ECONOMIC DEVELOPMENT ACT 1981

*At the Executive Council Chamber, Melbourne, the
seventeenth day of November, 1981*

PRESENT:

His Excellency the Governor of Victoria

Mr Dixon

Mr Jenkins

In pursuance of the provisions of section 8 (1) and 8 (2) of the *Economic Development Act 1981*, No. 9567, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council of the said State, doth hereby declare the Geelong—City by the Bay development project to be a project of special significance to the economic development of the State of Victoria.

The Project

The Geelong—City by the Bay project is essentially the major implementation phase of the Geelong Central Area Study which was adopted by the Geelong Regional Commission and the Geelong City Council following an intensive public participation process. The scheme is based on the principle of redeveloping the obsolete woolstores in the waterfront vicinity and extending the retail core of the Central Business District of Geelong northwards to the foreshore of Corio Bay.

The major elements of the scheme are:

Redevelopment of the key woolstores to incorporate a major department store, supermarket and specialty shops and carparking.

Redevelopment of most of the Market Square area with a discount store, department store and specialty shops, with underground carparking.

Development of the foreshore including a traditional market, specialty food cafes and restaurants, a multi-purpose covered space, a passive relaxation area and a landscaping programme, including a bay-side boardwalk.

Development of a continuous, undercover and environmentally controlled pedestrian system—separated from vehicles, and extending from an extensive mall in Little Malop Street through the development to the bayfront boardwalk.

Reasons for the Declaration as a Project of Special Significance to the State of Victoria

Geelong is the second largest City in the State of Victoria.

A unique opportunity now exists to revitalise the central business district of the City and to plan its re-development with the concept of a "City by the Bay" as the major objective. This opportunity stems from the fact that substantial areas of the City area are under the ownership or control of two parties now desirous of undertaking new development programmes. In addition, the need to develop the waterfront area, which is Crown land vested in various parties, has been recognized for some time.

It is apparent that without proper planning and co-ordination the separate development proposals that may have emerged could prove quite detrimental to the growth of the City Centre as a whole. It is equally apparent that if development proposals could be co-ordinated and integrated, the opportunities for the City of Geelong would be unparalleled.

The project may require special legislation to provide for amendment to existing planning controls, divesting certain lands from statutory authorities, existing leases over lands under the control of the Geelong City Council, road closures, leases over developed areas and potential tourist activities.

Other aspects of the project which warrant status as a project of special significance to the economic development of the State of Victoria include:

The exciting, ground-breaking nature of the concept which is believed to be the first of its kind in Australia.

Its importance as a pilot development for other parts of Victoria and Australia.

The benefits for Victoria as a whole, as well as the Geelong region, in terms of job creation.

Its potential as a tourist/visitor attraction.

The positive recognition and support by the Victorian Government which sanctioned the project and provided funds for the feasibility study.

Benefits to the State of Victoria

1. Employment

It is estimated that the construction phase will create 500-600 jobs during the period 1982-85. Ongoing development of foreshore and building activity stimulated around the perimeter of the Central Area of Geelong should maintain construction employment levels for an extended period.

When Stage 1 has been completed, full-time employment in the area will increase by approximately 300 jobs. This will be a genuine increase in local employment. Additional employment and opportunities for further private development will arise from the substantial increase in tourism on the foreshore area.

2. Economic Activity

Regional

A detailed analysis of retail potential has been undertaken to determine the feasibility of the scheme. Population growth and continued real increases in retail spending over the period 1981 to 1985 are predicted to produce an annual growth of \$8.1 million in retail expenditure available to retail centres in the Geelong urban area. A further source of increased sales, resulting from the impact of the proposed redevelopment in the Central Area, is the predicted retention of \$20 million of retail expenditure which is currently "escaping" from the Geelong Region. Thus it is estimated that by 1985 an additional \$44 million of retail spending will be available in the Central Area, after making allowances for a proportion of retail spending growth elsewhere in the Region.

Tourism

The "City by the Bay" scheme will be unique in Australia and as such would attract interstate and overseas tourists and increase the utilization of existing convention venues.

The tourism potential is based on the tapping of the 1.8 million overnight visitors and 1.9 million day trippers who visit the Geelong region annually, and a market analyses of tourist developments elsewhere in Australia and overseas. The scheme will also make Corio Bay even more desirable for national and international yatching events.

And the Honourable James Halford Ramsay, Her Majesty's Minister for Economic Development in the State of Victoria, shall give the necessary directions herein accordingly.

ECONOMIC DEVELOPMENT ACT 1981

At the Executive Council Chamber, Melbourne, the seventeenth day of November, 1981

PRESENT:

His Excellency the Governor of Victoria

Mr Dixon

Mr Jenkins

In pursuance of the provisions of section 8 (1) and (2) of the *Economic Development Act 1981*, His Excellency the Governor of the State of Victoria by and with the advice of the Executive Council of the said State, doth hereby declare the development of the Laverton North Offensive Industrial Zone to be a project of special significance to the economic development of the State of Victoria.

The Project

The Laverton North Offensive Industrial Zone covers 460 ha of flat land suitable for industrial development. It is traversed by the main outfall sewer and is adjacent to the Melbourne-Geelong freeway which provides direct access to the Port of Melbourne via the Westgate Bridge. The area is between large highly-skilled population centres at Werribee and the western suburbs, but sufficiently distant to avoid pollution difficulties in the nearest residential areas.

Reasons for Declaration as a Project of Special Significance to the State of Victoria

The Offensive Industrial Zone at Laverton North is the most significant in the State in terms of its extent and close proximity to the major population centres at Melbourne and Geelong.

The Shire of Werribee, in response to the community's requirements for local job opportunities and the need to broaden the Shire's economic base has actively been promoting the Laverton North Industrial area. It has co-operated extensively with established industries to campaign for improved services and simplified development control. The Shire has sought the support of the State Government to overcome difficulties which have prejudiced the area's development.

Declaration of the project as having special significance will enable the Minister for Economic Development to—

- make representation to the appropriate Government agencies to review legislative provisions which can be demonstrated to cause unnecessary delays;
- seek special allocation for funds to augment existing reticulated services when deemed appropriate;
- demonstrate State Government support for development of this significant area.

Importance of the Project

Employment

Approximately 3000 are employed in the general area at the present time and job growth has been slow in the past. Removal of disincentives to development and active Government support will imbue confidence in the industry sector and result in increased job opportunities.

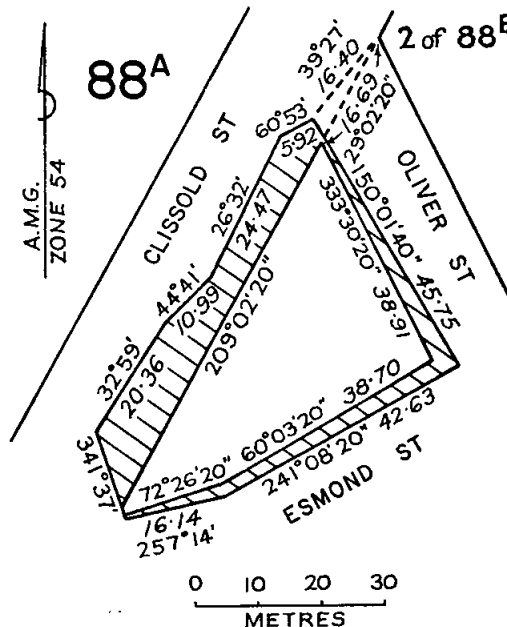

Economic Activity

Similarly, Government encouragement and a streamlined development approvals process will act to stimulate industrial confidence and remove any disinclination of existing industries to expand in the area. The project will provide a highly visible demonstration of the Government's intention to get industry moving assisted by a local council that is actively involved in promotion and strongly motivated towards development of the area.

And the Honourable James Halford Ramsay, M.P., Her Majesty's Minister for Economic Development for the State of Victoria, shall give the necessary directions herein accordingly.
