#### 1. ACTS AND REGULATIONS.

Every surveyor shall be conversant with the *Land Surveyors Act 1942*, *Survey Co-ordination Act 1940*, Land Acts, *Transfer of Land Act 1928*, *Local Government Act 1946* and the Acts enumerated in Schedule 1 and any Act amending the same and any other Act affecting title to land that may subsequently become law and the Regulations made under the said Acts.

#### 2. PERSONAL DIRECTION AND SUPERVISION OF SURVEYS.

Every title survey shall be made by or under the immediate personal direction and field supervision of a surveyor and in strict conformity with these Regulations.

#### 3. EXISTING SURVEY DATA TO BE OBTAINED.

Before commencing a title survey, every surveyor or his representative shall consult the records of the Central Plan Office, the Office of Titles or any other source to which he may be directed by either office and obtain therefrom all relevant information available which may be necessary for the purpose of such survey.

#### 4. NOTICE OF INTENTION TO RE-MARK SURVEYS.

1. A surveyor shall give notice of intention to commence a survey for the purpose of re-marking a title boundary or a lot of a registered plan of subdivision to the Surveyor-General or to the Titles Office Survey Officer.

2. Such notice of intention shall be given in the manner and at the time prescribed by the Survey Co-ordination Regulations.

3. If required the surveyor shall forward a copy of the field notes of such survey to the Surveyor-General or to the Titles Office Survey Officer.

#### 5. SUPPLY OF INFORMATION BY THE SURVEYOR.

The surveyor shall supply all information obtained by him in the field relative to the property under survey, on the field notes and plans prepared for submission to the Department of Crown Lands and Survey or to the Office of Titles.

#### 6. COMPLIANCE WITH REQUISITIONS.

1. The surveyor shall comply promptly with any requisition made by the Surveyor-General or by the Surveyor and Chief Draughtsman in respect of any survey he has made.

2. If compliance with such requisition has not been made or a satisfactory reason for non-compliance therewith given within twenty-eight (28) days of a notification having been posted by registered mail to his last known address, the matter shall be reported to the Board by the Surveyor-General or by the Surveyor and Chief Draughtsman.

#### 7. PERMANENT MARKS AND REFERENCE MARKS.

1. A Permanent Mark shall be—

- (a) a Trigonometrical Station; or,
- (b) a Standard Permanent Mark established or adopted in accordance with the Survey Co-ordination Regulations.

## 2. A Reference Mark shall consist of—

- (a)  $\frac{1}{4}$ -in. galvanized piping not less than twelve (12) inches long; or
- (b) a Standard Survey Mark consisting of a  $\frac{1}{4}$ -in. round iron spike, not less than twelve inches long with a triangular head stamped S.S.M.; or
- (c) subject to departmental approval, any other mark of which the stability, permanence and definiteness may reasonably be considered satisfactory.

## 8. ORIGINAL CROWN BOUNDARIES.

In accordance with the provisions of section 267, *Property Law Act* 1928, every surveyor shall adhere to the lines and corners established on the ground at the time of the original Crown survey, notwithstanding that such pegs, posts or other marks are out of line and the corners out of position according to the original description of the Crown grant. In making a title survey of land the position of which is governed by its relation to a Crown boundary the surveyor shall therefor endeavour to re-establish such boundary. When the original survey marks have disappeared but buildings, walls, fences or other improvements of a permanent nature occupy a position that may be regarded as reasonably in accord with the original Crown boundary, such buildings, walls, fences or other improvements shall be surveyed and submitted to the Surveyor-General for consideration for adoption or to the Surveyor and Chief Draughtsman for the application of the provisions of section 270, *Property Law Act* 1928.

## 9. STANDARD TAPE.

Every surveyor making title surveys shall maintain a tape of a type and in a condition approved by the Surveyor-General for use solely as a standard for purposes of comparison with other standards and field tapes and shall submit such tape to the Surveyor-General for registration, examination and determination of length and thereafter, for purposes of checking, at least once annually and at such other times as may be required.

## 10. DATUM.

1. Every surveyor making a title survey shall take all possible care to verify the datum adopted and shall furnish full details thereof in the field notes. Such datum shall be—

- (a) the alignment of any two adjacent Standard Permanent Marks or reference marks after verification; or
- (b) the road frontage between intersecting roads; or
- (c) such boundary line or lines of an existing title or Crown survey which may be satisfactorily re-established.

2. Such surveyor shall measure—

- (a) the full length of the datum line (except in cases where recorded permanent or reference marks define the terminals thereof and the measurement between them has been verified at least once, and in country surveys when the measurement from the nearest intersecting road and of the frontage of the adjoining property on either side of that under survey will be accepted);
- (b) the offsets from the datum traverse to the occupation at both ends of the datum line and opposite the corners of the land under survey, the road widths at such points and, where such exist, he shall describe and measure to the kerbs and edges of constructed footpaths or channels, provided that when recorded permanent or reference marks have been verified by him, such details may be given on the survey side of the road only.

3. The adopted datum bearing shall accord with information obtained from the records consulted in accordance with Regulation 3.

## 11. FIELD WORK.

1. Every surveyor making title surveys shall, except when making a check survey—

- (a) use a transit theodolite of approved make in accurate adjustment and a steel or invar tape;
- (b) adopt a datum as provided in Regulation 10;
- (c) where a connexion is shown on a title measure such title connexion unless the position of the land can be satisfactorily determined otherwise;

- (d) chain all boundaries and obtain an instrumental close, provided however that should some insuperable difficulty render impracticable the direct measurement or running of any boundary he shall show clearly in his field notes the method adopted to obtain the measurement and/or bearing of such boundary;
- (e) extend any traverse line which has been run to a street intersection, across such street and locate the opposite corners in relation thereto;
- (f) measure the frontages of adjoining properties on either side and obtain such information as will enable comparison to be made with all adjoining titles;
- (g) locate accurately the position of any relevant permanent mark, reference mark, peg or survey mark which he has found in the course of his survey;
- (h) obtain the position of and describe the occupation constituting possession and the definition of the adopted corners, the description of all points measured to, such as peg, post, plinth, base, wall, and the positions of the adopted boundaries relative to the occupation, the position of all gates and other means of access and any natural or artificial features affecting or likely to affect title to the land under survey or land abutting;
- (i) mark all boundaries (adopted by him) of any title survey or of any subdivision made by him with pegs and trenches in accordance with clause (4) of this Regulation;
- (j) connect every title survey to two or more known permanent or reference marks after verification thereof or if there be no such marks within 40 chains of the survey, establish permanent or reference marks of the prescribed kind, which in city, town and suburban areas shall be placed near street intersections in such a manner that traverse lines may be run therefrom along either street.  
Provided that there shall be at least three such marks for every subdivisional survey where the number of lots does not exceed twenty with two additional marks for every twenty lots in excess thereof.
- (k) mark grade lines with wooden pegs of oblong section driven into the ground but showing 3 inches above the surface, and supplying field notes, if required;
- (l) mark curved boundaries on the ground by pegs or other marks in such a manner that the offset from the middle of the chord between adjacent ground marks shall not exceed 1 link nor shall the said ground marks be at greater intervals than 1 chain apart.

2. The working tape shall be compared at monthly intervals with a standard tape and any allowance made for error in length per chain or unit of measurement so ascertained shall be recorded in the field notes and in any certified copy of field notes.

3. The side lines of any new roads shall not be offsetted from a centre line traverse; one side shall be run, the other being offsetted from it, or if necessary also run. Wherever possible an instrumental close shall be obtained.

4. Pegs shall be at least 2 inches square and 12 inches long sawn or split from sound, seasoned, durable timber driven flush with the ground at intervals not exceeding 10 chains and so that any two adjoining pegs shall be inter-visible. Trenches 5 inches deep 8 inches wide commencing 1 foot from each peg shall be dug in the direction of the boundary lines 6 feet long (10 feet in the case of surveys in rural areas) at each road or external boundary angle and 3 feet long on each side of all other pegs in a boundary line. In rural areas trees within 3 feet of unfenced boundary lines and the run side of roads shall be distinctly blazed on the side facing such lines. Provided that when it is found impossible to mark title boundaries with pegs and trenches, the method of marking adopted shall be the most satisfactory which the circumstances permit and shall be subject to departmental approval.

#### 12. CONVENTIONAL SIGNS AND SYMBOLS.

1. The conventional signs and symbols for boundaries, buildings, features, &c., as set out in Schedule E to the Survey Co-ordination Regulations shall be used wherever appropriate on the field notes and plans.

2. The following abbreviations may be used, viz., O.P.T., O.P., O.T., to indicate respectively "old peg and trench," "old peg," "old trench" found during the course of survey and N.P.T., N.P., N.T., to indicate respectively "new peg and trench," "new peg," "new trench," put in to mark the new survey.

"Post" is not to be abbreviated, but written in full.

### 13. FIELD NOTES.

1. Field notes shall be recorded of every title survey preferably in a book in sketch form in a neat and systematic manner, and shall be signed and dated by the surveyor, who shall retain them in his own possession but, if required by the Surveyor-General or the Surveyor and Chief Draughtsman, shall submit them for inspection.

No erasures shall be made but erroneous entries shall be crossed out and amendments made with explanatory notes by the surveyor.

2. The surveyor shall show in the field notes—

- (a) the date both of commencement and of completion of survey;
- (b) all chainages and angular measurements as made in the field, slopes, reduction for slope; corrections for temperature changes; allowance for sag; reduced chainages; traverse lines; offsets, closing angle; bearings of traverse lines, adjustments made in accordance with Regulation 16; chainage of each peg and survey mark, indicating whether such were found or put in by him, astronomical observations, easements and in rural areas, the secants and tangents of road or channel angles, lengths and bearings and chords of curved boundaries, method of setting out curves, method of marking and in general, all details required under Regulations 10, 11 and 12;
- (c) the original bed of a stream carrying a permanent reserve that has changed its course, when it can be defined;
- (d) when bearings or fenced boundaries have been observed direct;
- (e) the method of determining the position of boundaries defined by buildings, party walls or fences;
- (f) the condition and estimated age of fencing or buildings forming boundaries and full details of dates inscribed on buildings or memorials.

3. (a) Measurements shall, as a rule, be given in links and decimals of a link in rural areas and in feet and inches in city, town and suburban areas;

(b) measurements given in feet and decimals of a foot will be accepted in the field notes only, when it is clear that such unit of measurement was used.

### 14. COPY OF FIELD NOTES.

1. The surveyor shall supply a complete copy of the field notes in sketch form on good quality fine paper, foolscap or double foolscap size using black waterproof ink and showing traverse lines or alterations in distinctive colour, preferably orange, which will reproduce, when photographed.

Blue and green colours are not to be used. Specimen copies of field notes are given in Schedules 5 and 6 as samples only, the central space being left for folding when double size paper is used so that risk of rendering figures illegible by creases may be avoided.

Alterations shall be initialled and dated or covered by a minute signed and dated by the surveyor.

2. The surveyor, in forwarding the copy of the field notes, shall take all possible care to ensure that it shall reach the Department of Crown Lands and Survey or the Office of Titles undamaged. If in the opinion of the Surveyor-General or the Surveyor and Chief Draughtsman the copy supplied is illegible or unsatisfactory or unsuitable for reproduction, it shall be rejected and the surveyor shall supply a fresh copy.

3. The copy of field notes shall bear the title description, north point and a certificate in the following form:—

I certify that these field notes consisting of ..... sheets are a correct and complete copy of the recorded observations and measurements made by me or under my immediate personal direction and supervision in the field, that the survey was effected in strict conformity with the Land Surveyors Regulations Part 2, that the standard of accuracy of the survey is class..... and that the survey was completed on the ..... day of ..... 19....

..... Surveyor.  
Licensed under Act 4939.

4. When a copy consists of more than one sheet each sheet shall be numbered consecutively from unity at the top right-hand corner, signed and dated, but the certificate need appear only on the first sheet.

5. When two years have elapsed since the completion of a survey under the Transfer of Land Act the copy of field notes shall also bear the following certificate:—

I certify that these field notes (as amended in.....) correctly represent the occupation and features existing at this date, and that the survey has been brought up to date.

..... Licensed Surveyor.

6. When amendments require the marking or re-marking of any point or points on the ground supplementary field notes shall be supplied showing existing occupations.

7. Amendments to copy of field notes shall be made only by the surveyor or on the written authority of the surveyor whose signature appears on the certificate.

15. CLASSIFICATION OF SURVEYS AND LIMIT OF MISCLOSURE.

1. Every title survey shall be classified in accordance with the provisions of the Survey Co-ordination Regulations and no such survey shall be of any lower classification than is specified hereunder.

Locality.	Classification.
(a) The city of Melbourne .. .. .	C 3
(b) Any city (except Melbourne), borough, town or township ..	D 3
(c) Rural areas .. .. .	E 3

2. Notwithstanding the foregoing—

(a) In any individual line where the limit of error required under this Regulation is less than one quarter of an inch when the measurements are in feet and inches or decimal one of a link when the measurements are in links, an error of one quarter of an inch or decimal one of a link respectively, may be allowed without prejudice to the classification of such survey.

(b) The allowable linear misclosure  $\sqrt{a^2 + b^2}$  (where "a" is the misclosure in latitude and "b" the misclosure in departure) of any area not exceeding 40 acres shall not be more than the amount set out in the following table:—

Areas.	Classification.

.. .. . 30 .. .. . 40 .. .. .	1.0	1.3	2.0

## 16. COMPUTATIONS.

1. For the purpose of computing the linear closure of a surround, the surveyor shall use—

(a) the unadjusted measurements obtained by chainage, corrected for slope, temperature, error in length of chain, sag; and

(b) the bearings obtained in the field, which, however, may be adjusted for angular misclosure of less amount than that permitted under the classification applicable as specified in Regulation 15 (1), by distributing such misclosure among the included angles, provided that the value of any adjusted included angle as calculated from the bearings shown on the copy of Field Notes shall not differ from the observed unadjusted value by more than 20 seconds. Any such adjustment shall be towards showing the bearings to the nearest minute, or in the case of a long line to the nearest half minute.

2. Notwithstanding the foregoing, for the purpose only of calculating the area, any closing error in the computation of the latitudes or departures shall be eliminated by distributing it in accordance with Bowditch's rule, as follows:—

As the total length of the traverse is to the length of each line, so is the whole error in latitude or departure to the correction of the corresponding latitude or departure, each correction being so applied as to diminish the whole error in latitude or departure.

Any such adjustment shall be shown in distinctive colour on the computation sheets.

A specimen computation sheet is given in Schedule 7.

3. When an irregular boundary forming part of a title survey is defined by offsets and insets measured thereto from traverse lines, such traverse lines shall form part of the geometrical figure used in the computation for closure and area. The offsets and insets shall generally not exceed one chain in length and the areas of the portions between the traverse and the irregular boundary are to be computable therefrom, or be taken out by planimeter from a careful plot on an enlarged scale.

4. A copy of the computations for closure and area shall be supplied for every survey made for the purposes of the Department of Crown Lands and Survey and shall also, when required, be supplied for any survey made for the purposes of the Office of Titles.

5. A copy of the recorded readings and calculations of any astronomical observations made in connexion with any survey shall be supplied with the plan and field notes.

## 17. PLANS.

1. The surveyor shall supply a plan accurately plotted on good quality drawing paper or on tracing linen, the draughtsmanship conforming with that of the appropriate specimen copy given in Schedule 2, 3 or 4, which represent respectively a plan of survey in rural areas, a plan of survey under the Transfer of Land Act, and a plan of subdivision under section 211 of the Transfer of Land Act.

2. Any plan which does not conform with the foregoing requirements or which has become damaged or defaced or does not otherwise comply with these Regulations shall be rejected by the Surveyor-General or by the Surveyor and Chief Draughtsman.

3. A certified copy from the tracing linen will be accepted by the Office of Titles as an original plan if accompanied by the uncoloured linen plan. The Office of Titles will supply additional copies from the linen, if required, upon payment of a fee to cover the cost involved.

4. The size of plans, except plans of subdivision under section 211 of the Transfer of Land Act, shall conform with the most economical of the standard sizes B, C, D, E or F or multiple thereof as set out in the Survey Co-ordination Regulations, the plan being drawn to a scale sufficiently large to show clearly all details, marginal enlargements being given when necessary.

Plans of subdivision under section 211 of the Transfer of Land Act shall conform in size with either the standard size C or D according to requirements and shall have a clear margin 3 inches wide all round and be drawn to such a scale that no lot except occasional shop sites shall be of less width than one third of an inch.

5. The following particulars shall be shown on all plans of title survey, check surveys excepted:—

- (a) a heading correctly describing the land which the plan purports to represent;
- (b) a plain north point drawn in the margin towards the top of the plan indicating the meridian of reference, e.g., Grid N, zone....., M.M. or T.M.;
- (c) a plotted scale with values corresponding to the denomination of the plan measurements;
- (d) a datum which shall be indicated by the letters A.....B or A.....B.....C..... marking the extent thereof. The word DATUM and the bearing shall be written thereon or given in a marginal note;
- (e) lengths and bearings of all boundaries and length of arcs and radii of curved boundaries.

The bearings on both plan and field notes shall be referred to a common datum and if they have been zoned in accordance with Survey Co-ordination Regulations, the standard meridian to which they have been referred shall be given in a marginal note.

Measurements shall be given in feet and inches, but not feet and decimals of a foot, or in links and decimals of a link in agreement with those in the field notes;

- (f) the area of each allotment or lot which shall be shown on all plans of survey except on plans of subdivision under section 211 of the Transfer of Land Act when areas less than one acre shall not be shown;
- (g) except on plans of subdivision under the Transfer of Lands Act, all abuttals and the actual lines, names and widths of roads and streets, and where constructed, the width of footpaths and description of kerbs and channels and all relevant particulars. Where the scale of the plan is such that road widths or connexions cannot conveniently be plotted to the same scale, a note shall be made drawing attention thereto.

No new road shall be shown on a plan unless it has been set out and marked on the ground;

- (h) the position and description of the occupation constituting possession; definition of the adopted corners; description of all points measured to, such as peg, wall base, &c., position of the adopted boundaries relative to the occupation; all gates or other means of access and any natural or artificial features affecting or likely to affect title to the land under survey or land abutting;
- (i) permanent and reference marks;
- (j) in general, complete agreement with the field notes; and

6. In addition to the provisions hereinbefore contained—

- (a) plans under the Lands Acts shall show the physical features, streams, water races, tracks, the position of buildings, fences, dams, old gold diggings, the approximate grade of new roads and any other information that may help to distinguish the allotment;
- (b) plans of subdivision under section 211 of the Transfer of Land Act shall show—

- (i) All lots into which the land has been subdivided marked by distinctive numbers or symbols, preferably numerals running consecutively from unity.

In the subdivision of the whole or part of a previously lodged plan of subdivision, the boundaries and lot numbers of such lodged plan shall not be shown;

- (ii) all land set apart for easements by way of drainage and for water, gas, electricity, sewerage and underground telephone services;
- (iii) all reserves set apart for the use of purchasers of lots and the purposes for which they are set apart such as drainage, recreation and so on;
- (iv) the names of all created roads 33 feet wide and over. Roads under 33 feet wide, when unnamed, to be marked "Road";

- (v) the distance from a splayed corner to the street intersection or a marginal note to the effect that the distance from a splayed corner to a street intersection is.....feet, unless otherwise shown;
- (vi) where possible, all roads and other easements appurtenant to the subdividor's title, names of such roads and any other abutting road which can be justified;
- (vii) in subdivisions of occupied lands, party walls and party roads described as such and the dimensions of each part given. (Tenement numbers are to be shown on field notes only and must not be used in substitution for lot numbers.)

7. Colouring of plans.

- (a) Plans of survey under the Land Acts shall not be coloured;
- (b) plans of survey under the Transfer of Land Act shall be coloured as under—
  - (i) All lots—red, except as to easements forming part of the lots;
  - (ii) easements other than party walls or party roads when forming part of the lots—blue, purple or green in that order;
  - (iii) party walls—blue and yellow.

When complications arise, the Surveyor and Chief Draughtsman shall be consulted.

- (iv) Reserves set apart for the use of purchasers of lots—green or purple.

Hatchings of these colours may also be used. Marginal notes regarding easements within the lots and other easements appropriated or set apart by the subdividor shall read "The land coloured..... is appropriated or set apart for easements of....."

- (v) Roads shall not be coloured.

8. (a) Every plan shall bear a certificate in the following form:—

I, \_\_\_\_\_, a surveyor licensed under the *Land Surveyors Act 1942* certify that the survey from which this plan has been prepared was effected by me or under my immediate personal direction and supervision in the field and marked on the ground in strict accordance with the *Land Surveyors Regulations Part 2*, that the standard of accuracy of this survey is class.... and that this plan correctly represents the occupation and features existing on the..... day of.....19.....

Dated this.....day of.....19.....

.....Surveyor.  
Licensed under Act 4939.

- (b) Where two years have elapsed since the completion of the survey the following certificate shall also be made on the plan, and signed by the surveyor:—

I certify that this plan (as amended in \_\_\_\_\_) correctly represents the occupation and features existing at this date, and that the survey has been brought up to date.

Licensed Surveyor.

Date.....

- 9. No amendment shall be made to any certified plan except by the surveyor or on the written authority of the surveyor whose signature appears thereon.

18. SUBDIVISION OF CROWN LANDS.

In the subdivision of Crown lands, the following requirements shall be observed:—

- (1) The form which an allotment shall be given, whilst largely dependent upon the physical features of the land under consideration, should be such as will enable it to be satisfactorily enclosed and economically and efficiently utilized.

- (2) No allotment shall be surveyed in a position or in a form which would in any eventuality deprive any Crown lands of access or water or interfere with the profitable occupation of same.
- (3) When it is necessary, in the interests of the public, to withhold from alienation any water frontage not reserved under the provisions of the Land Acts, the width of such frontage shall, wherever possible, be at least 100 links, or if required for road purposes, at least 150 links, and in the latter case shall be shown on the plan as "Road and Reserve."
- (4) All allotment boundaries, including abutments to water frontages, shall be defined by metes and bounds and, wherever possible, marked on the ground in accordance with these Regulations.
- (5) Every allotment shall have a road abuttal or other provision for access unless such provision has been waived by the Surveyor-General in the case of additional land adjoining land already held being granted to the registered proprietor thereof.
- (6) (a) When selecting roads the surveyor shall consult the Council of the municipal district concerned and endeavour to secure the co-operation of the municipal engineer. Should he be unable to obtain such co-operation he shall proceed to select the best routes according to his own judgment, but failure to secure the co-operation of the municipal authorities shall not relieve him of his responsibility for making provision for all necessary roads.  
Until such provision has been made care should be taken to avoid blocking existing tracks leading into the back country. Should any such track be included in an allotment, the surveyor should state whether it is required to be preserved pending the construction of a road in lieu thereof.
- (b) In case of a difference of opinion with the municipal engineer as to the best route, or of any doubt in his own mind, the surveyor shall refer to the District Surveyor of the Department of Crown Lands and Survey and be guided by his directions.
- (7) The surveyor shall report to the Surveyor-General any natural features, such as water falls, mountain gorges, conspicuous rock out-crops or any place of attraction, interest or scenic beauty observed by him so that steps may be taken with a view to preservation in the public interest.

#### 19. SURVEY CO-ORDINATION.

These Regulations shall be read as in aid of not in derogation from the Survey Co-ordination Regulations and every surveyor when making a survey of any description whatsoever shall comply with the provisions of the *Survey Co-ordination Act 1940* and the Regulations thereunder in so far as such are applicable.

#### 20. PENALTIES.

Every person who contravenes or fails to comply with these Regulations shall be guilty of an offence and liable to a penalty of not more than Ten pounds.

3. Offers must be AT A PRICE PER TON, IRRESPECTIVE OF THE SPECIES OF WATTLE, and the bark must be weighed at the weighbridge named in each case, or at a weighbridge approved by the officer in charge, and at the expense of the licensee. Duplicate weighbridge tickets must be provided, and if so directed by him the bark must be weighed in the presence of the officer in charge.
4. Satisfactory arrangements must be made with the Commission for payment of royalty prior to removal of the bark.
5. No trees shall be felled or stripped on any beauty spot, picnic ground, or on any portion of any area which the officer in charge points out as not to be operated upon, and no particular tree specially marked by him to remain standing shall be felled or stripped, wherever situated.
6. In the event of stripping being permitted on any area regarded as a tourist resort all tops must be lopped, stacked, and burned under the direction of the officer in charge. The burning under this provision must be carried out in accordance with the written conditions specified by the District Forester.
7. No tree shall be felled so as to fall into any water-course or to obstruct any road or track.
8. - (viii) In the above provisions as to work performed by females, "experience" means experience in the industry, including experience in the employ of more than one employer, and any female employee mentioned in such provisions on leaving or being discharged from her employment shall be entitled to a certificate from her employer stating the date when such employment began and the date of its termination duly signed or otherwise authenticated by the employer. (d) Where any of the holidays provided for in clause 6 hereof so falls in the week as in the ordinary course to entitle an employee to be paid in respect of that holiday although he does not work thereon, and that holiday happens to fall within that employee's period of leave of absence, the days in that period shall be reckoned in addition to that holiday. Provided that if in consequence of compliance with this sub-clause the said period so reckoned includes three Sundays, one additional day, not being a non-working day, shall be added to and form part of the said period.

(e) If an employment which has continued for a period of at least six calendar months is terminated before the employee has received constant service leave, the employee shall be paid a bonus consisting of the percentage of two weeks' wages which the time of service for which no leave has been given bears to twelve calendar months.

(ii) An employee who during the course of a week's work is transferred from day shift to night shift, or from night shift to day shift, shall be allowed at least a ten-hours' break between the time of finishing his day shift and the time of commencing his night shift or from the time of finishing his night shift and the time of commencing his day shift, as the case may be. If such ten hours' break is not allowed, the employee shall be paid overtime rates for the shift immediately following the change.

(h) No employee under 16 years of age shall be employed on overtime. No employee under 17 years of age, nor any female, shall be on duty in any event before 8 a.m. or later than 9 p.m. on any working day, subject to clauses 10 and 11 (a) hereof.

#### TERMS OF EMPLOYMENT AND SICK PAY.

16. (a) No person shall be employed except as—

- (i) a weekly timeworker; or
- (ii) a weekly pieceworker; or
- (iii) a casual timeworker; or
- (iv) a casual pieceworker.

(b) A weekly timeworker, to become entitled to payment of a weekly wage, shall perform such work as the employer shall from time to time require on the days and during the hours usually worked by such employee.

(c) (i) A weekly timeworker not attending for duty shall lose his pay for the actual time lost unless he produces or forwards within twenty-eight hours of the commencement of such absence evidence or a message satisfactory to the employer that his non-attendance was due to personal ill-health necessitating such absence, but notwithstanding that he may be employed by different employers he shall not be entitled to payment for non-attendance on the ground of personal ill-health for more than 44 hours in each year. Such year shall begin on the 23rd February.

(ii) A weekly pieceworker shall be excused from presenting himself for employment at the proper time and place each day because of personal ill-health and shall be paid at the corresponding timeworker's wage for the period of ill-health in all respects as if during such period he had been a weekly timeworker employed on such days and during such hours as are usually worked by timeworkers upon any day shift, and he shall comply with and be subject to the conditions for timeworkers prescribed in paragraph (i) hereof.

(iii) If an employer within 48 hours after the receipt by him of a written message sent by (or on behalf of) an absent employee, alleging that his absence is due to personal ill-health, fails to despatch or give to the employee a written notice that he does not accept the message as satisfactory evidence of the facts alleged by it, it shall be deemed to be prima facie evidence that the absence of the employee was due to personal ill-health.

(iv) If an employer within 48 hours after the receipt by him of such message despatches, or gives to the employee a written notice that he does not accept such message as satisfactory evidence of personal ill-health, but requires further evidence, the employee must within a reasonable time furnish such further evidence. If the employer requires the employee to obtain a medical certificate or other proof of personal ill-health, he shall pay or refund any fee and incidental expenses necessarily paid or incurred by the employee. The employee shall submit to medical examination at the employer's expense if so required, and shall not obstruct or interfere with inquiries deemed to be necessary by the employer.

(v) If an employer rejects a claim for sick pay this Wages Board shall have power, upon application by the Printing Industry Employees Union of Australia, or by the employee concerned, to hear such claim, and to make such order thereon as it thinks appropriate; and the employee, if required to attend this Wages Board on the hearing of his claim, shall, if his claim succeeds, but not otherwise be entitled to be paid by the employer for the time of his attendance, if a timeworker, at his usual rate, or if a pieceworker, at the corresponding timeworker's rate.

(vi) In any case where the period of 48 hours referred to in paragraphs (iii) and (iv) hereof expires after the finish of the last working day in the calendar week, or on a public holiday, the period shall be deemed to extend to noon of the next ordinary working day, and in any case where illness commences after the finish of such last working day the said period of 48 hours shall be deemed to commence at the starting hour of the next ordinary working day.

(vii) A weekly employee shall not be entitled to the sick pay benefits of this clause until he has worked in the employment of his employer for a period of three working weeks.

(d) A weekly pieceworker is a pieceworker engaged as a weekly employee. The following conditions apply to the employment of a weekly pieceworker:—

- (i) On each working day or night of the week he shall present himself for employment at the usual time for beginning work at the place of business of the employer unless informed before leaving work by the employer that his attendance on any day or any night is not required.
- (ii) If he has not been informed as provided in the foregoing paragraph, and actually presents himself on any such day or any such night he shall receive not less than four hours' continuous employment or be paid for such four hours (or any part of such four hours as would be non-working time) at the appropriate rate for a timeworker. Provided that a weekly pieceworker on day work working on a Saturday shall receive not less than three hours' work or be paid for such three hours (or any part of such three hours as would be non-working time) at the rate aforesaid, and his shift shall finish not later than noon.
- (iii) (1) The provisions of this paragraph (iii) shall have full force and effect notwithstanding anything contained in this Determination, or in the Schedule thereto.
- (2) In this paragraph the words "the corresponding timeworker" mean—
  - (a) As to an adult male, as defined by clause 31 (d) hereof— an adult male weekly timeworker employed in the same calling as the weekly pieceworker who is concerned;
  - (b) As to an adult female, as defined by clause 31 (d) hereof—an adult female weekly timeworker employed in the same calling as the weekly pieceworker who is concerned; and
  - (c) As to a male junior—a male junior weekly timeworker of the same age employed in the same calling as the weekly pieceworker who is concerned; and
  - (d) As to a female junior or any female of less than five years' experience—a female junior weekly timeworker of corresponding experience employed in the same calling as the weekly pieceworker concerned.

(3) For any week in which he has worked the full hours of duty, the weekly pieceworker shall be paid at least the corresponding timeworkers' wage.

(4) For any week in which, though he has complied with the provisions of paragraph (i) hereof, he is not required to work the full hours of duty, he shall be paid for that week the corresponding timeworkers' wage.

(5) If in any week there occurs a public holiday, as provided in clause 6 hereof, upon which the weekly pieceworker is not required to work, he shall be paid, in addition to his aggregate piecework earnings for that week, a sum equivalent to that paid to the corresponding timeworker for such public holiday.

(iv) Notwithstanding anything in this Determination contained, lateness shall not, except as in this condition provided, affect the right of a pieceworker to the benefits of this sub-clause (d). A pieceworker's earnings shall not be subjected to deduction for lateness or lost time unless such lateness or lost time would cause an employer to make a payment which he otherwise would not be required to make. Subject to this condition, where a pieceworker is late or loses time on any day he shall be subject only to such a deduction from any moneys due to him as is proportionate to the time actually lost by him.

(e) (i) The employment of a weekly timeworker or pieceworker may be terminated by a week's notice on either side or by the employer at his option by payment of a week's wages in lieu of notice, and such notice may be given on any day of the week to take effect one week after the day on which it is given. This shall not affect the right of the employer to dismiss any employee without notice for malingering, inefficiency, neglect of duty or misconduct, and in such case wages shall be paid up to the time of dismissal only, or to deduct payment for any day the employee cannot usefully be employed because of any strike of the Printing Industry Employees Union of Australia, or any other union, or through any breakdown of machinery or any stoppage of work for any cause for which the employer cannot be held responsible.

Provided always that the notice referred to in this paragraph shall not be given so as to take effect concurrently with any constant service leave to which the employee may be entitled, and such notice or payment in lieu of notice shall be additional to any bonus payable to the employee under clause 7 of this Determination.

(ii) In the event of work being temporarily stopped by a breakdown of machinery, or by any cause for which the employer cannot be held responsible, and the employee has lost at least two days' pay the employee, whether a weekly timeworker or weekly pieceworker, may inform the employer of his intention to terminate his employment, whereupon the employment shall be terminated without the employee being required to give the week's notice mentioned in paragraph (i) hereof, and he shall be paid such moneys as are due to him under this Determination.

(f) Where a weekly pieceworker gives or receives a week's notice of the termination of his employment, he shall during the week that such notice runs, be given the same amount of piecework as it has been customary for him to perform during the period of his engagement.

(g) If an employee's services be terminated during the course of the week, he shall be paid all money due to him at the termination of his service, or all money due to such employee shall be forwarded to him by post within 24 hours thereafter. Without prejudice to his liability to legal proceedings in respect of such non-observance, an employer not observing this provision shall pay such employee an extra full day's pay for each day after the employer's usual pay day upon which he applies at the employer's place of business for payment of the amount due to him, and does not receive it.

#### CASUAL EMPLOYEES.

17. (a) An employer when engaging a person for casual employment shall inform him then and there that he is to be employed as a casual. Except where this is done the employee shall be a weekly timeworker or weekly pieceworker. A casual employee, after two weeks of continuous employment as a casual employee, shall become a weekly timeworker or weekly pieceworker.

(b) If a casual employee commences duty on any day, or is directed to attend for duty and actually attends on any day, such employee, if a timeworker, shall in respect of such day be paid at the rate herein provided and for six hours (either day or night) at the least, except on Saturday, when he shall be paid for three hours at the least, and if a pieceworker, shall, in respect of such day, be given four hours' work at the least, or paid for four hours (or any part of such four hours as would be non-working time) at the appropriate rate for a time worker, except on Saturday, when he shall be given three hours' work at the least or paid for three hours (or any part of such three hours as would be non-working time) at the corresponding timeworker's rate.

(c) A casual employee, whether working at piecework or timework and whether working on day or night shift, shall be paid for such work the piecework rate or the hourly rate proscribed for such work, with the addition of 12½ per cent.

(d) A casual employee, when working overtime shall have his rate of pay as a casual employee increased by the same proportion (e.g., one-half, or double as the case may be) as the weekly worker's rate applicable to the class of work done by the casual employees directed to be increased under this Determination for work done on overtime, with the addition of 12½ per cent.

## MIXED FUNCTIONS.

18. Where during any day a timeworker or pieceworker is employed on work requiring the performance of functions involving different rates of wages prescribed by this Determination, the minimum rate of wage to be paid to the employee for that day shall be calculated as if the employee performed such only of the said functions as involved the highest rate of wage.

## PIECEWORK.

19. (a) The minimum piecework rates payable to an employee by an employer shall be the rates prescribed in the Schedule to this Determination.

The Schedule hereinbefore mentioned is hereby incorporated in this Determination.

(b) The piecework rates payable to adults and juniors shall be uniform and not differential, and in this Determination are so calculated as to enable an average adult worker to earn (when employed at such piecework rates), at each class of work at least—

(i) If employed during the hours fixed for timeworkers a sum equal to such timeworker's wage with the addition of  $12\frac{1}{2}$  per cent.; and

(ii) If employed during any hour or hours or any part of any hour so that he shall earn such proportion of the weekly timeworker's wage as accords with the time the pieceworker is actually employed upon each class of work, with, in addition, the further sum of  $12\frac{1}{2}$  per cent. of such proportion.

(c) When an employee is employed upon piecework to perform any of the functions or duties for which a time wage is fixed by this Determination and for which a piecework rate is not fixed, then the minimum piecework rates for such work shall be so calculated by the employer that an average adult worker may earn at the least at such piecework rate, if employed during the hours fixed for work for timeworkers, a sum equal to such timeworker's wage, with the addition of  $12\frac{1}{2}$  per cent., and such piecework rates shall be notified to the employee before the work is commenced by him. All such piecework rates so fixed shall be posted and kept posted in a conspicuous and easily accessible place in the workroom. Any such rate which provides a wage not less than that stipulated herein for an average adult worker, and which has been in operation for one month, shall remain unchanged unless a change is agreed to by the Printing Industry Employees Union of Australia or is made by this Wages Board.

(d) No undue advantage shall be given to one pieceworker over another. This provision applies to the quantity and to the classes or quality of work to be supplied to the employee.

(e) Pieceworkers required to clean bench, glue board or table, or floor, or any machine, shall be paid for the time he or she is occupied on such work at the rate provided herein for time-work for the class of work on which the employee is usually employed.

(f) Pieceworkers shall have their work counted out for them and so arranged in a convenient place that no time will be lost. Glue, paste, and all other essentials shall be provided by the employer in proper condition to permit of the work being facilitated, and such materials shall be of good average quality.

(g) (i) The pieceworker shall be provided with a book in which the pieceworker is to enter the work performed by such pieceworker in such a manner as to clearly set out each and every operation performed by such pieceworker.

(ii) To the entries made as set out in the foregoing paragraph the employer shall affix the correct price of the work in ink, and shall return the book to the employee at the end of each day's work or within four hours of commencing work on the following day.

(iii) The pieceworker shall be entitled to take away such book at the end of each day's work, but shall bring such book back to the factory when arriving at the factory to commence work each day. Such book shall be and remain the property of the pieceworker.

(iv) All waiting time shall be entered in such book by the pieceworker.

(v) Nothing in this sub-clause (g) shall operate to prevent an employer from having his own book or other form of record for his own purposes kept in any manner he may desire, and in such book or other form of record he may require the pieceworker to make such entries as he deems to be necessary.

(h) When pieceworkers are kept waiting for work or any materials, all waiting time shall be totalled up when the day's work is finished, and paid for at not less than the corresponding timeworker's rate. A pieceworker shall be deemed to be waiting for work unless directed not to remain on the employer's premises for work.

(j) A weekly pieceworker of more than five years' experience in the branch of the industry in which he is employed shall not for any other reason than inefficiency be changed to time-work (1) unless paid the corresponding timeworker's hourly rate with  $12\frac{1}{2}$  per cent. in addition; or (2) unless given one week's notice by the employer of his intention to require him to work as a timeworker.

(k) No system of payment by results other than that authorized by this Determination shall be permitted unless agreed to by the Printing Industry Employees Union of Australia or sanctioned by this Wages Board.

(l) Any system of payment by results in operation at the commencement date of this Determination may continue to operate, provided that its terms shall be posted in a conspicuous place in each work-room in which the work is being done, and kept posted. The terms of any such system may be changed from time to time with the consent in writing of the said Union or by a Determination of this Wages Board. Any such system when discontinued shall not be revived, except as provided in sub-clause (k) herein.

## WAGES AND PAY DAY.

20. (a) Subject to clause 16 (e) hereof, an employee shall be paid his wages on Thursday or Friday in each week, and not more than two days' pay shall be kept in hand by the employer.

(b) Notwithstanding anything to the contrary contained herein, an employer shall not be required to pay to an employee any amount which is in dispute as sick pay (should the employee become entitled to the sick pay claimed) until the pay day of the pay week following the pay week in which the claim for sick pay was made to the employer.

## WORK NOT TO BE TAKEN OFF EMPLOYER'S PREMISES.

21. No work shall be taken off the employer's premises to be executed by any employee.

## TIME BOOK.

22. (a) Each employer shall keep a time and wages book, correctly and fully written in ink, showing the name of each employee, and his occupation, the hours worked (including overtime) each day or night, and in respect of waiting time paid for under clause 19 (d) hereof the time of the commencement and the ending of each period of waiting time, and the wages, overtime and allowance paid each week: provided that the employer may at his option use a mechanical clock in lieu of a time book for the purpose of recording the time of each employee. The book, or, when a clock is installed, the time cards, shall be open for inspection by a duly accredited official of the Printing Industry Employees Union of Australia, or of the employer's employees, during the usual office hours at the office or other convenient place. The inspecting official shall be entitled to take and carry away a copy of any entry in such book or time card, and may in any relevant proceeding tender such copies in evidence. Every book or time card kept or made under this clause shall for at least twelve months after the making of any record thereon be kept by the employer at his place of business and shall be there open for inspection under this clause.

(b) The employer shall also keep for inspection a record of the age of each male junior and the age and experience of each female junior.

(c) Twenty-four hours' notice of the intention to inspect the time book shall be given to the employer whose book is to be inspected.

**AUTHORIZED PERSON MAY ENTER FACTORY.**

23. (a) (1) The secretary-treasurer of the Printing Industry Employees Union of Australia, and  
 (2) The secretary of the appropriate branch or sub-branch thereof of the said union, or  
 (3) An officer of the appropriate branch or sub-branch thereof of the said union accredited in writing by the secretary of the branch

## SCHEDULE "A".

## PIECEWORK RATES AND CONDITIONS FOR CARDBOARD BOX-MAKING.

The minimum rates to be paid for the classes of work hereinafter referred to in Parts 1, 2, and 3 of this Schedule when performed by piecework employees and the conditions which shall govern and apply to all such pieceworkers shall, subject to clauses 16 and 19 of this Determination, be the rates of pay and the conditions prescribed for the classes of work hereinafter set out.

In addition to the piecework rates set out in this Schedule a pieceworker shall be paid 27s. for each full week worked or a *pro rata* amount according to the time actually worked if less than a full week be worked.

## PART 1.—CLAUSES APPLYING TO BOTH HAND AND MACHINE WORK.

## 1. Measurements: The following shall be observed:—

- (a) To get any combined measurement of a rectangular shape, measure only one length and one width, and add together; add one depth where depth is mentioned. Where the shape is triangular, measure the triangle over its longest and shortest sides, or over two sides where all the sides are equal in length, and add together; add one depth where the depth is mentioned.
- (b) To get the measurement of a box or lid, or anything connected with a box or lid when of a shape not rectangular, nor triangular, nor round, nor oval, the measurements shall (except where otherwise directed) be taken at the longest measurements in length and width, and then add one depth where depth is mentioned. When of a shape round or oval, the measurement shall be taken round the circumference and the resulting measurement halved, then add one depth where depth is mentioned.
- (c) An extension top or bottom shall be measured to include the extension, as later shown under the heading "Tops or Bottoms, (3)."
- (d) Subject to anything expressly stated in this Schedule to the contrary, "running inches" shall be ascertained over the longest measurements of the paper or material, and "width" shall be ascertained at the widest points of the paper or material.

## 2. Measurements on a box or lid shall be inside measurements.

3. When any measurement is described as "to" or "upto" it shall include the number to which it refers, and when any prescribed number of inches is exceeded the rate to be paid shall be the next highest rate prescribed.

4. The rates fixed in this Schedule are for boxes or lids, or parts in or in connexion therewith, made with any kind of material other than wood, and with any kind of adhesive. Where made wholly or partly of wood the rates herein shall be doubled except in respect to lathing and mousing.

5. Piecework rates for the making of a box or lid do not include lidding, nesting, tying or parcelling, for which operations separate rates are prescribed.

6. When a pieceworker is required to use different coloured papers as covering, in prescribed quantities, she shall, unless such coloured papers and quantities are counted for her and so arranged as not to impede her work, be paid one-tenth above the rate fixed for the appropriate operations performed by her.

7. The rates of this Schedule shall be increased by one-half for each operation performed on a box or lid, or on any part of a box or lid, or on anything to be used in connexion with a box or lid, which is star-shaped, heart-shaped, half-moon or horseshoe-shaped, or similarly shaped; and by one-quarter when of any other shape, but not including any rectangular or triangular shape, and not including any round or oval shape having a circumference 22 inches or over and of a depth  $3\frac{1}{2}$  inches or over.

The foregoing extra charges shall not apply to (a) full top papers or bottom papers for rectangular or triangular boxes or lids, with the corners cut out, for which see the section headed "Tops or Bottoms," 1 (b), in Part 2 of this Schedule; or to (b) snipping, nesting, tying, parcelling, or taping; or to (c) affixing labels or seals.

8. Where for any reason any pieceworker has to perform any operation on work which has been given to her in any quantity less than three dozen she shall be paid for each and every operation performed on such work at the corresponding timeworker's rate, with 12½ per cent. in addition, or at a piecework rate complying with the terms of clause 19 (b) of this Determination agreed upon between the employer and the Union, or failing agreement by them, as determined by this Wages Board; provided that this clause shall not apply where an employee is occupied upon any such quantity for a period longer than one hour. In addition to any other work to which this clause applies it shall apply to nesting, tying, parcelling and taping.

9. When a rate is fixed for an operation and associated with it there is a minimum payment per gross (as distinct from the lowest prescribed piecework rate) such minimum payment shall be made in all cases where the pieceworker is unable to earn such minimum payment if paid such lowest prescribed rate only.

Extra charges contained in this Schedule shall not be included to make up the minimum.

Where the quantity of work done by any pieceworker is less than one gross, the payment for such quantity shall be in proportion to the minimum payment per gross.

10. Where strawboard or leatherboard is referred to herein, the term shall be taken to include similar materials in each class.

11. The equivalent thickness of each one ounce in the weight of any board shall be 3/1000ths of an inch, that is to say, a 10-oz. board, or a board of a caliper of .030, equals 30/1000ths of an inch.

12. Each extra charge under the Schedule shall be computed independently of any other extra charge which any class of work may carry; that is to say, the charge for any work (before adding any extra charges), shall be ascertained, and where such charge has to be increased by one-fourth and one-half, it shall, if of 1s., become 1s. 3d. and then 1s. 9d.

13. In this Schedule, wherever appearing, the contraction "l" shall mean length, "w" width, and "d" depth.

14. In this Schedule any reference to the Union shall mean the Victorian Branch of the Printing Industry Employees' Union of Australia.

15. Waiting Time: See Determination clause 19 (A): also Part 3, Machine Work, of this Schedule.
