*Submarine Blasting Wilson Spit Channel.*

*Date.*—On or about 4th. March, 1957.

*Details.*—Commencing on or about the above date and for an indefinite period thereafter, submarine blasting operations will be carried out from a working barge moored in the vicinity of the light buoy (Fl. *Remarks.*—Although every effort will be made to avoid interruption to traffic, vessels prior to entering or leaving the Port will receive their instructions from Point Henry Signal Station. During the working hours of daylight, the International Code Flag "B" will be exhibited from the working barge indicating "On Blasting Operations," and during the passage of vessels in this area the barge will haul to the south side of the channel. During the hours of darkness the barge will be removed from the operational site, clear of the navigable channel and will exhibit riding lights.

*Caution.*—Shipmasters and Pilots are warned that in view of the foregoing operations, the light buoy mentioned above will be shifted to a position approximately 500 feet to the south-eastward of its original position, on the line of the South Side Channel Beacons. When approaching and passing the floating plant all vessels should proceed at the slowest speed consistent with safe navigation. Fishing craft must give the floating plant a wide berth at all times.
