ELECTRIC LIGHT AND POWER ACT 1958 AND STATE ELECTRICITY COMMISSION ACTS.

*At the Executive Council Chamber, Melbourne, the
twentieth day of June, 1961.*

PRESENT:

His Excellency the Administrator of the Government
of Victoria.

Sir Arthur Warner | Mr. Bloomfield.

THE CITY OF MELBOURNE ELECTRIC LIGHTING AND POWER ORDER No. 3—1897.

WHEREAS on the 6th September, 1897, the Council of the Municipality of the Mayor, Aldermen, Councillors and Citizens of the City of Melbourne (hereinafter called "the undertakers") was granted an Order under the *Electric Light and Power Act 1896*, cited as the City of Melbourne Electric Lighting and Power Order No. 3—1897 (hereinafter called "the said Order") to supply electricity within the municipal district of the City of Melbourne, commencing on the 6th September, 1897: And whereas the said undertakers have made application to have an amendment made to the said Order: Now therefore His Excellency the Administrator of the Government of the State of Victoria, by and with the advice of the Executive Council thereof, acting pursuant to the provisions of section 13 of the *Electric Light and Power Act 1958*, doth hereby vary the said Order by substituting the following for clauses 26, 27, 28 and 29 set forth in the said Order, that is to say:—

Clause 26—System of Supply.

The system of supply throughout the area of supply shall be Multiple Earthed Neutral system of distribution, 50 cycles, alternating current, three-phase four-wire, voltage 415 volts between phase conductors and 240 volts between each phase and the neutral conductor.

The undertakers shall maintain throughout their distributing mains a supply of electricity complying in all respects with the foregoing description and the same shall be available to all applicants for supply, subject to the provisions of this Order, unless and except in so far as the Commission may otherwise permit either generally or in special cases; and any such permission shall be given only on such terms as the Commission shall, in its discretion, consider equitable to all parties concerned, and shall apply to variations of only such features of the system as it expressly covers.

Clause 27—Declared Pressure at Consumer's Terminals.

Before commencing to give a supply of electricity to any consumer, the undertakers shall declare to that consumer the constant pressure at which they propose to

supply electricity at his terminals. The pressure so declared shall be constantly maintained, subject to a variation not exceeding 6 per cent. above or below the declared pressure, under any conditions of supply which the consumer is entitled to receive, or such other variation as the Commission may from time to time allow, and shall not be altered or departed from to an extent greater than that variation except by consent of the Commission and upon such terms and conditions as it may impose, and after public notice has been given during a period of one month in such manner as it may require, and of the intention of the undertakers to apply for consent to alter same.

And the foregoing amendment shall be effective as from the first day of October, 1961.

And the Honorable George Oswald Reid, Her Majesty's Minister of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.

A. MAHLSTEDT,
Clerk of the Executive Council.

ELECTRIC LIGHT AND POWER ACT 1958 AND STATE ELECTRICITY COMMISSION ACTS.

*At the Executive Council Chamber, Melbourne, the
twentieth day of June, 1961.*

PRESENT:

His Excellency the Administrator of the Government
of Victoria.

Sir Arthur Warner | Mr. Bloomfield.

THE CITY OF FOOTSCRAY ELECTRIC LIGHTING ORDER No. 48—1910.

WHEREAS on the 21st December, 1910, the Council of the Municipality of the Mayor, Councillors and Citizens of the City of Footscray (hereinafter called "the undertakers") was granted an Order under the *Electric Light and Power Act 1896*, cited as the City of Footscray Electric Lighting Order No. 48—1910 (hereinafter called "the said Order") to supply electricity within the whole of the municipal district of Footscray, commencing on 21st December, 1910: And whereas the said undertakers have made application to have an amendment made to the said Order: Now therefore His Excellency the Administrator of the Government of the State of Victoria, by and with the advice of the Executive Council thereof, acting pursuant to the provisions of section 13 of the *Electric Light and Power Act 1958*, doth

hereby vary the said Order by substituting the following for clauses 26, 27, 28, 29 and the Fifth Schedule set forth in the said Order, that is to say:—

Clause 26—System of Supply.

The system of supply throughout the area of supply shall be Multiple Earthed Neutral system of distribution, 50 cycles, alternating current, three-phase four-wire, voltage 415 volts between phase conductors and 240 volts between each phase and the neutral conductor.

The undertakers shall maintain throughout their distributing mains a supply of electricity complying in all respects with the foregoing description and the same shall be available to all applicants for supply, subject to the provisions of this Order, unless and except in so far as the Commission may otherwise permit either generally or in special cases; and any such permission shall be given only on such terms as the Commission shall, in its discretion, consider equitable to all parties concerned, and shall apply to variations of any such features of the system as it expressly covers.

Clause 27—Declared Pressure at Consumer's Terminals.

Before commencing to give a supply of electricity to any consumer, the undertakers shall declare to that consumer the constant pressure at which they propose to supply electricity at his terminals. The pressure so declared shall be constantly maintained, subject to a variation not exceeding 6 per cent. above or below the declared pressure, under any conditions of supply which the consumer is entitled to receive, or such other variation as the Commission may from time to time allow, and shall not be altered or departed from to an extent greater than that variation except by consent of the Commission and upon such terms and conditions as it may impose, and after public notice has been given during a period of one month in such manner as it may require, and of the intention of the undertakers to apply for consent to alter same.

And the foregoing amendment shall be effective as from the first day of October, 1961.

And the Honorable George Oswald Reid, Her Majesty's Minister of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.

A. MAHLSTEDT,
Clerk of the Executive Council.

**THE SHIRE OF PRESTON ELECTRIC LIGHTING
ORDER No. 68—1912.**

WHEREAS on the 7th October, 1912, the Council of the Municipality of the President, Councillors and Ratepayers of the Shire of Preston (hereinafter called "the undertakers") was granted an Order under the *Electric Light and Power Act 1896*, cited as the Council of the Shire of Preston Electric Lighting Order No. 68—1912 (hereinafter called "the said Order") to supply electricity within all the land included within the Shire of Preston, County of East Bourke, commencing on the 7th October, 1912: And whereas the said undertakers have made application to have an amendment made to the said Order: Now therefore His Excellency the Administrator of the Government of the State of Victoria, by and with the advice of the Executive Council thereof, acting pursuant to the provisions of section 13 of the *Electric Light and Power Act 1958*, doth hereby vary the said Order by substituting the following for clauses 26, 27, 28 and 29 set forth in the said Order, that is to say:—

Clause 26—System of Supply.

The system of supply throughout the area of supply shall be Multiple Earthed Neutral system of distribution, 50 cycles, alternating current, three-phase four-wire, voltage 415 volts between phase conductors and 240 volts between each phase and the neutral conductor.

The undertakers shall maintain throughout their distributing mains a supply of electricity complying in all respects with the foregoing description and the same

shall be available to all applicants for supply, subject to the provisions of this Order, unless and except in so far as the Commission may otherwise permit either generally or in special cases; and any such permission shall be given only on such terms as the Commission shall, in its discretion, consider equitable to all parties concerned, and shall apply to variations of any such features of the system as it expressly covers.

Clause 27—Declared Pressure at Consumer's Terminals.

Before commencing to give a supply of electricity to any consumer, the undertakers shall declare to that consumer the constant pressure at which they propose to supply electricity at his terminals. The pressure so declared shall be constantly maintained, subject to a variation not exceeding 6 per cent. above or below the declared pressure, under any conditions of supply which the consumer is entitled to receive, or such other variation as the Commission may from time to time allow, and shall not be altered or departed from to an extent greater than that variation except by consent of the Commission and upon such terms and conditions as it may impose, and after public notice has been given during a period of one month in such manner as it may require, and of the intention of the undertakers to apply for consent to alter same.

And the foregoing amendment shall be effective as from the first day of October, 1961.

And the Honorable George Oswald Reid, Her Majesty's Minister of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.

A. MAHLSTEDT,
Clerk of the Executive Council.

**THE CITY OF BRUNSWICK ELECTRIC LIGHTING
ORDER No. 73—1912.**

WHEREAS on the 30th April, 1912, the Council of the Municipality of the Mayor, Councillors and Citizens of the City of Brunswick (hereinafter called "the undertakers") was granted an Order under the *Electric Light and Power Act 1896*, cited as the City of Brunswick Electric Lighting Order No. 73—1912 (hereinafter called "the said Order") to supply electricity within the whole of the municipal district of the City of Brunswick, commencing on the 30th April, 1912: And whereas the said undertakers have made application to have an amendment made to the said Order: Now therefore His Excellency the Administrator of the Government of the State of Victoria, by and with the advice of the Executive Council thereof, acting pursuant to the provisions of section 13 of the *Electric Light and Power Act 1958*, doth hereby vary the said Order by substituting the following for clauses 23 and 25 set forth in the said Order, that is to say:—

Clause 23—System of Supply.

The system of supply throughout the area of supply shall be Multiple Earthed Neutral system of distribution, 50 cycles, alternating current, three-phase four-wire, voltage 415 volts between phase conductors and 240 volts between each phase and the neutral conductor.

Supply under this system shall be maintained and shall be available to all applicants for supply, subject to the provisions of this Order, unless and except in so far as the Electricity Commissioners may otherwise permit, either generally or in special cases; and any such permission shall be given only on such terms as the Electricity Commissioners shall, in their discretion, consider equitable to all parties concerned, and shall apply to variations of only such features of the system as it expressly covers.

Clause 25—Declared Pressure at Consumer's Terminals.

Before commencing to give a supply of electricity to any consumer, the undertakers shall declare to that consumer the constant pressure at which they propose to supply energy at his terminals. The pressure so declared shall be constantly maintained, subject to a

variation not exceeding 6 per cent. above or below the declared pressure, under any conditions of supply which the consumer is entitled to receive, or such other variation as the Electricity Commissioners may from time to time allow, and shall not be altered or departed from to an extent greater than that variation except by consent of the Electricity Commissioners and upon such terms and conditions as they may impose, and after public notice has been given during a period of one month in such manner as they may require, and of the intention of the undertakers to apply for consent to alter same.

And the foregoing amendment shall be effective as from the first day of October, 1961.

And the Honorable George Oswald Reid, Her Majesty's Minister of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.

A. MAHLSTEDT,
Clerk of the Executive Council.

THE SHIRE OF NUNAWADING ELECTRIC LIGHTING
ORDER No. 77—1912.

WHEREAS on the 20th June, 1912, the Council of the Municipality of the President, Councillors and Ratepayers of the Shire of Nunawading (hereinafter called "the undertakers") was granted an Order under the *Electric Light and Power Act 1896*, cited as the Shire of Nunawading Electric Lighting Order No. 77—1912 (hereinafter called "the said Order") to supply electricity within all that land included within the Shire of Nunawading, County of Bourke, commencing on the 20th June, 1912: And whereas the said undertakers have made application to have an amendment made to the said Order: Now therefore His Excellency the Administrator of the Government of the State of Victoria, by and with the advice of the Executive Council thereof, acting pursuant to the provisions of section 13 of the *Electric Light and Power Act 1958*, doth hereby vary the said Order by substituting the following for clauses 26, 27, 28 and 29 set forth in the said Order, that is to say:—

Clause 26—System of Supply.

The system of supply throughout the area of supply shall be Multiple Earthed Neutral system of distribution, 50 cycles, alternating current, three-phase four-wire, voltage 415 volts between phase conductors and 240 volts between each phase and the neutral conductor.

The undertakers shall maintain throughout their distributing mains a supply of electricity complying in all respects with the foregoing description and the same shall be available to all applicants for supply, subject to the provisions of this Order, unless and except in so far as the Commission may otherwise permit either generally or in special cases; and any such permission shall be given only on such terms as the Commission shall, in its discretion, consider equitable to all parties concerned, and shall apply to variations of only such features of the system as it expressly covers.

Clause 27—Declared Pressure at Consumer's Terminals.

Before commencing to give a supply of electricity to any consumer, the undertakers shall declare to that consumer the constant pressure at which they propose to supply electricity at his terminals. The pressure so declared shall be constantly maintained, subject to a variation not exceeding 6 per cent. above or below the declared pressure, under any conditions of supply which the consumer is entitled to receive, or such other variation as the Commission may from time to time allow, and shall not be altered or departed from to an extent greater than that variation except by consent of the Commission and upon such terms and conditions as it may impose, and after public notice has been given during a period of one month in such manner as it may require, and of the intention of the undertakers to apply for consent to alter same.

And the foregoing amendment shall be effective as from the first day of October, 1961.

And the Honorable George Oswald Reid, Her Majesty's Minister of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.

THE COUNCIL OF THE TOWN OF PORT MEL-
BOURNE ELECTRIC LIGHTING ORDER No. 82—
1912.

WHEREAS on the 7th October, 1912, the Council of the Municipality of the Mayor, Councillors and Burgesses of the Town of Port Melbourne (hereinafter called "the undertakers") was granted an Order under the *Electric Light and Power Act 1896*, cited as the Council of the Town of Port Melbourne Electric Lighting Order No. 82—1912 (hereinafter called "the said Order") to supply electricity within the Town of Port Melbourne, and for the purpose only of laying a feeder cable between the Melbourne City Council's substation at Princes Bridge and the Port Melbourne boundary, by which the supply of electric energy for Port Melbourne can be conveyed from the Melbourne City electric mains, an area in South Melbourne, 3 feet in width along Miller-street, Yarra Bank-road and Normanby-road to the boundary of Port Melbourne at the intersection of Normanby-road and Boundary-street, commencing on the 7th October, 1912: And whereas the said undertakers have made application to have an amendment made to the said Order: Now therefore His Excellency the Administrator of the Government of the State of Victoria, by and with the advice of the Executive Council thereof, acting pursuant to the provisions of section 13 of the *Electric Light and Power Act 1958*, doth hereby vary the said Order by substituting the following for clauses 26, 27, 28 and 29 set forth in the said Order, that is to say:—

Clause 26—System of Supply.

The system of supply throughout the area of supply shall be Multiple Earthed Neutral system of distribution, 50 cycles, alternating current, three-phase four-wire, voltage 415 volts between phase conductors and 240 volts between each phase and the neutral conductor.

The undertakers shall maintain throughout their distributing mains a supply of electricity complying in all respects with the foregoing description and the same shall be available to all applicants for supply, subject to the provisions of this Order, unless and except in so far as the Commission may otherwise permit either generally or in special cases; and any such permission shall be given only on such terms as the Commission shall, in its discretion, consider equitable to all parties concerned, and shall apply to variations of only such features of the system as it expressly covers.

Clause 27—Declared Pressure at Consumer's Terminals.

Before commencing to give a supply of electricity to any consumer, the undertakers shall declare to that consumer the constant pressure at which they propose to supply electricity at his terminals. The pressure so declared shall be constantly maintained, subject to a variation not exceeding 6 per cent. above or below the declared pressure, under any conditions of supply which the consumer is entitled to receive, or such other variation as the Commission may from time to time allow, and shall not be altered or departed from to an extent greater than that variation except by consent of the Commission and upon such terms and conditions as it may impose, and after public notice has been given during a period of one month in such manner as it may require, and of the intention of the undertakers to apply for consent to alter same.

And the foregoing amendment shall be effective as from the first day of October, 1961.

And the Honorable George Oswald Reid, Her Majesty's Minister of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.

THE SHIRE OF DONCASTER ELECTRIC LIGHTING
ORDER No. 108—1914.

WHEREAS on the 30th December, 1914, the Council of the Municipality of the President, Councillors and Ratepayers of the Shire of Doncaster (hereinafter called "the undertakers") was granted an Order under the *Electric Light and Power Act 1896*, cited as the Shire of Doncaster Electric Lighting Order No. 108—1914 (hereinafter called "the said Order") to supply electricity within the portion of the municipal district of the Shire of Doncaster as set forth on the deposited map and thereon bounded by a red line commencing on 30th December, 1914: And whereas the said undertakers have made application to have an amendment made to the said Order: Now therefore His Excellency the Administrator of the Government of the State of Victoria, by and with the advice of the Executive Council thereof, acting pursuant to the provisions of section 13 of the *Electric Light and Power Act 1958*, doth hereby vary the said Order by substituting the following for clauses 26, 27, 28 and 29 set forth in the said Order, that is to say:—

Clause 26—System of Supply.

The system of supply throughout the area of supply shall be Multiple Earthed Neutral system of distribution, 50 cycles, alternating current, three-phase four-wire, voltage 415 volts between phase conductors and 240 volts between each phase and the neutral conductor.

The undertakers shall maintain throughout their distributing mains a supply of electricity complying in all respects with the foregoing description and the same shall be available to all applicants for supply, subject to the provisions of this Order, unless and except in so far as the Commission may otherwise permit either generally or in special cases; and any such permission shall be given only on such terms as the Commission shall, in its discretion, consider equitable to all parties concerned, and shall apply to variations of only such features of the system as it expressly covers.

Clause 27—Declared Pressure at Consumer's Terminals.

Before commencing to give a supply of electricity to any consumer, the undertakers shall declare to that consumer the constant pressure at which they propose to supply electricity at his terminals. The pressure so declared shall be constantly maintained, subject to a variation not exceeding 6 per cent. above or below the declared pressure, under any conditions of supply which the consumer is entitled to receive, or such other variation as the Commission may from time to time allow, and shall not be altered or departed from to an extent greater than that variation except by consent of the Commission and upon such terms and conditions as it may impose, and after public notice has been given during a period of one month in such manner as it may require, and of the intention of the undertakers to apply for consent to alter same.

And the foregoing amendment shall be effective as from the first day of October, 1961.

And the Honorable George Oswald Reid, Her Majesty's Minister of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.

THE WILLIAMSTOWN COUNCIL ELECTRIC
LIGHTING ORDER No. 111—1915.

WHEREAS on the 14th September, 1915, the Council of the Municipality of the Mayor, Councillors and Burgesses of the Town of Williamstown (herein called "the undertakers") was granted an Order under the *Electric Light and Power Act 1896*, cited as the Williamstown Council Electric Lighting Order No. 111—1915 (hereinafter called "the said Order") to supply electricity within the metes and bounds of the Municipality of the Town of Williamstown; and for the purpose of laying a feeder cable to convey the electric supply between the boundary of the Melbourne City Council and the boundary of the Williamstown Council a strip of land 3 feet in width along the following route:—From the boundary of the City of Melbourne at Queen's Bridge across Queen's Bridge; thence by Yarra Bank-road; thence by Normanby-road to Boundary-street within the City of South Melbourne; thence by Ross-street; thence by Williamstown-road; thence by the alignment of the Hobson's Bay main sewer of the Melbourne and Metropolitan Board of Works to the Yarra river within the Town of Port Melbourne; thence below the bed of the Yarra river at or near the pumping station at Spotswood, commencing on the 14th September, 1915: And whereas the said undertakers have made application to have an amendment made to the said Order: Now therefore His Excellency the Administrator of the Government of the State of Victoria, by and with the advice of the Executive Council thereof, acting pursuant to the provisions of section 13 of the *Electric Light and Power Act 1958*, doth hereby vary the said Order by substituting the following for clauses 26, 27, 28 and 29 set forth in the said Order, that is to say:—

Clause 26—System of Supply.

The system of supply throughout the area of supply shall be Multiple Earthed Neutral system of distribution, 50 cycles, alternating current, three-phase four-wire, voltage 415 volts between phase conductors and 240 volts between each phase and the neutral conductor.

The undertakers shall maintain throughout their distributing mains a supply of electricity complying in all respects with the foregoing description and the same shall be available to all applicants for supply, subject to the provisions of this Order, unless and except in so far as the Commission may otherwise permit either generally or in special cases; and any such permission shall be given only on such terms as the Commission shall, in its discretion, consider equitable to all parties concerned, and shall apply to variations of only such features of the system as it expressly covers.

Clause 27—Declared Pressure at Consumer's Terminals.

Before commencing to give a supply of electricity to any consumer, the undertakers shall declare to that consumer the constant pressure at which they propose to supply electricity at his terminals. The pressure so declared shall be constantly maintained, subject to a variation not exceeding 6 per cent. above or below the declared pressure, under any conditions of supply which the consumer is entitled to receive, or such other variation as the Commission may from time to time allow, and shall not be altered or departed from to an extent greater than that variation except by consent of the Commission and upon such terms and conditions as it may impose, and after public notice has been given during a period of one month in such manner as it may require, and of the intention of the undertakers to apply for consent to alter same.

And the foregoing amendment shall be effective as from the first day of October, 1961.

And the Honorable George Oswald Reid, Her Majesty's Minister of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.

A. MAHLSTEDT,
Clerk of the Executive Council.

THE SHIRE OF DONCASTER ELECTRIC LIGHTING
ORDER No. 119—1915.

WHEREAS on the 30th November, 1915, the Council of the Municipality of the President, Councillors and Ratepayers of the Shire of Doncaster (hereinafter called "the undertakers") was granted an Order under the *Electric Light and Power Act 1896*, cited as the Shire of Doncaster Electric Lighting Order No. 119—1915 (hereinafter called "the said Order") to supply electricity within that portion of the municipal district of the Shire of Doncaster not included in the area covered by the Shire of Doncaster Electric Lighting Order No. 108—1914, commencing on 30th November, 1915: And whereas the said undertakers have made application to have an amendment made to the said Order: Now therefore His Excellency the Administrator of the Government of the State of Victoria, by and with the advice of the Executive Council thereof, acting pursuant to the provisions of section 13 of the *Electric Light and Power Act 1958*, doth hereby vary the said Order by substituting the following for clauses 26, 27, 28 and 29 set forth in the said Order, that is to say:—

Clause 26—System of Supply.

The system of supply throughout the area of supply shall be Multiple Earthed Neutral system of distribution, 50 cycles, alternating current, three-phase four-wire, voltage 415 volts between phase conductors and 240 volts between each phase and the neutral conductor.

The undertakers shall maintain throughout their distributing mains a supply of electricity complying in all respects with the foregoing description and the same shall be available to all applicants for supply, subject to the provisions of this Order, unless and except in so far as the Commission may otherwise permit either generally or in special cases; and any such permission shall be given only on such terms as the Commission shall, in its discretion, consider equitable to all parties concerned, and shall apply to variations of only such features of the system as it expressly covers.

Clause 27—Declared Pressure at Consumer's Terminals.

Before commencing to give a supply of electricity to any consumer, the undertakers shall declare to that consumer the constant pressure at which they propose to supply electricity at his terminals. The pressure so declared shall be constantly maintained, subject to a variation not exceeding 6 per cent. above or below the declared pressure, under any conditions of supply which the consumer is entitled to receive, or such other variation as the Commission may from time to time allow, and shall not be altered or departed from to an extent greater than that variation except by consent of the Commission and upon such terms and conditions as it may impose, and after public notice has been given during a period of one month in such manner as it may require, and of the intention of the undertakers to apply for consent to alter same.

And the foregoing amendment shall be effective as from the first day of October, 1961.

And the Honorable George Oswald Reid, Her Majesty's Minister of Electrical Undertakings for the State of Victoria, shall give the necessary directions herein accordingly.
