Mildura Urban Water Trust pursuant to and in exercise and execution of the powers conferred on it by the Mildura Irrigation and Water Trust Act and the Water Acts, doth hereby make the By-Law following:

The meter or meters measuring the supply of water to any property rated by the Trust, shall be read as near as practicable to twelve months from the date that it was read previously, and the quantity of water so measured as having been supplied during the period between any two successive meter readings (hereinafter called "the meter year") shall be the basis of the calculating of charges payable under this By-Law provided always that where a meter has been installed on any property during the course of a meter year the quantity of water measured as having been supplied during the period between the date of such installation and the date of the reading shall be the basis of calculating such charges.

The maximum quantity of water to be supplied in any one year without further charge to any property rated by the Trust is hereby fixed at the quantity which at a charge of Five point three Cents (5.3c) per kilolitre would produce an amount equal to the amount of the rate levied on such property for the said year.

The charge for water supplied by measure to any property rated by the Trust in excess of such maximum quantity, computed as in the last preceding clause, is hereby fixed at Five point three Cents (5.3c) per kilolitre which shall be payable on demand.

The foregoing By-Law was made and passed by the Mildura Urban Water Trust, and its common seal was hereto affixed by direction of the said Trust, on the 8th July, 1975, by—
