flushing Apparatus Other Than Cisterns*.—Notwithstanding anything contained in this By-law, closet pans in any building may be flushed by means of any apparatus which—

- (a) automatically controls the amount of water used, and/or
- (b) is approved by the Authority.

Section 160. *Storage Tanks*.—Except where otherwise allowed by the Authority, on request in writing, by the owner accepting all responsibility in the matter, internal water-closets shall be provided with storage tanks capable of holding 6 gallons of water for each occupant of the building, with a minimum of 60 gallons per closet for all buildings except private residences, which shall have a minimum capacity of 30 gallons.

Unless otherwise directed by the Authority, the storage tanks may be placed in the water-closet apartment itself, on the roof over a flat or gutter, or in an accessible place between the ceiling and the roof, in which latter case a safe of galvanized-iron, lead, or other approved impervious material, with overflow, shall be fixed under the storage tank.

Section 161. *Venting Closet Pans*.—Unless otherwise directed or permitted, every closet pan on an upstairs floor shall discharge into a soil-ventilator pipe, except that any closet pan on a floor which is not more than 8 feet in height from the ground surface level may be ventilated by an anti-syphonage vent only, in accordance with the requirements of sections 85 and 108 and discharge into a soil pipe without extension as a ventilator pipe; provided that no fixtures at a lower level are connected to such soil pipe.

Any closet pan where ordered, and also unless otherwise directed every internal closet pan, shall be ventilated by an anti-syphonage vent in accordance with the requirements of section 85 sufficiently close to prevent syphonage, and in no case more than 18 inches from the trap.

The anti-syphonage vent may be omitted under the following conditions:—

- (a) Where the internal closet pan is not more than 4 feet from a fully vented soil pipe as measured along the axis of the pipe between the centre of the soil pipe and the centre of the pan;
- (b) Where no closet pan and/or group of fixtures with a total discharge of more than eight fixture units is connected to such ventilator soil pipe at a higher level; and/or
- (c) No syphonage occurs.

Section 162. *Grouped External Closets*.—Where there are more than three external water-closet pans grouped on the ground floor or in the yard of any premises special provision must be made to prevent syphonage.

Division 31.—Urinals and Flushing Apparatus.

Section 163. *Urinals, General*.—Every urinal on premises licensed for the sale of fermented or spirituous liquors, and on premises used as a factory, workshop, work place, manufactory, shop, office, or school where persons of the male sex are employed or in attendance, shall be of such size as the Authority requires. Provided that when the number of persons of the male sex does not exceed ten, a urinal need not be fixed if the closet has a pedestal pan with a hinged tip-up weighted seat.

Section 164. *Internal Urinals*.—The positions, approaches, arrangement of lighting, ventilation, &c., for internal urinals shall comply as nearly as possible with the provisions as to internal water-closets.

Section 165. *Details of Construction, &c.*—Except by special permission, only round-backed stall type urinals of approved impervious material shall be used. The soil pipes shall be of lead, stoneware or glass enamelled or coated cast-iron, or other approved material, shall be kept as short and free from bends as possible, and shall be trapped. Inspection openings shall be provided on soil pipes as directed, with clamped covers. The urinals shall be provided with approved flushing apparatus and a hose tap shall be provided in a suitable position for hosing down.

Section 166. *Treatment of Floors*.—The floor in front of a urinal shall be covered with approved impervious material for a width of not less than 2 feet, or, if raised above floor level of urinal apartment, not less than 1 ft. 6 in., and graded to drain to urinal.

No. 364.—12237/40.—2

Impervious Materials.—The following materials will be considered impervious:—

- (a) For urinals: glazed fire clay or salt glazed stoneware.
- (b) For floors in front of urinals: Glazed tiles set in cement mortar (composed of equal parts of cement and sand), concrete 6 inches thick rendered with $\frac{1}{2}$ -in. thick cement mortar, slate, marble or asphaltum.

Section 167. *Flushing Apparatus*.—Pull and chain flushing cisterns or other approved apparatus operated by hand shall be fixed on all urinals except where automatic flushing cisterns are permitted or directed by the Authority.

Section 168. *Flushing Cisterns*.—The discharge from a cistern shall be equal to 1 gallon for each urinal stall, except where otherwise allowed by the Authority, but in no case shall larger than a 3-gallon cistern be used.

The height of a cistern shall, unless otherwise allowed by special permission, be at least 8 feet from the floor to the top of the cistern. The cistern shall be so fixed that the ball tap is accessible.

A separate stop tap shall be provided for each urinal cistern.

Section 169. *Flush Pipes*.—Flush pipes for urinals shall be of brass or copper with gunmetal fittings, and shall have a minimum diameter of $\frac{1}{4}$ inch, except that flush pipes for automatic flushing cisterns generally shall not exceed—

- for 1-gallon cistern, $\frac{1}{2}$ -in. internal diameter,
- for 2-gallon cistern, 1-in. internal diameter,
- for 3-gallon cistern, $\frac{1}{2}$ -in. internal diameter,

with branches as directed by the responsible officer of the Authority.

Division 32.—Housemaids' Slop Sinks.

Section 170. *General*.—Housemaids' slop sinks shall be made in one piece of approved impervious material and provided with approved flushing apparatus of 2-gallon capacity.

Section 171. *Ventilation, Light, &c.*—Housemaids' slop sinks shall be so placed and ventilated as to comply with the requirements for water closets as set out in sections 150 (a), (b), and (c), and 161.

Section 172. *Bibcock over Slop Sink*.—A bibcock shall be fixed directly over a housemaid's slop sink, and at least 18 inches above such sink.

Division 33.—Wash Troughs.

Section 173. *General*.—Wash troughs shall be of approved pattern and material, securely fixed and graded to outlet pipe, fitted with brass strainer sunk to level of bottom of trough.

Section 174. *Support for Lead Waste Pipe*.—Where the distance between outlets on troughs exceeds 21 inches and lead waste pipe is used, the pipe shall be supported either by a lead tack wiped on the top of the pipe or by a wooden block screwed to the bottom of the trough and clamped to the pipe.

Section 175. *Troughs Abutting Against Brick Wash Coppers*.—Wherever the end of a wash trough abuts against the brickwork of a wash copper the space between the end of trough and the brickwork shall be filled with approved water-proof material.

Division 34.—Sinks, Baths, Showers, and Lavatory Basins.

Section 176. *Sinks*.—All new sinks shall be fixed on brackets and traps and wastes left readily accessible.

Section 177. *Galvanized Sheet-iron Baths*.—The bottoms of galvanized sheet iron baths shall be effectively supported. Such baths shall not be enclosed. Longitudinal joints in the bottoms of baths shall not be permitted.

Section 178. *Bath Traps*.—Where a bath trap is fixed on the outside of a wall it shall in no case be more than 3 feet from the outlet of the bath, unless by special permission of the Authority.

Section 179. *Showers*.—All showers on the ground floor shall be provided with a 4-in. stoneware or concrete trap, fitted with brass grating. All showers above the ground floor shall be provided with drainage in accordance with the requirements for baths.

The floors of shower compartments shall be well graded to the trapped outlet and shall be constructed of not less than 4 inches of concrete, trowelled smooth or covered with tiles set in cement mortar, or of other approved impervious materials, or if constructed of timber shall be covered with enamelled cast-iron, approved non-corrosive sheet metal, or other approved material turned up at the edges and flashed in accordance with the requirements of section 89.

The walls of shower compartments shall be constructed of brickwork or concrete, cement rendered to a smooth finish or covered with tiles set in cement mortar, or of other approved impervious materials, or if constructed of timber shall be lined with approved non-corrosive sheet metal or other approved impervious material and with impervious joints.

Section 180. *Venting of Lavatory Basins.*—All lavatory basins shall be provided with anti-syphonage vents.

In ranges of lavatory basins, ventilation by means of a single vent pipe at the upper end of the range will be permitted, provided that the vent and main waste pipe are sufficiently large to prevent syphonage.

Section 181. *Tip-up Basins.*—Tip-up lavatory basins shall not be permitted.

Division 35.—Safes and Overflows.

Section 182. *Safes.*—Safes of lead or other approved impervious material shall be fitted under all housemaids' slop sinks, internal water closets, under all fixtures located on the first or higher floors and in such other positions as directed.

Section 183. *Lead Safes in Water-closets.*—All lead safes shall be laid with sheet lead weighing not less than 5 lb. per square foot, and where the whole floor is not covered with lead the safe shall extend 12 inches beyond the sides and 15 inches beyond the front of the pan, measured from the outside of the basin, and shall extend back to and 3 inches up the wall and over flashed, if directed. The roll of such safe shall be 2 inches wide and $\frac{1}{4}$ inch high.

Section 184. *Safe Overflows.*—Unless otherwise permitted, every safe shall be drained by a separate 2-in. diameter pipe, provided at the inlet with a brass grating and at the outlet into the open air with a flap valve of brass or other approved metal, and shall not connect with any waste pipe, soil pipe, drain, or sewer.

Section 185. *Cistern Overflows.*—Every cistern supplied with water shall, unless otherwise approved, have an overflow pipe of adequate size discharging in a position where it will not cause damage, but where it will act as a warning pipe. On ground floors where cisterns are fixed over impervious floors graded to drain outside of the room the overflow may discharge on to such floors, provided no damage is likely to arise therefrom.

Section 186. *Discharges from Overflows.*—Overflows may discharge into the open air above ground floor level only when the discharge will not cause any inconvenience or nuisance. In all other cases the pipes must be brought to the ground surface or be arranged to discharge where they will not prove a source of annoyance or inconvenience.

Section 187. *Existing Floors.*—Where necessary, in the opinion of the responsible officer of the Authority, every existing floor under a fixture shall be regraded and a proper waste pipe, and, if directed, a flap valve fixed.

Division 36.—Existing Fixtures.

Section 188. All existing fixtures, fittings, and appliances not in accordance with this By-law which the owner may desire to retain unaltered, and which, in the opinion of the Authority, will be inoffensive, may at the distinct request in writing of the owner only remain unaltered until such time as the Authority shall otherwise order. Existing fixtures, fittings, and appliances which, in the opinion of the Authority, are offensive shall be removed at once.

PART 6.

WATER SUPPLY.

Section 189. *Supply of Water to Fixtures.*—All water-closets and other plumbing fixtures shall be provided with a sufficient supply of water for flushing purposes to keep them at all times in proper and cleanly conditions.

Every owner of property who desires, or has been ordered by the Authority, to provide sanitary appliances for his own property and to connect his property with the sewers of the Authority, shall before or at the commencement of the work of making such connexion, provide piping approved of by the Authority for the conveyance of water, and shall cause the piping to be joined at the most convenient water supply main, or, with the permission of the Authority, to some pipe already joined to the main. Such piping shall be of capacity sufficient to supply all sanitary fittings on the property freely and continuously, and convey to the flushing cistern, flushing tank, or other flushing apparatus of each water-closet on the property enough water to fill the same at a rate of not less than 1 gallon per minute, and the owner shall cause such piping to be connected with the cistern before the completion of the work.

The water supply to any fixture shall be so arranged that there shall be an actual physical discontinuity between the water stored or used in any such fixture and that in the water service pipe.

Section 190. *Material, Condition, Capacity, &c., of Water Supply Piping.*—The entire length of the water supply piping from its connexion with the water supply main to the water-closet flushing cistern or other fixture shall be such as is, in the opinion of the Authority, suitable in regard to material, condition, and capacity to convey a sufficiency of water for the sanitary requirements of the particular tenement.

The owner shall keep the piping from becoming, whether by reason of corrosion or other cause, of insufficient capacity to fill the flushing cistern, storage tank, or other flushing apparatus at the rate of not less than 1 gallon per minute.

Section 191. *Fixtures Not Connected With Sewers.*—No water service pipe shall be laid to supply any fixture in any property in any sewerage area unless such fixture is connected with the sewers of the Authority, or unless special permission in writing has been previously given to lay such service pipe.

Section 192. *Storage Tanks.*—Water supply pipes to storage tanks for internal closets shall be of not less than $\frac{1}{2}$ -in. diameter and be provided with stop taps and high-pressure ball valves, except where the elevation of the storage tank is not sufficient to allow of high-pressure ball valves being used. In such cases the permission of the Authority shall be obtained to fix low-pressure ball valves. Where the head of the water supply of the storage tank to the flushing cistern is less than 20 feet, a low-pressure ball valve shall be provided to the cistern.

Outlets from storage tanks shall not be less than $\frac{1}{4}$ inch for one or two cisterns, and 1 inch for three to six cisterns.

Wherever a larger number than six cisterns is fixed, the size of the outlet shall be proportionally increased. The overflow from a storage tank shall be $1\frac{1}{2}$ inch in diameter, and a stop tap shall be fixed on the rising supply pipe to the tank.

Full way gate valves shall be provided between storage tank and flushing apparatus.

Section 193. *Supply Pipe Connexion With Flushing Cistern.*—In all water-closets, where directed, a piece of lead or copper pipe not less than 12 inches in length shall be used between the flushing cistern and the supply pipe.

The foregoing By-law was made and passed by the Dimboola Sewerage Authority at a special meeting held on the 7th day of August, 1940, and confirmed at a subsequent special meeting of the Authority on the 4th day of September, 1940.

In witness whereof the common seal of the said Authority was affixed hereto, in the presence of—

(SEAL) P. C. PILMORE, Chairman.
T. C. LESLIE, Member.
T. MICHIE, Secretary.

Approved by the Governor in Council,

DONALD WATERWORKS TRUST.

RATING BY-LAW FOR YEAR 1941.

THE Donald Waterworks Trust, in pursuance and exercise of the powers conferred by the Water Acts, doth hereby make a rate for the supply of water for domestic purposes of One shilling and nine pence in the pound of the annual municipal valuation of lands and tenements liable to be rated within the Donald Urban District.

Provided that in no case shall the amount of rate payable per annum in respect of any tenement (other than land on which there is no building) be less than Thirty shillings, and in respect of any land on which there is no building less than Seven shillings and six pence.

Such rates are made and shall be levied upon the occupiers or owners of the said lands and tenements for the year commencing on the first day of January, 1941, and shall be payable on the first day of January, 1941, at the office of the said Trust.

For water supplied by the Trust for domestic as well as for other than domestic purposes by measure (except in cases of special agreement with the Trust) the minimum quantity of water to be charged for in respect of all lands and tenements shall be the quantity for which the charge of One shilling per 1,000 gallons would be equal to the amount of the rate which would be payable for the lands and tenements so supplied. All water supplied by measure by the Trust in excess of such aforesaid quantity shall be charged for at the rate of One shilling per 1,000 gallons.

The charge for water supplied by measure shall be payable on demand.

Passed this 10th day of September, 1940.

(SEAL) S. G. McPHERSON, Chairman.
LESLIE C. HALL, Commissioner.
AUBREY LANCASTER, Secretary.

Approved by the Governor in Council,
30th September, 1940.

Clerk of the Executive Council.

STATE RIVERS AND WATER SUPPLY COMMISSION.

BY-LAW NO. 3928, FOR PROHIBITING THE CLEARING, CULTIVATING, OR FALLOWING OF LANDS ADJACENT TO CHANNELS WITHIN THE NORMANVILLE WATERWORKS DISTRICT.

THE State Rivers and Water Supply Commission, in pursuance and exercise of the powers conferred by the Water Acts, doth hereby make the By-law following:—

1. This By-law shall have operation within the whole of the Normanville Waterworks District, which District is under the control of the State Rivers and Water Supply Commission.

2. (a) The Commission may by notice in writing direct the owner or occupier of any land within the said District to refrain, for such period as is specified in the said notice, from clearing, cultivating, or fallowing any portion of the said land within one chain of any channel under the control of the said Commission.

(b) Any person who, during the period specified in the said notice, clears, cultivates, or fallows, or causes or permits to be cleared, cultivated, or fallowed, any portion of land specified in the said notice, shall be guilty of an offence against this By-law and liable to a penalty not exceeding Five pounds.

The foregoing By-law (No. 3928) was made by the State Rivers and Water Supply Commission, on the 2nd day of September, 1940, and the common seal of the said Commission was hereunto affixed the 27th day of September, 1940, in the presence of—

(SEAL) L. R. EAST, Chairman.
W. A. ROBERTSON, Commissioner.
H. HANSLOW, Commissioner.

Approved by the Governor in Council,

Electric Light and Power Act 1928 and State Electricity Commission Acts.

APPROVAL OF SUPPLY OF ELECTRICITY BY MULTIPLE EARTHED NEUTRAL SYSTEMS OF DISTRIBUTION—STATE ELECTRICITY COMMISSION.

IT is recommended that for the purposes of Regulation 2 of the Electricity Supply and Construction Regulations, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, approve of the State Electricity Commission of Victoria supplying electricity by means of multiple earthed neutral systems of distribution operating at a pressure of 230/400 volts within each and every area in which three-phase alternating current electricity is for the time being supplied by it at that pressure from any distribution system: And (subject as hereinafter provided) prescribe the respective dates in that behalf in the Schedule hereto as the dates from and after which, in each of the said several distribution systems and at the premises of every consumer in the respective area, the respective requirements of clause (xiii) of the said Regulation 2 shall be complied with, but so that from time to time the Governor in Council shall have power to postpone, for such reasons as may appear to him sufficient, any of the said dates in relation to compliance with all or some of the relevant requirements aforesaid and in respect of any such distribution system and area or all of them, that is to say:—

GRAIN ELEVATORS BOARD.

BY-LAW RELATING TO THE ISSUE OF DEBENTURES AND INSCRIBED STOCK.

THE Grain Elevators Board, in the exercise of the powers conferred upon it by the Grain Elevators Acts, hereby, subject to the approval of the Governor in Council, makes the following By-law:—

BY-LAW No. 3.

INTERPRETATION.

1. In this By-law, unless the contrary intention appears—
 - “The Board” means the Grain Elevators Board.
 - “The Registrar” means the Officer of the Board for the time being appointed by the Board to be Registrar of Stock.
 - “The Office” means the principal administrative offices of the Board, at Melbourne.
 - “The Chairman” means the Chairman for the time being of the Board.
 - “Debentures” mean debentures payable to bearer with interest coupons attached, issued by the Board under the Grain Elevators Acts or subsequent Acts, other than the Debentures referred to in the *Grain Elevators (Financial) Act 1936*.
 - “Stock” means Inscribed Stock created or issued by the Board under provisions of the *Grain Elevators (Financial) Act 1939*, or subsequent Acts.
 - “Stock Ledger” means the book or books of the Board in which the stock held is recorded or inscribed.
 - “Stock-Holder” means the owner or owners of stock as inscribed in the Stock Ledger of the Board.
- Words expressed in the singular shall include the plural and vice versa. Words expressed in the masculine shall include the feminine.
- “Schedule” means the Schedule to this By-law.

DEBENTURES.

2. (a) An application to purchase debentures, excepting where made on a form accompanying a prospectus calling for subscriptions by public tender, shall be in accordance with Form 1, and on receipt of the purchase money the Registrar shall issue the required debentures and a receipt for the debentures shall be given by the purchaser.

(b) If necessary, arrangements may be made by the Registrar for the delivery through a bank of debentures which cannot be handed personally to the owner at the Registry. A receipt shall be obtained and attached to the relative application.

INSCRIPTION OF STOCK.

Minimum Holding.

3. Except with the approval of the Chairman to the contrary, stock shall be inscribed or remain inscribed only in sums of £10, or in sums which are multiples of £10 where the sum inscribed is in excess of £10.

Application for Stock.

4. An application to purchase stock, excepting where made on a form accompanying a prospectus calling for subscriptions by public tender, shall be in accordance with Form 1, and shall be accompanied by the purchase money. In the case of a joint account, the application shall set forth the names of the applicants in the order in which they are to appear in the Stock Ledger.

Allotment of Certificate of Inscription—Form 3.

5. On receipt of the said application, together with purchase money, the Board shall proceed to allot the stock applied for in accordance with the application, and the Registrar shall cause to be inscribed the name of the purchaser, together with the amount of stock purchased, and such other matters and particulars as he may deem necessary, and he shall initial each entry in the Stock Ledger as evidence of its correctness. After such inscription, a certificate of inscription in Form 3, contained in the Schedule, shall be transmitted by the Registrar to the purchaser or his agent or attorney.

Exchange of Debentures for Stock—Form 4.

6. Where any person desires to exchange debentures of the Board held by him for stock, he shall transmit to the Registrar an application in Form 4, contained in the Schedule, and shall lodge therewith the

debentures held by him, on receipt whereof the Registrar shall forward the applicant an interim receipt in Form 2, and thereupon the Board will issue and allot stock in accordance with such application, and the Registrar will forward a certificate of inscription in Form 3 within fourteen days of the issue of the interim receipt. The debentures, together with all coupons in respect of interest not yet due, lodged with such application, shall be cancelled by the Registrar, and shall thereupon be destroyed by the Registrar in the presence of the State Auditor-General, or an officer appointed by him for the purpose, and the Auditor-General shall certify to the Board accordingly. For the purpose of exchange as aforesaid, the value of the stock and debentures shall be taken as par and the exchange effected on that basis, and on every such exchange the appropriate entries shall be made in the Stock Ledger and duly attested under section 8 of this By-law.

Exchange of Stock for Debentures—Form 11.

7. (a) Upon application in accordance with Form 11 for the issue of debentures in exchange for stock, the Registrar shall debit the account concerned in the Stock Ledger, and issue debentures of the same currency and rate of interest and for the amount of stock debited. A receipt for the debentures, if given at the Registry, shall be endorsed at the foot of the application—a notification in Form 11A shall immediately be forwarded by post to the stock owner at his registered address.

(b) Before giving delivery of the debentures, the Registrar shall cause the overdue interest coupons to be cut off and cancelled.

(c) Debentures shall not be issued in exchange for stock in cases where the stock is inscribed in the name of an infant or in the name of a person of unsound mind, jointly with others not under legal disability.

Verification of Ledger Entries.

8. Every entry in the Stock Ledger shall be initialled by the Registrar or such officer of the Board as the Board shall from time to time appoint, and such ledger shall be audited from time to time by the State Government Auditor.

Stock Certificate Lost or Destroyed may be Replaced.

9. If any certificate of inscription is lost, mislaid, or destroyed, the Registrar shall, on being applied to, issue a duplicate certificate in place of the certificate so lost, mislaid, or destroyed, and such duplicate certificate shall be delivered only to the person whose name is inscribed in the Stock Ledger as the holder of the stock or to his attorney or agent.

Joint Owners, Companies, Firms, Corporations, Societies, &c.

10. (a) Stock may be inscribed in the name or names of one or more persons, not exceeding four, and the full name, address, and description of each shall be given.

(b) Stock may be inscribed in the name of a registered company or other corporation, but the Registrar must first be furnished with a copy of the certificate of incorporation or special Act of Parliament under which such corporation is established, together with a certified specimen of the seal of the corporation, a duly verified copy of any regulations governing the mode of affixing the seal, and the full names and specimen signatures of all persons authorized to sign documents in connexion therewith. The document containing such information shall be in Form 4 (a) contained in the Schedule, and shall, unless the Registrar otherwise decides, be signed and sealed in the presence of an officer of the Board. The Registrar shall cause such document to be affixed in the Signature Records, and thereafter it shall not be necessary for an officer of the Board to witness the affixing of such corporation's seal. If, from any cause, any such authorized person is substituted by another person, notification, in writing and under seal, must be given to the Board.

(c) Firms will not be registered as such, but in the names of the individual partners.

(d) Stock may be inscribed in the name of a Friendly Society, Trade Union, or other registered society, but the Registrar shall first be supplied with a copy of rules of the society or union, together with a certificate in Form 4b, signed by the President or other principal executive officer of such society or union, stating the full names of the persons authorized by such society or union to apply for and deal with stock on its behalf, and containing specimen signatures of the persons so authorized.

Minors and Persons of Unsound Mind.

11. (a) Stock may be inscribed in the name of a minor solely, and a minor may transfer such stock, provided that if the minor has not attained, or appear to the Registrar not to have attained, the age of

fourteen years, such stock shall not be transferred nor Grain Elevators Board debentures issued in exchange without the consent of the minor's guardian. Debentures issued in exchange may be delivered by the Registrar to such guardian, whose receipt shall be a valid discharge.

(b) In cases where stock is inscribed in the name of a minor jointly with one or more adult persons, the redemption money may, if the minor has attained the age of fourteen years, be paid to such minor jointly with the adult person or persons in whose names the stock is inscribed. In cases where the minor has not attained the age of fourteen years, or appears to the Registrar to have not attained the age of fourteen years, such redemption money may be paid to the minor's guardian jointly with the adult person or persons in whose names the stock is inscribed.

(c) Where stock is inscribed in the name of an infant or persons of unsound mind jointly with any person or persons not under legal disability, a power of attorney for the receipt of the interest on such stock shall be sufficient authority in that behalf if given under the hand and seal of the person or persons not under disability and duly attested. The Registrar, before acting on any such power of attorney, may require proof of his satisfaction of the alleged infancy or unsoundness of mind by statutory declaration of competent persons, or otherwise in such manner as he may reasonably require.

Change of Address.

12. Any change of address of a stockholder shall be at once notified in writing, to the Registrar, who shall enter the new address in the Stock Ledger and send a notification to the holder at the old address.

Persons whose Names are Inscribed Alone Recognized as Owners.

13. The Board and Registrar shall, for all purposes, be entitled to regard the person or persons whose name or names are inscribed in the Stock Ledger as the true and absolute owners and holders of the stock in relation to which such name or names is or are so inscribed, and all receipts, acquittances, discharges, releases, and documents whatsoever executed by such person or persons in relation to such stock, or the interest thereon, shall be deemed for all purposes and against all persons to be documents duly executed by the person or persons entitled to such stock or interest, as the case may be.

Trusts not Recognized.

14. No entry of any Trust shall be made in the Stock Ledger, and the Board shall be entitled to treat the person or persons whose name or names are inscribed in the Stock Ledger in respect of any stock as the absolute owner or owners thereof, and accordingly shall not be bound to recognize any equitable or other claim to or interest in such stock on the part of any other person.

Receipts of Joint Holders.

15. The receipt of any one stockholder or of his attorney or agent in the case of stock inscribed in more than one name for any interest or for any document relating to such stock shall be a sufficient discharge to the Board in respect thereof, but a discharge in respect of repayment of principal must be given by all stockholders in a joint account.

TRANSFERS OF STOCK.

Transfer Books.

16. (a) There shall be kept at the office of the Board books to be called "Transfer Books", wherein all transfers of stock or any part thereof shall be entered, which entries shall be numbered consecutively, for each rate per cent. of each issue or class beginning on the 1st July in each year, a corresponding number being placed on the form from which the entry is made. All transfers shall be in the Form 5, contained in the Schedule, and shall be fully signed by the parties making and accepting such transfers, and, in the case of a corporation, properly sealed, or if any such party or parties be absent, by his or their attorney or attorneys thereunto lawfully authorized as hereinafter mentioned. Every such transfer shall pass the right to all interest becoming due and payable after the date of registration thereof, so that the Board shall not be under any necessity to apportion any such interest as between transferor and transferee.

(b) Signatures to transfers shall be attested by one of the witnesses indicated on Form 5.

(c) Registration will not be made of any transfer or application for transfer received within a period of 21 days immediately preceding the date of maturity of stock, nor within fourteen days prior to the date on which interest is due.

(d) Upon receipt of a Deed of Transfer the Registrar shall inspect the Stock Ledger, and shall thereupon mark such Deed of Transfer with a notice that the stock transferred is registered in the name of the

transferrer if such be the case. The Deed of Transfer may be registered at any time within fourteen days of being so marked, notwithstanding that the transferrer, after executing the transfer, has died or become bankrupt, but if after the expiry of the said period of fourteen days and before registration the transferrer has died or become bankrupt no transfer of stock shall be registered if the Registrar has knowledge of the death or bankruptcy.

(e) The Registrar may, if he thinks fit, without assigning any reason, decline to register any transfer of stock.

(f) On a transfer being lodged for registration the Registrar may, if he thinks fit, require the production of the Original Certificate of Inscription to be cancelled and retained by him, and a fresh certificate shall be issued to the transferrer for the balance of stock (if any) remaining to his credit.

Transfers after Notice of Intention to Redeem.

(g) Where debentures or stock have been issued for a period which may be determined whether at any time or at one of several dates by the Board by notice, such notice may in default of other provisions in the relevant prospectus be given by advertisement appearing at least six months before the intended date of determination in a daily newspaper published in each of the capital cities of the Commonwealth, and no transfer of the stock after the publication of such advertisement shall affect the right of the Board to redeem the stock at the date so notified.

Transfers to be Lodged on a Transfer Day.

17. Every transfer of stock shall be lodged at the office on a transfer day; the transfer days will be Monday, Tuesday, Wednesday, Thursday, and Friday in each week, from 10 a.m. to 1 p.m. and 2 p.m. to 3 p.m., except when any such days fall on a public holiday.

Stock Ledger, &c., to be Closed.

18. The Registrar will cause the Stock Ledger and transfer books to be closed for a period of fourteen clear days next before any of the days on which interest on the stock is payable, and shall cause the amount of the stock respectively standing to the credit of the several holders thereof to be ascertained and the balances to be struck in the proper ledger, and the persons, who on the day such books are so closed are inscribed as holders of stock, shall be entitled to receive the interest next payable thereon.

Entries in Stock Ledger.

19. (a) As soon as possible after the entry of any transfer or transmission of stock, the amount of stock transferred or transmitted shall be debited in the proper account in the Stock Ledger, and shall be forthwith credited in the same ledger to the account of the person or persons to whom it shall have been so transferred or transmitted, and the Registrar shall cause the said Stock Ledger to be compared with the transfers and applications so as to ascertain that all the business transacted has been duly and properly entered and recorded.

(b) In the event of any stock being inscribed incorrectly owing to a mistake in any document, the account may be amended by a letter or declaration or in such other manner as the Registrar may reasonably require, and in the event of the alteration of any name or names a request from the transferrer in the original transfer shall be required by the Registrar.

(c) The transferrer and transferee shall be notified by the Registrar of the completion of the transactions. In the case of a joint account notification shall be made only to the first inscribed owner.

TRANSMISSION OF STOCK, ETC.

Executors or Administrators Alone Recognized.

20. (a) The executors or administrators of a deceased stockholder (not being one of several joint holders) shall be the only persons recognized by the Board as having any title to the stock inscribed in the name of such deceased stockholder.

(b) (i) On the decease of one of the owners in a joint account, the death may be proved by production of probate of will, letters of administration, or certificate of death, and, if required by the Registrar, a declaration by some disinterested person approved by the Registrar in Form 6A. On completion of the proof of death, the stock and dividends thereon will be registered in the name of the survivor or survivors.

(ii) On the decease of the last survivor in a joint account, the death must be proved as in the case of a sole owner, and steps taken to inscribe the stock in the name of the executor or administrator of the last survivor.

Transmission, Evidence of.

21. (a) If any stock has been transmitted in consequence of the death or bankruptcy of any stockholder or by any lawful means other than by a transfer under this By-law application for registration of such transmission shall be made in Form 6, and shall be authenticated by a statutory declaration and in such other manner as the Registrar may require.

(b) In the case of transmission in consequence of death such declaration shall be in Form 6A.

(c) Every declaration made pursuant to this section shall be signed and made by some credible person before a Justice of the Peace of the State of Victoria or a Commissioner for Affidavits or Declarations or if made outside the State of Victoria before a Notary Public or British Consul or Vice-Consul or other British Authority, who shall also certify to the identity of the applicant.

(d) Every application for transmission shall be delivered to the Registrar, together with any documents authenticating the same, and shall be numbered by him consecutively as though it were a transfer.

Persons Entitled to be Registered on Transmission.

22. (a) The person becoming entitled on transmission in the manner aforesaid may either himself be registered as the holder of the stock so transmitted or instead of being himself registered may make such transfer of the stock as the stockholder from whom the same was transmitted could have made, and any such transfer shall be accompanied by such evidence in proof of the title of the transferee as the Registrar may reasonably require, and the person registered pursuant to this section shall be entitled to receive the interest on such stock and to all other advantages he would be entitled to if he were the registered holder of the stock.

(b) The Registrar shall require the signatures of persons who claim transmission of stock by virtue of their appointment as executors, administrators, or trustees to be verified to his satisfaction by a disinterested person approved by the Registrar.

(c) Where the Registrar is satisfied that stock is inscribed in the name of a person whose property is required by law to be placed in the hands of a Public Curator or other officer charged with the duty of administering the estates of deceased or missing persons or persons under disability the Registrar may, upon receiving such indemnity from the Public Curator or officer as he thinks necessary, transfer the stock to the name of the Public Curator or officer.

(d) Upon the transmission having been duly made, the Registrar shall forward to the person making the request for transmission a notice to that effect, in accordance with Form 3.

Marriage of Female Stockholder.

23. In the event of the marriage of a female stockholder, such stockholder may apply, in writing, in Form 10, to have such stock inscribed in her married name, or jointly with any other name, and shall lodge therewith the certificate of inscription of such stock and her marriage certificate or certificate of registration of marriage under the hand of the proper State officer and such other proofs as the Registrar may reasonably require, and the Registrar shall thereupon have such stock inscribed as required, and shall issue a new certificate of inscription in that name, and shall cancel and retain the old certificate.

Notification of the alteration shall be made in accordance with Form 3.

*POWER OF ATTORNEY.**Power of Attorney, Form 7.*

24. (a) Any attorney who shall be appointed by any stockholder for all or any of the purposes authorized by this By-law or approved by the Board shall be thereunto authorized by writing under hand and seal attested by two more credible witnesses, and except with the Registrar's approval to the contrary every such power shall be in Form 7 contained in the Schedule hereto, and shall be executed and attested in accordance with the instructions printed at the foot thereof or endorsed thereon and duly stamped, and shall be deposited and kept at the office, and shall be as valid and effectual to all intents and purposes as if the same had been filed in the office of the Registrar-General, and the death, bankruptcy, or (if a female) the marriage of the principal or the revocation of such power had not been registered according to law, and the same shall continue in force until actual written notice of the death of the grantor of such power or of the

revocation thereof shall have been received by the Registrar, and the burden of proof of such receipt shall be upon the person seeking to impeach any act of the Registrar or the Board purporting to have been done by virtue or reason of such power. In case of a joint account such power of attorney shall be signed by all the owners. No form of any such power of attorney shall be supplied to any person except on the written request of the registered holder of the stock to be affected thereby or some other person on behalf of such owner, as approved by the Registrar.

(b) Where, in the opinion of the Registrar, it is not convenient to obtain a power of attorney in accordance with Form 7, the Registrar may act on a power of attorney which is not in accordance with Form 7, but in such a case, if the power of attorney has been lodged with a State Officer, the Registrar may act only after a copy of the power of attorney, or extract thereof attested by the proper State Officer, has been lodged with the Registrar, or, if the power of attorney has not been lodged with a State Officer the Registrar may act only if a copy of the power of attorney or an extract thereof, verified by a person approved by the Registrar, has been lodged with the Registrar, and if the power of attorney has been attested, as provided in regard to Form 7, provided that in every case where the power of attorney is not in accordance with Form 7, the Registrar may require a declaration from the attorney that he has not received notice of revocation of such power by death of the owner or otherwise.

(c) Every power of attorney or copy or extract of a power of attorney lodged with the Registrar under these regulations shall be retained by him and filed in a Register of Powers of Attorney.

Power of Attorney, &c.—When to be Lodged.

25. Every power of attorney, probate, letters of administration, marriage certificate, or certificate of registration of marriage, certificates of adjudication, order of sequestration, declaration, &c., must be lodged at the office of the Registrar at least two clear week days before the same can be acted upon, and neither the Board nor the Registrar shall be answerable for any claim made or loss arising by reason of their not having acted upon any such document or of its or his having acted otherwise than in accordance with the same during a period of two clear working days after the same has been so lodged.

INTEREST AND PRINCIPAL.

Interest—When Due.

26. Interest is due half-yearly on such dates during the currency of the stock as shall have been prescribed by the resolution of the Board creating the stock for the half-year ended with the day previous to those dates respectively, and is payable on and after those dates, holidays excepted.

Payment of Interest.

27. (1) Interest will be paid in one of the following modes:—

- (a) Unless otherwise instructed, payment will be made by cheque sent by ordinary prepaid letter, through the post, addressed to the stock holder, or the owner whose name in a joint account is first inscribed in the Stock Ledger, at his address last notified to the Registrar before the closing of the Stock Ledger or to some person, a specimen of whose signature shall be supplied to the Registrar on Form 13, nominated, in writing, by the stock holder and in the case of a joint holding by all or the first-named stock holder. Cheques will be made payable to the order of the stock holder or such nominated person, and will be crossed "not negotiable."
- (b) By payment into an account in a bank including a Savings Bank within the Commonwealth, having a branch at Melbourne, at the risk of the stock holder, under the following conditions:—
 - (i) Any stock holder who desires to have his interest cheques as they become due paid to the credit of a bank account, including a Savings Bank, must fill up and sign an authority in the Form 8 contained in the Schedule. In the case of a joint account, all the owners, or the owner whose name is first inscribed, may sign the form.

- (ii) Applications for payment into a bank account must be lodged at the office fourteen days before the interest is due, and the instructions therein will remain in force, although the stock may have been added to or partly transferred.

(2) If interest is payable to a bank account or to a person other than the owner, or other than the first-named owner in a joint account, a note shall be made in the Stock Ledger, and the authority for same shall be filed by the Registrar.

(3) Any change of address of the person to whom interest payments are to be sent should be notified at once to the Registrar. When any such notification reaches the Registrar less than fourteen clear days before the next interest is due, the Registrar cannot undertake to record it until after the payment of the next interest.

(4) In the absence of any notification to the contrary, it will be taken for granted that interest payments sent by post have duly reached their destination. When they are not received on the correct day, notice should be sent to the Registrar without delay.

FORMS.

28. All forms from which entries are made shall be carefully preserved. When any reference is made to a form, the reference shall be to the appropriate form in the Schedule. Forms to the like effect may be used on the approval of the Registrar.

GENERAL.

Specimen Signatures, &c.

29. (a) The Registrar shall take such steps as are necessary to immediately secure either by post (in which case they must be witnessed by a credible person and tested), or personally, specimen signatures of all stock owners; the signatures to all forms shall be tested by comparison with those in the Signature Records.

(b) If in cases where the owner is not personally known to the Registrar, or where the Registrar is doubtful as to the genuineness of a signature, or if for any other reason he is not satisfied as to the genuineness of an application, a notice of dealing in accordance with Form 9 shall be forwarded to the owner by the Registrar, who shall not register the transaction until a sufficient time has elapsed for a reply to be received.

(c) All possible precautions shall be taken by the Registrar for the security of the stock to its owner and to guard against fraud or improper transactions; erasures must not be made in the Stock Ledger, errors must be ruled through, and the correct entries made.

(d) In all cases of proposed dealings in stock, the attendance of the owner at the Board's office should, when practicable, be arranged for.

(e) No person other than the officers immediately engaged on Inscribed Stock business and of the Auditor-General's office shall have access to any of the books, forms, or other records, and all officers are expressly forbidden to divulge any information coming to their knowledge in the course of their duties except as necessary in the transaction of business or as required by law.

(f) The Registrar shall be responsible for carrying out the provisions of the Act and the Regulations and for ensuring the safe custody of books, forms, records, &c.

(g) Specimen signatures shall be obtained and preserved in the office.

(h) The Forms Nos. 1 to 13 referred to in this By-law and annexed hereto shall be deemed to form part of this By-law.

Attention is drawn to the following sections of By-law No. 3 of the Grain Elevators Board:—

TRANSMISSION OF STOCK, ETC.

Executors or Administrators Alone Recognized.

20. (a) The executors or administrators of a deceased stock holder (not being one of several joint holders) shall be the only persons recognized by the Board as having any title to the stock inscribed in the name of such deceased stock holder.

(b) i. On the decease of one of the owners in a joint account, the death may be proved by production of probate of will, letters of administration, or certificate of death, and, if required by the Registrar, a declaration by some disinterested person approved by the Registrar in Form 6A. On completion of the proof of death, the stock and dividends thereon will be registered in the name of the survivor or survivors.

ii. On the decease of the last survivor in a joint account, the death must be proved as in the case of a sole owner, and steps taken to inscribe the stock in the name of the executor or administrator of the last survivor.

Transmission, Evidence of.

21. (a) If any stock has been transmitted in consequence of the death or bankruptcy of any stock holder, or by any lawful means other than by a transfer under this By-law, application for registration of such transmission shall be made in Form 6, and shall be authenticated by a statutory declaration and in such other manner as the Registrar may require.

VICTORIAN RAILWAYS.

*At the Executive Council Chamber, Melbourne, the
thirtieth day of September, 1940.*

PRESENT:

His Excellency the Governor of Victoria.

Mr. Old	Mr. Tuckett
Mr. Mackrell	Mr. Martin.

MAINTENANCE OF THE PASSENGER SERVICE ON THE CASTLEMAINE TO MALDON RAILWAY.

WHEREAS the Minister of Transport (hereinafter called “the Minister”) by a memorandum dated the twenty-seventh day of September One thousand nine hundred and forty requested the Victorian Railways Commissioners (hereinafter called “the Commissioners”) as a matter of general policy to propose in writing a scheme providing that the Commissioners shall maintain the passenger service now operating on the Castlemaine to Maldon railway until the thirty-first day of December One thousand nine hundred and forty: And whereas in a memorandum dated the twenty-eighth day of September One thousand nine hundred and forty the Commissioners state that in their opinion the matter referred to is not a matter of general policy within the meaning of section 101 of the *Railways Act* 1928: And whereas in the circumstances a difference of opinion has arisen within the meaning of the said section: And whereas it is expedient that the said difference of opinion should be finally determined in accordance with the provisions of such section: Now therefore it is submitted to His Excellency the Governor, with the advice of the Executive Council, that such difference of opinion shall be finally determined to the intent that the request contained in the said memorandum of the Minister shall as a matter of policy be carried out by the Commissioners. The Governor, with the advice of the Executive Council, doth hereby determine that the request of the Minister contained in his said memorandum dated the twenty-seventh day of September One thousand nine hundred and forty shall be, as a matter of policy, carried out by the Commissioners.

And the Honorable Herbert John Thornhill Hyland, His Majesty's Minister of Transport for the State of Victoria, shall give the necessary directions herein accordingly.

Fire Brigades Acts.

COUNTRY FIRE BRIGADES BOARD.

*At the Executive Council Chamber, Melbourne,
the thirtieth day of September, 1940.*

PRESENT:

His Excellency the Governor of Victoria.

Mr. Old	Mr. Tuckett
Mr. Mackrell	Mr. Martin.

REGULATIONS.

WHEREAS by the Fire Brigades Acts it is amongst other things enacted that the Governor in Council may as to the whole or any part of Victoria make Regulations for all or any of the purposes set forth in the said Acts: And whereas by section 40 of the *Fire Brigades Act 1928* it is further enacted that all Regulations as to any country district shall be prepared by the Country Fire Brigades Board and submitted to the Minister for approval prior to being made by the Governor in Council: And whereas the Regulations set forth hereunder were prepared by the Country Fire Brigades Board and submitted to the Minister for his approval: And whereas such Regulations have been approved of by the Minister: Now therefore His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby make the Regulations following, that is to say:—

EXPENSES OF MEMBERS.

94. (1) Every member of the Board whose usual place of residence is more than 30 miles from Melbourne shall, in respect of his attendance at each meeting of the Board held in Melbourne, be entitled to an allowance of the sum of Three pounds three shillings as personal expenses.

(2) Every member of the Board who is appointed by the Board to attend an annual demonstration, a district demonstration, or any other official function or duty (other than a meeting of the Board) shall where travelling from his usual place of residence is necessary, be entitled to an allowance of

the sum of One pound one shilling as personal expenses for each day or portion thereof occupied in travelling and attendance.

95. Every member of the Board attending any meeting of the Board and every member of the Board who is appointed by the Board to attend any annual demonstration, district demonstration, or any other official function or duty may, if not provided by the Board with a voucher to obtain rail transport, be paid a sum equal to first-class return fare by rail between his usual place of residence and the place of meeting or other duty as aforesaid.

Provided that where direct and convenient rail transport is not available between the usual place of residence of a member and the place of meeting or duty as aforesaid, such member may by Resolution of the Board, be paid a sum not exceeding Four pence per mile for any journey made by road by the shortest practicable route.

96. Every claim for personal or other expenses shall be—

- Made in writing;
- certified as being correct by the member concerned;
- countersigned by the President, or (in the case of a claim by the President) by the last retiring President.

Provided that any claim by a member of the Board for personal expenses in respect of his attendance at a meeting of the Board shall not be required to be countersigned as aforesaid, and may be paid at the meeting to which the claim relates.

And the Honorable Henry Stephen Bailey, His Majesty's Chief Secretary for the State of Victoria, shall give the necessary directions herein accordingly.

C. W. KINSMAN,
Clerk of the Executive Council.

LIBRARY SERVICE BOARD.

*At the Executive Council Chamber, Melbourne,
the thirtieth day of September, 1940.*

PRESENT:

His Excellency the Governor of Victoria.

Mr. Old	Mr. Tuckett
Mr. Mackrell	Mr. Martin.

WHEREAS it is deemed expedient that a Board be appointed to make an investigation of the free library service available to the people of Victoria and to recommend means whereby such service may be improved and without derogating from the generality of the foregoing, in particular, to carry out and perform any or all of the following:—

- To inquire into the adequacy of the library service provided by the Public Library of Victoria, departmental libraries, free libraries, mechanics' institutes, and like libraries;
- To prepare plans for the development and organization of library services in Victoria; and
- To recommend the extent to which the Government of Victoria and the Municipalities of the said State should assist financially in the establishment and maintenance of library services and the conditions which should properly attach to any subsidies granted for this purpose.

Now therefore His Excellency the Governor of the State of Victoria, in the Commonwealth of Australia, by and with the advice of the Executive Council of the said State, doth by this Order constitute and appoint—

ERNEST ROLAND PITT, Esquire, B.A.,
COLIN ROBERT BADGER, Esquire, M.A.,
WILLIAM CHARLES BAUD, Esquire, B.A.,
KENNETH STEWART CUNNINGHAM, Esquire, M.A., Ph.D.,
Dip.Ed., and

ALFRED ERNEST McMICKEN, Esquire, J.P.,
to be a Board for the purpose of inquiring into and reporting upon the matters aforesaid, with full power and authority to call before them, or any three of them, any person whose evidence in the judgment of the Board, or of any member thereof, is material to the subject-matter of inquiry to be made by the Board, and to inquire of any concerning the premises by all other lawful means whatsoever: And it is hereby directed that the said Ernest Roland Pitt shall be Chairman of the said Board, and that the said Ernest Roland Pitt, Colin Robert Badger, William Charles Baud, Kenneth Stewart Cunningham, and Alfred Ernest McMicken shall, with as little delay as possible, report under their hands their opinions resulting from this inquiry:

Whereof the said Ernest Roland Pitt, Colin Robert Badger, William Charles Baud, Kenneth Stewart Cunningham, and Alfred Ernest McMicken, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

And the Honorable Henry Stephen Bailey, His Majesty's Chief Secretary for the State of Victoria, shall give the necessary directions herein accordingly.

LIST OF CROWN LANDS AVAILABLE.

THE under-mentioned areas are available for application as provided by various sections of the *Land Act 1928*, and all applications received on or before Wednesday, 30th October 1940, will be deemed to have been simultaneously made, but any application lodged after such date may be considered if received in time for inclusion in the advertisement of the cases to be heard at the Local Land Board.

Applications on proper form, accompanied by 5s. duty stamp uncanceled (registration fee), may be delivered or forwarded by post to the Local Land Officer or to any Crown Lands Office in Victoria.

Applicants may obtain from Local Land Officers, or the Enquiry Office, Lands Department, Melbourne, a certificate authorizing the issue by the Railway Department of a return ticket at concession fares to enable them to inspect available areas or to attend Local Land Boards. When an applicant is granted an allotment he may, if travelling by rail, obtain reduced fares for his family and also freight concessions in regard to some of his effects.

Subject to the approval of the Minister, when the survey fee exceeds £10, a deposit of £5 may be paid, and the balance over six years in half-yearly instalments.

Marked plans of any particular area, application forms, and any further information may be obtained from the Enquiry Office, Lands Department, Melbourne, and Land Officers, Bendigo and St. Arnaud.

No. 364.—12237/40.—4

TOWN OF NEWTOWN AND CHILWELL.

BY-LAW No. 31.

A By-law of the Town of Newtown and Chilwell, made under
the provisions of the Local Government Acts, and numbered
31, for—

- (a) preventing fires;
- (b) suppressing nuisances;
- (c) prescribing charges to be made for the deposit of
refuse.

THE Mayor, Councillors, and Burgesses of the Town of
Newtown and Chilwell, in pursuance of the powers con-
ferred by the Local Government Acts and of every other Act
or power enabling it in that behalf, doth hereby make the
By-law, and order as follows:—

1. That whereas nuisances are created by persons on and
improperly interfering with rubbish deposited at the Council's
tip—

- (a) No person shall trespass on any part of the area
set apart for the Council's tip without authority,
in writing, being first obtained from the Council
under the hand of the engineer.
- (b) No person shall deposit or leave any refuse or rubbish
in any part of the tip without authority being
first had and obtained from the Council under the
hand of the engineer, and then only in such a
manner and in such a position as directed by the
duly authorized officers of the Council.
- (c) The charges payable for depositing refuse or rubbish
shall be—
Six pence per dray load.
One shilling per 3-yard load.
One shilling and six pence per 5-yard load.
- (d) No person shall in any part of the Council's tip
obstruct, disturb, interrupt, or annoy any other
person in the proper use of the tip, or obstruct
or neglect or refuse to obey the lawful direction
of any duly authorized officer of the Council.
- (e) No person shall light any fire in any part of the
tip.
- (f) No person shall remove any material from the tip
without authority in writing being first obtained
from the Council under the hand of the Engineer.
- (g) No person shall, unless duly authorized by the Coun-
cil under the hand of the Engineer, interfere with
the surface of the tip or any materials deposited
or about to be deposited at the said tip.
- (h) No person shall behave in an unseemly indecent or
improper manner or use any profane or indecent
language or commit any nuisance in the tip.
- (i) No person shall disfigure, damage, destroy or im-
properly interfere with any notice board, post,
fence, building, appliances, or other equipment in
the tip.

2. Any contravention of any of the foregoing sections by
act or omission shall be an offence against this By-law.

3. Every person who is guilty of an offence against this
By-law shall be liable on conviction to a penalty of not more
than Twenty pounds.

Resolution for adopting this By-law agreed to by the
Council of the Town of Newtown and Chilwell on the 26th
day of June, 1940.

Confirmed this 31st day of July, 1940.

The common seal of the Mayor, Councillors, and Burgesses
of the Town of Newtown and Chilwell was affixed
hereto in the presence of—

(SEAL) F. W. STINTON, Mayor.

SUBSCRIPTIONS.—The subscription, including Postage, is £1 10s. 4d. per annum, or 7s. 7d. per quarter, payable in advance.

Subscriptions are required to commence and terminate with a month.

A lesser period than three months cannot be subscribed for.

Subscribers do not receive the Acts of Parliament with the *Gazette*.

ADVERTISEMENTS are charged at the rate of EIGHT PENCE per line single column, and ONE SHILLING and FOUR PENCE per line double column.

The title (*£5 Reward, Dissolution of Partnership, &c.*) forms one or more lines as a heading.

On an average, eleven words make a line.

Every signature must likewise be counted as a line.

The final words of a paragraph, though only portion of a line, must be counted as one line.

SIGNATURES (in particular) and proper names must be written very plainly in the text; ONE SIDE ONLY of each slip of paper should be WRITTEN UPON.

ALL COMMUNICATIONS should be addressed to "The Government Printer, Melbourne."

ALL DOCUMENTS illegibly written will be returned unpublished, and, where brands occur unprovided for by the ordinary letters of the alphabet, a worded explanatory description must be furnished.

THE VICTORIA GOVERNMENT GAZETTE is published on WEDNESDAY EVENING in each week, and Notices for insertion will be received by the Government Printer at or before TWO p.m. at ordinary rates, and late advertisements between TWO p.m. and FIVE p.m. at double rates, on the day preceding the day of publication.

Single copies of the VICTORIA GOVERNMENT GAZETTE are Six pence, posted Seven pence, each.

No GAZETTES prior to January, 1926, in stock.

***ALL PAYMENTS ARE REQUIRED IN ADVANCE.—Remittances should be made by postal note, money order, or draft in favour of the Government Printer. Advertisements unaccompanied by a remittance sufficient to cover the cost of insertion will be returned unpublished.
