Whereas by section 25 of the *Vegetation and Vine Diseases Act 1958 (No. 6407)*, it is provided that where the Governor in Council is of opinion that it is necessary to protect the fruit industry of Victoria against the introduction or spread of the insects of the family *Trypetidae* (commonly known as fruit flies), he may by Proclamation declare any portion of Victoria specified therein to be a proclaimed area, and prohibit the planting on any land in the proclaimed area of any tree, plant or vegetable specified, and prohibit the removal from any place in the

Town and Country Planning Act 1961 (Twelfth Schedule).
LORNE PLANNING SCHEME.

NOTICE THAT A PLANNING SCHEME HAS BEEN PREPARED AND IS AVAILABLE FOR INSPECTION.

Notice is hereby given that the Town and Country Planning Board in pursuance of its powers under the *Town and Country Planning Act 1961*, has prepared a Planning Scheme for that part of the Shire of Winchelsea within the area bounded by the grey border on the Planning Scheme Map and the high water mark at the coast for the purpose of controlling the use and development of land in the Lorne area. A brief purport of the objects and effect of the Scheme is as follows:—

The Scheme has been prepared so as to achieve the orderly planning of the Lorne area. Historically, Lorne's population has consisted of a small core of permanent residents which has been recurrently swelled by seasonal influxes of visitors ranging from the holiday-house owners to those on a brief stop-over. Consequently, Lorne has developed primarily as a scenic tourist resort of low residential density. This is a form of resort specialization which warrants encouragement and the scheme makes provision for this. At the same time, the scheme recognises the residential and work needs of the permanent residents and their interconnection with the needs of the tourist population. Lorne's low-profile is to be preserved with limitations on building height and skyline development. The patterns of development intensity which have evolved over time have strongly influenced the choice of boundaries for the residential zones, and the Scheme provides a sound balance between the need to allow for higher density development and the need to work within the urban boundary whilst preserving Lorne's natural assets. The hinterland to the west of the town is of little value for agricultural purposes, but its value in terms of forest amenity gives Lorne an enviable location between the sea and the steep sloping bushland. Limits on urban extension and the strong subdivisional control to the west of the ridgeline will generally ensure a balance between development areas and those areas retained in their natural state.

The Scheme provides (by the uses of zones) for the limitation of land development and use within the different zones to achieve the above aims. The zones provided for in the scheme are: Residential "A", Residential "B", Forest Residential, Tourist Development, Industrial, Forest and Special Uses. In the Residential "A" Zone, which is basically confined to the southern developed area, almost all uses are subject to permit or prohibited, save that existing buildings may be used as professional consulting rooms without a permit if no external alterations are required. In the Residential "B" Zone which is basically confined to the northern developed area, almost all uses are subject to permit or prohibited although a greater variety of uses are (subject to permit) available than are available in the Residential "A" Zone.

The Forest Residential Zone is confined to a small area of land to the north and west of Lorne. In this zone a house is a permitted use if it has a site of one acre, otherwise this use is subject to permit. Almost all other uses are prohibited. The Tourist Development Zone is basically confined to areas adjacent to the Great Ocean Road. It enables (in some cases, subject to restrictions) land to be used for assorted commercial purposes. The Industrial Zone comprises several small areas which may, under the Scheme, be used for (*inter alia*) general purposes subject to permit. Dwellings associated with permitted uses are permitted in this zone. The Forest Zone which comprises large tracts of land, generally well

inland, makes provisions for forestry and, subject to certain restrictions, houses. Some other uses are permitted as of right or subject to permit. In the Special Uses Zone particular uses indicated on the planning scheme map are permitted.

Reservations for public open space and public purposes are provided for in the scheme. Special provision is also made in the scheme for planning controls relating to the non-conforming use of buildings, works and land and the subdivision and cluster subdivision of land. Special provision is also made in respect of flats, advertising signs, guest houses, hotels, motels, general stores, service stations, motor repair stations, building lines, parking of vehicles, re-erection of buildings, vegetation preservation, fencing, camping areas, limited access roads, roads to be closed, height of buildings, and the erection of second houses on certain allotments. Provision is also made for the determination of boundaries of zones and the keeping by the responsible authority of a register of permits, appeal decisions and permit conditions.

Persons who might be affected by the Scheme must appreciate that the purpose set out is not in any way to be taken as a substitute for the Scheme or any part thereof. Because of the need to make the purport concise, it has not been possible to deal with a number of exceptions and requirements applicable to particular uses or in particular circumstances. References must always be made to the Scheme.

A copy of the Scheme has been deposited at the office of the Shire of Winchelsea, Shire Hall, Winchelsea, and at the office of the Town and Country Planning Board, 235 Queen Street, Melbourne and will be open for inspection thereat during office hours by any person free of charge.

Any persons affected by the Planning Scheme are required to set forth in writing all objections they may have, addressed to the Secretary, Town and Country Planning Board, 235 Queen Street, Melbourne on or before the 7th day of July, 1976 and to state whether they wish to be heard in respect of their objections.

W. H. CRAIG, Secretary,
Town and Country Planning Board.

2nd April, 1976.

NOTE.—An additional copy of the Lorne Planning Scheme is available for perusal at the office of the Lorne Sewerage Authority, 59 Mountjoy Parade, Lorne.
