## Pipelines Act 1967.

## NOTICE OF VARIATION OF CONDITIONS OF A PIPELINE LICENCE.

Whereas sub-section (3) of section 30 of the *Pipelines Act 1967* provides that the Minister may by notice published in the *Government Gazette* amend vary add to or revoke any conditions stated or included in a licence, I, James Charles Murray Balfour, Minister of Mines, do now hereby vary the conditions of Pipeline Licence No. 51 in the manner indicated in the Schedule hereto:—

## SCHEDULE.

1. Delete the first paragraph of Clause I (A) of the Schedule and substitute the following:—

## (A) Design.

The first stage of the pipeline in Wonga-road, Ringwood between Lauriston-court and Oban-road shall be designed, constructed and tested according to the USA Standard Code for Pressure Piping USAS B31.8—1968 "Gas Transmission and Distribution Piping Systems". Welding of the said first stage of the pipeline shall be performed as specified in API Standard 1104, 11th Edition, January 1968: "Standard for Welding Pipelines and Related Facilities". The remainder of the pipeline shall be designed, constructed, tested and, together with the said first stage, operated in accordance with the requirements of the Australian Standard CB28-1972: "SAA Gas Pipeline Code".

2. In Clause I (B) (i) of the Schedule, delete the expression "Grade A" and substitute the expression "Grade A or B as appropriate".

3. Delete Clause I (F) of the Schedule and substitute the following:—

## (F) Pressure Test.

After construction and before being placed in operation, the pipeline shall be subjected to a pressure test which for the first stage of the pipeline shall be in accordance with the procedure outlined in section 10 of the Specification forming part of Contract No. 1183 which accompanied the Pipeline Licence Application. The remainder of the pipeline shall be subjected to a pressure test in compliance with Rule 7.4.3 of Australian Standard CB 28-1972: "SAA Gas Pipeline Code" according to a programme to be approved by the Director, Oil and Gas Division of the Mines Department.

During the said test, the pressure at the control point shall be measured at appropriate, but in no case greater than hourly, intervals using a calibrated and certified dead weight tester capable of indicating a pressure change of one lbf/in<sup>2</sup>, and recorded.

In addition, continuous recording equipment shall be used to record the pressure in the pipeline during the whole period of pressure testing. This equipment and any other pressure gauges used in the said pipeline pressure test shall be checked immediately prior to and after the said test by the said dead weight tester. Water volume measurement during the pressure/volume plot where applicable shall be by suitably calibrated devices.

The licensee shall give the Director, Oil and Gas Division of the Mines Department seven days notice of intention to test, and shall within fourteen days of completion of the pressure test, forward to the

said Director, a copy of the pressure chart including its calibration, and graphs of the said deadweight tester readings (as well as other pertinent factors) with time and water volume where applicable, all duly interpreted and witnessed by the licensee's engineer.

4. Delete Clause II (C) (i) of the Schedule and substitute the following:—

The pipeline shall be maintained in accordance with Rule 8.7 of the Australian Standard CB 28-1972: "SAA Gas Pipeline Code" to the extent that this standard is not inconsistent with the following:—

(i) *Corrosion Control.*

Subject to compliance with Statutory Rules 1970: No. 133—State Electricity Commission Cathodic Protection Regulations 1970, the licensee shall—

- (a) Carry out a monthly check of the transformer and rectifier units of the impressed current systems hereinbefore mentioned to ensure they are operating satisfactorily. A log of such checks, giving details of amperage output and meter readings shall be maintained by the licensee.
- (b) At intervals not exceeding six months conduct corrosion surveys of the pipeline including tests for stray current electrolysis. Measuring instruments approved for the purpose by the Chief Electrical Inspector, State Electricity Commission of Victoria shall be used for these surveys which shall be carried out only after the licensee has used his best endeavours to ensure that no abnormal condition exists which is likely to affect the validity of the results.
- (c) Submit a summary of the results of these surveys annually to the said Chief Electrical Inspector for advice on action to be taken to maintain the cathodic nature of the pipeline so that corrosion is limited, and shall take all reasonable steps to give effect to the advice received.
- (d) Submit to the Director, Oil and Gas Division of the Mines Department an annual report outlining the results of the corrosion surveys, the recommendations made by the said Chief Electrical Inspector and the details of the resulting action taken by the licensee.

5. Delete Clause II (C) (ii) of the Schedule and substitute the following:—

(ii) *Pipeline Markers and Signs.*

The licensee shall check the signs required by the Pipelines (Construction and Operation) Regulations 1971 at intervals not exceeding three months and shall where necessary forthwith replace, repair and repaint the same.

6. Delete Clause II (C) (iii) of the Schedule and substitute the following:—

(iii) *Patrol of Pipeline.*

The licensee shall cause the pipeline to be patrolled on a regular basis at the intervals outlined below in accordance with the procedure laid down in Rule 8.7.9 of the Australian Standard CB 28-1972: "SAA Gas Pipeline Code" and shall on demand produce to the Director, Oil and Gas Division of the Mines Department a written report on the results of such patrolling.

- (a) At least 5 daily patrols per week along the route of the pipeline situated within the areas designated as Class 3 and Class 4 locations under Rule 3.1.2 of the Australian Standard CB 28-1972: "SAA Gas Pipeline Code".
- (b) A weekly patrol along the route of the pipeline situated within the areas designated as Class 1 and Class 2 locations under Rule 3.1.2 of the Australian Standard CB 28-1972: "SAA Gas Pipeline Code".

7. Delete Clause II (E) of the Schedule and substitute the following:—

(D) *Alterations to Pipeline.*

Except for emergencies, the licensee shall not affect any repairs or make any additions or alterations to the pipeline without the prior approval in writing of the Director, Oil and Gas Division of the Mines Department.

8. Delete Clause II (F) of the Schedule and substitute the following:—

(E) *Pressure Control.*

The pressure control systems hereinbefore mentioned shall be maintained in accordance with Rule 8.2 of the Australian Standard CB 28-1972: "SAA Gas Pipeline Code".

APPLICATIONS FOR PERMITS TO OWN AND USE PIPELINES.

MINISTRY OF FUEL AND POWER.

Notice.

On 18th September, 1972, the Town Planning Appeals Tribunal heard an appeal at Melbourne by the Western Port and Peninsula Protection Council and a number of objectors, against the granting by the Hastings Shire Council and the Western Port Regional Planning Authority of a permit to Henry Roach (Petroleum) Pty. Ltd. to erect a small refinery on allotments 3, 4 and 5, Township of Hastings, Parish of Tyabb. After hearing arguments by all parties the Tribunal upheld the decision of the Hastings Shire Council and the Western Port Regional Planning Authority to grant permits for the construction of this refinery subject to a number of conditions which are contained in the findings of Appeal No. 72/166. The erection of a number of storage tanks at the refinery site commenced in December, 1972.

An essential part of the future operations of the Henry Roach (Petroleum) Pty. Ltd. refinery will be the obtaining of Gippsland crude oil from the Esso/B.H.P. facilities at Long Island Point and of transporting refined products such as gasoline from the refinery to the Long Island Point liquids jetty where it would be loaded into tankers for shipment interstate. It will also be necessary for the company to obtain refined motor spirit from other areas from time to time to satisfy local demand and to convey this motor spirit from the same jetty to storage tanks at the refinery. The only practicable method of carrying out these operations is by the use of pipelines.

I have therefore received applications from Henry Roach (Petroleum) Pty. Ltd. for the granting of permits under the provisions of the Pipelines Act 1967 to own and use two pipelines described herein for the purposes outlined above. The nominated routes of the pipelines are as follows:—

1. *Line 1.*—A steel pipeline 3.91 km (2.43 miles) long with an outer diameter of 457 mm (18 inches) and designed to operate at a pressure of 4.823 MPa (700 p.s.i.g.), commencing at a valve located in the south-eastern corner of allotment 3, Township of Hastings, Parish of Tyabb on property owned by Henry Roach (Petroleum) Pty. Ltd. and proceeding in a generally easterly direction along the northern side of the easement containing the Esso/B.H.P. 42 inch Long Island Point-Crib Point crude oil pipeline, across allotment 3, an area of Crown land temporarily reserved for public purposes, across Olivers Creek to enter allotment 10A; thence crossing such allotment and allotment 10 to Jeremiahs-road; thence crossing such road to enter lot 17, allotment 77 and continue in an easterly direction still within or adjacent to the pipeline easement to the Esso/B.H.P. tank farm security fence; thence turning to continue in a southerly direction immediately adjacent to the security fence across lots 18 and 19, allotment 77 to the south-eastern corner of lot 19; thence entering Crown land temporarily reserved for public purposes and continuing for a distance of approximately 150 feet immediately adjacent to the western boundary of W.A.G. Pty. Ltd.'s pumping station; thence turning to continue in an easterly direction across building lot 3 to Outlook-avenue to enter and continue along the northern side of Outlook-avenue to Cemetery-road; thence turning to continue in a southerly direction along the western side of Cemetery-road to Crown land committed to Hematite Petroleum Pty. Ltd. and Esso Exploration and Production Australia Inc. for reclamation purposes under the provisions of the Westernport Development Act 1967; thence turning to continue in a generally easterly direction passing to the south of the Esso/B.H.P. fractionation plant to the Long Island Point liquids jetty owned by the Public Works Department for the Government of Victoria; thence turning to continue along the jetty to terminate at the jetty head.

*Line 2.*—A steel pipeline 3.91 km (2.43 miles) long with an outer diameter of 219 mm (8.625 inches) and designed to operate at a pressure of 4.823 MPa (700 p.s.i.g.), to be laid along the same route in the same trench as Line 1.

The nominated routes of the pipelines have been selected only after detailed discussions with or examination by all of the Government departments and instrumentalities responsible for the planning, development and control of the Long Island Point area including the Environment Protection Authority, the Land Conservation Council and the Hastings Shire Council.

Care has been taken to utilize existing pipeline easements and to share other service routes wherever technically practicable, to avoid the foreshore and the mangroves; and not to disturb any native vegetation of ecological or conservational significance.

2. Plans of the proposed routes of the pipelines may be inspected commencing Monday, 26th February, 1973, between the hours of 10.00 a.m. and 4.00 p.m. on Mondays to Fridays (excluding public holidays) at—

(a) Ministry of Fuel and Power, 15th floor, 171 Flinders-street, Melbourne.

(b) Hastings Shire Council, Municipal Offices, Hastings.

3. Any objections to the proposed routes of the pipelines must be addressed to me and reach the Office of the Ministry no later than Wednesday, 28th March, 1973.

Minister for Fuel and Power.

#### Companies Act 1961.

#### CORRIGENDUM.

In a notice published in the Government Gazette of the 1st March, 1972, pursuant to the provisions of section 308 (4) of the Companies Act 1961, it was incorrectly stated that D. & B. Dalian Paving Pty. Ltd. had been struck off the register of companies and that upon publication of the notice in the Government Gazette the company would be dissolved.

An error was made in purporting to strike the name of the company off the register. The company continues to exist and its registered office is situated at 65 Glengyle-street, East Coburg.
