REPORT ON THE THIRD PUBLIC MEETING OF
THE PUBLIC SERVICE BOARD

The third Public Meeting of the Public Service Board was held on 7 July 1983. The three issues dealt with were:

- The Role of Internal Audit in the Victorian Public Service.
- Policies and Practices Concerning the Prescription of Qualifications in the Victorian Public Service.
- Proposed Abolition of Divisional Barriers in the Victorian Public Service.

1. The Role of Internal Audit in the Victorian Public Service:

At this meeting, the Board made clear its intentions in relation to the internal audit function, viz:

- (i) That the role of Internal Auditors be clarified and strengthened;
- (ii) That a shift from transactions-based auditing to systems-based auditing be encouraged; and
- (iii) That the internal audit function in departments be upgraded as a pre-condition to the approval of any new organization structures.

However, from written submissions and from comments made at the meeting, it is evident that several important issues require resolution before a revised role statement can be issued.

The Board has therefore decided to set up an informal review committee comprising representatives of the Board, the Auditor-General's Office, the Department of Management and Budget and the Institute of Internal Auditors to resolve these issues so that a revised role statement can be agreed.

2. The Prescription of Qualifications in the Victorian Public Service:

The purpose of this paper was to recommend that the prescription of mandatory qualifications when positions are to be filled should in future be limited to recognized and verifiable

educational and training qualifications. At the meeting it was recommended that the summary statement of duties and qualifications be replaced by the proposed PSB form 26.2 together with a person specification.

Subsequently, the Board has decided that the full duty statement (PSB 26.2) should replace the summary statement of duties and qualifications as the formal document for all classification purposes; that the person specification form (PSB 26.5) is required for all selection and promotion purposes, and that pilot testing of all PSB 26. series forms commence in all departments for a period of 6 months as per guidelines to be issued by the Board.

3. Abolition of Divisions within the Victorian Public Service:

The Director of the Board's Policy Division presented a paper which outlined the principal findings from a review undertaken within the Board's office examining the role of the divisional structure and analysing the implications of its abolition. All who spoke at the meeting endorsed the general aim of abolishing divisional barriers.

Specifically, it was proposed that steps be taken to implement the Board's 1977 decision in principle to abolish the divisional structure in the Victorian Public Service. The main action needing to be taken is:

- (i) Amendment to the *Public Service Act* 1974, removing references to the divisional structure;
- (ii) Amendment to the Public Service Regulations and Determinations in accordance with amendments to the Public Service Act removing references to the divisional structure;
- (iii) Review and identification of entry levels and qualifications required for classes of officers within the service which can stand independently of the divisional structure and development of appropriate standards for appointment and selection to the service.
