REGULATIONS.

AMENDING REGULATIONS RELATING TO DAIRY PRODUCE.

IN pursuance of the powers conferred by the Milk and Dairy Supervision Acts, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby make the following Regulations (that is to say) :—

The Regulations made under the above-mentioned Acts on the 12th February, 1924, as amended, are hereby rescinded and the Regulations made on the 7th November, 1932, as amended, are hereby further amended as follows :—

(a) In Regulation '3. Interpretation of Terms—

(I) After the expression "Officer" delete the words "includes Inspecting Officer" and substitute in lieu thereof the words "means any officer appointed under the Milk and Dairy Supervision Acts".

(II) After the definition of "Acts" add the following definition :—

"Approved" means approved by an officer.

(III) After the definition of "Creamery" add the following definition :—

"Dairy" means any premises (not being solely a dairy farm or factory) where milk is kept for sale or where any dairy produce is prepared for sale and includes a house trade dairy, a milk shop and a milk depot.

(IV) After the definition "Dairy Farm," add the following definitions :—

"Dairy farmer" means the owner of a dairy farm;
"Dairyman" means the owner of a dairy.

(V) After the definition of "Grader" add the following definition :—

"House trade dairy" means any dairy which in the opinion of an officer is not constructed or equipped for the treatment or bottling of milk and whereat milk only is kept for sale and includes any house trade dairy specified as such under the Milk Board Acts.

(VI) After the definition of "Mark" add the following definitions :—

"Metropolis" means the municipal districts as defined under the *Milk and Dairy Supervision Act 1943* (No. 4997).

"Milk" means anything purporting to be milk.

"Milk depot" means any premises prescribed as a milk depot under the *Milk and Dairy Supervision Act 1943* (No. 4997).

"Milk Shop" means any dairy which in the opinion of an officer is not constructed or equipped for the treatment or bottling of milk and wherein other commodities are kept for sale and includes any milk shop specified as such under the Milk Board Acts.

(VII) After the definition of "Package" add the following definitions:—

"Pasteurization" when used in relation to milk intended for human consumption means the process of heating every particle of milk once only to

(a) 145 deg. Fahrenheit and holding at such temperature for at least 30 minutes, or

(b) 162 deg. Fahrenheit and holding at such temperature for at least 15 seconds,

in equipment approved by the Superintendent of Dairying and immediately afterwards cooling to a temperature not greater than 38 deg. Fahrenheit.

"Pasteurize" and "Pasteurized" shall have a corresponding meaning.

"Production" includes manufacture, storage, treatment, preparation or other handling of dairy produce, and "produced" has a corresponding meaning.

(b) Delete Regulations 55 to 95 inclusive, and substitute the following Regulations in lieu thereof:—

Buildings—Construction, Equipment, Drainage, &c.

55. Every dairy farmer shall provide an approved milking shed containing such cowbails as shall be deemed necessary by an officer, and shall cause same to be lighted, ventilated and walled to the satisfaction of an officer and covered with a weather-proof roof at least 8 feet above the floor level. He shall cause the floor of the milking shed to be formed of a durable non-absorbent material, laid in such a manner as to be watertight and graded with a slope to an approved drain continued to a distance of at least 30 feet beyond the confines of the milking shed.

56. Every dairy farmer shall provide such holding yards or bailing yards as may be deemed necessary by an officer. Each holding yard and bailing yard shall be paved concreted or otherwise surfaced with approved material so that the cows may be held as far as practicable free of mud, dust or other similar contaminant. He shall also provide such approaches to, and exits from the holding yard, bailing yard and milking shed as are deemed satisfactory by an officer.

57. No dairy farmer shall use the milking shed for the cooling aeration separation treatment or storage of milk or cream, or for the cleansing and storing of utensils or receptacles used in the production of dairy produce, when such utensils or receptacles are not in actual use. For these purposes, he shall provide an approved additional dairy building or buildings as may be required by an officer and each building shall be covered with a roof that is waterproof. Each building shall be provided with a smooth tight ceiling at least 8 feet above floor level, and shall be walled, lined, lighted, ventilated and rendered fly and vermin proof to the satisfaction of an officer. The floor shall be formed of a durable nonabsorbent material laid in such a manner as to be watertight, and of even surface and graded with a slope so as to be effectively drained to an open drain of such a width as to be able to be swept with a broom, and continued to a distance of at least 30 feet from the confines of such buildings.

58. No dairy farmer shall use any building or room for the cooling aeration separation treatment or storage of milk or cream, unless such building or room is at least 6 feet from the milking shed. Where such building or room is under the same roof as the milking shed, there shall be between it and the milking shed, an unobstructed spacing walled on both sides throughout the width and height of the building, but open to the outer air at both ends, and not less than 6 feet wide throughout.

59. Every owner of a dairy, factory, or store shall provide such building or buildings as may be required by an officer. Each building shall be of approved design dimension material and construction as determined by an officer according to the class and volume of trade carried on thereat.

60. Every owner of a dairy farm, dairy, factory or store shall provide thereat such equipment for the production of dairy produce or for the cleansing and sterilization of all receptacles, appliances and articles, used in such production, as in each case is deemed necessary by an officer according to the class and volume of trade carried on at such dairy farm, dairy, factory or store.

61. Every owner of a factory, store or dairy shall provide an impervious watertight smooth and free-draining floor in every building or structure used in the production of dairy produce.

62. Every dairy farmer and every owner of a factory, store or dairy shall ensure that all drains from any building or structure used in the production of dairy produce shall be of an impervious nature and adequately graded and shall be maintained in a clean and wholesome condition. All drains shall be placed and directed as may be required by an officer. No drainage effluent or seepage which in the opinion of an officer is likely to have a deleterious effect on dairy produce, may be permitted to remain in the proximity of, flow toward, or to approach any building wherein dairy produce is produced.

63. Every dairy farmer and every owner of a factory, store or dairy shall ensure that all buildings used in connection with the production of dairy produce, together with the fittings and fixtures and appliances therein, shall be kept in a clean and wholesome condition. All approaches to, and yards and surroundings of such buildings shall be kept in a similar condition.

64. Every dairy farmer shall cause the whole or any part of the milking shed or other dairy buildings to be limewashed, or treated in other equivalent manner at such time as may be required by an officer. Provided that limewashing shall not apply to any parts of the ceiling, roof or wall which are properly painted or varnished or constructed of, or covered with any material that would render limewashing unsuitable or inexpedient, and which may be otherwise effectively cleansed.

65. When so required by an officer the owner of any dairy, factory or store, shall cause any structure building room or place used in the production of dairy produce, to be renovated, disinfected, limewashed, painted or cleansed in other manner approved by an officer.

66. No dairy farmer shall use any separator room or milk room, adjacent to the milking shed, the floor level of which separator room or milk room is lower than that of the milking shed, nor use any milking shed the floor level of which is lower than that of the bailing yard and cow yard.

Cleansing of Equipment, Utensils, &c.

67. All utensils, equipment, apparatus, appliances, vessels, vehicles and conveyances used by a dairy farmer or owner of a factory, store, or dairy in the production of dairy produce, shall be such as to permit of being thoroughly cleansed, ventilated and drained. If an officer is satisfied that any such article is not capable of being so cleansed, ventilated, or drained, he may order that its use in connection with dairy produce be ceased, and it shall not be again used for that purpose while in such condition.

68. Every dairy farmer and every owner of a factory, store or dairy, shall cause all parts of receptacles, utensils, appliances, and equipment used in the production of dairy produce, and which come in contact with dairy produce, to be cleansed of all traces of milk, milk-solids or any milk derivative, foreign matter or contaminating substance, and sterilized immediately after each use, and maintained in a clean condition until the next time of use.

69. (a) Every dairy farmer and every owner of a factory, store or dairy shall cause all parts of receptacles, utensils, appliances and equipment used in the production of dairy produce, and which come in contact with dairy produce, to be cleansed and sterilized promptly after each use, first by immersion or flushing in tepid water, then by scrubbing in hot water containing washing soda in the proportion of a heaped tablespoon of soda to 4 gallons of water, and finally by immersion in boiling water or subjection in an efficient manner to steam under pressure for at least 2 minutes, and then drained in an approved manner. Provided that all such articles may be cleansed and sterilized by other method approved by an officer, and provided that reloader milking machines may be cleansed and sterilized in accordance with the approved methods published from time to time by the Department of Agriculture.

(b) When not in use and after cleansing and sterilization, all such articles shall be stored or kept in such a manner as to remain clean and protected from contamination by dust, animals, birds, flies, foreign matter and the like.

70. Any person handling any utensil appliance can bottle or other container which has been cleansed and sterilized shall do so in a manner that will as far as practicable avoid contamination of any part which comes in contact with any dairy produce.

71. Every dairy farmer and every owner of a factory, store or dairy shall provide at all times a supply of suitable water in such quantities and at such temperatures as may be deemed adequate by an officer for any purpose in connection with the production of dairy produce.

72. Every dairy farmer and every owner of a factory, store or dairy shall ensure that all brushware, cloths, troughs or vessels used in the cleansing of receptacles, utensils, appliances or equipment used in the production of dairy produce, or as the case may be, for the washing of cows' teats and udders or the milker's hands, shall be kept in a clean wholesome condition.

73. An apparatus approved by an officer shall be provided by every dairy farmer for the purpose of heating water for the cleansing of dairy utensils and appliances and shall be placed in a position also approved by an officer.

Milk and Cream Cans.

74. Unless made of stainless steel or other material approved by an officer, all cans, utensils, containers or appliances used in the production of dairy produce, shall have tinned or other approved surfaces and every owner of such article shall maintain such tinning to such a degree as will preclude the dairy produce from coming into contact at any time with the base metal. Wherever practicable all receptacles shall be of seamless construction and the owner thereof shall not use any receptacle, the seams and joints of which have not been floated and finished with a smooth surface.

75. The owner of any can used in the supply of milk to the metropolis shall within 6 inches of the top, or on the shoulder thereof, legibly and indelibly stamp into, or engrave his name and address in letters of at least half an inch in height. Its lid shall be marked in a similar manner on the top. On the change of ownership of any can, the can and its lid may not be used in the supply of milk to the metropolis unless and until the previous owner's name and address have been cancelled by the stamping into or engraving of a line not greater in thickness than one-eighth of an inch throughout the length of each.

No person other than the owner may use any such milk can for any purpose whatsoever.

76. No person shall supply milk or cream in a can unless the can in which the milk or cream is contained is fitted with a lid which shall be free from cracks and dents and of such size and in such condition as to fit closely enough to prevent undue spillage and yet be removed with reasonable ease.

77. No person shall use any milk can or cream can as a receptacle for any commodity, substance or liquid other than milk or cream, unless such can is clearly and indelibly marked "Not to be used for milk or cream" and any person using as a receptacle for milk or cream any can so marked shall be guilty of a breach of this Regulation. Provided that a milk can or cream can may be used for the transport of clean water, whey or fresh skim milk without being so marked.

78. (a) No person shall remove whey from any factory in any can which is used for conveying milk or cream unless such whey has been heated to a temperature of 160 deg. Fahrenheit, and every owner of a factory shall cause all such whey to be so heated.

(b) The owner of any such can used in the carriage of whey shall forthwith on the arrival of the whey at its destination empty the can and thereupon cleanse and sterilize it in the prescribed manner.

79. The owner of any milk can or cream can used as a receptacle for skim milk shall cleanse and sterilize such can in the prescribed manner before he again uses it in the supply of milk or cream.

80. Every owner of a factory, store, or dairy who receives milk or cream in a can, shall forthwith cause the contents of such can to be emptied therefrom and the can and its lid cleansed and sterilized in the manner prescribed. The can shall be fitted with its lid and returned to the owner as soon as practicable.

81. No person shall remove from a factory, store or dairy, any can used for the conveyance of milk or cream, unless such can has been cleansed and sterilized in the manner prescribed. Provided that a can may be removed for conveying skim milk or whey from a factory without such cleansing.

82. No person shall take delivery from a factory, store or dairy for return to its owner, any can used in the transport of milk or cream, unless a proper lid is fitted thereon. All cans and lids accepted by any person for return shall be delivered to the owner without unreasonable delay.

83. No person shall use any paper, soap, rag, chewing gum, paint, putty or any substance other than solder, or metal and solder, in any hole or crack in any part of any can container utensil or other appliance used in the production of dairy produce.

84. Where any receptacle has been seized or retained by an officer—

(a) The owner of such receptacle shall be notified of its seizure or retention and the reason therefor.

(b) Provided the owner gives an assurance in writing within one month of such notice that the receptacle will be repaired or otherwise rendered suitable before again being used for dairy produce, or that it will not again be used for dairy produce, as the case may be, the receptacle may be returned to him.

(c) If after such assurance has been given, the receptacle is again used without being repaired or otherwise rendered suitable it shall be destroyed.

(d) If no assurance as provided, be received within the prescribed period, the receptacle shall be destroyed.

A receptacle may be destroyed by perforation or other means which will render it unusable for any dairy purpose.

Any person, who, having given an assurance as herein provided, does not conform to such assurance, shall be guilty of a breach of this Regulation.

Where the content of any seized receptacle is also seized it may be treated with methyl violet or tannate of iron in such a manner as to not destroy its use as an animal (other than human) food.

Milking Machines.

85. No person shall install or cause to be installed, a milking machine except in accordance with a plan submitted to, and approved by the Superintendent of Dairying.

86. No person shall install or cause to be installed any releser milking machine on any dairy farm unless the releser is placed in an approved milk room or separator room.

87. No person shall install an internal combustion or steam engine or any mechanical pulsator drive in any room where dairy produce is stored, cooled, separated or otherwise treated, and no pump may be installed in any such room without the approval of an officer.

88. No owner of a dairy farm shall operate thereon a milking machine unless there is provided and maintained near the milking shed an adequate and suitable supply of water and an approved plant for the boiling of water for the thorough cleansing and sterilization of the machine and its appurtenances. Provided that where the machine is of the releser type the plant shall consist of a steam boiler approved by the Superintendent of Dairying or an electric water heater likewise approved.

89. No person shall install or operate on any dairy farm a milking machine unless such machine complies with the following provisions—

- (a) The vacuum tank shall consist of two easily detachable parts of approximately equal diameter.
- (b) The connections between the vacuum pump and the vacuum tank and the vacuum tank and the releaser shall be so installed and maintained as to be easily detachable and as short as practicable.
- (c) The main milkline, the main airline and the metal part of drop tubes, shall be of brass internally lined with tin or other approved metal, or wholly of other metal or substance, in each case approved by an officer. The releaser and the vacuum tank shall be of well-tinned copper or other approved metal. No iron piping, whether galvanized or not shall be used.
- (d) No bend or curve shall be permitted in any metal piping of a milking machine; where a change of direction is essential it shall be effected by means of a detachable right angled cross of approved design.
- (e) The main milkline and the main airline shall each be fitted with a flushing tap at the furthest point from the releaser.
- (f) The main milkline and main airline shall each have a sufficient fall toward the releaser which fall shall be maintained as regular as possible so as to cause their effective drainage by gravitation.
- (g) All pipes shall be coupled in lengths in an approved manner to enable them to be easily taken down for cleansing. The main milkline and main airline shall be in sections each not more than 8 feet; the metal portion of a drop tube shall be not longer than 5 feet, and no rubber tubing shall be in lengths of more than 4 feet. The main milkline and main airline shall be not less than 1 inch internal diameter. The metal tubing for purely pulsator or master pulsator lines or the metal drop tubes shall be (a) not more than 5 feet in length and not less than five-eighths of an inch internal diameter or (b) not more than 4 feet in length and not less than half an inch internal diameter.
- (h) All taps, claws, unions, pulsators and rubber and other fittings, shall be of a design construction and finish approved by the Superintendent of Dairying and shall be fitted in an approved manner to enable them to be easily taken apart for cleansing.

Provided that nothing in this Regulation shall be held to make compulsory the fitting of a vacuum tank or a releaser.

90. No person shall install, or cause to be installed, any milk lift or any angle in the main milkline of a milking machine without the written approval of the Superintendent of Dairying.

Prevention of Contamination, Deterioration, &c.

91. No person shall use in the production of dairy produce any can, container, utensil, or appliance which is not free from dents or other damage such as would interfere with the easy and thorough cleansing thereof, and which is not in a sound, clean and wholesome condition, and in such a state of repair as to prevent leakage.

92. Every dairy farmer shall provide at the milking shed during the time of milking an ample supply of clean water, receptacles, cloths, soap and towels wherewith to cleanse and dry the teats and udders of the milking cows and the hands of the persons engaged in the milking.

93. Every dairy farmer shall ensure—

- (a) that the under part of the udder of each milch cow shall be kept free of long hair.
- (b) that prior to the milking of each cow all dirt and foreign matter shall be removed from the flanks and udders and the udder and teats properly washed, cleansed and dried by the use of clean water and clean cloths and maintained in a clean condition until such cow has been milked, and
- (c) that the hands of each person engaged in milking are properly cleansed by the use of clean water soap and clean towel immediately before he draws the milk from each cow.

94. Every person who is engaged in the production of dairy produce shall wear clean washable clothing and shall maintain personal cleanliness.

95. Every owner of a dairy farm, factory, store or dairy, shall provide adequate sanitary conveniences, but he shall not erect, use or suffer or permit to be used, any such conveniences within 50 feet of any building where dairy produce is produced or within that distance of any water supply that might become contaminated by seepage or drainage therefrom, unless such conveniences are connected to the sewerage system of a sewerage authority or provided with a septic tank system installed in accordance with the provisions of the Health Act. Every convenience shall have internal dimensions of not less than 3 ft. 6 in. in width, 5 feet in length and 6 feet in height from the floor level to wall plate level and be provided with weatherproof walls and roof of approved materials, a sound floor throughout, and a flyproof pan-stead.

The situation, construction and condition of every convenience shall be subject to the approval of an officer, and every owner of a dairy farm, factory, store or dairy, shall ensure that such sanitary conveniences are used on all necessary occasions.

96. No owner of a dairy farm, factory, store or dairy shall dispose of nightsoil except by:—

- (a) the sewerage system of a sewerage authority;
- (b) a Municipal nightsoil disposal service;
- (c) an approved pit forming a component part of a sanitary convenience and at least 10 feet in depth;
- (d) a septic tank system installed in accordance with the provisions of the Health Act.
- (e) the burial of the nightsoil or anything soiled therewith to a depth of at least 12 inches below the ground-level at a distance of not less than 200 feet from any building used in the production of dairy produce.

The site of any septic tank system or nightsoil disposal area shall be such as to prevent any farm animal from having access thereto, and preclude any drainage or seepage therefrom approaching the aforesaid buildings or contaminating any water supply.

97. Every owner of a dairy farm, factory, store or dairy, shall prevent any nuisance being committed or existing thereon. The premises shall be maintained in such a manner as to prevent the existence of any condition which may cause deterioration of any dairy produce, or which affords a breeding ground for flies, rats or other vermin capable of contaminating dairy produce.

98. No person may use as a dairy farm any premises whereon is living or engaged, any person who is employed in connection with nightsoil or whereon is stored or kept any vehicle receptacle or article used in connection with nightsoil, provided that this Regulation shall not apply with respect to the disposal of nightsoil from the normal sanitary conveniences required on such premises.

99. No dairy farmer may keep or have for use any brewer's grains unless such grains are kept or stored in a fly-proof impervious bin or receptacle constructed in such a manner as to permit of easy cleansing and such bin or receptacle shall not be placed within the milking shed.

100. No owner of a dairy farm, factory, store or dairy shall permit to remain on his premises any stagnant water which by its situation is likely to cause contamination of dairy produce.

101. Every dairy farmer and every owner of a factory, store or dairy shall prevent the pollution of any water storage or supply used in the production of dairy produce. Every tank or other receptacle used for a water supply shall be emptied or cleansed as often as may be necessary to prevent the contamination of any water therein.

102. Every dairy farmer shall prevent his milch cows from having access to impure water, rubbish or refuse.

103. No dairy farmer shall feed or permit to be fed to his milch cows, any musty unsound decayed or unwholesome food which may injuriously affect the milk or health of the cows. If an officer has reasonable grounds for supposing that any cattle-food on the premises is unsound or unfit for use as food, he may require the owner to refrain from feeding such food to any milch cows.

104. No dairy farmer shall permit calves to be housed or kept within 50 feet of any building or structure used in the production of dairy produce.

105. No owner of a dairy farm, dairy, factory, or store shall use as a stable any structure within 50 feet of any building used in the production of dairy produce.

106. No dairy farmer shall permit any swine, fowl or other domestic bird to have access to or frequent any building or structure where dairy produce is produced nor any fowl pen fowl roost or pigsty to be within 150 feet of same.

107. Every owner of a dairy, factory or store shall prevent any swine, fowl or other domestic bird owned by him from being within 150 feet of any building or structure where dairy produce is produced.

108. Every owner of a dairy farm, dairy, factory or store shall prevent any dog, cat or other domestic animal from entering or having access to any room or structure where dairy produce is produced. Provided that this Regulation shall not apply to milch cows in the milking shed.

109. Every dairy farmer shall ensure to the satisfaction of an officer that no cows or other farm animals approach the vicinity of any dairy building whereby any dairy produce treated or stored therein might be deleteriously affected.

110. If in the opinion of an officer the condition, construction or situation of, or material used in any piggery, stable, fowlhouse, or similar building or if any condition whatever under which swine or any other domestic animals or birds are kept or enclosed on premises where dairy produce is produced, is detrimental to the quality of the dairy produce on such premises, the owner shall forthwith make such alteration as may be required by notice in writing.

111. No dairy farmer or owner of a factory, store or dairy, shall permit on his premises any accumulation of manure within 150 feet of any building or structure where dairy produce is produced, unless such manure is enclosed in an impervious fly-proof bin not less than 50 feet from such building.

112. Every person shall for the whole of the time he has the actual possession or custody of any dairy produce, protect such dairy produce, and the receptacles in which it is contained, from the direct rays of the sun, and from contamination by animals, birds, insects, dust foreign matter or other sources of contamination.

113. Every owner of a dairy farm, dairy, factory or store, shall ensure to the satisfaction of an officer that fumes from an engine do not enter any room or building where dairy produce is produced.

114. Except with the written approval of the Superintendent of Dairying, no person may conduct as a dairy farm any premises within 440 yards of a nightsoil depot, abattoir, boiling-down works, building or place where a noxious trade is carried on.

115. Every owner of a dairy farm shall at all reasonable times when so requested by an officer, yard or cause to be yarded all milch cows thereon, in order that they may be examined for disease.

116. No person shall keep in any store any merchandise other than dairy produce except with the approval of an officer.

Transport.

117. No person shall use in the transport of dairy produce any vehicle which is not approved.

118. (a) The owner of any vehicle used in the carriage or delivery of dairy produce, shall ensure that the vehicle is kept clean at all times. No such vehicle shall at any time be used for the carriage of fertilizers, hides, skins, livestock, poultry, pigs or other malodorous animals, things or matter, whereby any dairy produce carried therein may be contaminated.

(b) No person shall use in the transport of dairy produce, any vehicle having an upper deck, unless the floor of such upper deck is of approved material or construction, and has a clearance of at least 9 inches above any receptacle standing on the lower deck and unless the walls and roof of the upper deck provide adequate ventilation and protection of the dairy produce from contamination or deterioration.

119. No person shall transport or cause to be transported on any street, road or thoroughfare, from the first day of September in each year to the thirty-first day of May in the following year, any dairy produce unless such dairy produce and the receptacle in which it is contained are protected by an approved cover from the direct rays of the sun.

Bottles.

120. All bottles manufactured for the holding of milk or cream shall have embossed thereon the word "Milk" or "Cream", as the case may be, in letters of not less than 30 points, and no person may use as a receptacle in connection with the sale of milk or cream, any bottle that is not so embossed.

121. No person shall use as a receptacle for any liquid, commodity or substance other than milk or cream, any bottle which has embossed thereon the word "Milk" or "Cream" as the case may be.

122. No person shall sell any milk or cream in bottles, unless the milk or cream has been bottled at a dairy by means of an approved type of apparatus, and is delivered to the customer in the sealed state in which it leaves such dairy.

123. No person shall fill or partly fill any bottle with milk or cream for sale unless—

- (a) Such bottle has been thoroughly cleansed and sterilized by an approved method.
- (b) The bottle is clean and sterile internally immediately before filling.
- (c) The bottle is sealed in such a manner as to protect the milk or cream therein from contamination by dirt, dust, insects, or any other means.
- (d) The seal is applied to the bottle by means of an approved mechanical appliance and such seal is not touched by the human hand during the process of sealing.
- (e) The seal is clean and is protected from contamination from the time of the opening of the original package in which it is contained to the completion of the sealing process.

"Seal" for the purposes of this Regulation includes any cover used or intended to be used for closing the mouths of bottles containing milk or cream for sale.

Cooling, Temperatures, &c.

124. (a) All milk intended for delivery as milk shall immediately after withdrawal from each cow be removed from the milking shed to the milk room, and efficiently strained through an approved apparatus, adequate for the purpose, and then cooled to a temperature obtainable by being run over an approved and adequate cooler, in the operation of which the coolest water available shall be used.

(b) All milk intended for separation at the dairy farm on which it is produced, shall immediately after withdrawal from each cow be removed from the milking shed to the separator room for separation. The cream shall be cooled direct from the separator to a temperature obtainable by being run over an approved and adequate cooler, in the operation of which the coolest water available shall be used.

(c) Every owner of a dairy farm shall comply with the requirements of the preceding paragraphs of this Regulation in respect of all such milk and cream produced thereon.

125. When so required by an officer every dairyman who receives milk for sale as milk for human consumption shall forthwith on the receipt of such milk cause it to be cooled in an approved manner.

126. Every owner of a dairy in the metropolis or from which milk is sold or distributed in the metropolis shall on receipt of any milk, cause the same to be immediately and efficiently cooled to a temperature not greater than 38 deg. Fahrenheit. Provided that if the milk has already been cooled below 38 deg. Fahrenheit and when received by a dairyman is below a temperature of 48 deg. Fahrenheit further cooling to 38 deg. Fahrenheit or under, shall not be necessary, and provided further that when any dairyman who is also a dairy farmer sells any milk within 2 hours of the time of production the cooling of such milk to a temperature of 38 deg. Fahrenheit or under, shall not be necessary, provided that such milk is the produce of his own cows only.

127. Every dairyman who holds or stores milk, shall hold or store such milk in a cool chamber or in an ice-chest containing ice and no other commodity or substance shall be stored therein without the approval of an officer.

Treatment and Suitability Tests.

128. The following tests may be applied to milk intended, or likely to be used for human consumption as milk, in order to determine its suitability for such purpose—

- (a) Direct microscopic bacterial count according to the method as set out in "*Standard Methods for the Examination of Dairy Products*", published by the American Public Health Association.
- (b) Standard Plate Count according to the method as set out in "*Standard Methods for the Examination of Dairy Products*," published by the American Public Health Association.
- (c) Methylene Blue Reductase Test according to the method as set out in "*Medical Research Council Special Report*," Series No. 206.
- (d) Resazurin Test according to the procedure specified in Form No. C.158/T.P.Y. (British Ministry of Agriculture and Fisheries).
- (e) Coli Test according to the method as set out in "*Standard Methods for the Examination of Dairy Products*," published by the American Public Health Association.

129. In order to determine whether milk has been effectively treated by pasteurization there may be applied thereto the Phosphatase Test according to the modified Kay Graham Neave technique as described in "*Standard Methods for the Examination of Dairy Products*," published by the American Public Health Association.

130. Any milk to which the Methylene Blue Reductase Test has been applied and which decolourizes within 5½ hours shall be deemed unfit for human consumption as milk.

131. Any milk to which the Resazurin Test has been applied and which fails to comply with the standard laid down for Category A. milk in Form No. C.158/T.P.Y. (British Ministry of Agriculture) shall be deemed unfit for human consumption as milk.

132. In order that any receptacle or container may be tested to determine the efficiency of the treatment given thereto to effect sterilization there may be applied the rinse test in accordance with the methods set out in "*Standard Methods for the Examination of Dairy Products*," published by the American Public Health Association. Any article to which such test has been applied and which gives a result of more than one colony per millilitre of capacity shall be deemed to have been inefficiently treated.

Milk Shops and House Trade Dairies.

133. Unless with the written approval of the Superintendent of Dairying, no owner of a milk shop may receive, store or sell thereat any milk except in sealed bottles or other approved containers.

134. No owner of a house trade dairy may keep therein or sell thereat any milk other than in sealed bottles, or other approved containers: Provided that unbottled milk may be sold where an approved apparatus and appliances for the cleansing and sterilizing of all articles used in the storage and sale of milk are installed.

135. No owner of a milk shop or house trade dairy may keep therein or sell thereat, any commodity unless such commodity is approved.

136. Every owner of a milk shop shall provide to the satisfaction of an officer sufficient water under pressure, and drainage and other facilities for the washing of the operatives' hands and the cleansing of all articles used in the sale of milk therein.

137. No owner of a milk shop or house trade dairy shall alter or erect any fixture, fitting, or partition therein without the approval of an officer.

138. No owner of a milk shop or house trade dairy shall sell any milk unless such milk is delivered to the purchaser thereat.

Miscellaneous.

139. If in the opinion of the Superintendent of Dairying, the whole or part of any milking machine, separator, appliance, receptacle or other apparatus used in the production of dairy produce, is unsuitable, by reason of its design, construction or material or is likely to have a deleterious or contaminating effect on dairy produce, no person may use such article for such purpose unless, or until, it is so altered as to meet with the approval of the Superintendent of Dairying. An officer may seize any such unsuitable article.

140. No person shall manufacture or sell, for use in connection with the production of dairy produce, any article, utensil, appliance or part which does not conform to these Regulations.

141. No person shall sell any dairy produce which is not free from dirt or foreign matter or which contains, or has been in contact with, or contaminated by a deleterious body, thing or substance.

142. If a Supervisor is satisfied that any milk or cream inspected by him is unfit for human food, he may add thereto sufficient methyl violet or tannate of iron to render it unsaleable for human consumption, but not unfit for use as a food for animals.

143. If milk to which a prescribed test to determine its suitability for human consumption as milk has been applied, does not conform to the standard of such test, it shall be deemed to be unfit for such purpose and may be seized or coloured with sufficient methyl violet or tannate of iron as to render it unsaleable for human consumption, but not unfit for use as food for animals.

144. No person on any day shall sell any milk that has been withdrawn from the animal earlier than noon of the second day preceding the day of sale.

145. The owner of any premises where dairy produce is produced shall, when so requested by an officer, furnish assistance by information or otherwise in regard to such premises and shall when requested furnish to an officer the name and address of any person supplying dairy produce thereto or receiving dairy produce therefrom.

146. Every owner of, or employee at premises where dairy produce is produced who—

- (a) furnishes any certificate, report, return or account sales, which is not to the best of his knowledge and belief true and correct in all particulars;
- (b) replies falsely to any officer to enquiries which such officer deems necessary to make in the course of his duty or;
- (c) refuses to make available for inspection to an officer the account sales of a factory or dairy for milk or cream sold by, or purchased from him, or otherwise to render reasonable assistance to the officer in the carrying out of his duty;

shall be guilty of a breach of the Act or these Regulations.

147. No person shall use in connection with dairy produce any utensil which has been condemned or until any repairs thereto required by an officer have been effected.

148. No person shall smoke or expectorate in any building, structure, room or place where dairy produce is produced.

149. No dairy farmer shall apply or allow to be applied to the teats of any cow in use for the production of dairy produce for sale, or to any dairy utensil, any poisonous or markedly odourous substance.

150. No person shall sell as pasteurized milk, or label as pasteurized milk, any milk unless such milk is pasteurized as prescribed and—

- (a) gives a negative Phosphatase Test when tested by the prescribed Phosphatase Test Method;
- (b) has a Standard Plate Count of not more than 30,000 organisms per millilitre as determined by the prescribed Standard Plate Count Method;
- (c) is filled into bottles or other approved containers and sealed in an approved manner immediately after the process of pasteurization and delivered to the consumer in such sealed containers;
- (d) has no discernible Coliform bacteria in one millilitre of milk when tested by the prescribed Coli Test Method.

151. No person shall sell for consumption as milk any milk to which has been applied any form of heat treatment other than pasteurization.

152. If after inspection any officer is satisfied that:—

- (a) Any dairy farm, dairy, factory, creamery or store, or vehicle is in an unclean or unwholesome condition, or;
- (b) any utensil, machinery, apparatus or works at any dairy farm, dairy, factory, creamery or store is in an unclean or unwholesome condition; or,
- (c) any animal at a dairy farm is affected with a disease notifiable under section 56 of the *Milk and Dairy Supervision Act 1928*; or
- (d) any person is affected with disease so that any dairy produce is likely to be contaminated; or
- (e) the water used in connection with a dairy farm, dairy, factory, creamery or store is unwholesome—
 he may by writing under his hand addressed to the owner of the dairy farm, dairy, factory, creamery or store, or vehicle, or the consignor of the dairy produce (as the case may be) without further name or description:—
- (f) order such dairy farm, dairy, factory, creamery or store, or vehicle and all such utensils, machinery, apparatus or works (as the case may be) to be forthwith cleansed, disinfected and rendered wholesome, and to be maintained in such cleansed disinfected and wholesome condition;
- (g) order the supply of water to be discontinued and a supply of wholesome water to be used;
- (h) order the removal or isolation of any person affected with disease of a contagious or infectious nature likely to contaminate dairy produce, provided that the officer shall first obtain the certificate of the health officer of the district in which the premises are situated, or some legally qualified medical practitioner that the disease with which such person is affected is a contagious or infectious disease, or a disease or condition proclaimed under section 58 of the *Milk and Dairy Supervision Act 1928*.
- (i) forbid the removal from a dairy farm, dairy, factory, creamery or store, of any dairy produce or any utensils for such time as he thinks necessary.

And the Honorable Norman Angus Martin, His Majesty's Minister of Agriculture in the State of Victoria, shall give the necessary directions herein accordingly.

Printed forms of tender and the conditions of contract may, in all cases, be obtained from the Secretary to the Tender Board, Gisborne-street, Melbourne, by whom also any information or explanation will be afforded to persons tendering.

Tenders must be accompanied by the preliminary deposit, as shown above, preferably by non-negotiable cheque payable to the order of the Secretary to the Tender Board. The amount and designation of the preliminary deposit enclosed must be clearly stated in the tender. Savings Bank deposit books, fixed deposit receipts, Commonwealth Treasury bonds, or reference to securities on existing contracts will in no case be received or entertained as preliminary deposits. Preliminary deposits will be returned within 30 days to unsuccessful tenderers on their application.

Security will be required either in Commonwealth Treasury Bonds, or approved bank guarantee, fixed deposit receipt, Savings Bank deposit book, or non-negotiable cheque in favour of the Secretary to the Tender Board, as the tenderer may elect.

The security must be completed and the contract signed within five days of acceptance of the tender, failing which the service may be again advertised, or another tender accepted.

The lowest or any tender will not necessarily be accepted.

In the event of tenderers withdrawing or attempting to withdraw their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender. It is also stipulated that, if a tenderer be a member of a firm and such firm be interested in the contract, the tender shall be in the name of the firm and not in that of the individual and that, for a breach of this condition, the preliminary deposit will be forfeited and the tender declared informal.

Tenders, enclosed in a separate envelope, and having the words "Tender for at" (as the case may be) written thereon, must be deposited in the Tender-box at the Tender Board Offices, Gisborne-street, Melbourne, or, if sent by post, postage must be prepaid, and the tenders

addressed to the Chairman of the Tender Board, Tender Board Offices, Gisborne-street, Melbourne, C.2, which office they must reach not later than by first post on the date of closing of tenders.

CONDITIONS OF CONTRACT.

The conditions of contract are those published in the Victoria Government Gazette, No. 56, dated 2nd May, 1945, pages 1208 to 1211.

BY-LAW No. 26.

A By-law of the Shire of Rosedale, No. 26, for prohibiting or regulating the use of private property situate at the junction of streets or roads for the growing of trees, shrubs, or hedges, and for requiring the removal or lopping of trees, shrubs, or hedges growing on property so situate.

IN pursuance of the powers contained in the Local Government Acts, and of every other power enabling them in that behalf, the President, Councillors, and Ratepayers of the Shire of Rosedale order as follows:—

1. This By-law shall come into force and operation immediately after its publication in the Government Gazette.

2. This By-law shall apply to and have operation throughout the Shire of Rosedale.

3. In this By-law, unless inconsistent with the context or subject-matter, "Council" means the Council of the Shire of Rosedale.

4. No person shall use private property situate at the junction of streets or roads for the growing of trees, shrubs, or hedges abutting on any such street or road, or within 10 feet therefrom, without first obtaining the permission of the Council so to do.

5. The owner of any property situate at the junction of streets or roads must, when required by the Council, remove or lop any trees, shrubs, or hedges from or on property so situate where such trees, shrubs, or hedges abut on or are within 10 feet of such street or road.

6. Any trees, shrubs, or hedges growing or being on private property so situate which are not removed or lopped as required by or under clause 5 of this By-law may be removed or lopped by the Council at the expense of the owner of such property.

7. Any person doing any act forbidden to be done, or failing to do any act directed to be done by this By-law, shall be guilty of an offence against this By-law, and shall be liable to a penalty of not more than £10.

Resolution for passing this By-law agreed to by the Council on the 25th day of June, 1945, and confirmed the 20th August, 1945.

The common seal of the President, Councillors, and Ratepayers of the Shire of Rosedale was hereto affixed, this 20th day of August, 1945.

THE "VICTORIA GOVERNMENT GAZETTE."

SUBSCRIPTIONS.—The subscription, including Postage, is £1 12s. 6d. per annum, 16s. 3d. half-yearly, or 8s. 2d. per quarter, payable in advance.

Subscriptions are required to commence and terminate with a month.

A lesser period than three months cannot be subscribed for. Subscribers do not receive the Acts of Parliament with the GAZETTE.

ADVERTISEMENTS are charged at the rate of EIGHT PENCE per line single column, and ONE SHILLING and FOUR PENCE per line double column.

The title (£5 Reward, Dissolution of Partnership, &c.) forms one or more lines as a heading.

On an average, eleven words make a line.

Every signature must likewise be counted as a line.

The final words of a paragraph, though only portion of a line, must be counted as one line.

SIGNATURES (in particular) and proper names must be written very plainly in the text; ONE SIDE ONLY of each slip of paper should be WRITTEN UPON.

ALL COMMUNICATIONS should be addressed to "The Government Printer, Melbourne."

ALL DOCUMENTS illegibly written will be returned unpublished, and, where brands occur unprovided for by the ordinary letters of the alphabet, a worded explanatory description must be furnished.

THE VICTORIA GOVERNMENT GAZETTE is published on WEDNESDAY EVENING in each week, and Notices for insertion will be received by the Government Printer at or before Two p.m., at ordinary rates, and late advertisements between Two p.m. and Five p.m. at double rates on the day preceding the day of publication.

Single copies of the VICTORIA GOVERNMENT GAZETTE are Six pence, posted Eight pence, each.

No GAZETTES prior to January, 1934, in stock.

***ALL PAYMENTS ARE REQUIRED IN ADVANCE.—Remittances should be made by postal note, money order, or draft in favour of the Government Printer. Advertisements unaccompanied by a remittance sufficient to cover the cost of insertion will be returned unpublished.
