Provided further that the Tribunal shall determine the appropriate subdivisional range where specific provision is not made in this Regulation.

(ii) *Allowances.*

A member of the Assistant Class who is appointed to a recognized post of responsibility shall receive, in addition to his base salary, an annual allowance of \$750.

Eligibility to proceed to subdivision 12;

Completion of at least four years of actual teaching experience as a classified teacher, or, alternatively, four years of actual teaching experience as a fully qualified teacher, including at least one school year's current service with the Victorian Education Department. Unless otherwise determined by the Tribunal the adjustment shall be effective from the 1st January of the year following the gaining of the additional qualification. Provided that the commencing salary of a member possessing qualifications entitling him to the subdivisional range 5-14 shall not be in excess of subdivision 12.

- (c) In special cases the Tribunal on the recommendation of the Director-General may approve credit for experience other than that set out in this clause.

8. A teacher who is transferred from another division to the Assistant Class in the Secondary Schools Division shall be classified in a subdivision corresponding to his previous classification and shall be eligible for any subsequent increment at the date of his former entitlement.

Provided that, except where prescribed by way of higher duties allowances in clause 12, the responsibility allowance shall be paid only to permanent members who fulfil both the following requirements—

Eligibility to proceed to subdivision 12;

Completion of at least four years of actual teaching experience as a classified teacher, or, alternatively, four years of actual teaching experience as a fully qualified teacher, including at least one school year's current service with the Victorian Education Department. This teaching experience other than the one school year's current service with the Victorian Education Department shall be reduced by one year in the case of a teacher who has approved post-graduate qualifications.

(iii) Members of Interim Class II. shall be deemed to be occupying recognized posts of responsibility for salary purposes.

(d) An exit student who has not successfully completed an approved course of training shall be paid a salary at a point on the subdivisional range as determined by the Tribunal and shall not progress beyond that subdivision. On completion of the approved course of training his salary shall be re-assessed in accordance with the qualification held and he shall be paid the salary subdivision he would have progressed to on the appropriate scale.

(e) (i) Subsequent to appointment a member on the salary subdivisional range 5 to 14 who gains an approved diploma or university degree, or a member who acquires additional qualifications other than teacher training which entitle him to a subdivisional range with a higher maximum shall receive an adjustment to the next higher salary subdivision on the appropriate scale.

It shall be the responsibility of the member to make application for the adjustment. Unless otherwise determined by the Tribunal the adjustment shall be effective from the 1st January of the year following the gaining of the additional qualification. Except where special circumstances exist, the Tribunal will not authorize a retrospective adjustment with effect from a date earlier than the 1st January of the year in which application is made.

(ii) In addition to any adjustment under paragraph (i) of this sub-clause a member shall, on his existing incremental date, receive any increment to which he is entitled and shall, where applicable, retain that incremental date.

Provided that a member who had reached the maximum of his previous subdivisional range shall, where applicable, receive his subsequent increments on the anniversaries of the adjustment.

- (f) A member without approved teacher training appointed subsequent to the effective date of this Regulation shall be paid a salary at a point on the subdivisional range as determined by the Tribunal and shall not progress beyond that subdivision.

- (iii) Members undertaking a two-year course of training shall receive an increment on the first anniversary of the date of commencement of the course, provided they have successfully completed the first year. They shall not be entitled to further salary subdivisional progression until they have satisfactorily completed the course.
- (iv) On the completion of teacher training, if the minimum salary to which a member is entitled is the same as that which he was receiving as a trainee, his incremental progression shall date from the next occurring anniversary of the commencement of teacher training. If, however, the minimum salary payable for his qualifications is in excess of his salary as a trainee, his incremental progression shall date from the next occurring anniversary of the salary adjustment.
- (v) The provisions of paragraphs (i), (ii), and (iii) of this sub-clause shall not apply to a member currently undertaking teacher training at the effective date of this Regulation, who shall receive during his course of training any incremental progression to which he was formerly entitled. On completion of teacher training the provisions of paragraph (iv) of this sub-clause shall apply, except that, where the salary which a member was receiving as a trainee is in excess of the minimum payable for his qualifications, he shall continue to be paid the salary which he was receiving and his incremental date shall be deemed to be the 21st May.

6. Qualifications for appointment to Principal Class, Senior Teacher Class, and to positions carrying the responsibility allowance shall be as prescribed for Special Class, Class I, and Class II. respectively under Regulation 9 of the Teaching Service (Teachers Tribunal) Regulations, but the salary ranges applicable to particular qualifications shall be as determined by the Tribunal.

Provided that a member possessing qualifications entitling him to the subdivisional range 5-14 shall, if appointed prior to the 21st May, 1973, receive a maximum salary equivalent to subdivision 12 or, if appointed subsequent to that date but prior to 21st May, 1974, a maximum salary equivalent to subdivision 13.

- (c) In special cases the Tribunal on the recommendation of the Director-General may approve credit for experience other than that set out in this clause.

8. A teacher who is transferred from another division to the Assistant Class in the Technical Schools Division shall be classified in a subdivision corresponding to his previous classification and shall be eligible for any subsequent increment at the date of his former entitlement.

At the time of delivering the supplies, the contractor shall produce the order for same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the stores accepted and return the order to the contractor, who will attach it to his claim for payment.

7. Supplies ordered for delivery in the Melbourne District are to be delivered free of all charges (whether cartage, freight, &c.) and, for the purposes of this contract, the Melbourne District will include a radius of 20 miles from the Elizabeth-street Post Office. For supplies outside that radius the goods must be delivered free or free on rails at Flinders-street or Spencer-street Railway Stations as required.

8. Arrangements as to time of delivery and inspection of goods will be made by the officer ordering the supply.

9. Orders must receive prompt execution; in the event of the goods not being delivered within forty-eight hours after the specified delivery date shown on the order, it will be competent, after obtaining approval of the Tender Board, for the officer named in clause 8, or the head of the department to whom the goods are to be supplied, on giving the contractor twenty-four hours' notice, to purchase the supplies, or any like supplies that are suitable for the service, at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account or from the security money.

10. Delivery will not be deemed to have been made until the goods have been approved of. In the event of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the supplies rejected or

returned, otherwise purchases will be effected at the contractor's risk and the extra expense deducted as provided in clause 9.

11. The contractor will be required to furnish his account in the prescribed form as soon as possible after the delivery of the goods, the account to be accompanied by the receipted delivery orders on which it is based. Where practicable, the use of more than one account form for each Department or sub-Department must be avoided. The rates and the quantities quoted in the orders cannot be increased.

12. The acceptance of the supplies shall be subject to the approval of the officer authorized to take delivery of the stores; or such other officer as shall be named in the schedule. The contractor may, however, claim a survey on any goods objected to; but in that case, he must, within twenty-four hours after the objection is made, give notice thereof, in writing, to the officer rejecting the goods. If, after the delivery of the supplies has been taken, any deficiency or defect is discovered therein, such deficient or defective stores may be returned to the contractor.

13. The members of Boards of survey will be appointed by the Treasurer of the State for the time being, and the decision of the Board is to be considered as final. If the Board shall decide that the article is not of proper quality it must be immediately replaced by the contractor, failing which it, or any like supply that is suitable for the service, will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as provided in clause 9.

14. A refusal to execute orders, irregularity in the quantity or quality of the supplies, delay in delivering or replacing them when required, or non-compliance with the terms of clauses 16 and 17 of these Conditions respecting the forwarding of consignment notes, &c., will subject the contractor, upon report from the Tender Board, to such mulct not exceeding Five hundred dollars as the Treasurer may direct, and the amount may be deducted as provided in clause 9. It will also be in the power of the said Treasurer upon such refusal, irregularity, or delay to terminate the contract forthwith and declare forfeit the whole or any portion of the security money; and, in addition, the contractor will be disqualified from tendering or holding any future contract or contracts for a period of not less than twelve months from the date of such disqualification.

15. All goods forwarded under this contract outside the Melbourne District shall, where railway facilities are available, be forwarded by rail, and all consignments shall bear the number of the consignment notes under which they are forwarded and also the name of the contractor by whom consigned, on a legibly-written business label.

16. When the contractor is required to make delivery of goods at a railway station for transmission by rail for any Department excepting Departments of the Commonwealth, he shall obtain a receipt for the goods in duplicate on the Stores and Transport consignment note, at the same time handing in a triplicate and quadruplicate of the form as an authority for the Railways to act as agent for, and charge the freight to, the Stores and Transport Office or such other Department as shall be named therein. He shall as soon as possible, and not later than twenty-four hours thereafter, deliver the original at the Tender Board Offices, the duplicate to be forwarded to the consignee in accordance with clause 17, and the quintuplicate to be retained by himself. Should the goods thus forwarded be rejected, the contractor must bear the cost of replacing such goods, for which service the departmental consignment note must not be used. Any infringement of this condition will subject the contractor to such mulct as is provided in clause 14.

17. Immediately after the consignment of the goods, the officer to whom they are forwarded shall be notified by the contractor, on the duplicate consignment note provided for the purpose, that the goods have been sent. On receipt of this document, the officer to whom it has been forwarded shall acknowledge thereon the receipt of the goods without delay to the Stores and Transport Office. In the event of loss through failure on the part of the

contractor to comply with this condition he will be held responsible, and the amount of the loss incurred thereby will be deducted as provided in clause 9.

18. Should the order on the contractor specially provide that the goods of a fragile character, or such as are liable to suffer loss by leakage, shall be consigned at the risk of the Railways Commissioners, under special freight conditions, the contractor shall in such instance provide, in writing on the consignment note, an intimation to that effect failing which, in the event of loss, he shall bear the whole cost of replacing the goods, the amount thereof to be deducted from the contractor's account or from the security money.

19. The contractor is not at liberty to transfer his contract under cover of power of attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government. Should it be found during the currency of the contract that the contractor has not conformed to the condition of advertisement which stipulates that if a tenderer be a member of a firm and such firm be interested in the contract, the tender shall be in the name of the firm, and not in that of the individual—then the Treasurer may, on the recommendation of the Tender Board, determine the contract and forfeit the security money.

20. The contract entered into under these conditions is not to be considered as being broken, infringed, or vitiated by the importation of stores for the Government service, or by any contracts or purchases made by the Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Department of Public Works or by the State Rivers and Water Supply, Forests, and Electricity Commissioners, or the Country Roads Board, or for the Railways Department, or for supplies for Technical Schools or for connexions and fittings for Drills and Batteries, or by any article being made at and supplied for the use of any Government establishment, or by the consumption of the surplus stock of any Government establishment.

21. Notwithstanding anything to the contrary contained in section 152 of the Customs Act 1901-71, it is hereby expressly provided that upon any alteration of the duty collected affecting the goods included in this contract, the contract price shall not be altered, and the contract may be terminated at the option of either party by two months' notice, in writing, from the first day of the calendar month next ensuing and within the period for which the contract is made. The contract for the unaffected items shall remain in full force and effect. Any notice to be served under this condition shall be deemed to have been duly served if sent to the contractor in a registered letter to his last-known place of business or abode.

22. The foregoing provision shall not apply where the contract is for definite quantities of imported goods to be delivered at stated times, as stipulated in the schedule, and any alteration in the duty of Customs or Telegraphic Transfer rate of exchange affecting the goods included in such contract shall be to the accounts of the Government; adjustments to be based on the F.O.B. and C.I.F. prices of the goods, respectively, and the Telegraphic Transfer rate ruling at the time of delivery of the goods.

23. Under no circumstances, other than those mentioned in clause 21, will the contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited and, in addition, the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

24. Every person engaged in the service tendered for in this schedule shall be paid such wages and employed subject to such labour conditions as are or may be determined by any Federal Arbitration Court Award or any State Wages Board determination.

25. The contractor will be held liable for any damage to Government property occasioned by the contractor or any person engaged by the contractor during the performance of any service required under the contract.
