The Public Bodies Review Committee represents the first comprehensive adoption of the Sunset principle by a Government outside the United States.

When reviewing the activities of a public body, the Committee is obliged by its Act to consider, *inter alia*, the following matters:

- (a) whether or not the objects of the body are worth pursuing in contemporary society;
- (b) whether or not the body pursues its objects efficiently effectively and economically;
- (c) whether or not the structure of the body is suited to the activities it performs;
- (d) whether or not the body duplicates the work of another person or body;
- (e) the financial and other liabilities and obligations of the body;
- (f) the extent to which the body seeks information as to the effect of its activities and acts on the information it receives;
- (g) the extent to which the body considers the public interest when performing its activities;
- (h) the extent to which the body encourages public participation in its activities;
- (i) the manner in which the body handles complaints about its activities; and
- (j) the extent to which the body is prepared to improve its structure, composition or procedures.

The Committee has power to commission studies relevant to its work, and invites individuals and organisations wishing to be considered for engagement by the Committee as consultants to register with it. Such applications should be accompanied by evidence of the experience of the individual or firm wishing to be registered, and should be sent to The Secretary, Public Bodies Review Committee, Parliament House, Melbourne, Vic. 3002.

- (b) whether or not the body pursues its objects efficiently effectively and economically;
- (c) whether or not the structure of the body is suited to the activities it performs;
