STATEMENT OF PLANNING POLICY No. 4
(RIVER YARRA).

WHEREAS the Town and Country Planning Board on the 7th day of May, 1971, adopted a Statement of Planning Policy, a copy of which is annexed hereunder.

And whereas in the preparation of the said statement the said Board conferred with the State Planning Council:

And whereas a draft of the proposed statement was submitted to the said Council and to the Melbourne and Metropolitan Board of Works for consideration and comment:

And whereas comments were received from the Melbourne and Metropolitan Board of Works and were forwarded to the Minister with the adopted statement:

Now therefore, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof doth by this Order approve the said statement with modifications so that the statement as modified shall be as set out hereunder, that is to say:

1. This is a Statement of Planning Policy under Part 1 of the *Town and Country Planning Act 1961*. It refers to the River Yarra and its immediate environs and to the whole of its catchment east of Warrandyte.

2. The Planning Policy is—

2.1 The River Yarra and its environs shall be identified through appropriate planning measures as one of the most significant physical features in the Melbourne metropolis.

2.2 The River Yarra and its immediate environs shall be planned primarily as an open space system for nature conservation and recreation, with provision, where appropriate, for primary production and forestry.

2.3 The planning of areas within the catchment of the River Yarra east of Warrandyte shall take account of the potential of the area for water catchment purposes.

3. The major factors influencing this Planning Policy are—

3.1 The natural resources of the River Yarra because of their great value and diversity are a social and economic asset of State significance.

- 3.2 The intensification and expansion of urban development in the metropolitan area are likely, without adequate safeguards, to cause further deterioration in conditions which have resulted from ill-considered, adverse or excessive exploitation of the River and its environs.
 - 3.3 The River and its catchment immediately east of Warrandyte has a potential for further large scale use for water supply purposes provided levels of river pollution are kept to a minimum.
 - 3.4 The area in the immediate environs of the River is vulnerable to alienation for purposes which are out of character with the high quality landscape.
 - 3.5 The Yarra Valley from the City eastwards is a landscape feature which is capable of providing a tourist attraction of State significance.
4. Implementation of the Planning Policy for the River Yarra requires that special attention be given to the following:—
- 4.1 An efficient system of management designed to ensure co-ordination of land use planning and all forms of development on private and public land.
 - 4.2 Assessment of the future demand for outdoor recreation opportunities.
 - 4.3 Location and planning of recreation centres together with the associated services.
 - 4.4 Preservation of the plant community and native fauna by reservation or regulation of the use of land.
 - 4.5 Preservation and enhancement of landscape by reservation or regulation of the use of land; selection of landscape areas and vantage points of high quality for special treatment.
 - 4.6 Location and regulation of the use of land and associated works for extractive industry.
 - 4.7 Formulation of standards for the siting and layout of buildings in recreation areas and areas of special landscape value.
 - 4.8 The most careful location, design and construction of any essential thoroughfares having regard to the special characteristics of the area and its potential; the regulation of land use adjoining road frontages with particular emphasis on visual harmony.
 - 4.9 Regulation of the use of land to minimize pollution generally and particularly of the creeks which feed the River Yarra system and to control the incidence and extent of flooding.
 - 4.10 Minimization of fire hazards.
 - 4.11 The most careful location and control of any urban development.

And the Honorable Alan John Hunt, Her Majesty's Minister for Local Government for the State of Victoria, shall give the necessary directions herein accordingly.
