STATE ELECTRICITY COMMISSION OF VICTORIA.

LICENSING OF ELECTRICAL MECHANICS REGULATIONS.

PURSUANT to the powers in that behalf conferred by the State Electricity Commission Acts, the State Electricity Commission of Victoria, with the approval of the Governor in Council, doth hereby make the following Regulations for or with respect to the examination and licensing of electrical mechanics and prescribing forms of licences, that is to say:—

Citation and Coming into Operation of Regulations.

1. These Regulations may be cited as the Licensing of Electrical Mechanics Regulations, and shall come into force on the date of the publication thereof in the *Government Gazette*.

Repeal of Prior Regulations.

2. The Licensing of Electrical Mechanics Regulations 1934, two amendments thereof published respectively in the *Government Gazette* on the 4th September, 1935, and the 7th December, 1938, and the Licensing of Electrical Mechanics Regulations (Forms of Licences) Regulations 1934 are hereby repealed: Provided that this repeal shall not create or discharge liability in any person in respect of any act, matter, or thing done, suffered, or omitted before the commencement of these Regulations, and the holder of a licence or a permit of any Grade A, B1, B, or C under such repealed Regulations shall be deemed to be the holder of a licence or, respectively, a permit of the corresponding Grade A, B1, B, or C under these Regulations; and any reference in any Regulations to the holder of a licence under Regulations hereby repealed shall be deemed to include a reference to the holder of a licence under these Regulations.

Definitions.

3. In these Regulations, unless the context otherwise requires, the following terms shall have the meanings given to them hereunder, namely:—

“Apprentice” shall mean an apprentice to the trade of electrical mechanics, and shall include an applicant for apprenticeship employed on probation.

“Approved school” shall mean a technical school of the Education Department of Victoria approved by the Commission as having equipment necessary for giving instruction in electrical wiring in accordance with the syllabus of the said Department and for the proper conduct of its annual examinations in electrical wiring.

“Commission” shall mean the State Electricity Commission of Victoria.

“Commission’s examination” refers to an examination conducted by the Commission under these Regulations or Regulations hereby repealed.

“Electrical installation” shall mean any appliances, wires, fittings, or other apparatus placed in on or over any premises and used for or for purposes incidental to the conveyance, control, or use of electricity supplied or intended to be supplied by the Commission or any undertaker, and whether such appliances, wires, fittings, or apparatus are or are not supplied by the person contracting or undertaking to install the same, and includes additions, alterations, and repairs to an electrical installation, but does not include—

(a) any electricity supply main or service line of the Commission or any undertaker;

(b) any appliances, wires, fittings or apparatus connected to and beyond any electrical outlet socket which is installed for the purpose of connecting portable electrical appliances, fittings, or apparatus and at which fixed wiring terminates; or

(c) any appliances, wires, fittings, or apparatus which are placed in, on, or over any premises owned or occupied by the Commission or any undertaker, and which are not used for the consumption of electricity on such premises or solely for purposes incidental to the conveyance or control of electricity so consumed.

“Electrical mechanic” shall mean a person who carries out or engages in electrical wiring work.

“Electrical wiring work” shall mean any actual physical work of installing an electrical installation or the supervision of such work.

“Holder of a licence” shall be deemed to refer to a person to whom a licence has been issued in manner provided by these Regulations.

“Wiring Regulations” shall mean the Regulations for the time being in force made under the State Electricity Commission Acts prescribing the quality of materials, fittings, and apparatus to be used in or for purposes of or for connexion to electrical installations, and the methods to be followed in carrying out electrical wiring work and in installing such materials, fittings, and apparatus.

Penalty for Working Otherwise than in Conformity with Licence.

4. Every person who, being the holder of a licence of a particular grade, carries out or engages in electrical wiring work of a kind or in a manner otherwise than in conformity with the authority conferred by such licence, shall be guilty of a breach of these Regulations, and shall be liable to a penalty not exceeding Ten pounds.

Grades of Licences.

5. There shall be four grades of licences, namely, a “C” grade, a “B” grade, a “B1” grade, and an “A” grade.

Qualifications for “C” Grade Licence.

6. A “C” grade licence may be issued to any person under the age of 21 years who is employed as an apprentice by any person to engage in electrical wiring work under the direct and continuous personal supervision of a holder of an “A,” a “B1,” or a “B” grade licence: Provided, however, that a “C” grade licence shall not be granted to any such person to engage in electrical wiring work in the Metropolitan District or in any other district to which, under section 5 of the *Apprenticeship Act 1928*, the provisions of that Act in relation to the apprenticeship trade of electrical mechanics extend, unless a certificate of qualification to enter into apprenticeship in that trade has been issued to him by the Apprenticeship Commission of Victoria.

Supervision of Holder of “C” Grade Licence.

A “C” grade licence shall, subject to any conditions endorsed thereon pursuant to these Regulations, entitle the holder thereof to carry out electrical wiring work under the direct and continuous personal supervision of a holder of an “A,” a “B1,” or a “B” grade licence, and not otherwise, and only while in the employment of an employer whose name is stated on the licence.

Qualifications for “B” Grade Licence—Authority Conferred by “B” Grade Licence.

7. A “B” grade licence may be issued to any person over the age of 21 years—

(i) who has been engaged in electrical wiring work for a period of at least five years, and has passed the examination or examinations prescribed by the Commission under these Regulations or the Regulations hereby repealed; or

(ii) who has a certificate or certificates issued by or under the authority of the Education Department of Victoria that he has successfully completed a course or passed an examination or examinations listed in Table I. of the second schedule to these Regulations, and who has been engaged in electrical wiring work for the period respectively prescribed in the said Table I. as qualification required in addition to such course, examination, or examinations, and (subject, however, to the proviso hereinafter contained for exemption therefrom) has also passed the Commission’s “B” grade practical wiring examination;

and shall, subject to any conditions endorsed thereon pursuant to these Regulations, entitle the holder thereof to carry out or engage in electrical wiring work under the supervision of the holder of an “A” grade licence, and not otherwise, except that he shall be entitled to carry out under the supervision of the holder of a “B1” grade licence electrical wiring work for the utilizing of electricity at a pressure of not more than 250 volts, and for the conveyance or control of electricity so to be utilized where the maximum pressure between any conductors does not exceed 500 volts.

Provided, however, that the Commission may grant exemption from its “B” grade practical examination to any person who under alternative 2 or 3 in Table I. aforesaid has passed the theory and practical examinations in electrical wiring at a school which has prior to his so passing been approved by the Commission as an approved school.

Qualifications for “B1” Grade Licence—Authority Conferred by “B1” Grade Licence.

8. A “B1” grade licence may be issued on application therefor to any person over the age of 21 years who is qualified to receive a “B” grade licence, and who—

(i) has obtained at least 75 per cent. of the possible marks in both the Commission’s “B1” grade theory and “B” grade practical wiring examinations; or

* Sub-section (3) of section 19 of the *State Electricity Commission of Victoria Act 1928*, as amended by the *State Electricity Commission Act 1934*, enacts that—

“Any person who carries out or engages in electrical wiring work shall, unless he is licensed as an electrical mechanic pursuant to this section, be liable to a penalty of not more than Twenty-five pounds.”

- (ii) has a certificate or certificates issued by or under the authority of the Education Department of Victoria that he has successfully completed the Diploma course in Electrical Engineering commenced after 1st January, 1925, or has obtained credit passes in Grades I. and II., electrical wiring—trade theory and practice—in a course or examinations listed in Table I. before-mentioned, and also (subject, however, to the proviso hereinafter contained for exemption therefrom) has obtained at least 75 per cent. of the possible marks in the Commission's "B" grade practical wiring examination;

and shall, subject to any conditions endorsed thereon pursuant to these Regulations, entitle the holder thereof to perform under the supervision of the holder of an "A" grade licence all electrical wiring work which may be carried out by the holder of a "B" grade licence, and also to perform without the supervision of the holder of an "A" grade licence any electrical wiring work for the utilization of electricity at a pressure of not more than 250 volts, and for the conveyance or control of electricity so to be utilized where the maximum pressure between any conductors does not exceed 500 volts.

Provided, however, that the Commission may grant exemption from its "B" grade practical wiring examination to any person who under alternative 2 or 3 in Table I. aforesaid has passed with credit the theory and practical examinations in electrical wiring at a school which has prior to his so passing been approved by the Commission as an approved school.

Qualifications for Holder of "A" Grade Licence—Authority Conferred by "A" Grade Licence.

9. An "A" grade licence may be issued to any person over the age of 21 years who—

- (i) has been engaged in electrical wiring work for a period of at least seven years and has passed the examination or examinations prescribed by the Commission under these Regulations or the Regulations hereby repealed; or
- (ii) has a certificate or certificates issued by or under the authority of the Education Department of Victoria that he has successfully completed a course or passed an examination or examinations listed in Table II. of the Second Schedule to these Regulations, and has been engaged in electrical wiring work for the period respectively prescribed in the said Table II. as qualification required in addition to such course, examination, or examinations, and (subject, however, to the proviso hereinafter contained for exemption therefrom) has also passed the Commission's "B" and "A" grade practical wiring examinations;

and shall, subject to any conditions endorsed thereon, pursuant to these Regulations, entitle the holder thereof to carry out or engage in every class of electrical wiring work.

Provided, however, that the Commission may grant exemption from its "B" and "A" grade practical wiring examinations to any person who, under alternative 2, in Table II. aforesaid, has passed the theory and practical examinations in electrical wiring at a school which has prior to his so passing been approved by the Commission as an approved school.

Responsibility of Holder of Licence.

The holder of a "B" or of a "B1" or of an "A" grade licence shall not in relation to any electrical wiring work which he carries out or engages in or is employed to carry out or engage in, do or omit or permit any person who is employed to carry out or engage in electrical wiring work under his supervision to do or omit anything in contravention of the State Electricity Commission Acts or the *Electric Light and Power Act 1928*, or any Regulations made under any of the said Acts, and if he does or omits or permits any such person to do or omit any such thing, shall be liable to a penalty not exceeding Ten pounds and not exceeding the penalty (if any) enacted for such contravention of the relevant Act or Regulation.

Responsibility of Holder of Licence for Notices, &c., to be Given.

11. The holder of an "A" and the holder of a "B1" grade licence by whom or under whose supervision any electrical wiring work is being carried out or in which he is engaged shall, unless by Regulation made under sub-section (5) of section 6 of the *State Electricity Commission Act 1934*, such notices or consents are required to be given or obtained by an electrical contractor, duly give or cause to be duly given all notices and obtain or cause to be obtained all consents that may be required by any law to be given to or obtained from supply authorities, municipal councils, and other persons and bodies in respect of any such electrical wiring work carried out by him or under his supervision or engaged in by him.

APPLICATION FOR LICENCES.

Application for "C" Grade Licence.

12. (a) Application for a "C" grade licence shall be made on the form provided therefor by the Commission, and the applicant shall complete the said form and make the statutory declaration contained therein verifying the testimonials enclosed with his application and the information set out in the said form. An applicant who is employed in the metropolitan district or any other district to which the provisions of the *Apprenticeship Act 1928*, in relation to the apprenticeship trade of electrical mechanics apply, shall also forward with his application or produce to the Commission the certificate of qualification issued by the Apprenticeship Commission of Victoria to enter into apprenticeship in the said trade. Prices, which must be expressed in words as well as in figures, and without alterations, erasures, or discrepancies, must be per ton of 40 cubic feet, including delivery and all charges.

Tenders, which must be upon the printed form, will be received for one or more of the above-mentioned places, and tenders for such places may be accepted separately; any of the lengths of wood stipulated may be tendered for and may be accepted separately.

Tenderers must specify the kind or kinds of firewood offered.

Telegrams, or tenders not complying with the terms of advertisement, will not be entertained.

No security will be required.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to again hold contracts for Government supplies.

Tenders must be enclosed in an envelope, marked "Tender for Firewood at" as the case may be, and deposited in the Tender-Box, Tender Board Offices, Gisborne-street, Melbourne, C.2; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Tender Board Offices, Gisborne-street, Melbourne, C.2.

The lowest or any tender will not necessarily be accepted.

Acceptance of tenders will be notified in the *Government Gazette* and by letter to successful tenderers.

CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. All the firewood supplied under these contracts must be split out of large timber, must be perfectly sound, dry, and of the kind or kinds specified in the tender; neither burnt wood, heartwood, small branches, nor outside pieces of bark will be received. The billets must be not less than 4 inches nor more than 6 inches in diameter, and the long wood to be not less than 9 inches nor more than 18 inches in diameter. Delivery to be made on the written order of the authorized officer of the Department requiring the supply. The ton of firewood consists of 40 cubic feet. If the firewood be obtained from a State Forest Timber Reserve, or ordinary Crown lands, persons cutting or removing same must be provided with a licence or permit from the Forests Commission. Messmate wood will not be accepted.

3. Orders will be issued half-yearly (except in cases where the storage is small, when they will be issued quarterly).

4. The contractor will be bound to place the firewood in stacks for measurement in such places as may be directed by the officer receiving the supply. The stacks are to be 2 feet wide (or 5 feet for long wood) by 5 feet high, with space between each stack for measuring; and the billets (or lengths) are all to lie the same way, viz., crossways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack, and to the satisfaction of the officer receiving the supply. In the event of any inconvenience being caused, either through delay in delivery or of stacking the wood, or failure to stack the wood in the places directed, the Department concerned will purchase elsewhere or re-stack that delivered, at the risk of the contractor, from whose account any expense incurred thereby will be deducted, provided that the contractor shall be given 48 hours' notice before purchases are made or the wood re-stacked at his risk.

5. The officer receiving the supply shall have full power to reject any wood which he may consider not in accordance with the contract, notice of which will be given to the contractor in writing, stating the reason. The contractor may, however, claim a survey; but in that case he must, within 48 hours after objection is made, give notice thereof in writing to the officer rejecting the wood.

6. The board of survey will be composed of persons appointed by the Tender Board, and the decision of the board of survey is to be considered as final.

7. If the board of survey shall decide that the supply is not of proper quality, it must be immediately replaced by the contractor; failing which, it will be procured elsewhere, and the extra expense incurred thereby, if any, will be deducted from the contractor's account.

8. Accounts for firewood shall be rendered to the Department receiving the supply immediately upon completion of the order, which must be attached to the account. Payment will be made through the Treasury, Melbourne.

9. In the event of any irregularity on the part of the contractor being repeated, it will be competent for the Government, in case such irregularity should be established to the satisfaction of the Tender Board, to cancel the contract forthwith.

10. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.

11. Under no circumstances will a contractor be permitted to abandon his contract.

Melbourne, 28th July, 1941.

Treasurer.

In the event of tenderers withdrawing or attempting to withdraw their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender.

The lowest or any tender will not necessarily be accepted.

Tenders, enclosed in a separate envelope, and having the words "Tender for Firewood at ——" (as the case may be) written thereon, must be deposited in the Tender-box at the Tender Board Offices, Gisborne-street, Melbourne, C.2, or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Tender Board Offices, Gisborne-street, Melbourne, C.2, which office they must reach not later than by first post on the date of closing of tenders.

CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated in the schedule, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. Under these contracts firewood may be ordered by Commonwealth Government Departments and head teachers of State schools within the areas prescribed, but it shall be optional on the part of the contractor to supply.

3. All the firewood supplied under these contracts must, with the exception of box blocks and wattle, be split out of large timber, and of the kind or kinds specified in the schedule, and must be dry, perfectly sound, and of good burning quality, and cut into billets of the lengths stated in the schedules, such billets to be not less than four inches nor more than six inches in any diameter. The long wood to be of the diameters as specified in the respective schedules. Neither burnt wood, heart wood, small branches, nor outside pieces of bark will be received. Box blocks must be the best of their kind, dry, and perfectly sound. If the firewood is obtained from a State forest timber reserve or Crown lands, persons cutting and removing same must be provided with a licence or permit from the Forests Commission.

4. The orders will be issued by the departments requiring the supplies, and the firewood shall be delivered as may be directed by the officer ordering the supply. Should an order not be complied with within forty-eight hours it will be competent for the department concerned to purchase the firewood at the contractor's risk, and the extra expense (if any) over and above the contract price will be deducted from the contractor's account or from the security money.

5. Melbourne District will include a radius of six miles from the Elizabeth-street (Melbourne) Post Office.

6. The contractor will be bound to place the firewood in stacks for measurement on such ground as may be pointed out. The stacks are to be five feet high, and of the width specified in the schedule, with space between each stack for measuring; and the billets or lengths are all to lie the same way, viz., crossways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack, and to the satisfaction of the officer receiving the supply.

7. The acceptance of the firewood shall be subject to the approval of the officer authorized to take delivery. If after the delivery of the firewood has been taken any deficiency or defect is discovered therein, such firewood may be returned to

the contractor. In case of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the firewood so rejected or returned.

8. As soon as the orders shall have been completed the contractor will be required to furnish to the department concerned his account in the prescribed form, with the receipted delivery order attached thereto. Accounts will be payable where the contractor may desire.

9. In the event of a difference of opinion as to the quality between the contractor and the officer receiving the firewood, the same shall be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered as final.

10. If the board shall decide that the wood is not of proper quality it must be immediately replaced by the contractor, failing which it will be procured elsewhere and the extra expense (if any) will be deducted as in condition 4.

11. If from any cause injury would accrue to the public service by waiting for a board of survey, the head of the department or the officer authorized to accept delivery will have the power to reject such wood as is deemed of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must supply firewood of satisfactory quality and description in its stead, failing which supplies will be procured elsewhere, and the extra expense (if any) will be charged as in condition 4.

12. A refusal to execute orders, irregularity in the quality or quantity of the firewood, or delay in delivering or replacing it when required, will subject the contractor to such mulet, not exceeding £50, as the Treasurer of the State for the time being may direct; and the amount may be deducted as in condition 4. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith.

13. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.

14. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure, and may be disqualified from tendering or holding any future contract or contracts for a period of twelve months from the date of such disqualification.
