and thereafter the rate prescribed for adults.

PROPORTION (in any place).

One male improver to every five or fraction of five male persons receiving not less than the minimum rate prescribed for male adults.

One female improver to every five or fraction of five female persons receiving not less than the minimum rate prescribed for female adults.

Clauses, other than clause 2, of the said Determination for this Section shall remain in force.

By Authority: J. J. GOUBLET, Government Printer, Melbourne.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This not only helps in tracking expenses but also ensures compliance with tax regulations.

In the second section, the author provides a detailed breakdown of the monthly budget. It includes categories for housing, utilities, food, and entertainment. Each category is further divided into sub-items, such as rent, electricity, groceries, and dining out. This level of detail allows for a clear understanding of where the money is being spent.

The third section focuses on the analysis of the budget. It compares the actual spending against the planned budget for each month. This comparison helps in identifying areas where spending has exceeded the budget and where it has been kept within limits. The author notes that while housing and utilities remain relatively stable, there has been a noticeable increase in entertainment expenses.

Finally, the document concludes with a summary of the overall financial health. It states that while there are some areas for improvement, the budgeting process has been effective in controlling most expenses. The author suggests continuing to monitor spending closely and making adjustments as needed to stay on track.
