4. This By-law shall apply to and have operation throughout the Municipal District of the City of Berwick and unless exempted by the Council shall apply to every house, building, and premises therein.

5. In this By-law unless inconsistent with the context or subject matter

"Inspector" means any Officer authorised by the Commission or Council and includes any acting or assistant inspector.

"Proprietor" means the proprietor of any premises and includes the owner, the occupier, or any person having the management or control thereof.

"The Commission" means the Commission of Public Health.

6. The proprietor of any premises on which there is erected a pan closet shall cause the space under the seat of each pan closet on such premises to be prepared for the accommodation of a pan prescribed herein, and shall permit the same to be used for the double pan service hereinafter provided for and shall cause each pan closet to be kept in a fit state for such service.

7. The proprietor shall cause every pan closet to be supplied by the Council or otherwise with a pan for the reception of nightsoil, and shall cause such pan (except when being exchanged) to be always kept in proper position under the seat of each pan closet, and shall also provide a lid capable of being fitted tightly to such pan when being removed from the premises to the depot, so as to prevent the spilling of the contents and the emission of offensive vapours, gases or effluvia from such pan.

8. The proprietor of the premises shall cause to be kept in every closet belonging thereto a supply of liquid deodorant or lime sawdust, or some other dry material efficient for deodorizing nightsoil, and shall cause all nightsoil which may be deposited in the pan in such pan closet to be immediately on the deposit thereof covered with a quantity of deodorizing material sufficient to thoroughly and effectively deodorize the contents of such pan.

9. No person shall place, or cause or permit to be placed any slops, water or rubbish in any pan.

10. The proprietor of any premises whereon there is a pan closet or urinal shall—

- (a) maintain such pan closet and urinal in good repair and in a cleanly condition; and
- (b) when required by an inspector effectually disinfect such pan closet and urinal and/or the contents thereof, and effect any repairs thereto that such inspector may deem necessary.

11. At least once a week, and in any case as often as may be necessary to prevent the level of the contents of such pan approaching within 2½ inches of the brim thereof, the pan in use shall be closed with a lid and removed by the contractor or person authorised or employed in that behalf by the Council with its contents from the premises and another pan thoroughly cleansed and in good order shall be left in its place.

12. Such contractor or person removing such pans shall report to the Council at the earliest available opportunity the discovery of any pan found to be overflowing or leaking, and shall forthwith cause the place whereon the contents have been dropped or spilled to be properly cleansed.

13. The contractor or person authorised or employed by the Council for that purpose shall cause all pans to be removed in a suitable covered vehicle in such a manner as not to cause nuisance, danger to health, or offensiveness, and forthwith cause such vehicle to be removed to an approved depot.

14. The contractor or person or persons authorised or employed by the Council for the removal of nightsoil shall cause it to be properly, efficiently and sanitarily disposed of—

- (a) at a depot provided by the Council or a Sewerage Authority in accordance with the requirements of the Health Act and Regulations; or
- (b) at a depot provided by the contractor or authorised person and registered with the Council.

15. If such nightsoil be disposed of in trenches, then—

- (a) such trenches shall not be more than 18 inches wide and shall be excavated to a regular plan;
- (b) no trench shall be more than 18 inches nor less than 9 inches deep, and the depth of any one trench shall be sensibly uniform throughout its length;
- (c) every trench shall be so located in relation to the slopes of the land that its bottom shall be at the same level throughout its length;
- (d) the first trench in any depot or unit shall be excavated (subject to compliance with Regulation 28 (2) of the General Sanitary Regulations 1950) near the lowest part of such depot or section, and each subsequent trench shall be higher than its predecessor until the depot or unit has been used;
- (e) in all cases where the soil is such that liquid is not readily absorbed the bottom of the trench shall be broken up roughly so that liquid from the nightsoil may drain rapidly into the spaces between the clods, provided that no trench shall be so used where the bottom consists of rock or other impermeable material.

16. Nightsoil shall be emptied into trenches in such a manner as to avoid splashing, and so that no nightsoil shall be less than six inches below the surface of the undisturbed soil; and it shall be covered immediately with soil to a depth of at least six inches. Covering of nightsoil shall be done so as not to cause overflowing or to arise the surface of the nightsoil closer to ground surface level than three inches, and any soakage to the surface

shall be immediately covered with clean earth, the necessary filling to be obtained by excavation of another trench in a parallel position to but not less than twelve inches from the aforesaid trench required to be filled in.

17. Spilled nightsoil shall be forthwith collected and buried in the foregoing manner and the soiled ground shall be immediately covered with clean earth.

18. Every depot as a whole, and in large depots where the slope of the surface or character of the soil so requires, every section shall be protected from ingress of water from neighbouring land; and provision shall be made by means of check banks, trenches, and/or apparatus to prevent the escape of polluted drainage from such depot and it shall be the responsibility of the contractor or persons authorised to ensure that such escape of polluted drainage shall be prevented.

19. Such contractor or persons authorised by the Council for that purpose shall immediately report to the Council any escape of polluted drainage from a depot however caused.

20. Every pan used for the reception or conveyance of nightsoil shall immediately on being emptied be thoroughly washed or otherwise cleansed. The resultant washings or other filth shall be disposed of in a similar manner as the nightsoil.

21. Every pan after the disposal of its contents, and after being cleaned in the manner aforesaid and before it again leaves the depot or disposal ground, shall on every occasion be thoroughly cleaned and disinfected by—

- (a) thoroughly washing and scrubbing in water then rinsing in clean water and finally submerging for not less than five minutes in an aqueous solution containing not less than one per cent. of accol, cyllin, kerol, izal, hycol, or other disinfectant of equal efficiency; or
- (b) any other method approved in writing from time to time by the Commission.

22. The internal surface of every pan before it is first used shall be properly coated with well-boiled tar, crude creosote, or other approved material, and such coating shall thereafter be renewed when deemed necessary by the Chief Health Inspector or his representative, but not less than once a month.

23. The contractor or person authorised or employed by the Council for the removal of nightsoil shall cause all vehicles used for the transport of pans to the Depot to be properly constructed, kept clean, and disinfected daily at the Depot and maintained in a proper state of repair.

24. The proprietor or any other person shall not remove any nightsoil from any premises except in accordance with this By-law.

25. The proprietor or any person within the area defined by this By-law shall not bury or cause to be buried any nightsoil in any yard, garden, or other place not being a place set apart for such purpose by the Council.

26. The inspector shall have full power to enter into or upon any premises, yards, or lands at any time for the purpose of inspecting closets, urinals, pans, receptacles, vehicles, plant, and all other things and places therein and thereon, and for the purpose of carrying out the provisions of this By-law.

27. If any person or the council commit a breach of this By-law he or they shall for every breach be liable to a penalty of not more than Forty Dollars, and in the case of a continuing offence to a further daily penalty of not more than Ten Dollars.
