STATE RIVERS AND WATER SUPPLY COMMISSION WATER SUPPLY SERVICES.

BY-LAW NO. 5642, WATERWORKS DISTRICTS AND URBAN DISTRICTS.

THE State Rivers and Water Supply Commission, in pursuance and exercise of the power conferred by the Water Act, doth hereby make the By-law following:

- 1. This By-law shall apply to and have force in the Bellarine Peninsula, Mornington Peninsula, Mount Duneed, North Camperdown and Otway Waterworks Districts, the Antwerp, Berriwillock, Beulah, Birchip, Brim, Carwarp, Chillingollah, Chinkapook, Corop, Culgoa, Dimboola, Dingee, Dooen, Eildon, Gunbower, Heyfield, Hopetoun, Jeparit, Jung Jung, Koondrook, Lake Boga, Lalbert, Lascelles, Leitchville, Lockington, Macorna, Manangatang, Marnoo, Merbein, Meringur, Minyip, Mitiamo, Murrabit, Nandaly, Natimuk, Newstead, Nullawil, Nyah, Nyah West, Ouyen, Patchewollock, Piangil, Pimpinio, Pyramid Hill, Quambatook, Rainbow, Red Cliffs, Robinvale, Rupanyup, Sea Lake, Speed, Stanhope, Tallygaroopna, Tempy, Ultima, Waitchie, Walpeup, Watchem, Werrimull, Wonthaggi, Woomelang, Woorinen, Wycheproof and Yaapeet Urban Districts and the Urban Districts and Areas supplied with water from the Coliban System of Waterworks.
- 2. All previous By-laws and Regulations relating to the subject matter herein shall be and the same are hereby revoked but not so as to relieve, discharge, or absolve any person from liability to pay any rate or charge made in accordance with the provisions of the revoked By-laws or Regulations for payment of which rate or charge such person may have become liable prior to or at the date of this By-law coming into operation; or to abrogate or diminish the power of the said Commission to recover and enforce payment of any such rate or charge; or to annul or stay any proceedings taken or business initiated as in conformity with the provisions of the By-laws

or Regulations hereby revoked prior to the date of this By-law coming into operation, but the same respectively may be continued and carried to completion.

PART I.—INTERPRETATION.

Definitions

- 3. (1) In this By-law unless inconsistent with the context or subject matter—
 - "Approved" means approved by the Commission or the Proper Officer unless specifically stated otherwise.
 - "Aqueduct" means any water supply channel vested in, belonging to, or under the the control of, the Commission.
 - "Building Line" means a boundary between a thoroughfare and a tenement.
 - "Commission" means the State Rivers and Water Supply Commission.
 - "District" means any area included within the boundaries of the districts referred to in Clause 1 hereof.
 - "Fittings" includes all fittings used in connexion with conveying, measuring, supplying, storing or regulating the flow of water derived from a main pipe or aqueduct and includes appliances.
 - "Licensed Plumber" means a plumber who holds a current licence issued by the Commission to carry out water supply works approved by the Commission. Such licensed plumber is not authorized by this licence to do any kind of work connected with the sanitary fittings of houses or the sewerage systems of the Commission or any other Authority.
 - "Main Pipe" means any pipe vested in, belonging to, or under the control of, the Commission and used for the conveying of water.
 - "Nominal Diameter" of service pipes means the nominal internal diameter except for Types 2, 3, 4 and 5 copper pipes in which cases it means nominal outside diameter.
 - "Private Extension" means a private pipe to enable a water supply to be provided from a main pipe or aqueduct to one, or more than one, tenement not fronting the main pipe or aqueduct.
 - "Proper Officer" means any employee of the Commission authorized by the Commission to act as a proper officer for the purposes of this By-law.
 - "Service Pipe" includes a private extension and any pipe (not being a main pipe) and fittings used in connexion with the supply of water from a main pipe, aqueduct, or private extension, to a tenement or in connexion with the use or consumption of such water in, or on such tenement, whether directly subject to water pressure from a main pipe or aqueduct or supplied indirectly through the intervening medium of a storage tank.
 - "Storage Tank" means any vessel used, or intended to be used, for the storage of water and includes a cistern.
 - "Tenement" includes land whether built upon or not.
 - "The Act" means the Water Act 1958.

Committee CAMP (42) (See

- "Thoroughfare" includes a street or road being a public highway or a private street or road having a carriage way either accessible to the public from a public street or forming a common access to lands and premises separately occupied.
- "Works of Water Supply" includes the construction, alteration, extension, disconnexion, removal, maintenance, repair, renewal, or clearing of any service pipes connected, or intended to connect, directly or indirectly, to any main pipe or aqueduct.
- (2) All words used in this By-law which are defined in the Act shall have the meanings defined by the Act.
- (3) The Acts Interpretation Act 1958 shall apply to this By-law in like manner as it applies. to an Act of Parliament.
- (4) (a) If any provision of this By-law is inconsistent with the provisions of the Water Act 1958 or any regulations made under such Act, such provisions of this By-law shall, to the extent only of such inconsistency, be deemed to be invalid and inoperative; and
- (b) this By-law shall be read and construed so as not to exceed the By-law making power of the Commission to the extent that where any provision of this By-law would but for this clause have been construed as being in excess of that power, it shall nevertheless be a valid By-law to the extent to which it is not in excess of that power.

PART II.—LICENSED PLUMBERS.

4. No person shall interfere with any aqueduct, Unlicensed main pipe, or service pipe nor shall execute any persons not works of water supply except that:—

- (a) a licensed plumber may execute such works subject to the provisions of the Act and this By-law; and
- (b) a plumber's apprentice or a person registered by the Plumbers' and Gas-fitters' Board, Victoria, as a Plumber General may work in the actual per-formance of any such works if in the employ of, or in common employment with, a licensed plumber and under the direct control and supervision of such licensed plumber.
- 5. (1) No licensed plumber shall execute any works of water supply-
 - (a) Unless he has made application on the Application appropriate form contained in the First plans. Schedule and unless such application has been approved.

In the case of a service pipe with a diameter greater than 2 inches the application form shall be accompanied by two copies of a properly prepared plan drawn to a scale specified thereon of the tenement in or on which it is proposed to execute the said works showing all buildings and structures and the arrangement of all pipes and other works which it is proposed to lay or construct therein or thereon.

(b) Contrary to or not in conformity with:-

approved application referred to in paragraph (a) hereof or of this By-law; and

(ii) any modifications or additional requirements specified by the Commission or the Proper Officer in writing when granting approval.

Urgent repairs.

- (2) Should urgent repairs be required to prevent the waste or escape of water a licensed plumber may, notwithstanding the provisions of sub-clause (1) hereof, execute such repairs without the approved application prescribed therein provided that such application is lodged within twenty-four hours of such commencement.
- (3) Every application form referred to in this clause shall be signed by the owner of the tenement or his agent and the licensed plumber actually engaged to execute the work of water supply referred to therein.

Notices to be given by licensed plumbers.

- A licensed plumber shall give two days' notice to the Proper Officer:—
 - (a) of the date of commencement of any approved works of water supply;
 - (b) of the day (except a public holiday or Saturday) during the progress of the approved works of water supply when such works will be accessible for inspection;
 - (c) of the day (except a public holiday or Saturday) when the approved works of water supply will be completed and be accessible for final inspection.

PART III.—Execution of Works of Water Supply.

- 7. No licensed plumber shall execute any works of water supply unless he:
 - (a) complies with any special directions or orders given or issued by the Commission or the Proper Officer;
 - (b) executes the work in a tradesmanlike expeditious manner to the satisfaction of the Proper Officer;
 - (c) uses materials of the description, quality, kind, and standard as prescribed in this By-law;
 - (d) employs only competent operatives and assistants;
 - (e) conforms to the provisions of any regulations and By-laws made under any Act and pays all fees and charges specified therein;
 - (f) pays all fees payable to a municipality for the opening of any public road or street or otherwise in connexion with the works;
 - (g) restores upon completion of the work any part of any public road or street to the satisfaction of the municipal council or other authority having control thereof;
 - (h) except where authorized in writing by the owner or his agent to omit restoration, restores any other property interfered with by the work to the satisfaction of the said owner or agent;
 - (i) takes all proper and necessary precautions so that no accident, damage, or unnecessary inconvenience, may be directly, or indirectly, occasioned to any person or property by the execution of the work; and

- (j) exercises at all times immediate supervision over the work.
- 8. No person shall install any service pipe Service pipes. unless:
 - (a) The nominal diameter of the service pipe—
 - (i) between a main pipe and the meter is not less than \(\frac{3}{4}\)-inch;
 - (ii) within a tenement does not exceed the nominal diameter of the service pipe approved for the supply of water to the tenement;
 - (iii) between the meter and all riser pipes in or on a building is not less than the nominal diameter of the service pipe approved for the supply of water to the tenement;
 - (b) except for the meter bends the portion Depth of a revice pipe which lies in or on land which is not a thoroughfare is not less than 12 inches below ground level or is properly secured to a building or structure; and
 - (c) the portion of a service pipe which lies in or on any thoroughfare or where it may be exposed to vehicular traffic is not less than 18 inches below ground level or at such greater depth as the authority which has control of the road or thoroughfare may require.
- 9. (1) No person shall install a service pipe Access to not readily accessible for the purpose of inspection, repair and renewal unless it is comprised of copper piping and copper or brass fittings.
- (2) No person shall erect or construct any building or structure in such manner that any part of a service pipe is made inaccessible for the purposes of inspection, repair and renewal, unless such part of the service pipe is comprised of copper piping and copper or brass fittings.
- 10. No person shall permit or allow any solid, Cross liquid or gas, to have access, or means of access, to water supplied by the Commission prior to the delivery thereof. For the purposes hereof water so supplied shall be deemed to be delivered when it has emerged free from any service pipe.

11. No person shall attach or fix or permit or allow to remain attached or fixed to any service pipe, any appliance containing, or having provision for the containing of, any solid or gas or of any liquid other than water supplied by the Commission.

- 12. No person shall connect the outlet piping from any storage tank to a service pipe directly connected with a main pipe or aqueduct.
- 13. (1) No person shall make a direct con-Connexions nexion between a service pipe and a top or side to steam inlet to a steam boiler unless:—
 - (a) a screw-down high pressure stop-tap with its spindle vertically upwards is installed on the service pipe connected to the boiler;
 - (b) a vertically acting reflux valve is installed between the stop-tap and the boiler; and

- (c) a half-inch testing ferrule or bib-tap is installed between the reflux valve and the stop-tap.
- (2) No person shall make a direct connexion between a service pipe and a top or side inlet to a steam boiler where a supply is to be provided from the service pipe together with an injected supply from a boiler tank or condensate sump unless: -
 - (a) such connexion is made in accordance with the provisions of sub-clause (1);
 - (b) the injected water to the boiler is taken through a separate opening in the wall of the boiler.
- 14. No person shall make a connexion between a service pipe directly connected to a main pipe and the piping from a boiler storage tank or condensate sump or pump.

Connexions to hot water radiation systems.

15. No person shall connect a service pipe to a hot water radiation system or similar equipment other than indirectly through a storage tank.

Connexions to water operated appliances.

16. No person shall connect, operate, or use, a water operated appliance to, or on, a service

17. No person shall connect to a service pipe to an apparatus an apparatus in which water is used for cooling in which water is used for cooling purposes and run to waste, if the total quantity of water used for, or in the operation of, such apparatus under full output exceeds one-half (1/2) gallon per minute per tenement.

Storage tanks.

- 18. No person shall fix a storage tank to a service pipe unless:-
 - (a) the storage tank is provided with a ball-valve, overflow pipe and cover;
 - (b) the supply of water to the ball-valve is controlled by a stop-tap connected to the ball-valve by a flexible copper pipe;
 - (c) the cold water feed into a storage tank is at least ½ inch above the top of the overflow from the tank;
 - (d) the overflow pipe is of galvanised sheet iron or copper with soldered joints and shall be at least 11 inches in diameter and all other parts of such tank are made of approved materials;
 - (e) the storage tank and connexions thereto are situated in an accessible location;
 - (f) where a storage tank is installed between the roof and the ceiling of any building there is fixed beneath such tank a tray constructed of an approved material and separated from the tank by evenly spaced wooden slats at least ½ inch thick and provided with an overflow pipe of at least 2 inches in digmeter constructed of galvanised in diameter constructed of galvanised sheet iron or copper with soldered joints;
 - (g) where a storage tank is installed between the roof and the ceiling of any building or in any other position not readily accessible, an additional controlling gate valve is fixed in an easily accessible position in the rising pipe supplying the storage tank at or near ground level in an external rising pipe or at or near floor level in an internal rising pipe;

- (h) an overflow pipe whether from a storage tank or from a tray or from a storage tank and a tray is so constructed as to discharge outside the building in which the storage tank is situate in such a manner that the discharge, if any, therefrom may be readily discernible; and
- (i) such additional requirements as the Proper Officer or the Commission directs are complied with.
- 19. (1) No person shall install a bath which Baths. has a holding capacity of more than 100 gallons.
- (2) No person shall connect a service pipe to Swimming Pools. or supply water to a swimming pool except in accordance with conditions specified by the Commission or the Proper Officer.
- (3) No person shall connect a service pipe to Troughs. or supply water to a trough unless:
 - (i) the trough is provided with a ball-valve and an approved ball-valve cover which shall prevent interference with the operation of the valve by stock;
 - (ii) the supply of water to the ball-valve is controlled by a separate stop-tap fixed in an accessible position adjacent to the ball-valve;
 - (iii) the water feed into the trough is at least $\frac{1}{2}$ inch above the top of the overflow pipe or the top of the trough if an oveflow pipe is not provided.

20. No person shall connect a service pipe, Urinals and water closets. directly or indirectly, to, or supply water to, a urinal or water closet except through a cistern or flushometer service which shall be so constructed that the water cannot flow continuously.

PART IV .- PRIVATE EXTENSIONS.

- 21. No person shall lay a private extension in a throughfare unless: -
 - (a) it is parallel with, or at right angles to, the building line. When laid parallel to the building line it shall be located at a distance from the building line as determined by the Proper Officer and the municipality or authority having control of the said the control of the said thoroughfare;
 - (b) a stop-tap ferrule is fixed in the main pipe so that the piping from it is at right angles to such main pipe and a stop-tap is fixed on the private ex-tension in the thoroughfare at each change of direction;
 - (c) a separate service pipe in compliance with this By-law is laid from a private extension to each tenement served.
- 22. (1) Any permission granted by the Commission to supply a tenement with water by agreement (including by means of a private extension) may be revoked at any time.
- (2) Where such permission is revoked the owner or occupier of a tenement shall arrange for a licensed plumber to disconnect the service pipe within a period specified by the Commission or the Proper Officer in writing.
- (3) If the owner or occupier of a tenement fails to arrange for the said disconnection within the period prescribed, the Commission may disconnect such service pipe and the owner or

occupier of a tenement shall be liable to the Commission for all costs and expenses incurred therein and all such costs and expenses may be recoverable by the Commission as a debt in any court of competent jurisdiction.

PART V.—CONNECTIONS TO MAIN PIPES AND AQUEDUCTS.

Tappings and connexions.

23. No person other than a Commission employee acting in the course of his duty shall tap or plug a main pipe or alter a stop-tap ferrule in a main pipe. Excavations required for such works shall be provided by the licensed plumber requiring the tapping, plugging or alteration, and shall be of sufficient size to enable the work on the main pipe to be carried out conveniently.

Tapping fees.

24. No person shall affix or connect any service pipe to any main pipe without having first paid to the Commission the approved tapping fee.

Position of stop-taps.

ji. . .

- 25. No person shall install a service pipe unless a properly secured screw-down stop-tap is fixed on such service pipe and positioned in compliance with the following requirements:—
 - (a) (i) Between the main pipe and the building line within a distance of one foot of the building line and covered by a box complying with the requirements of the Municipality in which the service pipe is laid; or
 - (ii) Between the top inlet bend and the meter or future meter position in the case where a meter has been or will be installed; or
 - (iii) On the service pipe above the ground in an accessible position not more than six feet inside the building line in the case where a meter has not been and will not be installed.
 - (b) Where a meter has been installed inside a building in a position approved by the Proper Officer on the outlet side of the meter in addition to that required under paragraph (a) hereof.
 - '(c) In addition to the stop-taps required under the previous paragraphs of this clause a stop-tap is required on a service pipe connected to a private extension at its offtake from the private extension.

Reflux valves.

26. No person shall install a stop-tap valve without an approved reflux action unless he fits an approved reflux valve (to prevent the return of water to a main pipe or aqueduct) on the service pipe above ground in an accessible position approved by the Proper Officer or in a properly constructed and drained pit provided with a cover approved by the Proper Officer and capable of being opened by one man together with an approved locking device on the cover when so directed.

27. (1) No person shall connect two or more service pipes supplying any tenement together unless a reflux valve is fixed on each service pipe in a position approved by the Proper Officer and provision made for testing the working of the reflux valve in position by affixing a stop-tap ferrule or a bib-tap on the connected service pipe adjacent to the inlet side of the reflux valve.

- (2) No person shall install a stop-tap ferrule for testing, referred to in sub-clause (1) hereof, in a thoroughfare unless it is covered by a cast viron box which complies with the requirements fof the Municipality in which the service pipe is
- 28. No person shall lay a service pipe between a stop-tap ferrule which has been installed on a main pipe at a point opposite to the point where the service pipe is to enter the tenement to be supplied and the tenement unless the service pipe and the vertical riser pipe between the inlet bends to the meter are installed from the stop-tap ferrule in a straight line at right angles to the building
- 29. No person shall lay a service pipe between a stop-tap ferrule which has been installed on a main pipe at a point not opposite to the point where the service pipe is to enter the tenement to be supplied and the tenement unless an iron box and riser of approved pattern are fixed over the stop-tap ferrule in the main pipe and a high-pressure screw-down stop-tap with an approved cover are fixed on the service pipe at each subsequent change of direction of such pipe and an additional stop-tap is fixed in accordance with Clause 25 of this By-law.
- 30. No person shall connect a service pipe to a stop-tap ferrule which has been installed on a main pipe beneath a concrete pavement or other similar type of pavement unless an iron box and riser of approved pattern are fixed over the stoptap ferrule.
- 31. No person shall construct a concrete pavement or other similar type of pavement over a stop-tap ferrule which connects a service pipe to a main pipe unless an iron box and riser of approved pattern are fixed over the stop-tap

PART VI.-REPAIRS.

32. The owner or occupier of a tenement sup-Repairs to plied with water through a service pipe shall service pipes, ensure that the service pipe is kept in good and substantial repair.

33. If any person refuses, neglects or delays to have any service pipe used by him properly repaired after having been required in writing by the Commission so to do, the Commission by its Proper Officers, servants, or agents, may enter into, or upon, any tenement supplied by such service pipe and may discontinue, or restrict, the supply of water to such tenement so as to prevent the waste of water.

PART. VII.-MATERIALS.

34. No person shall install or replace any ser-specification for piping and materials. vice pipe unless: -

- (a) that part of any service pipe (excepting riprivate extensions) which extends in a thoroughfare from an aqueduct, main pipe or private extension up to, and including, the bottom meter out-let bend is of the following materials: -
 - (i) Where the diameter of the service pipe is 2 inches or less-copper with copper or brass fittings.

- (ii) Where the diameter of the service pipe is greater than 2 inches—copper, galvanised iron, cement mortar lined cast iron, or internally and externally protected welded mild steel.
- (b) that part of any service pipe not referred to in paragraph (a) hereof and all private extensions (whether in a thoroughfare or not) are of copper, galvanised iron, cement mortar lined cast iron, internally and externally protected welded mild steel, bitumen coated asbestos cement or, in certain cases as specified hereunder, approved plastic.

Subject to an appropriate application for permission to use plastic pipes being lodged on the prescribed form (in addition to the form contained in the First Schedule), approval may be given in the following cases to the use of polyethylene and rigid polyvinyl chloride pipes of approved manufacture in certain areas and under certain conditions:—

- (i) polyethylene and rigid polyvinyl chloride pipes within the tenement after the meter.
- (ii) rigid polyvinyl chloride pipes for private extensions whether in a thoroughfare or not;

Fittings, &c.

- (c) all materials, fittings and apparatus used are of the best quality of their respective kinds, sound, new, free from defects and tested and stamped in accordance with the requirements of the standards approved by either the Melbourne and Metropolitan Board of Works, the Geelong Waterworks and Sewerage Trust or the Ballarat Water Commissioners, or, if such standards are not applicable, to the requirements of the appropriate specifications of the Standards Association of Australia;
- (d) pipes which have been manufactured and tested in accordance with the requirements of the appropriate specifications of the Standards Association of Australia are used;

Galvanized fron pipes. (e) galvanised iron pipes comply with the requirements of the Australian Standard Specification "Steel Tubes and Tubulars suitable for Screwing" and the minimum requirements for the wall thicknesses of such pipes shall be as specified in the Second Schedule;

Copper pipes.

(f) copper pipes comply with the requirements of the Australian Standard Specification "Copper Tubes for Water, Gas and Sanitation" and the requirements for the wall thicknesses and the usage of such pipes shall be as specified in the Third Schedule;

Joints.

(g) except for plastic pipes all joints used to join pipes and fittings are of the types specified in the Fourth Schedule. All joints used to join polyethylene pipes and associated fittings and rigid polyvinyl chloride pipes and associated fittings are to be of types approved by the Commission.

PART VIII.—METERS.

35. (1) Except where no meter has been pro- Water to pass vided by the Commission no person shall use any through meter in the correct service pipe for the supply of water unless the direction. whole of the water supplied to such service pipe passes through a meter in the correct direction.

(2) All meters shall be provided and main-Installation tained by the Commission and no licensed of meter. plumber shall install a service pipe unless before installing such service pipe he ascertains from the Commission the size of the meter to be installed and makes provision in the arrange-ment and installation of the service pipe for connection of such meter in accordance with the following requirements: -

- (a) The meter shall be located within the tenement and not more than six feet from the building line.
- (b) The meter shall be in an easily accessible position and shall be protected from accidental damage.
- (c) All meters installed on services of 2 inches internal diameter and under shall be properly and securely affixed to such services by means of connections of four quarter bends of brass, copper or other approved material.
- (d) The meter shall be fixed truly level on a solid foundation of brick, stone or concrete, the top of which foundation is level with, or above, the surface of the ground, except that with the approval of the Proper Officer a meter may be fixed in a properly constructed and effectively drained pit provided with a cover capable of being opened by one man together with an approved locking device on the cover when so directed.
- (e) Washers for meter connection couplings shall be of leather or other material approved by the Commission.
- (f) All bends used in the fixing of meters shall be left exposed until inspected by the Proper Officer.
- (3) Pending the supply and installation of the meter by the Commission the licensed plumber authorised to install the service pipe shall connect a distance piece of an approved material in the service pipe in place of the meter.
 - 36. No person shall: -

- (a) construct, or permit, or suffer to be inspection constructed, any building over any meter:
- (b) place, stack or store, or permit or suffer to be placed, stacked, or stored, any material upon any meter;
- (c) do, or permit, or suffer to be done, any act, matter, or thing, whereby inspection of any meter shall be interfered with, prevented, obstructed, or in any way rendered difficult.

37. (1) Every owner or occupier of a tenement safe custody of meter. who has a water meter owned by the Commission fixed on a service pipe to measure the quantity of water supplied from a main pipe or aqueduct shall be responsible for the safe custody of the said meter and if it is stolen from the service pipe he shall pay to the Commission the cost of the meter, or if it is wilfully or negligently damaged while fixed on the service pipe, he shall pay to the Commission the cost of repairing the damage.

(2) The owner or occupier of a tenement shall immediately notify the Commission if the meter is stolen or if the meter is damaged.

Testing of meter.

38. Any owner or occupier of a tenement may at any time request the Commission in writing to test any meter attached to the service pipe through which water is supplied to such tenement and shall at the time of delivery of such request pay the prescribed fee for this purpose. Commission shall thereupon remove and test the meter or cause the same to be tested in such manner as it thinks fit. If such meter is found to be registering correctly within the requirements of the Commission's specification the Commission may retain the said sum of money in satisfaction of the fee for testing the meter hereinbefore prescribed, but if such meter is found to be registering otherwise the said sum of money shall be returned to the owner or occupier of the tenement (as the case may be).

Testing large meters in position.

39. Provision shall be made by the owner or occupier of a tenement for testing meters of 2 inch or larger sizes in position by fixing a stoptap or valve on the outlet side of the meter with a stop-tap ferrule between the stop-tap or valve and the meter. No branches shall be taken off between the stop-tap or valve and the meter. The sizes of the stop-tap ferrules shall be as follows: -

3 inch . For 2 inch and 3 inch meters 1 inch For 4 inch meters 1½ inches

For meters larger than 4 inch

Consumer leaving tenement to notify Commission.

40. Any person who ceases to occupy a tenement which is supplied by a service pipe on which a meter is fixed shall give written notice to the Commission at least six days before the date of vacation of the tenement.

. PART IX.—FIRE SERVICES.

Private fire services.

- 41. (1) No person shall install a private fire service pipe unless each fire hose tap on such fire service is sealed. For each fire service pipe laid from a main pipe or aqueduct there shall be paid to the Commission the prescribed fixing fee and thereafter a prescribed annual fee. When the fire service is required to be sealed by the Com-When the fire mission there shall be paid to the Commission a prescribed sealing fee.
- (2) Except in the case of fire no person shall wilfully break the seal affixed to any firehose tap on a fire service pipe and in the event of any such seal being broken accidentally or otherwise the owner or occupier of the tenement shall within twenty-four hours of such breaking give notice in writing of such breaking to the Commission. The owner or occupier shall except if any seal has been broken for fire extinction purposes, pay a resealing fee.
- (3) No person shall install any hydrant or riser pipe with a fire hose tap attached which is fixed to a private fire service pipe unless they are in a conspicuous position and painted with a distinguishing coating of bright red paint. The the said paintwork in good condition.
 - (4). Except as otherwise provided in this clause the provisions of this By-law in regard to service pipes shall, with such adaptions as are necessary, extend and apply to private fire service pipes.
 - (5) Each application to install a private fire service shall include a plan showing all fire hose taps.

- (6) No person shall take or use water from any private fire service except for fire extinction purposes.
- (7) In the event of the owner or occupier of a tenement committing any offence under this clause or permitting or suffering any such offence or breach to be committed the Commission may by notice in writing require the owner or occupier to disconnect the private fire service and the said owner or occupier shall arrange for a licensed plumber to forthwith disconnect the said private fire service.
- 42. No person shall connect a private sprinkler sprinkler fire fire service to a service pipe except in accordance services, with conditions specified by the Commission or the Proper Officer.

PART X.—GENERAL.

43. Any service pipe laid in accordance with Existing the provisions of the Act and By-laws in force at the time of the laying of the pipe shall be deemed to have been laid in accordance with the provisions of this By-law but every renewal, alteration, addition or replacement thereof or thereto shall be effected in accordance with the provisions of this By-law.

44. If a tenement is, or is to be, supplied from Storage a main pipe or an aqueduct in which the supply requirements of water is intermittent or where the owner or conditions of occupier of a tenement at any time requires considerably more water than the normal demand from a main pipe or aqueduct, the Commission may direct that the owner or occupier shall at his own cost provide such storage as will be sufficient to supplement the supply of water during such periods.

PART XI.—MISUSE AND WASTE OF WATER.

- 45. No person supplied with water by the wasting of Commission shall waste or misuse the water or water. permit or suffer it to be wasted or misused.
- 46. No person shall take, or carry away, or Sale of water. permit or suffer any other person to take, or carry away, any water from a tenement supplied with water by the Commission and no person shall sell any water supplied by the Commission.
- 47. No person other than a servant or agent Use of fireplugs of a Municipality or a Fire Brigade in the execution of his duty as such servant or agent shall open, close, or otherwise interfere with, any fireplug or hydrant attached to a main pipe.
- 48. No person other than a servant or agent Use of taps, of the Municipality, Corporation or body having valves, &c., in the care and management of a public park, public and reserves. garden or reserve for public purposes shall open, close, or otherwise interfere with, any tap, valve, or other like regulator (except a drinking fountain or other tap provided for public use) in, or connected with, any service pipe used for the supply of water to such park, garden or reserve.

PART XII.—PENALTIES.

49. Any person who commits any breach of the Penalty for provisions of this By-law shall be guilty of an By-law offence and shall be liable to a penalty of not provisions. more than One hundred dollars (\$100) unless he shows that prior consent to such breach was given in writing by the Commission or the Proper Officer

50. Any owner of a tenement who fails to Remedying comply with a notice requiring him to remedy works of any works of water supply made contrary to the

requirements of this By-law in accordance with a notice served on him in writing by the Commission or the Proper Officer and by the day specified in that notice shall be guilty of an offence and shall be liable to a penalty of not more than One hundred dollars (\$100).

51. If any person supplied with water by the Commission wrongfully does, or causes, or permits to be done, anything in contravention of the provisions of the Act and this By-law, or wrongfully fails to do anything which, under any of such provisions, ought to be done for the prevention of the waste, misuse, undue consumption or contamination of the water of the Commission, the Commission may (without prejudice to any remedy against him in respect thereof) close, or cut off, any of the pipes by, or through which, water is supplied by it to him or for his use and may cease to supply him with water so long as the cause of injury remains or is not remedied.

FIRST SCHEDULE.

(Clause 5 (1) (a)—Application Forms.)

T.W. 106

STATE RIVERS AND WATER SUPPLY COMMISSION

Tapping No.

District

Rate No.

APPLICATION FOR PERMISSION TO INSTALL A NEW WATER SERVICE.

IMPORTANT-This form must be completed in every detail.

I hereby apply for permission to lay a Service Pipe from the Commission's Water Main to my property as stated hereunder:—

PARTICULARS OF PROPERTY:--

Allotment Number

Lodged Plan No.

Crown Allot No.

Section

Parish

Street

Town

Name of and distance from nearest cross street

For what purpose is water required

Dwelling, Poultry Farm, Stock, etc. (full description required)

If rural land: Area

acres. Number of houses

Number of rooms

PARTICULARS OF SERVICE APPLIED FOR:-

Commission main from which Service is required

(Name of Street)

Service Piping:-Sizes and Types

Number of Water Outlets to be installed: Cold Taps

Hot Taps

Water Closets

Others

(Give details)

Details of Pump if required

SKETCH showing the location of the property, proposed position of tapping and layout of piping, etc., is desirable but must be provided for services larger than $\frac{3}{4}$ inch in diameter and private extensions.

(Use back of this Form)

METER FITTINGS shall be provided in all cases when service is installed, and meter shall be fixed at any time by the Commission.

NOTE.—ROAD OPENING—Any person who intends to open or break up any street for the purpose of laying a pipe is required to obtain the prior consent of the Municipal Council. Any person failing to do so may be liable to a penalty.

PRIVATE EXTENSIONS—The owner of a property to which water is supplied by PRIVATE EXTENSION is required to arrange for and meet the whole cost of the transfer of the service piping from the private extension to the water main upon the main being laid opposite the frontage to the property.

I HEREBY CERTIFY that the above particulars are true and correct and AGREE to comply with the conditions of supply and to pay the charges fixed from time to time by the Commission in accordance with the provisions of the Water Act.

Owner's Name

Owner's Signature

(BLOCK Letters)

Date `n'

I HEREBY AGREE to install the water service detailed above (as amended by the Commission as a condition for its approval) in accordance with the Water Act and By-laws made thereunder.

| 4 5 | 17 | ∙056 | | | |
| - 6 | 16 | .064 | | | |

Provided that Type 5 tubes are:-

- (α) used in straight lengths in the "as drawn" condition and are not bent or offset;

- not bent or ottset;

 (b) not annealed except that local annealing may be permitted where necessary in jointing the pipes;

 (c) not used to fabricate fittings and/or junctions;

 (d) jointed by the formation of a parallel socket and brazing with an approved low temperature brazing alloy and/or connected by, or to, capillary type fittings with either soft solder or approved low temperature brazing alloy;

 (e) not connected by or to compression fittings.
- (e) not connected by, or to, compression fittings.

Note.—Approved brazing alloys are silver-copper-phosphorous alloys containing 15 per cent. silver and silver-copper-cadmium-zinc alloys containing not less than 35 per cent. silver.

FOURTH SCHEDULE. SERVICE PIPE JOINTS.

Clause 34. Approved joints for service pipes and fittings are as follows:—

For cement mortar lined cast

iron pipes ..

.. Flanged joints, gibault thimble joints, poured and caulked lead joints and rubber ring joints.

For asbestos cement pipes

. Gibault thimble joints and rubber ring joints.

For copper pipes

.. Subject to the provisions of Schedule 3, screwed (yarned or taped), flanged, compression, capillary and brazed joints with approved fittings.

For galvanised iron pipes

.. Screwed (yarned or taped) and thimble rubber ring joints.

For internally and externally protected welded mild steel pipes

.. Flanged joints, rubber ring joints and welded joints.

The foregoing By-law was made by the Commsision on the 23rd day of November, 1970, and the Common Seal of the Commission was hereunto affixed the 19th day of March, 1971, in the presence of—

A. L. TISDALL, Chairman.

(SEAL)

R. A. HORSFALL, Commissioner.

K. D. GREEN, Commissioner.

Approved by the Governor in Council, 4th May, 1971.— JOHN A. HORLOCK, Acting Clerk of the Executive Council.
