7th "	226 0									
and thereafter the rate prescribed for adults.										
PROPORTION.										
Two male improvers to each male person receiving not less than the rate prescribed for adults.										
Three female improvers to each female person receiving not less than the rate prescribed for adults.										

Clauses, other than clause 2, of the said Determination for this Section shall remain in force.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities related to the project.

2. It then outlines the various methods used to collect and analyze data, including interviews, surveys, and focus groups.

3. The document also describes the process of identifying and addressing potential risks and challenges throughout the project lifecycle.

4. Finally, it provides a summary of the key findings and conclusions drawn from the research.
