A By-law of the Shire of Springvale and Noble Park, made under section 197 of the *Local Government Act* 1946, and numbered 127, for prohibiting, regulating, and controlling excavating operations.

IN pursuance of the powers conferred by the Local Government Acts, the President, Councillors, and Ratepayers of the Shire of Springvale and Noble Park order as follows:—

1. By-law No. 85 of the Shire of Springvale and Noble Park (formerly the Shire of Dandenong) and By-law No. 122 of the Shire of Springvale and Noble Park are hereby repealed.

2. In this By-law, unless inconsistent with or repugnant to the context—

"Council" means the Council of the Shire of Springvale and Noble Park.

"Excavating operations" means excavating operations other than quarrying or blasting operations.

"Minister" means the person for the time being administering the provisions of the Local Government Acts.

3. (1) No person shall commence or carry on any excavating operations for the removal of rock, stone, gravel, clay, soil or sand from land, unless he is the holder of a written permit from the Council specifying—

(a) the land to which the permit relates;

(b) the period of time during which the permit is to be operative;

(c) the depth above sea level to which excavating operations may be carried out upon the area described in the permit (such depth to be ascertained by reference to and on the basis of the levels shown on contour survey plans published by the Melbourne and Metropolitan Board of Works); and

(d) the conditions under which such excavating operations shall be carried on and the circumstances in which the permit may be revoked.

(2) Any person applying for such a permit shall—

(a) make application in writing to the Council;

(b) with his application lodge with the Council—

(i) a copy of the certificate of title to the land upon which the applicant desires to commence or to carry on excavating operations;

(iv) if the application is for a permit to excavate sand—

(a) a boring report indicating the depth and type of sand deposits between the surface and the bottom of the proposed pit, and

(b) a report from the Mines Department stating whether in the opinion of the Department it is desirable to reserve sand of the type disclosed by the boring test and make it available for any and what purposes, and

(v) a detailed statement of when and how re-filling and reclamation will be commenced and completed; and

(c) supply such additional information as the Council requires.

4. Every holder of a permit to commence or carry on excavating operations shall cause the area excavated pursuant to such permit to be filled in within such time and with such material and to such level as the Council may prescribe by notice in writing to be given to the holder of the permit within three months after the expiration thereof; or such holder may, if the Council agrees, transfer or cause to be transferred to the Council within three months after the expiration of the permit the whole of the land to which the permit relates whereupon the Council shall assume all responsibility for filling in such excavated area.

(ii) to deposit with or give to the Council such security as the Council may think sufficient to secure compliance with the requirements of clause 4 hereof.

6. No excavating operations shall be carried on within a distance of 50 feet from any street or road, or any land set out or reserved as a street or road, on any plan of subdivision lodged in the Office of Titles, or any land which is in fact used as a street, road, lane or passage, or within a distance of 30 feet from any land, the ownership or occupation whereof is in some person other than the owner of the land on which such excavating operations are being carried on.

(ii) the banks or sides of all such excavations shall be sloped down so that the batter of such banks or sides shall be maintained at a slope ratio of one horizontal to one vertical.

(b) If such excavations shall be carried on by means of a hydraulic nozzle or power shovel or similar method, then the excavator may work with a vertical wall or face, subject to the following conditions:—

- (iii) every excavator working on a vertical wall or face of a greater depth than 6 feet shall erect a fence either upon the boundary line of the land occupied by the excavator or in such position in relation to the brink of such wall or face as will protect persons on ground level from falling into the pit worked by the excavator. Such fence shall be of substantial construction and shall conform to either of the following specifications and any gate provided in the same (which gate must at all times be kept securely locked except when being used by the excavator, his servants, agents or licensees) shall be of similar construction—

- (iv) a wall or face which is not sloped down so that the batter of the banks or sides of the excavations shall be maintained at a slope ratio of one horizontal to one vertical shall be deemed a "vertical wall or face".

8. Every person carrying on excavating operations and using any mechanical or hydraulic power for such operations, shall, within fourteen days from the publication of this by-law in the *Government Gazette*, notify the Council in writing of the place where such power is used or intended to be used, and in such notice shall furnish the Council with full information of the type and nature of such power.

9. Every person carrying on excavating operations, and whether using manual power or mechanical or hydraulic power, and whether working upon a vertical or a sloped or a terraced face, shall work or carry on all such excavations in such a manner that when any part of any excavation made by him is, at ground surface level, 50 feet from a street or road, or 30 feet from land not in the ownership or occupation of such person the banks or sides of such excavations, and of all parts of such excavations, shall be sloped down so that a slope or batter of one horizontal to one vertical is maintained.

10. Any person guilty of a wilful breach of this by-law shall be liable to a penalty of not less than £5 or more than £20 and a further penalty of not more than £5 for each day on which an offence against this by-law is continued after a conviction or order by any Court.

11. Notwithstanding anything hereinbefore contained clauses 3, 4 and 5 of this by-law shall not apply to any land on which any excavating operations were commenced before the 10th day of November, 1938, and have since that date continued without substantial interruption nor to any other land on which excavating operations were carried on at the commencement of the *Local*

Government (Amendment) Act 1954 unless the Minister in writing approves of the application of this by-law to such other land.

12. This by-law shall apply to and have operation throughout the whole of the municipal district of the Shire of Springvale and Noble Park.
