## MEDICAL BOARD OF VICTORIA

Record of Temporary Medical Registrations as at 30 June 1984

Printed and published under the direction of the Medical Board of Victoria pursuant to the provisions of section 27 of the *Medical Practitioners Act 1970*.

Section 27 of the *Medical Practitioners Act 1970* states, *inter alia*:

Section 27 (2) enables the Board to apply conditions and limitations when issuing a certificate of temporary registration.

Temporary registrants will in general be required to work *either*—

- (a) under the *general supervision* of and within the applicant institution or an officially related institution, or with the approval of the applicant institution within separate institutions of the same standard as the applicant institution.

When these conditions are to apply, Class 1 temporary registration may be granted; or

- (b) under the direct supervision of *qualified members of the staff* of the applicant institution and only within the applicant institution or an officially related institution. If specifically sought by the applicant institution, the Board may grant permission for the registrant to work outside the applicant institution or an officially related institution provided that such work is solely within the practice of the designated qualified member of the staff of the sponsoring institution and under his constant direct supervision. Under these conditions the temporary registrant may *not*—

- (i) act as the principal treating doctor in the clinical management of patients;
- (ii) render accounts except as an assistant to the designated qualified member of the staff of the applicant institution.

When these conditions apply to Class 1 temporary registration may be granted.

## Section 27 (3) states:

Every such certificate shall in the first place be issued for a period of not more than two years, but upon application in writing by the governing body of a teaching or research institution during the currency of the certificate the Board may, from time to time, renew the certificate for a further period or periods of not more than one year in respect of each such application, but so that the maximum period for which a certificate may be in force under this section in respect of any person shall not in the aggregate exceed four years.

## Section 27 (4) states:

The Board may at any time cancel any certificate issued or renewed under this section and thereupon the certificate shall cease to have any force or effect.

# Workers' Compensation

How does a compensation system strike a balance between the "dictates of humanity" and "economic necessity"?

A unique and exhaustive resource is now available to service this debate – in the form of the Report of the Cooney Enquiry into the Victorian Workers' Compensation System. The Report provides specific chapters on the following key issues:

- Pay-as-you-go versus Funded Schemes
- Central funds
- Insurers
- Self-Insurance
- Common Law
- Lump Sums
- Benefits
- Rehabilitation
- Safety
- Administrative versus Adversary systems

In the current national climate of extensive review of workers' compensation systems this Victorian Report is essential reading for unions, employers, Government administrators, academics, students and practitioners in this area.
