(b) Members of the Police Force shall not be allowed transfer expenses under sub-paragraph (a) of this provision if at their own request they are transferred to a station and their travelling expenses have been paid within three years of appointment thereto, and such members must not use railway requisitions: Provided, however, that where there are special circumstances connected with any transfer the Chief Commissioner of Police may, after considering all the facts, allow transfer expenses.

(c) In the case of members of the Police Force who own motor cars and transport themselves and families by car when on transfer, such members may claim the equivalent of first class rail fares or the mileage rate, whichever amount is the least cost to the Government: Provided, however, that where a member of the Police Force is travelling to a station where he will be performing motor car duties, or is travelling from a station where he has been performing motor car duties, he shall be allowed the mileage rates.

6. (1) (a) When a member of the Police Force is required to remain on duty later than 8 a.m., and thereby extends his usual or prescribed hours of duty by at least two hours, he shall be paid, by way of reimbursement, a meal allowance of 3s.

(2) When a member of the Police Force is required to commence duty at least two hours before his usual or prescribed starting time, and is thereby required to work for a consecutive period covering two or more meal hours, he shall be paid, by way of reimbursement, a meal allowance of 3s.

7. (1) In any case where a member of the Police Force is withdrawn from his station or place of employment to perform emergency or temporary duty at any other station or place, and is required to reside away from his permanent home or usual place of abode to perform such emergency or temporary duty, he shall be entitled to claim travelling expenses in accordance with this Determination for a period not exceeding one month. At the expiration of one month of continuous emergency or temporary duty he shall, if he continues to so serve, be paid an allowance at the rate of 20s. per week.

(2) In any case where a married member of the Police Force, who maintains a home, is required to live away from such home, or is unable to secure reasonable housing accommodation at or near where he is stationed or employed, he shall be entitled to receive an allowance of 20s. per week during the time he is so required to live away from his home or is unable to secure such accommodation (as the case may be).

(3) A member of the Police Force shall not be entitled to claim under both of the preceding sub-paragraphs in respect of the same duty performed by him.

8. In all cases where travelling expenses for absence on duty are claimed, the hours of duty must be continuous before allowances become payable.

9. Members of the Police Force stationed in Melbourne and suburbs who are withdrawn from their stations or divisions for duty within the metropolitan area shall not be entitled to claim travelling expenses under this Determination, unless such duty entails the securing of sleeping accommodation away from their homes.

10. Members of the Police Force stationed within the urban and suburban areas of Ballarat, Bendigo, and Geelong, who are withdrawn from their stations for duty within such urban and suburban areas, shall not be entitled to claim travelling expenses under this Determination, unless such duty entails the securing of sleeping accommodation away from their homes.

11. Members of the Police Force attached to motor car or motor cycle patrols shall not be entitled to claim travelling expenses under this Determination whilst performing patrol duty, unless such duty entails their being absent from their headquarters for at least nine hours.

12. For the purpose of this Determination, the term "metropolitan area" shall be deemed to include all police stations and places within a radius of 13 miles of the post office situated at the corner of Bourke and Elizabeth streets, Melbourne.

13. The boundaries of the suburban areas of Ballarat, Bendigo, and Geelong shall be defined by the Chief Commissioner of Police, who may at any time, and from time to time, alter or vary such boundaries as he thinks proper.

14. Where any member of the Police Force stationed within the metropolitan area, or within the urban or suburban areas of Ballarat, Bendigo, or Geelong, who has been withdrawn from his station or place of employment for any special or emergency duty within such metropolitan area or urban or suburban areas, is thereby required to work for a consecutive period of five hours, and by so doing has incurred reasonable out-of-pocket expenses, he shall be reimbursed such expenses, or any portion thereof, which is not payable under any of the preceding provisions of this Determination.

15. Under this Determination, the day shall be reckoned to commence at 6 a.m. and end at midnight, and the night to commence at 12 midnight and end at 6 a.m., but, if unavoidable circumstances necessitate an earlier departure than 6 a.m. the day shall be reckoned as commencing from such starting time, while, should circumstances prevent a return to station until after midnight, the day shall be reckoned as ending at the hour of such arrival on return to station. The daily rate under sub-paragraph (2) (e) and (3) (e) of paragraph 3 of this Determination shall be considered to begin from 6 a.m. of the day following the first night claim, and any period thereafter short of the complete 24 hours shall be charged at the hourly rate. In any claim at the hourly rate a period of half an hour or over may be reckoned as an hour, but no claim shall be allowed for any period less than half an hour.

16. In no circumstances shall travelling expenses be paid to any member of the Police Force doing duty at his own station.

17. Members of the Police Force who claim for an absence of five hours or more extending past midnight cannot also claim for the night.

18. In cases not provided for in the preceding provisions of this Determination, the Chief Commissioner of Police shall inquire into and deal with claims submitted by members of the Police Force.

19. (1) Any travelling expense claim shall be submitted on Form 46 issued by the Chief Commissioner of Police.

(2) Any claim made for a meal allowance, or under paragraph 14 of this Determination, shall be submitted to the Chief Commissioner of Police on "Form L2A," together with a report supporting such claim.

20. Travelling expense claims shall be forwarded to the officer in charge of the district fortnightly, and the periods for which they are rendered shall be alternate with the pay periods. Claims must be submitted as soon as the period for which they are rendered is completed, and the officer in charge of the district shall transmit them so that they reach the office of the Chief Commissioner of Police not later than the Thursday preceding each pay-day.

21. A member of the Police Force, when required to travel in the performance of his duty, shall be entitled to travel first class, except when the duty being performed is the escorting of a prisoner.

22. When the duty to be performed by a member of the Police Force is of such a nature that it is reasonable to believe he will be detained for a period of seven days or more away from his station or place of employment, he may receive, where practicable, a reasonable advance of travelling expenses, up to an amount not exceeding Five pounds (£5).

23. Where a member of the Police Force is stationed and residing in a different part of the State from which he intends to make his permanent home on retirement from the Police Force, he shall, before retiring on account of age or ill-health, be provided with free first class rail fare for himself, his wife, and dependent family, for the purpose of taking up residence at his proposed permanent home. Provided, however, if such a member uses his own motor car for such purposes for himself and his family, he shall be paid the equivalent of the first class rail fares or mileage rates, whichever amount is the lesser, for such journey. In addition, he shall be entitled to have his furniture and effects transported to such place at the expense of the Government. The Chief Commissioner of Police shall arrange such transport, and, where practicable, railway facilities shall be used for the purpose.

24. (1) Members of the Police Force who use their own motor cars, motor cycles with side-cars, motor cycles, or bicycles, on police duty, shall be allowed to claim for such hire in accordance with the following scale:—

	For the first 5,000 miles in a financial year.	Mileage over 5,000 miles in a financial year.
(a) Motor cars—		
Over 9 horse-power ..	6½d. a mile.	6d. a mile.
9 horse-power and under ..	5½d. a mile.	5d. a mile.
(b) Motor cycles with side cars ..	3d. a mile.	2½d. a mile.
Motor cycles ..	2½d. a mile.	2d. a mile.
(c) Bicycles—	1d. a mile irrespective of mileage.	

(2) The above-mentioned scale shall be varied from time to time to comply with any scale of rates determined by the Motor Transport Committee established by the Government.

(3) In every claim made under this clause in respect of the use of a motor car there shall be inserted the make and horse-power of such car, as shown on the certificate of registration thereof.

(4) In the case of sub-districts specified by the Chief Commissioner of Police to be motor cycle sub-districts, members who use their own motor cars or motor cycles with side-cars on police duty shall be allowed to claim for such travelling as is within their motor cycle duties only, the rate per mile prescribed for motor cycles.

25. This Determination shall come into operation on the first day of October, 1947.

An amended form of Indenture has been prescribed by the Board.

### APPRENTICESHIP.

3. (a) An employer shall not employ any minor in watch or clockmaking and/or repairing unless under a contract of apprenticeship, provided that any person who, on the 1st August, 1947, was employed as an improver may continue to be so employed and paid at the rate prescribed in clause 2 for an improver of like experience.

As from the 1st August, 1947, no person may be bound as an apprentice to the trade except with the permission of the Chairman of the Wages Board.

### Proportion.

(b) One apprentice to every two or fraction of two workers receiving not less than 127s. per week of 44 hours, provided that an employer may, on application to and with the consent of the Wages Board, after satisfying such Board that he has the plant, equipment, and staff necessary for the proper tuition of each apprentice, take apprentices in excess of the proportion herein prescribed.

### Contract of Apprenticeship.

- (c) Every contract of apprenticeship hereinafter made shall contain—
- (i) the names of the parties;
  - (ii) the date of birth of the apprentice;
  - (iii) a statement of the trade or trades to which the apprentice is to be bound and which he is to be taught during the course and for the purpose of the apprenticeship;
  - (iv) a covenant by the master to teach and instruct or cause the apprentice to be taught or instructed in the trade to which the apprentice is bound;
  - (v) the date at which the apprenticeship is to commence or from which it is to be calculated;
  - (vi) all other conditions of apprenticeship.

### Cancellation or Suspension of Indenture.

(d) Subject to the approval of the Secretary for Labour, but not otherwise, an indenture of apprenticeship may be suspended or cancelled—

- (i) by mutual consent;
- (ii) if through lack of orders or financial difficulties an employer is unable to find suitable employment for an apprentice and a transfer to another employer cannot be arranged;
- (iii) if, in the opinion of the Secretary for Labour, circumstances exist which render such suspension or cancellation necessary or desirable.

Any covenant in an indenture inconsistent with the provisions of this clause shall be null and void and of no force or effect while this Determination remains in force and applies to the parties to the indenture.

*Adult Apprentices.*

(e) Any apprentice who cannot complete his full term of apprenticeship before reaching his twenty-first birthday may, by consent of the Secretary for Labour, serve as an apprentice until he completes his indenture.

*Annual Leave.*

(f) Apprentices shall be entitled to annual leave in accordance with the provisions of clause 9 hereof.

*Lost Time.*

(g) The apprentice at the end of the calendar period of any year in which he has actually given service to the master upon less than the ordinary working days proscribed in this Determination, or in which he has unlawfully absented himself without the master's consent shall, for every day short of the said number of working days, and for every day of such absence, serve one day, and the calendar period of the succeeding year of his service shall not be deemed to begin until the said additional day or days shall have been served. Provided that in calculating the extra time to be so served the apprentice shall be credited with time which he has worked during the relevant year in excess of his ordinary hours.

*Prohibition of Premiums.*

(h) An employer shall not, either directly or indirectly, or by any pretence or device receive from any person or require or permit any person to pay or give any consideration in the nature of a premium or bonus for the taking or binding of any probationer or apprentice.

*Probationary Period.*

## DEPARTMENT OF PUBLIC WORKS.

At the Executive Council Chamber, Melbourne, the twenty-third day of September, 1947.

## PRESENT:

His Excellency the Governor of Victoria.

Mr. Cain

Mr. McKenzie.

IN pursuance of the provisions of the *Local Government (Private Street Construction) Act 1947*, His Excellency the Governor of the State of Victoria, being satisfied that owing to shortages in supplies of cement or other required materials the works provided for in schemes adopted by the Council of the City of Sandringham for the construction of Bateman-street, Ivy-street, and Barnett-street, Hampton, being private streets within the municipal district of the said City, which works were commenced prior to the commencement of the said Act, cannot be satisfactorily executed in accordance with the specifications, maps, plans, sections, and elevations in the scheme pursuant to which the works were commenced, doth by this Order, by and with the advice of the Executive Council of the said State, authorize the Council of the City of Sandringham to execute the works with the following variations of the said specifications:—

In lieu of clauses contained in the respective specifications commencing with that headed "Cement Penetration Roadway" and ending with that headed "Pitchers," there shall be substituted:—

*Bitumen Penetration Roadway.*

Over the areas shown on plans, a bitumen penetration pavement of six (6) inches finished thickness shall be laid on a prepared sub-base of ashes, two (2) inches in consolidated thickness.

*Ashes.*

Ashes shall be approved well-burnt ashes, free from unburnt rubbish; extremely coarse or extremely fine ashes will not be permitted. Ashes shall be lightly watered and then rolled with a roller weighing not less than 6 tons.

Rolling shall continue to the satisfaction of the City Engineer, who may order such wetting and rolling as he thinks fit.

*Metalling.*

The metal shall be basalt or other approved metal, properly screened free from chips, under or over gauge stone and dirt, and is to comply with the following grading tested with laboratory screens having circular openings:—

Bottom Course.		Top Course.	
Passing 2½ in.	100 per cent.	..	100 per cent.
Passing 2 in.	50-80 per cent.	..	100 per cent.
Passing 1½ in.	0-15 per cent.	..	50-70 per cent.
Passing 1 in.		..	0-10 per cent.

The metal is to be spread in two layers to give 3 inches consolidated thickness in each layer. Construction of each layer is to be by the following method, and carried out in the order as set out hereunder:—

- (1) A bottom course of 2-in. metal spread to a depth of 4 inches loose measurement shall be laid on the prepared sub-base, and rolled with an approved roller until thoroughly consolidated.
- (2) When thoroughly consolidated, the bottom course is to be blinded with fine crushed rock sufficient to fill all voids, watered and rolled until the whole is thoroughly compacted and bonded. Blinding is to be applied in successive applications, and broomed where necessary to prevent any caking of blinding on the surface of the metal. (The quantity of fine crushed rock for this operation is estimated at 1 cubic yard to 4 cubic yards of metal.) The Engineer may order such blinding and watering when rolling is in progress as he thinks fit; all subsidences are to be made good while rolling is in progress.
- (3) After the bottom course of metal has been thoroughly bonded and consolidated, a second course of 1½-in. metal spread to a depth of 4-in. loose measurement shall be laid. All metal for this course shall be tipped from the trucks on to suitable flat sheets or dumping boards, which shall be large enough to hold at least 1 cubic yard, and the metal shall be spread therefrom. The workmen engaged in spreading must be approved by the City Engineer, and any inefficient spreader must be replaced by a suitable man. Should the Engineer consider it necessary, metal trucks shall not traverse any metal that has already been spread. Care must be taken to prevent any dirt or other foreign substance being carried on to the metal before penetration. Rolling is to begin at the sides working towards the centre, and shall be carried out until the metal is thoroughly consolidated.

- (4) When second course of metal has been consolidated, the whole surface of the metal is to be closed by the application of ¾-in. screenings. (It is estimated that the quantity of screenings required for this operation will be 1 cubic yard to 80 square yards of metal surface.) Sufficient rolling to force all screenings into the voids shall be carried out.

*Bitumen Penetration.*

After top course metal has been consolidated and closed to the satisfaction of the City Engineer or his representative, and while metal is thoroughly clean and dry, the whole surface shall be penetrated with an application of bitumen of 80/100 penetration uniformly applied at a temperature of from 300 to 350 degrees with an approved mechanical sprayer at the rate of two-thirds of a gallon per square yard of metal surface. Bitumen shall be of approved brand, and the contractor shall give notice of brand and supplier before work is commenced.

Immediately after penetration, the surface treated must be covered with clean ¾-in. screenings, and the whole road rolled to a compact regular and smooth surface, with an approved roller. Application of screenings is to be by means of mechanical spreader, first application to be of such quantity as will barely cover the bitumen, additional screenings shall be applied and broomed into the voids, whilst rolling is in progress. Care must be taken not to apply screenings in a thick layer. Rolling and brooming shall be continued until the whole surface is thoroughly compact, and no movement or rutting occurs. (The quantity of screenings required for this operation is estimated at 1 cubic yard to 60 square yards of road surface.) The road may then be opened to traffic providing that permission is given by the City Engineer or his representative.

*Seal Coating.*

Within 24 hours of the completion of the penetration, or at such interval as may be directed, the contractor shall arrange to apply a bituminous seal coat. Construction of the seal coat is to be by the following method, each operation being carried out in the order as set out hereunder:—

- (1) After the road surface has been thoroughly cleaned and any irregularities caused by traffic have been made good, the whole of the surface shall be sprayed with 80/100 penetration bitumen applied at 350 deg. with a mechanical sprayer at the rate of 0.25 of a gallon per square yard of road surface.
- (2) Immediately after spraying, the surface treated shall be covered with clean ¾-in. screenings, applied with a mechanical spreader at the rate of 1 cubic yard to 70 square yards of surface. The quantity of screening as set out will be spread in successive applications, the first application being sufficient only to take up excessive bitumen. The whole shall then be rolled with an approved roller, drag broomed, and rolled again, the balance of the screenings being applied as rolling and brooming progress. The last operation by the roller will be to iron out all wheel marks from the road's surface.
- (3) When the first seal coat has been broomed and rolled to a smooth compact surface, a second application of 80/100 penetration bitumen applied at 350 degrees shall be sprayed at the rate of 0.25 of a gallon per square yard of road surface.
- (4) Immediately after spraying, the surface treated shall be covered with clean ¾-in. screenings applied with a mechanical spreader at the rate of 1 cubic yard to 100 square yards of road surface. The whole shall then be rolled, broomed, and rolled again, this operation continuing until the surface is smooth and well compacted.
- (5) After the second seal coat has been completed, a final seal of bituminous emulsion will be applied with a mechanical sprayer at the rate of 0.20 of a gallon per square yard of surface.
- (6) The application of bituminous emulsion will be covered with Koo-wee-rup sand at the rate of 1 cubic yard to 200 square yards of surface. The whole of the road will then be rolled and drag broomed as necessary.
- (7) Any sand that is thrown off the roadway by the traffic during the maintenance period of the contract will be swept back and evenly distributed over the road's surface, and rolled if so ordered. At the end of the maintenance period all surplus sand will be swept up and carted away by the contractor.

(8) Fluxing of any of the several applications of bitumen will not be carried out unless ordered in writing by the City Engineer.

NOTE.—Measurement for bitument penetration roadway as set out in this specification will be by the square yard.

**Quantities.**  
Estimates of covering capacity of aggregates are approximate only, and are inserted for the guidance of the contractor. They form no part of the specification, and the contractors must form their own estimates of aggregate required for each operation as described in the specification.

**Protection of Work.**

The contractor shall provide and keep on the job sufficient and suitable barricades for the protection of the work and the safety of the general public. The contractor shall employ a watchman to do this work at night and at week-ends and holidays, and shall allow for same in his schedule price. All the necessary materials for the protection of the work shall be on the site of the works before commencing.

**Pitchers.**

At the edges of the bitumen road, if and where shown on plan, shall be laid a row of 6-in. bluestone pitchers set on 3-in. thickness of concrete 1 : 2 : 4 mix. All pitchers shall be grouted with 1 : 2 : 4 concrete.

And the Honorable Thomas Hayes, for and on behalf of His Majesty's Commissioner of Public Works for the State of Victoria, shall give the necessary directions herein accordingly.

- (b) before sending such notice, shall insert therein—
  - (i) the full name of the elector as appearing on the roll, and his address as therein mentioned; and

68. Upon receipt within the time allowed, pursuant to this Part of any such form properly filled up and signed and witnessed (if so required) the secretary shall—

- (a) make on the marked roll opposite the name of the elector to whom the form refers a note to that effect; and
- (b) indicate in writing on the marked roll opposite the name of the elector his opinion whether or not the reason contained in the form is a valid and sufficient reason for the failure of the elector to record his vote at the election.

Before sending such notice, the secretary shall insert therein a date (not being less than twenty-one days after the date of the posting of the notice) before or on which the form at the foot of the notice duly filled up and signed by the elector and witnessed is to be in the hands of the secretary.

- (b) the names of electors from whom or on whose behalf the secretary received within the time allowed pursuant to this Part forms properly filled up and signed;

72. Every elector whose name is inscribed upon the roll who—

- (a) fails to record his vote at any election for which he is entitled to vote without a valid and sufficient excuse for such failure (in this clause the expression "valid and sufficient excuse" includes an honest belief on the part of the elector that abstention from voting is part of his religious duty); or

Provided that—

- (a) any elector to whom a notice under this Part has been posted who desires the matter to be dealt with by the Advisory Council, and is prepared to abide by the decision of the Advisory Council, may notify the secretary in accordance with Form "I";

- (ii) were ascertained by a conviction.

73. For the purposes of this Part the returning officer at any election—

- (a) with the assistance of such of the deputy returning officers and poll clerks as he deems necessary shall in the presence of such deputy returning officers and poll clerks, but of no other person, open and, if necessary, break the seal of any parcel containing the rolls used at the election and examine the same for the purpose of indicating on the marked roll aforesaid the names of the electors who have not voted at the election; and
