## REGULATION No. 116.

A Regulation of the City of Sandringham numbered 116 made under section 26 of Part I. of the Thirteenth Schedule to the *Local Government Act 1928* in force in the City by virtue of a By-law of the above-named City numbered 91 for regulating the width, depression, and inclination of crossings across or over footways and channels, and the materials for making and constructing the same, the mode of laying and bedding such materials, the length, width, size, strength, and fall of bridge crossings, and the said inclination and fall either absolutely or with relation to the levels, inclination, or fall of the footway or channel or otherwise in like manner.

IN pursuance of the powers conferred by the *Local Government Act 1928*, the Mayor, Councillors, and Citizens of the City of Sandringham make the following Regulation which shall apply to and have operation throughout the whole of the Municipal District:—

1. Except in the case of a bridge crossing every crossing over a footway and channel shall from the building line to a point 6 feet distant from such building line be flush with such footway and shall between such point and the invert of the channel lying along the outer edge of such footway fall with a constant inclination to the level of such invert and shall from there continue towards the roadway as far as the outside edge of such channel with a constant upward inclination to such invert equal to the inclination to such invert of the outer side of such channel.

2. Every such crossing shall be of a width equal to the width of the gateway to which it leads or of a width of 9 feet whichever shall be the greater.

3. Except as is hereinafter provided all crossings shall be constructed of cement concrete.

4. Except as is hereinafter provided every such crossing which is intended to be used by vehicles weighing more than 40 cwt. shall be constructed of concrete at least 6 inches in depth, and every such crossing which is intended to be used by vehicles weighing not more than 40 cwt. shall be constructed of concrete at least 5 inches in depth.

5. Where the foundation for any such crossing consists of made-up ground, clay, or other unstable foundation, such cement concrete shall be reinforced with  $\frac{1}{2}$ -inch diameter mild steel bars placed in two rows at right angles to each other, the bars in each such row being laid to 9-inch centres, and  $1\frac{1}{2}$  inches from the bottom of concrete.

6. All cement concrete used in the construction of any such crossing shall consist of one part by volume of the best Portland cement (94 lb. to be taken as a measure for 1 cubic foot), two parts by volume of clean sharp sand, and four parts by volume of clean  $\frac{1}{2}$ -inch bluestone screenings so mixed that a test cylinder 12 inches by 6 inches shall at the expiration of seven days from mixing show a compressive strength of at least 1,600 lb.

7. In constructing any such crossing the concrete shall be laid on a bed of sand or ashes at least 2 inches in thickness and the surface of all cement concrete shall have a steel trowel finish. All joints therein shall be made with a proper jointing tool.

All asphaltic concrete used in the construction of any such crossing shall consist of clean  $\frac{1}{2}$ -inch bluestone screenings mixed with liquid bitumen in such a manner that all stones are evenly coated with bitumen, but containing no excess bitumen, the whole to be covered with a  $\frac{1}{2}$ -inch thickness of clean  $\frac{1}{2}$ -inch bluestone toppings mixed in a similar manner with liquid bitumen, the whole to be thoroughly consolidated.

10. Where any kerbing to a footway has been cut away to permit the construction of a crossing new return curbing shall be constructed on each side of the crossing to the same specifications as the existing kerbing. Such return kerbing shall be returned on a radius of not less than 4 feet and tapered so that the top thereof meets the rising gradient of the crossing in a manner least likely to cause inconvenience to pedestrians.

11. Every bridge crossing over a channel shall consist of a reinforced concrete pipe or box culvert laid with the same longitudinal gradient as the existing channel and with a cross sectional area sufficient for the volume of drainage conveyed by such channel.

12. Notwithstanding anything herein contained no such concrete pipe shall be less than 9 inches internal diameter and no such box culvert shall be less than 12 inches wide nor less than 6 inches high, internal dimensions.

13. Every bridge crossing shall be of a length equal to the width of the gateway to which it leads or of a length of 16 feet whichever shall be the greater.

15. The floor walls and top of every such bridge crossing cast in place shall be at least 5 inches thick and the top shall be reinforced with  $\frac{1}{2}$ -inch diameter mild steel bars placed in two rows at right angles to each other, the bars in each such row being laid to 6-inch centres, and  $1\frac{1}{2}$  inches from the bottom of concrete.

16. Where a bridge crossing has been constructed over a channel the crossing over the footway shall, from the building line to a point 5 feet distant from such building line, be flush with such footway and shall between such point and the outside edge of the channel lying along the outer edge of such footway fall with a constant inclination to the level of the top of such bridge crossing.

17. Notwithstanding anything herein contained—

(a) In case the roadway has not been metalled for the full width between channels, bridge crossings over pitched channels may be constructed in timber and every such timber crossing shall consist of 4 inches by 2 inches Hardwood decking spaced 1 inch apart securely fixed to 4 inches by 3 inches Hardwood bearers spaced not more than 4 feet apart and supported on and securely fixed to 4 inches by 4 inches Jarrah or Red Gum bearers.

(b) In case the difference in level between the invert and outer edge of the channel exceeds 2 inches, bridge crossings over concrete channels may be constructed of wrought iron plate and every such wrought iron plate crossing shall consist of  $\frac{3}{4}$ -inch thickness wrought iron plate, securely fixed to 4 inches by 4 inches concrete bearers.

(c) Any person engaged in the construction of any building may cart building materials over any footway or channel if he causes such footway and channel to be adequately protected by a covering of battens or planks laid on the surface and firmly secured in position so as not to cause any obstruction or be a source of danger to pedestrians using such footway and so as not to cause any obstruction in such channel to the free flow of water therein.

Resolution for passing this Regulation agreed to by the Council on the twenty-eighth day of November, 1939, and confirmed the sixth day of February, 1940.

The common seal of the Mayor, Councillors, and Citizens of the City of Sandringham was hereto affixed in the presence of—

(4) **CASUAL EMPLOYEES.**—(a) A casual employee, that is, an employee who is not employed for a full week, shall be paid one-sixth of the weekly wage prescribed in this award for the class of work he performs, plus 10 per cent. of such one-sixth for each day or part of a day on which he is employed. For time worked in excess of 8 hours on any one day, time and a half rates shall be paid.

(b) Where a casual employee is required to perform more than one class of work on any one day, he shall be paid for the whole of that day at the highest wage prescribed in this award for any of the work which he performs.

(c) In addition to the rate payable under sub-clause (a) hereof casual employees shall be paid all fares above 4d. per day reasonably and necessarily incurred.

(5) **SPECIAL RATES AND ALLOWANCES.**—Where an employee is temporarily transferred during working hours from one shop or factory to another the employer shall pay such employee all costs of transit and travelling time.

(6) **HOURS OF LABOUR.**—(a) (1) In retail butchers' shops, small goods factories and in abattoirs the ordinary working hours shall not exceed in number 44 per week.

(2) No time worked on a Sunday shall be reckoned as part of such ordinary hours.

(3) (i) Each daily period of work comprised in such ordinary working hours shall be unbroken except by prescribed meal intervals.

(ii) No such daily period of work shall exceed in duration nine hours exclusive of prescribed meal intervals.

(iii) Such daily periods of work shall be so arranged that on at least one day in each week the employee concerned shall finish his ordinary hours of work not later than 12.30 p.m.

(4) No time worked before 6 a.m. or after 8 p.m. shall be reckoned as part of such ordinary hours.

(5) (i) Subject to compliance with the foregoing provisions and with those hereinafter contained the employer may for any of his employees fix each day's starting and finishing times of ordinary work (inclusive of special starting and finishing times for any day next preceding a public holiday) observed by him for the employee concerned.

(ii) The employer shall state such times in advance in a notice posted in his establishment so as to be readily accessible and visible to the employee concerned.

(iii) The employer may from time to time substitute other starting and finishing times if not less than a week in advance of the substituted times he states such times in a notice posted so as to be visible to the employee concerned together with the next previous notice concerning such times.

(iv) Every fixation of starting and finishing times shall be made in respect of a period which shall not be less than a week in length.

(7) **MEAL INTERVALS.**—(a) Employees shall be granted one hour for lunch on a full working day between noon and 2 p.m.

(b) Employees called upon to start work before 7 a.m. shall be allowed one hour for breakfast to commence before 10 a.m.

(c) Meal intervals, where allowed, shall not be counted as part of the daily or weekly hours worked.

(8) **OVERTIME.**—All time worked—

(a) in excess of 44 hours per week;

(b) in excess of 9 hours on five days of the week and 5½ hours on the day on which the ordinary hours of work are fixed to finish not later than 12.30 p.m.; or

(c) before the fixed starting time or after the fixed finishing time; shall be paid for at overtime rate, namely, time and a half.

No employee shall be called upon to work overtime after 7 p.m. without a break of one hour or payment of 2s. tea money.

(9) **HOLIDAYS.**—(a) The following days or the days observed in lieu thereof, except for the unavoidable delivery of small goods, shall be holidays and shall be paid for as though worked:—

New Year's Day, Australia Day, Good Friday, Easter Monday, Anzac Day, Labour Day, King's Birthday, Christmas Day, Boxing Day and Union Picnic Day.

For work done in the delivery of small goods on these days, time and a half rates shall be paid after 9.30 a.m., but on Good Friday after 11.30 a.m.

(b) On any such holidays except Christmas Day, Anzac Day and Union Picnic Day, employees except those engaged in the making of small goods if required shall work without extra payment for not more than two hours but on Good Friday for not more than four hours.

(c) If an employee is dismissed within fourteen days before any of the holidays abovementioned and is re-engaged within fourteen days after any of the holidays abovementioned he shall be deemed to have been dismissed for the purpose of evading payment for such holidays and any payment so evaded shall be due and payable to the employee.

(d) For any work done on holidays except as provided in the preceding sub-clauses of this clause double time shall be paid.

(10) **SUNDAY WORK.**—All work performed on Sundays except attention to horses or other live stock shall be paid for at double rates. For attention to horses or other live stock on Sundays ordinary rates shall be paid.

(11) **PAYMENT OF WAGES.**—(a) Wages due under this determination to a weekly employee shall be paid in cash not later than Thursday in each week.

(b) Employers may, if they so desire, keep two days' pay in hand.

(c) Where the services of an employee are dispensed with all wages owing to him shall be paid to him on the day of dismissal.

(d) Wages due under this determination to a casual employee shall be paid immediately on the termination of work on each day on which he is engaged.

(12) **TIME BOOKS.**—(a) Each employer at each place at which he carries on business under this determination shall provide a time book or time sheet in which each day's hours of work of each employee shall be entered (including overtime, if any), and the wages received each week; such entries shall, at least once a week, be vouched for by the signature of the employer or his representative.

(b) The time book or time sheet so entered and vouched for if countersigned by an employee representing the Union of employees shall be evidence of the time actually worked by an employee for all purposes under this determination, including overtime.

(c) The time book or time sheet, shall, on demand, be produced by the employer for inspection at the place where it is kept at any time between 10 a.m. and 4 p.m. Monday to Thursday inclusive and between 10 a.m. and 1 p.m. on Friday to an official of the Australasian Meat Industry Employees Union who has been authorized, in writing, to inspect the same by the general secretary or the secretary of a State branch of the said Union; or to an official of the Master Butchers Meat and Allied Trades Federation of Australia who has been authorized, in writing, to inspect the same by the general secretary or the secretary of a State branch of the said Federation.

(d) An inspection shall not be demanded unless the secretary of the Union or Federation or the district secretary or organizer of any division of the Union or Federation suspects that a breach of this determination is being or has been committed.

(e) Only one demand for such inspection shall be made in any one fortnight at the same establishment and no inspection shall be demanded on a Saturday.

(f) The official making an inspection shall be entitled to take a copy of entries in the time book or time sheet relating to the suspected breach of this determination.

(13) **RIGHT OF ENTRY.**—A duly accredited representative of the Australasian Meat Industry Employees Union shall have the right to enter employers' premises during the meal hour for the purpose of interviewing employees on legitimate Union business on the following conditions:—

(a) that he produces his authority to the manager or such other person as may be appointed by the employer;

(b) that he interviews employees only at the place where they are taking their meal;

(c) that not more than one representative visits the premises at any one time;

(d) that not more than one representative visits the same premises more than once in a week; and

(e) that if any employer allege that a representative is unduly interfering with his business or is creating disaffection amongst his employees or is offensive in his methods or is committing a breach of any of the previous conditions such employer may refuse the right of entry.

(14) **ENGAGEMENT.**—(a) Except in casual employment, all employment shall be by the week. An employee, to become entitled to payment on a weekly basis, shall perform such work as the employer shall from time to time require on the days and during the hours usually worked by the class of employee affected.

(b) Employment other than casual shall be terminated only by a week's notice on either side, and such notice may be given at any time during the week. This shall not affect the right of an employer to dismiss an employee without notice for malingering, inefficiency, neglect of duty or misconduct, in which case wages shall be paid up to the time of dismissal only, or to deduct payment for any day on which an employee cannot be usefully employed because of any strike or through any breakdown of machinery, or any stoppage of work by any cause for which the employer cannot reasonably be held responsible.

(c) An employee not attending for duty shall lose his pay for the actual time of such non-attendance unless he produces or forwards to his employer, within twenty-four hours of the commencement of such absence, evidence satisfactory to the employer that his non-attendance is due to personal accident arising out of and in the course of his employment or to personal ill-health necessitating such absence.

Provided that an employee shall not be entitled to payment for non-attendance on the ground of personal accident or personal ill-health or both, for more than six days in each year. An employer may by agreement with any employee grant such employee a clear week's holiday on full pay in lieu of payment for absences through sickness.

For the purposes of this clause the period between the coming into operation of this clause and the 1st day of July, 1940, shall constitute a year, and thereafter each year shall commence on the 1st day of July.

(15) **MIXED FUNCTIONS.**—Where an employee performs on any day functions of a mixed character, he shall be paid for that day the wage rate applicable to the function for which the highest rate is payable.

(16) **LEAVE TO ATTEND UNION BUSINESS.**—Leave of absence from work to attend any Union business shall be allowed by the employer to any employee member of the Australasian Meat Industry Employees Union named by such Union, provided fair and reasonable notice is given to the employer. Provided also that such leave shall be restricted to one employee at a time in the employment of any one employer and such employee shall not be entitled to payment for the time he is so absent from his employment.

(17) **MISCELLANEOUS PROVISIONS.**—(a) The employer shall provide boiling water for the use of employees at meal times.

(b) First aid appliances and requisites shall be provided free of cost by employers for the use of employees meeting with injuries while on duty.

(c) The employer shall provide for his employees reasonable facilities for the taking of meals and changing of clothes.

(18) **POSTING DETERMINATION.**—A copy of this determination shall be posted up by the employer in a conspicuous place, accessible to all employees.

(19) **PERIODICAL ADJUSTMENT OF WAGES.**—The wages rates set out in clause (3) are based upon the following basic wage and pursuant to and in accordance with the provisions of section 21 of the *Factories and Shops Act 1934*, the Board hereby determines that such rates shall be automatically increased or decreased by the same amount and at the same time as such basic wage. Provided that the wages of apprentices and improvers above 21s. shall be adjusted proportionately to adjustments of the basic wage, such adjustments to be to the nearest 6d., half or less than half of 6d. to be disregarded.

The basic wage shown hereunder shall be adjusted as prescribed in clause 20.
