INDEX OF SCHEDULES

INCORPORATING

CONTRACTS ACCEPTED

(SERIES 1978-79-80.)

SUPPLY

OF

GENERAL STORES

FOR

STATE DEPARTMENTS

FROM

1st JULY, 1978 to 30th JUNE, 1980

OR AS STATED.

Conditions of Contract are shown herein for the guidance of Officers ordering and receiving supplies.

Articles included in these Contracts which are indicated as being of Commonwealth Manufacture must, where practicable, be supplied bearing evidence that they have been manufactured in the Commonwealth.

Under these Contracts goods may be ordered by any Department of the Commonwealth, but it is optional on the part of the Contractor to supply.

Stores and Material other than that provided for under these Contracts, or Contracts now current extending beyond the 30th June, 1977, or any Contracts which may subsequently be gazetted, must be obtained in accordance with the provisions of Regulation 109 of the Public Accounts and Stores Regulations, 1958 or under Agreements entered into from time to time by the Tender Board.

Articles which can be supplied by the Social Welfare Department are not included in these Contracts.

W. L. ROBERTSON,  
Secretary to the Tender Board.

STATE TENDER BOARD.  
INDEX OF SCHEDULES.

SCHEDULES IN RESPECT OF WHICH CONTRACTS ARE CURRENT AT 1ST JULY, 1978.

Group 1—Contracts—General Stores, Series I. to V.

Group 2—Contracts—Provisions.

Group 3—Contracts—Meat.

Group 4—Contracts—Services.

Group 5—Agreements—Various.

For particulars of items listed under the various Schedules and details of such Contracts, reference should be made to the *Government Gazette* indicated.

## Conditions of Contract for General Stores

1. For the purposes of these contracts the word "Government" shall mean the Government of the State of Victoria; and the word "Treasurer" shall mean the Treasurer of the said State.

2. Except where definite quantities are specified the Government will not be bound to order from the contractor all the articles enumerated in the schedule, but only those articles, and such quantities of those articles, as it may be found necessary to order. Should the Government, however, require a larger supply of any article than the estimated quantity stated in the schedule, the contractor will nevertheless be bound to supply the same at contract rates. The Government reserves the right to purchase otherwise than from the contractor articles of any of the several kinds enumerated in the schedule, the purchase of which is, in the opinion of the Tender Board, necessary in order to meet special circumstances or special requirements.

3. Under this contract goods may be ordered by any Department of the Commonwealth, but it shall be optional on the part of the contractor to supply.

4. Supplies must be of the kind ordered and of the particular manufacture accepted under contract. In the event of the tender having been accepted for goods manufactured within Australia or within any other part of the British Commonwealth, all such goods supplied shall, if required by the Government, bear evidence that they are of the particular manufacture tendered for and, in addition, the contractor may at any time during the currency of the contract be called on to furnish a statutory declaration as to the country of origin of the goods supplied.

5. Except where otherwise stated in the schedule, the value of all packages, cases, casks, &c., whether bulk be broken or not, must be included in the prices stated in the contractor's tender; all such packages, &c., shall be considered the property of the Government, and no charges or expenses whatsoever beyond the price tendered and set out in the schedule will be allowed to the contractor for any articles or packages, cases, casks, &c. The net weight or quantity only will be paid for. The contractor must provide, without extra charge, whatever labour may be required in the packing of stores.

6. Except where otherwise stated in the schedule all orders for supplies will emanate from the Departments requiring the goods, which shall be delivered as may be directed by the officer ordering the supply. At the time of delivering the supplies, the contractor shall produce the order for same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the stores accepted and return the order to the contractor, who will attach it to his claim for payment.

7. Supplies ordered for delivery in the Melbourne District are to be delivered free of all charges (whether cartage, freight, &c.) and, for the purposes of this contract, the Melbourne District will include a radius of 20 miles from the Elizabeth-street Post Office. For supplies outside that radius the goods must be delivered free or free on rails at Flinders-street or Spencer-street Railway Stations as required.

8. Arrangements as to time of delivery and inspection of goods will be made by the officer ordering the supply.

9. Orders must receive prompt execution; in the event of the goods not being delivered within forty-eight hours after the specified delivery rate shown on the order, it will be competent, after obtaining approval of the Tender Board, for the officer named in clause 8, or the head of the department to whom the goods are to be supplied, on giving the contractor twenty-four hours' notice, to purchase the supplies, or any like supplies that are suitable for the service, at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractors' account or from the security money.

10. Delivery will not be deemed to have been made until the goods have been approved of. In the event of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the supplies rejected or returned, otherwise purchases will be effected at the contractor's risk and the extra expense deducted as provided in clause 9.

11. The contractor will be required to furnish his account in the prescribed form as soon as possible after the delivery of the goods, the account to be accompanied by the receipted delivery orders on which it is based. Where practicable, the use of more than one account form for each Department or sub-Department must be avoided. The rates and the quantities quoted in the orders cannot be increased.

12. The acceptance of the supplies shall be subject to the approval of the officer authorized to take delivery of the stores, or such other officer as shall be named in the schedule. The contractor may, however, claim a survey on any goods objected to; but in that case, he must, within twenty-four hours after the objection is made, give notice thereof, in writing, to the officer rejecting the goods. If, after the delivery of the supplies has been taken, any deficiency or defect is discovered therein, such deficient or defective stores may be returned to the contractor.

13. The members of Boards of survey will be appointed by the Treasurer of the State for the time being, and the decision of the Board is to be considered as final. If the Board shall decide that the article is not of proper quality it must be immediately replaced by the contractor, failing which it, or any like supply that is suitable for the service, will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as provided in clause 9.

14. A refusal to execute orders, irregularity in the quantity or quality of the supplies, delay in delivering or replacing them when required, or non-compliance with the terms of clauses 16 and 17 of these Conditions respecting the forwarding of consignment notes, &c., will subject the contractor, upon report from the Tender Board, to such mulct not exceeding Five hundred dollars as the Treasurer may direct, and the amount may be deducted as provided in clause 9. It will also be in the power of the said Treasurer upon such refusal, irregularity, or delay to terminate the contract forthwith and declare forfeit the whole or any portion of the security money; and, in addition, the contractor will be disqualified from tendering or holding any future contract or contracts for a period of not less than twelve months from the date of such disqualification.

15. All goods forwarded under this contract outside the Melbourne District shall, where railway facilities are available, be forwarded by rail, and all consignments shall bear the number of the consignment notes under which they are forwarded and also the name of the contractor by whom consigned, on a legibly-written business label.

16. When the contractor is required to make delivery of goods at a railway station for transmission by rail for any Department excepting Departments of the Commonwealth he shall obtain a receipt for the goods on a Victorian Railways consignment note as an authority for the Railways to act as agent for, and charge the freight to, the Department as shall be named therein. In all instances the contractor shall consign goods at Railways' Risk and state the order number and description of goods on the consignment note. Should the goods thus forwarded be rejected the contractor must bear the cost of replacing such goods for which service the Department must not be charged any additional freight costs. Any infringement of this condition will subject the contractor to such mulct as is provided in clause 14.

17. In the event of loss through failure on the part of the contractor to comply with the conditions of clause 16 the contractor will be held responsible and the amount of the loss incurred thereby will be deducted as provided in clause 9.

18. Should the order on the contractor specially provide that the goods of a fragile character, or such as are liable to suffer loss by leakage, shall be consigned at the risk of the Railways Commissioners, under special freight conditions, the contractor shall in such instance provide, in writing on the consignment note, an intimation to that effect, failing which, in the event of loss, he shall bear the whole cost of replacing the goods, the amount thereof to be deducted from the contractor's account or from the security money.

19. The contractor is not at liberty to transfer his contract under cover of power of attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government. Should it be found during the currency of the contract that the contractor has not conformed to the condition of advertisement which stipulates that if a tenderer be a member of a firm and such firm be interested in the contract, the tender shall be in the name of the firm, and not in that of the individual—then the Treasurer may, on the recommendation of the Tender Board, determine the contract and forfeit the security money.

20. The contract entered into under these conditions is not to be considered as being broken, infringed, or vitiated by the importation of stores for the Government service, or by any contracts or purchases made by the Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Department of

Public Works or by the State Rivers and Water Supply, Forests, and Electricity Commissioners, or the Country Roads Board, or for the Railways Department, or for supplies for Technical Schools, or for connexions and fittings for Drills and Batteries, or by any article being made at and supplied for the use of any Government establishment, or by the consumption of the surplus stock of any Government establishment.

21. Notwithstanding anything to the contrary contained in section 152 of the Customs Act 1901-71, it is hereby expressly provided that upon any alteration of the duty collected affecting the goods included in this contract, the contract price shall not be altered, and the contract may be terminated at the option of either party by two months' notice, in writing, from the first day of the calendar month next ensuing and within the period for which the contract is made. The contract for the unaffected items shall remain in full force and effect. Any notice to be served under this condition shall be deemed to have been duly served if sent to the contractor in a registered letter to his last-known place of business or abode.

22. The foregoing provision shall not apply where the contract is for definite quantities of imported goods to

be delivered at stated times, as stipulated in the schedule, and any alteration in the duty of Customs or Telegraphic Transfer rate of exchange affecting the goods included in such contract shall be to the accounts of the Government; adjustments to be based on the F.O.B. and C.I.F. prices of the goods, respectively, and the Telegraphic Transfer rate ruling at the time of delivery of the goods.

23. *Under no circumstances, other than those mentioned in clause 21, will the contractor be permitted to abandon his contract.* In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited and, in addition, the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

24. Every person engaged in the service tendered for in this schedule shall be paid such wages and employed subject to such labour conditions as are or may be determined by any Federal Arbitration Court Award or any State Wages Board determination.

25. The contractor will be held liable for any damage to Government property occasioned by the contractor or any person engaged by the contractor during the performance of any service required under the contract.

#### ADJUSTMENT OF CONTRACT RATES.

Where rates are subject to adjustment in accordance with the special conditions of the respective contracts, notification of such adjustments will be published in the *Government Gazette* as required.

#### AVAILABILITY OF SUPPLIES.

As numerous contracts are subject to Force Majeure, or other special conditions regarding availability of stocks, raw materials, &c., the penal provisions of clause 9 of the Conditions of Contract are not to be enforced by Departments without reference to the Tender Board.

#### AGREEMENTS.

Where the name of the supplier opposite any item is shown in italics, with the sign (A), no contract has been executed nor security lodged: requirements of such items are to be purchased from the supplier named, under Tender Board Agreement.

## ANNEX TO CONTRACTS NOS. 1978/100 TO 1978/107.

## Schedule No. 1/01.

## ANTISEPTICS, DISINFECTANTS, DEODORANTS AND INSECTICIDES.

Contract from 1st July 1977 to 30th June 1979.

1978/100—Bristol Biochemical Group Pty. Ltd.

1978/101—Campbell Brothers Ltd.

1978/102—Dellas Manufacturing Coy.

1978/103—I.C.I. Australia Ltd.—Rural Division.

1978/104—Kiwi Australia Limited.

1978/105—Robust Chemicals Pty. Ltd.

1978/106—Stanlee (Melbourne) Pty. Ltd.

1978/107—Tredmar Chemicals Pty. Ltd.

All Jars, Kegs and Drums remain the property of the Contractors, unless otherwise specified and must be removed, when empty, on notification being received by the Contractors to that effect.

If, during the course of the contract, the quality of the Disinfectant is not considered by the Officer accepting delivery as being of the standard tendered for, such Disinfectant may at any time be subjected to analysis, and, if found inferior to the standard sample, will be rejected, the cost of such analysis to be borne by the Contractor.

Supplies must be labelled in accordance with the Victorian Health Acts and Regulations thereunder.

All items, not otherwise specified shall be in accordance with Australian Standard Specifications where such exist and, in their absence, with British Standard Specifications.

[Lucas Industries operate a daily delivery service in the Melbourne district]

## Country Distribution Points

Lucas Industries Australia Limited, 47 Elgin Street, Wodonga

Lucas Industries Australia Ltd., 24 Bellerine Street, Geelong

[Country area requirements will be despatched free on rail from Spencer Street or Flinders Street in accordance with orders.]

ANNEX TO CONTRACTS NOS. 1978/109 TO 1978/117.

Schedule No. 1/03.

CHEMICALS, ETC.

Contract from 1st July, 1977, to 30th June, 1979.—Item Nos. 1–19.

Contract from 1st July, 1978, to 30th June, 1979.—Item Nos. 21–41.

- 1978/109—Ajax Chemicals Ltd.
- 1978/110—C.I.B.A.—GEIGY Australia Ltd.
- 1978/111—Hoechst Australia Ltd.
- 1978/112—I.C.I. Australia Ltd.—Rural Division.
- 1978/113—Lane Ltd.—Rural Division.
- 1978/114—Nufarm Chemicals Pty. Ltd.
- 1978/115—Ramsay and Treganowan Ltd.
- 1978/116—Rentokil Pty. Ltd.
- 1978/117—C. Rudduck Pty. Ltd.

All containers shall comply with all regulations pertaining to transport by rail or road.

If, during the course of the contract, the quality of the chemical is not considered by the Officer accepting delivery as being of the standard tendered for, such chemical may at any time be subjected to analysis, and, if found inferior to the standard sample, will be rejected, the cost of such analysis to be borne by the Contractor.

Where required, all containers shall be labelled durably and legibly in accordance with the requirements of the Pesticides Regulations 1976 made under the *Pesticides Act* 1958 and also the Poisons Regulations 1963 No. 2 made under the *Poisons Act* 1962.

All items so specified shall be supplied in accordance with the specifications available from the Tender Board Offices.

All items not otherwise specified, shall be in accordance with Australian Standard Specifications where such exist, and, in their absence, with British Standard Specifications.

Items 21–41.—Materials supplied under this contract shall be sampled by the contractor to cover batches comprising delivery and be accompanied by a Laboratory Test Certificate certifying that the material has been tested and complies with the specifications.

Item No.	Description of Articles.	Rate.	Name of Contractor.

52	No. 12, "Rekab" .. .. .	13.83*	

\* Item Nos. 48 to 52—Orders to be lodged on O. R. McCormack Pty. Ltd., 278 Canterbury Road, Surrey Hills.

## ANNEX TO CONTRACTS NOS. 1978/164 TO 1978/172.

## SCHEDULE NO. 1/13.

## PAINTS AND PAINTERS' SUNDRIES.

*Contract from 1st July, 1977, to 30th June, 1979.*

- 1978/164—Berger Paints Victoria Pty. Ltd.
- 1978/165—Conway Chemical Co. Pty. Ltd.
- 1978/166—Dulux Australia Ltd.
- 1978/167—Explosives Factory, Australian Government.
- 1978/168—3M Australia Pty. Ltd.
- 1978/169—Mobil Oil Australia Ltd.
- 1978/170—National Paint Products Pty. Ltd.
- 1978/171—Pioneer Chemicals Pty. Ltd.
- 1978/172—Taubmans Pty. Ltd.

The term G.P.C. will mean Government Paint Committee.

Marking of containers—Each container of G.P.C. approved products must be marked as follows :—

- Manufacturer's name or monogram.
- Colour.
- Manufacturer's reference number for the product.
- Description of material as shown in schedule.
- Batch number or date of manufacture (may be in code).

All other products listed in the schedule :—

- Manufacturer's name.
- Brand name and colour.
- Description of material (as shown in the schedule).

All items not otherwise specified shall be in accordance with Australian Standard Specifications, where such exist, and in their absence with British Standard Specifications.

Government Paint Committee conditions, for the supply and inspection of materials with a G.P.C. approval will apply to this Contract.

On the purchase of all materials with a G.P.C. approval, the Contractor will supply a "G.P.C. Record of Supply" as provided under the terms of the "Conditions of Tendering".

## COMPLAINTS.

In the event of unsatisfactory performance of paint supplied under contract, the following procedure is to be carried out.

Submit in writing to the Secretary, State Tender Board, 49 Spring Street, Melbourne, the following information :—

1. An accurate, concise description of the problem in simple terminology.
2. Name of manufacturer.
3. Brand name, type and colour of product.
4. G.P.C. Approval Number.
5. Batch number and date of manufacture (usually stamped on can by manufacturer in numerical or alphabetical code).
6. Identification and location of person directly concerned.
7. Any other information considered relevant.

N.B.—This procedure should be instigated only where a positive indication of faulty material exists.

Materials with C.P.C. approval will be regularly sampled and tested to ensure compliance with the standard specified; other materials may be sampled and tested as required.

*All packages containing Mixed Paints shall bear the name of the manufacturer of the paint and, in the event of varying grades, the highest grade produced by the manufacturer indicated must be supplied. All supplies shall be subject to the approval of the Officer ordering, and must be of the very best description.*

*All supplies must be put up in suitable containers (including outside packages, where necessary), as ordered, at the expense of the Contractor except where otherwise stated in the Schedule.*

*All 4 litre tins to be supplied with removable lids, 4 litre tins to have clips and handles fitted.*

 Tubemakers of Australia Ltd., Supply Division, 157 City Road, South Melbourne, 3205.

## V.

Victor Sheet Metal Co. (Aust.) Pty. Ltd., 49 Grant Street, South Melbourne, 3205.

## W.

Warburton, Thomas, Pty. Ltd., 40-46 Kavanagh Street, South Melbourne, 3205.  
 Watson and Crane Sales P/L, 212 Barry Road, Campbellfield, 3061.  
 Wettex Division, S. C. Johnson and Sons Pty. Ltd., 5 Harbour View Crescent, Milsons Point, N.S.W. 2061.  
 Westhaven Association, P.O. Box 153, Dubbo, N.S.W., 2830.  
 Woolcoat Cuttings Pty. Ltd., 20 Albert Street, Preston, 3072.  
 Wormald International (Aust.) Pty. Ltd., 447 Williamstown Road, Port Melbourne, 3207.  
 Wrightclean Supplies, 76 Hoddle Street, Abbotsford.

## Z.

Zevenboom, John, & Co. Pty. Ltd., 101 Canning Street, North Melbourne, 3051.

The first part of the document discusses the importance of maintaining accurate records. It emphasizes that proper documentation is essential for ensuring the integrity and reliability of the data collected. This section also touches upon the various methods used to collect and analyze data, highlighting the need for consistency and precision throughout the process.

In the second part, the focus shifts to the challenges faced during data collection. It identifies common pitfalls such as incomplete data, measurement errors, and biases. The text provides practical advice on how to mitigate these issues, such as using standardized protocols and conducting regular quality checks. It also discusses the importance of transparency in reporting any limitations or uncertainties in the data.

The final part of the document concludes with a summary of the key findings and a call to action. It encourages researchers to continue exploring new methods and techniques to improve data collection and analysis. The text also mentions the availability of resources and support for students and researchers alike, aiming to foster a collaborative and supportive learning environment.

The second part of the document delves into the technical aspects of data collection. It details the various instruments and tools used in the field, such as sensors, data loggers, and software applications. It explains how these tools are calibrated and validated to ensure accurate measurements. The text also discusses the importance of data storage and backup, highlighting the risks of data loss and the need for secure and reliable storage solutions.

In the third part, the focus is on data analysis and interpretation. It introduces various statistical methods and software packages used to analyze the collected data. It explains how to identify trends, patterns, and correlations in the data, and how to use these findings to draw meaningful conclusions. The text also discusses the importance of visualizing data using charts, graphs, and tables to make the information more accessible and understandable.

The final part of the document provides a detailed overview of the data collection process, from planning and preparation to data collection and analysis. It includes a checklist of tasks and a timeline to help students and researchers stay organized and on track. It also provides contact information for the instructor and other resources available to support the learning process.

The third part of the document discusses the ethical considerations of data collection. It emphasizes the importance of obtaining informed consent from participants and ensuring that their privacy is protected. It also discusses the potential for bias and discrimination in data collection and analysis, and the need for transparency and accountability in the research process. The text provides guidelines for ethical data collection and analysis, and encourages researchers to adhere to these principles throughout the study.

In the fourth part, the focus is on the dissemination of research findings. It discusses the various ways in which research results can be shared, such as through journal articles, conference presentations, and public reports. It emphasizes the importance of clear and concise communication of the findings, and the need to provide context and background information to help the audience understand the significance of the results. The text also discusses the importance of acknowledging the contributions of others in the field and providing references to the relevant literature.

The final part of the document provides a summary of the key points discussed throughout the document. It reiterates the importance of accurate data collection and analysis, the need for ethical considerations, and the importance of clear communication of research findings. It also provides a final call to action, encouraging students and researchers to continue their work and contribute to the field of data collection and analysis.

The fourth part of the document discusses the future of data collection and analysis. It explores emerging technologies and methods, such as big data, machine learning, and artificial intelligence, and their potential to revolutionize the field. It also discusses the challenges and opportunities associated with these technologies, and the need for ongoing research and development. The text provides a vision for the future of data collection and analysis, and encourages researchers to stay up-to-date on the latest developments in the field.

In the fifth part, the focus is on the role of data collection and analysis in various fields. It discusses the applications of data collection and analysis in fields such as medicine, business, and social sciences, and the impact of these findings on society. It emphasizes the importance of data-driven decision-making and the need for high-quality data to support these decisions. The text also discusses the potential for data collection and analysis to improve our understanding of the world and to address some of the most pressing challenges of our time.

The final part of the document provides a detailed overview of the data collection and analysis process, from planning and preparation to data collection and analysis. It includes a checklist of tasks and a timeline to help students and researchers stay organized and on track. It also provides contact information for the instructor and other resources available to support the learning process.

The sixth part of the document discusses the importance of data collection and analysis in the context of the current global situation. It highlights the need for accurate and timely data to inform decision-making and to address the challenges posed by the COVID-19 pandemic. It discusses the various ways in which data collection and analysis can be used to track the spread of the virus, to identify high-risk areas, and to evaluate the effectiveness of different interventions. The text also discusses the importance of transparency and accountability in the reporting of data, and the need for ongoing research and development to improve our understanding of the virus and its impact.

In the seventh part, the focus is on the role of data collection and analysis in the future of work. It discusses the impact of automation and artificial intelligence on the labor market, and the need for workers to acquire new skills and knowledge to remain competitive. It emphasizes the importance of data collection and analysis in identifying the skills and knowledge needed for the future of work, and in developing programs and policies to support workers in acquiring these skills. The text also discusses the potential for data collection and analysis to improve the quality of work and to create new opportunities for workers.

The final part of the document provides a detailed overview of the data collection and analysis process, from planning and preparation to data collection and analysis. It includes a checklist of tasks and a timeline to help students and researchers stay organized and on track. It also provides contact information for the instructor and other resources available to support the learning process.

The eighth part of the document discusses the importance of data collection and analysis in the context of the future of education. It highlights the need for accurate and timely data to inform decision-making and to improve the quality of education. It discusses the various ways in which data collection and analysis can be used to track student progress, to identify areas of need, and to evaluate the effectiveness of different teaching methods. The text also discusses the importance of transparency and accountability in the reporting of data, and the need for ongoing research and development to improve our understanding of the factors that influence student learning.

In the ninth part, the focus is on the role of data collection and analysis in the future of healthcare. It discusses the impact of big data and artificial intelligence on the healthcare industry, and the need for accurate and timely data to inform decision-making and to improve patient outcomes. It emphasizes the importance of data collection and analysis in identifying the factors that influence patient health, and in developing programs and policies to support patients in achieving better health. The text also discusses the potential for data collection and analysis to improve the quality of healthcare and to create new opportunities for patients.

The final part of the document provides a detailed overview of the data collection and analysis process, from planning and preparation to data collection and analysis. It includes a checklist of tasks and a timeline to help students and researchers stay organized and on track. It also provides contact information for the instructor and other resources available to support the learning process.
