Town and Country Planning Act 1961.

#### NOTICE OF APPROVAL OF STATEMENT OF PLANNING POLICY No. 2 (MORNINGTON PENINSULA).

PURSUANT to the provisions of section 8c of the *Town and Country Planning Act 1961* notice is hereby given that the Governor in Council on the sixth day of October, 1970 approved with modifications the Statement of Planning Policy No. 2 (Mornington Peninsula) prepared by the Town and Country Planning Board, the Statement as modified being set out hereunder.

#### STATEMENT OF PLANNING POLICY No. 2 (MORNINGTON PENINSULA).

1. This is a Statement of Planning Policy under Part I. of the *Town and Country Planning Act 1961*. It is directed primarily to the regional planning necessary for the conservation of part of the Mornington Peninsula as a recreation outlet and place of scientific interest. The part of the Mornington Peninsula to which the Statement applies lies generally to the south of the existing urban settlements of Mornington and Hastings.

2. The Planning Policy to be applied in this area is:—

- 2.1 The natural resources of the area shall be conserved for their recreation and scenic value and biological and geological significance;
- 2.2 Urban development of such scale and type as to prejudice the conservation of the area shall be discouraged; and
- 2.3 Development within the area shall be required to conform to visual and other standards appropriate to its special character.

3. This planning policy recognizes, as a matter of significance to the State, that:

- 3.1 The increasing participation in recreation and greater range of activities places a special value on natural resources in the vicinity of large urban areas;
- 3.2 The resources of the Mornington Peninsula provide a variety of outstanding landscapes and seascapes, places suitable for a wide range of recreation, and areas of special interest related to the natural sciences;
- 3.3 These resources have already established the Mornington Peninsula as a major recreation outlet and tourist attraction;
- 3.4 There is a need, as a corollary to conservation in the Mornington Peninsula, for stable communities to provide a satisfactory base for the promotion of recreation and resort facilities; and
- 3.5 The expected expansion of the Metropolis further to the east and the south, and port development at Western Port, make the Mornington Peninsula vulnerable to development which could prejudice the conservation of the area.

4. In implementing this policy the Regional Planning Authority is expected to prepare a conservation plan either separately or as part of a planning scheme for the whole of its region. The plan should pay special attention to the following:—

- 4.1 *Facilities for Tourism and Recreation*.—Development of existing and new settlements as balanced communities providing resort facilities such as holiday accommodation and recreation facilities and spaces, together with roads, vehicle parking and associated services.
- 4.2 *Landscape*.—Preservation or improvement of the landscape by reservation and/or regulation of the use of land.
- 4.3 *Flora and Fauna*.—Preservation of flora and fauna by reservation and/or regulation of the use of land.
- 4.4 *Access*.—Classification and location of access routes to places of interest, including the segregation of vehicles and pedestrians and the limitation of access where necessary.
- 4.5 *Pollution*.—Regulation of the use of land to control all forms of pollution and of pollution of waters in particular.

J. ROSSITER,  
Clerk of the Executive Council.

Melbourne, 6th October, 1970.

 POLICY No. 1 (WESTERN PORT).**

**P**URSUANT to the provisions of section 8c of the *Town and Country Planning Act 1961* notice is hereby given that the Governor in Council on the sixth day of October, 1970, approved with modifications the statement of Planning Policy No. 1 (Western Port) prepared by the Town and Country Planning Board, the Statement as modified being set out hereunder.

**STATEMENT OF PLANNING POLICY No. 1 (WESTERN PORT).**

1. This is a Statement of Planning Policy under the provisions of Part I. of the *Town and Country Planning Act 1961*. It is directed primarily to the regional planning necessary for the expected port and industrial development in the Western Port area and applies to coastal land on the mainland between Stony Point and Quail Island and on the western side of French Island.

2. The Planning Policy to be applied in this area is:—

- 2.1 The area shall be planned primarily as a major specialized port and heavy industrial complex;
- 2.2 The port shall be regarded as a principal generator of future urban growth to be integrated with development in the metropolitan area;
- 2.3 The regional planning of the area shall acknowledge the value of the resources of adjoining areas for recreation, nature conservation and tourism; and
- 2.4 The use of land in the area, including any reclaimed land, shall be regulated so as to control all forms of pollution.

3. This planning policy recognizes the value to the State of:—

- 3.1 The western channel in Western Port which is capable of accommodating deep draft shipping;
- 3.2 The suitability for heavy industry of the large area of land including land capable of being reclaimed, both on the mainland and French Island;
- 3.3 The relationship of the port to commerce and industry in the metropolitan area particularly in the vicinity of Dandenong; and
- 3.4 The relationship of the port to the economic and physical link between Gippsland and Melbourne.

4. In implementing this policy the Regional Planning Authority is expected to pay special attention to the following:—

- 4.1 Protective measures to ensure satisfaction of land needs for wharfage and associated purposes;
- 4.2 Adequate designation of land for industry dependent on port facilities;
- 4.3 Land use and subdivision controls to retain land holdings in their present size pending designation of appropriate future use;
- 4.4 Integration into the industrial and port complex of the part of French Island to which the Statement applies—including proper provision for service installations;
- 4.5 Designation of land capable of being reclaimed having due regard to the ecological effects; and
- 4.6 Visual integration of industrial and port development with the landscape.
