Period of Apprenticeship.

(b) If the apprentice when indentured is under the age of seventeen years—five years; if over the age of seventeen years—four or five years, at the option of the contracting parties.

Contract of Apprenticeship.

(c) Every contract of apprenticeship hereinafter made shall contain—

- (i) the names of the parties;
- (ii) the date of birth of the apprentice;
- (iii) a statement of the trade or trades to which the apprentice is to be bound and which he is to be taught during the course and for the purpose of the apprenticeship;

A person who is, for a term not exceeding two years, taking practical training in a workshop in continuance of a course of training for professional work shall not be taken into account in calculating the proportion of apprentices to journeymen.

(ii) Notwithstanding anything hereinbefore provided in the trade of boilermaker, an employer may with the consent of the Apprenticeship Commission and upon satisfying that authority that he has the plant, equipment and staff necessary for the proper tuition of each apprentice concerned take apprentices in excess of the proportion herein prescribed. Until further order apprentices so taken shall not be counted in future calculations of the proportion of apprentices to journeymen authorized by this Determination.
