14. The contractor or person authorized or employed by the Council for the removal of such refuse shall be responsible for the complete emptying (without spilling any of the contents) of such receptacle or receptacles directly into a vehicle provided for its reception at such hours and on such days as may be appointed by the Council.

Such contractor or person shall also be responsible for the replacement of such receptacle properly covered with its lid, and shall also close the gate or gates of the premises from which such receptacle is taken.

15. The contractor or person authorized or employed by the Council for the removal of such refuse shall at least once in each week, or at such greater frequency as may be necessary, collect and remove such refuse in a suitable covered vehicle in such a manner as not to cause nuisance, danger to health, or offensiveness.

16. Such vehicle shall be provided with a cover and kept covered except when refuse is being put into or discharged from such vehicle.

17. Such vehicle shall as far as practicable be rendered watertight by means of an impervious lining or by painting the inside thereof with tar or by other suitable and effective means.

18. Such vehicle when full shall be taken by the quickest possible route to the tip, incinerator, or destructor, where as soon as practicable the refuse shall be rendered innocuous by means of fire or such other method as may be approved by the Commission and in such manner as not to create a nuisance.

21. Land upon which refuse has been deposited shall be seasonably planted or sown with seed of grass or any forage or cereal crops or other such vegetable life as the Council shall direct or approve.
