2. This By-law shall come into full force and operation on its approval by the Governor in Council, and immediately after its publication in the *Government Gazette*.

3. This By-law shall apply to and have operation in the Township of Dimboola, comprising portion of the South Riding of the Shire of Dimboola, being the whole of the area contained in the Water Supply Urban District for the Township of Dimboola, as defined from year to year by the State Rivers and Water Supply Commission, and unless exempted by the Council shall apply to every house, building, and premises therein.

5. The proprietor of every house, building, or premises shall provide, keep, and maintain at all times upon his premises a properly constructed receptacle, in which he shall from time to time cause to be deposited all refuse produced or accumulated in or about such house, building, or premises.

6. Such receptacle shall be constructed of galvanized iron not less than 24-gauge, or other approved material, in such a manner as to prevent any absorption by any part of such receptacle of any offensive matter which may be deposited therein, or any escape by leaking or otherwise of any part of the contents of such receptacle.

7. Each such receptacle shall have a capacity of not more than 2 cubic feet, and shall be so constructed as to be capable of being easily handled and conveniently carried by one man.

8. It shall be strongly constructed, and provided with properly attached side-fitting handles.

9. 12. The proprietor shall cause, at such hours and on such days as may be appointed by the Council for the removal of refuse, such receptacles to be deposited close to and inside of the entrance to such house, building, or premises from the street, land, or right-of-way on which such house, building, or premises abut in order that the contents of such receptacle may be conveniently removed by the contractor or person authorized or employed in that behalf by the Council.

13. 14. The contractor or person authorized or employed by the Council for the removal of such refuse shall be responsible for the complete emptying (without spilling any of the contents) of such receptacle or receptacles

directly into a vehicle provided for its reception, at such hours and on such days as may be appointed by the Council. Such contractor or person shall also be responsible for the replacement of such receptacle properly covered with its lid, and shall also close the gate or gates of the premises from which such receptacle is taken.

15. The contractor or person authorized or employed by the Council for the removal of such refuse shall, at least once in each week, or at such greater frequency as may be necessary, collect and remove such refuse in a suitable covered vehicle, in such a manner as not to cause nuisance, danger to health, or offensiveness.

16. Such vehicle shall be provided with a cover and kept covered, except when refuse is being put into or discharged from such vehicle.

17. Such vehicle shall, as far as practicable, be rendered watertight by means of an impervious lining or by painting the inside thereof with tar, or by other suitable and effective means.

18. Such vehicle, when full, shall be taken by the quickest possible route to the approved tip, incinerator, or destructor where, as soon as practicable, the refuse shall be rendered innocuous by means of fire or by some other method specifically approved by the Council, or, in the case of a tip owned or conducted by a Council, by a method specifically approved by the Health Commission.

19. The contractor or person authorized or employed by the Council for the removal of such refuse shall cause all vehicles used for the reception and removal of such refuse to be properly constructed, kept clean, and thoroughly disinfected with approved disinfectant, and maintained in a proper state of repair.

20. The Council shall cause all refuse from any premises to be disposed of in an efficient, proper, and sanitary manner at an approved tip, incinerator, or destructor, and no person shall dispose of such refuse, except at such tip, incinerator, or destructor, in accordance with the conditions of the General Sanitary Regulations.

21. The Council's inspector shall have full power to enter in or upon any premises, yards, or land at any time for the purpose of inspecting receptacles, vehicles, plant, places, and all other things therein and thereon for the purpose of carrying out the provisions of this By-law.

22. If any person or persons commit a breach of this By-law, he or they shall, for every such breach, be liable to a penalty of not more than Twenty pounds, and in the case of a continuing offence a further daily penalty of not more than Five pounds.

AMENDMENT OF THE "WORKERS' COMPENSATION
REGULATIONS 1942."

HIS Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, and in pursuance of the provisions of the Workers' Compensation Acts, doth hereby make the Regulations following (that is to say):—

The "Workers' Compensation Regulations 1942" are hereby amended as follows:—

Clause nine of the said Regulations and the First Schedule thereto are hereby revoked and the following clause and Schedule substituted therefor:—

"9. The particulars required by sub-section (1) of section eleven of the *Workers' Compensation Act 1936* as amended by sub-section (5) of section eight of the *Workers' Compensation Act 1946* to be posted up in some conspicuous place at or near every mine quarry factory shop or office shall be in the form contained in the First Schedule to these Regulations.

FIRST SCHEDULE.

SUMMARY OF THE PROVISIONS OF THE WORKERS' COMPENSATION ACTS.

(To be posted up in some conspicuous place at or near every mine, quarry, factory, shop, or office.)

NOTICE OF ACCIDENT.

Compensation is not recoverable unless notice of the accident has been given as soon as practicable.

Particulars of Notice.

The notice shall give the name and address of injured worker and shall state the cause of injury and date of accident.

The notice may be in writing or oral.

Giving of Notice.

The notice may be given to the employer, or to any foreman or official under whom the worker is employed or to any person designated for the purpose by the employer.

Failure to Give Notice or Giving Inaccurate Notice.

Failure to give notice, or giving of inaccurate notice will not be a bar to recovery of compensation—

- (i) if the employer had knowledge of the accident at or about the time of the accident;
- (ii) if it is found in the proceedings before the Board that the employer is not prejudiced thereby in his defence;
- (iii) if failure to give notice or giving of inaccurate notice was due to mistake, absence from Victoria, or other reasonable cause;
- (iv) if this Summary (see heading) has not been posted up at the mine, quarry, factory, shop, or office;
- (v) if the accident has been reported by or on behalf of the employer to an inspector of mines or factories;
- (vi) if the injury has been treated in an ambulance room at the mine, quarry, factory, shop, or office;
- (vii) if an entry of the particulars of the accident is made in the employer's accident book as soon as practicable after the accident. (The keeping of such accident book by the employer in every mine, quarry, factory, shop, or office is compulsory.)

CLAIM FOR COMPENSATION.

Compensation is not recoverable unless the claim is made within six months of accident, or, in the case of death, within six months after death.

Failure to Make Claim.

Failure to make claim within six months will not be a bar to recovery of compensation if such failure was due to mistake, absence from Victoria, or other reasonable cause.

CLAIMS FOR DISABLEMENT BY DISEASE.

The contracting of disease or the aggravation or acceleration of disease may constitute an injury by accident. In such a case the ordinary Notice of Accident may be given and the ordinary Claim for Compensation may be made.

Where the disease is not "injury by accident" but is due to the nature of the employment the procedure is as follows:—

- (i) The worker should obtain from a medical practitioner a certificate stating that the worker is suffering from the disease and is thereby disabled from earning full wages at the work at which he was employed.
- (ii) In the case of such disablement (or of death), if the disease was due to any employment in which the worker was employed at any time before disablement, the worker, or in the case of death his dependants, are entitled to compensation.

From Whom Compensation for Disease Recoverable.

The compensation for disease due to the nature of the employment is recoverable from the employer who last employed the worker in that employment.

Notice of Death or Disablement by Disease.

Notice of death or disablement by disease must be given to the employer who last employed the worker in the employment to the nature of which the disease was due.

Giving of Notice.

The notice of death or disablement by disease shall be given in the same manner as Notice of Accident may be given.

The notice must inform the employer—

- (i) that the worker is suffering from the disease,
- (ii) that the disease is due to the nature of the employment; and must be accompanied by a copy of the certificate of the medical practitioner,
- (iii) where the employer is dead or can not be found, notice of death or disablement should be given as directed by the Workers Compensation Board.

Appeal against Giving or Refusal to Give Medical Certificate.

An employer or a worker may appeal against the medical practitioner giving or refusing to give a certificate or against the contents of it. The appeal may be to a medical referee, if both employer and worker agree to that course; or, if they do not agree, the appeal is to the Workers Compensation Board.

Diseases Specified by Proclamation.

A disease may be proclaimed, in the *Government Gazette*, to be a specified disease in relation to a specified industrial process or occupation. In such a case, if the worker was within five years before his disablement employed in the specified process or occupation and has contracted the specified disease, then the disease shall be deemed to have been due to the nature of the employment, unless the employer proves the contrary. (Whether a disease has been proclaimed may be ascertained by inquiring of the Registrar, Workers Compensation Board.)

BENEFITS AVAILABLE TO WORKERS.

If in any employment personal injury by accident arising out of or in the course of the employment is caused to a worker, his employer shall be liable to pay compensation.

Injury During Recess Periods and while Travelling to and from Work.

Injury by accident is compensative if the accident occurs:—

- (a) while the worker on any working day on which he has attended at his place of employment pursuant to his contract of employment—
 - (i) is present at his place of employment; or
 - (ii) having been so present, is temporarily absent therefrom on that day during any ordinary recess and does not during any such absence voluntarily subject himself to any abnormal risk of injury; or
- (b) while the worker—
 - (i) is travelling between his place of residence and place of employment; or
 - (ii) is travelling between his place of residence or place of employment and any trade technical or other training school which he is required to attend by the terms of his employment or as an apprentice or which he is expected by his employer to attend, or is in attendance at any such school:

Provided that any injury incurred while so travelling is not incurred during or after—

any substantial interruption of or substantial deviation from his journey made for a reason unconnected with his employment or unconnected with his attendance at the school, as the case may be; or any other break in his journey which the Board, having regard to all the circumstances, deems not to have been reasonably incidental to any such journey.

Any reference in the last preceding sub-section to "place of employment" shall where there is no fixed place of employment be deemed to include a reference to the whole area scope or ambit of the employment.

Workers who are Entitled to Benefit.

The benefits are available to all employees and apprentices (except as below).

Included amongst such employees are:—

- (i) employees whether working as manual labourers or clerical workers or domestic servants or otherwise;
